

HALEY & FIELD TAKE BIG CONTRACT

Messrs. Haley & Field have contracted to deliver to the Oxford Paper Company at Rumford, Me., from

5,000 to 10,000 cords of spruce pulpwood per year from what is known as the Pine Tree Valley water shed in Sandy River Plantation, until the timber is exhausted. This wood is to be peeled and a large crew of men will be employed.

In addition to this they will put in their usual amount of spruce and

EIGHT LOADED CARS DUMPED

Men Badly Shaken Up and Bruised but No Serious Injuries.

Extra freight engine No. 17 of the Sandy River & Rangeley Lakes Railroad, from Langtown to Phillips, was derailed at Johnson grade about one and one-half miles north of Phillips Monday evening, May 8th, about 9 p. m. The train was made up of eight cars loaded with pulp wood and the caboose car. The third car back from the engine left the track and went about 100 yards on the ties, when the air brake coupling broke, setting all the brakes into emergency, the derailed car tipping over and taking balance of the train with it except the locomotive. There were five men in the caboose car, all employees of the company, two of which Joseph L. Boston and Proctor Smith, both of Phillips, were slightly cut and bruised. There was slight damage to the truck and cars. The wreck was cleared and traffic resumed early Tuesday morning. The cause of the wreck was a defective car and a broken center pin.

for which will be bought anywhere on the line of the Sandy River & Rangeley Lakes R. R. They will also put in somewhat more poplar this year than heretofore.

FORMER PHILLIPS BOY ENGAGED

Miss Ida Hegeman to Be Married to Harry Farrar Hinckley.

At a dinner at their home, 862 Prospect place, recently, Mr. and Mrs. Frederick T. Hegeman announced the engagement of their daughter, Miss Ida C. Hegeman, to Harry Farrar Hinckley. Among the guests were Mrs. Julia Hinckley, Mr. and Mrs. Madison Einhaus, Mr. and Mrs. Abner T. Hinckley, Mrs. Louise Einhaus, Fred Hegeman, Jr., and Miss Mildred Hegeman. Mr. Hinckley is the son of Mrs. Julia Hinckley and was graduated from Bowdoin in the class of 1910. Miss Hegeman is a sister of Frederick Hegeman of the First Cavalry, who is widely known in the society sets.—The Brooklyn Eagle.

The above clipping will be of interest to the Phillips and Farmington friends of Mr. Hinckley as he has been a resident of both towns and is a brother of Mrs. D. F. Field and Mrs. A. C. Norton, and the friends are pleased to extend hearty congratulations. They will also wish to congratulate Mr. Hinckley on his recent promotion by the American Bank Note Co., in whose employ he has been for some months, to the position of business manager of their office in San Francisco, Cal., which will include their Pacific Coast business. This is a decided honor for Mr. Hinckley as it is a responsible position. He left for California last week and will take up the duties at once.

OBITUARY.

ELBRIDGE DILL

The death of Mr. Elbridge Dill which occurred on the 25th of last month, not only leaves the "vacant chair" in the home circle, removes a valued member from the Grange, the Knights of Pythias, the Odd Fellows and Rebekah Lodges, but brings sadness to the hearts of a host of other friends, who will long remember his cordial handshake and hearty word of greeting. These many friends, in very truth, can appreciate the sentiment that, "The comfort of having a friend may be taken away, but not that of having had one."

Mr. Dill was born October 4, 1834, the oldest child of Orrison and Mary

Jane (Hammond) Dill. The first link in the family chain to be broken was in the death of Mrs. Eliza Jane Hamden who died many years ago. The other sister and the brother have passed away during the last year, Mrs. Lettie Fairbanks of Monro, Minn., last summer and Charles O. Dill of this town, last fall.

Mr. Elbridge Dill has been a lifelong resident of Phillips and for over forty years lived on the place now owned and occupied by his two youngest sons. Under his skillful management this farm became one of the best in this section. He was a wide-awake up-to-date farmer, and for years has been one of the corner stones of the North Franklin Agricultural Society.

On March 10, 1859 he married Miss Octavia Bangs and during the long journey of 57 years, through sunshine or shadow, they have been united in the true sense of the word.

Through the halls of time let us backward glide,

We see this young man and his bride,

Hand clasped in hand as earnest token

That whate'er befall, whate'er betide
The vows that are so recently spoken
"Till death do part" shall not be broken.

Of the eight children given to Mr. and Mrs. Dill not one has been called to cross the tide and Mr. Dill's example as an active, upright, high principled citizen is bearing fruit in the sterling worth of the characters of these sons and daughters, all of whom were present to attend the farewell services, which were held in the Union church under the auspices of Mt. Saddleback Lodge, I. O. O. F., of which he had been treasurer for years. The six sons, all of whom are members of this lodge acted as pall bearers and Rev. M. S. Hutchins was the officiating clergyman. In accordance with Mr. Dill's oft expressed wish he was clothed in his wedding suit, which he had also worn at his golden wedding anniversary seven years ago.

Following is the list of flowers: Pillow, "Husband", Mrs. Dill; two pillows with the word "Father", panel of 81 pinks and one wreath with the word "Asleep", from the eight children; bouquet of pinks, Sandy River Lodge, K. of P.; bouquet of Easter lilies from old neighbors, Mr. and Mrs. A. D. Graftam, Mr. and Mrs. Fremont Scamman, Mr. and Mrs. O. A. Badger, Mr. and Mrs. A. J. Toothaker, Mr. and Mrs. A. B. Toothaker, Berry & Pinkham, Arthur Kempton, Gertrude Hewey; bouquet white roses, J. H. Byron and Elma Byron; white pinks, Seward, John and Mrs. May Dill; white pinks, Mr. and Mrs. Ashley Wing; daybreak pinks, Mrs. Nellie Fuller, Irene Fuller, Mr. and Mrs. Dean Barden; pink roses, Mr. and Mrs. Everett Knapp, Mr. and Mrs. Carroll Knapp; daybreak pinks, Mr. and Mrs. F. E. Coe, Mrs. Mary Bangs; bouquet daubreaks Hope Rebekah Lodge; North Franklin Grange, P. of H., wreath; pillow, Mt. Saddleback Lodge, I. O. O. F.; white pinks, Miss Lettice Hamden, Mr. and Mrs. Robert McMullen; bouquet daybreaks tied and potted Easter W. W. H. Caswell, Blanche Keniston; daybreaks, Mr. and Mrs. W. S. Toothaker, Mr. and Mrs. J. B. Davis.

MADRID

May 10.

Howard Brown's farm buildings situated about a mile above Madrid village on the road leading to the Dunham district were entirely destroyed by fire that caught from a defective chimney last Tuesday morning. Partially covered by insurance.

Several members of Sandy River Grange visited North Franklin Grange last week, Thursday evening and witnessed the fine work done by their ladies' degree team.

OBITUARY.

The death of Warren Hinkley

SPECIAL MEETING WELL ATTENDED

Third and Fourth Degrees Worked on Three Candidates.

Thursday evening, May 4th, the special meeting of North Franklin Grange was largely attended, about 75 being present. It being ladies' night the Worthy Master called the meeting to order and then called sister Effie Graftam to the chair. The third and fourth degrees were worked on Arvilla Parker, Gertrude Dunham and Hazel Wells, the degree staff doing the work in a very pleasing manner.

As sister Addie Parker is the captain of the staff not only but good work is expected. The staff was highly complimented by the visitors who were present from both Aurora and Sandy River Granges.

After the meeting, refreshments were served and games enjoyed by both old and young until a late hour. Date of next meeting May 13, with an afternoon session.

which occurred at Madrid village recently, removed from our midst a life long resident of this town.

He was born 69 years ago in the vicinity of Beach Hill, the son of John and Aurilla Lake Hinkley. He married, some 35 years since, Hattie E. Hutchins of Kingfield by whom he had seven children, all living except the eldest who died in infancy.

Mr. Hinkley will be missed in this community. He was a devoted husband, kind father, and a good neighbor, ever ready to lend a helping hand.

The family left to mourn his loss besides his widow, are Mrs. Dana S. Walker of Phillips, Mrs. Minot M. Flagg of Freeman, Roy Hinkley of Kingfield, Oliver, Evan and Donald Hinkley of Madrid village and several brothers. Mr. Hinkley was a member of Sandy River Grange.

MAY LOSE SIGHT OF EYE

Mr. Norton Seriously Injured by Rifle Explosion.

Mr. A. J. Norton of Avon met with a serious accident last week. He went out in the field with his rifle to shoot at a woodchuck, and after firing a shot, there was some sort of an explosion and the rifle hit Mr. Norton in the face cutting the lower eyelid and the eyeball. Although the blow was a hard one it did not cause him to fall or lose consciousness, but he was obliged to sit down for a few moments before he could walk to the house. It is not yet possible to know whether he will lose the sight of the eye or not. He has suffered thus far more from the severe shock given him than from the pain, but he is recovering slowly and his many friends hope that his eyesight may not be impaired. Dr. C. W. Bell of Strong is attending him. His son, James Norton, who is employed on the Portland Evening Express passed the week-end at home.

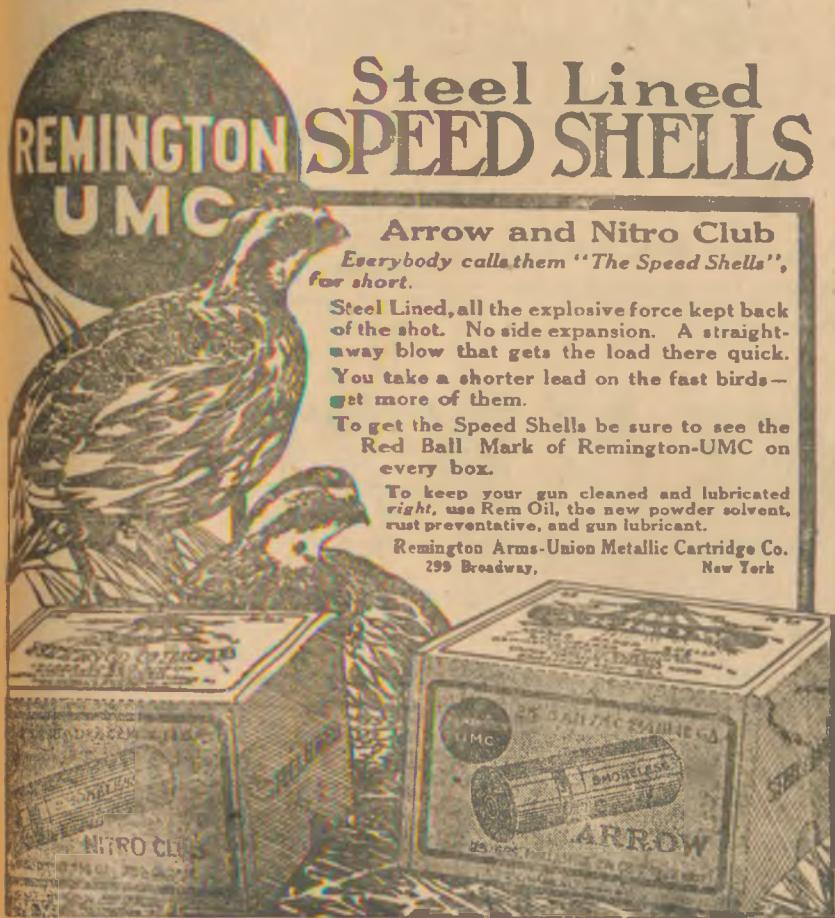

FEDERATED CHURCH.

Malvin Sherburne Hutchins, pastor. Calendar for week ending May 20.

Sunday, May 14: 10.45.—Morning worship. Mothers' Day. Sermon, "American Home Life." 12.10.—Sunday school, 7.30.—People's service. Music by the Choral Club. Address, "The Gospel of the Springtime."

Thursday, May 18: 7.30.—Prayer meeting.

SPRING FISHING

Will Soon be Here

THE RANGELEY LAKES AND DEAD RIVER REGION

offers many attractions to the FISHERMEN. The numerous lakes, ponds and streams in this territory are well stocked and a continuous supply of fish is provided for by wise laws, well enforced. This region is easily reached in one day from Boston.

You will make no mistake by arranging for your SPRING FISHING TRIP to any of these waters. A descriptive booklet with good map free on application.

F. N. BEAL, General Manager, Phillips, Maine

PROSPECTS FOR GOOD SEASON

Many Inquiries Coming to Furbish
& Herrick, the Real Estate
Dealers.

Furbish & Herrick of Rangeley tell the Maine Woods correspondent that the prospects were never better for a good season at the Rangeleys than at the present time. They are having many inquiries for cottages for the coming season and any one looking for a place at this favored resort would do well to write them without delay, as they are local agents for many of the owners of summer property in the Rangeley region and in a short time some of the better places will no doubt be taken. One of the larger places is already taken and inquiries are coming nearly every day for descriptions and prices of various places.

BEAR MASCOT RETURNS TO MAINE FOR SPRING SEASON.

With the turnout of the track and baseball men comes the return of the bear mascot "Bananas," the cub which accompanied the football and cross country teams to championships last fall.

The bear has been wintering in Augusta where she has been the property of Mr. Geo. P. Gannett. The little cub lived in a large barred house and was well attended. Although most bears hibernate for the winter, Bananas slept only nights and is in fine shape at present. She weighs more than twice as much as she did when she was sold in the fall and has grown to rather a formidable size. In spite of her long claws and teeth she does not seem to be the least bit vicious but shows the same playfulness that was evident last fall.

The bear will be used in the same capacity as mascot for the track and baseball teams as for the fall athletics.

Bananas has had several occasions since her return to show her strength against the attack of dogs. She plainly shows that she is their superior in strength, as she easily bowled them over with one sweep of her

paw. Needless to say the dogs do not return for more but beat a hasty retreat.—U. of M. News Letter.

HIS HONOR---THE WALL-EYED PIKE

My Dear Buck:

Right at the start, old man, I must tell you that the wall-eyed pike is living under an assumed name, his real monicker is pike-perch, but the boys have sort of acquired the habit of calling him wall-eyed pike, and so we leave it go at that. Fact is, however, he is also known as the jack-salmon, glass-eye pike, yellow pike and blue pike. He probably felt heir to these names on account of his habit of bumping around, making no particular spot his home. After he fathers his spring family of from one to two hundred thousand husky youngsters and the little pikers have learned to wag their tails he leaves home and hikes out on a still hunt for food, as he is always hungry, having the reputation of being the heaviest eater of the fresh-water fish. He lives almost entirely on other live fish and often eats his own progeny to satisfy his lust for food.

Where you find the wall-eyed in good numbers one day, does not guarantee that they will congregate there the next. There is no dope on his route and he has no schedule. At times he frequents the very deep pools and the next day he may be lying off a shoal or sandbar. In no matter what depths of water you locate him, however, you will find that he is close to the bottom, as he is not a surface feeder.

WALL-EYE TRAVELS IN SCHOOLS

He can be coaxed into the creel with live bait such as mud minnows, chubs, shiners or small white-bellied frogs, or you can use an underwater plug weighted with a sinker or troll with a spoon. The wall-eyed seldom travels single, invariably they run in schools, a habit acquired, no doubt, from fear that he may miss a feed. Where you catch one, you can figure on more fish from the same spot until they hustle off to better feeding grounds. This hungry feeling, Buck, makes him a great little biter, which feeling has made him a boon to the fisherman

Such tobacco enjoyment

as you never thought
could be is yours to
command quick as
you buy some Prince
Albert and fire-up a
pipe or a home-made
cigarette!

Prince Albert gives
you every tobacco sat-
isfaction your smoke-
appetite ever hankered
for. That's because
it's made by a patented
process that cuts out
bite and parch! Prince Albert has always
been sold without coupons or premiums.
We prefer to give quality!

PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it!
And that isn't strange, either.

Buy Prince Albert every-
where tobacco is sold in
tippy red bags, 5c; tidy red
tins, 10c; handsome pound
and half-pound tin humi-
dors—and that corking fine
pound crystal-glass humi-
dor with sponge-moistener
top that keeps the tobacco
in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

who can always count on "bringing home the bacon" if he locates a pike feeding ground.

In the rivers he hangs out below rapids, dams and log jams, where the current is swift, gorging on the minnows, which are easy prey, as they are tired out with their battle with the swift waters. This is a fine place to cast for him, using live or artificial bait with a fair-sized dipsey sinker to take the bait down deep in the water. He also has a fancy for sandbars in the rivers and wading along a bar, casting on both sides, brings good results.

TROLL FOR HIM IN LAKES.

In the lakes you will be more successful in trolling for the wall-eye. Live bait, plug or a spoon with a bucktail gang hook makes an attractive lure for him. Use your bait-casting rod with a trolling tip to add strength and reel out about 100 feet of line. Don't make the common mistake of moving the boat too speedily; just go along fast enough to keep the bait moving, about one and one-half miles an hour is right. When you get a strike you will notice the difference between the action of a bass and a wall-eyed pike. The pike will give a firm and decided tug at the line, he will not dash away with the bait; right then is the time to strike with a strong, quick jerk, as the large amount of line out makes this necessary. Buck, if that wall-eye is a 10 or 15-pounder, you are due to have as game a piece of "fish work" on your hands as you could wish for.

CAUGHT A BIG ONE ACCIDENTALLY.

Last summer I was actually forced

by accident to land a 12½ pound wall-eyed pike, and the way this happened illustrates the fact that one must study the action of the different fish, especially the manner in which they take bait. It was one of the hottest days in July when Charley and I were crossing Black Lake in Northern Wisconsin, so hot, in fact, that I only put a line out after old Henry, the local fishing expert, insisted that he hated to waste a minute on the water. We were in about 30 feet of water when my reel began to sing, there was no other action, and after striking, Hen paddled back, thinking I was snagged. Charley ran his hand along the line and gave it a jerk to loosen it, and right then things sure opened up. Splash! out of the water, at the side of the canoe, flashed the pike, and down again to the bottom. It was some sport with a light rod, a 10-pound test bass line, and a husky wall-eye. Three times I brought him up to the canoe, fighting back and forth without any long runs, but a continuous bunch of snappy jerks followed by dives to the bottom, before Hen could gaff him.

NOT A SPECTACULAR FIGHTER.

A wall-eyed pike doesn't make the showy fight of the bass, the race-horse speed stuff of cutting through the water, and he doesn't fight as long, but every one of his jerks and twists sends a thrill up your spine that makes you feel like a game cock after you land him.

All through the season you can catch him, particularly in June, July and October. Try him out on dull, cloudy days and in the evening casting with a red ibis bass fly, weight-

ed, of course, so that it will sink. He is a great night prowler and seems mighty hungry late in the day. On a moonlight night he answers to the call of an underwater luminous plug.—DIXIE in Syracuse Journal.

CORPORATORS' MEETING

The Annual Meeting of the corporators of the Kingfield Savings Bank will be held at its rooms in Kingfield, Saturday, June 3, 1916, at 2 o'clock p. m., to hear reports of officers for the past year; elect additional corporators, select a board of trustees for the ensuing year, and transact any other business that may properly come before the meeting.

THE CABIN BOAT PRIMER

THIS is a very interesting and instructive book on making cabin boats, canoes, row boats, etc. It tells of the various streams one can trip on with a cabin boat, how to equip for such a trip, what to wear and eat, cost of a two month's trip. It gives descriptions and diagrams, photographs and chapters on construction, when to float, when and where to land and other useful hints. Book is compiled of facts and observations made by the author. It contains 267 pages, over 40 illustrations and diagrams, 32 chapters as follows:
Down the Mississippi River in a Cabin Boat, Trip Down the Yukon, The Cabin Boat, How to Build a Cabin Boat, The Cabin Boat's Equipment, Furnishings and Furniture, Odds and Ends of Equipment, The Skiff or Tender, The Gasoline Launch, What to Wear, Things to Eat, Cabin Boat Expenses, Cabin Boating Waters, Maps and Landing Lists, Floating, Floating at Night and in Fog, Going Up Stream, Weather, Making Fast and Some Rope Hints, Landings, Trailers, Care of the Boat, Ways of Making Money, On Making Notes, Land Hints, Photography, Game and Hunting, Traps and Trapping, Fish and Fishing, Amusements, Books, Trapper's Canoe, A Cabin Boat Coon Hunt.

MAKE GOOD AFTER SIX YEARS' TRIAL

Sebago Landlocked Salmon from Auburn Hatchery Transported to Far Away Tasmania.

Maine's fish and game are known the world over, their reputation being of the highest and their praise coming from all parts. That the following little story will serve to boost the Pine Tree State in the sporting line will not be doubted when you read it, because it is one of the finest advertisements ever given any place or region in that way.

The Maine Inland Fish and Game Commission, in 1910, when Leroy T. Carleton was chairman, was approached through correspondence by the government fisheries department of Tasmania, Australia, in respect to obtaining for shipment to that far-away country for propagation of a quantity of our Maine landlocked salmon eggs. The Maine commissioners were pleased at such a request, showing as it did the world-wide reputation of our sporting fish, and immediately began making arrangements for forwarding a large enough quantity to give them a thorough trial in the other climate.

It was a somewhat long and tedious job to perfect all plans for the prompt shipment and necessary attention for the eggs through their long journey, but all the transportation people became interested and the arrangements were finally made, every plan resulting perfectly. The hatchery decided on to supply the eggs was the Auburn hatchery and the kind of fish the Sebago landlocked salmon.

Personal attention was given the matter by General Superintendent of Hatcheries Arthur Briggs and Supt. John F. Stanley of the Auburn hatchery so that when February 16, 1910, the day of the shipping, arrived the eggs were ready, packed in the best known manner in specially arranged cases and awaited all along the line by men interested in the successful carrying out of the scheme. They were five days on the trans-continental trip and then sailed from Vancouver on R. M. S. Makura for Sydney, from whence they were reshipped via steamer Westralia to Hob-

art, and then by rail to Launceston, where the Waverly fishing ponds, the plant of the Northern Tasmanian Fisheries Association, as the government fisheries department is known, are located.

The Eggs Safely Arrive.

Reports from Australia soon came to Augusta of the safe arrival on March 25 of the Maine salmon eggs, in splendid condition—thanks to the careful packing and care bestowed en route—with all kinds of words of appreciation for the kindness of the Maine Fish and Game Commission and its officials and the attention of all who had assisted during the long journey of the consignment.

The Tasmanian newspapers devoted a large amount of space to the experiment and all had the kindest of words for the co-operation of the American friends. The annual report of the government fisheries department immediately placed upon the cover of the annual report a handsome cut of the "Salmo Sebago" and has since placed the same upon the official letterhead.

The report of 1910 tells how the

ed from March 25 to April 1, the final effort of the Australian summer, and extra efforts had to be made to save them. Even with the liberal use of ice to keep the temperature down, 1086 eggs died during the hatching and 2235 of the alevins and fry also died between April 1 and June 10, leaving according to the Tasmanian figures 15,660 fry to be turned into the rearing pens, equal to 77.49 per cent of the original number of eggs shipped from Auburn, Me., U. S. A., a splendid piece of work.

A large gathering of influential citizens met at the government fishing ponds at Launceston on April 14, 1910, for the purpose of inspecting the "recently-imported Sebago salmon" and the event was made a notable occasion, the Stars and Stripes being displayed from the hatcheries, the fry much admired by the visitors, luncheon was served and speeches in praise of "Our cousins in Maine" made.

Thus the experiment went along. The report of the year 1911 said that 40 per cent of the fry had lived and were growing, a very satis-

Superintendent John F. Stanley Stands on the Left and Trueman F. Damon Is Exhibiting the Big Fish.

eggs were received, packed in a splendidly devised case, arranged so as to spare the eggs every possible jar, they being arranged in trays, about 15 inches square, placed one below the other—first a layer of moss, then the eggs, then a piece of porous fabric, then another layer of moss to keep and sustain the moisture; the space between the trays and sides of the case were filled with sawdust, with a large compartment on top for ice, which was faithfully renewed when necessary during the 35-days trip, and which supplied, by constant dripping, the necessary moisture to the ova in the several trays below. Printed placards on the exterior of the case gave full instructions for everyone along the route as to what to do and what not to do to the shipment. It had to be stored on heaps of straw, because severe jolting would kill the eggs. It had to be well iced, because the eggs when shipped were so far developed, having reached the "Eyed" state that in a warmer temperature they would have hatched enroute and of course been lost.

Well, they arrived safely, with a smaller loss than was expected and everyone was pleased, especially the Tasmanians, for they had for 50 years been vainly trying to introduce some sporting fish in their country. We say safely, but of course that does not mean that every egg was in perfect condition, but the bulk was. The Tasmanian Fisheries Department reported: Eggs dead arrival Vancouver 500; on voyage to Sydney 400; on arrival Hobart 15; within 24 hours of submersion on arrival Launceston 335; total loss in transit 1250.

Tasmanians Are Pleased.

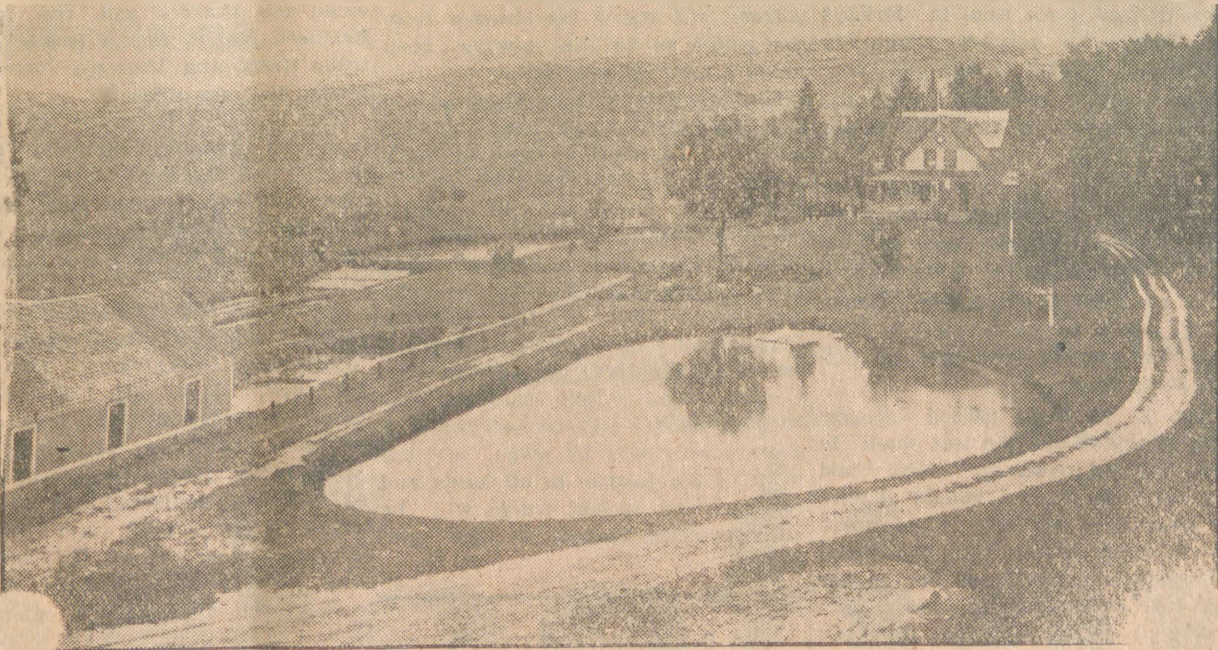

All the eggs hatched out in a week from arrival at the hatchery, but very hot weather was experienced. The yearlings—6210 in number—were liberated during the winter in Great and Upper Arthur lakes and were doing well.

The report of 1912 said the liberated fish were doing finely. A "Se-

bago" was captured at the close of the season weighing $\frac{3}{4}$ of a pound. About 200 had been retained at the Waverly hatchery and were expected to spawn in about two years. The report says: "Your committee are of the opinion that the results of the experiment are so far satisfactory, and are hopeful that from this source Tasmania may acclimatize a sporting salmon, which it has been trying for over 50 years to do."

Second and Best Chapter.

Now comes a still more interesting chapter of this story. So suc-

VIEW AT STATE FISHERY AT AUBURN, ME.

cessful was the experiment of sending salmon eggs to Australia and so fine the results after arrival, that the Tasmania officials decided that the Sebago salmon proposition was worth while and accordingly during the last winter again began correspondence with the Maine Fish and Game Commission regarding another shipment. The shipment

and icebox, until nothing better could be added. Supt. Stanley of the Auburn hatchery produced some of his best eggs and they, to the number of about 25,000, were carefully packed and on Feb. 8, 1916, were shipped by express from Auburn. They sailed on Feb. 16 from Vancouver and safely made the ocean trip as did the first lot, arriving in

in the lakes of the State as an additional attraction to the island's many charms for mainland visitors, the Northern Fisheries' Association arranged last spring for a second consignment of the sporting variety known as salmo salar sebago, which inhabits the lakes and streams of the State of Maine, U. S. A., close to (Continued on page seven.)

LET THE FACTS SPEAK

In the 1915 "Field & Stream" contest there were 89 prizes awarded to contestants in classes where silk lines are usually used. 7 winners failed to give the name or make of the lines they used so they could be identified. 7 used lines other than silk (wire, cuttyhunk, linen, etc.). The remaining 75 winners gave the name or make of the lines they used (silk) and the official list is as follows:

"Kingfisher"—The Old Reliable—36

Von Lengerke & Antoine	4	"Robt. Ogilvy"	1
"Saline"	4	"Classic"	1
"Invincible"	4	"David Harum"	1
Abbey & Imbrie	2	"Otselic"	1
Abbey & Imbrie—"Lake Shore"	2	"Black Warrior"	1
Mills Standard	1	"Whirlpool"	1
"Intrinsic"	4	"Crimson Beauty"	1
Abercrombie & Fitch	2	Neverbreak"	1
Gold Seal	2	"South Bend"	1
"Kelso"	1	"Black Italian"	2
Kalamazoo "Expert"	1	Hildebrandt	1

"Kingfisher" Lines Used by Winners, 36

All other Makes Combined, - - - 39

Every Other Winner Used a "Kingfisher"

We believe this is the most wonderful showing ever made by any similar article. And this kind of a showing surely means something. The taking of record fish puts a line to a supreme test. Experienced fishermen know this. And if the "KINGFISHER" did not stand at the head of the list in popularity and favor, would all these experts choose it when so much was at stake? No, sir—not on your life! These men chose "KINGFISHER" because they wanted to be sure. They could not afford to take a chance when they went after record fish.

Samples and Catalog Sent Upon Request.

If you Intend Entering the Fishing Contest Write Us for "Special Information."

E. J. MARTIN'S SONS, Rockville, Conn.

shipment. The commissioners, through Chairman Harry B. Austin, met the request in the same spirit as in 1910 and arrangements were at once begun to forward another lot of the Sebago salmon eggs on March 10th, last.

It took a lot of hustling to complete the arrangements for the transportation across the continent and the steamer shipment, but it was finally arranged. The Tasmanian request this time asked that if possible 50,000 eggs be sent, and it was suggested that on account of the change of climatic conditions and the lateness of the season that the eggs be taken from as far north in Maine as possible. It was therefore planned to try the eggs from the Caribou hatchery—when along came a rush message on February 2nd., that the shipment must be made a month earlier, as it had been discovered their steamer sailing in March could not handle the shipment.

This meant a hustle and Supt. Arthur Briggs hurriedly returned from the Tunk Pond Hatchery, Cherryfield, and again started work at the Auburn hatchery. Another big shipping crate was built, with its trays, airspaces, sawdust packing

just a month from Vancouver, as will be seen from the following letter: Launceston, State of Tasmania. Commonwealth of Australia. March 20, 1916.

Harry B. Austin, Esq.,
Chairman Comms. of Fisheries,
Augusta, Maine.

Dear Mr. Austin:—
We are very pleased to say the case arrived here last Thursday morning (16th) in splendid order, notwithstanding its long journey. The attached clipping from a local paper may be of interest to you. We are all delighted at the success of the undertaking, and desire to specially thank you and your brother commissioners for the trouble taken. The packing was most excellent and reflects credit on your hatchery superintendent.

CHAS. H. HARRISON.

Accompanying the letter was the following clipping from the Tasmanian Daily, published at Launceston, dated March 17, 1916, telling a fine success of the Sebago salmon of Maine in faraway Australia:

The Sebago Salmon.

Recognizing the importance of the acclimatization of a sporting salmon

ISSUED WEEKLY

J. W. Brackett Co.
Phillips, Maine

L. B. BRACKETT,
Business Manager

OUTING EDITION

Pages \$1.00 per year

LOCAL EDITION

12 and 16 pages \$1.50 per year
Canadian, Mexican, Cuban and Panama sub-
scription 50 cents extra. Foreign subscription
8 cents extra.

Entered as second class matter, January 21,
1909, at the postoffice at Phillips, Maine, under
the Act of March 3, 1879.

The Maine Woods thoroughly covers the entire
state of Maine as to Hunting, Trapping, Camp-
ing and Outing news, and the Franklin county
locally.

Maine Woods solicits communications and fish
and game photographs from its readers.

When ordering the address on your paper
changed, please give the old as well as new
address.

THURSDAY, MAY 11, 1916.

Gov. Curtis has designated Friday,
May 12th, as Arbor Day and says in
his proclamation: "I recommend and
urge that this day be observed by
the people of the state by the plant-
ing of trees, shrubs and vines for
the adornment of public and private
grounds, places and ways, and by
such other efforts and undertakings
as shall be in harmony with the gen-
eral character and significance of a
day so established."

DISTRICT NO. 2

May 10.

Miss Bertha I. Gulliver, teacher in
this district, boards with Mrs. Ben
Wing.

F. W. Harnden took dinner with L.
B. Field and family last Thursday.

David Haley has sold his Ford
touring car to A. B. Smith of Mad-
rid.

Messrs. Haley and Taylor of Ran-
geley were in this place last week
buying cattle.

Much sympathy is felt for Mr. and
Mrs. Howard Brown in the loss of
their buildings by fire Tuesday.

Mr. and Mrs. F. W. Harnden and
two children went to Dryden Fri-
day, where they will visit their
daughter, Mrs. Everett Hewey and
other relatives for a week or two.

Miss Ila Hoar of Rangeley was
the guest of her uncle, George Hal-
ey and family last week.

Mr. and Mrs. L. B. Field have re-
ceived invitations to the wedding of
their niece, Miss Beatrice Ellsworth
Walker to Mr. Richard Hyde Cutler.
The wedding will be Wednesday even-
ing, May 17, at Christ Church, Mont-
pelier, Vt. Miss Wheeler is the
daughter of the late W. O. Walker,
formerly of this town. Mr. and Mrs.
Cutler will make their home in Bal-
timore, Maryland.

Word from Mrs. Mary Reed, who
has passed the winter in Auburn
with her son and wife, Mr. and Mrs.
Frank Reed, states, that while she
has not been sick, she has not been
in very good health. Mrs. Reed
plans to pass some time in Phillips
and Madrid this summer, where her
friends will be glad to welcome her.

Dean Nile of Rangeley was the
guest of his cousin, Otto Haley last
week.

Alpha Wilkie, who has been visit-
ing relatives in Rangeley for some
time, returned Tuesday and is the
guest of friends in this district.

We are glad to learn that Elmon
Berry, who is in the hospital in Lew-
iston for surgical treatment, is get-
ting along nicely.

Mrs. L. B. Field passed a few
days in the village the last week in
April visiting relatives. Mrs. Field
had not been in the village before
for over five months. She would
like to thank all the kind, thoughtful
friends, who remembered her on her
birthday, April 18 with cards which
numbered 40, also a nice cake and
other gifts.

IN AND ABOUT PHILLIPS

Hon. H. B. Austin made a business
trip to New York last week.

W. D. Grant, proprietor of Grant's
Camps, Kennebago, was in town
last week. He says all indications
point to a big season with him.

The postponed business meeting of
the W. C. T. U. will be held with
Miss Luette Timberlake this week,
Friday, at 2.30 in the afternoon.

Earle Voter went to Boston a few
weeks ago to have the steel plate
removed from his leg which was used
to keep the broken bones in place
at the time of his accident on the
railroad some months ago. The
wound is healing nicely and he ex-
pects to be able to walk in a few
weeks. He is still on crutches as
the leg is very weak. Mrs. Voter
accompanied him to Boston remain-
ing with him for the time he was
there. They are now visiting Mrs.
Voter's parents, Mr. and Mrs. Clif-
ford Plaisted in Jay.

Miss Cora Wheeler was in Far-
mington last Saturday for the day.

Mr. and Mrs. J. B. Roynon of
Chicago, Ill., were in town last week,
the guest of their cousin, Mrs. S. J.
Bangs and other relatives.

Miss C. T. Crosby called on her
uncle, Mr. Elias Porter and other
friends in Strong last Friday.

Charles Richardson, who has pass-
ed the winter in Lewiston, was in
town last week calling on friends,
en route to Sandy River Pond for the
summer, boarding at Charles Hink-
ley's.

Hon. Joel Wilbur, accompanied by
his friend, Mr. H. G. Turner of Ded-
ham, Mass., and Albert Worthley of
Arkansas City, Kansas, are at the
former's cottage on Rangeley Lake en-
joying the early fishing. The Messrs.
Wilbur and Turner have fished many
seasons together, and here is hoping
they will have their usual good luck
and land some of the big ones. Nei-
ther of these gentlemen will enjoy the
trip more than Mr. Worthley as he
thoroughly enjoys the sport of either
fishing or hunting.

Miss Amanda Church, who has
passed the winter with relatives in
Boston and Hallowell, returned home
Friday night of last week.

Judge James Morrison is putting in
some good work with the boys in the
Primary and Intermediate grades,
drilling them in military tactics.
The Judge believes in preparedness
and wants the boys to know some-
thing about it. They are much in-
terested and can be seen in the vi-
cinity of the school building nights
after school in the marching line.
This is a good thing for the boys,
and the Judge enjoys it as much as
they do.

G. M. Hatch of New Vineyard was
in town Wednesday afternoon.

Perley Phillips, who has been em-
ployed by N. J. Hackett in his liv-
ery stable, finished work there last
week and is stopping for the present
with his parents on the farm. Mr.
Phillips plans now to enter a veter-
inary school in the fall and follow
that business which he is well suit-
ed to as he is a thorough horseman.
Mr. Phillips has worked for Mr. Hack-
ett for the past five years, and many
patrons will regret his absence from
the stable as he has always been
found a most obliging fellow.

Mother's Day will be observed in
the Methodist church next Sunday
morning. A short address appropri-
ate to the day will be given by the
pastor, and there will be special
music consisting of vocal solos by
Miss Cutler and instrumental music
by the orchestra. Sunday is also
Anniversary Day of the Epworth
League and this will be fittingly ob-
served by the local chapter of the
League, under which auspices the
evening service will be conducted. A
short survey will be given of the
work of the League in all lands and
readings and special music will be
an interesting feature of the pro-
gram.

A good piece of Silver,
Gold or a jewel is a thing
of sentiment, a memento
which will outlive the giver
or the owner.

CRONKHITE'S, The Jeweler

Phillips, Maine.

Miss Georgia Keith of North Chest-
erville returned home Tuesday after
a few days' visit with her cousin,
Dr. E. B. Currier and wife.

Many friends were pleased to
greet Albert Worthley of Arkansas
City, Kansas, who arrived in town
last week and plans to pass most of
the summer in this section.

Miss Georgine Wilbur went to
Portland for a few days.

At a recent meeting of the Pro-
gressive party held in Farmington,
Cory M. Hoyt was added to the
County committee. It was voted to
put a complete county ticket in the
field, with the exception perhaps of
treasurer. The candidates selected
to go on the primary ballot are:
Sheriff, Charles F. Chandler, Phil-
lips; County Commissioner, John W.
Carley, Farmington; Senator, W. D.
Quimby, Rangeley; Judge of Probate
Cory M. Hoyt, Phillips. Tentative
representatives to the legislature
are: Sylvader Hinkley, Rangeley;
G. W. Pease, Wilton; C. A. Thomp-
son, New Sharon; E. L. Libby, Far-
mington.

Mrs. George Bean and Mrs. Joseph
Steward entertained the King's
Daughters last week. As they live
in the same house they united on the
entertaining. A goodly number were
present and passed a pleasant even-
ing with games, etc. The hostesses
served delicious refreshments of ice
cream and cake.

If there are any persons out of
town who would like to send flowers
for Memorial Day to be used in the
cemetery they can send them to any
of the committee, Mrs. Edward
Greenwood, Miss Cora Wheeler, Mrs.
J. W. Brackett or Mrs. O. H. Her-
sey and they will see that their in-
structions are carried out.

H. H. Berry of Yarmouth was in
Phillips last week on his regular
business trip.

Mr. and Mrs. Lee E. J. Ross have
been visiting in Portland recently.

Buy your ticket for the five-act
comedy-drama, the "Country Minis-
ter" which will be put on the stage
at Lambert hall this week on Friday
evening. It is for the benefit of
the Senior class of the Phillips High
school and we want to give them a
rousing house.

Mrs. Dean Barden entertained the
Park Street Club Wednesday after-
noon of this week, and 18 members
were present and two visitors, Mrs.
Mrs. Ernest Butler of West Farmington
and Mrs. Dora Granger. Refresh-
ments were served. The meeting
before this was held with Mrs. Ira
Davenport and Miss Daisy. In two
weeks Mrs. Bonney Webster and Mrs.
George Adams will be the hostesses.

Mrs. Ernest Butler of West Far-
mington is the guest this week of
Mrs. W. V. Larabee.

Carroll Noyes, foreman at the
Maine Woods office, will go out Sat-
urday for a much needed vacation of
a few weeks. Mr. Alfred Metcalf
will substitute for him.

At the convention of the Franklin
County teachers held in Farmington
April 28, Principal F. M. Hammond
was elected president of the associa-
tion and Fred Moulton one of the ex-
ecutive committee. Messrs. Ham-
mond and Moulton and the Misses
Kathleen Noble, Emma Russell, Ger-
trude Grant and Marjorie Cutler at-
tended the convention.

The beautiful bouquets of sweet
peas and carnations at the Union
church last Sunday morning were
much admired. They were sent in
through the kindness of Mrs. Frank
Hodgman and it was much appre-
ciated.

A regular stated meeting of Sher-
burne Charter, O. E. S. was held
Wednesday evening. Mrs. H.
E. Bell, Mrs. H. F. Beedy,
Mrs. Emma Shepard and Mrs. A. V.
McLeary were the committee for
the evening. Refreshments of oranges,
bananas, nabiscoes and coconut
cakes were served and guests
enjoyed after the meeting.
Mrs. S. G. Haley, the worthy matron,
was chosen a delegate to attend the
Grand Chapter in Portland May 23rd
and 24th.

Reynold Graffam, Karl Howland and
George Morton will attend the track
meet at Brunswick Friday.

The 1913 Club will be entertained
by Mrs. C. F. Chandler this week, Fri-
day.

Rev. M. S. Hutchins is attending
the convention of Congregational
churches in Portland this week.

Ice is all out of the Rangeley
Lakes and boats will be making reg-

ular trips in a few days. It is re-
ported that many fishermen have al-
ready arrived.

Mrs. Ludinda Butterfield attended
the 50th wedding anniversary of Mr.
and Mrs. Augustus Butterfield in
East Wilton last Saturday night, and
returned to Phillips Wednesday night.
Mr. Butterfield is a brother of her
husband, the late H. R. Butterfield.

Will Sampson has bought the livery
business of N. J. Hackett and taken
possession. Automobile service will
also be run in connection with the
stable.

Bert Haley is doing the carpenter
work on Selden Keene's house.

Ex-Governor Bert M. Fernald of
Poland was in town Tuesday calling
on friends. He was accompanied by
F. N. Blanchard of Wilton.

Friends of Mr. E. B. Whorff, who
has been confined to his home all
winter by illness, are pleased to see
him on the street again. Last Sun-
day was the first day he has been
out since Thanksgiving.

Veo Small, who is principal of the
Scarboro High school, passed the
week-end in Farmington with his par-
ents, Mr. and Mrs. W. W. Small.

The regular meeting of the Ladies'
Social Union will be held at the Par-
is' House next Tuesday afternoon at
2.30.

Mother's Day will be observed at
both churches next Sunday.

The body of Mr. George Moores
was brought from Somerville, Mass.,
last Friday and interment was made
in Evergreen cemetery. Mr. Moores
was the father of George Moores who
made cigars in Phillips some years
ago, and was a brother-in-law of Mrs.
E. L. Libby of this town. His son,
Ernest Libby accompanied the re-
mains.

We notice by the papers that Ad-
dison N. Williams of Kingfield and
Miss Erma S. Norton of North New
Portland were united in marriage May
4 at Kingfield by Rev. Irving Tow-
sley and his Phillips friends extend
congratulations. Mr. Williams was
formerly clerk in the drug store here
and is a son of Mrs. C. E. Williams,
a former teacher here.

S. G. Haley has just delivered
three cars to customers and is go-
ing after another this week.

MARRIAGES

Farmington, April 29, by N. R.
Knowlton, esq., Merl Wentworth and
Mrs. Blanch Webster, both of Far-
mington.

Farmington, May 4, by Rev. C. E.
Brooks, Percy Norton Wymen and
Miss Florence J. Hiscock, both of
Farmington.

Kingfield, May 4, by Rev. Irving
Towsley, Addison N. Williams of
Kingfield and Miss Erma S. Norton
of North New Portland.

DEATHS.

Wilton, May 8, Dea. David C. Av-
erill, aged 78 years.

Kingfield, May 4, Ekanah D. Dur-
wilt, aged 70 years, 2 months, 2 days.

Wilton, April 17, Mrs. Lovisa
North, aged 85 years, 3 months, 15
days.

BIG FISH AND GAME EXHIBIT

Perhaps there may be many people in Maine who are unacquainted with the fish to be found in the lakes and streams and the animals to be met in the woods. These individuals, as well as those who know about the animal resources of the state, will be given a treat unusual in character and magnitude at the second annual Maine State Exposition, which opens in Portland, June 5, for two weeks.

Hon. Harry B. Austin, chairman of the commissioners of inland fisheries and game, has sent word to Manager W. B. Moore of the Exposition, that the exhibit to be furnished by the state will be the greatest thing of the kind ever displayed in New England. The display of fish and animals last year was a notable one, but the exhibit this season will be even greater and more varied. There

MAPS OF MAINE RESORTS AND ROADS

Maine Woods has frequent inquiries for maps of the fishing regions of the state, etc. We can furnish the following maps:

Franklin County	\$.50

J. W. BRACKETT CO.,
Phillips, Maine.

will be tanks where salmon, bass, trout and pickerel will be seen swimming about in a way to make the hands of an angler fairly twitch to cast a fly. There will be live raccoons, rabbits and other animals from the woods, while the display of stuffed birds and animals, such as are to be met alive in the forests, will be notable. This space to be occupied by the fish and game exhibit will be the largest at the whole Exposition, as it will be one of the most notable.

Not only are more applications for space at the big show being received daily, but manufacturers are beginning to send word as to what they will have on display. Different from the usual exposition, the exhibition spaces will be fairly alive with whirring machinery and clanking looms. Manufacturers will not only show their products, but they will show how the goods are made.

ADDITION TO THE MUSEUM

The latest additions to the State Museum aquarium include a freak hornpout, brought down Monday from Pittsfield by O. E. Libby. It is of good size and has so many colors that it was at once named by a spectator "the Rainbow hornpout." With a pink nose, white body, with markings of black, brown, green and almost any one might name, the name is not so far out of the way, after all. For fear that it might be lonely in the tank with the albino salmon because they would not clam with him, the albino sucker, which has been stopping with the "Happy family," was changed over to the salmon tank and everything seemed last night to be lovely.

Another interesting addition on Monday was three lamprey eels, tak-

en from the Kennebec river by Jesse Alexander, who can locate and land about any freak fish in that body of water. They were placed in the "Happy Family" tank and soon made themselves at home, even if the others paid no attention to them.

BOWDOIN RIFLE CLUB

Brunswick, Me., May 2.—A preparedness meeting was held at the Bowdoin College Union this evening under the auspices of the newly organized Bowdoin College Rifle Club. Speakers included General George McL. Presson, of the Maine National Guard, Capt. E. W. Niles of the coast artillery, a former instructor at West Point; R. L. Manston, '99, Geo. E. Fogg '02 and Arthur L. Robinson '08, Bowdoin men who are actively interested in the National Guard, and others.

The object of the meeting was strictly to discuss the present necessity for military preparedness and not to advocate any particular plan.

THE ELMWOOD A POPULAR HOTEL

Have you ever stopped at The Elmwood in Phillips? If not, do so. If you have, you are no doubt a regular visitor, for we have failed to ever find a guest who was not well pleased with the accommodations in every way.

The house is immaculate in every detail, one of the best tables in the country, and the location one of the most desirable to be found.

It is an especially pleasant home for summer guests and automobile parties.

Both Mr. and Mrs. J. F. Hough look after the comfort of their guests and The Elmwood is spoken of favorably by everyone who has tarried at this hostelry.

EUSTIS

May 8.

Miss Grace Tripp of New Portland is teaching the Pine Grove school.

Miss Savage was called home by the illness of her grandfather.

Mr. and Mrs. F. L. Gordon of Stratton visited Mrs. E. A. Gordon last Sunday.

Mrs. Floyd Stubbs has gone to Livermore Falls to stay a short time.

Quite a number from here attended the May ball at Stratton Friday night, May 5th, and reported a fine time.

Mrs. Clinton Meader has returned home from Flagstaff where she has been nursing.

Mr. and Mrs. Clint Henderson of Tee Pond visited at C. Leavitt's Sunday.

Mr. and Mrs. Willie Robbins have finished working at The Sargent and have gone to Stratton. Mrs. George Bryant is cooking at The Sargent for a few days.

Mrs. Oscar Green came Friday night and has gone in to Jim Pond.

Miss Flora Durrell has come out from Chain of Ponds where she has been teaching school and returned to her home in Stratton.

Miss Daisy Potter is sewing for Mrs. Clinton Meader.

Mrs. Gladys Hammond has returned to her home at Livermore Falls after staying with her cousin, Mrs. Arthur Robertson for several weeks.

SALEM

May 8.

Mrs. Alton Adams has been visit-

ing relatives in Wilton.

Mrs. Ray Ellsworth of Wilton has been visiting here.

Mrs. Ena Simmons was home from Wilton for a few days.

The International Paper Co. have put a crew on the east end of Mt. Abram cutting pulp.

This is clean-up week in Salem. A good thing. Pass it along and everybody do their best.

The friends of Alfred Berry gave him a birthday surprise party Thursday evening, which all present seemed to enjoy.

The teacher, Miss Jennie Richards, spent Saturday and Sunday at her home in Livermore.

W. E. Whitney now carries the mail to and from the depot in place of W. S. Lovejoy, who has had the place for the past nine years.

NYOIL FOR GUNS AND FISH-RODS

William F. Nye is the greatest authority on refined oils in the world. He was the first bottler; has the largest business and NYOIL is the best oil he has ever made.

NYOIL HAS NO EQUAL.

Beware of scented mixtures called oil. Use NYOIL on everything where a light oil is needed. It prevents rust and gives perfect lubrication.

Sportsmen, use it liberally on your firearms and your rod. You will find it by far the best. Hardware and sporting goods dealers sell it in large bottles (cheaper to buy) at 25 c. and in trial sizes at 10 c. Made by

WM. F. NYE,
New Bedford, Mass.

TOBACCO THAT'S JUST RIGHT FOR PERFECTIONS

ENUFF RAIN

TOBACCO NOT GOOD ENOUGH FOR PERFECTIONS

LOTTA SUN

Only Nature's choicest tobacco gets into Perfections.

No frills—no fancy business—and you don't want 'em either. You want a nickel's worth of **SMOKES**—not frills—for your 5c.

You get it in Perfections. You get tobacco that **IS** tobacco.

Perfections are famous for containing nothing but *natural* Virginia tobacco.

Every leaf of it is *naturally* good and full of the original, fresh taste that Nature put into it.

Why smoke something else not quite so good? Make a quick, happy change to Perfections because they're

CIGARETTES

A plain, plum-colored package but—*real* smokes.

NAVIGATION ON MOOSEHEAD LAKE

Parties Arrive at Packard's at Sebec
Lake—Ice Out of Square Lake
April 29.

(Special to Maine Woods.)

Bangor, Me., May 5.—Moosehead Lake is now open for navigation and the boats have commenced running. From now on excellent catches of fish are expected to be reported.

The fishing in Sebec Lake is reported to be of the best. The first fishermen arrived at the camps of B. M. Packard on April 29th and during that afternoon there were 32 landlocked salmon landed. Harry Arnold of Bangor in two days' fishing caught ten salmon, the largest 4½ pounds, smallest 2¼ pounds. B. W. Sherburne of Newport, Me., caught during the afternoon of April 29, eight salmon, which was the largest number caught by one party in a half day's fishing. W. Roy Huston of Auburn has fished three days and caught 12 salmon weighing from two to four pounds each. Mr. Geo. F. Johnson of Boston is having fine sport. He does not believe in trying to catch all the fish in the lake in one day, but has caught in three days' fishing seven nice salmon weighing from 3¼ to 4½ pounds each. M. E. Schafer of Boston in three days' fishing has caught eight salmon weighing from two to four pounds each. Mr. Harry J. Houser of Manchester, N. H., in three days' fishing has brought to the net 12 nice salmon. As Mr. Houser is a believer in conservation, he kills only the fish that are hooked deep and he thinks would not live if put back. Mr. William H. Chandler and Mr. Wellman of Boston are having good sport. They are not out to see how many fish they can kill, as the greater part of the salmon they bring to the net they let go. Up to the present time they have caught fourteen salmon, weighing from 2 pounds to 4½ pounds.

Ice went out of Square Lake April 29th, and report from the camps of C. H. Fraser, on this lake, is to the effect that 78 salmon and three trout have been caught within a radius of one-half mile from his camps; salmon weigh from 2 to 7 pounds, and trout from 1¼ to 4 pounds.

THE BIRDS' TIME TABLE

When we consider the great distances some birds travel and the dangers they encounter by the way, it is remarkable that they usually arrive on time.

That the daily trips to and from the roost should be made regularly is not surprising. The birds have only a short way to go, and they leave soon after daybreak and return just before dark. But when, year

after year, the bobolink, the Baltimore Oriole, the migrant, the hummingbird, many warblers, and other birds arrive from journeys thousands of miles in length on exactly or nearly the same day, we ask how they can possibly be so prompt.

In order to answer this question we must know something about the birds' time-table. Any one who has studied the birds about this home for many years can make a time-table giving the dates of arrival and departure of all the migratory birds which visit him.

In this time-table we shall notice that the early birds—those which come in March—are much less prompt than the later ones—those which come in May. This is because the weather of March is so much more uncertain than that of May. In some years, near New York City, snow covers the ground and the ponds are frozen almost until April. In others, the snow melts and the ice disappears before the middle of March. But by May 1, the weather is more settled. The first week in May of one year is much like the first week in May of another year.

So it follows that the exact time of the arrival of the birds is more or less dependent on the weather. It is not the weather which induces them to come. What can the Baltimore Oriole in Central America know about the weather near New York City? Not a thing. He leaves Central America without regard to the weather or any other place. But his journey may be delayed by bad weather or hastened by favorable weather. If, therefore, he finds the weather of one year much like that of another year, he is apt to reach the same place at about the same time year after.—Frank M. Chapman, in St. Nicholas.

PROSECUTIONS BY WARDENS

Deputy Game Warden John F. Collins of Lee reports the payment of a fine of \$10 and \$5 costs by J. S. Hodgkins of Lowell, Penobscot county, for trapping in violation of the fish and game laws.

Also the prosecution and payment of a fine of \$5 by Randall S. Perkins of Lowell for setting a trap not marked in accordance with the requirements of the law.

Also John M. Cummings was before Trial Justice Artemas Weatherbee at Lincoln on April 25 for illegal trapping, was found guilty, but on account of extenuating circumstances the sentence was suspended.

Two offenders were recently haled before the commissioners on complaint of fishing in Sanford brook, a closed stream which empties into the Messalonskee stream. Sentence was suspended on account of extenuating circumstances connected with the case.

ICE GOING OUT OF SADDLEBACK LAKE

(Special to Maine Woods.)

Saddleback Lake Camps, Dallas, May 8, 1916.—The ice is going out today.

Many guests coming this week to try the fishing. Everything is in readiness and many large trout will be taken as usual.

The ice has gone out of this lake in former years as follows: 1912, May 2nd.; 1913, April 30th.; 1914, May 16th.; 1915, April 23rd. This year the lake will be clear of ice on the 8th or 9th of May.

BUSY AT SPRING LAKE CAMP

(Special to Maine Woods.)

Spring Lake Camps, May 6.—The ice is all out of the lake tonight and we are busy getting camps and boats in readiness for the early fishermen. We will have everything ready May 12th and on and after that date shall be pleased to see all our old friends, and we hope to make many new ones during the coming season.

SUBSCRIBE NOW FOR MAINE WOODS. \$1.00 A YEAR.

BOOKS FOR HUNTERS, TRAPPERS, FISHERMEN AND SPORTSMEN

The following books are endorsed by leading publishers, hunters, trappers and sportsmen in North America. The information they contain is reliable, having been gathered from actual experience and successful experiments of men who are leaders in the different branches covered by these works.

These books should be in the hands of every man who goes into the woods, either for pleasure or profit.

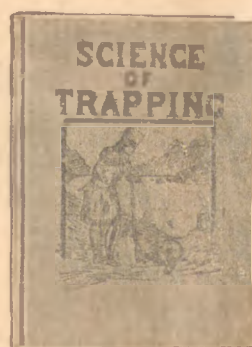

FOX TRAPPING

A BOOK of instructions tells how to trap, snare, poison and shoot. A valuable book for trappers. If all the methods as given in this had been studied out by one man and he had begun trapping when Columbus discovered America, more than four hundred years ago he would not be half completed. This book is edited by A. R. Harding and contains about 50 illustrations, and about 200 pages, is divided into 22 chapters, as follows:

General Information; Baits and Scents; Foxes and Odor; Chaff Method Scent; Traps and Hints; All Round Land Set; Snow Set; Trapping Red Fox; Red and Grey; Wire and Twine Snare; Snare, Shooting, Poison; My First Fox; Tennessee Trapper's Methods; Many Good Methods; Fred and the Old Trapper; Experienced Trapper Tricks; Reynard Outwitted; Fox Shooting; A Shrewd Fox; Still Hunting the Fox; Fox Ranches; Steel Traps.

Price, postpaid, cloth bound, 60 cents.

SCIENCE OF TRAPPING

DESCRIBES the fur-bearing animals, their nature, habits and distribution, with practical methods for their capture. Contains 245 pages, size 5 x 7 inches, with 40 illustrations. The chapter on

"Tracks and Signs" is worth dollars to young and inexperienced hunters and trappers, as the author shows drawings of the footprints of the various animals. The author is personally acquainted with some of the most expert trappers in North America, and has also followed the Indians over their trap lines, and in this way learned many things which to the white man are not generally known.

The book contains twenty-four chapters as follows: The Trapper's Art; The Skunk; The Mink; The Weasel; The Marten; The Fisher; The Otter; The Beaver; The Muskrat; The Fox; The Wolf; The Bear; The Raccoon; The Badger; The Opossum; The Lynx; Bay Lynx or Wild Cat; The Cougar; The Wolverine; The Pocket Gopher; The Rabbit; Tracks and Signs; Handling Furs; Steel Traps.

Price, postpaid, cloth bound, 60 cents.

DEADFALLS AND SNARES

A BOOK of instructions for trappers about these and other home-made traps by A. R. Harding. This book contains 232 pages, size 5 x 7 inches, and 84 drawings and illustrations, printed on good heavy paper. The most complete book on how to make "home-made" traps ever published. Building deadfalls and constructing snares, as explained in this book is of value to trappers where material, saplings, poles, boards, rocks, etc., are to be had for constructing. The book contains 28 chapters as follows:

Building Deadfalls; Bear and Coon Deadfalls; Otter Deadfall; Martin Deadfall; Stone Deadfall; The Bear Pen; Portable Traps; Some Triggers; Trip Triggers; How to Set; When to Build; Where to Build; The Proper Bait; Traps Knocked Off; String Pole Snare; Trail Set Snare; Bait Set Snare; The Box Trap; The Coon Trap; The Pit Trap; Number of Traps; When to Trap; Season's Catch; General information; Skinning and Stretching; Handling and Grading; From Animal to Market; Steel Traps.

Price, postpaid, cloth bound, 60 cents.

HUNTING DOGS

DESCRIBES in a practical manner, the training, handling, treatment, breeds, etc., best adapted for night hunting, as well as gun dogs for daylight sport. This book is not intended for the field trial dog men, but is for the real dog men who delight in chases that are genuine. Contains

253 pages, size 5 x 7 inches, with 45 illustrations, 26 chapters as follows: Part 1—Hunting Dogs, Night Hunting, The Night Hunting Dog—His Ancestry, Training the Hunting Dog, Training the Coon Dog, Training for Skunk, Opossum and Mink, Wolf and Coyote Hunting, Training for Squirrels and Rabbits, Training the Deer Hound, Training—Specific Things to Teach, Training—Random Suggestions from Many Sources. Part 2—Breeding and Care of Dogs—Selecting the Dog, Care and Breeding, Breeding, Breeding (Continued), Peculiarities of Dogs and Practical Hints, Ailments of the Dog. Part 3—Dog Lore—Still Trainers vs. Tonguers, Music, The Dog on the Trap Line, Sledge Dogs of the North. Part 4—The Hunting Dog Family—American Fox Hound, The Beagle, Dachshund and Basset Hound, Pointers and Setters, Spaniels, Terriers—Airedales, Scotch Collies, House and Watch Dogs. A Farmer Hunter—His Views, Descriptive Table of Technical Terms.

Price, postpaid, cloth bound 60 cents.

FUR FARMING

A BOOK of

information about fur-bearing animals, enclosures, their habits, care, etc., and is the recognized authority on fur raising—now in fourth edition—written from information secured from reliable sources, including U. S. Government reports. Demand for furs is increasing yearly while the supply is becoming less. Fur farming is a profitable industry. Book contains 266 pages, 39 illustrations from photographs; 15 chapters as follows:

Supply and Demand, What Animals to Raise; Enclosures, Laws Affecting Fur Farming, Box Trap Trapping, Fox Raising, Fox Raising in Canada, Skunk Raising, Mink Raising, Opossum Raising, Muskrat Raising, Raccoon Raising, The Beaver and the Otter, Killing, Skinning and Stretching, Deer Farming.

Price, postpaid, cloth bound, 60 cents.

Land Cruising and Prospecting

IS A valuable book for homesteaders, hunters, prospectors, guides etc. The writer, Mr. A. F. Wallace, an experienced land surveyor, land cruiser and prospector, in his introduction says: "To the men who follow the compass

the trap and the trail, this work is inscribed. It is not intended for the 'Professor' who can tell you all about things after they are done (by someone else)." Contains about 200 pages, 5 x 7 inches, good quality paper, with nearly 40 illustrations and contains 20 chapters as follows:

Maps; The Compass; Examining and Locating; Early Surveys; Corner Marks; Miscellaneous Information; Points for Homesteaders; Prospecting for Gold; Sampling Ore; How to Locate a Claim; Poor Man's Ore Mill; Prospecting for Fur; Prospecting for Pearls; Prospecting for Bees; Rations and Camp Cookery; Camp Kits; Guns, Axes and Packtraps; Building Cabins; Tanning, Etc.; Getting Lost; The Red River Trapper.

Price, postpaid, cloth bound, 60 cents.

MINK TRAPPING

A BOOK of in-

struction, giving many methods of trapping. A valuable book for trappers as it tells in a plain way what you want to know, that is if you want to catch mink. This book is edited by A. R. Harding, contains about 50 illustrations and nearly 200 pages, and is divided into 20 chapters as follows:

General Information; Mink and Their Habits; Size and Care of Skins; Good and Lasting Baits; Bait and Scent; Places to Set; Indian Methods; Mink Trapping on the Prairies; Southern Methods; Northern Methods; Unusual Ways; Illinois Trapper's Method; Experienced Trappers' Methods; Many Good Methods; Salt Set; Log and Other Sets; Points for the Young Trapper; Proper Size Traps; Deadfalls; Steel Traps.

Price, postpaid, cloth bound, 60 cents.

CANADIAN WILDS

TELLS about the Hudson Bay Company; Northern Indians and their Modes of Hunting, Trapping, etc. Provisions for the Wilderness, Things to Avoid, etc., etc. The author (Martin Hunter) was with the Hudson Bay Company for about 40 years—from 1863 to 1903 and the information is given from almost a half century's experience. This book contains 277 pages, thirty-seven chapters as follows:

The Hudson's Bay Company; The "Free Trader" Outfitting Indians, Trappers of the North, About Indians, Wholesome Foods, Officer's Allowance, Indian Packs, Indian Mode of Hunting Beaver, Indian Mode of Hunting Lynx and Marten, Indian Mode of Hunting Foxes, Indian Mode of Hunting Otter and Muskrat, Remarkable Success, Times to Avoid, Anticosti and its Furs, Chiseling and Shooting Beaver, The Indian Devil, A Tale Seal, The Care of Blistered Feet, Deer Sickness, A Case of Nerve, Amphibious Combats, Art of Pulling Hearts, Dark Furs, Indians are Poor Shots, A Bear in the Water, Vomacous Pike, The Brass Eyed Duck, Good Wages Trapping, A Hard Necessary, A Heroic Adventure, Wild Oxen, Long Lake Indians, Den Bears, The Mishap of Raison.

Price, postpaid, cloth bound 60 cents

STEEL TRAPS

DESCRIBES the various makes and tells how to use them. Also chapters on care of pelts, etc. This book contains 333 pages, 5 x 7 in., and 130 illustrations, printed on good quality heavy paper. Just the book that trappers have long needed. Gives the history of steel traps, how made, sizes for various animals with detailed in-

structions on where and how to set. This book contains 32 chapters as follows:

Sewell Newhouse; Well Made Traps; A Few Failures; Some European Traps; Proper Sizes; Newhouse Traps; Double and Web Jaws; Victor, Hawley & Norton; Jump Traps; Tree Traps; Stop Thief Traps; Wide Spreading Jaws; Caring for Traps; Marking Traps; How to Fasten; How to Set; Where to Set; Looking at Traps; Mysteriously Sprung Traps; Good Dens; The Proper Bait; Scent and Decoy; Human Scent and Signs; Hints on Fall Trapping; Land Trapping; Water Trapping; When to Trap Some Deep Water Sets; Skinning and Stretching; Handling and Grading; From Animal to Market; Miscellaneous Information.

Price, postpaid, cloth bound 60 cents.

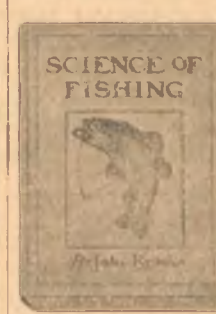

CAMP AND TRAIL METHODS

THIS is one of the most practical books on woodcraft ever written containing valuable information for all lovers of the great outdoors. The author of this book has spent years in the woods, so knows what is wanted by the woodsmen, mountain men, prospectors, trappers and the hardy outdoor people in general. It contains 274 pages and 68 illustrations. There are 19 chapters as follows:

Pleasures and Profits of Camping, Selecting a Camp Outfit, Clothing for the Woods, Pack Straps, Pack Sacks and Pack Baskets, Cooking Utensils, Beds and Bedding, Firearms, Hunting Knives and Axes, Tents and Shelters, Permanent Camps, Canoes and Hunting boats, Snowshoes and Their Use, Snowshoe Making, Skis, Toboggans and Trail Sleds, Provisions and Camp Cookery, Bush Travel, Traveling Light, Tanning Furs and Buckskins, Preserving Game, Fish and Hides, Miscellaneous Suggestions.

Price, postpaid, cloth bound, 60 cents.

SCIENCE OF FISHING

THE most practical book on fishing ever published. The author says: "For those who have caught them, as well as for those who never have." This book describes the fish, tells their habits and HOW, WHEN and WHERE to catch them; also tells the KIND of tackle used for each fish.

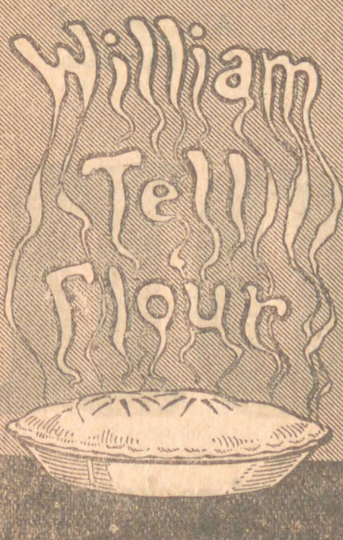

Book contains 255 pages, more than 100 illustrations, 22 chapters as follows:

Remarks on the "Gentle Art"; Rods; Reels; Hooks, Lines and Leaders; Flies; Artificial Baits; Landing Nets, Gaffs, Tackle Boxes, Etc.; Bait-Casting; Fly-Casting; Surf-Casting, Trolling, Still Fishing, Etc.; Use of Natural Baits; Handling the Hooked Fish; Fishing for Black Bass; Fishing for Trout and Salmon; Pike, Pickerel, Muskellunge and Pike-Perch; Sunfish, Carp, Catfish and Suckers; Fishing for Tarpon and Tuna; Fishing for Other Sea Fish; Making, Repairing and Caring for Tackle; General Information; Commercial Fishing; Distribution of Fish—Good Places.

Price, postpaid, cloth bound, 60 cents

That Pie!

should have a wholesome, tender crust that melts into the filling so perfectly that even two pieces are not enough. You can make such pastry with the specially milled Ohio Red Winter wheat flour that makes everything better and goes farther—the all round flour for bread, cake and pastry known as

A New Questions and Answers Department of Interest to Shooters

SMALL BORE SHOOTING Part II.

The standard cartridge used by the civilian small bore clubs is the .22 long rifle loaded with Lesmok or semi-smokeless powder. The smokeless powder cartridges are not used owing to their inaccuracy and to the fact that they are hard on the rifle barrels. The reason for this is that so far no one has been able to produce a smokeless powder which will give any marked degree of accuracy in rim fire cartridges.

The standard number of shots for indoor league shooting is twenty shots for each of the five men, that is, each member of the team fires two shots at each of the ten different bull's-eyes.

There is only one trouble with the indoor small bore game as run by the National Rifle Association and that is that it is likely to become monotonous after a while. There is not enough novelty in it. The scores are too high. It should be in some way or other made harder for a man to make possible scores. It is just as though one were required to live on chocolate cake and ice cream all the time. They are most excellent but beefsteak and potatoes are also necessary for a well balanced diet. It seems to me it is about time for the National Rifle Association to add a rapid fire stage to the match and undoubtedly this will be done in the near future. It would be easily possible to arrange the conditions for a rapid fire match so that users of single shot rifles and repeating rifles could compete on even terms, the time limit allowed, of course, for the single shot rifle being longer.

With regard to sights, there are two or three little points to be remembered. Do not use a front aperture sight as described in the last issue with the opening too small. It is better to have a distinct white line around the bull's-eye than to have to strain your eyes. The rear peep sight also should not be too small. If you find the bull's-eye fading away after you have sighted for a few seconds the chances are your rear peep sight is too small, and should be made larger. As with the other forms of shooting, the rear sight is to be moved the way it is desired the bullets to go. The new sights which have recently been put on the market are designed so that turning the knurled stem or wind gauge screw one click changes the location of the bullet on the target 1/2 inch at 25 yards. In all shooting, always remember that the amount of correction of the sight is proportional to the range, thus if a certain amount of movement in the sight changes the location of the bullets on the target 1/2 inch at 25 yards, the same amount of sight movement would change the bullets 1 inch at 50 yards or 4 inches at 200 yards.

The Village Blacksmith

Everybody knows him, and everybody likes him. He's a fine fellow, with a hard hand, a big arm and a mighty chest. As strong as he is, he will tell you that he isn't much good when his stomach goes back on him. So long as he can eat well, he can work hard and long, but when his stomach is sick he doesn't feel like standing at his anvil. Many strong men have found "L. F." Atwood's Medicine a great help in keeping the stomach well. It acts very promptly on the digestive organs, the liver and bowels, and keeps them regular and healthy. When you feel out of sorts, with little appetite, or suffer from a sick headache, this reliable remedy will soon make you feel better.

FREE.—On receipt of a yellow outside wrapper with your opinion of the medicine, we will send you one of our Needle Books with a good assortment of high grade needles, useful in every family.

"L. F." Medicine Co., Portland, Me.

A. W. H., Ashville, O.

1. What do you consider the best solution for cleaning high power rifles after shooting? Also for the .22?

Ans. If the high power rifle is not metal fouled, a good nitro solvent oil is satisfactory. For .22 rifles a nitro solvent oil is entirely satisfactory.

2. Is the .25 Rem. Auto accurate at 300 yards?

Ans. Yes.

3. Is it practical for one to reload shells for same?

Ans. It can be done.

4. What kind of sights would you recommend for use on this gun, and would the telescope sight be all right?

Ans. If you are not satisfied with the regular open sights, the most popular combination is the head front sight, ivory or gold, and a rear peep sight. Telescope sights work satisfactorily on these rifles as it is side ejection.

5. Of the following pistols which is the most accurate—the Stevens 6, 8 or 10 inch barrel? Has the 10 inch any more penetration than the 6 inch?

Ans. You do not say for which cartridge the pistol is chambered. If for the .22 long rifle, the 10 inch is better, principally because of the greater distance between sights.

6. Explain the construction of the dum-dum bullet.

Ans. "Dum dum" is the popular expression for any type of expanding bullet.

7. According to velocity and energy, how does the 30-30 Springfield rifle used by the U. S. Government compare with the rifles used by the belligerent nations now engaged in the present European war?

Ans. The .30 Springfield Model 1906 cartridge has more velocity and energy than any of the foreign military rifles except the new German Mauser which, I understand, is slightly more powerful than the Model 1906, although I cannot get the exact figures.

P. D. F., Pittsburgh, Pa.

1. What is the muzzle velocity of a .32 long shot from a S. & W.?

Ans. 706 foot seconds.

2. How far is this revolver accurate and what is the penetration?

Ans. Accurate to about 75 yards. Penetration 4 inches.

3. Also, answer the above questions for a Colt Automatic, .32 caliber.

Ans. Muzzle velocity 938 foot seconds, penetration 5 inches; accurate up to about 75 yards.

4. Which is best for a target revolver?

Ans. Neither of these can be considered target models. They are about equal for such work.

5. Which is best for killing small game such as fox, wolves, etc.?

Ans. One is about as good as the other.

6. Would you answer a personal letter for me on another subject?

Ans. Yes, if return postage is forwarded.

P. M., Dover, N. J.

1. How is the cartridge from the chamber unloaded, after firing several shots out of the magazine in the .22 Auto Savage, Model 1912.

Ans. Remove the magazine and pull back the breech block to eject the shell from the chamber.

2. Can the auxiliary cartridge be loaded in the magazine of the Savage H. P. cartridge and would it work six auxiliary cartridges through the magazine, or is the auxiliary cartridge only loaded singly in the magazine of the .22 Savage high power rifle?

Ans. It is best to load it singly.

G. W. N., Middletown, N. Y.

1. Will you be so kind as to explain the real difference between a high power and high velocity cartridge. There seems to be a lot of argument on the subject, but without any means at hand to prove it.

Ans. There is no logical meaning to either of the two terms "high power" or "high velocity." As a matter of fact they can really be considered trade terms. The only real description of a cartridge is to give its bullet weight, muzzle velocity, chamber pressure, etc.

E. G. C., Churchville, N. Y.

Will you kindly tell me what is the matter with my revolver. It is self cocking, double action and when I pull the trigger back it does not go back in place again, thus shooting like a single action revolver. Is there a spring inside the revolver that snaps it back in place?

Ans. Probably the trigger spring is broken. Take it up with the manufacturer.

E. C., Flint, Mich.

1. Will you please tell me which of the following revolvers would give the best results as to accuracy and killing power up to 40 yards; the .38 Colts, Officers Model, 7 1/2 inch barrel, or the 32-20 Colts Single action, the former weighing 36 ounces and the latter 45 ounces.

Ans. Of the two I prefer the Officers model.

2. Is it unlawful to carry a revolver in a holster in plain sight in this State?

Ans. According to Act 274 of the Public Acts of 1911, it is unlawful to carry a revolver in any county having 150,000 population or over. A permit may be secured to carry under such conditions from the police department.

E. H. L., Pittsburgh, Pa.

1. I have a .32 Colt Automatic which I bought in a local store two weeks ago. The barrel can be moved visibly at the muzzle end. Would this affect the accuracy of the arm, or is there usually some play in the end of the barrel? The reason I ask this is because I have been practicing with this gun and at a distance of 30 feet the bullet hit 8 and 10 inches below the mark. Would the "kick" cause this? I am used to the kick now and did not notice whether my hand jarred or not. It seems to me, however, that the bullet ought to be gone longer before the kick has had time to affect the aim. What do you think?

Ans. Your trouble is probably due to lack of shooting practice. Most beginners shoot low. This is due to pulling the trigger by yanking it rather than by even pressure. The movement you notice in the barrel will have no effect on the accuracy of the result. The kick has a constant effect on the bullet and is provided for when the sights are fitted, so that as far as you are concerned, it does not exist.

2. What metal is used in the metal patched bullet as used in a Colt?

Ans. Auto pistol bullets are made with lead cores, copper jacketed and tinned over to prevent corrosion.

D. G. M., Pittsburgh, Pa.

1. I noticed your reply several weeks ago regarding the various calibers of rifles now in use by the warring nations. I think, however, you have made an error somewhere, as I am given to understand one of the nations use a 7 mm cartridge.

STORER F. CRAFTS Gen. Manager

If not, then why are numerous shipments of 7 mm cartridges going to Europe every week?

Ans. I do not know of the shipments you speak of. However, none of the countries now at war are using a rifle of caliber 7 mm. Spain is using a 7 mm rifle.

Alfred P. Lane

MAKE GOOD AFTER SIX YEARS' TRIAL.

(Continued from page three)

the Canadian frontier, and which is analagous in every way with the Scotch or Atlantic, salmon, excepting that it has lost the seagoing habit, and does not now attain such a large size. This consignment was only obtainable through the courtesy of the Fisheries' Commissioners for the State of Maine, of which Mr. Harry B. Austin is chairman. The Commissioner placed every facility at the association's disposal. To avoid the possibility of the risk of any warm autumn weather, which would be fatal to the young fish if hatched in closely confined hatcheries, it was arranged for the shipment to come forward by the R. M. S. Niagara, which is due in Sydney next month, and for this purpose the Maine authorities kindly consented to strip the eggs from the latest spawning fish, and to "eye" or incubate up to a certain point at their coldest hatchery before packing. Owing, however to the Niagara's cooler being very limited it was found, somewhat late in the day, impossible to send by that ship, and the ova had to be despatched by the Makura, which left Vancouver, B. C., on February 16. It may be mentioned that it is usual in transmitting from one side of the world to the other, to employ an expert to travel with the eggs, which require constant attention as to temperature, etc. The Northern Fisheries' Association was fortunate in being able to arrange to dispense with this expense, largely to the efforts of Mr. R. K. Doherty, of the U. S. S. Company, Sydney, well and favorably known as an old Tasmanian manager of the company, who contributed largely to the success of the transit arrangements, ably assisted by Mr. J. C. Irons, the Union Company's agent at Vancouver. The State is indebted to both these gentlemen for the trouble taken, and also to the chief engineer (Mr. Howarth) of the Makura, who personally supervised the eggs during this long sea voyage, thereby ensuring success, and the officers of the S. S. Wakatipu, to which vessel the consignment was transferred in Sydney. The ova reached Launceston yesterday morning in charge of Chief Officer Toten.

The shipment, comprising one large case containing about 25,000 ova, was received on the wharf by the association's secretary and Mr. W. Notman, a member of the central committee. To ensure the fry from any possible hot spell they were taken to the Cool Storage Company's work on the Esplanade, where Mr. H. Fowell had everything in readiness for their reception. The case was at once opened, and the ice packing being removed the 12 trays containing the eggs were taken out, and after careful examination of the eggs it was found that they were in splendid order, and not too far advanced for a further retardation of the hatching process, which should remove all risk of high temperatures being experienced when the fry are out. This is a strong point, and is due to the forethought displayed in arranging for the eggs to be obtained from the very latest spawning fish in Maine. The success of the consignment is very gratifying to all concerned, and when it is taken into consideration that the consignment left Maine on February 8, had six days and night in the C. P. R. express across the Continent to Vancouver, in addition to 23 days in the Makura from Vancouver to Sydney, three days in the ship's cooler at Sydney, and then a further journey to Launceston, making 37 days in transit, it goes to show that all concerned used the greatest care and intelligence in carrying out the instructions prepared by the Northern Fisheries' Association for the safe transit of the consignment.

Probably about the first of next month the ova will be taken out to Waverley for the process of hatching. The bulk of the fry will be retained in the rearing races until they attain the size of yearlings, when they will be distributed to the various lakes as may be decided on by the association's governing body.

How It Was Done.

That it was an undertaking of some magnitude to arrange for the transportation of these two shipments of salmon eggs to Australia is shown by the great mass of documents and papers on file in the Commissioners' office, which includes something like 80 letters of from one to three typewritten pages, two cablegrams and numerous telegrams. It was write, write, write and phone and wire, until things were straightened out to the very dot of minuteness and not a hatch occurred in any particular, the schedule being followed to the minute and the eggs being in splendid condition on arrival.

The larger of the illustrations accompanying this little story shows the beautiful grounds and some of the buildings at the Maine State hatchery at East Auburn and the other shows a sample fish from this place, just an average one. Too much praise cannot be given General Supt. Arthur Briggs and Supt. John Stanley of the hatchery for the interest taken in the shipments and the care bestowed on the details of the work of preparing the eggs for shipment, for it is due almost wholly to this and the care en route that they arrived in such fine condition.

It is safe to say that while Maine fish and game are known all over the world this new experiment will add much to their reputation.

It was mentioned at the beginning of this article that Maine fish and game had a world-wide reputation, but it is safe to say that in spite of the great war that is upsetting almost everything throughout the world, the Sebago salmon of Maine will be known still better from the experiments being carried on in far-away Tasmania. That the first shipment of six years ago was a success has been proven by the events of time since then and that the second will be successful cannot be doubted.

—Kennebec Journal.

"THE AMERICAN ANGLER"

Charles Bradford, author of the several angling volumes that Grover Cleveland declared the most practical and most beautifully written books he had ever seen of their class, is the editor of a new magazine, "The American Angler," devoted entirely to fishes, fishing, forestry and water conservation. Mr. Bradford says that the new magazine is for the propagation and protection of the fishes, not the destruction of them. The main idea, he says, is to fight for the protection and cultivation of the forests and streams, without which, he claims, there not only cannot be any fishes, but general health for humanity as well. Man's happiness depends mainly upon foliage and water, the basis of all other earthly material—air, food, shelter, etc. Anglers, says Mr. Bradford, are more interested in these affairs than any other class of people; they think more of and do more toward the protection and breeding of fishes than the capture of them. All anglers are fishermen, but the majority of fishermen are not anglers. Mr. Bradford's notion is to awaken the true angler's spirit in all of us—make us of the contemplative mind. However, "The Angler" has its practical side—it tells us all about how to angle and where to go, and how to outfit. Its natural history, landscape and illustrative features are delightful, and its avowed purpose is worthy of encouragement by all who believe in health, outdoor life and recreative amusement. The subscription price is one dollar a year. Single copy, twenty-five cents. The Nassau Press, Richmond Hill, L. I., N. Y.

TOWN OBSERVING CLEAN-UP WEEK

Ice Left the Eth--K. P.'S and Pythian Sisters Attend Church in a Body.

(Special Correspondence.)

Rangeley, May 10.—Mr. and Mrs. Walter Davenport are receiving congratulations on the birth of a 10 pound son, which arrived Sunday, May 7.

Miss C. T. Crosby is in town. Mr. and Mrs. Geo. Webster were in town recently, Mr. Webster coming to instruct Wallace Carlton in regard to running the light plant at the Rangeley Lake House. Mr. Webster has been employed at the Rangeley Lake House for a number of years as house carpenter and during his stay here has made many friends. At present he is employed by the Cummings Construction Co. All wish Mr. Carlton, who succeeds Mr. Webster much success in his new work.

James Scott is at his camps getting ready for the summer season.

Miss Deedie Skolfield is the guest of her sister, Mrs. W. D. Quinby for a short time before taking up her duties as head waitress at Pickford's Camps, where she has been employed for the past four seasons.

Mrs. Addie Richardson left Monday morning for a visit with relatives at Auburn.

Fred B. Colby, Jr., is riding a new bicycle.

Mrs. A. D. Tibbetts and Mrs. Fred Hinkley are at work in the post office for the summer.

Drs. Colby and Ross operated on

the little son of Herbert Wilbur Tuesday, removing his tonsils and adenoids.

Mrs. George M. Esty has returned home after spending the winter with relatives in Massachusetts.

It is rumored that two of our well-known Rangeley ladies while on their annual trip to Portland "got lost" or missed the train and were obliged to prolong their visit.

Mrs. E. I. Herrick and Mrs. Alvah Sprague returned from Portland Monday night. Their sister, Mrs. E. T. Hear, returned Saturday night.

Arthur Graffam and son were in town Saturday, bringing in a Ford car for J. B. Tomlinson which was purchased by Mr. Tomlinson last fall.

Mrs. W. S. Marble, Miss Dorothy and Mrs. Willoughby have arrived at the Lake House for the summer. Miss Ruth will not come until June 17th at which time her school will close.

Mrs. Albert Carlton and son have gone to Kennebago, where Mr. Carlton will be employed by the P. Richardson Co.

Mrs. Everett Ellis and daughter of Stratton were guests the past week of Mr. and Mrs. Wm. Ellis.

Mrs. Mary Haines returned home Monday night from Laconia and York Camps, where she has spent the winter with her daughters, Mrs. Prescott and Mrs. Moulton.

W. E. Tibbetts and son, Payson are home from Boston, where Master Payson has been receiving treatment for his arm.

F. L. Marchetti is installing a fine new soda fountain which he recently purchased of the American Soda Fountain Company.

Don Hear, Karl Oakes, Theron Porter, Richard Wilbur, Richard Herrick, Eddie West, Arno Spiller, ac-

companied by Rev. H. A. Childs and Olin Rowe attended the Boys' Conference at Wilton.

A large delegation from the K. P.'s and Pythian Sisters attended church in a body Sunday and listened to a very interesting sermon by Rev. H. A. Childs. The church was attractively decorated with potted plants and special music was provided.

This week is being observed as clean-up week. The prizes will be awarded next Tuesday and are now on exhibition in J. A. Russell's window.

Ice left Rangeley Lake May 8th and the Oquossoc was launched Tuesday. No large fish have been caught as yet, but the anglers are all busy and "jacking worms" is a favorite occupation.

JONESY GETS EVEN

Jonesy once attempted to upset all the traditions of trapshooting by trying to break blue rocks with buckshot. It is needless to say that his efforts were not a success, from Jonesy's point of view. He had his suspicions as to who the guilty party was, and as he likes a joke (of the other fellow) as well as any person, he began to cast about for a way to get even.

In private life Jonesy peddles such staple articles as lumber and machinery. It wasn't long after the buckshot episode when along came a mill-work salesman who happened to be a devotee of trapshooting. The buckshot deal was mentioned and revenge hinted at. After a short pow-wow they agreed upon targets made of tough old oak. The salesman offered to have them made at the mill right away.

The First Trial Unsuccessful

In about a week they arrived at the scene of operations, and Jonesy couldn't wait until he had tried them out. He had to swear Jelmer to secrecy and tip his mitt before he could get hold of the key to the trap-house, but all things are possible to a diplomatic cuss, especially when the said d. c. has an ax that needs grinding. When they tried them out the new-fangled targets were not a success. Some turned bottom side up, some sailed edgewise, some went straight up, some went straight down.

Was Jonesy discouraged? Not so you would notice it. He immediately applied his gigantic intellect to the task before him, and after prodigious reflection discovered that the wooden targets were not heavy enough. After a number of disastrous experiments he solved the difficulty by springing a heavy piece of wire into the inside of the target, after which the trap would handle it as well as a clay target. It took a week of his spare time, but he finally got eighteen targets that would come out of the trap nice enough to fool even Fred Gilbert himself.

Jonesy and Jelmer then rigged up things so that Jelmer would load the trap and Jonesy do the pulling. When Jonesy slammed the lever back hard it meant wooden target.

In the language of Bobbie Burns, "The best-laid schemes of mice and men gang aft agley," etc. The owner of the particular scalp that Jonesy wanted seemed suddenly to have lost all interest in trapshooting. This might have soured the disposition of most men and tempted them to take a pot shot at the rest of the gang; but not so Jonesy. He had his gun all loaded and primed for a certain Shanghai rooster, and he wasn't going to waste ammunition or scare the flock by banging away at the nearest game. Furthermore, he was going to get even if it took the rest of his natural life.

The summer passed away with Jonesy actively engaged in watchful

waiting. Autumn came and the hunting season opened up. This put a severe crimp in the calculations, as no one in this neck of the woods does much trapshooting while there is better game in sight. Finally it got to be winter, and in due course of events spring, and no revenge, but Jonesy was still on the job.

About the middle of March a powder salesman blew into town, and with the idea that it might entertain him, the gang organized for a little shoot to take place that afternoon. Great was Jonesy's joy when he learned that the Shanghai was going out. The Jones auto was out of repair, so he tried to talk Doc Waddle into going. Doc thought he was too busy, so in order to get him to go Jonesy had to tell him what was up. That settled it, and Doc went to the shoot.

The Shanghai who had been picked for slaughter was one of those chaps raised with a shotgun in his hands, and while no world beater with a trap gun, was well able to take care of himself on any kind of feathered game, his specialty being pass shooting on ducks. At the traps he was just an ordinary good shot.

The gang got ready to shoot. Jelmer offered to load the trap, Jonesy offered to pull, and we were off in a bunch. About four targets were missed before the Shanghai began to show signs of peevishness and spit out his cad. At about the sixth miss he took a fresh chew, and repeated this operation at miss No. 8. About the tenth he observed, "I guess I'd better be a little careful or I'm liable to have an accident and break one of those damned things." Except for Doc trying to laugh himself to death, the rest of the string was shot out in silence, and lots of it.

The Victim Investigates

As soon as the Shanghai finished shooting he fished out his jackknife and began investigating the shell question. Of course he found nothing wrong, so he looked his gun over carefully, finding it O. K. as well. In fact, he was as busy as an old hen trying to scratch for a whole incubator full of chickens, and the more he looked the less he found. He was too mad to talk, and as he has something of a reputation for sarcasm, and generally gets rather personal in his remarks, no suggestions were offered by the citizens there assembled.

It must be admitted by all concerned that Jonesy's labors were greatly enjoyed by the entire company except one. That one remarked:

"If I had a ten-year-old kid that couldn't shoot better than that I'd kick the stuffin' out of him. I know there's something wrong, but darn me if I can find out what it is."

Did Jonesy get even? Well, you just bet.—F. Oliver in The American Shooter.

FISH AND DOGFISH

So many inquiries are almost daily made among the scores of State House people as to the nature of the legislation now before Congress relating to experiments for the extermination of the dogfish along the Atlantic coast that the text of the bill recently passed by the Senate is herewith given.

Sec. 1. That the Commissioner of Fisheries be, and he is hereby, authorized and directed to conduct investigations and experiments for the purpose of ameliorating the damage wrought to the fisheries by dogfish and other predacious fishes and aquatic animals.

Sec. 2. That the said investigations and experiments shall be such as to develop the best and cheapest means of taking such fishes and aquatic animals, of utilizing them for economic purposes, especially for food and to encourage the establishment of fisheries and markets for them.

Sec. 3. That the sum of \$25,000, or so much thereof as may be necessary, is hereby appropriated, out of any money in the treasury not otherwise appropriated, to enable the Commissioner of Fisheries to carry out the provisions of this act, the same to be immediately available.

The above measure has the united support of the entire Maine delegation in Congress and has been approved by the United States Bureau of Fisheries, so that it looks as though it would become a law and operative this season. Headquarters of the investigating force will be at the United States hatchery at Boothbay Harbor, Me.

MOOSE GETTING NEIGHBORLY

The same tame moose which visited Waltham a few weeks ago, was making calls in Eastbrook last week. Wednesday night, when returning from work, Grafton Googins and David Wilbur found her beside the road, and drove her up to Wilbur's. While she was standing beside a wire fence, she rubbed off the bell that Wilson Googins, of Waltham, put on while she was there. Mr. Wilbur got a horse bell; one much larger, and they put that on her, drove her through the neighborhood, and then let her go back to the woods. Unless someone ties her up, or breaks her to a plow, it is feared she will be too neighborly for the good of the gardens in the vicinity.—Edswarth American.

SOME STORY!

Jim Eye, Jr., of Moose Pond, Harmony village during the heavy snow-week's Rockland Opinion with the following:

A queer thing happened at Harmony village during the heavy snow storm of April 9th. A man from Guilford started on horse back to go to St. Albans. The storm kept growing tougher and finally night came on and he could not see a house or any place of shelter but saw a stub sticking up out of the snow about two feet and making sure it was solid, he threw his bridle rein over it and put a blanket over the horse and lay down for a nap. During the night there was a sudden change in the temperature and the snow all melted off and when he awoke next morning he was lying on the steps of the new church and his horse was hanging on the steeple.

FUNERAL OF H. H. ROELOFS

Retired Manufacturer Who Died in Buenos Aires Buried Here.

The funeral of Henry H. Roelofs, retired hat manufacturer, of Philadelphia, Pa., who died March 28th at Buenos Aires, was held from St. Paul's P. E. Church, Elkins Park. Services were conducted by the Rev. J. Thompson Cole, the rector. The honorary pall bearers were Joseph E. Widener, George W. Elkins, Charles E. Barney, Thomas E. Shoemaker, James D. Rowland, Allen Butler, Henry M. Watts, Horace Ervien, Caleb F. Fox, George W. Long, Daniel B. Wentz, Richard Tortin, Jr.

Mr. Roelofs was born March 24, 1849, and retired from active business in 1914, since which time he has been travelling with his sister, Mrs. Berthe Roelofs, who brought his body home with her from Buenos Aires, arriving on May 2. Mr. Roelofs' residence was at Rydal, Montgomery county.

A friend of Mr. Roelofs sent the above clipping to Maine Woods.

DOUBTFUL ABOUT DOGFISH

Editor of the Bangor News:— I see by the Bangor News that Senator Johnson has had passed by the U. S. Senate a bill to appropriate \$25,000 towards the extermination of dogfish. Mr. Johnson shows good judgement in asking for a small appropriation, because it will be just as effective as if the amount was \$25,000,000,000. If Uncle Samuel undertakes to eradicate the dogfish evil he has a big contract ahead of him. From my experience I do not believe that a very large percentage of them ever get in our bays. On several occasions I have seen thousands of them come to the top of the water after one bucket of refuse thrown overboard from a vessel, sometimes many miles out of sight of land. When they get in on the fishing grounds whether it is trawl or weir fishing they are certainly a pest as one correspondent calls them but they don't call every season and partly for this reason would be hard to exterminate. I have heard many men discuss this question but the only plan suggested by them was the bounty plan which to me looks like trying to deplete the U. S. Treasury and, then have some dogfish left.

Yours very truly, Skeptic.
J. H. Curtis.
Dennysville, Me.

LAD FALLS INTO SANDY RIVER

Repairs to Be Made on M. E. Church---Horse Takes a Lively Turn.

(Special Correspondence.)

Strong, May 9.—Mrs. Mae Ninde spent last week with her sister, Mrs. George D. Ninde and family in Cambridge, Mass.

Mr. and Mrs. C. O. Sturtevant, sons Frederick and Francis of Farmington, Mr. and Mrs. J. F. Savage and Miss Savage of Fairfield were in town Sunday and called on friends.

C. B. Richardson was in Portland last week on a business trip. During his trip he made a short visit with his cousins, Ed and J. F. Ward in Brunswick.

Mrs. E. F. Look has returned to her home in Eustis. Her friends are glad to know she is recovering nicely from her recent surgical operation, which was performed at Dr. Bell's hospital.

Mrs. Ella G. Dow was a caller in town one day last week en route for her home in Phillips.

Mr. and Mrs. Bradford Beal and children spent Sunday with his parents in Phillips.

What came near being a sad accident happened one day last week when the school children were playing ball near the High school building. The ball rolled down over the bank and Monroe Hunt, a little boy about ten years old, started down the bank after it. When he got to the edge of the river he either slipped or was going too fast to stop and fell into the river where the water was about ten feet deep. Luckily the little fellow caught hold of a floating log and just as he was being carried into the current Burchard Look and Ralph Eustis jumped into the water and brought him to shore. Besides his fright and being badly chilled he was none the worse for his cold bath.

Mrs. Edgar McPhail was in Lewiston one day last week on a business trip.

The friends of Mrs. Herbert Cook are sorry to know she is very ill.

The Methodist church contemplates a scheme of repairs, which will include new floor, new pews, new roof and interior decorations, also a new organ. When completed it will be a beautiful place of worship, and all seats will be free.

Mr. and Mrs. F. W. Look were in Farmington on business Tuesday.

Rev. John Dunstan, Galen Eustis and Leslie Dunstan attended the Boys Conference held at Wilton and report a good time.

The Boys' Sweet Corn Club is likely to be of great interest during the summer, with the prospect of winning a prize and a free trip to Portland in December. The twelve boys who have entered will have an exciting contest.

Charles Nickerson of Farmington is in town doing some house wiring for the Franklin Light and Power

TELLS WHAT SHE THINKS

Anna Hawn, Cedar Grove, Mo., writes: "We think Foley Cathartic Tablets are the best liver pill we ever got hold of, as they do not nauseate or grip, but act freely on the liver." Recommended for constipation, bloating, sour stomach, gas on stomach, bad breath, clogged or irregular bowel action. Floyd E. Parker.

Company.

Mothers' Day will be held in the Methodist church next Sunday with appropriate addresses at each service. Everybody come in honor of their mother.

Mr. and Mrs. Thaxter Cook of Farmington were in town the first of the week.

Mrs. Fred Stevens was in the post office during the absence of the postmaster, Mrs. Rena Bates, who spent the week in Portland.

Mrs. C. V. Starbird and son, Raymond were in Phillips the first of the week, the guests of Warren Hinds and family.

A lively runaway was witnessed Monday night on Main street, when a horse belonging to Percy Cook, which he had left in front of the post office, started and walked until it came in contact with a hitching post in front of McLeary & Leighton's store. Then the horse began to run and kick until the wagon and harness were nearly demolished. The horse was caught on upper Main street, and after some repairs were made Mr. Cook was able to get home.

Walter Bradford was in Farmington Monday afternoon.

Charles Gilman has exchanged his farm with Earle Brackley for his stand. This week the families have moved and are nicely settled in their new homes.

Herbert Bradford and Ralph Nelson of Farmington were callers in town Tuesday.

Benjamin Dodge moved his family from Edgar McPhail's rent to his farm at West Freeman.

Zelma Orcutt spent Sunday with friends in town. She returned to Farmington Monday morning.

Mr. and Mrs. Lee Peary have moved to their home in Phillips for the summer.

Mr. and Mrs. Whiting L. Butler, son Glenn and Mrs. Lona Wilkins of Farmington were callers in town Sunday.

Mrs. E. R. Sprague has returned from market with her line of select millinery.

OBITUARY.

ISAIAH WILCOX

Isaiah Skiffings Wilcox was the son of Charles Wilcox and the grandson of Daniel Wilcox, one of the pioneer settlers who came from Bristol County, Massachusetts when this locality was a forest primeval with scattered log cabins and no roads. He settled on the west side of Voter Hill. Before coming to Maine he had married Cynthia, daughter of John Voter, a Revolutionary soldier, who was the first settler of Voter Hill which overlooks New Vineyard village and which was named after him.

ECZEMA CURED OR MONEY REFUND.

This guarantee goes with every box of Dr. Hobson's Eczema Ointment. Makes no difference whether it's a baby, child or aged. No matter how long standing the case the guarantee holds good. Cut out this strip, go to your druggist, get a box of Dr. Hobson's Eczema Ointment, use it as directed and if you are not fully satisfied, the druggist or maker will refund your money. Try it just once, you will be happily surprised.

The Kidneys and the Skin. If the kidneys are weak or torpid, the skin will be pimply or blotchy. Hood's Sarsaparilla strengthens and stimulates the kidneys, and clears the complexion. By thoroughly purifying the blood it makes good health.

Daniel Wilcox had seven children, the youngest of whom was Charles, the father of Isaiah.

Charles Wilcox married Hannah, daughter of Isaiah Skiffings. He moved on the farm which was first cleared and settled by his brother and where his son, Isaiah has always lived. In this place, which is a spot of natural beauty, he erected an attractive and ideal home.

He had two children, Isaiah and Emily. The last named was the first wife of William Barker of New Vineyard and their son, Almon Barker, is a partner of a wholesale store in California.

Isaiah, the deceased, was born July 25, 1851 in New Vineyard, Me., and died April 14, 1916.

He was married July 4, 1880 in New Vineyard to Mary B., daughter of Joseph and Margaret (Look) Mitchell.

He began driving a team on the road when 15 years of age and contracted Bright's disease. He bore with

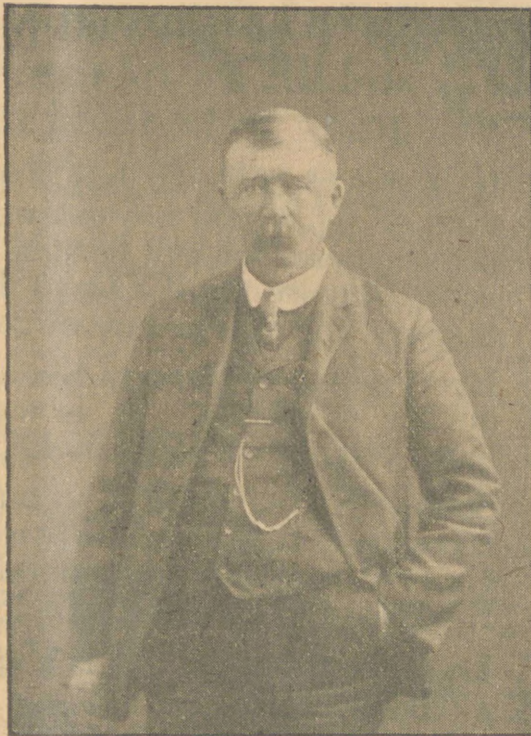

ful and hopeful to the end.

The funeral services were held at the home April 16th and were attended by Davis Masonic Lodge of Strong and by Lemon Stream Grange of New Vineyard. Rev. Mrs. Johnson, a member of the Farmington Grange, gave an exceedingly beautiful and appropriate sermon. The floral tributes: Monument of pinks, Davis Masonic Lodge; crescent of flowers, Lemon Stream Grange; pinks, Mrs. Nellie Turner, Mrs. Genry Proctor, Mrs. Archie Hady and the family.

The remains were interred in the family lot in the old village cemetery at the Hackett Notch.

ELKANAH DUDLEY DURRELL

Elkanah Dudley Durrell, son of Ira Gould Durrell of Kingfield and Lucy Ann Fessenden of China, was a descendant of the early settlers of Kingfield, his grandfather, Nathaniel Durrell, coming here from Leeds on horseback by spotted trail. In his father's family there

ISAIAH WILCOX

great fortitude and patience his long illness, never complaining, but cheerful. He suffered a shock November 7, 1914, the effects from which he never recovered, and which terminated his life for 35 years, the last seven of which was for Eugene McLain, making several trips to Farmington each week.

He was a member of the Davis Masonic Lodge of Strong, which he had but recently joined, and also of Lemon Stream Grange of New Vineyard. He served as Master two years in the last named lodge, and it was during that time that funds were raised for the Grange hall. He was always a loyal member, using his influence and much of his time for the good of the order. He had also filled other important offices in the Lemon Stream Grange and in the North Franklin Pomona Grange.

He was a loyal and public-spirited citizen, an ideal man in the family. His high moral character, his genial manner and his kindness and sympathy won him the love and respect of all.

KEEPING UP TO THE MARK

"Spring fever" is not always a joke. If you feel dull and sluggish, tired and worn out, suffer from backache or weak back, rheumatism, sore muscles, stiff joints or other indication of kidney trouble, it will pay you to investigate Foley Kidney Pills. They are highly recommended as prompt and efficient aids to health. Floyd E. Parker.

HAS A GOOD REPUTATION

The original and genuine Honey and Tar cough syrup is Foley's Honey and Tar Compound and because this has given such universal satisfaction and cured so many cases of coughs, colds, croup and whooping cough there are imitations and substitutes offered to the public. Insist upon Foley's. Floyd E. Parker.

A COMBINATION THAT WORKS WELL

Doing Great Good This Spring.

A superlative blood-purifying medicine like Hood's Sarsaparilla, combined with a superlative iron tonic like Peptiron Pills, makes the ideal Spring Medicine.

No other medicine possesses such curative properties as these two restoratives working together.

They reach the impure, impoverished blood, and the run-down, exhausted system. They awaken the appetite, aid digestion, purify and vitalize the blood, give renewed strength to the whole body, produce sound, natural sleep, and a complete restoration to good health,—the greatest of all earthly blessings. Two dollars invested in these two medicines will bring better results than four dollars spent in any other course of treatment or attendance.

It is wise to get Hood's Sarsaparilla and Peptiron Pills today.

and four grandchildren, Barbara, Velma, Gibbs and Edward Benson, besides many cousins living in town.

Mr. Durrell joined the Baptist church here when a young man and was always interested in its welfare. He was a much respected citizen, one of the leading farmers of the town, and in politics a Republican. His loss will be mourned by the community at large.

The funeral services were held at the Baptist church Sunday at 11 o'clock in the forenoon, Rev. C. J. Longley officiating. Music was furnished by the Baptist choir. Interment was in the family lot in Sunnyside cemetery. The floral tributes were many.

The two brothers, Isaac and Elkanah Durrell were never separated with the exception of three years when Isaac was in the army, Elkanah being too young to enlist, much to his sorrow. They lived on adjoining farms, always worked together and died within five months of each other.

ARE YOUR KIDNEYS WELL?

Many Phillips People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work night and day. Well kidneys remove impurities. Weak kidneys allow impurities to multiply. No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, If you are nervous, dizzy or worn out, Begin treating your kidneys at once; Use a proven kidney remedy. None endorsed like Doan's Kidney Pills. Recommended by thousands. Proved by Phillips testimony. Mrs. E. A. Kennedy, Phillips says: "My back pained me constantly for six months and was very stiff and sore. I was tired most of the time. On a friend's advice, I got Doan's Kidney Pills. After using two boxes, the pains and tired feeling left me. Doan's Kidney Pills have my highest endorsement."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kennedy had. Foster-Milburn Co., Props., Buffalo, N. Y.

DON'T be satisfied just to say "Oh, yes, and fill my oil can." Know what it's going to be filled with.

It is now possible to buy kerosene *by name* and be sure of what you are getting. From now on, our kerosene product will be sold under the trademarked name Socony (So-CO-ny) Kerosene Oil. Ask for Socony and you're sure of getting the best.

Every gallon of Socony Kerosene conforms to definite quality standards. It is water-white in color, and burns cleanly without smoke, smell or wick-crust.

Socony Kerosene Oil is so much better than ordinary kerosene that it is decidedly worth asking for by name. Grocery, hardware and general stores which sell Socony Kerosene Oil all display the Socony sign.

Look for this sign. It is a quality sign—the sign of a reliable dealer.

We recommend the following oil burning devices as the best of their kind: *New Perfection* Oil Cookstoves and Water Heaters, *Perfection* Smokeless Oil Heaters, *Rayo* Lamps and Lanterns.

Mr. and Mrs. Fred McLaughlin and Miss Cora visited at Ralph McLaughlin's Saturday night and Sunday.

Miss Hortense Voter spent the week-end with her parents, Mr. and Mrs. Geo. Voter at Phillips.

The Oberlin League met last Thursday with Mrs. Edgar Welts. It will meet May 17th with Mrs. J. H.

MORE MEN THAN WOMEN HAVE APPENDICITIS.

Surgeons state men are slightly more subject to appendicitis than women. Phillips people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-ika, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-ika is surprising. E. H. Whitney, druggist.

Welts.

Ezra Wheeler has sold the standing lumber on the Ira Wing place to Evan Webber of Madrid.

R. E. McLaughlin has sold his spruce and fir pulp wood to Byron & Carlton of Phillips. Fred Toothaker has taken the job to cut and peel it and has moved his family into the rent in N. D. Wing's house.

Jack Manette and Roger Thomas have taken a job cutting pulp and are boarding at Fred Toothaker's.

Bert Brawn is at work for R. E. McLaughlin for a few days.

REED'S MILL.

May 8.

There was a good attendance at church Sunday and we had the pleasure of listening to an excellent sermon from the parable of the sower by our pastor. There will be no preaching service next Sunday as stated last week. Owing to circumstances the date has been changed to the 21st of May when, if nothing happens to prevent, Miss Leathers will be with us. Next Sunday there will be a social service and Sunday school at the usual hour.

Miss Leathers was a guest of Mrs. Ida Webber and family Saturday night and Sunday.

Mr. and Mrs. F. H. Hathaway went to Farmington Friday, returning home Saturday night.

CUT THIS OUT—IT IS WORTH MONEY.

You will receive in return a trial package containing Foley's Honey and Tar Compound for bronchial coughs, colds, and croup; Foley Kidney Pills, and Foley Cathartic Tablets. Floyd E. Parker.

NOTES FROM
KINGFIELD

Work on the Concrete Bridge to
Begin Next Week.

(Special Correspondence.)

Kingfield, May 8.—A quiet wedding took place Thursday, May 4, at 2 o'clock p. m., when Miss Erma Sarah Norton of North New Portland and Addison Nudd Williams of Kingfield were united in marriage by Rev. Irving Towsley, pastor of Grace Universalist church, using the double ring service. The ceremony took place at their future home in the Thompson cottage on the island which has just been completed and furnished this week for their occupancy. The bride is the only daughter of Delmont and Florence (Berry) Norton of North New Portland and has always resided there. She graduated from the North New Portland High school as valedictorian from Hebron Academy in 1909, being a member of the Alpha Society of that institution and a student in Farmington State Normal school for one year, fitting herself for a public school teacher which profession she has followed with marked success for six years in her home town. She is a member of New Century Rebekah Lodge of New Portland and of the recently organized young ladies' golf club at North New Portland. Mr. Williams is the son of Charlie and Ella (Barker) Williams of New Vinayard where he passed his youth. He graduated from the Seaboard High school, class of 1908, attended the Massachusetts College of Pharmacy and passed his examinations before the Maine State Board of Registration of Pharmacy in February 1916. He has been in town for a year as clerk for L. L. Mitchell in whose employment he will continue for the present. The bridal couple are well-known here and in New Portland and both are popular and highly esteemed. The best wishes of their many friends in this vicinity are extended to the young couple for a long life of much happiness.

The annual parish meeting of Grace Universalist church was held at the vestry Tuesday evening, May 4, and officers elected as follows: Moderator, O. C. Dolbier; clerk, Mrs. J. E. Votter; treasurer, Mrs. Florrie Simmons; trustees, Dr. O. W. Simmons, J. L. Eldridge, L. L. Mitchell, A. C. Woodard; delegates to the State Convention, Mrs. Florence Simmons, Mrs. Augusta Parker, Mrs. Lizzie Wilkins; alternates, Mrs. L. L. Mitchell, Mrs. Irving Towsley, Mrs. O. W. Simmons. At this meeting action was taken to build a parsonage and a committee appointed consisting of Mrs. Florence Simmons, Mrs. Irving Towsley, Mrs. Lizzie Wilkins. A subscription paper was started to add by money, material or work to the fund already on hand.

Newell Batchelder opened the Kingfield garage this week. Miss Hazel Leard of Portland, a college friend, is the guest of Mrs. J. E. Cartland. Tuesday afternoon Mrs. Cartland gave a tanning party in honor of her guest. Those present were Mrs. Myra Chamberlain, Miss Hilda Huse, Miss Bernice Williamson, Miss Lena Page, Miss Shirl

Painful, annoying bladder weakness usually indicates kidney trouble. So do backache, rheumatism, sore, swollen or stiff muscles or joints. Such symptoms have been relieved by Foley Kidney Pills. Henry Rudolph, Carmi, Ill., writes: "Since taking Foley Kidney Pills I sleep all night without getting up." Floyd E. Parker.

ley Merchant, Miss Marion Plummer. Chafing dish refreshments, cake, cookies and coffee were served.

The monthly meeting of the Chamber of Commerce was held Monday evening. The several Centennial committees not being ready to report, an adjourned and special meeting was appointed for Monday evening, May 15. E. E. Sanders and T. S. Garland of the Sanders Engineering Co. of Portland, contractors for the new concrete bridge, were guests of the Chamber and were entertained socially.

Frank Lander has moved to the upstairs tenement in the Minerva Stanley house and Fred Page, who recently bought the Lander stand, moved in this week.

Frank Lander was at Strong and Farmington Tuesday.

Principal L. P. Hosley, with the aid of the High school boys, planted about two dozen shade trees Monday and Tuesday nights on the grounds of the Stanley High school.

Arrangements have been made to begin work on the new concrete bridge next week. The town, under the direction of the selectmen, will build a temporary bridge which is to be located above the old chain bridge between the island and the old cemetery.

The ice was out of the lower part and along the sides of Tufts pond Sunday, April 30, and without doubt the warm temperature and wind of Tuesday cleared the pond.

A Maybasket was presented to Principal L. P. Hosley by about 30 pupils of the Kingfield High school Tuesday evening.

Mr. and Mrs. E. E. Jenkins returned Tuesday from California, where they have been passing the winter.

RUSSELL'S MILLS

May 8.

Miss Martha Marden has just closed a very successful winter's school at Moore's Siding, Lake Moxie, and returned home. Monday she left for Bigelow where she will teach a spring term.

Leon Briggs of Waterville is at work for Mr. Gates on the Lorch Farm. Mr. Briggs caught a fine salmon at Varnum's Pond one day recently.

Walter Prescott was the guest of Walter Holley on Sunday.

Miss Bettie Marden, who has been doing substitute work in the North Grammar school at Waterville, is expected home Wednesday.

Mrs. Carrie Staples has been visiting friends at West Farmington.

Mr. and Mrs. Stephen Deane and sons were the guests of Mr. and Mrs. Ralph Stevens on Saturday.

Carroll Jones has been at work for F. Pearle Nickerson.

EAST NEW PORTLAND

May 8.

Mr. and Mrs. F. G. Emery and two boys and Mr. and Mrs. A. H. Adams and two children spent Saturday and Sunday at Lake Hancock. They secured a catch of seven togue,

PHILLIPS PEOPLE GET INSTANT ACTION.

Those who have used it in Phillips are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-I-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. E. H. Whitney, druggist.

the largest weighing four pounds.

Mrs. Minnie Walker recently spent a week with relatives in Canada.

Mr. and Mrs. Asa Adams are guests of Mr. and Mrs. A. H. Adams. Mrs. Adams has engaged to cook in the sporting camp at Jim Pond for Green Brothers this summer.

A. F. Dougan's truck auto was in town Monday with a large load of furniture.

Mr. and Mrs. W. S. Safford and two daughters spent the Sabbath at G. C. Safford's.

Frank Ellingwood of Rumford spent the week-end at H. A. Emery's. Mrs. Ellen Clark had an ill turn recently, but has so far recovered as to be about the house.

Mrs. Abbie Hutchins spent the day Monday with Mrs. Susie Adams.

ARE WELL
SATISFIED

Landowners Praise the Work of
Forest Commissioner Mace.

State Forest Commissioner Frank E. Mace has just returned from two meetings of timberland owners and wardens for the discussion of forest problems, held at Bangor and Houlton and finds that the landowners are well satisfied with the work of last year under his direction. In both places the warden list was gone over and recommendations made.

At Houlton conditions along the northwestern boundary was taken up where it was learned the settlers there continue to burn early to clear the land, causing great risk along the border. An attempt will be made to secure co-operation between the Maine and Canadian authorities in putting a stop to this dangerous practice.

The matter of the very bad slash situation in Lamaine has been taken up by Commissioner Mace with the United States Forestry service in the hope of securing co-operation. The Maine department has been notified, however, that while the federal government would be glad to contribute for patrol service or other fire protective work which might include slash disposal, the federal government would not be disposed to allow federal funds to be expended for one particular lot of slash and no other work in that vicinity.

ICE OUT OF
WEBB LAKE, WELD

Weld, May 4.—The ice commenced to loosen up in Webb Lake at Weld last Saturday, but the final break-up was on Sunday.

There has been no fishing to our knowledge as the big booms of logs have kept things pretty well stirred up.

The boat house of Commissioner H. B. Austin on the west shore was pretty badly damaged by the ice.

IN FAVOR OF
RESIDENT LAW

Houlton, Me., May 3, 1916.

To the Editor of Maine Woods:

I noticed in your issue of the 13th, where Fly Rod said she wanted to start a discussion in relation to the resident license law.

Asking for a little space in your paper, I will say I favor the so-called resident license law passed in

PURITY GIVES POWER.

There are still many persons in the world that need to be impressed with the fact that the purer the blood is the greater is the power of the system to remove disease and the less the liability to contract it. Persons whose blood is in good condition are much less likely to take cold or to be long troubled with it, or to catch any contagious or infectious diseases, than are those whose blood is impure and therefore impoverished and lacking in vitality. The best medicine for purifying the blood is Hood's Sarsaparilla, and persons suffering from any blood disease or any want of tone in the system are urged to give this medicine a trial. It is especially useful at this time of year.

some form. I favor the passage of such a law for many reasons, but I see no chance for a discussion of the merits of the law until someone, who doesn't approve of the law gives some reason why he opposes it. D. L. Cummings.

WEST FARMINGTON

Grass has begun to look green and the Ellsworth Bros. have driven their young stock to pasture.

Ralph Ellsworth has made quite a lot of maple syrup which is very fine as your correspondent can testify.

Mrs. Leo Hunt started for the hospital in Lewiston Monday. Mr. Hunt and the oldest boy will remain at home and keep house and the younger boy will stay at his grandfather's, Mr. S. Ranger's, at East Wilton.

Mr. and Mrs. Haines visited their daughter, Mrs. Luce last Sunday in Strong. They went in their auto.

Bert Hardy has been fixing over his auto with a new body so that he can carry his milk.

Ralph Ellsworth is suffering with neuralgia and rheumatism.

Doris Hardy, who has been at home from school with a cold, is so much improved that she has resumed her studies.

Chas. Hardy had quite a sick turn and was threatened with appendicitis, but is much better at this writing.

Mr. Nutting has been assisting Ruel Goodwin with his farm work.

Mrs. Mary Norton, who has been spending a few weeks with her daughter at Temple, has returned home but is in poor health.

Mr. Goodwin's uncle is making him a visit.

The Red schoolhouse circle met with Mrs. Bert Hardy last Tuesday.

Mr. Burbank is very feeble and seems to be failing.

Erno'd Niles and family and Ed Jackson of Temple visited at Ralph Ellsworth's last Sunday.

This community was saddened to learn of the death of David Averill of Wilton.

Mrs. McClary is going to move to the village and her son, Robert, will live on the home farm.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

C. E. DYER,

STRONG, - - MAINE.

IN AND ABOUT PHILLIPS

A regular meeting of North Franklin Pomona Grange No. 22, P. of H., will be held at Grange hall, Strong on Thursday, May 18, at 10 o'clock in the forenoon. Picnic dinner.

J. A. Norton, Sec.

Much repair work has been done on the line of the Phillips and Rangeley exchange line of the Maine Telephone & Telegraph Company. Many new machines have replaced the old ones and a general repair work done. M. M. Masterman of Wilton and James Spencer of Rangeley are the workmen.

The Christmas Present club will meet in two weeks with Mrs. H. W. True.

Miriam Brackett will go to Brunswick Friday of this week where she will be a guest at the D. U. House and attend the dance given by that fraternity of which her brother, J. Scott Brackett is a member. The Misses Elise Vinal and Ann Oswald of New Bedford, Mass., will also be guests at the House. On Saturday the track meet will be held after which the D. U. boys with their guests will enjoy a shore dinner at New Meadows Inn.

Harold Libby is moving his family this week into the rent over George Bean's store on Main street, which he has rented of C. E. Parker.

Mr. and Mrs. Selden Keene have commenced the improvements on their residence on Main street. They already have the roof raised and will have some nice rooms when finished.

H. H. Field was in Boston this week on a business trip of a few days.

Local favorites in the "Country Minister" at Lambert hall, Friday evening of this week. Don't miss seeing them.

There will be a dance at the Grange hall next Saturday evening. Good music.

We are pleased to see Mrs. Nathaniel Toothaker able to take an auto ride after her several weeks' illness.

Frank S. Haley, agent for the Maxwell car, is doing a flourishing business thus far this season. He has delivered cars to Bonney Webber, A. S. Beedy and Wilks Leavitt.

Miss Cornelia T. Crosby went to Rangeley Monday night, where she will be employed in newspaper work as in past seasons, and reporting the hotel and camp news for Maine Woods.

Miss Emma Russell will attend the track meet in Brunswick Saturday of this week. Her brother, Mason Russell, who is a student at the U. of M., will meet her there.

Clean-up week was observed last Saturday at the Union church and Parish House when several met for that purpose. The Camp Fire Girls did good work at the Parish House, cleaning the windows, etc. They contributed and made the window draperies which have recently been hung there. Messrs. M. S. Hutchins, U. S. Jacobs, Carroll Noyes and Henry Scamman raked up the yard, cleared away old fences, etc., and greatly improved the appearance on the exterior. Several who were unable to work contributed money to pay the expenses of hiring help. A picnic supper was enjoyed.

MILE SQUARE

May 9.

Mr. and Mrs. George Dunham and daughter, Ferris of Phillips were guests of Mr. and Mrs. L. B. Kinney over Sunday.

Annie Beal of Phillips visited her grandmother, Mrs. Ella Beal Monday.

Frank Crosby of Farmington was in town Saturday.

Henry Beal of Phillips is doing some carpenter work for John Dunham.

B. F. Beal of Phillips was in town Monday.

Mr. and Mrs. Dana Stinchfield and children of Phillips visited Mr. and Mrs. E. A. Peary Monday.

Clarence Huff is working for Linwood Beal.

L. B. Kinney is working on the road.

Monday night D. F. Field went to Farmington and drove home his new six cylinder, seven passenger Reo car. His friends are admiring it and pronouncing it a "peach."

Mrs. Hervey Vining went to the Central Maine General hospital in Lewiston last Friday for treatment. Mrs. Vining has been in very poor health for the last six months.

NORTH PHILLIPS

May 8.

Eugene Hinkley, who is working in Farmington, spent Sunday with his family.

Archie Byron of Wilton spent Saturday and Sunday with friends on Bray Hill.

Miss Cynthia Hinkley of Farmington was a guest over Sunday of Charles Smith and family.

Mr. and Mrs. Percy Voter and little son were guests last Sunday of Mr. and Mrs. Orlando Marden.

Mrs. Leonard Mecham is visiting her daughter, Mrs. Fred Kenniston.

Mr. and Mrs. Irvin Parker and Mr. and Mrs. Ernest Page were guests last Sunday of Mr. and Mrs. W. R. Hinkley.

Mrs. Mary Pickard and son of West Phillips were Sunday guests of Mr. and Mrs. Willard Moody.

Leslie Hardy of Madrid was a caller on Bray Hill one day last week.

WELD

May 8.

The ice went out of Lake Webb Monday, May 1st.

The drive on the Houghton brook was in the boom the first of last week, but the drive on the Bowley brook is not yet finished, as there were about 2,000 cords which made it necessary to have more than one boom.

The High school scholars held a dance at Conant's pavilion May night, the proceeds of which went to benefit the school ball team.

I. H. Buker was the guest of J. F. Sweetser in Avon last Friday.

Minnie Buker, who is teaching in Avon, was home over Saturday.

Halford Buker was home over Sunday.

The Weld High school ball team played with the Wilton Academy team at Wilton last Thursday. The score was 12 to 9 in favor of Weld.

Willis Searles was a guest at Jesse Whitney's Sunday.

Mrs. Jesse Whitney visited her daughter, Mrs. Bert Vining last Friday.

Mrs. Lena Pettengill and son, Raymond were callers at Mr. and Mrs. C. T. Sanborn's Sunday.

I. H. Buker has hired Willis

PILLS BEST FOR LIVER

Because they contain the best liver medicines, no matter how bitter or nauseating for the sweet sugar coating hides the taste. Dr. King's New Life Pills contain ingredients that put the liver working, move the bowels freely. No gripe, no nausea, aid digestion. Just try a bottle of Dr. King's New Life Pills and notice how much better you feel. 25¢. at your Druggist.

Phillips National Bank

PHILLIPS, MAINE

Capital \$50,000.00 Surplus \$50,000.00

THE ONE SURE WAY

to have money is to save it.

The one sure way to save it is by depositing it in a responsible Bank. The one sure way to find a responsible bank is to find one with an ample capital and surplus. Those constitute the depositors' PROTECTIVE Fund.

Our Protective Fund Is Ample. We pay 4 per cent interest.
