"It is a grip and grip that conquer  
success, not alone the vigor with  
which one takes hold of his task, but  
also the doggedness with which he  
holds on after he has taken hold."

In the last volume of the new Oxford  
edition of "Thackeray" Professor Saintes  
bury ends thus his final introduction:  
"I remember having, some twenty  
years ago, delight of battle for at least  
an hour by, and not far from, Ken-  
sington clock on the subject of 'Thack-  
eray.' With the late Mr. Henley, at last,  
apropos of exactly what I have forgot-  
ten, I happened to say, 'And this, you  
see, is because he was such a genius.'  
'No,' said Henley, 'it is because he was  
such a gentleman.' 'Well,' I said, 'my  
dear Henley, suppose we put it, that it  
is because he was such a gentleman.' So we  
laughed, and shook hands and parted.  
And really I am inclined to think that  
these words were, and are, 'the conclu-  
sion of the whole matter' about  
Thackeray."

### Talking to the Dead

Oh ye dead! the tears I've shed for you have  
told me of my youth.  
From your voices I can never more hear words  
of love and truth.  
Your friendly hands are withered, and your lov-  
ing eyes decayed.  
And your bodies moulder in the dust, of which  
ye first were made.

Do ye sometimes watch the seasons as of old  
they came and go?  
Do ye know when we have sunshine? Do ye  
know when we have snow?  
Do ye see us? Can ye hear us? Do ye know our  
hopes and fears?  
Can ye recollect the time when ye yourself shed  
bitter tears?

Do ye sometimes wish to speak to us, and help  
us in the strife?  
Do ye see how much we suffer in the thorny  
way of life?  
If we could know the secrets that ye know  
beyond the tomb,  
Would such knowledge make us cowardly?  
Would it cheer us in our gloom?

Oh, ye dead—oh ye dead—in your peaceful bliss  
estate.  
Ye can see what God has written in the books  
of Life and Fate.  
But, since the day ye went away from earth, for  
good or ill  
Ye have kept your secret from us, because it is  
God's will.

### HISTORY AND PROPHECY

Messrs. Emery and Blackington Furnished  
Good Comedy for Graduation

The history of the class was told in  
an exceedingly interesting and compressed  
manner by Joseph Emery, who fully  
justified the confidence of the class.  
mates who had selected him for that  
important duty.

As a Freshman class it was the  
largest that had ever entered Rockland  
high school at that time. Individual  
tastes soon asserted themselves. Miss  
Simmons became very fond of Grecian  
history and architecture, particularly  
the lines of a certain Doric Hall. How  
Carl Blackington received a sudden  
rise in his new life and how Louis  
Rosenbloom read a poem before the  
school were detailed in a manner that  
pleased their classmates immensely.

The class entered upon its Sophomore  
year with greatly reduced ranks. Some  
had left to enter other schools, some to  
take up life's work in earnest, and one  
—David Smith—had been graduated to  
the great beyond. The Freshmen were  
duly subjected to initiation stunts and  
before the Sophomores were through  
one of the new pupils, Harold Davis,  
was admitted literally upon the brink of  
hell. During the summer vacation  
some of the girls while at Battery  
Beach went to inspect the lighthouse at  
light house keeping, the historian sur-  
mises. When they learned that the  
light burned all night their ideas of  
domestic science received a hard jolt.

On their return they were welcomed in  
a rather unexpected manner at a re-  
vival service in the Owl's Head chapel.  
The junior year began under a new  
principal, Mr. Moulton having been  
elected superintendent during vacation.  
Miss Southard and two senior girls who  
became locked in the basement first  
thought they would break down and  
cry, but instead they decided to break  
out and laugh, which latter they did  
while the principal waited long and  
vainly.

Miss Cobb's translation of  
Latin became a school anecdote of the  
year. The girls' basketball team de-  
fected all-comers. During the long  
winter days Hanscom earned his title  
as Romeo of the class. He started out

by being a trifle too gay, but settled  
down into the typical melancholy Dane,  
and became a Bird in a Net. Even on  
his graduating night he is playing the  
Bach scene. William Flint, sur-  
named the "Silent," succumbed to the  
fascinations of a Sophomore girl, but  
wishing Bill no harm the fact is kept  
shaded.

During the summer vacation the  
class was again saddened by the death  
of one of its members, Cora Phillips.  
During the senior year money for  
graduation expenses was raised by sup-  
pers and dances. The gentle art of  
palmistry gained a new convert in  
Miss Silverman.

"We have had our joys and sorrows,  
our close friendships, and I am afraid,  
our enemies," said the historian in  
conclusion, "but these last have been  
of short duration."

If the class found a natural born  
humorist it had another in its prophet,  
Carl Blackington—impulsive, noisy,  
genial and much liked Carl. He dis-  
posed prophetically of his classmates in a  
manner that kept the latter and the  
whole audience constantly on the  
laugh.

The prophet laid the scene of his  
imaginings in Portland, Ore., the  
time 15 years after graduation. During  
all that time he had been with a cir-  
cus, four years as Barker and 11 as  
ticket-seller. After this lapse of 15  
years this is how he found his class-  
mates:

Frank French was a captain of many  
submarines. Wesley Sadler was in the  
wholesale fish business. Bossie South-  
ard had been living in Portland, Ore.,  
since Earle went into the fruit busi-  
ness. Ralph Keyes was running a  
sheep ranch near Boise City and Bert  
Smith was working for him. Nate Bar-  
well was cashier in a Chicago national  
bank. Miss Cobb didn't like the East  
after she finished college so Nathan  
took Anna West.

Arthur Stubbs was working for the  
Pittsburg Chemical Company—and dis-  
tinguished, don't say a word. His wife,  
Helen Perry Stubbs, had mastered all  
the languages, living and dead. Louis  
Rosenbloom was doing the fairs in New  
York state, and running a general  
business of his own. Sadie Silverman  
was trying hard to introduce a new  
brand of chewing gum onto the market.

Walter Bird was a New York Bar-  
man. Had started early, married Grace  
Early, and had become an Early Bird.  
Knott Rankin's wife, formerly Miss  
Jones, was living in New York, where  
Florence Wood was visiting her. When  
the prophet found them, Phil Rosen-  
berg was a dentist in Boston on the  
"Shady" side of 40 and a happy mar-  
ried man. Miss Hayden was an in-  
structor in the Boston Conservatory of  
Music. The prophet nearly fainted  
when she told him that Helen Crockett  
had married Ralph Webber. Barter  
had attained his great desire and was  
catching on an American League team.  
Hanscom was making good in the in-  
surance business at Portsmouth, N. H.,  
with the help of A. J. and another  
member of the family. Hall was in the  
fruit business at Portland. He was for  
the farm, but Edna said, "No, sir," and  
they went into the fruit business. Mar-  
garet Sullivan was doing a vaudeville  
sketch at Jefferson theatre.

Returning to Rockland the prophet  
found many changes. Black clouds of  
smoke arose from the stoneyard and  
cement works, tall buildings had arisen  
and the Maine Central yard had 13  
tracks. Dan Sullivan was station  
agent. Alfred Berry was the architect  
who had designed several of the city's  
new structures. Always ready to find  
work for somebody else, Leon White  
was conducting an employment office so as  
to make folks think she had had, at  
least one chance. The Lightning Con-  
ductor at last took her under his pro-  
tecting wing. Miss Williamson is now  
perfectly satisfied as to the way Bob,  
Elmer and Hall went. Joe Emery was  
making a great hit in his play, "The  
Drummer Boy." Griffin had managed  
to run Isle au Haut and with the aid of  
his wife was running Rockland, he in  
the capacity of city marshal. After two  
years they went back to catching lob-  
sters, the only thing that Miriam could  
cook.

Miss Blithen was married and Alfred  
Berry was the lucky man, after a  
courtship of 12 years. Bill Flint had  
won medals for his bravery as a wire-  
less operator. When the fog-horn got  
out of order Bill yelled all night in its  
place. Miss Payson with Miss Tobey as  
partner, was giving music lessons. Kit-  
ty does the singing, and her favorite  
selection is "I'm Wearing My Heart  
Away for You." Nellie Donnell was  
president of the "Keag & Ballyhack  
Railroad." Mary Bowden lives at home  
with the old folks, wondering why she  
couldn't whistle louder in the back  
seat at school. Nellie Mullen became  
owner and operator of an airship ply-  
ing between St. George and Clam Cove.  
Maurice Healey was keeping books for  
a Rockland firm and was a wizard in  
introducing new grass seed for lawns.  
Gwen Perry is still writing poetry. Miss  
Fitch was badly frightened by an  
earthquake in Florida, which had the  
effect of increasing her height. The  
last classmate the prophet met was  
Bill Rhodes, in Haskell's. The meeting  
reminded the prophet of a certain black  
eye.

Old-fashioned poetry, but choicely good.—

#### The Tiger

Tiger, Tiger, burning bright  
In the forests of the night,  
What immortal hand or eye  
Could frame thy fearful symmetry?

In what distant deep or skies  
Burnt the fire of thine eyes?  
On what wing dare he peer  
What the hair dare seize thy fire?

And what shoulder, and what art,  
Could twist the sinews of thy heart?  
And when thy heart began to beat,  
What dread hand framed thy dread feet?

What the hammer, what the chain,  
In what furnace was thy brain?  
What the anvil? What dread grasp  
Dare its deadly terrors clasp?

When the stars threw down their spears,  
And watered heaven with their tears,<  
Did he smile his work to see?  
Did he who made the lamb make thee?

Tiger, Tiger, burning bright  
In the forests of the night,  
What immortal hand or eye  
Dare frame thy fearful symmetry?  
—William Blake.

We get our first glimpse of the new steamer City of Belfast next Tuesday morning. S'pose you will be up early enough?

An automobile for Dr. R. Lake Noyes of Stonington was among the freight brought on the Boston boat Tuesday morning.

Louis Rosenbloom, who graduated from High School Thursday night, will again have the position as news agent on the steamer James T. Morse this summer.

Among the intentions of marriage published this week are the following: John E. Parker and Effie L. Z. Bray; Philip A. Dyer and Mrs. Mary E. Robshaw, all of Rockland.

It is reported that there will be an out race at Knox Trotting Park, July 5th, the proceeds of which will be used toward improving the highway from Rockville to Hope.

There will be more persons awake in Rockland early next Sunday morning than one usually finds on a Sabbath morning. The arrival of a circus of course has nothing to do with the matter.

Henry H. Payson of Hope was in the city Wednesday. He prophesies a very short hay crop unless rain comes soon. Mr. Payson was also the bearer of the unwelcome news that Uncle Abner Danton is coming to the best having caught a kink in his back the other morning while about to embark on a constitutional sprint for the postoffice.

Uncle Abner's general health is very good, however, and on Aug. 1st he will be the center of an interesting group on the occasion of his 102d birthday.

The yacht Washishima, owned by Frank A. Smith of Worcester and commanded by Capt. James L. Smith of Boston (formerly of the Washishima) has been in port this week awaiting the arrival of Mr. Smith, who was due here this morning with his family, en route for their summer home at Eagle Island.

Mr. F. W. Fuller of the Fuller-Cobb Co. took temporary charge and treated the craft to upholstering, carpeting and general outfitting. The Washishima, which is Japanese for Eagle Island, is 60 feet long and has a Knox engine for power.

The janitor of the Eagles was arraigned before Judge Campbell Thursday afternoon on a search and seizure process issued by the city of Boston. The raid made at the Eagles' Club by the Sturges' deputies Newbert and Fernald last week. Ex-Mayor Thompson appeared for the defense while Mr. Newbert proved himself a surprisingly good lawyer in conducting the case for the prosecution. The state claimed that 10 of the lockers from which liquors were seized bore no names; that several lockers contained quantities of liquor in excess of individual demands; and that a federal liquor license had been taken out by the club. It was claimed in defense that the members were within their rights in having what quality or quantity of liquor they wished in their lockers and that the compartments unmarked were some that had lately been repaired and varnished. No definite explanation of the liquor tax was made. Judge Campbell reserved his decision till next Monday.

Four new machines have been installed in the Limonick steam laundry on Limonick street the past week, making a thoroughly new and modern establishment. With a view to having the establishment meet all demands in the way of a large and modern plant the proprietors brought here some weeks ago a Boston expert who was given carte blanche to select whatever machinery he saw fit to have. All of the old-fashioned machinery was replaced and the capacity for work has been more than doubled by the improvements that were made. When the present owners of the plant took charge about one year ago the laundry employed but three hands. As an instance of how it has developed it may be stated that there were 22 persons on the payroll last Monday. Still the concern found some difficulty in keeping pace with the demands made upon it. Austin D. Cook who has been away on account of ill health since last October recently resumed his connection with the establishment.

A public dinner will be served in the First Baptist vestry Monday from 11.30 to 1 o'clock.

## A CARD.

A recent item in a Boston paper, containing a name identical with the name of a woman formerly in business in Rockland, has resulted in the circulation of a rumor as false as it is malicious. The Courier-Gazette is desired to call upon any to deny the cruel slander.

Mrs. W. G. Williams, Rockland, June 18, 1909.

Principal Stewart resigns. Has been elected at head of Science Department in Deering High School—Leland T. Lupp succeeds him—More Changes, Maybe.

History for the Rockland High school has been making very rapidly in the past few years. In addition to graduating a fine class of 43 pupils a principal has resigned and a new one has been elected. There are rumors of further changes in the faculty, but thus far only one change has been made. The resignation of Principal Frederick C. Stewart was placed in the hands of the school board Tuesday morning. Mr. Stewart has been receiving and his good fortune is earning him the congratulation of his friends.

Mr. Stewart prepared for instruction in the sciences at Harvard summer school and by way of experience has taught physics here and physics and chemistry in the schools where he has previously served as principal. He will be succeeded here the coming year by Leland T. Knapp of North Portland, Me., who for the past three years has been principal of the academy of Colby college and afterwards became submaster at Leavitt Institute. He brings some fine recommendations to the new principalship.

Other teachers for the coming year will probably be elected next week.

Four Maine girls were members of the class which graduated from Wheaton Seminary at Norton, Mass. this week, and the three who hailed from Knox county had a distinguished share in the exercises. Miss Mae Walker, daughter of C. M. Walker, esq., of this city, was one of the essayists, her subject being "The Development of the Church in Art," which she handled with much skill and charm. Miss Madeline P. Bird, daughter of Mrs. Jennie Bird of this city, furnished the music for the class day song, and also read the class essay in her class at Rockland high school. The class poem at Wheaton was by Miss Alice C. George of Thomaston, who also furnished the words for the class hymn. The poem recited very high praise. Preceding the commencement exercises was the senior play, "Merchant of Venice," said to have been the finest theatrical attempt ever made by the school. Miss Bird as "Shylock" and Miss Walker as "Antonio" won the principal laurels. Among those who attended commencement were Mrs. A. J. Bird, Miss Nettie Bird, Mr. and Mrs. C. M. ## CAMDEN GETTING READY

For the Two Days' Visit of Houlton Sir Knights and Ladies—Visitors Will Be Well Entertained.

The plans of Camden Commandery, K. T. for entertaining St. Aldemar Commandery of Houlton on the 23rd and 24th of this month are practically completed. Including ladies there will be about 100 of the visitors, who will be accompanied by a band of 25 pieces. They will leave Houlton on the morning of June 23rd by rail to Stockton Springs and thence by Capt. W. D. Bennett's steamer Rockland. They will arrive in Camden about 5 p. m. Wednesday, June 23.

Camden Commandery will meet them at the wharf, with the Camden Band. The two commanderies will march in full uniform through the business section and some of the principal streets to Whitehall where the visitors will make their headquarters. It is hoped that the houses and stores along the line of march will decorate in honor of the visitors.

That evening there will be a ball in the opera house given to the visiting Knights. Only resident and visiting Knight Templars and invited ladies will attend the ball. Music will be furnished by the Camden Band.

The next day, June 24, the visiting Knights will probably be given an automobile ride over the town for about an hour. The steamer Rockland will then take the visiting Knights and the members of Camden Commandery on a trip across the bay. A clam bake and lobster and fish dinner will probably be served at Eagle Island. In the evening a social time and smoke talk will be enjoyed at the Masonic banquet hall. The visitors will leave early, but regretfully, the next morning by special boat.

## NORTH HAVEN

A number from this town went to Vinalhaven to attend the Grange meeting. All report a very enjoyable time.

Lewis Poss has had the telephone installed in his house.

A. C. Gillis has taken some good catches of herring from his weir the past week.

There will be a social dance every Wednesday and Saturday evening through the summer season in Calderwood's hall.

Lewis Herzog's automobile can be seen most every day on the highways. There are quite a number of people who are opposed to having automobiles in town. The first trip Mr. Herzog took he was surprised to be accosted by a lady, a non-resident, who earnestly advised him to take it out of town, but Mr. Herzog thinks it will remain this season, at least.

## CRIEHAVER

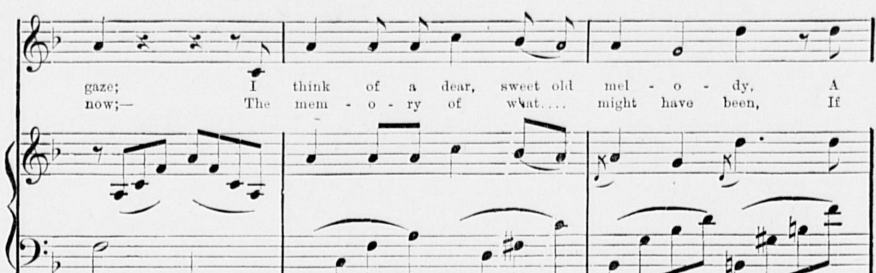

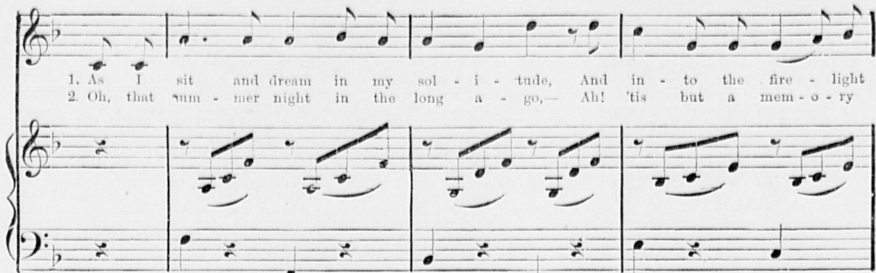

Mrs. Fred Rhodes and daughters arrived Saturday, accompanied by little Ethel Tolliday. They will remain during the season.

Improvements are being made in some of the buildings, and it is hoped that these will be carried still farther, as a benefit to the general appearance of the place.

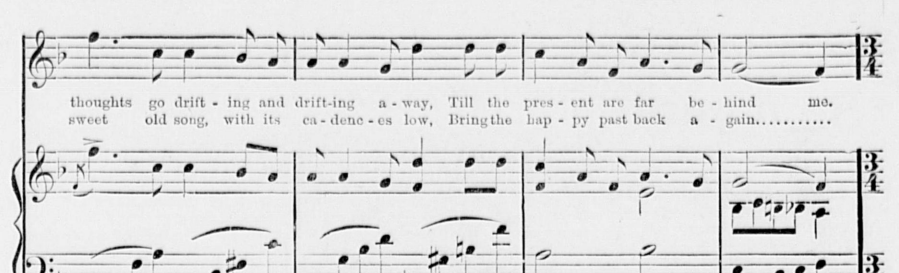

The attendance at the Sabbath school is steadily increasing, and includes at this time the most of the children in the community; and yet there is room.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease.

If kidney trouble is allowed to advance the kidneys poison the blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys.

Swamp-Root corrects inability to hold urine and seeping pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.

When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

## MEMORIAL WINDOWS

The Local W. T. C. U. Will Furnish One for Mr. Ufford's New Church—A "Fanny Crosby" Window Also.

When Rev. E. S. Ufford set forth a year ago to engage in gospel work, and interest those in his church project who might be favorably inclined to aid it, he was encouraged by the name of Governor Cobb upon his list as a starter for raising funds. Having been active in the temperance cause, Mr. Ufford has also been aided by his life of a white ribboner.

The Women's Christian Temperance Union of Sacramento, Calif., during his tour of the world, pinned the little bow of white upon him, which he carried all the long journey through, occupying a year and three weeks.

The local Union of Rockland is now interested in bearing some part in the cozy structure where the life line preacher may carry out a long career of which his church project is a memorial to his famous hymn. It is therefore their desire to furnish a memorial window, in the center of which will be a portrait of Fanny Crosby.

It will be a window of glass, with a picture of the original. The size of the window will be 2-1/2 x 1-1/2 feet, made in silver ripple glass, having a yellow border of cathedral glass, ornamented with ruby corners. Mrs. R. C. Hall, is president of the Union, and is interested in the movement, and Mrs. E. J. Southard, of Pacific street, is receiving contributions which the ladies may wish to send in to her for this object. Mr. Ufford is very grateful for this co-operation, and is cheered by the responses which in various ways are coming to him by those near or far.

One letter, containing a check, from the President of the National Union, is worthy of publication.

"Portland, Me., June 8, Rev. E. S. Ufford: My Dear Sir—My attention has been called to the work you are doing and propose to do in Rockland. I am very glad you are to reside in Maine. I enclose my little contribution. Did I not have so many calls for money, and comparatively so little to give, I would gladly make it a hundred fold larger. With sincere good wishes and grateful appreciation of your work, I am, Very truly yours, Lillian M. N. Stevens."

The window will be located in the north side of the vestibule entrance. The cost will be \$15.

Still another memorial of interest, not alone to women, but every lover of song, will be the Fanny Crosby window, "Rescue the Perishing," has been one of the rousing hymns of the moral reform movement. It is no doubt a pleasure to many of the ladies in this vicinity to be sharers also in this similar testimonial to the blind hymn writer, perhaps the greatest of the 19th century. The cost of this window will be \$17.

## YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and I thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

## A PORTLAND CURE

How a Disorder of Two Years Standing Was Banished by Building Up the Blood.

What anemia is, how to recognize it and the value of the famous Pink Pills with Dr. Williams' Pink Pills should be known by the mother of every growing girl. Anemia is simply lack of blood. It is one of the most common and dangerous diseases with which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls are too frequently allowed to over-study, overwork and suffer from lack of exercise.

Mrs. G. G. Nickerson, of No. 80 Atlantic street, Portland, Maine, recommends Dr. Williams' Pink Pills for anemia. Her cure after two years of sickness shows the merit of this blood-building medicine.

"A few years ago," she says, "I had been working hard and was completely worn out. My blood was in a poor condition and I had to stop work. I should have been in bed for a week just to drag around. I could not get up stairs without resting and would have dizzy spells. At times my heart would beat so fast that I thought I would die. I was as pale as a sheet. Everything that I ate caused me distress and I lived on crackers and milk for a long time.

"I was treated by a doctor for several months. He said my blood was in bad shape and that I would die if I didn't get more rest and strength. His medicine regularly but did not get any better. A woman stopped me on the street one day and urged me to try Dr. Williams' Pink Pills. I bought a box of them the same day and when I had taken a few boxes of the pills I began to feel good results. I found that my stomach would retain food without distressing me. I continued the treatment until I was strong and well. I was soon able to work again without getting all tired out. I have great faith in Dr. Williams' Pink Pills and do not hesitate to recommend them."

The tonic treatment with Dr. Williams' Pink Pills is successful because it acts directly on the blood, purifying and building it up to its normal health. It thereby keeps the system healthy even under unusual conditions.

Send today for a copy of our "Diseases of the Blood." It gives further information about anemia and is free upon request. Dr. Williams' Pink Pills are for sale by all druggists, or will be sent, postpaid, upon receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

### MILLIONS OF LOBSTERS.

Liberated in These Waters By United States Fish Commission—Fry Were Put Overboard at Monhegan, Metinic, Matineus and Vinalhaven.

The little steamer Gannett, in the service of the U. S. fish commission, and commanded by Capt. George Greenleaf, arrived here Friday, having completed the distribution of 15,000,000 infant lobsters. Capt. Greenleaf was assisted in the work by E. E. Hahn, superintendent of the hatchery at Boothbay Harbor.

Two million of the little crawlers were put overboard near Monhegan, a similar number at Metinic, three million at Matineus and eight million at Vinalhaven. In addition there were distributed among these waters some 500 lobsters which had been denuded of their eggs which offer the fishermen another chance of being caught.

The lobster fry put overboard from the Gannett Friday belongs to what is known as the third stage, the fish being 10 to 14 days of age and measuring about two-thirds of an inch in length. At the hatchery this spring 10,000 seed lobsters have been stripped thus far and the number will reach 14,000 before the season ends about August 1st. This will be slightly in excess of last season's work. In addition to distributing the fry and stripped lobsters Friday the Gannett also collected a number of seed lobsters. At the hatchery now there are 120,000 eggs in the process of developing into baby lobsters.

This work has been going on 10 years and fishermen in some sections are noting a largely increased number of small lobsters.

The sum of \$15,000 appropriated by the federal government is being expended. A portion of the funds will be used in enlarging the ponds at Penikese and building new dams there. This pond will have when completed a capacity of about 20,000 lobsters. At the hatchery plant, Boothbay Harbor, a new wharf is being built and a coal house erected. A permanent force is employed there, and during this season the number is augmented by the addition of 10 or 12.

Under the direction of Supt. Hahn good work is being done and the government's interests are being well guarded.

Sch. Hannah E. Pined, widow of the late Ebenezer Pined, died Sunday evening at her home on Atlantic avenue. Age 73 years.

The graduation exercises in Districts 3 and 4 began Friday forenoon in the grammar grade, taught by Miss George V. Miller. The class honors were shared by the three members as follows, in the program, which included some fine songs by the school and a class ode written for the occasion. The school has accomplished excellent work in music the past year and sang with much expression and good quality of tone. The salutatory and valedictory were brief but displayed careful thought. Miss Roberts' history and prophecy was particularly well written and was much appreciated by the visitors present. "The Building of the Ship" was nicely rendered. The program was as follows:

Songs, (a) "To Thee O Country," (b) "Spring is Come," school; salutatory, "Welcome," Douglas J. Grant; song, "By the Twilight," school; selection, "Building of the Ship," A and B classes; songs, (a) "Shell Song," (b) "Wave Maldens," school; history and prophecy, class '99, Mertie Roberts; songs, (a) "Welcome, Pretty Primrose," (b) "Peace," school; valedictory, "How Not Drift," Roy Johnson; class ode, "How Not Drift," school; presentation of diplomas, Supt. Coombs.

A large number of visitors Friday afternoon spent the school-room wherein taught Miss Ena Tucker and realized the treat promised in the graduation of the large class, which numbered 29. It would not be just to say there have been better class parts

written in a grammar grade. The essays also would have been creditable to more-advanced pupils and the original story and class ode by Alice Evelyn Lawry were highly complimented. The recitations selected were favorites and all combined to make the program though long an enjoyable one. The marshal was Errol Hopkins. The program: Song, Dixie, school; salutatory, "Beyond the Alps Lies Italy," Margaret Libby; "Manhood," Luther Burns; "The Changed Creed," Olive Sanderson; essay, "Longfellow," Florence Clark; song, "Silent Night," school; essay, "Evangeline," Besse Osgood; "There's But One Pair of Stockings to Mend Tonight," Carolyn Young; "History," Susie Wilson; "Washington," Victor Greene; song, "The Woodland Rose," school; essay, Rosa Bonheur; Sophronia Tolman; "A Good Name," Walden Oser; "Little Christel," Lillian Adams; essay, "Scott's Lady of the Lake," Esther Greene; song, "Last Night," school; prophecy, Harriet Vinal; "Things to Remember," Vaughn Johnson; "The Light Keeper's Daughter," Grace Colburn; essay, "Vinalhaven," Clarence Smith; song, "Spring Has Come," school; original story, "Jimmy," Alice Lawry; "Wreck of the Hesperus," Geneva Arty; essay, "Character," Velma Johnson; valedictory, "Theodore Roosevelt," Smith Hopkins; presentation of diplomas; class ode; song "My Mother," school. The program in Miss Beulah Sylvester's room, the Washington intermediate grade, was of the usual high standing as the program will show. The decorations in this room, displayed the color chosen by the class, "Violet," and a very artistic motto: Song, "O Happy Day," school; song, "A Circus Every Day," school; recitation, "June Days," Daisy Wall; recitation, "Beginning To Grow," Nettie Alley; song, "School Cadets," school; bird exercises, quotations, school; composition, "Life of Audubon," Arthur Chapman; song, "Comrade Robin," school; recitation, "Birds of Kellingsworth," Walter Noyes; recitation, "The Bird Army," Kenneth Smith; song, "The Bluebirds" (two parts) school; composition, "The Nature Poet," Vera Trefrey; recitation, "The Four Leaf Clover," Gladys Buckford; song, "A Laugh," school; recitation, "My New Neighbor," Lola Whyte; recitation, "To a Waterfall," Ernest Arty; recitation, "Flowers," Hester Foster; song, "Lullaby," school; Gladys Raymond; recitation, "Flower in the Wall," Susie Hamblin; recitation, "A Boy's Song," Gerald Roberts; recitation, "The Merry Brown Thrush," Mabel Smith; song, "Slumber Song," school. All of the schools had very interesting programs that were rendered in a manner reflecting credit upon both teachers and pupils.
