BLANCHARD FOR SENATOR.

SMALL CHOICE OF REPUBLICANS FOR SHERIFF.

Henry W. Coburn of Weld for County Commissioner—The Republican County Convention Harmonious and Nominations All by Acclamation.

At Farmington Tuesday morning the republicans of Franklin county held one of the most harmonious and satisfactory conventions in the history of Maine political gatherings.

Although there has been a spirited contest for the nominations for county commissioner, senator and sheriff, at the last moment agreements were reached, or withdrawals made so that each candidate nominated was selected by the convention by acclamation.

There has been much interest aroused throughout the county and as the result every town was represented at the convention. The convention was called to order by N. R. Knowlton of Farmington, prayer was offered by Rev. Henry Blanchard; Prof. Wilbert G. Mallett of Farmington was chosen chairman, and J. Eugene Brown of Farmington and J. W. Brackett of Phillips, secretaries.

In Mr. Mallett's address before the convention he extolled the party man and said it is better to be a constructive statesman than a critic. He admitted that political parties made mistakes, but denied that was a sound reason for every man not allying himself with some party. He believed in caucuses and conventions and thought they agreed with the theory of our government. He firmly believed that the republican party can govern this country, this state and this county better than any other party. He endorsed President Taft, and explained the present high cost of living to be, in his opinion, due to there being more money in circulation with which to buy things. He affirmed that the temperance question belongs in politics as well as any other great economic question. His remarks were frequently interrupted by applause.

The county committee was made a committee on credentials and reported that of 145 eligible candidates the full number was present.

A committee on resolutions was chosen consisting of D. F. Field of Phillips; George W. Wheeler, Farmington; W. J. Trefethen, Wilton; H. S. Wing, Kingfield; Charles F. Hodgkins, Temple.

The nominees were as follows: State Senator, Frank N. Blanchard of Wilton; sheriff, W. B. Small, of Kingfield; George W. Wheeler, D. Clarke, Farmington; register of probate, A. L. Fenderson, Farmington; clerk of courts, Byron M. Small, Farmington; county commissioner, H. W. Coburn, Weld; county attorney, Cyrus N. Blanchard, Wilton; county treasurer, J. Prentice Flint, Farmington.

A county committee was chosen consisting of A. L. Fenderson, Farmington; Wellington Thornton, Chesterville; D. F. Field, Phillips; E. A. Bubler, Jay; Fred O. Smith, New Vineyard.

The following resolution were adopted:

The republican appt of franklin county by their delegates in convention assembled, hereby reaffirm and declare their faith in, and their allegiance to, the principles of the party, which for more than half a century has so administered the affairs of government in our nation, at its history has been one of remarkable progress, growth and prosperi. Our national and individual rights have been protected, and the interests of the whole people promoted, till we have attained a position among the nations of which we may justly feel proud, and which challenges the admiration of the world; and the boundaries of our domain expand, and our domestic affairs and international relations become more complicated, we rejoice that we have as our chief executive that eminent jurist, that broad-minded man of affairs, William Howard Taft. And further be it declared:

That we pledge ourselves to the support of the nominees of this convention, and to Hon. John P. Swasey, who will be nominated at the Second District convention, to be held in Lewiston, June 30; and that we endorse the able administration of Governor Fernald and assure him our hearty support, as he shall again lead the party to victory in September next. We demand an honest and economical, yet progressive administration of the affairs of our county and state, and a conscientious effort to enforce all law, and we denounce nullification of law as the breeder of disrespect for the constitution and statutes of our state and a menace to the stability and well being of society.

The convention adjourned at 11.35 o'clock.

Peters Shells First In Southern Handicap

PETERS AMMUNITION is justly famed for the old RECORDS it has broken, and the new RECORDS it has established. In Rifle, Revolver and Shotgun Shooting PETERS goods have time and again distanced all previous scores, and the 1910 Southern Handicap, at Columbus, Ga., May 3-5, is the latest instance. In the big Handicap Race, Mr. H. D. Freeman, shooting PETERS FACTORY LOADED PREMIER SHELLS, made the wonderful—in fact, sensational score of

99 out of 100 from 21 yds.

No such 21-yard score has ever before been made, and it is given especial importance because it was made in one of the big trap shooting events of the year, in "fast company" and under regulation conditions. All credit to Mr. Freeman and to his ammunition. Such a score could only be made with loads having HIGH VELOCITY (without excessive recoil) QUICK IGNITION and PERFECT PATTERN.

Portland as a Summer Base of Supplies

Portland is the logical base of supplies for outsiders spending their vacation in Maine. In Portland they can supply all their needs, and would do so if they were informed of the fact.

In the special Automobile and Travel number to be issued by Maine Woods and Maine Sportsman in June, attention will be called to the facilities available in Portland. For those who make the automobile trip, Portland will be the terminal point at which the parties will separate.

If you have anything to offer these visitors to Maine—hotel or garage accommodation, transportation facilities, camp equipment, cottage furnishings, food supplies, personal accessories or clothing omitted when travelling "light," automobile parts, or conveniences of any kind—be sure to offer them in the advertising columns of this special number. It will be read by many while they are planning their vacation. Let them know how much of their shopping they can do in Portland.

The returns from such advertising will be sure and definite. The field is open; take advantage of it. Do not let this opportunity slip by. Rates and particulars will be furnished by

Harold Cram, a boy ten years of
age, who has been living with Mr.
and Mrs. Melvin Hood died very sud-
denly Tuesday morning. He attend-
ed school Monday, and seemed as
well as usual when he went to bed.
About twelve o'clock Mrs. Hood heard
him crying and went to his room.
She asked if he was sick and he said
no, he guessed he had been dream-
ing. In the morning she called him,
but there was no response, and on
going to his room she found him in
an unconscious state. Dr. Blanchard
was telephoned for, but he died about
the time the doctor reached there,
and he states that it is a case of
Bright's disease. The boy was as-
saulted about a week ago by some
boys on the way home from school
and hurt quite badly, two teeth being
knocked out and otherwise injured,
and it is feared that it hastened the
disease. The boy was taken from the
Home in Portland several months
ago and Mr. and Mrs. Hood had be-
come very much attached to him and
had decided to adopt him legally.
The services were held at the home
Thursday forenoon at ten o'clock.

Mr. D. F. Hodges started Monday
for a trip to Augusta and other places.

Mr. and Mrs. F. A. Lawton were
in Farmington Tuesday to attend the
graduating exercises of the Abbott
school, when Aaron Capen, son of
Mr. and Mrs. Henry Capen, a friend
of theirs, graduated. Mr. and Mrs.
Capen were also present.

On account of the concert to be
given by the Junior class Friday eve-
ning, the regular meeting of the
King's daughters will be postponed
until Monday, June 20. They will
meet with Mrs. W. H. and W. R.
Leavitt and everyone is requested to
attend, as this is the last meeting of
the season. There will be special
business.

Rev. J. B. Ranger of Springvale
was in town this week to attend the
funeral of Mrs. Abel Bunnell.

The stated meeting of Sherburne
Chapter, O. E. S., was held Wednes-
day evening. It was voted to sus-
pend the meetings through July and
August. The committee for refresh-
ments, Mrs. Nellie Parker and Miss
Blanche Kennistown, assisted by Mrs.
W. B. Butler, had made the dining
room pretty with decorations of pink,
and a most delicious little lunch of
hot rolls, strawberries and cream,
cake and fruit punch was served.
Mrs. P. O. Hopkins, the worthy ma-
trou, who was a delegate to the grand
chapter in Portland recently, gave a
very interesting account of the do-
ings of that body. It will be inter-
esting to many to learn that Mrs.
Flora Pease of Strong was elected
to the office of Grand Martha.

LARGEST IN THE WORLD.

PHILLIPS TOOTHPICK MILL TO BE OF CONCRETE.

Will Be Finest of Its Kind Ever
Built, and Mr. Hersey Will Also
Build a Concrete House—100
Hands to be Employed.

In a recent interview with the Por-
tland Argus, Mr. Hersey described the
plans for the new toothpick industry to
be started in Phillips this fall.

"Work begins today," said Mr.
Hersey, "on the construction of a
large toothpick factory in connection
with our spool and novelty wood
turning plant in Phillips. We intend
to make this factory the finest of
its kind in the world and when in
running order next fall we will em-
ploy 100 additional hands. I have
been in correspondence with Thomas
A. Edison, the noted inventor, and
have decided to build the toothpick
plant of solid cement, and also in
the near future, I intend to have
built at Phillips an Edison cement
bungalow styled residence for myself,
and I believe we will also inaugurate
in Phillips a series of cement houses
for the factory help.

"I find that cement costs less
than wood at its present high price,
although we are in the heart of a
lumber section. Insurance costs
much less and in that cold section
of Maine cement houses are prefer-
able in winter to wooden ones.

"Our main factory will be 144x48
feet, two stories high, with cement
floors and foundations, a solid cement
kiln dry house 21x32 feet, a
storehouse 100x50 of wood with cement
foundations, and two spool sheds
each 220x21 feet similarly built. J.
H. Kerr of Rumford, an expert in
cement building, is the contractor and
we expect to have the entire plant
ready late in the fall.

"This will be the first solid cement
factory buildings in Franklin
county and the whole represents an
outlay of fifteen or twenty thousand
dollars. We intend to have the most
modern toothpick factory in the
world there. This factory is inde-
pendent of the Forster factories at
Strong and Dixfield, with which I am
officially connected, and when run-
ning the factories in the three towns
will be able to produce about four-
fifths of the toothpicks manufactured
in this country, the only competitors
being located in Michigan.

"With the transplanting from Cus-
ter, Mich., of the Custer Mfg. Co.,
to Phillips, where the manufacture
of clothespins has already begun and
which will eventually employ another
hundred hands, we are confronted
with a scarcity of tenements, but al-
ready ten or a dozen houses are go-
ing up in the village and within a
year over a score of houses will have
to be built to accommodate the help
for the increased factory develop-
ments. A new hotel to cost \$15,000
is among the contemplated additions
to the village also. The Berlin Mills
plant at Madrid nearby, which has
been closed down for the past year,
is to start up again next fall, I un-
derstand, and everything up in our
section gives promise of prosperity.
The Sandy River & Rangeley Lakes
railroad is arranging to extend its
system into a rich timberland sec-
tion and an extension connecting the
thriving village of Stratton, up Bige-
low Mountain way, is already survey-
ed. This will open up one of the
best timberland sections in Maine
and upon it will depend the erection
of several mills for which plenty of
capital stands waiting.

"Franklin county is the wealthiest
hardwood section of our great state
and in the course of time may ex-
pect to see big plants from Michigan
and the west following the example
of the Custer Mfg. Co., and coming
to Maine for their basic supply of
hardwood. This seems to be inevit-
able in the face of the inroads made
on the hardwood sections of Michi-
gan and other western states. Maine's
hardwood regions are practically still
untouched as yet and are only wait-
ing for the railroads to penetrate
them as it is impossible to get hard
wood to factories over the water
routes of streams, rivers and lakes,
as we do spruce, cedar, pine and
poplar."

HAVE YOU EVER THOUGHT

Of Living in California some day?
Or of Owning Land there as an in-
vestment?

When the PANAMA CANAL is op-
ened the rush to SAN DIEGO will be
so great that LAND VALUES will go
up with a rush, to hundreds and thou-
sands of dollars above what they are
now. I have no property to sell; am
not a dealer, but act as agent in
selecting or buying for others.

Address with stamps and I will
send you all the information it will
pay for in postage.

NOTICE.

This certifies that my wife, Nellie
M. Luce, has left my bed and board
without any justifiable cause; there-
fore, all persons are forbidden to har-
bor or trust her on my account, as I
shall pay no bills whatever contract-
ed by her.

THE SURE DEATH TRAP.

When set it is invisible to man or
animal. It catches them by the neck
instead of the feet, killing them instantly
without injury to the pelt—a humane fea-
ture that is certainly commendable, be-
sides it saves every fur to the trap-
per.

\$6.00 per dozen, sample postpaid, 50
cents. Send five cents for illustrated
trapper's guide. It explains everything.
