

damage done, but what can you expect from British marksmanship?"

"I struck the rock on the other side, captain. I think your remark is unkind, especially as I've just been praising the watermanship of your men."

"Now, are you boys tired of this summer resort?" asked Captain Kemp.

"Is your baggage checked, and are you ready to go? Most seaside places are deserted this time of year."

"We'll be ready in a moment, captain," cried his future son-in-law. "I must run up and get the governor. We've put a number of men in prison here, and they'll starve if not released. The governor's a good old chap, though he played it low down on me a few days ago," and with that Jack disappeared up the stairway once more.

"Had a jail delivery here?" asked the captain.

"Well, something by way of that. The prince, drilled a hole in the rock, and we got out. We've put the garrison in pawn, so to speak, but I've been mighty anxious these last few days because the salloot they had here and two of the garrison escaped to the mainland with the news. We were anxiously watching your yacht, fearing it was Russian. Jack thought it was the czar's yacht. How come you by such a craft, captain? Splendid looking boat that."

"Oh, yes, I bought her a few days before I left New York. One likes to travel comfortably, you know. Very well fitted up she is."

Jack shouted from the doorway:

"Drummond, come up here and fling overboard these loaded rifles. We can't take any more chances. I'm going to lock up the ammunition room and take the key with me as a souvenir."

"Excuse me, captain," said Drummond, who followed his friend, and presently bundles of rifles came clattering down the side of the precipice, plunging into the sea. The two then descended the steps, Jack in front, Drummond following, with the governor between them.

"Now, governor," said Jack, "for the second time I am to bid you farewell. Here are the keys. If you accept them, you must give me your word of honor that the boat will not be fired upon. If you do not promise that, I'll drop the bunch into the sea, and on your gray head be the consequences."

"I give you my word of honor that you shall not be fired upon."

"Very well, governor. Here are the keys, and goodby."

In the hurry and excitement over the yacht's appearance both Jack and Drummond had temporarily forgotten the existence of the tramp steamer the former had seen beating toward the rock.

Now Lamont suddenly recalled it. "By the way, governor," he said, "the relief boat you so thoughtfully sent for is on her way here. She should reach the rock at almost any minute now. In fact, I fancy we've little time to waste if we want to avoid a brush. It would be a pity to be nabbed now at the eleventh hour. Goodbye once more."

But the governor had stepped between him and the boat.

"I am an old man," he said, speaking with manifest embarrassment. "I was sent to take charge of this prison as punishment for refusing to join a few massed men. Governorship here means no more or less than a life imprisonment. My wife and children are on a little estate of mine in Sweden. It is twelve years since I have seen them. I—"

"If this story is a ruse to detain us," "Not. No!" protested the governor, and there was no mistaking his pathetic, eager sincerity. "But—but I shall be shot or locked in one of the cells and the water turned on for letting you escape. Won't you take me with you? I will work my passage. Take me as far as Stockholm. I shall be free there—free to join my wife and to live forever out of reach of the grand dukes. Take me!"

"Jump in!" ordered Jack, coming to a sudden resolution. "Heaven knows

at sight of the old man's lean, unimpaired figure rising from among the rest there was visible excitement and surprise aboard the launch. The officer saluted and ordered the engine stopped that he might hear more plainly.

"Jenteent," repeated the governor. "I am summoned aboard his highness the Grand Duke Vladimir's yacht. You will proceed to the harbor and await my return to the rock. There has been a mutiny among the garrison, but I have quelled it."

The officer saluted again, gave an order, and the launch's nose pointed for the rock.

"Governor," observed Lamont as the old man sank again into his seat. "you've earned your passage to Stockholm. You need not work for it."

## THIS PAPER AND JAMESTOWN

When the World's Fair was held at Chicago in 1893 this paper gave a free trip to that exhibition, to a young lady who was the successful candidate in a voting contest.

In 1900 we sent two young ladies to the Paris Exposition, giving them also a European tour, the tourists also being winners in a voting contest.

In 1904 we sent four young ladies to the St. Louis Exposition, two of them winners in a voting contest and each taking a companion.

In all cases every expense of the trips was borne by this paper. Every comfort and luxury of travel was given the young ladies, and from the moment they left Rockland until they landed back home they were our guests. It is hardly necessary to add that the trips were occasions of the utmost delight to the participants.

Now we purpose to do another good thing, to wit: We are to organize a voting contest, through which we will send to the great Jamestown Ter-Centennial Exposition that is to be held this year four persons, two principals, one a resident of Rockland, one a resident of Knox county outside of Rockland. These two will be the winners in the voting and each will be privileged to invite a friend to also make the trip.

Every expense of these four persons will be borne by The Courier-Gazette. This will include some striking features, as follows:

- (1) Transportation, Boston to Jamestown, including a magnificent ocean trip in the one of the palatial steamers of the Merchants & Minors Transportation Co.
- (2) Luxurious entertainment at the Inside Inn, within the exposition grounds.
- (3) Three days' stay at the exposition, with steamer trips to the Naval Fleet, Norfolk, Portsmouth, Newport News, Hampton, Old Point Comfort, Fort Monroe, etc.
- (4) Sail up the Potomac to Washington, with visit to the sights of the national capital.
- (5) A day in Philadelphia, visiting the mint, Independence Hall, Betsy Ross house and other historic spots.
- (6) On to New York and homeward via Fall River line.
- (7) Every luxury of travel and hotels from Rockland back to Rockland, ten days of glorious travel and sight-seeing.

Everything will be first-class and on a liberal scale. It will be a great vacation outing for four worthy persons—congenial persons, of course, for each winner can take along the person he or she would most prefer for traveling companion. Anybody may enter the lists. What a great opportunity for professional men or women, clerks, school teachers, to get a vacation trip!

## WASHINGTON LETTER.

[From Our Regular Correspondent.]

Washington, June 13.—New England is going to make a determined fight for a revision of the tariff; it has no particular preference so far as the Republican nomination for President is concerned, but will insist that the Republican platform of 1908 shall pledge the new administration to a readjustment of the tariff schedules. This, in brief, is a statement made by Representative D. J. Foster, of Vermont, who has been in Washington this week. He believes that the tariff is the only question in the real question in New England is the tariff question. He believes that the attitude of European nations toward high tariff and the condition of the markets of the world necessitate a change. If Mr. Foster had his way a special session of Congress would be called immediately after the inauguration in 1909 and the whole question settled.

Among the graduates who received their diplomas this week from the George Washington University, which is now bending its efforts toward taking place as the center of education in the western hemisphere, are a number of students from New England, New Jersey and Pennsylvania. The list includes the names of John J. Fosselman, Edgar M. MacMullen, Herbert J. Bryson, Clara W. Burket, Charles V. Grant, William C. Moser, John T. Vivian, William E. Buffington, John T. Kennedy, John Abdiel Smith, Edward M. Weeks, Franklin O. Sanders and Samuel D. Pack, of Pennsylvania. The New Jersey students who were graduated are Samuel Hoberman, William V. Levy and David G.

The eighty-second annual meeting of Lincoln Conference of Congregational churches was held on Tuesday and Wednesday with the church in Thomaston. The days of sunshine so rare this spring, the beauty of the attractive village and the hospitality of the people combined to make the meeting one of the most pleasant of the year. The conference includes twenty-five churches of the three counties extending from Camden to Bath. Of these churches six or seven have but a name to live though; reports were received from some of these which were worth the price of admission. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't miss the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the inside nerves. Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. While me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by T. H. & H. L. Rockland; G. I. Robinson Drug Co., Thomaston; Chandler's Pharmacy, Camden.

## DON'T BE SICK AND RUN-DOWN ALL SUMMER

Debility if Unchecked Often Runs Into Fatal Decline—Get Grip's After-Effects Out of Your System and Enjoy Strength and Vigor Once More.

An attack of grip depletes the blood, reduces the vitality and leaves the system in a run-down condition that is almost sure to invite disease if not corrected.

It is a condition that calls emphatically for a tonic for the blood. Dr. Williams' Pink Pills are a tonic especially adapted to meet this need. They enable the blood to absorb oxygen, the great sustainer of organic life, they tone up the nerves and give vigor, strength and health to the debilitated system.

Mrs. Sarah Ralback, of 106 South street, Richmond, Ind., says: "I had attacks of grip which were so severe that I was under the care of our family doctor but got no relief until my niece persuaded me to try Dr. Williams' Pink Pills. It wasn't long before I had an appetite and could eat. I certainly got better soon and Dr. Williams' Pink Pills cured me. The aches and pains left me and I gained in weight. I take the pills every spring to build up my blood and tone up my stomach. I always recommend Dr. Williams' Pink Pills to my friends and think they are a grand medicine."

The value of Dr. Williams' Pink Pills in debility cases lies in their direct response to the needs of the blood. That they do this is shown by the gradual disappearance of the symptoms and the return of color and health. They lay the foundation for permanent health in the future.

A valuable booklet, "Diseases of the Blood," containing fuller information will be sent free upon request.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, 10 boxes \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

## A REMARKABLE CASE.

We are living in an age when we are not surprised at any new achievement no matter how great it is. However, a discovery was recently made by a Maine man, who is foremost in his profession, that will be to the advantage of most of our readers to know.

In a letter just received he says, "Four years ago I painted two large buildings with the best paint obtainable, and I ordered the same amount of paint I then used to paint them with this spring. I have just finished painting them and find that I have seven gallons left over on each job—a saving of more than one-third."

He also says, "Your Impervious paint spreads the best, covers the best, and goes the farthest of any paint I have previously used in my fifteen years experience in the painting business."

We know why. You ought to know. We will send you a copy of his letter, and if your dealer don't sell Impervious paint write us for prices and handsome booklet of colors. Northern Manufacturing Co., Room 65, Morse-Oliver Building, Bangor, Maine.

Dr. Shoop's Health Coffee Imitation is made from pure roasted grains or cereals, with Malt, Nuts, etc. Made in a minute. No tedious wait. You can't tell the difference. Sold by G. I. ## Rheumatism Cannot Be Cured Unless Uric-O Is Used

Sudden Deaths, Heart Failure and Paralysis Are Caused by Poisonous Uric and Rheumatic Acids

The rheumatic person is skeptical regarding the claims of almost any remedy advertised as a cure for rheumatism and one can scarcely blame him for being so. All the plasters and liniments combined never actually cured a case of Rheumatism. They may relieve it in one quarter, but it is sure to break out somewhere else. The only true way to cure Rheumatism is to drive it from the system, for as long as the Uric and Rheumatic Acid remains in the blood, one is never entirely free from the trouble. This is where the value of Uric-O as a permanent cure for Rheumatism comes in. It seeks out the Rheumatic poison in the blood, muscles and kidneys, renders it inert and harmless and drives it out of the system. That is why Uric-O is such an admirable and effective cure for Rheumatism.

The chief reason that Uric-O is such a wonderful cure for Rheumatism is, that it is designed and prepared to cure Rheumatism and Rheumatism only. It is composed of perfect antiseptics for the rheumatic blood poisoning and the secret of its wonderful success. Rheumatism simply cannot exist in a person's system if Uric-O is used.

Uric-O is sold by druggists at 75c and \$1.00 the bottle, but if you still feel skeptical about its efficacy you can test it free of charge by cutting out this advertisement and sending same together with your name and address, also the name of your druggist, to The Smith Drug Company, Syracuse, N. Y., and they will send you a sample bottle free. To persons who write and say they have never used Uric-O, we will take it systematically according to directions, they frequently get a regular 75c bottle free.

Uric-O is sold and recommended in Rockland by Titus & Hills at the Green and White Pharmacy.

### IN SPORTING CIRCLES

Rockland High School Ends Regular Schedule With a Clean Slate—Other Sporting Matters.

The Wiscasset team, which had played two close games with Thomaston High, and had with the aid of a professional pitcher given Rockland High something of a scare, came here for a return game Wednesday and was made to look like a collection of plugged dimes and Chinese coppers.

From the moment Richardson knocked the ball over left field fence in the very first inning, Wiscasset never stood any more show than the Rockland boys did in Thursday night's graduation. The famous Murphy, who had a record of 29 strikeouts when Rockland went to Wiscasset, had joined a stat league team, and Grover, who pitched in his stead, gave the Rockland High boys a chance to fatten their batting averages. Only one man on the team failed to make a hit, and as he is sensitive to criticism his name is mercifully omitted. Trainer was the hero of the game, holding down first bag in professional style and making five hits in six times at bat. Ross put the ball out of the lot twice. It all started with Richardson's "homer."

Rockland High did some equally fine work. Black participated in several double plays which were of the professional order. Bird was hit hard at times, but kept the hits well scattered until the ninth, when Wiscasset piled up four runs on the strength of three singles, a double, a base on balls and the "sensitive" man's error. Merry, the Wiscasset catcher, made four hits in five times at bat.

The game was interesting only as a demonstration of Rockland High's ability. It was the last game on the regular schedule and marked Rockland's 19th straight victory. Following is a summary of the Wednesday game:

Rockland High: Richardson c, M. Bird ss, W. Bird p, Cottrell lf, Trainer lb, Yeazle rf, Black 2b, Ross 3b, Greene cf.

Wiscasset: Merry c, Taylor 3b, cf, Grover p, V. Gorham 2b, Miller cf, rf, Lewis lf, Bailey lb, A. Gorham ss, Sidelinger rf.

Innings	1	2	3	4	5	6	7	8	9
Rockland High	0	0	0	0	0	0	0	0	0
Wiscasset	0	0	0	0	0	0	0	0	0

Base hits—Rockland 19, Wiscasset 12. Home run, Richardson. Two-base hits—Ross 2, Grover, Bailey. Bases on balls—off Bird 2, off Grover 5. Struck out by Bird 6, by Grover 7. Scorer, Fuller.

A Boston correspondent who signs himself "Lowell" sent the following note to the Sporting Editor on the eve of the game between Rockland High and Wiscasset:

"I hear that Rockland won from Wiscasset High by slight margin and that the next game you lose. The Wiscasset boys can play ball some, if they are school boys and not locals. Wait till the next game and you'll see."

The attention of "Lowell" is respectfully directed to the report of the "next game," published above. Will "Lowell" please inform us what class Catcher Merry is in?

The Youngsters did up the Old Men in good shape at Kennedy's bowling alleys Tuesday night, winning a hard contested game by 27 pins. The veterans started out like easy winners, leading at the end of the second string by 64 pins. The young fellows kept plugging away, however, and the last three strings were theirs. John Dwyer was high line with a single string of 123. A good crowd was out to watch the game and there was much rejoicing over the hard earned victory. The Old Men, however, can stand defeat occasionally and extended congratulations to the victors. Another game will be played some night next week. The score:

## The King of Diamonds

BY LOUIS TRACY

Author of "The Wings of the Morning," "The Pillar of Light," etc.

ILLUSTRATED BY BERGER

This, like many of the best stories you have ever read, begins with a boy. Philip Anson's mother, to whom he is devoted, dies in poverty leaving her boy of fifteen alone in the world.

Just when he has determined to commit suicide he comes into the possession of diamonds of fabulous value in such a strange manner that they seem to be sent from heaven the gift of his mother.

To secure his vast wealth in spite of enemies and the persecution of the law is a problem that would tax older and wiser heads.

But the stars in their courses fought for Philip. His adventures in his new position make a story of extreme fascination—even if a high born little lady had not appeared to him in his poverty to fill his soul with a vision which he carried until it became a reality.

We will not ask you to read this story. We are going to publish the first chapter in a few days. If you can refrain from reading it or stop when you have begun you will be a greater wonder than Philip's fortune

## FOR THE BUSY MAN

Constant Reader Tells What He Missed in Last Week's Papers.

"Any news of the week that thrilled the world?" asked Busy Man as he met his friend, Constant Reader, for their weekly chat.

"Nothing that can be said to be of universal interest," was the reply, "but some things which have excited much attention. The most remarkable was the revelations made in the testimony of Harry Orchard, who turned state's evidence in the trial of William D. Haywood, secretary of the Western Federation of Miners, for the murder of Ex-Governor Steunenberg of Idaho. After three weeks of effort and the examination of many veniemen, a jury was secured to hear the evidence, and Orchard has been the principal witness. The name by which he is now known is not his own. A story from Canada shows that he is really Alfred Horsley, who early in life became the black sheep of his family, and while only a young man deserted his wife and ran away with the wife of another man, whom he also left in the lurch to commit bigamy in the Far West. The revelations in his testimony of the series of murders planned and many of them perpetrated are astounding and appear incredible unless his statements are corroborated. But the fact remains that the eighteen crimes of which he gave the details were all committed at least the victims are dead—and the cold blooded manner in which they are described goes far to convince one that the statements are facts."

"What was the purpose of all these crimes?" "To perpetrate the power and carry out the policies of the miners' 'inner circle,' the organization which aimed to control the labor in the Western metal mines. The series of crimes resembles nothing in history so much as those committed with the connivance and at the instigation of the Molly Maguires in the Pennsylvania coal regions a third of a century ago, which excited so much horror when the revelations regarding them were made. Orchard told, on the witness stand of the devilish ingenuity displayed by the federation's heads in conjunction with himself to assassinate Governor Peabody, to blow up a station where fourteen 'secured' men went to eternity, to kill all the men working on one mine level, to poison an old time enemy and to kill ex-Governor Steunenberg. He declared he acted under explicit and direct orders of Haywood, Moyer and Pettibone, all of whom are under indictment. Other men had failed to 'get' the ex-Governor, so the witness was sent for, and he planted the bomb with a wire connecting it with the gate. The wire in the locking was opened it would pull the cork from a bottle of vitriol which would set off the explosives buried in the ground. As the witness was hastening away from where he had planted the devilish engine of destruction it went off and fatal results followed. The efforts on cross examination to shake the evidence of the man on whom the prosecution chiefly depends for fastening the crime upon the principals who planned and carried it out, have thus far in the main proved fruitless."

"Any more developments in regard to the Presidential nominations?" was asked.

"The field of favorite sons was increased by the addition of Senator Knox to the list by the action of the Pennsylvania state convention in favoring his nomination and his statement that while he was not seeking he would be willing to accept it should the national conference follow the action of the Keystone State. William J. Bryan, who once termed New York 'the enemy's country,' has been in the metropolis, and has set forth his views

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, whenever the kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

in public addresses, but has not made any such radical utterances as his declaration in favor of government ownership of railroads after his return from Europe. When in Albany he was talking with Governor Hughes and a shrewd politician observed, noting their juxtaposition, said, 'One of those two men will be the next president.'

"Two well known sporting men were the victims of fatal automobile accidents in the week, Harry Hamlin, one of the wealthiest and best known residents of Buffalo, whose father, Cleo J. Hamlin, was a breeder of trotting horses in his day, was instantly killed not far from his home by his machine crashing into the horse attached to a light wagon which could not be seen in the cloud of dust raised by other automobiles. Mr. Hamlin had a passion for speeding automobiles, and was in a bad smash-up in France last year. Clarence McKenzie, a New York business man, was killed at Clinton Heights, a mile south of Albany, by a high speed electric car running into the machine in which he was riding in a two-hundred mile crash. The occupants of the automobile neither heard nor saw the car until it was on them. Mr. McKenzie was thrown high up in the air, and was killed by the fall. Two other men, seated ahead of him, were thrown out as the car struck the rear of the machine, and were badly hurt."

"The misapprehension created by the utterance of President Roosevelt to Harvard alumni in Michigan, that in a year and eleven months he hoped to see some of them again, that this meant he would be in office at his alma mater, was set at rest by declarations from the White House and from the president of Harvard that all the Chief Executive meant was that when he retired from public office he would be free to work as a Harvard alumnus. King Edward purposes to pay a visit to Ireland early next month. The King and Queen of Denmark celebrated their golden wedding, Prince Louis of Saxony, the Duke of the Abruzzi, returned to Jamestown, where the President is expected to pay another visit the coming week, after which he will go to his summer home. Secretary Taft is going to take a trip through the West, which will occupy his time until near the end of this month. He will go to Canada in July to stay a month, and will take his long deferred trip to the Philippines early in September. There is a plan on foot for the presentation of a memorial to the President and Mrs. McKinley to the nation."

"The merger by which the New York, New Haven & Hartford Railroad Company secured the majority of the stock of the Boston & Maine, and so practically has all the railroad lines of New England in its control, was officially confirmed, despite the efforts of the Massachusetts Legislature to prevent such action. The other independent line left in New England is the Vermont Central. The Boston & Albany is a New York Central line. The attitude of Japan in regard to the further outbreak of the Japanese property at San Francisco has been non-committal, but it has been suggested that a remedy covering the case can be secured by a civil suit for damages from the city. A memorial to Jefferson Davis, President of the Confederate States of America, was unveiled at Richmond. The United States Circuit Court of Appeals affirmed the conviction of B. D. Greene and John F. Gaynor, whose efforts to save themselves from the penalty of defection from the government have attracted so much attention. Two Americans were drowned in the Thames near London by the boat in which they were striking the roots of a tree. The plans of the powers for the Hague conference to begin on June 15, are practically settled, and if the question of disarmament comes up the German delegates are not expected to take part in the discussion."

## WEST ROCKPORT

The baccalaureate sermon to the class of 1907, Rockport High School, was preached by Rev. Fred K. Conant, pastor of the West Rockport Baptist church, Sunday forenoon at the church, and a goodly number were present, not only from this place but from Rockport, Glen Cove and Rockville, including the seniors, Principal Steward and members of the school, the superintendent of schools and the class of 1907, West Rockport Grammar School. The regular choir of the church sang. The pulpit was decorated with potted plants, cut flowers and foliage. Rev. Mr. Conant took for his text the words: "Behold, I have set before thee an open door," found in Revelations 3-8, and delivered an interesting discourse, frequently emphasizing his points with apt illustrations. He expressed his pleasure at being invited by the graduating class of the high school to speak to them and said that each would have to plan and accomplish for himself and his family, as they passed from school life, through the "open door," into the life of the home, the college or the business world. "Education is opportunity, opportunity is duty, and duty is service," taking up each of these thoughts in the pointed out the various ways in which we become educated, the value of education and how, by it one is prepared to take advantage of opportunities; that when an opportunity presents itself it is one's duty to take advantage of it for good purposes; that duty is service, and that this service should not be for one's self, a selfish service with self as master. In concluding he spoke of Christian service as the highest type of service, his hearers to that service, assuring them that such service was invited, would be accepted from all and most certainly would be rewarded.

## I Took Pe-ru-na, Hardly Daring to Believe

So Writes Mr. Newhof, of Albany.

## Pelvic Diseases in Men.

Many an invalid is dragging out a miserable existence with catarrh of the kidneys, catarrh of the bladder, or both.

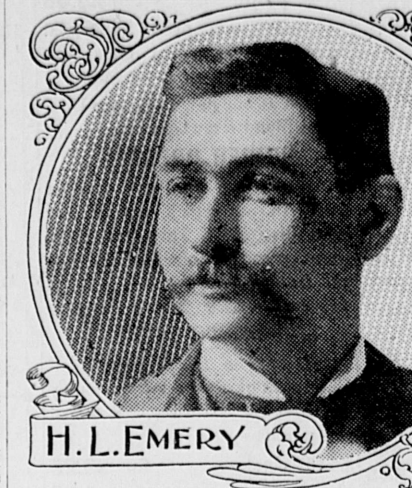

There is no disease equal to catarrh of the bladder in producing complete weakness, absolute despair, haggard misery and stubborn weakness.

An army of this sort of victims have one by one discovered that Peruna could be relied upon to relieve such cases.

One man tells another man, and in this way the news spreads until in all parts of the country are to be found men who have been permanently liberated from the thralldom of catarrh of the bladder by a course of Peruna.

Many cases of catarrh of the stomach, kidneys and other abdominal organs have reported themselves as cured.

We give below two prominent testimonials which illustrate the benefit of Peruna in these cases.

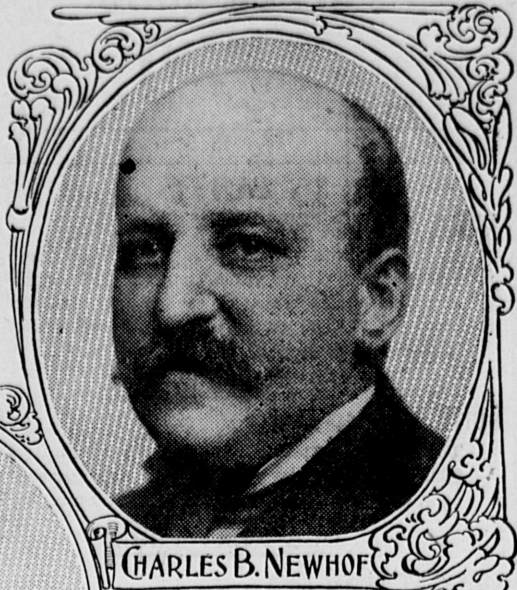

H. L. EMERY

## Catarrh of Stomach and Kidneys.

Mr. H. L. Emery, Vice Chancellor and Master of Arms, K. P. S., of Omaha, Neb., writes from 205 North Sixteenth street, the following words of praise for Peruna as a tonic. He says:

"It is with pleasure I recommend Peruna as a tonic of unusual merit. A large number of prominent members of the different orders with which I have been connected have been cured by the use of Peruna in cases of catarrh of the stomach and head; also in kidney complaints and weakness of the pelvic organs. 'Peruna tones up the system, aids digestion, induces sleep, and is well worthy the confidence of sufferers of the above complaints.'"

CHARLES B. NEWHOF

## Catarrh of the Bladder.

Mr. C. B. Newhof, 10 Delaware street, Albany, N. Y., President Montefiore Club, writes: "Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced age. I took Peruna, hardly daring to believe that I would be helped, but found to my relief that I soon began to mend. The irritation gradually subsided, and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."

Mr. David L. Jaycox, Chaplain Clarinda I. O. O. F. T. and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes:

"I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but neither did me any good."

"Finally some of my comrades who had been cured by Peruna advised me to try it. I at once bought a bottle, and found it helped me so much that I kept using it for nearly four months."

"Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well, and would not be without a bottle in time of need for ten times its cost."

Mr. Robert E. Hanvey, Treasurer Knights of Industrial Freedom, also a well known writer and lecturer, writes from 11 South Nicholas St., Chicago, Ill., as follows:

"I was in good health until about four years ago, when my back became lame and sore. The pains kept increasing, with severe twitches and slow exhaustive aches. Urine was highly colored and passed with great irregularity. I knew this must be inflammation of the bladder."

"Having read of Peruna I decided to try it. I found relief from the pain within ten days. The aches gradually diminished, and it was a blessed relief I can assure you. Within three months I was well once more. My appetite had returned, nervousness and irritability were things of the past, and for over two years now I have been a healthy man."

"I give all thanks to your Peruna, and believe that it is a blessing to mankind."

## APPLETON

John Proctor of Charlestown, Mass., is visiting his parents, Mr. and Mrs. Erastus Proctor.

Walter Gushee of Agawam, Mass., was here one day last week visiting his mother, Mrs. Frances Gushee. Mr. Gushee, who is superintendent of schools of Agawam and one of the adjoining towns, was in this state for the purpose of hiring teachers for Massachusetts schools.

Mrs. Isabel Moody of Camden is visiting her sister, Mrs. Foss Murray. Mrs. Frances Gushee has returned from a visit with her daughter, Miss Fannie Gushee, in Vinahaven.

Mrs. Robert Thordike and son R. L. Thordike and daughter Mrs. LaPolley and grandson of Rockport were guests recently of Mrs. Helen Sherman and Miss Linda Annis.

Mr. and Mrs. J. H. Montgomery of Camden and Mrs. Mary S. Dyer of Oakland, California, were here Sunday the 8th, guests at the Valley House.

The gridding and killing of thirty or thirty-five young apple trees on the farm recently purchased by Bert Mitchell of Geo. Stuart was one of the most contemptible acts that has been perpetrated in this place for many years.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore required constitutional treatment. Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
