A. M. Devereux, of Castine, has in his possession the ship's articles of the schooner *Classia* and *Eliza* on a voyage from Boston to Castine, thence to some port on the West India coast, in 1802. The schooner was in command of one Matthias Ritter, Jr., master, and was manned by a crew of first and second mates, cook, ship's boy and three sailors, which in those days would be considered sufficient for a large three-masted vessel. The pay list is of interest, as compared with the present day, as by this paper the master received \$25 a month, the two mates \$22 and \$17, respectively, and the seamen \$12 a month, while the boy received \$4.50. The back of the articles shows a copy of the laws for the government of seamen in the merchant service, signed by George Washington, President; John Adams, Vice-President; and Thomas Jefferson, Secretary of State.

The largest single religious body in the United States is the Roman Catholic, with its reported communicant membership of 11,317,900—a gain, as compared with 1906, of 246,000. Next comes the Methodist Episcopal church, with its 3,056,657 communicants—a gain of 52,406. Dr. Carroll, who compiles the statistics, thinks it worth noting that there are 15,831 Methodist Episcopal ministers to 15,834 Roman Catholic Priests and 27,995 Methodist Episcopal (local) churches to about 12,482 Roman Catholic ones. The Baptists (all kinds) gained 162,358 members last year. Dr. Carroll's statistics show that the United States has 629,327 church members, 6,941 churches, and 5,923 ministers; Universalism with 52,621 church members, 910 churches, and 728 ministers; Dr. Carroll learns from an "authoritative source" at Boston that there are now 8,596 Christian Scientists, gathered into 668 local churches; the gain for the year (1907) was 4529 members, five churches, and ten readers.

The contract calls for 24 knots, but with the example of the battleship *Georgia* as an inspiration, the builders are hoping to see the *Chester* do much better. The *Chester* is the first ship of this type to reach the trial stage and there will be a good deal of curiosity to see her.

Birmingham, another ocean cruiser, built at Quincy, Mass. is due here for trial the first week in March.

Morris McDonald, the new vice president and general manager of the Maine Central Railroad, visited Rockland last week. He was accompanied by Mr. Hammett, superintendent of motive power; H. C. **IS ROCKLAND RUINED?**

It Is According To An Interview Published By a Massachusetts Paper.

A Worcester (Mass.) newspaper comes to hand with an interview with "Willis Marston of Rockland, Me." from which the following extracts are taken.

Mr. Marston remarked of his own city, that "the lime quarry industry which has been its mainstay since it has become a city is fast disappearing. The stringency of the money market has caused many men employed at these lime kilns to be thrown out of employment. The people thus left without employment are leaving the city as fast as they can, and the real estate owners are beginning to find it hard to rent their tenements."

"The board of trade of the city has long since remained inactive for the reason that it is composed of men who represent the wealth of the city and they are afraid to let a good company get in and do business. Last fall there was a good, reliable Massachusetts shoe manufacturing concern which wished to locate there, but had to give up the idea because they could not even secure a lease of land, much less lease a building. The company was willing to buy land outright, but was up against the board of trade, the members of which practically own every desirable piece of property in the city. This one man residential city idea has been the direct cause of the population going down from 12,000 to the present population of about 7000, and more are becoming dissatisfied with the city every day, and are seeking to better themselves elsewhere."

"Another example of the slack methods of our board of trade, the Mowry-Payson paint factory, employing about 300 hands, was burned out last year, and Mr. Mowry was unable to raise sufficient capital to resume operations, although the factory paid a dividend every year of its existence. These are two of the large industries that we have lost in our city, and you can judge for yourself that when two companies, one employing 300 and the other about 700 hands, are not in operation in a city the size of ours, that it is no wonder that the people are looking elsewhere to benefit their financial condition."

"The sign 'All is quiet along the water front' is hung over the business section of the city, and all there is doing in the city of any importance is the going and coming of the Boston boat daily. In the summer time we have the Samoset hotel in operation and that is quite a source of revenue to the business houses of the city, but the people of the city all have a chance to starve between now and the summer. My remarks may sound a trifle strong to the ordinary hearer, but all you have to do is to take a trip up there for yourself and you will find the conditions existing just as I have related them to you."

We don't know just how much Mr. Marston might have been intending to jolly the newspaper reporter, but we think the facts scarcely warrant giving our city such a black eye. The lime business is not only as active as usual at this season, but those engaged in the manufacture tell The Courier-Gazette that they are doing double the business usually done in mid-winter. The Massachusetts shoe concern was an entirely local matter so far as it related to Rockland. The board of trade heard that the concern was coming to Maine, and wrote with reference to a connection being made with our city. The manufacturer promptly replied that he never had any intention of locating in Rockland or anywhere else in Maine, which settled the matter. This rather disposes of the charge connected with "leaves" and "buying land." Rockland's "12,000 population" of the interview probably never was more than 8000 (the official census is 8150) and doubtless it varies but little from that figure at the present time—certainly the loss recently is trifling. No attempt has ever been made to re-establish the pants factory in the manner suggested above. A more abundant devoid-of-truth attack upon our city's character and business never was made than that printed in the Worcester paper, and we notice it in this manner because it furnishes another instance of the fondness which Massachusetts papers exhibit for attacking everything and everybody in Maine. We do not believe Mr. Marston said the things imputed to him. Possibly he suggested a thing or two and the fertile reporter did the rest. Mr. Marston is the steward of the local Aerle of Eagles and for several years has played bass in the opera house orchestra.

**NASH IS DEPUTY.**

George Nash of Megunticook Grange, Camden, has been appointed one of the instructing and inspecting deputies under State Master Sisson.

The American who has lately been arrested in England charged with having 500 wives may be said to exceed any hitherto declared record in the matrimonial connection outside the so-called barbarous nations. Dr. Witsoff is said to have achieved his excessive wedding victories through the instrumentality of hypnosis. Witsoff is a dentist of the parapsychic variety. Traveling from city to city, he adopted a varying disguise, and in his capacity as assistant in various dental offices he met many women. Bending over his patients in the dental chair, the young man whispered words of love in their ears, and seldom did he meet with reverses in his conquest of feminine hearts. He seems to have had a strong pull.

**YOUR FAVORITE POEM**

**On the Castle of Chillon.**

Eternal spirit of the chivalrous mind! Brightest in dungeons, liberty! show off, and free the old tradition in the heart. The heart which once of those who saw bind.

And when thy sons & fellows are consigned, To fetters and the damp vault's dayless gloom, Thy country comes to thee with mournful hymns, And Freedom's faint blue wings on every wind.

Chillon! the prison is a holy place. A holy place and altar, for 'twas there, Under a vaulted sky, that first was traced, And a holy shrine built to the sacred name.

Whereas if the cold prison walls were a road, By Rockland, May, one stone is a relic! For they appeal from tyranny to love. Byron.

## The Heart Can't Stand Rheumatic Acid Poisoning

To Free and Correct the Blood a Uric-O Treatment is Advised

There is great danger in those sharp, shooting pains through the chest around the region of the heart. It means that poisonous uric and rheumatic acids are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings; they are the danger signals Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Clears out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.

Your physician will admit that this is the best way to cure rheumatism permanently.

Should know that Uric-O is the one remedy that will do it quickly and permanently. Uric-O is a liquid taken internally, 3 times daily, and does not contain any morphine, opium or other so-called "pain dealers." It is good for Rheumatism in any form. Sciatica, Muscular, Inflammatory and Articular Rheumatism all yield readily to Uric-O.

It sells for 25c and \$1.00 the bottle or you can obtain a trial bottle free by writing to The South Warren Co., 261 Smith Bldg., Syracuse, N.Y.

Uric-O is sold and personally recommended in Rockland by Cyrus W. Hill.

## CAUSE AND CURE OF APPENDICITIS

THE SIMPLE REMEDY THAT EFFECTS THE CURE

Professor Blanchard of the French Academy of Medicine has spent a great amount of time studying that dread disease—Appendicitis. In company with Professor Metchnikoff, he has carefully examined numerous cases, and both have reached the conclusion that the cure is not the knife. In more than forty cases the symptoms of Appendicitis disappeared after the patients had been treated for worms.

There are, no doubt, many persons suffering from worms who are erroneously attributing their trouble to some other cause. A few doses of Dr. True's Elixir are sufficient in most cases for the complete expulsion of the worms.

The presence of these parasites is easily recognized by the following symptoms: Indigestion; foul tongue; offensive breath; variable appetite; hard and full belly with occasional gripings and pains about the navel; heavy, dull eyes; itching of the nose; short dry cough; grinding of the teeth; starting during sleep; slow and frequent bowels; children—convulsions and bed wetting.

Dr. True's Elixir will not only expel the worms, but will build up the whole system as well.

Dr. True's Elixir is used and endorsed by physicians and hospitals all over the country.

Read what Mrs. Joy, of Dr. True's Elixir:

CENTRE ABINGTON, MASS.

Dr. True—"I wish to inform you of the success I have had in using one bottle of your Elixir. I gave it to my children, and after the third dose one of them passed a long round worm. I also wish to say it is one of the safest and best medicines to have in the house for children. I would not be without it now." Sincerely yours,

Mrs. Henry C. Joy.

Dr. True's Elixir is sold by druggists every where. It is a safe and reliable remedy for all cases of Appendicitis, and is sold by druggists every where. It is a safe and reliable remedy for all cases of Appendicitis, and is sold by druggists every where.

Announces to the ladies who wish to buy for the coming season, that she has more than the usual number of samples (large enough to enable the purchaser to see what she is buying) of new dress goods from the reliable firm of Buckley & Jennings Co., importers and jobbers of dry goods, New York. These are samples of choice materials, not to be found in the dry goods stores. There is nothing in the line that is second class or that is an imitation. They are the best that the American, English, French, Scotch, Irish and Swiss markets afford.

These samples may be seen at my home, on Mondays, Wednesdays and Saturdays.

## GRIP EPIDEMIC

**DISEASE IS OF SHORT DURATION AND RARELY FATAL.**

It is During Convalescence That Tonic Treatment Is Necessary to Overcome The Extreme Debility and Depression and Prevent Relapse.

For a disease of such limited duration and one which, without complications, is easily fatal, the grip seems its victims more debilitated and less able to withstand other disorders than any other. One of our foremost medical writers says: "It is astonishing, the number of people who have been crippled in health for years after an attack."

"It is a common thing to hear people date various ailments or chronic ill-health from an attack of influenza. The danger from the grip is during convalescence, when the characteristic symptoms, the fever, the catarrh, the headache and the depression of spirits pass away. The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration and even consumption. Too much stress cannot be laid on the importance of strengthening the blood and nerves during convalescence.

Mr. Robert G. Yates, of 58 Ellis street, Duquoin, Iowa, who has been employed for several years as a tinner by the Klauer Manufacturing Co., says:

"One day while returning home from work I became suddenly weak. Terrible pains shot through my head and body. I became dizzy and was hardly able to make my way home. The trouble developed into a severe attack of grip and I was confined to my bed for weeks, was restless and sleepless, with constant pains in my limbs. My appetite was gone, I fell away in flesh, was tired out for no apparent reason and became generally miserable.

"Finally, when things were looking pretty blue for me, one day I noticed a piece in the paper about a man living in Kansas who had been cured of a similar complaint by the use of Dr. Williams' Pink Pills. So I decided to try them. I felt better before I finished one box and I kept on taking them until cured. Now I enjoy perfect health and, thanks to Dr. Williams' Pink Pills, I can do a good day's work again. I am as hale and hearty as many much younger than I, have a splendid appetite and can go to sleep a few minutes after retiring. I might also add that before I began taking Dr. Williams' Pink Pills I had suffered about seventeen years with rheumatism but I have not felt any of it since. They are a wonderful medicine and I have no doubt but that they saved my life."

Dr. Williams' Pink Pills increase the number of red corpuscles in the blood. This is a matter of easy proof by microscope test. They therefore may be said to actually make new blood. They are the most direct cure known for anemia and all similar conditions. They cure debility and most forms of weakness because they make it possible for the nourishment taken in food to reach the parts that require it. They cure rheumatism, because rheumatism is caused by impure blood, and when they replace the impure blood with pure, the disease is eradicated—not temporarily suppressed, but cured to stay cured. After-effects of grip, fever and other wasting diseases are best treated with these blood-making pills because after these troubles the blood is thin, watery and impure, and the health will not be perfectly restored until the vital fluid is made pure and rich. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

If you have Catarrh, rid yourself of this repulsive disease. Ask Dr. Shoop of Racine, Wis., to mail you a trial box of his Dr. Shoop's Catarrh Remedy. A simple, single test, will surely tell you a Catarrh truth well worth your knowing. Write to-day. Don't suffer longer. All dealers.

## THE BOWLING ELKS.

Knowlton's team defeated Coakley's team 91 pins Wednesday night. Two of Bert's men were absent and the other three rolled dummy in two boxes. McDougall had the highest single string, 162. The summary:

Knowlton's team—McDougall, 259; Brown, 245; Heaton, 229; Rhodes, 229; Knowlton, 226; total, 1257.

Coakley's team—Levensaler, 224; Dummy, 226; MacAllister, 216; Coakley, 228; Dummy, 221; total, 1166.

The Ash Point polo team, wearied with making unanswerable challenges, and rusty from lack of practice, wants The Courier-Gazette to say that the Whitney's Corner team is composed of faint-hearted nits, who had rather toast their shins in front of Whitney's store than go out against a live bunch of willing workers. The manager of the Ash Pointers has tried every known way to get a game with the Whitney's Corners, and now he wants the sporting public to know the latter team is nothing more than a leaky compressed air plant. Now that's talking some.

## MISS BYRON J. DOW.

Julia Elizabeth, wife of Byron J. Dow, died Monday night at her home on North Main street, aged nearly 81 years. During the last decade of her life she was a sufferer from ill-health, but kept bravely about her household duties, bearing patiently a burden that made the last three or four years of her life a period of invalidism. Loving and gentle, with kindly consideration for those about her, she died as she had lived—a beloved Christian woman. Deceased was a native of Camden, being a daughter of William and Julia K. (Start) Greene. She was married to Mr. Dow about 45 years ago. They resided at Holden some 15 years and then moved to Cobb's Corner, Warren, in which community 27 more years of happy life were spent. Four years ago Mr. Dow bought the Grant house on North Main street, where they had since resided. Mrs. Dow was a member of the Warren Lodge of Rebekahs and of Highland Grange of East Warren. Her death inflicts a severe loss upon both organizations. She is survived by her husband, two sons—E. O. and Frank G. Dow, and one brother, Frank Greene, of Greenville.

Ninety business men, mostly from this city, with a few from Thomaston and Camden and one from Waldoboro, enjoyed a delicious goose supper at Crescent Beach Tuesday evening.

A portion of the party arrived at the scene of festivities in the middle of the afternoon and bent their energies to bridge, smudge and other card games.

E. F. Berry and J. N. Southard of the North National Bank disclaimed the trolley car privileges and with a zero wind in their back "hoofed it" down.

The supper menu composed goose, chicken, mashed potatoes, turnip, apple, ice cream, etc. The goose was served on platters, except that one bird each just as it came from the oven, was placed at the disposal of John Karl and Johnny Wardwell.

After supper there was more card playing and a songfest. Fruit, confectionery and sweet supper were served in the way of refreshments. A portion of the party returned to Rockland at 9 p. m. and the remainder tarried at the hospitable Crescent Beach House until the midnight hour.

The occasion brought into contact many citizens who see too little of each other in the drudgery of everyday business affairs and who confess that a greater frequency of such outings would be to their social advantage.

It is hardly necessary to add that Fred did everything in his power to make the boys feel at home. In this he was ably assisted by Mrs. Smith, her capable kitchen staff and a competent force of waiters.

Their first spread did them great credit and a fine time was reported. Miss Helen Cooper was hostess. Next Friday they will meet with Miss Margaret Mayo.

The Harmony Club held its regular meeting Saturday, and despite the raging storm a goodly number attended and the usual interesting program was carried out. This is the third year this club has been in existence and there is no lack of enthusiasm in the work undertaken. It has proved to be a great incentive to their musical studies.

A number of ladies from all parts of the city gathered at the home of Mrs. J. F. Cooper, Monday afternoon in honor of her birthday. These ladies were all members of L'Esperance and Toasts, poems and readings, all in the new language, were given by the members. Refreshments were served and all joined in wishing hostess many happy returns of the day. This club has grown until it has been necessary to divide it into a day and evening club and new members are added weekly.

Thos. Benner has gained in health so as to be out. Mrs. Benner is also much improved and is able to sit up the greater part of the day.

Arthur Fitzgerald, who has in the past been in the employ of the W. O. Hewett Co., is now clerking in the store of E. Roy Smith.

### FRANK A. KNIGHT.

Frank A. Knight, a veteran of the Civil War, died very suddenly at his home at the Head-of-the-Bay last Sunday forenoon. He had attended to his morning chores and entered the house. While his wife was preparing a cup of hot drink which he requested he staggered, fell to the floor and passed away in a few minutes. He served during the Civil War in the 3d Maine Battery until discharged for disability, and after getting well again entered the service in Co. E, 2d Maine Cavalry, in

which he served until the end of the war. In recent years Mr. Knight had been employed at teaming and farm work, being for a while in the service of Fred M. Smith at Crescent Beach. Funeral services were held Tuesday afternoon, many neighbors being present. ### FRED R. RUSSELL.

The funeral of the late Fred R. Russell took place at his home on Purchase street Monday forenoon and was attended by quite a large number of his friends and relatives, also a large number from the Order of the Golden Cross, of which he was a member. Mr. Russell was the son of Capt. Warren and Augusta (Geyer) Russell of Friendship. He leaves a widow, three daughters, one son and two brothers and an aged mother to mourn his loss. His last position was steward of the Gov.

### STOLE FROM LIME KILNS.

Doors, Gratings and Valves Transferred to Junk Heap by Youthful Burglars.

Albert Fortier, Arthur Marks and Stillman Stevens were arraigned before Judge Campbell Wednesday, charged with stealing brass and iron equipment from lime kilns on the waterfront. The case had been worked to a successful conclusion by Special Officer W. H. Killoch, who again distinguished himself by the keenness and persistence displayed.

The boys made a clean breast of their thefts, which covered a period of about five weeks. The Rockland-Rockport Lime Co., which is the principal victim, figures its loss at about \$300.

Fortier is a French lad of 16 years and the principal support of his mother who has six other children, all younger. Albert has spoken English only seven years, but made a most excellent witness, telling his story in a straightforward, intelligent manner, with every semblance of truth.

He said that Marks and Stevens had told him how a good deal of money could be made and asked him to go in to partnership with them. The system was a very simple one and he was speedily initiated.

At the Whitney shed on Crockett's Point they wrenched off an iron door weighing 120 pounds, which they sold to a Hebrew junk dealer named Shapiro for 20 cents per hundred. Gratings from the same kiln followed suit. Carrying these gratings two or three bars at a time was a task that lasted about four days. The Messer kiln was the next scene of operations. There the boys took three iron doors and brass valves. A ready sale for the articles was found at Shapiro's. That worthy is alleged to have told the boys to break up the iron and valves before they were delivered to him, and even furnished the tools for doing so, as the boys claim.

The larger brass valves, which cost the lime company something like \$3.00 apiece, were sold to the junk dealer first at five cents a pound and then at seven when the boys found that another dealer was willing to pay the latter price. Other kilns on Crockett's Point were despoiled in a similar manner, after which the youthful trio made a systematic tour of the northern kilns, commencing with the Abbott kiln now operated by A. D. Bird & Co. Hauls were made in nearly every instance, some of the booty being disposed of at Shapiro's junk shop, although most of it went to Shapiro's.

Marks and Stevens told substantially the same story as Fortier. All three boys were held for the April grand jury in the sum of \$200 each, being allowed their freedom on bail furnished by the parents. E. K. Gould appeared for Fortier and Johnson & Smalley for the other boys. A. S. Littlefield was attorney for the prosecution.

Mr. Shapiro, his wife and sons Maurice and Simon were put on the stand and their testimony, especially that of Mrs. Simon, added quite a bit of spice to the trial. They confessed to having bought iron and brass from the boys, but asserted that it was not broken up by their orders, but was sold to them in that condition.

### FAIRWELL OPERA HOUSE.

The two songs now running at Fairwell opera house are decidedly catchy, with taking choruses and pretty illustrations. Saturday night Miss Daggett will sing a ballad entitled, "There's a Boy in the World for Every Girl," and Raymond Greene will sing, "Two Blue Eyes." He will be assisted in the chorus by Messrs. H. Greene, Engley and Coppinger.

The Mills had on board at the time of the disaster 200 tons of cut stone, said to be worth about \$1000. It is feared that the schooner will be in very bad shape when she is floated again.

TRIMMED WARREN LOCALS.

Announces to the ladies who wish to buy for the coming season, that she has more than the usual number of samples (large enough to enable the purchaser to see what she is buying) of new dress goods from the reliable firm of Buckley & Jennings Co., importers and jobbers of dry goods, New York. These are samples of choice materials, not to be found in the dry goods stores. There is nothing in the line that is second class or that is an imitation. ## GRIP EPIDEMIC

## DISEASE IS OF SHORT DURATION AND RARELY FATAL

It is During Convalescence That Tonic Treatment is Necessary to Overcome The Extreme Debility and Depression and Prevent Relapse.

For a disease of such limited duration and one which, without complications, is rarely fatal, the grip leaves its victims more debilitated and less able to withstand other disorders than any other. One of our foremost medical writers says: "It is astonishing, the number of people who have been crippled in health for years after an attack. It is a common thing to hear people date various ailments or chronic ill-health from an attack of influenza."

The real danger from the grip is during convalescence, when the characteristic symptoms, the fever, the catarrh, the headache and the depression of spirits pass away. The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption.

Too much stress cannot be laid on the importance of strengthening the blood and nerves during convalescence.

Mr. Robert G. Yates, of 58 Ellis street, Dubuque, Iowa, who has been employed for several years as a tinner by the Klauer Manufacturing Co., says:

"One day while returning home from work I became suddenly weak. Terrible pains shot through my head and body. I became dizzy and was hardly able to make my way home. The trouble developed into a severe attack of grip and I was confined to my bed for weeks. Was restless and sleepless. My appetite was gone. I fell away in flesh, was tired out for no apparent reason and became generally miserable."

"Finally, when things were looking pretty blue for me, one day I noticed a piece in the paper about a man living in Kansas who had been cured of a similar complaint by the use of Dr. Williams' Pink Pills. So I decided to try them. I felt better before I finished one box and I kept on taking them until cured. Now I enjoy perfect health and, thanks to Dr. Williams' Pink Pills, I am as hale and hearty as many men much younger than I, have a splendid appetite and can go to sleep a few minutes after retiring. I might also add that here I began taking Dr. Williams' Pink Pills I had suffered for about seventeen years with rheumatism but I have not felt any of it since. They are a wonderful medicine and I have no doubt but that they saved my life."

Dr. Williams' Pink Pills increase the number of red corpuscles in the blood. This is a matter of easy proof by microscopic test. They therefore may be said to actually make new blood. They are the most direct cure known for anaemia and all similar conditions. They cure debility and all forms of weakness because they make it possible for the nourishment taken in the body to reach the parts that require it.

They cure rheumatism, because rheumatism is a consequence of impure blood and when they replace the impure blood with pure, the disease is eradicated—not temporarily suppressed, but cured to stay cured. After-effects of grip, fevers and other wasting diseases are best treated with these blood-making pills because after these troubles the blood is thin, watery and impure, and the health will not be perfectly restored until the vital fluid is made pure and rich. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

If you have Catarrh, rid yourself of this repulsive disease. Ask Dr. Shoop of Racine, Wis., to mail you free, a small box of his Dr. Shoop's Catarrh Remedy. A simple, single test, will surely tell you a Catarrh truth well worth your knowing. Write to-day. Don't suffer longer. All dealers.

**DREAMLAND THEATRE.**

A sacred concert will be given at Dreamland Theatre Sunday evening for the benefit of the Rockland fire department, at which a series of superb moving pictures will be given. Three performances will be given—one an hour from 7 to 10 o'clock. Dreamland is getting ready to move into the building on Oak street formerly occupied by the Dewey Hotel. The new quarters is now being made into what will be one of the finest little theatres east of Boston. People are certainly getting the habit and Dreamland is getting the people.

**THE BOWLING ELKS.**

Knowlton's team defeated Coadley's team 91 pins Wednesday night. Two of Bert's men were absent and the other three rolled dummy in two boxes. McDougall had the highest single string, 103. The summary:

Knowlton's team—McDougall, 259; Brown, 245; Hayden, 235; Rhodes, 235; Knowlton, 235; total, 1207.

Coadley's team—Levensaler, 224; Dummy, 236; MacAllister, 216; Coadley, 238; Dummy, 251; total, 1166.

The Ash Point polo team, wearied with making unanswered challenges, and rusty from lack of practice, wants The Courier-Gazette to say that the Whittier's Corner team is composed of faint-hearted nits, who had rather toast their shins in front of Whitney's stove than to go up against a live-bunch of willing workers. The manager of the Ash Pointers has tried every known way to get a game with the Whittier's Corners, and now he wants the sporting public to know the latter team is nothing more than a shaky compressed air plant. Now that's talking some.

Julia Elizabeth, wife of Byron J. Dow, died Monday night at her home on North Main street, aged nearly 61 years. During the last decade of her life she was a sufferer from ill-health, but kept bravely about her household duties, bearing patiently a burden that made the last three or four years of her life a period of invalidism. Loving and gentle, with kindly consideration for those about her, she died as she had lived—a beloved Christian woman. Deceased was a native of Camden, being a daughter of William and Julia K. (start) Greene. She was married to Mr. Dow about 45 years ago. They resided at Holden some 15 years and then moved to Cobb's Corner, Warren, in which community 27 more years of happy life were spent. Four years ago Mr. Dow bought the Grant house on North Main street, where they had since resided. Mrs. Dow was a member of the Warren Lodge of Rebekahs and of Highland Grange of East Warren. Her death inflicts a severe loss upon both organizations. She is survived by her husband, two sons—E. O. and Frank G. Dow, and one brother, Frank Greene, of Greenville.

FRANK A. KNIGHT.

Frank A. Knight, a veteran of the Civil War, died very suddenly at his home at the Head-of-the-Bay last Sunday forenoon. He had attended to his morning chores and entered the house. While his wife was preparing a cup of hot drink which he requested he staggered, fell to the floor and passed away in a few minutes. He served during the Civil War in the 3d Maine Battery until discharged for disability, and after getting able again entered the service in Co. E, 2d Maine Cavalry, in

which he served until the end of the war. In recent years Mr. Knight had been employed at teaming and farm work, being for a while in the service of Fred M. Smith at Crescent Beach. Funeral services were held Tuesday afternoon, many neighbors being present. F. M. Smith, Capt. Chas. Philbrook, Charles Henderson and Alvin Hix were pall-bearers.

District Messenger Sprague has been in town this week, looking after the Postal Telegraph Co.'s messenger service which was damaged by a recent storm.

FRED R. RUSSELL.

The funeral of the late Fred R. Russell took place at his home on Purchase street Monday forenoon and was attended by quite a large number of his friends and relatives, also a large number from the Order of the Golden Cross, of which he was a member. Mr. Russell was the son of Capt. Warren and Augusta (Geyer) Russell of Friendship. He leaves a widow, three daughters, one son and two brothers and an aged mother to mourn his loss. His last position was steward of the Gov.

Bodwell. He will be missed by the traveling public as he was well known for his cooking abilities. The interment was at East Waldoboro in the family lot. The pall-bearers were Emerson Munk, Fred Munk, George Blake and Daniel Munk. Rev. Mr. Sutcliffe officiated.

The Coburn Classical Institute basketball team will play the 1st Y. M. C. A. team of this city, Friday evening, Feb. 14. The Institute boys are a splendid lot of athletes and should give the local players a hard game.

### STOLE FROM LIME KILNS.

Doors, Gratings and Valves Transferred to Junk Heap By Youthful Burglars.

Albert Fortier, Arthur Marks and Stillman Stevens were arraigned before Judge Campbell Wednesday, charged with stealing brass and iron equipment from lime kilns on the waterfront. The case had been worked to a successful conclusion by Special Officer W. H. Killoch, who again distinguished himself by the keenness and persistence displayed.

The boys made a clean breast of their thefts, which covered a period of about five weeks. The Rockland-Rockport Lime Co., which is the principal victim, figures its loss at about \$300.

Fortier is a French lad of 16 years and the principal support of his mother who has six other children, all younger. Albert has spoken English only seven years, but made a most excellent witness, telling his story in a straightforward, intelligent manner, with every semblance of truth.

He said that Marks and Stevens had told him how a good deal of money could be made and asked him to go in to partnership with them. The system was a very simple one and he was speedily initiated.

At the Whitney shed on Crockett's Point they wrenched off an iron door weighing 120 pounds, which they sold to a Hebrew junk dealer named Shapiro for 20 cents per hundred. Gratings from the same kiln followed suit. Carrying these gratings two or three bars at a time was a task that lasted about four days. The Messer kiln was the next scene of operations. There the boys took three iron doors and brass valves. A ready sale for the articles was found at Shapiro's. That worthy is alleged to have told the boys to break up the iron and valves before they were delivered to him, and even furnished the tools for doing so, as the boys claim.

The larger brass valves, which cost the lime company something like \$3.60 apiece, were sold to the junk dealer first at five cents a pound and then at seven when the boys found that another dealer was willing to pay the latter price. Other kilns on Crockett's Point were despoiled in a similar manner, after which the youthful trio made a systematic tour of the northern kilns, commencing with the Abbott kiln now operated by A. D. Bird & Co. Hauls were made in nearly every instance, some of the booty being disposed of at Alperin's junk shop, although most of it went to Shapiro's.

Marks and Stevens told substantially the same story as Fortier. All three boys were held for the April grand jury in the sum of \$200 each, being allowed their freedom on bail furnished by the parents. E. K. Gould appeared for Fortier and Johnson & Smalley for the other boys. A. S. Littlefield was attorney for the prosecution.

Mr. Shapiro, his wife and sons Maurice and Simon were put on the stand and their testimony, especially that of Mrs. Shapiro, added quite a bit of spice to the trial. They confessed to having bought iron and brass from the boys, but asserted that it was not broken up by their orders, but was sold to them in that condition.

It is feared that the schooner will be in very bad shape when she is floated again.

### FOR THE BUSY MAN

Constant Reader Tells What He Missed In Last Week's Papers.

"President Roosevelt has set forth at length his views on a variety of burning questions in his supplementary message to the people through Congress. He evidently did not exhaust his sentiments in this message, for in his December, despite its extraordinary length and the variety of topics considered in it. Taking occasion now of the decision of the United States Supreme Court that the employer's liability for the passage of which he secured by dint of repeated efforts, is unconstitutional to urge the enactment of an act that will be in accord with the courts, he goes on to discuss a variety of topics more or less kindred. Among them are limitations of the use of injunctions, power to the Interstate Commerce Commission to fix railroad rates, restriction of railroads from pooling earnings, amendments of the Sherman anti-trust statute and the forbidding of the use of the mails for stock gambling, as for lotteries. Then the President proceeds to apply the last to great corporations and the critics of the course of his administration. He declares that he is not attacking property but only seeking to right wrongs, and while assuring that he is not attacking property, he asserts he is making no attack on 'law-abiding property.' He sustains the action of the courts which imposed the \$25,000,000 fine on the Standard Oil Company and fined the Santa Fe railroad, declaring that the attacks on his course have been in the interest of the Oil Trust and notorious railroad combinations. In regard to the responsibilities for the financial panic, he declares it was not due to the course of his administration, but says that even if it were he would not stop in the course on which he has embarked.

"The speech of Governor Hughes outlining his views in regard to public affairs is regarded as his political platform for the coming campaign, and his admirers see in it added reason for their enthusiastic support of his candidacy. He set forth a sane and sensible attitude in regard to the questions of moment, heartily endorsing the course of the national administration, as he does heretofore. On the tariff question he is in favor of a commission to consider revision. The attitude of the Governor toward the restriction of the powers of corporations favors the sense of officers to terms of imprisonment rather than the imposition of fines, which ultimately fall on innocent stockholders. Mr. Hughes is inclined to regard the rights of the states in regulating internal matters as a question to advocate sweeping federal control.

"In Germany the Emperor has celebrated his arrival at the age of forty-nine, the age of President Roosevelt. Emperor William is planning a trip to the Mediterranean in March, and King Edward expects to make a like trip in April. King Alfonso of Spain will probably visit Mexico next summer, and King Carlos of Portugal, if his country is in a state of quiet at that time, will go to Brazil some time this year.

"Our battleships have reached their third stopping place on their long voyage, having gone over two thousand miles in eight days from Rio de Janeiro, Brazil, to Punta Arenas (Sandy Point), Chile. This will be their only stop in that continent, as there are no more Magellan Straits into the Pacific they will go past Valparaiso, and not stop until they have steamed three thousand miles to Callao, Peru. In the same way they passed by Montevideo, Uruguay, despite the efforts to get them to stop there, and the only Argentine welcome was tendered by warships which sailed out to meet the American fleet and speed them on their way, although the welcome given at Buenos Ayres to the torpedo boat flotilla shows the spirit of the nation. The crews of the battleships are now as far south of the equator as Labrador is north of it, and they are still east of their starting point, despite the fact that their ultimate destination is 50 degrees to the westward.

"Little light has been thrown on the mysterious disappearance of Mary Baker G. Eddy from Concord, N. H., to the vicinity of Boston, but it is probable that the move was made because of the court proceedings in the last year to secure control of some of the funds which the aged head of the Christian Science faith is supposed to have in her custody. Following closely upon the statement that a large sum was to be expended in the purchase of the property, may mean a decided change in the management of great enterprises. The fact that some of those supposed to be in the inner circle of authority in the organization were left in ignorance of the projected movement until it was practically completed serves to show that all is not harmonious in the management and there are some things unknown to the world at large. The splendid new home for the head of the faith is not in Boston itself, nor exactly in the separate suburb of Brookline, Mass., with many handsome homes, but just outside the latter, in Newton.

"No more striking contrast could be imagined than that between the sumptuous scenes described in the novels of 'Ouida' and the squalor in which her last days were spent. After securing a fortune by the brilliant work of her pen she had nothing in her old age save a pension from the British government, which was not sufficient to support her pet dogs which she persisted in keeping around her even in her penury. While known to all lovers of fiction by her pen name, few knew that it was merely a childish mispronunciation of her own Christian name of Louise. Just as the pen name of Charles Dickens, attached to his earlier works, of 'Boz', was a mispronunciation of 'Moses', the nickname of his brother Moses. 'Ouida' was a writer of scathing criticism as well as of dazzling novels, and her views in her magazine articles were apparently diametrically opposed to those in her popular stories and the plays based on them.

"I had been under the care of a doctor for a long time and was getting no help. I had tried electricity and massage with only temporary relief.

"One day my husband brought home some of Dr. Williams' Pink Pills and wanted me to try them. At first I was determined not to take them but consented after a while. They helped me

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become a prevalent ailment that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine smells like fish, or if, when the child reaches an age when it should be able to control the passage, it is yet bed-wetted, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold in drug stores, in fifty-cent and one-dollar size bottles. You may have a sample bottle mailed free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers.

In writing Dr. Kilmer & Co., Kingston, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Kingston, N. Y., on every bottle.

## THE GRIP EPIDEMIC

Disease of Short Duration and

When Free From Complications

Is Rarely Fatal.

Not since the grip epidemic of 1889-90 has the dread influenza been so prevalent as now. No age or station in life is exempt from it, nor can its attack be prevented with certainty. It is, however, more frequent in persons living in overcrowded and ill-ventilated homes and in low, damp surroundings.

The best authorities give no satisfactory treatment for the acute stage but it is of short duration, usually running its course, in spite of medical treatment in two or three days, at most, a week or ten days. Careful diet and a supporting or tonic treatment, with laxatives, if required, are the best aids to nature during the acute stage.

#### DANGER DURING CONVALESCENCE

For a disease of such limited duration and one which, without complications, is rarely fatal, the grip is a dangerous disease, and one less able to withstand other disorders than any other. One of our foremost medical writers says: "It is astonishing, the number of people who have been crippled in health for years after an attack." It is a common thing to hear people date various ailments or chronic ill-health from an attack of influenza.

The real danger from the grip is during convalescence, when the characteristic symptoms, the fever, the catarrh, the headache and the depression of spirits pass away. The grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration and even consumption. Too long of officers to terms of imprisonment rather than the imposition of fines, which ultimately fall on innocent stockholders. Mr. Hughes is inclined to regard the rights of the states in regulating internal matters as a question to advocate sweeping federal control.

#### RHEUMATISM AND DYSPEPSIA

Resulting from an Attack of Grip Cured by Dr. Williams' Pink Pills. Mrs. A. E. Wilber, of Bergen, Genesee Co., N. Y., is an enthusiastic advocate of Dr. Williams' Pink Pills for grip's after-effects. She says:

"I suffered for two years with the after-effects of the grip and was confined to the bed for a greater part of one year. The grip for quickness of rheumatism in my legs from the knees down and I could not walk without darting, fire-like pains. I had severe pains in my stomach and could not retain food. My legs were so swollen that I couldn't find shoes to fit me and I couldn't stand the least pressure or weight on my limbs. I had a bad cough, palpitation of the heart and terrible sick headaches as long as I was in bed. I had been under the care of a doctor for a long time and was getting no help. I had tried electricity and massage with only temporary relief.

"One day my husband brought home some of Dr. Williams' Pink Pills and wanted me to try them. At first I was determined not to take them but consented after a while. They helped me

#### GRIP EVERY WINTER

This Indiana Woman Found Relief in

Mrs. Sarah Ralaback, of 106 South street, Richmond, Ind., says: "I had attacks of grip every winter for about ten years. It left me with no appetite, I was miserable all the time and could hardly drag myself around. I lost in weight and was terribly run down. I was chilly and cold and ached all over. "I was under the care of my family doctor but got no relief until my niece persuaded me to try Dr. Williams' Pink Pills. It wasn't long before I had an appetite and could eat. I certainly got better soon and Dr. Williams' Pink Pills cured me. The aches and pains left me and I gained in weight. I take the pills every spring to build up my blood and tone my stomach. I always recommend Dr. Williams' Pink Pills to my friends and think they are a grand medicine."

#### LOST WEIGHT REGAINED.

Grip Left This Man with Broken-down Nerves and Weak Stomach. Mr. G. W. Casto, the well-known confectioner of 821 North Water street, Deatur, Ill., is grateful to Dr. Williams' Pink Pills for driving the lingering effects of the grip from his system. He says:

"For six years I suffered with nervous debility following an attack of the grip. I was left very weak and run down and felt all out of sorts. My nerves were particularly bad and any little trouble in my business upset me and I could not sleep nights. At times my stomach would gorge and become as hard as a stone, causing intense pain, my appetite was poor and my liver constantly troubled me. My weight decreased from 160 to 125 pounds.

"I took treatment with two doctors and each pronounced my trouble a nervous disorder but did not help me. I then tried Dr. Williams' Pink Pills and began to get better after using a few boxes. I gave them a thorough trial and was cured. I gained weight and I now weigh 182 pounds and have been healthy ever since. The pills are a fine tonic and cured me after doctors had failed."

#### WHAT DR. WILLIAMS' PINK PILLS DO.

Dr. Williams' Pink Pills increase the number of red corpuscles in the blood. This is a matter of easy proof by microscopic test. They therefore may be said to actually make new blood. They are the most direct cure known for anaemia and all similar conditions. They cure debility and most forms of weakness because they make it possible for the nourishment taken in the body to reach the parts that require it. They cure rheumatism, because rheumatism is caused by impure blood, and when they replace the impure blood with pure, the disease is eradicated—not temporarily suppressed, but cured to stay cured. After-effects of grip, fevers and other wasting diseases are best treated with these blood-making pills, because after these troubles the blood is thin, watery and impure, and the health will not be perfectly restored until the vital fluid is made pure and rich. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

#### FRIENDSHIP

Word was received Saturday from Cowansville, Quebec, that Elder Chadsey, pastor of the Advent church of this place, died after a very painful illness. He went to Cowansville last fall on a visit to his native place and was taken sick, from which he never recovered.

L. C. Morton and Ellis Hurd are filling their ice houses from Parker's pond. W. E. Newbert was hit in the shoulder by a falling ice cake Friday. No bones were broken, so he will be round again soon.

Ellis Lawry and wife were found unconscious from asphyxiation Saturday morning, but were brought out of it without serious results.

Much sympathy is expressed here to Mr. and Mrs. Wm. Newbert of Newtonville, in the death of their son, Edison, who was killed by a train in Massachusetts. They were residents of this place several years ago.
