## U. M. C. CARTRIDGES

for every gun in camp

Different men differ as to their favorite kind of rifle. Practically all agree, however, on U. M. C. Cartridges. A glimpse at the interior of most any hunting shack presents these facts. There is a reason. U. M. C. Cartridges are made to fit and are tested in all the different styles of rifles made by the different arms companies.

Every rifle does better shooting with U. M. C. Cartridges.

## RANGELEY LAKE HOUSE.

This is the distributing point for the great Rangeley Lakes region. It is reached by one day's ride from Boston. Strictly first-class service is found here. Many of our patrons say that there is nothing wanting. We have trout and salmon fishing, golf, tennis, boating, beautiful drives and walks. Write for illustrated booklet to the

## We Are Already

To offer you a good place in which to have a good time, also the best fly-fishing to be had in Maine.

It is not for the firm of Ed Grant & Sons to tell you of the merits of Seven Ponds and Kennebago. We let our friends do that but we do guarantee you the best of service in every respect. Our guests will be glad to know that we have added some of the latest improvements to our camps, such as the Victoria Acetylene Gas Plant, also repairs on our camps and completion of new log camps, thus combining all the comforts of civilization with the delights of the woods. We already have the best of telephone and telegraph service.

We wish to call special attention to the extension of our ticket line. Tickets can be bought in all of the principal cities east of Buffalo to Loon Lake, Kennebago and return. This new arrangement saves you money. Price of tickets Boston to Kennebago and return, \$14.50; New York to Kennebago and return, via Sound lines, \$22.50; via rail, \$24.50 (either via Boston or via Worcester and Portland). Our bookboards are in constant attendance on all trains, or boats arriving at Rangeley. The Maine Steamship Company sell tickets from New York to Portland and return for \$8.00; Portland to Kennebago and return, \$10.00.

Parties can leave Boston at 9 o'clock a. m., on either the Eastern or Western division of the Boston & Maine railroad for Portland, Maine Central to Farmington and the Sandy River and Phillips & Rangeley railroads to Rangeley, or from Portland via Maine Central to Rumford Junction, Portland & Rumford Falls railroad to South Rangeley and the Rangeley Lakes steamboats to Rangeley.

New Train Service—In addition to the former transportation facilities, sleepers will run each way between Boston and Rangeley every night, Sundays included, through the season of 1906. Trains reach Rangeley in time for breakfast. The schedule will take effect June 4, 1906. Train leaves Boston at 10 p. m., arriving at Rangeley at 7.30 a. m. Returning train leaves Rangeley at 6.30 p. m., arriving in Boston early the next morning.

## Mooselookmeguntic House.

I have leased the Mooselookmeguntic House and Log Cabins, situated on the shore of Mooselookmeguntic Lake, being the nearest place to the best fishing grounds in the Rangeley Lake region. Best trout and salmon fishing, good partridge and deer hunting, also excellent fly fishing in ponds near by. The hotel is centrally located having the advantage of good fishing within a few feet of the piazzas and pleasant walks and drives near hotel.

I have been associated with Mr. Theodore L. Page for several years in the management of this hotel and cabins, and am thoroughly acquainted with the business and the Rangeley Lake region. All white help employed. Will open about May 10th. Send for free circular.

Salmon In The Ice.

C. A. Spaulding writes under recent date from Pierce Pond camps as follows: For fish oddities I found a 6 pound salmon about May 1 frozen into the ice; he was in a good state of preservation, the ice was about 15 inches thick and the salmon was about half way down. How did he get there?

Killed Skunk Quickly.

A certain proprietor of a Maine hotel, is regarded as a sure shot and the effective manner in which he disposed of a large skunk one night proves that his skill is not over estimated. He had noticed that the bees in one of his hives had been growing beautifully less and that marks as if something had scratched there, were on the bottom board of the hive near where the bees go in and come out. A man was set to watch one night. He had not long to wait for soon a skunk came and commenced to scratch on the board; this performance caused the bees to crawl out. The skunk ate them as fast as they appeared. The man notified the proprietor, who came out with the old gun and shot the skunk, killing him so suddenly that not a particle of odor was noticed.

Fox Killed With Stones.

A Massachusetts man is looked upon as a veritable David for stone slinging. He was walking in the woods when his dog that accompanied him, jumped a fox. The hunter's gun was at home, so just for fun he grabbed up a stone and slung it at Reynard. Imagine the man's surprise when he found he had hit the fox and had killed him, the stone hitting him in the neck fracturing the spinal column.

Hook In Trouts Mouth.

One of the Rangeley village boys, while fishing at Mr. Porters wharf, caught a 2-pound trout and in its mouth he found three fish hooks besides the one he caught him with. The lad says that a line hung from one of the hooks in the trouts mouth and that this line was so rotten that it would hardly hold together. So it must have been in the trouts mouth a year or two.

Woodchucks Long Sleep.

An odd pet owned by a Brunswick family, is a woodchuck which lives in a hole near the rear of the house, and always comes out when the skimming of he milk is going on, in which he appears to be very much interested. Last fall he seemed to be very sleepy and disappeared, and nothing more was seen of him until Fast Day, when he reappeared. He had been in a state of hibernation for seven months and one day. He was very glad to see the family and was in very good flesh despite his long winter's sleep.

A Very Peculiar Fish.

A collector of strange fishes was showing a friend some of his specimens. He said: "I told him to wait a few minutes and I would show him something that would surprise him. The fish was liberally sprinkled with small white spots on the back and sides, these being placed so as to form traverse bands around the creature. Under my directions a small aquarium was placed in the centre of his office and the windows shades pulled down so as to make the room dark.

"I then placed the fish in the aquarium. For a minute or two we sat in silence watching the tank, when suddenly a flash of light was seen through the glass sides. For several minutes this was followed by intermittent flashes of light, and then suddenly a streak of bright light burst forth, illuminating the tank.

"This streak seemed to run up and down the body of the fish, creating the appearance of clouds of light passing over it. Cries of admiration burst forth almost involuntarily from the beholders at the magnificent sight, and all wanted to know how it was done.

"Raising the curtain I showed them what caused the phenomena. The fish had the power of illuminating the white spots on his body at will and was able to do so either singly or altogether, thus being able to direct the light in any direction desired. Unfortunately for the curious sightseers of this city the fish died before it could be placed on exhibition.

The *Marlin* Baby Featherweight Repeater. A new high-grade .22 caliber repeating rifle which weighs only 3 pounds 10 ounces!

But this gun is no toy. It is a new and business-like rifle. It combines all the good old *Marlin* features—solid top, side ejection and simple mechanism—with the newer sliding forearm action which is so easy to work without spoiling the aim.

The reduction of cost and weight is positively not at the expense of *Marlin* quality. The high standard *Marlin* drop forgings are used in the breech block, frame and inside working parts. The rifle has the pleasant *Marlin* balance. Both .22 short and .22 long-rifle cartridges can, by means of an extra carrier, be used in the same gun—a *Marlin* feature which all rifle shooters greatly enjoy.

If your dealer cannot supply you write us direct. A complete description of this little rifle is given in our 1906 Catalogue. Sent FREE for six cents postage.

RANGELEY LAKE HOUSE.

RECORD BREAKING SEASON THUS FAR FOR THE HOUSE.

33 Salmon, 4 Trout Last Week's Fish Record. Many Prominent People Now Tarrying at the Hotel.

(Special Correspondence to MAINE WOODS.)

RANGELEY LAKE HOUSE, RANGELEY, May 30, 1906.

June days have come and the spring has passed. This hotel has been open two weeks and there have been more guests entertained than ever before in May.

For some, the fishing has been extra. While "not all who fish catch fish" yet the record that hangs in this office shows that more weighing three pounds and over, have been taken since the ice left the lake than ever before in the same length of time.

This last week 34 salmon and three trout are reported, and those smaller are not spoken of; yet if one went fishing any where else except at the Rangeleys a two pound trout will be considered a "feller."

On Saturday and on Sunday Capt. Hamilton Perkins of Boston caught four record fish, the eight weighing over 30 pounds.

Two 6-pound salmon and four 5-pounders, the others weighing from 3 to 4 pounds, is the week's record.

Mr. and Mrs. James Freeman of Boston were here for a short stay on their way to T pond near Eustis, where for several weeks they are camping.

Mr. and Mrs. William Cunningham and daughter of New York stopped here on their arrival and have now opened their summer home on the lake shore. With their coachman driving the handsomest pair of horses ever seen here, they attract much admiration as they drive over the country.

Last Wednesday the railroad commissioners came with a special train that was the first to run on the extension to the hotel grounds. Everyone expressed much interest in the train service that begins next Monday, when one can leave New York late in the afternoon and take breakfast at this hotel the next morning. Three daily trains direct from New York and Boston, makes Rangeley fishing easy to reach.

The three Bostonians, Capt. H. G. Colby, Capt. Hamilton Perkins and Charles F. Hutchins, are greatly enjoying their outing and Capt. Perkins is high line among the guests here for the past week.

J. B. Flaherty of New York was very proud of his 7-pound salmon and his friends cannot tell a better fish story. Percy Gardiner no doubt could have, if the big salmon that for nearly two hours took him over the lake, had not escaped with part of his tackle.

Mr. Gardiner and A. T. Sansbury went from here to Belgrade lakes for the bass fishing. The other members of the party, J. H. Spofford, O. B. Newhouse, M. C. Migel and H. C. Ounnele returning to New York.

J. W. Cassell and wife of New York, who for a week have been at Grant's Camps, Kennebago where they had a fine time, returned home Wednesday.

The following party came Tuesday via Farmington on their way to Upper Dam: Mr. and Mrs. L. R. Eddy, of Webster, Mass.; Mr. and Mrs. E. Bartlett, Mrs. E. N. Bartlett and son of No. Oxford, Mass.

E. S. Lowe, the popular conductor on

The Hotel Co. are building a large stable 40x60 feet, just beyond the railroad track which will be the finest in the country.

Here the herd of nearly 20 cows will be kept. There is on one floor room to keep the automobiles, and everything will be convenient and well furnished.

The trees that were planted on the hotel grounds last season are looking well; out of 150 only two had to be replaced this spring.

As yet the names of but two ladies appear on the record, Mrs. E. Guckenheimer of New York who has a 4 1-2, 3 1-2 and 3-pound salmon to her credit and her friend Mrs. J. Stern a 4 1-2-pound salmon.

Mr. J. E. Reynolds of East Orange, N. J., who has been coming here for many seasons was welcomed Monday by old friends.

On May 9, the Beauseant Commandery K. T. of Malden and ladies, about 300 strong are to arrive at this hotel for a stay of four days.

The following is the fish record for the past week: May 23, C. P. Stevens, Malden, 3-pound salmon. Aaron Soule, guide. Mrs. J. Stern, New York, 4 1-2-pound salmon; Mell Tibbetts,

Mexican Palm Leaf Hat 50c.

An ideal hat for fishing, camping, and the seashore. No hat procurable at double the price we ask is as suitable for the hunter, camper or fisherman as our hand-woven Mexican Palm Leaf Hats. These are woven entirely by hand by skilled Mexicans in Mexico, from strong, palm fibre, especially for us, and we import them direct. They are double weave, durable and light in weight.

This hat is light weight but very strong with colored design woven in brim. It retails for \$1.00, but we send it to any address, prepaid, for only 50c, as a leader. The same hat in plain design 40c, or the two hats—one colored and one plain for 75c. All sizes: large, medium and small.

This hat is similar grade to the above, but plain design, larger size, taller crown, and with 6 inch brim, yet weighs only six ounces. Regular \$1.50 value, sent prepaid for 75c. An ideal fisherman's hat. All sizes.

Send for our illustrated booklet of Mexican hats free to any address. Buffalo N. Y., 9-15-05. Myself and wife spent a month under your Mexican-ian sombreros you sent us some time ago. They were much admired by residents at the lakes.—H. E. Spaulding.

MOUNTAIN VIEW HOUSE.

FISHING AND SPIRITS GOOD IF THE WEATHER IS BAD.

Mr. Noyes a Visitor Here For Several Seasons Gets His Record Fish. Damon Party Joined by Friends.

[Special correspondence to MAINE WOODS.]

MOUNTAIN VIEW,

May 29, 1906.

The fishermen have fished in the rain as contented and happy during the past week as when the days were bright and clear, for the trout and salmon have been hungry and ready for a strike. Everyone has been successful from the little fellow who has fished from the wharf to the lazy fisherman who did not start out with his guide until 3 o'clock in the afternoon.

All are glad to welcome Mr. E. O. Noyes of Brockton, Mass., who was in San Francisco at the time of the earthquake. Mr. N. will as usual, spend most of the summer here.

"I have caught my record fish, a 3-pound salmon" and now he will let the others make a record.

G. R. Coyle and E. R. Kimball of Boston are here for a ten days' fishing trip.

Dr. and Mrs. C. M. Bisbee of Rumford Falls are here this week.

The Damon party have been joined by F. Nichols and J. Shirreff of Fitchburg, Mass. who came Saturday. Mr. Damon is keeping his fame as a fisherman, for during the past week he has recorded three salmon of 3, 4 and 5 pounds and a 3-pound trout and the smaller ones don't count.

Mr. F. J. Pierce of Gardiner, Mass., is the one whose name has been inscribed five times this week on the fish record, for he has caught a 3 and a 3 1-4 pound trout, and salmon of 3 1-4, 3 1-2 and 3 pounds.

J. H. Prince of Brookline, Mass., has taken some good ones, although none over 4 pounds.

The fishing on Rangeley lake never was better and as many as can hire a boat come over from the big lake for the day's sport.

Seven gentleman and their guides who came from Haines Landing have just started out from here.

Miss Ida Newton of Rumford Falls caught a 4 pound trout here on Monday.

H. W. Northey and friend Wm. W. Coolidge of Salem were here on their return from a two weeks sojourn at the cottage on the lake.

Their box of fish proved their success.

Arthur H. Pray of Boston who with his family spent three months last season occupying the big cottage, is here with two friends, Edwin B. Cox and W. P. Defriey of Brooklin, Mass., for a fishing trip and to complete arrangements for the coming of his family in June. B. McCard and L. Haley are their guides.

John A. Dady of Putnam, Conn., with W. L. and F. S. Kennedy are here for a week and having good luck.

W. A. Garrigues of Plainfield, N. J., who is for the first time trying the Rangeley fishing. Jess Ross is his guide and he is greatly pleased with his success.

THE BIRCHES, May 29, 1906.

The rainy days of the past few weeks have not dampened the enthusiasm of the fishermen, although some have done most of their fishing by the campfire.

On Saturday some 30 guests arrived, the well known Hall party among them, and "a happy seven" they are Messrs. John A. Hall, C. T. Hill, G. C. Winter of Southbridge, Mass., Wm. F. Edleson, T. F. Baxter, Wm. Smith, J. P. Alcott of Boston. They have camps Idlewile, Forest Island and Wood Nook. Their guides are Jack McKinnon, Bob Martin, Charles Moore.

Lucky Temple Fisherman.

Frank Gilbert was one of the lucky fisherman on the brooks of Temple last week. We do not know the number but they nearly filled a large sized fish basket.

Will Fish In Canada.

Sheriff W. S. Tuttle of Cheshire county, Keene, N. H., writes that he will make his fishing trip to Lake St. Johns, Canada, this summer.

Lucky Strong Lady.

Mrs. F. L. Dyer of Strong landed a 5-pound toad at Sweet's pond the first of the week.

artificial flies which were used in connection.

The Tisdale, party of Leominster, Mass., including Leon A. Tisdale, A. A. Tisdale, Hamilton P. Bassett, Elmer H. Bates, Frank Cook and Dr. G. H. Woodbury, will complete its visit during the week. Some splendid strings of trout and togue have been taken, but the members prefer to flash their total catch upon the waiting public, rather than give it out in installments. A. A. Tisdale went out Thursday and E. B. Kingham and F. S. Farnsworth, joined the party later in the week.

Over at Sand Bar Farm, the Camp

cast from the same mould and colored from the same palette.

Mr. and Mrs. Vincent Kerenes of St. Louis, are much upon the water and always with good success, Mr. Kerene best trout being 4 1-4 pounds. They will remain sometime longer; in fact, are considering spending the entire season here.

Julius Oelbermann of Philadelphia, comes for a long sojourn and will regain strength with the fly rod. He tried his luck for the first time last week and has been out daily since.

A. W. Chesterton, C. B. Devereaux, T. E. Fairbanks and F. D. Hall of Boston, returned and are enjoying good sport.

Mr. and Mrs. A. P. Graham of Haverhill return home after ten days at the North West carry: John J. Pew and W. G. Brown of Gloucester, are also located here.

Among the exceptional early season fly fishing records Charles Stetson, of Boston, is among the high line anglers with numerous fine strings, the best being 15 trout weighing over 20 pounds and ranging in weight from 1 to 3 pounds. Phillips Dalton of Milton, who was Mr. Stetson's companion, used the troll some and made somewhat better records in consequence, one string of 11 beautiful trout weighing 19 pounds; a 9 pound togue and a 6 pound salmon being the big fish taken by Mr. Dalton during his three days stay.

W. E. Hawkins of New York, who is here for a long sojourn and will be joined shortly by his wife, is out from morning until dark and big catches are the rule, the artificial fly being depended on almost entirely. His best catch is a record breaker, 28 trout in all, and he has taken strings ranging from a dozen to twenty daily.

One of the big strings of the past week went to a party of Bangor anglers headed by General Passenger Agent Charles C. Brown of the Bangor & Aroostook railroad and including Charles H. Glass, Charles J. Wiggin, John T. Bowler, with F. E. Choate

Comfort club is making merry and taking many fine fish, the party including John Booth, Alonzo Hazard, Fred Crawford, Milton Paine, Charles E. Harrison and Fred L. Parker. Judge Wilfred Bolster and William P. McKinney of Boston, spent a portion of the week at the camp after their usual custom.

Among the big individual catches Mr. and Mrs. G. D. B. Bonbright of

ing and trolling are combining to delight the hearts of the small army of anglers which is assembled here from all sections of the country. Never have the catches been more generally satisfactory or the fishermen been better satisfied with themselves and the world. There is life in the air, there is glory in the sunshine and the trout are eager. What more could the sportsmen ask for!

An eager group each evening awaits the return of the fisherman and witnesses the spreading out of the creels upon the lawn in front of the hotel, and no evening is disappointing. Trout by the score there have been, plenty of togue and several handsome salmon, totaling hundreds of pounds in weight.

In the big records of the Foster party of Boston, including Mr. and Mrs. A. D. Foster, Master Francis Foster and J. G. Wildman, have been conspicuous in that they have kept a careful record of their trip, landing in ten days 100 trout and a few togue weighing 250 pounds, and including trout and salmon weighing 4-pounds each. In spite of this showing the party left Thursday noon feeling that their "luck" had hardly been as good as "usual." It must be remembered, however, that this party has been annual visitors for years, and their records usually lead.

The "Crouching Cougars" including Charles A. Peeling, F. H. Lothrop, L. E. Small, C. G. Small, A. S. Tripp, Charles A. Brown, William P. Church, Whitman Sawyer, S. B. Spencer, Augustus Fales and William I. Blumberg had excellent fishing, but total numbers and total weights were given little attention, the annual conclave being more an occasion for merry making than fishing. Mr. Blumberg carried off individual honors with several big trout togue, weighing 5 1-2 and 6 1-2 pounds, and a 3-pound salmon. He also has the unusual experience of landing three trout totaling 4-pounds in weight, on one troll; one fish taking the spinner and two others fastening themselves to

Rochester, N. Y., hold an important place, their strings for last Tuesday and Wednesday numbering forty-three and thirty four trout respectively; both very close to the legal limit allowed by law. Mr. Bonbright has also taken a couple of handsome salmon and some big lakere.

Geo. W. Powers of New York, who is now regarded as one of the community through repeated and extended visits, has enjoyed excellent success, one of his strings including ten beautiful trout weighing 21 pounds; so near alike that they appeared to have been

and F. E. DeLane of Boston, as guests. They spent Sunday here and found the fish hungry, landing a string of thirty trout and togue weighing over fifty pounds.

Another big catch came to the creel of Samuel T. White, Will Whitman and F. S. Estes of Bangor, who took fifty pounds of trout in a half a days fishing; trout being secured on the artificial fly by Mr. Whitman, one after another, from the same "hole."

Game Warden "Tim" Pollard and Commissioner E. E. Ring had great

luck, securing the legal limit of trout in a forenoon's fishing.

One of the best strings here this season was brought in by George Cripps the veteran guide, Wednesday, eight trout weighing twenty-five pounds, seven of the fish being three pounders as near alike in size and color as buckshot, and the eighth a splendid four pounder.

At the Night Hawk club, at Sugar Island, Mr. and Mrs. A. H. Shaw of Bath, Dr. Thayer of Portland, Dr. Hiram Hunt and W. M. Shaw of Greenville, have been guests and fishing has been excellent. Manager Harry W. Priest, the popular manager of the Caroline, Pinehurst, North Carolina, and the Hotel Preston, Peach Bluff, Mass., has gone after a ten days stay with Mrs. Priest and Miss Lucy. Dr. McGann of Aiken, Mrs. Armstrong and Mrs. Swiebert of New York, were also recent guests.

Fred R. Spear of Rockland is here for fishing with C. L. Dennis of Melrose.

The splendid weather has tempted many into the wilderness, and a high pitch of water is giving canoeing an exhilaration which it will not possess later in the year.

The first sportsman to go in this season was Munroe Stiner of Brooklyn, who made the West Branch trip with Herman Templeton, and enjoyed every minute of it, finding fish in plenty.

Close after them were Hord A. Oolby, William P. Herrick, and G. P. Herrick of New York, who are making the first visit of the season to Mr. Colby's camps at Mud Pond Carry.

Dr. Benj. Tenney and Hamilton Hill of Boston, are making the famous St. John's trip, the first of the season to attempt it, and will be gone two weeks or longer.

W. J. Newton of Waltham, is located in camp on the Moose river and will remain until October, building up strength.

Charles S. Darling and William C. Redfield of Boston, and their two sons, are in camp on the lake shore, not far away.

Nathaniel C. Nash of Boston, and F. A. Seamans of Salem, return for their annual visit to their camp at Green Island, near the North West carry.

A. J. Dudley of Brooklyn, is entertaining friends at his private camp at North West carry.

Two familiar faces will be missed among the anglers this season death having removed recently George A. Fales of Boston, and T. J. O'Donohue of New York.

Mr. Fales was an early fisherman who came annually for a score of years, and as much of a veteran as his favorite guide, Miles Colbath. Brusque to the point of fascination, because of his keen appreciation of dry humor, Mr. Fales was known to everybody, and was extremely popular. As an angler he seemed continually up against what is best known as "hard luck," but in spite of this his records taken as a whole, hold their own with the best of them.

Mr. O'Donohue had spent his summers here for so many, many years that he was a part and parcel of the place. A more ardent angler or truer sportsman, Kineo has never seen and never will see, and the joy he experienced when he had succeeded in tempting a big fellow to take one of his flies, was so contagious that it spread throughout the entire hotel. Always well groomed, always perfect in his manners, and kindly and genial in his speech, he will be sadly missed by the many who had come to call him friend.

## MARBLE'S SAFETY CARVER.

Safe, Strong, Sanitary, Sensible.

We may justly describe this knife as an "eight inch pocket knife," for when folded it is absolutely safe and occupies a space of 5-16 inches thick by 8 inches long. It weighs only 4 ounces.

The blade is of razor steel. The U shaped handle sections are of German silver, heavily reinforced at end where blade bears on them. When open the knife is as rigid as a one piece knife. Boiling water cannot injure this handle.

The knife may be easily closed by pushing back the clasp, grasping the sides of the blade with one hand and with the other pulling the outer handle down and back; then the blade is folded and the clasp pushed over it.

Many guides have seen this knife and all claim it fills to perfection a long felt want.

Marble makes a Safety saw with 8 inch blade on the same principle as the carver. It is invaluable to all people who go into the woods and especially so to the student of forestry and botany.

Fly Rod's Note Book.

There are many attractions at the Mountain View House, and one which the guests enjoy is taking a walk up to the large stable where Landlord Bowley has some of the finest horses in this part of the state. You will most always find George Church who handles the reins with much skill as he drives parties over the hills. George has just added a Rambler, we mean a rambling automobile, to his possessions, and if he can drive that with the same skill he does the horses automobiling will be quite a fad at the Mountain View.

Not only the fine horses receive much admiration, but there is a pair of handsome yellow cats Punch and Judy, who for five years have made the stable their home and they never have been to the piazza of the hotel. These cats are quite jealous of a beautiful Scotch collie "Pete," the new dog that everybody has a good word for.

Yes, it is the old story not always the expensive tackle skillfully handled by the expert city fisherman takes the biggest fish, for even a maiden can "catch 'um" and the young lady living on the lake shore near Bemis holds a record that many an angler would give a good sum to claim as his.

Last Tuesday this maiden went fishing, and something happened. A big fish struck, he made a mighty pull at one end of the line, and at the same time she began to pull at the other; for a time it was a question who would win, but hand over hand excitedly she pulled him into the boat. It was an old time Rangeley trout that brought the steelyards down to the notch of 8 pounds 15 ounces!!! This is a real fish fact and we can prove the story even if old Bill Jones is dead.

On the steamer the other morning I met Frank Jacobs who with a crew of men for several weeks past has been engaged in building a fine set of camps on Cupsuptic lake for Messrs. Teel and Patterson of New York City. These camps are called "The Ledges" and are to replace the set that were burned last season.

There are three log camps under one roof 43x90 feet. They have large stone fireplaces, broad piazzas and every comfort and convenience.

The party is expected the first of June.

Mr. Jacobs has also built a camp at Gull Pond this spring for Mr. Wadsworth of New York.

One of the best stories that has occurred this spring happened at the Mountain View House last week.

A city "sport" who with his guide had trolled all day, and not a strike, returned quite disgusted, and standing on the piazza remarked before the others.

"I don't believe there is a d--d fish in this lake."

A nine-years-old lad, Master Fred Young, who boards at the hotel and has caught some fifty trout off the wharf, quickly answered.

"Oh, yes, there is lots of them, Mister. I can catch them."

"You catch fish! I'll give you a dollar for every fish you can catch, youngster" said the disgusted fisherman.

Master Fred took his rod and tin can of worms and run down to the wharf, dropped hook with a tempting bait into the water and in less than ten minutes landed two good sized trout.

Of course the crowd on the piazza had increased; they gave a shout as the gentleman passed the little chap a \$2.00 bill, and it will cost him many a cigar, for the story will be repeated.

"Not all who fish catch fish" is as true now as ever it was.

I was over to Upper Dam this week just long enough to take a few notes while talking fish with some of the guests.

W. D. Brackett of Boston one of the "old timers" was contented even if his largest was "only a 4 pound salmon."

Mr. B. has during his more than thirty springs fishing at Upper Dam landed many an 8-pound trout. I think he is the only one who still "cars" his fish as all used to do in days gone by.

That is, when a fish is not badly hooked he is put in a box made of slats, or in such a way that the water passes through, and kept there until one is wanted to eat, or when ready to go home. The fish that are to be taken are killed, and the others returned to the lake.

Mr. Brackett is a most entertaining gentleman, and his stories of what the fishing used to be, the many changes and improvements is very interesting.

It is a little strange to hear the telephone bell way off here but it is greatly appreciated by the guests.

The line runs from Bemis along the shore a distance of ten miles.

No doubt before many years a good carriage road will be built over this route.

Freeman Howe of Norway keeps up his fame, and on Saturday with a fly caught some trout the largest 3 1-2 pounds.

C. R. Young of New York is having good luck, most of his fish have been trout, the largest 4 pounds.

Rev. Fr. P. A. Lynch of Hoosick, N. Y., was here last week for a day's rest, and took a nice string of trout.

Dr. H. F. Twitchell of Portland, Dr. M. McCarly of Rumford Falls accompanied by their wives were here part of the week.

Geo. B. Bearce of Lewiston has opened Camp Kirk and entertained Col. A. B. Nealey over Sunday.

Mr. and Mrs. Chas. S. Goodridge and daughter, Miss Bessie, and Wm. La Croix have joined the Lynn, Mass., party.

Mr. and Mrs. Richard Inyalese of New York City are here for a two weeks' sojourn.

Benj. Pearson of Byfield, Mass., has opened his camp, Deer Park Lodge and with his son are now entertaining guests.

Black Point Camp is also open.

"Pop Coombs party" passed the week at Midway Camp. The following gentlemen made up the happy company: Fred Sargent of Boston, Henry Hanson of Auburn, E. H. White, Fred Maines, Ed D. Parlin and Geo. M. Coombs of Lewiston.

All caught fish Mr. Hanson was high line. Mr. Sargent caught a 4-pound trout. Mr. White a salmon, 4 1-4 pounds. Mr. Parlin's largest was a 3-pound salmon.

Their guides were Paul Stratton, Joe Morin and Geo. Storer.

On Sunday a party of twenty at Upper Dam decided to enjoy the day in God's great out-of-doors. They chartered steamer Richardson, went up the Cupsuptic stream for a shore dinner.

W. D. Brackett caught a 2 1-2-pound trout and W. G. Fisher of New York one of 5 1-2 pounds.

Can any dish be more appetizing than a trout chowder, cooked on the shore, and the fish "caught when wanted?"

Silas Strong.

Irving Bacheller's latest book is Silas Strong, dedicated to the lover of the woods in their primeval glory. It is a delightful book taken from every point of view, but the secret of the whole is reflected in the touching ending, "And knew not that it was impossible."

"Uncle Sile," is the central character in a strong book. He has a singular force of expression at times, in words that were up against the ruthless destroyers of his beloved forests. The geedy monster, business, is always in this path and it is against the march of civilization that Sile is constantly striving.

All through the book is a charmingly told love story, whose hero and heroine are thoroughly in sympathy with Silas Strong and his purposes, but, who, like him, are hampered by the avarice of men and their unholy alliances for the sake of their own enrichment. To quote the author he says, in the foreward of the book:

"The book has one high ambition. It has tried to tell the sad story of the wilderness itself—to show, from the woodman's view-point the play of great forces which have been tearing down his home and turning it into the flesh and bone of cities. Were it to cause any reader to value what remains of the forest above its market price and to do his part in checking the greed of the saws, it would be worth while—bad as it is."

The conversations that frequently occur between the central character and others are picturesque in their woods way of putting things. The metaphors are beautiful and the simile's are drawn with a masters hand.

Speaking of the forest depletion one of the characters, Dunmore, is made to say:

"Without forests it (the country) will go the way of Egypt and Asia Minor," said the white-haired man. "They were thickly wooded in the day of their power. Now what are they? Desert wastes!" Dunmore rose and filled his lungs and added: "As you said to me one day, 'People are no better than the air they breathe.' There's going to be nothing but cities, and slowly they will devour our substance. Indigestion, weakness, impotency, degeneration will follow."

The book is published by Harper and Brothers, publishers, New York City—Price, \$1.50.

Public Notice.

In conformity with the provisions of Chapter forty-two of the Public Laws of eighteen hundred and ninety-nine, and upon the petition of five or more citizens of the State, and deeming it for the best interest of the State, the Commissioners of Inland Fisheries and Game, after due notice to all persons interested in the subject matter of said petition, and public hearing thereon in the locality to be affected, and deeming it necessary and proper for the protection and preservation of the inland fish of the State, hereby adopt the following needful Rules and Regulations relating to the times and places in which and the circumstances under which inland fish may be taken in the waters of Dead River and tributaries of Dead River pond in the County of Franklin.

RULES AND REGULATIONS.

Sec. 1. It shall be unlawful to fish for, take, catch or kill any kind of fish at any time, for a period of four years from May 15th, A. D. 1906, in any of the tributaries of Dead River pond, which pond is situated in Dallas Plantation in the County of Franklin.

Sec. 2. It shall be unlawful for a period of four years from May 15th, 1906, to fish for, take, catch or kill any kind of fish at any time in any of the tributaries to the South Branch of Dead River, so called, above Flagg Dam, in the County of Franklin, except on Tuesdays, Wednesdays and Fridays of each week from the time the ice is out in the spring until October first of each year, and during this open season on these waters it shall be unlawful for any person to kill or have in possession more than ten fish in all in one day taken from any of said waters.

Dated this eleventh day of May, A. D. 1906.

FROM CLEAR WATER POND.

JACK RYAN OF BOSTON IN THE LIME LIGHT.

It Has Been Very Cold and Wet, Consequently Fish Stories are Short. Local Fisherman Have Been Angling Recently.

(Special Correspondence to MAINE WOODS.) ALLENS MILLS, May 29, 1906.

Jack Ryan, who is Jack Ryan? I have several inquiries. Who is Jack Ryan? Well Jack is the original Ryan, who settled in Boston on or before 1740. When Christopher Columbus landed on the shores of America in 1492 it was said that it was Mr. Dooley that met him with a welcoming hand but history in this particular case is very much at fault as it was Jack Ryan that extended the glad hand to Christopher and bade him a welcome to Boston. I have this from the very best authority, no less than Mr. Harry LeClair, who is well acquainted in the history of Old Beantown and has been probably more closely connected with its affairs since 1462 than any other of the notables of that time. Well some time ago Jack took it into his head that the proper thing for him to do was to go fishing, so he visited one of the hotels and after a great deal of moral suasion finally persuaded the landlord of the aforesaid hotel to accompany him on the trip. Who caught the first fish? Jack Ryan. Who caught the biggest fish? Jack Ryan. Who puffs up like a toad when he tells the story? Jack Ryan. Now everybody ought to know who Jack Ryan is and no more questions need to be asked.

What weather we have had for the past few days, cold, rainy and disagreeable, let us hope it will be fine before long. On account of the weather the fish story is short. W. L. Henry of Brookline, Mass., trout of 3 pounds. O. M. Goding of Allen Mills, trout of 6 and one of 8 1-2 pounds. Mr. Fred Flint of Farmington, trout of 5 pounds. Mr. J. F. Ham of Livermore Falls, one trout of 3 pounds and two of 4 pounds each. Mr. J. G. Lamb also of Livermore Falls, trout of 4 pounds. Miss Hattie Gay of Clear Water Camps, trout of 3 pounds, and H. A. Miner of Boston, trout of 2 pounds.

Among the late arrivals of the old time fishermen that later on will no doubt give a good account of themselves, we find the following names: J. G. Ham, Livermore Falls; Mr. J. F. Lamb of the same city; Mr. Thorndike Spaulding, Cambridge, Mass.; Mr. H. A. Miner, Boston; Mr.

A WOMAN'S ORDEAL DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician. Read how Mrs. Pinkham helped Mrs. T. C. Willadsen of Manning, Ia. She writes: Dear Mrs. Pinkham:

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

SPENCER LAKE CAMPS.

Proprietor Thomas Gerard Writes Maine Woods Interesting Letter.

Proprietor Thomas Gerard of Spencer Lake camps, Jackman, writes MAINE WOODS an interesting letter under date of May 26, in which he says the camps will be open for the public June 3.

Some very good catches of trout have already been made, as well as togue, and a few minutes paddle in a canoe will find deer feeding on the shores of the lake. Moose are also getting more plentiful on this preserve. Mr. Gerard also reports bear very numerous.

One happy note of the "good old summer time" that Mr. Gerard sounds is the statement that he has planted his garden, where he will raise all kinds of vegetables for the always bounteous camp table the coming summer. As in the past all the guests will be looked after in the best possible manner by proprietor Gerard.

AT VARNUM POND.

Records Of Some Of the Catches.

(Special Correspondence to MAINE WOODS.)

VARNUM POND, TEMPLE, May 29, 1906.

At the beginning of the fishing season here, the fish taken were small sized, but plenty in numbers. Now the fish caught seem to be increasing in weight and the same goodly number continues to be taken.

Among the recent catches of note were the following: L. P. Gould, East Livermore, three days fishing 8 togue and salmon. One of the togue weighed 3 1-2 pounds. Mr. Gould also caught two salmon at one time with one leader, which he considers quite a happening. Mr. and Mrs. Chick and son, Donald and Mr. and Mrs. Lewis Black spent a few days at Averill Camp last week, and had nice luck fishing.

Some of the Recent Arrivals and Their Guides.

(Special correspondence to MAINE WOODS.)

RANGELEY, May 29, 1906.

Late arrivals at Pickford's Camps: Mr. L. T. Harlow and Mr. F. J. Pierce of Gardiner, Mass; Rube Wilbur and Frank Harris, guides; Herbert Turner, West Medford, Mass; Geo. C. Tarrington, H. V. Hunt, E. L. Rankin, Peabody, Mass; Clark Hill, Wm. Huntoon, guides; L. T. Mac Donald, Ohio; B. W. Rankin, Boston; G. W. Yale, Arlington, Mass; Thomas Porter, guide.

Boston Work Horse Parade.

The Fourth Annual Work Horse Parade in Boston will take place in the forenoon of May 30th, and it will be the largest, and the directors think, the finest exhibition of horses ever seen in the United States.

The entries number 596, and they include every kind of work horse from the light delivery wagon steed to the heavy truck horse. The class for old horses, embracing about 40 veterans, all in the pink of condition, will be perhaps the most interesting feature in the parade.

For the Lawrence Gold Medal, offered in memory of the late R. A. Lawrence, six four horse teams are entered, which would be worth going many miles to see

The judges, sixty-five in number, have been selected with great care, and are drawn from all parts of New England.

The Association which gives these parades is a purely charitable one, its sole purpose being to improve the condition and treatment of work horses.

FISHING IN FRANKLIN COUNTY.

In Regard to Certain Streams in Franklin County, Near Madrid.

Section 2 of chapter 407 of the Private and Special laws of 1903 provides that "it shall be unlawful to fish for, take, catch or kill any fish at any time except as herein provided, in any of the following named waters, to wit:"

Then it goes on to say, under the head of Franklin county, in that section, "Or in the North Branch, called the Chandler Mill stream, or in the south branch, called the Crossman stream, or in Bowen brook, or in Saddleback stream that flows into Sandy river at Madrid village, or in the Ben Morrison brook which flows into Saddleback stream."

The above brooks are closed to fishing.

PHILLIPS FISHERMEN.

Notes About Town Regarding The Luck Of Phillips Anglers.

Mr. John Everett went to Redington pond fishing the first of last week and had good luck with the good sized and gamy trout of that place. Mr. Everett returned to town much refreshed with his outing and having about thirty fine trout in his creel.

Rev. John A. Ford and Corydon Felker were also at Redington and the luck they had was the kind that Redington pond fishermen usually have—the best. Messrs. Ford, Everett and Felker caught all told in the pond and the brook below, 185 trout in three day's fishing and "we might have caught more," continued Mr. Felker. The party was royally entertained by Proprietor and Mrs. J. F. Hough.

The following merry party were at Sandy River ponds the first of last week: Mr. and Mrs. Frank Haley, Misses Lizzie Griffith, Blanche Presson and Messrs. Geo. Hennings and Otto Badger. They had very good success with rod and reel.

The boys have been having very good success of late fishing in the river near the dam. The trout that are caught there are very good size and are numerous enough to make very interesting fishing.

Brook fishing in this town is said to be getting better every day. With the coming of June many fishermen will visit our brooks.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she heart to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

THE BARKER LETTER.

FISHING PARTIES HAVING EXCELLENT SUCCESS ON THE LAKE.

Hon. Chas. Sumner Cook of Portland, Entertaining a Party at His Private Camp, Hirobsamcook. Grounds About Hotel Have Been Greatly Improved.

(Special correspondence to MAINE WOODS.)

BARKER, May 28, 1906.

The past week has been one of fishing and pleasure for the guests here.

On Saturday night the following party of well known Portland people arrived and for a week will be at home in Camp Boston, the largest camp here. Mr. and Mrs. E. B. Winslow, Mr. and Mrs. Thomas P. Shaw, Mr. and Mrs. Chas. W. T. Goding, Miss Blanche and Master Charles, W. T. Goding, Jr. Mr. Abner P. Leighton of same the city is also here.

Miss Clara H. Ginn of Boston joined her brother, Mr. and Mrs. Ginn for several weeks and are greatly enjoying the fishing.

Mr. and Mrs. Nath'l N. Phayer have as much pleasure fishing as if their "biggest yet" was only a 4 pound trout.

Mr. and Mrs. A. E. Gill and son, F. L. Gill of West Newton, Mass., are among the late comers.

Herbert Clay returned home to Portland with a good catch for his friend, the largest a four pound salmon.

J. E. Harlow and Wm. Byers of Newton Center fished here for six days and caught forty-nine fish, the largest a five pound trout.

Mr. and Mrs. Wm. J. Wright of Boston and Dr. Calvin Pratt of Bridge-water, Mass., are among the late comers.

At Hirobsamcook Hon. Chas. Sumner Cook of Portland is entertaining at his private camp the following friends for a week; Dr. and Mrs. Bradford, Mrs. Sally Kimball, Wardsworth Noyes, Miss Mattie Mattocks of Portland, Col. and Mrs. Jas. C. White of Boston.

The grounds in front of this hotel have been greatly improved since last fall and Capt. Barker has changed this spot of the wilderness on the lake shore to one of the most attractive places in the region.

ABOUT FOX HUNTING.

The Opinion of an Old Hunter and Trapper.

NORWAY MAINE, May 23, 1906.

To the Editor of MAINE WOODS:

I have been much interested in the letters printed in your journal the past winter and spring, written by Mr. Stone, Mr. Bently and Mr. Athens on fox hunting and trapping. I agree with Mr. Stone that fox hunting is a great sport although it is not recognized as a sport here in Maine. In one of Mr. Bently's letters he said "a fox stood no chance against men and dogs."

I have always found that he stood much more than an even chance and I have hunted him some. I hunted foxes every year for more than 25 years and I have had some experience in the matter.

Mr. Bently also says "a fox stands an even chance with the trapper." In your issue of Feb. 2, he says he is quite sure of every fox that strikes his trails. I have tried to make the two statements jibe but can not do it. If one of them is true the other certainly is not.

An Eight-Pound Salmon.

When State Assessor F. M. Simpson was at the Moosehockmuntic House, on his recent trip through the Ranglew, he caught an eight-pound salmon. Mr. Simpson, it is said, put an extreme valuation on the fish, which is said to be the first one on record where he has made a steep assessment!

LADY MISTAKES PORCUPINE FOR BEAR IN LUMBER CAMP.

C. C. Brooks, Portland Gets 400 Pound Bear. All These Exciting Incidents Happened at Black Brook Camps. Fishing There Is Prime.

[Special correspondence to MAINE WOODS.]

DEAD RIVER, May 30, 1906.

The fishing at Black Brook Camps has opened up the best we have ever had at this time of the season and everyone is enjoying sport catching the speckled beauties.

The first party of the season to visit the camps was Mr. and Mrs. C. T. Hurd of Dover, N. H., Dr. and Mrs. J. E. S. Pray of Exeter, N. H., Miss Grace S. Smith of North Anson, with Ansel Eames and Philander Taylor of Flagstaff guides, all coming over from Spring Lake.

They got 48 trout from 1-4 to 1-2 pounds each. There was much comment and jesting in regard to rods, all having nice Bristol steel rods, except Miss Smith who used a dainty bamboo rod and though it was her first attempt at catching square tail trout, Miss Smith landed 9 out of 25 that were caught.

Much excitement was caused when Mrs. Hurd thought she had a black bear caged up in an old lumber camp along the trail when some distance ahead of the others. But when all was over with a good revolver in the hands of Guide Philander Taylor and a club handled by Jim Harlow it proved to be a large porcupine.

At this stage of the game Mrs. Hurd found that her guide was missing. After some search he was found back on the trail but Ansel declared he was all right and just kept back out of the way until he could find his revolver cartridges, but several said they had rather have a crowd handy than one lone guide in such a case.

Jim says Miss Smith took back to Spring Lake a small tablecloth or a large red bandanna handkerchief tied up full of Mayflowers.

Dr. H. P. Perkins and son of Lowell, Mass. are also here with a party of four for a week's fishing. W. P. Watson of Kingfield is with him.

A fair sized moose was killed by two or more bears a few days ago on the Otter Pond trail and since has been nearly eaten up by the bears whose signs show several different sizes. It was done in a moose yard and thought the bears attacked the while asleep as signs of a fight plainly to be seen on the ground by.

TO FILL THE ORIGINAL AND ONLY GENUINE CONKLIN'S SELF-FILLING PEN. Simply dip in the ink, press with the thumb, and the CONKLIN PEN is filled and ready for instant use. It is simple, convenient, efficient, with no complex mechanism and nothing to get out of order. The elastic ink reservoir is compressed by the presser bar under the thumb, and, when released, instantly draws in the ink through the feed channels at the point. The quickly adjusted lock-ring prevents ink from being forced out again. Feeds regularly until the last drop of ink in reservoir is used. Always responds without kick or balk. Cleans itself as easily as it is filled. Fully guaranteed.

If your dealer does not handle the CONKLIN PEN, let us make you our Special Offer to Fountain Pen Users. Full information, with illustrated catalogue, sent upon request. Sold by dealers everywhere.

Experience

backed by the general law of average proves that the first appearance of an advertisement does not bring business nor even create much curiosity. It costs little to advertise in MAINE WOODS. A trial (one time) insertion for business advertising is a waste of money. If you go in, stay in and it will pay you. "Keeping everlastingly at it" is the only way to success.

In continuity is strength. In disconnection is failure. Few people buy anything the first time they hear about it. There is not a solitary case where intermittent advertising has brought returns compared with that from continuous advertising—that everlasting pounding away at the public day in and day out.

GIRL BASEBALL PLAYER.

Champion of Her Sex Who Has a Great Record as a Thrower.

Four years ago Miss Marion Reynolds was the champion female ball player of Maine, if not of the United States. She was born on a farm, says Modern Women, and was one of a large family, mostly boys, all of whom were noted local baseball players.

As she grew to maturity her services were frequently required to make up the regular number for a team, and in this way she got such practice that she equaled any of them on the team.

A claim was made by the friends of a young lady in a New York college as the champion because of her throwing a ball 181 feet. But at Belfast, Me., Miss Reynolds threw the regulation ball, notwithstanding a strong wind was blowing, a distance of 182 1/2 feet. The measurement was made by the managers and several doubters. After the exhibition they tried her as a catcher, pitcher and batter, and she could outplay them all.

Miss Reynolds is of medium height and graceful form. Her manners are pleasing and unassuming. She dresses with taste. She has played ball in many cities, but has retired from the game and is now teaching school.

NEW YORK SAMARITANS.

Incident of the Fallen Horse, the Calm Driver and the Willing Helpers.

It has been said of New Yorkers, and the saying is supported by a series of traditions, that if the wind blew off a man's hat in New York at least 50 persons will run to pick it up, anxious to recover it, brush it and run a block to return it to the owner.

Yesterday a horse drawing a heavily loaded wagon on the Bowery slipped and fell. Before the animal got through kicking and struggling it was tangled in the harness from bridle to breeching.

The driver looked tired and seemed to enjoy his cigarette and the respite from work. In a minute horse and wagon were surrounded by a crowd.

Twenty or more men got busy and pretty soon the horse was on its feet, the harness adjusted and the crowd scattered. The driver didn't move an inch from the time the horse fell until he clucked to the horse to resume the trip. He didn't even smile. He took it as a matter of course.

ALWAYS TAKE MOTHER'S ADVICE.

Mother's Medicine Chest.

When we look back to childhood and think of what mother advised, we feel pretty certain that she advised what was right from her own experience. She inherited later in her instinct of motherhood a knowledge of childish ailments and a certain class of remedies that she knew well and their effects. Experience after all is the best teacher. Most mothers know as well as doctors, and often better, what ails a young girl on the threshold of young womanhood and what she needs. For nearly forty years many mothers have recommended to ailing girls a prescription made from well-known native medicinal plants. Lady's Slipper root, Golden Seal root, Black Cohosh root, Unicorn root, Blue Cohosh root and chemically pure glycerine make one of the best prescriptions for the periodical troubles and afflictions which visit womanhood at one time or another. Prof. F. Ellingwood, M. D., of Bennett Medical College, says of Lady's Slipper root: "It exercises special influence upon nervous conditions, depending upon disorders of the feminine organs—relieves pain, restlessness and nervousness." Prof. Jno. M. Souder, M. D., says of the same root, "It is valuable in all cases of nervous excitability or irritability." Of Golden Seal root, Edwin M. Hale, M. D., Professor of Materia Medica at Hahnemann Medical College, Chicago, says: "In its general effects on the system there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as a tonic useful in all debilitated states."

Prof. F. Ellingwood, M. D., author of "A Treatise on Materia Medica and Therapeutics," says of Golden Seal root: "It is an important remedy in disorders of the womb." Of Black Cohosh root, Prof. Jno. M. K. J. M. D., author of "Women and Her Diseases," says: "Upon the reproductive organs it exerts a specific influence, promoting regularity. In dysmenorrhoea (painful periods), it is surpassed by no other drug, being of the greatest utility in irritative and congestive conditions, for dragging pains resembling the pains of rheumatism and for side ache." Of Unicorn root the AMERICAN DISPENSARY says: "It is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the reproductive organs, hence it is much used in leucorrhoea, amenorrhoea (suppressed periods), dysmenorrhoea (painful periods), etc."

Dr. John Fyfe, Editor of the "Eclectic Medical Review," says of Unicorn root (Helenias Dioica), one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

Helenias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which this does not present some indication for this remedial agent."

He continues: "Helenias (Unicorn root)—through its tonic and alterative influence—acts equally well in amenorrhoea (suppressed menstruation) and in menorrhagia (flooding or profuse menstruation). It is especially called for in cases of amenorrhoea which are accompanied by general debility and an atonic (weak) condition of the digestive organs, as it increases the appetite and promotes digestion and assimilation. When there is atony (weakness) of the generative organs and a tendency to miscarriage its tonic influence upon the sexual system

will aid much in bringing about a normal condition of the structures involved. In sterility and impotence its curative power is unmistakable, and within a reasonable time it will restore to healthful activity all cases not dependent upon organic wrongs, and in leucorrhoea and defective menstruation it is a frequently needed remedy."

The following are among the leading indications for Helenias: "Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women: constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed menstruation), arising from or accompanying an abnormal condition of the digestive organs and an anemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading and predominating ingredients of which is Unicorn root, or Helenias, associated with other equally efficient medicinal extracts of native roots.

From the above extracts it will be understood why Doctor Pierce is so successful in curing diseases peculiar to women with a carefully prepared glyceric extract of the above mentioned roots in just the right proportions—this compound being called Dr. Pierce's Favorite Prescription. As a solvent and preservative glycerine is superior to alcohol and is entirely unobjectionable. The "Favorite Prescription" is the only medicine put up for sale through druggists for the cure of woman's peculiar ailments that does not contain alcohol and that too in large quantities. It is also the only non-secret medicine for women sold by druggists. Its ingredients are printed in full on the bottle wrapper and in plain English.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

A good medical book, written in plain English, and free from technical terms is a valuable work for frequent consultation. Such a work is Dr. Pierce's Common Sense Medical Adviser. It's a book of 1008 pages, profusely illustrated. It is given away now, although formerly sold in cloth binding for \$1.50. Send 21 cents, in one-cent stamps, to pay for cost of mailing only for paper-covered copy, addressing Dr. R. V. Pierce, Buffalo, N. Y.; or 31 cents for an elegantly cloth-bound copy.

Notes and Comments.

The fishing on the lakes, ponds and streams of Maine is getting better and better every day.

At a recent shoot of the Hit-or-Miss rifle team of Livermore Falls and the Myles Standish team of Portland, the Livermore Falls boys trimmed the Portland boys 325 to 309. The shooting was done at 200 yards, standard American target off hand, five men representing each club and shooting a string of ten shots each. Targets were exchanged for comparison.

A recent fish record received from Otter ponds, reads as follows: Salmon, weights, 8, 7, 6 1-4, 5 1-4, 4 3-4, 5, 6 3-4, 6 1-4, 4 1-2, 8 1-4, 5, 5, 8, 7 pounds. Trout, 5 1 4, 4 1-4, 4, 1 1-2, 3, 6 1-4, 4, 3, 2 3-4, 2 1-2, 2, 5 1-4, 5, 3 1-2, 3 1-4, 3, 3, 2 1-2, 2 1-2, 2 1-4, 2 1-2, 2, 2, 2 1-4, 1 1-2, 1 1-2, 1 pounds.

Gov. and Mrs. William T. Cobb have accepted an invitation to participate in the annual excursion of the Maine Sportsmen's Fish and Game association to Kineo, July 3, and will be accompanied by President and Mrs. Calvin Austin of the Eastern Steamship Co. of Boston.

The riflemen of the Phillips Rifle club have not been shooting much of late, but will probably resume the sport in the early fall, if not before.

Mr. C. A. Spaulding of Pierce Pond Camps, Carratunk, writes under recent date line that the fishing is excellent at his place. Among others who have been successful with rod and reel were the following: Dr. Merservey, 6-pound trout; Mr. Harris, Madison, 4-pound trout and Mr. C. S. Humphreys, the man who was instrumental in stocking Pierce Pond, an 8-pound salmon. Mr. Spaulding writes that there are some 40 guests now at his camps.

Mrs. L. Schilt and son David of New York are at Joseph Emery's Lake House for a 10 weeks' visit, says the Kennebec Journal and are the most ardent fisher folk in that section at the present time. They have retained the services of John Merrill for the entire time and are to be found on the water much of the time every day. It is no unusual thing for them to catch the full quota of bass allowed by law, but their experience with salmon and trout was not strikingly remarkable until Thursday. As a result of their persistence, Thursday morning they took 14 bass and a salmon which tipped the scales at seven pounds. It was a fine, specimen and the company will have the pleasure of judging the quality of the same very soon.

An Animal Story For Little Folks

The Bears' Good Fortune

The bears had a nice house which they rented from Mr. Camel, and they wished to remain there the rest of their days, for they were getting along in years and did not relish the idea of moving.

But you know we are not always able to have everything our own way in this world, and so it proved to be with the bears. One day Mr. Camel decided that he would like to live in

BIG TEARS STREAMED OUT OF THEIR EYES.

that house himself, and he sent word to the bears that they would have to move out.

Mr. and Mrs. Bear were almost broken hearted. They did not know what to do, for, look as hard as they could, they were unable to find another house into which to move.

When the day came for the bears to get out they did not know where to go. But go they had to, and go they did. Down the road they marched side by side, while great big tears streamed out of their eyes.

When they reached the top of a hill about a mile from the house they had just left they turned to take a farewell look at it. And what do you think? The house had disappeared! They had no more than got out of it when a big gust of wind came along and blew it down in a mass of planks and boards upon the ground. Not one piece remained attached to another.

"What a lucky thing for us!" exclaimed Mr. Bear joyfully. "If we had not got out when we did we would have been crushed to pieces."

And, indeed, they would have been. They were certainly fortunate, for a little farther on down the road they found the tiger family moving out of a real nice house, and the bears secured that one and lived there until the end of their days.—Chicago Trib-une.
