GENTLEMEN'S NIGHT OBSERVED

The Webhannet club observed Gentlemen's night last Monday evening when each member entertained a guest. It has proved such a pleasant event in the past that it is looked forward too with increasing interest every year, and no one was disappointed. It was held in the Congregational church vestry and guests and members came from far and near.

The committee in charge of the supper was Mrs. A. A. Richardson, Mrs. B. F. Tilton, Mrs. Orrin Whitaker, Mrs. Belle Gilpatric, Mrs. Hattie Libby, assisted by six small lassies gown in white. A red heart was fastened in the center of their foreheads by a narrow red ribbon band and red hearts adorned the hems of their dresses. The dining room was attractively decorated with red hearts. The following delicious menu was served.

Grape Fruit Cocktail
Roast Turkey Mashed Potato
Giblet Gravy
Squash Cranberry Sauce
Assorted pickles
Hot Rolls
Assorted Cake Ice Cream
Coffee

After this appetizing repast Miss Danforth of Gardiner gave readings in dialect, a few children's pieces, and one selection from Kipling. Miss Irma Day, accompanied by Miss McCrindle, sang twice. Then Miss Danforth stepped daintily forth, to the music played by Miss McCrindle, and went through the stately minute with all the old time grace and dignity. She was gown in an exquisite costume of ye-olde-times, made of lace and brocaded silk, with white powdered wig, velvet throat band with cameo, slippers with old fashioned buckles and white hosiery. She completely captivated her audience and was called back, retiring a second time with a steady courtesy of by gone days.

Altogether it was the most enjoyable occasion of the season and the members are to be congratulated on the success of it.

The ladies of St. Monica's church held their annual fair in the town hall last evening. There were several booths attractively decorated in red and white, and the cake, candy, apron and fancy articles found a ready sale. The Hibernians of Biddeford furnished the evening's entertainment and were accompanied by a large crowd of their friends. The proceeds of the evening were \$200.00.

WASHINGTON

In our wonderful American history, there have been meteors across the sky—brilliant flashes of intellect or eloquence—that have yet proved to be only flashes when subjected to the ordeal of time and perspective.

It is difficult, perhaps impossible, to accurately estimate contemporary worth. It is too near; too immediate; too familiar. We need the perspective that time alone can give to get all the proportions of a character, a life, a personality, into full and rounded vision.

The career of our loved country has brought into brilliant leadership, again and again the Man to fit the Opportunity. They are recalled and remembered with pride and gratitude. The petty tricks of petty politicians fade into the forgotten, when one thinks of the truly great men that have arisen to leadership in every hour of the country's peril.

Among all the great souls that have glorified American history probably no name will forever remain so honored, so revered, as that of Washington.

He represents the ideal of American citizenship. His public life is the example to which all may turn in a spirit of emulation. His career rebukes graft and political deceptions. He truly considered public office a public trust—and above all, he lived up to the ideals he expressed.

And so when the birthday of our Washington occurs, it is time to recall his life, his ideals, his unselfish service, his profound love of his country and his devotion to her best interests; and as far as lies in us to respond to his splendid example. There is no surer way of making good citizens out of all of us.

FREDERIC A. WHITING.

GEORGE WASHINGTON: IF HE WERE HERE!

IF the immortal George were here,
I wonder what would be his thought
At seeing, with his vision clear,

Civic honors sold and bought!
Rant for reason. Not Wisdom ruling,—
But just the skill of wire-pulling.

HIS BIRTHDAY comes; we celebrate

The Anniversary, and try
To guess the politician's fate

To-day... who "could not tell a lie."

We'd think him quite disqualified
Unless, somehow, we thought he lied.

THE Dignity... the Self Respect...

The Honor life and Office held,
Were never marred by "getting next"—

The wires of Trickery to weld...

For WASHINGTON was free from lust
Of Power... He held a Sacred Trust.

IF the Immortal George were here,

I wonder what would be his thought
At seeing, with his vision clear,

Official "Honors" sold and bought!

WE CELEBRATE THE IDEALS PAST:
MAY TIME RESTORE THEM SAFE AT LAST!

FREDERIC A. WHITING.

LARGE AUDIENCE HEARS LECTURE

An audience of about 200 people greeted Captain Stowell, a former principal of the high school, when he spoke to the 13th Company and their friends last Friday night at Mousam Opera House. His subject was "Behind the Big Guns" and some remarkable pictures were shown of the guns in action and projectiles in flight. One fact which he remarked upon was that the standing army of the United States is only about twice the size of the New York police force, a truly alarming state of affairs. He thinks this country is in danger of warfare, because the losing side in the present great struggle will blame its defeat upon this country for not lending assistance. It will take eight or nine years to get our forces into any shape and Captain Stowell thinks it is time to "get busy." He likened this country to a great hive filled with honey to which all classes of humanity will stream after the war.

A squad of eight men in heavy marching order, dressed in service uniform, went through the manual of arms. They were in charge of Corporal J. Gallant.

The Grand Army were the guests of the Company and inspected their quarters and showed great interest in the equipment, it being so much more modern than they were accustomed to in their day.

A short musical program was furnished before the lecture by the Arion orchestra and dancing was enjoyed at its close.

SOUNDING THE DEATH KNELL

One of the most severe set backs the liquor men in this country have received comes in the form of an announcement in the Hearst newspapers that their owner, William Randolph Hearst, will not allow the papers to take any more liquor ads. The Hearst papers reach millions of people every day in the week, and with this powerful weapon turned against the liquor interests it means a big difference. It also shows conclusively that the newspapers of this country are absolutely independent, and that the Hearst papers in particular are in no way controlled by the liquor interests. The Kennebec Journal in a recent issue has the following editorial on the matter:

A Prayer Answered

To our mind the biggest piece of news, the most far-reaching decision, the incident having the most vital effect upon the destinies of civilization, in the last twelve months, is the announcement in the Hearst papers of Sunday, Jan. 9, that their owner has declared war upon the liquor and drug evils.

Mr. Hearst orders the publishers of his papers to discontinue all advertising of whiskey, ardent liquors of any kind and medicinal preparations containing alcohol or opiates in habit-forming quantities.

This order means, if we understand it, that the Hearst papers in Boston, New York, San Francisco, and wherever he may have newspaper interest, are to cease promoting the demand for drinks, and to turn all their great power toward the inculcation of temperance principles and in opposition to the mighty evil that has so long held sway in this country.

In recent years the Kennebec Journal has had the pleasure of announcing from time to time, the breaking away of one newspaper or magazine after another from the greed of sharing the profits of the greatest curse to civilization; but it has never carried to those who will rejoice with it the news of so great a triumph for moral force as this.

The Hearst papers reach millions of people daily, and the Hearst policies have largely appealed to an element that is not reached by the pulpit, or by economic or educational forces. To take away from these millions the perverting influences of liquor interest cunning, and feed to them the inspiration of facts on public health, public morals and public righteousness, is indeed a cause for rejoicing on the part of forces working for moral and Christian progress.

At the conclusion, not long ago of a half hour's address by one of its members upon the methods of the liquor interests and the partnership of the government in the evil, the teacher of a large Bible class prayed earnestly that William Randolph Hearst might be led to cast his great influence with the masses against the liquor evil. That prayer has been answered.

"A Neighborly Call," by Mrs. Frank A. Nunan, Miss Helen F. Ward, and Mrs. Dexter Hutchins.

Reading, Mrs. Frank A. Nunan. Groupe of Junior Members with flags.

No fault could be found with the size of the audience, even though there was a severe snowstorm outside; and the whole community assisted in different ways to make the affair a success. The money taken exceeded all expectation, the amount being about eighty-eight dollars.

The Club wishes to extend most sincere thanks to the many who assisted to make the entire affair so complete a success.

Mr. and Mrs. George E. Emmons returned on Saturday from the two weeks' wedding trip. They will reside for the present at the home of Mrs. Emmons' grandmother, Mrs. Elizabeth Hutchins.

The Semper Paratus Club met this week with Mrs. F. G. Littlefield.

Miss Arlettie L. Tibbetts, employed by the Goodall Worsted Co., has been confined to the house by illness the past few days.

The town clock is on duty again after a few week's vacation. This is due to the kindness of Mr. Farnk A. Allen of Cambridge, Mass., who sent a man to attend to the need, himself paying all charges. While the clock is of such universal benefit to all, and all would have contributed gladly to the payment, it is another of the many generousities

On account of the severe snow storm of Saturday and Sunday there were no services at the church on Sunday.

The Ladies' Auxiliary to the A. F. E. A. met this week with Mrs. Rufus Hutchins.

Mrs. W. C. Lapierre is confined to the house by a severe cold.

Mr. and Mrs. Alonzo Towne of Kennebunkport spent the week-end with Mrs. Towne's parents, Mr. and Mrs. W. C. Lapierre.

Mr. Allen since making his summer home at this place.

The death of Mrs. Georgiana Hutchins of this place, widow of the late Edward Hutchins, occurred in Malden, Mass., this week. For some time the deceased had been suffering from a trouble of the throat, and last week she was taken to the home of her daughter, Mrs. William Ober of Sanford, for treatment. From there she was taken to the home of her daughter, Mrs. Robert Guyot of Malden, Mass., but an operation was found impossible and death was very sudden. She leaves to mourn their loss, one son, Victor D. Hutchins of this place; five daughters, Mrs. Robert Guyot of Malden, Mass., Mrs. Annie Whicher, and Mrs. William Ober of Sanford, Maine, Webber of Kennebunk, and Miss Alice Hutchins who had cared for the home and will feel the loss most deeply. There are also sev-

eral grandchildren. Beside these are a brother and sister, Simon Ridlon and Mrs. Christopher Perkins of this place.

The body was brought here on Tuesday, and funeral services will be held at the late home on Wednesday afternoon. The age of the deceased was about seventy years.

Neighborhood House Notes

The Liberty Bell Bird Club organized by Miss Cora York seems to have struck a popular note with the children. They meet Wednesday after school.

Mr. and Mrs. Arthur Littlefield assisted in entertaining Saturday evening. A Lincoln story was read and Lincoln stories told. Cards and welsh rabbit was also enjoyed.

The old books in the library were sorted out and rearranged by the girls club Tuesday evening. It is hoped soon to get this into such as to be of much service to the community.

The Mens and Boys Clubs met as usual on their respective evenings.

The first of a series of Whist parties will begin this week Saturday. These parties will occur every other Saturday evening. They will be a part of the Open House entertainment. On the other Saturday evening the program will be arranged for those that prefer some other form of pleasure. These evenings will be open to all as before and no invitations are sent out. All are welcome.

On Thursday February twenty-fourth the first of a series of Current Event Teas will be served at the Neighborhood house. These teas are planned by the Entertainment committee of the Ladies' Auxiliary and will be served monthly. There will be several short papers read pertaining to matter of current importance and light refreshments will follow. This plan is two fold. First to keep us in touch with the greater movements and also to assist in providing a fund for one of the activities. To do this a charge of five cents will be made. The ladies are all asked to come and assist in both the entertainment and the finance. There will only be four of these teas.

For some time it has been hoped that it would be possible to serve the children that live so far from the Pines school that they have to bring their dinner, some hot dish or drink at noon. This plan at last has been given a test. The children and the teacher come to the House and prepare the dish and eat their lunch there. This will make it possible for parents that wish to be away at noon to send their children also.

More than a million acres of

ervations in the United States if the
National Association of Audubon
societies, with headquarters at 1947
Broadway, succeeds in its cam-

PROBLEM IN PSYCHOLOGY

Psychologists are likely to be-
come interested in the question
why aerial warfare tends to de-
velop the chivalric traits in human
nature, while submarine warfare
has the opposite effect upon those
who wage it. The dropping of
bombs from the sky upon non-com-
batants is, of course, far from chiv-
alric, but the air duels between hos-
tile aviators in various parts of the
war zone have been productive of
episodes that recall the romantic
courtesy displayed toward each
other by the Crusaders and their
foes, by the Spaniards and the
Moors and by knightly adversaries
during the Middle Ages. It may be
that nature has decreed that the
man-bird shall of necessity de-
velop a more generous soul than the
man-fish.—New York Sun.

BREAD OR BOOZE

We cannot conceive of any poor-
er business than that a nation
should use the grain which it pro-
duces in the manufacture of liquids
which sap the vitality and efficien-
cy of its people without adding any
desirable or useful quality, thus
leaving the nation dependent upon
the outside world for its bread and
cereal foods. Such a practice is a
fundamental economic error, and
it seems to have taken this great
war to teach the folly of such a
method.

The great war has taught the na-
tions of the earth, as no moral wave
or religious campaign ever could
have taught them, the absolute
uselessness of alcoholic beverages.
It is not a moral lesson that is being
taught so much as it is an economic
lesson. And out of this war will
come the greatest good which ever
yet has been done to the cause of
temperance and of personal and
national efficiency, for it will have
taught very forcefully the individ-
ual and national damage which
comes from diverting the grains
for the manufacture of harmful
drinks rather than using them for
the manufacture of bread and other
foods.—Farming business of Chi-
cago.

THE MEN BEHIND THE GUNS

A SEQUAL TO "JACKASS LABOR."

LEADERSHIP in business is essential. It is like the
North Star to the mariner... Like the compass to the ex-
plorer... Leadership means the head to plan and then the
ability to carry the plans to a successful issue... The Gen-
eral must be Commander and the ranks must obey... It sug-
gests the old saying,—Obey orders even if you break own-
ers.

PLANNING at one end, and cooperation all along the
line, spells unity—team work that leads to victory, whe-
ther on the battlefield, on shipboard, or in the battle of
life in the world of commercial endeavor... It is the same
in all,—the Leader cannot win unless he has the co-opera-
tion of the Men Behind the Guns,—behind the endeavor,
the enterprise, whatever it may be.

EVERY MAN in every enterprise, national or com-
mercial, is to some extent the keystone of the arch on which
the endeavor and the achievement must rest... and just
as the soldier and sailor show their patriotic loyalty to the
country's flag, so every loyal worker in the world of com-
merce must be enthusiastic for the business flag under
which he sails.

THE MAN behind the guns of his employer, (wheth-
er he be Uncle Sam or one of our New England manufac-
turers or merchants,) must make loyalty his target... He
must aim straight and keep straight... He must identify
himself with his work... He must consider himself Part
of the Business... He must shout for "Our" firm... for "Our"
products... and must feel a personal enthusiasm for his
work and those at the head of it. The faithful man or wo-
man, boy or girl, who studies the needs of the business, the
interests of the employer, is the one who is appreciated
and advanced, while the "kicker" or shirker never "gets
there."

HERE are a few bits of wisdom to remember:—
Don't fool yourself into thinking that "the boss"
doesn't know who shirks and who does his best.

DO AS LITTLE as you can and you may soon have lit-
tle to do.

DO YOUR BEST and the Best will come your way.

WATCH the CLOCK and you may have to Watch Out
and stay out. The Clock is typical of the Factory. Unless
The Works are at work,—unless the hands are faithfully
going their round of duties, On Time,—The Clock stops and
the Works run down.

INITIATIVE—thinking for oneself—doing without be-
ing told—these are the rounds of the Ladder that lead to
The Top.

NO ONE can go 'cross-lots to the top round. You have
got to CLIMB.

"WE BUILD the Ladder by which we rise!"

PRIZE POEM

The poem that won the first
prize of \$3.00 in the Acme con-
test.

To the Acme Theatre the people go,
They wade in the water and they
wade in the snow,
They say when they get there they
see on the screen,
The Paramount Pictures the best
ever seen.

Now the Acme Theatre puts on a
good show,
And if you don't think so you just
want to go.

And see the Paramount Pictures
with Mary Pickford in "Rags"
That lives with her father who gets
on his jags.

But then Mary Pickford she's only
one

Speaking of Paramount Pictures
I've just begun
I could scribble them off for an
hour or more

But I'm afraid that the Picture
men on me would get sore.
But there is one other I cannot for-
get

I think she is the best one I have
seen yet.

And that's the Marguarite Clark in a
Paramount view
There may be some that is better
but not but a few.

I suppose you take notice going in-
to the hall

That you have a very hard time to
get in at all

It is all on account of the seats that
have been sold
For the Paramount Pictures so I
have been told

Now if all of the Managers would
do as they should

Put on Paramount Pictures and
show something good
Of which we all know are the best
in the land

There would not be room in the
Theatres to stand.

"HE CAN HAVE MY JOB"

The temperance people of a small
Southern town had long been bat-
tling to put the saloons out. At
last an election was ordered and a
mass-meeting was held in the room-
iest church. Near the close of the
meeting, a venerable-looking old
gentleman dressed in broadcloth,
walked down the aisle and address-
ed the audience.

"Friends," he said, "if you vote
whiskey out of this town I will lose
my job. I am getting old and know
of no other way to make my living.
As you know, I keep the town's sa-
loon—a nice respectable place.
Think of that before you vote."

When he had finished a care-
worn shabbily dressed woman
arose and said: "As you know, I am
the town washerwoman. For
twenty years I have made my living
for my family because my husband
could not resist the temptation of-
fered by our friend's nice respect-
able saloon. Vote whiskey out and
my husband will make a living for
us. Then the saloon-keeper can
have my job."

Maine has a sharp bracing at-
mosphere in winter, but if any per-
sons suppose the climate is a close
approach to being Arctic or Alas-
kan they are deceiving themselves
very much. At the present time
the thermometer has not register-
ed below zero, and the average of
our December weather is 24 de-
grees, which is agreeably mild.
Even in our coldest month, January
the average is up to 20 degrees.
What we call a real "cold snap" is
10 degrees below, and this only
comes three or four times in a win-
ter and lasts but two or three days
at the most. The following list of
averages shows what an equable
climate Portland enjoys:

Jan. 20 degrees above

May 44 degrees above

FARM POULTRY

MIXTURE FOR LAYING FOWLS

Scatter Equal Parts of Cracked Corn, Wheat and Oats in Litter—Make Hens Exercise.

In order to obtain eggs it is necessary to have healthy, vigorous stock, properly fed.

A splendid mixture for laying hens is equal parts of cracked corn, wheat, and oats, which should be scattered in the litter.

Bran or middlings and beef scraps should be kept in receptacles to which the fowls have access at all times.

Plenty of exercise increases the egg yield.

Provide four or five inches of good, clean litter in which to scatter the grain.

Cabbages, mangels, potatoes, sprouted oats, etc., make excellent green feed.

When wet mashers are fed be sure they are crumbly and not sticky.

For the first three days chicks may be fed a mixture of equal parts hard-boiled eggs and stale bread, or stale bread soaked in milk. When bread and milk are used, care should be exercised to squeeze all milk out of the bread. From the third or fourth day until the chicks can eat wheat and cracked corn, commercial chick feed is a good ration.

Plenty of pure, fresh water, grit, shell, and green feed should be available from the first day.

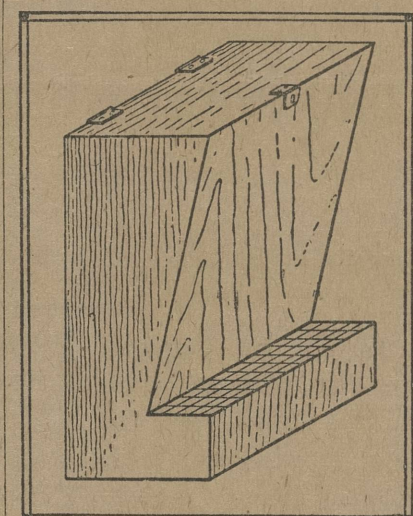

There is very little danger of over-feeding young stock.

Feed the chickens about five times daily and only what they will eat up clean in a few minutes, except at night, when they should receive all they want.

FEED HOPPER FOR CHICKENS

Device is Easily Constructed Out of Old Soap Box—Grain Supply Kept Properly Screened.

A feed hopper for chickens can easily be made by sawing the sides of a laundry soap box as indicated. A lid is fastened on the top by hinges, and the feed is poured in at the top. The front slants, which keeps the feed always sliding down as it is taken out

GOOD EGG-PRODUCTION HINTS

Presence of Male Bird Has No Influence on Number of Eggs Laid—Infertile Eggs Best.

Produce the infertile eggs. Infertile eggs are produced by hens having no male bird with them.

Removing the male bird has no influence on the number of eggs laid by hens.

The hen's greatest profit-producing period is the first and second years, and unless a hen is an exceptionally good breeder she should be disposed of at the end of her second laying season and before starting to molt.

Few eggs can be expected until the pullets are matured.

If possible, mark the pullets that lay in the fall, and use them in the breeding pen for the following spring.

Soft-shelled eggs are often caused by fowls being confined, becoming overfat, and from lack of mineral matter.

CHICKENS NEED GREEN FOOD

Cabbage Tied to Stake Is Excellent—Long Stuff Is Liable to Cause Trouble With Hens.

When green food is given to hens in confinement it should always be cut or chopped fine. A cabbage tied to a stake is excellent, but a variety is better.

White clover, red clover, lawn grass, tops of vegetables, or even young corn fodder, will be relished by the hens if chopped into short lengths so that they can easily eat it.

Long food sometimes causes the hens to become crop bound.

Grit Is Necessary.

It is absolutely necessary to supply grit, in order to keep fowls healthy, as grit takes the place of teeth.

THE BUILDING OF A COUNTRY

The Natural Pride of Those Who Take Part in It.

To those who have built railroads through and across the prairies of Western Canada, connecting that great empire of grain and cattle, horse and sheep with the world's markets in the east, must be awarded the privilege of looking upon their work, and its results with pardonable pride. If they reminisce, and tell of the hardships and the privations, why shouldn't they? The broad prairies on which the buffalo roamed and fed, are now alive with cities, towns and villages. Farms—large and small—on which machinery has chased the bugaboo of laborious work off the farm, and making farm life one of the most pleasant and prosperous of occupations—are being cultivated by men of the highest stamp of manhood. Many of these have inherited from their forebears the physical strength and the high type of manliness that was theirs in the days when they heaved their homes out of the virgin forest, and made them what may be seen today, beautiful farms in the east. On the whole the western prairies breed a high type of manhood, wrest from him faults and diseases which would be his were it not for the upbuilding influence and character of prairie life.

When the builder of the western Canadian prairie looks upon the result of his work, why shouldn't his chest expand? It was probably some of this feeling of pride that took possession of Sir Donald Mann, vice president of the Canadian Northern Railway the other day in Winnipeg, when he said: "I am not in the habit of giving advice, but I have no hesitation in advising the young men of Canada, every young man, to get out and get a piece of western Canada's land that now can be had for the asking and be their own masters."

"It was 36 years ago when I first came to Winnipeg," he said. "At that time there were less than 150,000 people west of Lake Huron in Canada, and the only bit of railway in operation was between St. Boniface and Emerson—about sixty miles. Today there are nearly 20,000 miles of railway in actual operation and the population is over two and a quarter million, a wonderful achievement in such a short period you will agree, when you have contemplated it a moment."

"At that time all the flour, meat and many other supplies for our contracts were brought from the States. Now consider what the west is doing today. You have a grain production exceeding a billion bushels and yet only a comparatively small area of the tillable land of the country is occupied. Five years hence you will be more than doubling that."—Advertisement.

Holding the Form.

The newspaper humorist went courting. He stayed late, very late, so late that the old man called down to his daughter, "Phyllis, hasn't the morning paper come yet?"

"No, sir," answered the funny man, "we are holding the form for an important decision."

And the old man went back to bed wondering if they would keep house or live with him.—Boston Transcript.

A GLASS OF SALTS WILL END KIDNEY-BACKACHE

Says Drugs Excite Kidneys and Recommend Only Salts, Particularly If Bladder Bothers You.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

MORE ABOUT SOUPS.

A nice hot dish of soup is most sustaining and soothing on a cold night.

Sheep's Tail Soup—(Armenian).—Cut in small pieces eight sheep's tails. Soak in cold water for an hour, then par-boil, drain and fry in butter. Cover with mutton stock and add a bunch of parsley, two leeks, two cloves, an onion and a stalk of celery tied in a muslin bag. Cover and boil until the meat is tender. Add three quarts of mutton stock, simmer for an hour and remove the muslin bag. Season with curry powder and thicken with the yolks of four eggs, beaten smooth in a cupful of cream. Serve with boiled rice on a separate dish.

Puree of Parsnip Soup.—Fry in butter one quart of tender parsnips, cut in dice. Cover with beef stock and cook until tender, press through a sieve and return to the fire. Add enough beef stock to make the desired quantity of soup and thicken with a tablespoonful each of flour and butter. Reheat, season and serve hot.

Italian Chestnut Soup.—Shell and blanch 50 large chestnuts, cover with veal stock, add two tablespoonfuls of bread crumbs, salt, pepper and nutmeg to season, and simmer for two hours or more. Press through a sieve, measure the quantity of soup and add half as much boiling milk. Thicken with the yolk of an egg beaten with a little cold milk and serve with crotons.

Mock Turtle Soup.—Clean a calf's head thoroughly, split the head, take out the eyes and cover with salted water, bring to a boil, cook for half an hour, take out the head, remove the bones, peel the tongue and cut up the rest of the meat in small pieces, strain the liquor and return it to the pot with the meat, adding more water if necessary. Chop fine one small onion and a head of celery and add to the soup.

Season with pepper, salt, cloves and cinnamon to taste. Just before serving add half a lemon, sliced.

HOUSEWIFE'S HELPS.

Put cheese that is wanted to keep in a stone jar and cover thickly with salt; it will not mold or become dry with this treatment.

When the metal tip comes off from shoe string, wind the end firmly with waxed thread, then sew it in and you will have as good a tip as ever.

For successful pie making use old tin plates when baking custard, pumpkin or one-crust pie. If a new tin is bought, brown it well in the oven before using it. A custard pie must be baked crisp and brown on the bottom to be palatable, and thick, heavy pans make a soggy crust.

Polish mirrors with alcohol, then rub with whiting and polish. The finish will be much superior to any other treatment. This is good for windows.

Brush silk with a piece of velvet or velveteen. Never use a brush on silk.

A worn-out fancy waist may be made into a pretty little afternoon apron, by carefully cutting out the front. If there are embroidered sleeves, pockets may be made of them.

To Cure Car Sickness.—There are any number of remedies, like the eating of raisins, dry crackers, etc., but here comes one called infallible, given by a sleeping car porter. Eat several slices of raw potato, plentifully sprinkled with salt. Salted crackers would probably have the same result and be more digestible.

When cleaning any garment or gloves, mix gasoline with flour; rub this paste well into the soiled spots and brush well after the gasoline is evaporated. Peroxide will take out fruit stains, even of long standing. One application put on when they are on the line is usually sufficient. This need not be washed out as it does not injure the fabric.

Velvet covers to coat hangers are much better than silk, as the garment does not slip off so easily.

A small piece of butter dropped into the boiling sirup before it is added to the egg white insures a creamy frosting. A teaspoonful of cream will answer the same purpose.

Industrial Training and Crime.

It is a fact that a very large percentage of the inmates of prisons are industrially untrained, and unable to earn a living income honestly. In Sing Sing the number of men who may be thus classed has been variously estimated by those acquainted with conditions at from 75 to 90 per cent of the total population. In that fact is the cause of much crime, in the remedying of that condition is to be found the cure for it in a large number of cases.—From the Star of Hope, published by Sing Sing Prison.

RESPIRE FOR MARY THOMAS

Colored Woman, Dissatisfied With Wings, Came Back to Earth for Another Spell of Life.

Mary Thomas had been on the books of the benevolent association for many years. Her rent was regularly paid from its all too small fund, her clothes and her medicines were largely provided for in the same manner. At last one day the treasurer's assistant, a negro preacher, burst into the office of his chief, hardly waiting to knock.

"Mary Thomas, she done daid, sah," he exclaimed.

"The gods are good," the treasurer breathed. "Sit down, Casey, and tell me how it happened."

"Ah don't know much 'bout it, sah," the negro answered. "Ma ol' 'oman, she heered it dis mo'nin' f'om a great gran'chile er Mary's, an Ah comes up yair right away ter tell yer. I se on ma way over dar now, ter see she laid out properly. Good mo'nin', sah."

The next day a slow, sad knock sounded at the door of the treasurer's office, and Casey disconsolately walked in.

"She done come ter life, sah," he said shortly.

"Are you talking about?"

"Who has come to life, Casey? What?"

"Mary Thomas, sah. Hit warn't nothin' but a trance, an' she up an' 'roun' ergin big as life. She say as how her wings ain't been put on like they'd ought ter, an' dey come off, dat howcome she ain't stay daid, sah, yes, sah."

She Had the Evidence.

"He doesn't like my cooking," sobbed the three months' bride, a tear on her long lashes. "I just know he doesn't. So there!"

"What makes you think so?" her mother asked. "Has he said he doesn't like your cooking?"

"N-no-o," stammered the bride.

"Nonsense, child, it's just your imagination. I felt there was no basis."

"There is a basis," the bride insisted, tearfully. "I had been cooking the loveliest things for him for about two weeks, and then he told me he had decided to become a raw-food faddist. Boo-hoo-o-o!"—Judge.

Harry Lauder was being entertained with a story.

"An Irishman and a Scotchman went into a saloon together," said the wit, who was trying to interest the comedian, "and the Irishman discovered that he had lost his money."

Lauder did not laugh.

"I hope the Scotchman found it after the Irishman had gone out," he said, in perfect seriousness.

He was reminded recently by a member of a golf association that the organization had given him (Lauder) a watch to replace one he had lost.

"Now that you bring the subject up," said Lauder, "I think I lost a cuff button on the links today."—Exchange.

An Irish soldier had lost his left eye in action, but was allowed to remain in the service on consenting to have a glass eye in its place. Being a typical "absent-minded beggar," he appeared on parade one day minus the left "wind-dow."

Like a flash came the reply: "Sure, sir, I left it in my box to keep an eye on my kit while I am on parade."

KENNEBUNKPORT

Mrs. Annie Wescott and Mr. John Morrison attended the High School play at the Town House.

Mr. Leslie Bryant is on the sick list at this writing.

Mr. John Peabody spent Friday in Portland.

Mr. Silas Perkins was a guest of friends in town last week.

Last Tuesday evening the Enterprise Orchestra gave a dance at the Bijou Theatre which was quite a success, considering that it was the first dance.

Several from this town attended "The Birth of a Nation" at the Colonial Theatre in Saco. Among those who saw it were Mr. Thompson Norton, Miss Louise Tuman, Mr. Joseph McCabe, Mr. James McCabe, Mr. George Maling, Mr. Chadbourne Ward, Mr. and Mrs. Mark Goodwin. All who saw it considered it one of the most instructive pictures that was ever shown.

Last Tuesday evening a delightful supper was served by the men of the Methodist church when the following menu was served; grapefruit, hot rolls, mashed potato, roast turkey, cranberry sauce, squash, celery, mashed turnip, assorted cakes and pie, coffee and ice-cream. Generous helpings were served to the large crowd and it certainly was well worth the fifty cents.

Valentine boxes were held in the village schools on Monday. Each child received several, and in Miss Borgesson's school, she treated each pupil with candy. The demand for valentines was so great that by Monday, Mr. Wescott had sold every one out.

All those in the senior class wish to thank all those who so willingly helped them make the play a success.

Mr. Leo Driscoll has been sick with grippe, but is now better and is able to be out again.

Monday evening the temperature was 12 below, which is not quite Florida weather.

Mrs. Albert Welch is confined to the house with a bad attack of the grippe.

At a literary meeting at Kent's Hill, Mr. Henry White of Kennebunk Beach gave the opening address and Mr. Seth Pinkham of Cape Porpoise gave the closing address. Both of these boys were pupils of Kennebunk High School.

The Misses Mary and Elizabeth Wildes have returned to school, having been confined to their homes with bad colds.

Mrs. Everett Higgins spent Tuesday with her mother Mrs. McLaughlin.

Miss Dorothy Brooks in visiting her sister Mrs. Byron Perkins in New York.

Mrs. Benjamin Hanscom has been very ill, and is now under the care of Dr. O'Connor of Biddeford.

Mrs. Hanscom of North Berwick and Mrs. Clara Dairs of Old Orchard visited their aunt Mrs. Stone at the home of Mrs. Mary Wescott the past week.

Miss Helen Emery spent the week with her parents Mr. and Mrs. George Emery. She returned to North Berwick Sunday evening.

Mrs. R. Clark, wife of Roany Clark died last week at a very old age. Mrs. Clark had been ill for some time. The community extends their sympathy to Mr. Clark.

Miss Isabella Russell returned to her home Monday, where she will spend her vacation.

Mr. Will Wescott and Mr. Geo. Arpe went to Saco Saturday afternoon to see "The Birth of a Nation."

They report a fine show.

Mr. Clifford Maling spent the week end at Biddeford Pool.

Mr. Warren Littlefield and John Towne have gone into the poultry business.

Several of the children of this vicinity have the croupe, and consequently there are many absences in the schools.

Mr. Woodbury Stevens attended the dance at Washington Hall. He reports a fine time.

Last Wednesday evening the seniors of the Kennebunkport High School presented the play, "The Face at the Window," at Farmers' Club Hall. Although the weather was not of the best, the audience was one of the largest. Several from Kennebunk, Cape Porpoise and neighboring towns attended the play. About eighty dollars was taken in. As yet the net proceeds have not been found out. Music from Biddeford played during the play and for the dance which followed. All those who took part in the play did splendidly and none had to be prompted. Mrs. Ricker of Kennebunk assisted by Mr. Lane staged the play, which was done very well. Several would like to see "The Face at the Window" over again, and it will probably be repeated at Pinkham's Hall, Cape Porpoise.

The White Hopes of Biddeford High School come to this town to play the Shooting Comets and the Travelers played Kennebunkport. In the first game the White Hopes lost to the Shooting Comets by the score of 12 to 26, while in the second contest the Midgents were on the small end of the score with 24 to 19, with the Travelers for opponents.

The second contest could better be called the Giants against the Midgents for it was a case of the Biddeford youngsters going up against big fellows who outweighed the Biddeford boys by 30 pounds.

The games were played in the town hall and were witnessed by a small gathering. A good deal of interest centered in the White Hopes-Shooting Comets contest as the two teams met before, with the Kennebunkport boys coming out victorious. There was some nice work on both sides, while the boys featured in shooting baskets.

The line up:
Shooting Comets: Maling, l f; Jas. McCabe, r f; Lunge, c; Joe McCabe, l g; E. Clark, r g.

Travelers: Hanscom, l f; Hill, r f; Clough, c; Numan, r g; Huff, l g; Cluff, l g.

White Hopes: Mahoney, r g; Murphy, l g; O'Connor, c; Flood, r f; Emerson, l f.

Midgents: Twomey, r f; Hayes, l f; Cole, c; Crowley, l f; O'Connor, r f.

Mr. Warren Littlefield rescued a dog from the river Tuesday morning. The dog was pushed in by another dog, while playing with it near the edge of the wharf. When Mr. Littlefield saw the dog it was almost exhausted from trying to force itself from the ice. The dog was owned by Mr. Mark Goodwin, and responded to the call of "Tango." Mr. Littlefield really put his own life in danger, as the wharf was entirely covered with ice, and he was obliged to climb down the side, to save the animal.

Mr. George Arpe, Mr. Will Wescott, and Capt. Dudley went to see "The Birth of a Nation." Captain Dudley, who has been around the world several times, considers it one of the best things he has ever seen.

Mr. Frank Miller went to Lewiston Monday to meet some friends. His plan was to go to Portland, Sunday to join his friends, but due to the storm, he was obliged to wait till Monday.

Mr. and Mrs. D. A. Morrison spent Sunday with Mr. and Mrs. J. F. Seavey at Cape Porpoise.

The storm of Sunday led to the cancelling of all the church services of the village except the evening meeting in the Methodist church, which was not well attended.

The funeral of Ida H., wife of Alonzo Wildes, was held on Monday afternoon from her late residence, on North street. It was attended by many friends, whose floral offerings were numerous and beautiful. Two selections were

rendered by Mrs. Dennet and Mrs. Maling, and the services were conducted by Rev. Thomas P. Baker. Within recent years Mrs. Wildes lost both of her children, a daughter and a son, so that Mr. Wildes is left alone, except for a brother. The sympathy of the community is extended to Mr. Wildes in his deep sorrow.

The ladies of the Methodist church will serve a Circle supper in the vestry next Wednesday evening, Feb. 23rd, at 6.30 o'clock.

A very well attended meeting of the Olympic Club was held at the home of Mrs. Clara E. Rollins last Saturday afternoon, at which Mr. York presented an unusually interesting sketch of Abraham Lincoln.

Next Sunday afternoon the pastor of the Methodist church will speak on "The Irresistible Advance of a Righteous Principle."

The third entertainment in the "Citizens' Course" will be given in the auditorium of the Methodist church next Tuesday evening, Feb. 22nd. The speaker of the evening will be Mr. Louis Williams, who will present a unique attraction under the title of "The Wonders of Electricity." Mr. Williams carries with him an elaborate equipment of dynamos, generators, motors and electrical and chemical apparatus which has cost him thousands of dollars. By this means he gives a series of beautiful and remarkable experiments, illustrating what electricity has accomplished and suggesting what it may yet do. Among the attractions will be a number of wireless experiments. Owing to the fact that the engagement of the evening previous to his appearance here is at Caribou, and that the quickest connections will not allow him to reach Kennebunk station until 7.34 in the evening, the hour for commencing the entertainment has been set at 8.30.

Last Friday evening District Deputy Grand Master George N. Stevens installed the officers of Yorkshire Lodge F. & A. M. of North Berwick. In this work he was assisted by C. E. Meserve as Grand Marshal and Rev. Thomas P. Baker as Grand Chaplain. Others who accompanied Mr. Stevens from here were Frank Arnold, Frank M. Chick and Wainright Chick. After the ceremony of installation, the lodge entertained its guests and members with an oyster supper, following which an entertainment was given by a company of colored singers.

Lewis A. Baker returned to Bates college on Saturday, after spending a few days at home.

Mr. Chester Cluff has returned from Boston.

The winter session of the Piscataqua Methodist Social Union will be held at Foss street Methodist church, Biddeford, next Monday. It will convene in the morning and continue in the afternoon and evening. Among the special features will be a banquet at 5.30, an address on "The Gary School System," by Rev. William M. Forgrave of Kittery, one on "The Rural Church as a Community Resource," by Prof. E. R. Groves of New Hampshire College, and an address on "The Man Outside," by Field Secretary C. J. Brown of Bangor.

SACO ROAD AND VICINITY

Mrs. D. W. Hadlock was a guest of her niece Mrs. Guy Wilson, Friday at Kennebunk.

Mrs. Ida Wildes, wife of Alonzo Wildes died at her home on North street Saturday aged about forty years. Mrs. Wildes has not been well for some time but was able to be out until the last few weeks. Her death comes as a great shock as few knew that she was any worse. Mrs. Wildes has been a heartbroken woman since the death of her children, a sweet little girl and later a fine son who died about two years ago. Since then her health has been failing. She is survived by a husband who is alone a father, three brothers, Herbert Fairfield of Massachusetts, Edward of Kennebunk and Howard of Kennebunkport, all of whom have the sympathy of friends and neighbors. Mrs. Wildes was a great home woman and her going away leaves a large place in the home. Funeral services were held Monday at her late home, Rev. T. P. Baker officiating. Mrs. Stella Dennet and Mrs. Abbie Maling sang two beautiful selections. The floral offerings were very beautiful.

Miss Eulalie Benson went to Boston last week to visit her friend Muriel Chick. She reports having the time of her life.

The High School play given at the Farmers' Club Hall was fine. A large audience was in attendance. All parts were taken to perfection. After the play ice-cream and dancing were enjoyed.

Charles M. Hutchinson has just received a new milking machine. The first to be owned in Kennebunkport. He can milk four cows at one time and this will greatly lessen the labor of milking. Mr. Hutchinson has 19 head of fine cattle and it is a pleasure to go into his neat warm barn and look at these cows. If one likes them there is no prettier sight than a herd of nice sleek cows. Mr. Hutchinson is one of our up-to-date farmers. His

father, the late Mahon Hutchinson always had a good herd of cows. He also kept a large flock of sheep, and it was a pleasure to him to show them to any one interested in them. Your correspondent has spent many happy hours at this home in the bygone days when there was a large family of girls and their mother, who was always ready for a good time with us; those truly were happy days; but many of the dear ones have gone before. There are few left of the dear old friends and schoolmates of earlier days, but we still cherish their memories.

Mrs. D. W. Hadlock and daughter, Florence, and two little girls Lillian and Betty are planning to spend the week end, both returning by the way of Lewiston, where they will visit the son and grandson, R. Laurence Ross attending Bates college. They anticipate a delightful trip.

Mr. and Mrs. D. W. Hadlock attended the lecture at the Mousam Opera House Friday evening by Capt. Stowell of Rhode Island, under the auspices of the 13th Co., C. A. C. The lecture was fine, the speaker holding his audience from start to finish. The slides were fine, showing big guns, forts, battleships etc., and last but not least the G. A. R. veterans and soldiers were there. The veterans occupied the front seats and they were shown every courtesy by the members of the 13th Company. They are a fine looking young men, and made a fine appearance in their uniforms. We were shown the armory and the equipments, tents, dishes, blankets, etc., and how they were used. The boys showed us every attention and we spent a most pleasant half hour with them. We congratulate Kennebunk on the honor of such a company and their armory. They should all feel that it is indeed an honor and I am sure they do. We met a lot of old friends here among the members of the Company and others and returned to our home well pleased with the evenings entertainment.
