Emancipation Hymn.

BY PHILLIP COOMBS.

We are looking—hoping—praying, For the bright and happy day, When the cloud that now is shading Shall have vanished quite away;

When the war that now is wasting shall end

When the war that now is wasting shall end in lasting peace.
And the eannous coar, on the field of gore, through sil the land shall cease
Cmorus — "Then emancipate the bond-man!"
Strike the chain from every slave,
Give to all the boon of "Freedom!"
(out the felon and the knave;)

Then the land shall yield her cotton, her coccorn and cane,
And the cruel slash of the driver's lash, shall ne'er be heard again.

We are grieving—sighing—weeping, That upon our Nation's soil, Many hearts are sad and bleeding For an unrequited toil;

Many hearts are rent asunder for the wicked lust of gain;

And the auctioneer, with a cruel leer, knocks

down the price of men. Then emancipate' &c. For the Nation's life and honor,

In the ages yet to be;
"Break the yoke of the Oppressor!"
"And let the Oppressor go free!"
For the right of man to freedom, shall conque every foe !
And the Black and White shall together fight,

and seal the Despot's woe! Then emancipate, &c. Then away with "Foul Oppression!"
Let the air we breathe be freu!
Let the Emblem of the Nation
Be unfuiled for LIBERTY!

Then the cloud shall rend asunder, the promise rise,
And Orient dawn with the brightest morn that
ever decked the skies! Then emancipate, &c.

These bonds are issued under the Act of Congress of March 8th, 1863, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. IN-TEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each

Subscribers will receive either Registered or Cou pon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer and can be transferred only on the owners' order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of

having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of Natinonal Banks, adding fifty per cent for premium.) or receive them drawing interest from the date of subscription and deposit. As these Bonds are

in currency, and are of equal convenience as a pernament or temporary luvestment. It is believed that no securities offer so great in ducements to lenders as the various descriptions U.S. Bonds, In all other forms of indebtednes

panies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to se-cure the payment of both principal and interest in These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are

thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will hav the benefit of the interest. It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will by \$45,937,126, while the

customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenue of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual recipts from customs of the same amount of importations, to \$150,000,00 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United States Treas ury until March 26, but in the first three weeks April the subscriptions averaged more than TEN MILLIONS A WEEK. Subscriptions will be received by the
