the United States forces, leaving her in a
state of destitution. She wanted to live
in one of her father's houses, but her story
was not credible, and he determined to
investigate it.

At length he reported to have seen
the woman, and he had been so long
in the city, that he had been able to
ascertain the truth of her story.

A Runaway Match.

A great many years since when bright
gold and fair haired lassies were not so
plentiful in New England as they now are,
there dwelt in the town of P—, distant
some five and twenty miles from a
market town, a peculiarly ugly and
graceful maiden who had an only and
graciously, but wealthy old father.

A Slight Mistake.

A few months since a gentleman had
the misfortune to lose his wife, a literary
lady of some reputation. After grieving
for a number of weeks, a bright idea
entered his head to wed her. He had
been so long in the city, that he had
been able to ascertain the truth of her
story.

A Match for Parson Brown-

At the residence of Rev. Dr. Breed in
Philadelphia, as we learn from the papers
of that city, is now staying Rev. John
H. Ayer, a Presbyterian clergyman, a
gentleman who, at the end of the
year, in Mississippi, has embraced
both death and eternal life.

Deaths of Maine Soldiers at New Orleans.

Charles Sumner was to-day re-elected
U. S. Senator for six years, commencing
16th of March next. The vote in the
Senate was—Sumner, 33; J. G. Abbott,
5; Charles Francis Adams, 1; and
John C. Calhoun, 1.

Carrying away the Loads.

When the Shepherds of large flocks
sheep cannot separate in separating
them from the best, because their young
ones are among them, they will carry
away the loads in their arms, to a better
pasture, and then the dams will follow.

Crookedness of Boston.

"Gail Hamilton" says: "No city has
any moral right to be as crooked as Bos-
ton. It is a crookedness without excuse,
and without palliation. It is crooked in
cold blood, and with malice aforethought.

Principle.

Whenever you hear a man talking flip-
pantly about "conspiring the rebellion"
and "stirring the negro question" you
may venture to institute the inquiry
whether he is simply a simpleton, or a
sympathizer with secession. "Principle."

Principle.

At a stated commandment of the
Harvard League of Free and Assorted
Masons held Dec. 27th, the following
members were elected for the ensuing year:

Matters at the Capital—Special Message from President Lincoln—He is opposed to further issue of Treasury Notes—Enough money in the Treasury to pay for the entire Army and Navy—All quiet on the Rappahannock—Report of Naval Operations at Arkansas Post—The loss on the Fleet small—Robert Saunders' intercepted letters.

WASHINGTON, 19th. To the Senate and House of Representatives: I have signed the joint resolution to provide for the immediate payment of the army and navy of the United States, passed by the House of Representatives on the 14th, and by the Senate on the 15th.

The joint resolution in a single authority, amounting, however, under existing circumstances, to a direction to the Secretary of the Treasury to make an additional issue of one hundred millions of dollars in United States notes, if so much money is needed for the payment of the army and navy.

My approval is given in order that every possible facility may be afforded for the prompt discharge of all arrears of pay due to our soldiers and sailors. While giving this approval, however, I think it my duty to expose my sincere regret that it has been found necessary to authorize so large an additional issue of United States notes when their circulation and that of the suspended banks together, have already become so redundant as to increase the price of real estate, thereby augmenting the cost of living to the injury of laborers, and the cost of supplies to the injury of the whole country.

It seems very plain that continued issues of United States notes, without any check to the issue of suspended banks, and without adequate provisions for the raising of money by loans, and for funding the issue so as to keep them within due limits, must soon produce disastrous results.

It would be manifestly unjust to the people at large to exempt banks enjoying the special privilege of circulation, from their just proportion of the public burdens.

In order to raise money by way of loans most easily and cheaply, it is clearly necessary to have every possible support to the public credit. To that end, a uniform currency, in which the subscribers to loans, and all other ordinary public debts may be paid, is almost if not quite indispensable.

In view of the actual financial embarrassment of the Government, and the great embarrassment sure to come if the necessary means of relief be not afforded, I feel that I should not do my duty by a simple amendment of my approval of the joint resolution which proposes relief only by increasing the circulation, without expressing my earnest desire that measures, such as substance as those I have just referred to, may receive the early sanction of Congress.

The U. S. gunboat at Sagamore reports the capture on the 5th, at Gasper, Ind., Fla., of the English schooner Avenger of Nassau, with assorted cargo of salt, coffee, gin, and dry goods, also of English shawl, Julia, of Nassau, on the 8th, with salt.

The U. S. schooner Ariel reports the capture of Florida Good Luck, on the 6th inst., off Sloop, Cape, loaded with turpentine and cotton.

Commander English of gunboat Sagamore wrote the Navy Department on the 8th that he discovered two vessels apparently ashore on the reef with signals of distress flying. He stood down for them and found it to be ship Lancia of New York, laden with troops, and horses. She had tumbled over the reef and was insubmersible.

Revenue Stamps Upon Pension Papers.—We take the following from the Portland Advertiser: In consequence of some of the new regulations of the Government relative to stamps required for pension papers, I deem it advisable that public information should be given to avoid delay and confusion in such cases.

My instructions from the Commissioner of Pensions are: Every power of Attorney to collect a pension must have affixed to it a Revenue stamp, or stamps amounting in all to one dollar; every certificate of a Clerk of the Court must have affixed to it a Revenue stamp, or stamps amounting in all to ten cents.

WASHINGTON, 19th. The following was received at the Navy Department, dated Cairo, 18th, 10:20 P. M.: U. S. Mississippi Squadron, } Arkansas Post, January 11, 1863. Hon. Gideon Wells, Secretary of Navy— Sir: The gunboats Louisville, De Kalb, Cincinnati and Lexington attacked the heavy forts at the Arkansas Post last night, and silenced the batteries, killing twenty of the enemy. The gunboats attacked them again this morning and dismounted every gun, 11 in all.

Colonel Danington, late of the U. S. Navy, commander of the fort was requested to surrender to the Navy. I received his reply. The army co-operated on the land side. The forts were completely silenced, and the guns, 11 in number, were dismounted in three hours.

The action was at close quarters on the part of the three iron clads, and the firing was rapid. The list of the killed and wounded is small. The Louisville lost 12, the De Kalb 17, the Cincinnati none, the Lexington none, the Ruler 2.

The light draft Ruler, Lieut. Com. Smith and other light draft gunboats joined in action in the evening, and did also the Black Hawk with her rifled guns.

Particulars will be given hereafter. (Signed) DAVID D. PORTER, Acting Rear Admiral.

JEFFERSON CITY, Mo., 19th. Eighty-four members of the Legislature met to-night and adopted a memorial to the President, setting forth that there is still underlying the surface of this State a very large substratum of treasonable sentiment, which may break out at the first favorable opportunity.

In many parts of the State the civil law is to a great extent powerless. Grand juries cannot be empanelled who will indict men who have stolen horses and guns from the Unionists to equip themselves for the rebel army.

The memorial was unanimously signed, and will be forwarded for more names to-morrow. C. H. Hayward has been appointed to present the memorial to the President.

Special despatches from Washington say that four refugees from Richmond arrived to-day, having left that city on the 12th instant. One of them was Binns and they are only picked up on the side of Hanover Court House, until they reached the lower Rappahannock.

There was much excitement in Richmond owing to reports of immense federal forces in North Carolina. Anderson's rebel division, of Jackson's corps, passed through Richmond Saturday, which fact added much to the excitement.

The city is well fortified at every point, but the fortifications are garrisoned with only a small number of men. They have 100 guns in position around the city.

The peace democrats, in other words, the secessionists, under the lead of the Woods of New York, John Van Buren, Vallandigham, Cox &c., have been making advances towards the rebels and asking the terms upon which Jeff Davis, Floyd &c. will give up and come back into the Union.

The Capture of Galveston.—We are confident that an investigation of the unfortunate affair at Galveston will leave no stain upon the loyalty of the unfortunate Commander Renshaw. The reports so freely circulated at New Orleans to his prejudice have no substantial basis. He evidently did everything he could to save his vessel which was hopelessly aground, and perished in destroying her, to prevent her from falling into the hands of the enemy.

Who Killed Cock Robin?—The Abolitionists and the Republicans, heretofore, have had to bear the charge of causing this war. Now, the Boston Herald says, Ben Butler caused it, the Machias Union saying, amen. History, no doubt, will charge it to the account of Northern doughfaces.

Wright and Vallandigham.—In the United States House of Representatives on Wednesday last, a vigorous and interesting debate occurred on the resolution offered by Mr. Wright, Union democrat, of Pennsylvania, declaring the rebellion deliberately wicked and without reasonable excuse, etc. Mr. Vallandigham, of Ohio, opened the debate, the substance of his argument being that we should at once accept the proffered mediation of any friendly foreign power, suspend hostilities, and finally offer a whole matter to the people and States of the Northwest for settlement.
