

Not Yet.

[BY WILLIAM CULLEY BRYANT.]

O Country! marvel of the earth!
O realm to sudden greatness grown!
The age that glories in thy birth,
Shall it behold thee overthrown?
Shall traitors lay that greatness low?
No, Land of Hope and Blessing, No!

Correspondence.

From the 26th Maine Regiment.
Baton Rouge, Feb. 25th, 1863.
Mr. Sawyer—If it will be in-
truding, I will write a few lines for your
paper, as it is the most ready way of inform-
ing the friends of my Company how the
boys get along. The health of the
company is about the same as when I
last wrote; I think that we are through
with the measles; there has been ten cases
in my company, all convalescent.

still doing a noble work for the destitute
and suffering soldier. But the Christian
Commission aid religious reading to the
clothing and hospital stores, and send
their delegates through the hospitals and
the army to hunt up the needy, to supply
their wants and to relieve their suffering.

The Copperheads do not want Vicks-
burg taken, nor the Mississippi opened,
as that would destroy their stock in trade.
If they can leave a peace with the rebels,
leaving the river below Memphis in their
hands, they feel sanguine of being able
to take the West out of the Union, and
of annexing it to the Southern Confed-
eracy.

while the rivers bring them up fleets of
transports, and Rosecrans, with another
large army, threatens to sweep all oppo-
sition from his path and join the other brig-
ands who are crowding upon Vicksburg.

in accordance with the act; regulate the
assignment of drafted men to different
regiments; provide that enlisted men, de-
tailed to special service, shall not receive
extra pay; rescind the General Order of
the War Department Nos. 154 and 162
in reference to enlistments; fix the com-
pensation of the different grades of cav-
alry, trumpeters, etc., and declare that all
spies, on conviction, shall suffer death.

AN INTERESTING FACT.—An accidental
discovery made while examining the iron
pripe steamers Anglia and Scotia will
help to settle the long mooted question,
"how to preserve ships' bottoms?"

Miscellaneous.

The Value of Vicksburg.

The capture of Vicksburg will inflict
upon the rebel cause a more serious in-
jury than the loss of any other point in
their possession. Jeff Davis can better
afford to give up ten Richmonds than one
Vicksburg, and he fully appreciates its im-
portance to the Confederates, and is re-
solved to hold it if in his power. It will
require an immense force and a most
sanguine struggle to wrest it out of the
hands of the rebels; but its possession
will be richly worth all it can cost to
seize it. The time to have taken
Vicksburg was last June, when the fleets
from New Orleans and Memphis bomb-
arded it. A land force of 25,000 men,
to cooperate with the gunboats was
have taken it without doubt. The mag-
nificent moment passed away for striking
a most damaging blow at the rebellion.—
Since the siege was abandoned, the rebels
have immensely strengthened this key-
point of the river, and have garrisoned
it with a large army.

Comfort for the Croakers.

It is a thing worthy of note, that while
the croakers and copperheads of the
North complain of the inefficiency of
the rebels who have been managed, the
rebels do not agree with them. We have
before us a Richmond Enquirer of the
10th of February, in which the rebel
view of the question is giving at length,
and we deem it important enough to lay
before our readers in our most conspicu-
ous column.

The Conscription Bill.

We give the following abstract of this
act which to many persons will be more
intelligible than if printed in full. The
bill, as it now stands, provides for—
Sec. 1. The enrollment of all able-
bodied citizens between the ages of 20
and 45, including persons of foreign
birth, who have declared their intentions.

On Hand in Good Season.

The Peoria, Ill. Mail tells the follow-
ing good story:
An old merchant of the town of R—
in the old Bay State, was noted for
his dishonesty. After many years of
fraudulent practices, he very suddenly,
and to the great surprise of all who
knew him, became very pious and joined
the popular church of the town. One
Sunday evening while exhorting the
brethren, he remarked that he had done
many things for which he felt very sorry,
and he deemed it his duty to make full
restitution to those whom he had wronged;
he therefore notified all such that
if they would call at his store he would
do so.

First class in philosophy, come up.

Lehabod—"What are the properties of
heat?" "The properties of heat is to
bake bread, bile water, cook eggs, and"
—"Stop. Next—What are the properties
of heat?" "The properties of heat is to
warm your toes when they get cold,
by holding them to the fire, and so forth."
"Next. You Solon." "The chief prop-
erties of heat is that it expands bodies,
while cold contracts them." "Very
good, Solon. Can you give me an exam-
ple?" "Yes, Sir; in summer, when it
is hot, the days are long; and in win-
ter, when it is cold, the days get to be
very short." "Go to the dead, Solon;
boys, take your seats;" and the learned
pedagogue was lost in wonder that so
familiar an illustration had escaped his
philosophical mind.

Taking the Hint.

It is truly surprising to see how slow
some farmers are to take the hint. It
seems as if the adage held true "when
it rained porridge their dish was always
bottom upwards." A wide-awake farm-
er will try and see that every opportu-
nity is improved for self-improvement
and improvement of his farm. The frost de-
stroyed about one-half the blossoms on his
apple trees; everybody prognosticates
the loss of fruit; instead of that, the
half that remains are larger, and fairer,
and finer flavored than usual, and the
trees, instead of being exhausted, are
ready for another crop next year. Why
has not the farmer taken the hint and
thinned out his fruit every bearing year?
But no; the next season sees his orchard
overloaded—fruit small and not well
formed; consequently unfit for market.
Yet he boasts of the fine crop of large
ones last year, without profiting by the
hints given him by nature; his "dish
was upside down."

To the Volunteers of Maine. We the undersigned, women of Casine, Maine, having husbands, fathers, sons, brothers and friends in the Union army, far from the peaceful vocations of life and joys at home, feel it to be their imperative duty to encourage those who have gone forth at their country's call to maintain this government, founded in righteousness...

We are aware that there exists in the loyal States, a combination of desperate politicians, who under the guise of "peace unionists," are continually laboring to destroy this nation, by giving "aid and comfort" to the innumerable cause of treason...

We know also, that vast numbers of treasonable sheets are printed in this, and other States, which are circulated at home and in the camp, by unprincipled men...

We are determined to do all in our power to collect and forward such articles as will conduce to the number of our forces, believing that patriotic men and women do their duty at home, our armies will simply care for the enemy in the field...

General Banks and Admiral Farragut were to have attacked Port Hudson ere this, and no doubt, successfully too.

The Army of the Potomac has been patiently waiting for good weather and possible roads for a movement. The reports are, and that the mud is fast becoming dried up, and that General Hooker will ere long move in some direction...

Gold is still lower, and the capture of Vicksburg, Port Hudson, and one or two other places, will cause it to fall clear down.

LOCAL AND OTHER ITEMS. Gold sells in Dixie for \$3.50. Please notice the call for a Caucus on Saturday afternoon at Tisdale's Hall.

It is thought our Legislature will adjourn next week. We are under obligations to Gen. W. Brown, Esq., of New Orleans, for late papers of this city.

Sergeant J. Eppes of this village, a member of the 6th Maine regiment, died at Washington Hospital, recently. Thursday and Friday mornings were unusually cold, the mercury sinking to 15 degrees below zero on the former, and to 20 on the latter morning.

We have more letters and communications on hand, than we can find room for in a month. So be patient and forgiving, for we have to be. Peterson's Magazine for April has been received. It is well illustrated and every way a fine number of this popular magazine.

Cassie elected a Democrat, or an anti Administration board of selectmen has been elected, and this year in a sharp contest a Union board. Will the Machine Union vote this?

Our Serry friend who writes a reply to the article in the Republican Journal on the teachings of the Bible in regard to slavery, must take the will for the deed, for we cannot punish. Then, he might as well reason with the wind. It is time thrown away.

We have just received from Oliver Ditson & Co., Music Publishers, Boston, the following beautiful pieces of music: "The Celebrated Laughing Song," "Glee Annie Ray," "O Song to me, those dear old songs," "O, Father's Grand March," "Der Kuck" and "Di Professor's Max."

The people of North East Harbor, Mt. Desert, turned out almost, or quite to a man at the recent town meeting, although they had to travel seven miles to get to the meeting. There are forty seven voters at this locality, fourteen on the West side of the Harbor and thirty-one on the East side, and yet, although often asking for the same, there is no Post Office within seven miles. We hope the Department will establish one at the Harbor without delay. The people are earnestly desiring this accommodation.

Cassie's Election resulted in a Union success. The annual fair in Massachusetts occurs the 21st of April. The U. S. Treasury is in receipt of sufficient gold to meet all its essential demands for specie.

The town of Brewer has voted to put on the dog tax of \$100 per head. This is a right, and we hope Brewer will follow suit. The Summer term of Exeter's Boarding School for Boys, Knoll Hill, commences on the 15th of May. This is a good school and rapidly gaining in public favor.

The new postal law says newspaper publishers must be notified when papers are not taken out for one month, which notice may be sent free. The Portland Press of Tuesday, says that the new sheet "Harvest Moon," is about to be founded so as to leave Portland for Bangor on Saturday next.

Congress has passed a bill to create a new Territory out of Eastern Oregon and Western Dakota, under the name of Idaho, which is Idaho, for Gen of the Mountains. Mrs. Cowan, widow of the late Captain Cowan of Biddeford, has been appointed Post mistress of that city, in place of her husband, deceased.

Captain John Ayres of Bangor, who was wounded and in the hands of the rebels, died at the Liberty Prison in Richmond, recently. He was 35 years old. He was commander of Co. H, 10th Maine. The receipts of the Penobscot and Kennebec and the Kennebec and Androscoggin railroads from June 1861 to February in 1862 reveals that of the corresponding time last year by \$36,902.71.

The nomination of Col. Nickerson and Col. Stebbins of Maine, to be Brig. Generals, were confirmed by the Senate. The nomination of Brig. Gen. Barry and Brig. General Howard to be Major Generals, were confirmed. It was a singular fact, and shows to what extent the copperheads went to carry the Spring elections, that many of the towns in the county cast a larger vote than they ever did before, exceeding that of the last Presidential election. The Bangor Democrat copies a statement to have been made by the New York Times, which was published by the Freeman and after the statement has been pronounced a forgery by the persons alleged to have made it. The Bangor and other copperhead journals had published before, and it is supposed the Democrat did not want to be outside at its manufacturing. Daniel Elliot, special Procureur of the State of Maine, has issued a circular calling the attention to the Procurement of the President in regard to soldiers absent without leave or who have deserted. The absentees are notified to report in person to Major Clarke at Augusta. After April 1st, Sheriff Deputy Sheriffs, Constables and Police officers throughout the State are requested to arrest all soldiers who have deserted and convey the same to Major Clarke, Augusta. The Ohio Legislature has adopted a sound platform for the Union year, in the following which was offered by Mr. Lagy: a Union Democrat as a response to anti-petitions for an armistice and peace. Resolved by the General Assembly of the State of Ohio, That we will have no disunion of the Union, that we will have no compromise that we will have no peace with the rebels, and we will stand on until we are satisfied, and we will support the Republic.

New Hampshire Election.—At the date of our last issue, there appeared to be some doubt as to the election in this State.

The conscription act is popular with the soldiers, and they want to see it enforced.

### Special Notices.

Diarrhoea and Dysentery will deplete the Volunteered far more than the bullets of the enemy. There are few men so fit for the service as a full supply of HOLWAY'S PILLS. These are sold in India and the Crimea every thousands of the British Soldiers. Only 25 cents per box.
