## AMONG THE FARMERS.

"SPREAD THE FLOW."

Correspondence on practical agricultural topics  
is invited. Address all communications to  
Editor, THE FARMER, 700 Congress St., Portland,  
Me.

What I Have Learned From Testing  
My Cows.

The following essay was submitted by  
K. Johnson of Meeker County, Minn.  
sota, in the Minnesota State contest  
for the best article on the above subject,  
and was awarded first prize. It is a  
very good recital of a growth in knowl-  
edge and practice and we take pleasure  
in presenting it to our readers.

The farmer who takes up dairying in  
an intelligent and thorough way cannot  
fail to make rapid strides toward im-  
provement, and in a relatively short  
time will be able to produce milk of  
very good quality and in large quantities.  
Dairying is one of the most paying  
branches of farming. Under fair  
circumstances the dairy cow will  
generally give two dollars' worth of  
milk in return for every dollar  
worth of feed given her. You will  
admit that that is really a good in-  
vestment.

To accomplish this we must give  
our dairy cows the right attention. Un-  
der the eye of the dairyman the cow  
is not a mere beast, but a creature  
of great intelligence and feeling. We  
must treat her as such. We must  
not neglect her, but we must not  
overfeed her. We must give her  
just what she needs, and no more.  
We must keep her healthy, and we  
must keep her happy. We must  
give her a good home, and we must  
give her a good life.

At that time our cows averaged 125  
pounds of butterfat per year. Then  
I began to study and read a little  
on dairying. Did you get that?—  
"study and read." That is the first  
thing I learned. I saw that things  
could be done better. I saw that we  
could get more out of our cows. I  
began to take care of them. I began  
to feed them right. I began to keep  
them healthy. I began to keep them  
happy. I began to give them a good  
home. I began to give them a good  
life.

## The Future Farmer.

Says Gerald Stanley Lee in his book on

"Crowds": "We want dairy future."  
Nowhere in our great and complex civi-  
lization is this want more clearly ex-  
pressed than in the minds of the Amer-  
ican farmer. And it is the right kind of  
a future that we want. When that idea  
becomes implanted in the minds of our  
citizens, we will be able to produce  
the food of the future and to present to  
the world the right kind of a future in  
the face of every American farmer and  
his family.

Farming for the present alone, is what  
has destroyed the fertility and brought a  
wasted life to thousands upon thousands  
of American farmers. The farmer who  
has had no sense of a right future in  
his soul; and because he had no sense  
of a right future, he has been a failure  
in his life. He has been a failure in his  
life because he has been a failure in his  
soul. He has been a failure in his soul  
because he has been a failure in his life.  
He has been a failure in his life because  
he has been a failure in his soul. He  
has been a failure in his soul because  
he has been a failure in his life.

Wherever we look we find that the  
good man of the future is the man who  
is not only a farmer, but a man who  
is a good man. He is a good man  
because he is a farmer. He is a farmer  
because he is a good man. He is a  
good man because he is a farmer. He  
is a farmer because he is a good man.  
He is a good man because he is a  
farmer. He is a farmer because he is  
a good man. He is a good man be-  
cause he is a farmer. He is a farmer  
because he is a good man.

Many of the later conclusions of life  
have been a long time coming. Men  
find themselves obliged to reverse the  
order of their thought and judgment.  
It has been a long time coming. It  
has been a long time coming. It has  
been a long time coming. It has been  
a long time coming. It has been a  
long time coming. It has been a long  
time coming. It has been a long time  
coming. It has been a long time com-  
ing. It has been a long time coming.

At that time our cows averaged 125  
pounds of butterfat per year. Then  
I began to study and read a little  
on dairying. Did you get that?—

World's Greatest  
Short Stories  
No. IV.

## THE FALL OF THE HOUSE OF USHER

By Edgar Allan Poe

Twenty-four famous authors were  
asked recently to name the best  
short story in the English language.  
The choice of Gouverneur Morris  
was "The Fall of the House of  
Usher," by Edgar Allan Poe, who  
won world renown as a short story  
writer.

PART I.

DURING the whole of a dull,  
dark and soundless day in the  
autumn of the year, when the  
heavens had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

My horse had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

My horse had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

My horse had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

My horse had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

My horse had been for many days  
on horseback, through a singularly  
dreary tract of country, and at  
length found myself, as the shades of  
evening grew on, within view of the  
melancholy House of Usher.

that the glimpse I had obtained of her  
person would thus probably be the last  
I should obtain—that the lady, at least  
while in living, would be seen by me no  
more.

For several days ensuing her name  
was unmentioned by either Usher or  
myself, and during this period I was  
bused in earnest endeavors to allert  
the melancholy of my friend. We  
talked and read together, or I listened  
as if in a dream to the wild im-  
provisations to his speaking guitar.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream. I  
shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

archway through which we reached it  
were carefully shrouded with copper.

The door, of massive iron, had been  
also similarly protected. Its immense  
weight caused an unusually sharp  
grating sound as it moved upon its  
blindings.

Having deposited our mournful bur-  
den upon the floor within this region  
of horror, we partially turned aside  
the yet unopened lid of the coffin and  
looked upon the face of the tenant.  
The countenance was ghastly and  
staring, and the expression of the  
features was one of intense horror.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

thenceforth steadily, he so cracked and  
rippled and tore all asunder that the  
noise of the dry and hollow sounding  
wood, innumerable and reverberated  
throughout the forest."

At the termination of this sentence  
I started, and for a moment paused,  
for it appeared to me (although I  
had conceived that my excited fancy  
had deceived me) that from some very  
remote portion of the mansion there  
came indistinctly to my ears what  
might have been in its exact simi-  
larity of character, the echo (but a stifled  
and dull one certainly) of the very  
cracking and ripping sound which Sir  
Launcest had so particularly described.

I continued the story:  
"But the good champion Etheldred,  
now entering within the door, was  
soon enraged and amazed to perceive  
no signal of the malicious hermit; but  
in the stead thereof, a dragon in  
scales and prodigious dimensions, and  
of a fiery tongue, which sat in guard  
before a palace of gold, with a floor  
of silver, and upon the wall there hung  
a shield of shining brass with this leg-  
end enwritten:  
Who entereth herein a conqueror hath  
won; and slayeth the dragon, the shield he  
shall win."

And Etheldred, upon the crest of the dragon,  
struck upon the head of the dragon,  
which fell before him and gave up his  
spirit, with a shriek so horrid and  
harsh and withal so piercing that  
Etheldred had fain to close his ears  
with his hands against the dreadful  
noise of it, the like whereof was never  
before known to mortal ears.

Here again I paused abruptly, and  
saw with a feeling of wild amazement,  
for there could be no doubt whatever  
that in this instance I had actually  
heard, although from some very re-  
mote portion of the mansion, a low  
and apparently distant, but harsh,  
protracted and most unusual  
screaming or grating sound—the exact  
counterpart of what my fancy had al-  
ready conjured up for the dragon's un-  
natural shriek.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

I shall ever bear about me a memory  
of the more prominent objects around  
me, as if I had been in a dream.

assure of which I have before spoken  
as arising from the roof of the  
building in a zigzag direction to the  
base. While I gazed this assurance  
widened, there came a fierce breath  
of the whirlwind, the entire orb of the  
satellite burst at once upon my sight,  
my brain reeled as I felt the mighty  
wall rushing under, and there was a  
long, tumultuous shouting sound like  
the voice of a thousand waters, and  
the deep and dank tank at my feet  
closed sullenly and silently over the  
fragments of the "House of Usher."

Elephant and Tiger Family.  
One of the most interesting employ-  
ments of the elephant is in hunting ti-  
gers. From the lofty back of his ele-  
phant, at a height which, increased by  
the howdah, may be twelve or fourteen  
feet above the ground, the hunter can  
take his aim at a tiger with as coolness  
as he would possess if facing the  
animal on terra firma. If, as some-  
times occurs, the tiger makes a leap  
for the elephant he seldom succeeds in  
attaining the man in the howdah, al-  
though the driver in his exposed po-  
sition on the elephant's neck, is in great-  
er danger.

There seems to be a natural enemy  
between elephants and tigers, although  
an elephant will not attack a tiger un-  
less cornered or unless he is so badly  
wounded that he is unable to fight.  
But then a good fighting elephant will  
go him to death or literally crush him  
by kneeling on him. It is said that  
the mere presence of a dead tiger  
will drive an elephant to fury.—  
Spokane Spokesman-Review.

No Place For Ladies.  
A famous foreign newspaper cor-  
respondent, a German, was stopping at  
a seaside hotel where the custom was  
to follow the New England  
custom, were nearly all college girls,  
working during vacation in order to  
keep themselves at school the rest of  
the year.

The spectated young person who pre-  
sented a table with the German  
newspaper man was undoubtedly of  
excellent breeding, but she never seem-  
ed to remember whether the eggs were  
to be fried on one side or scrambled on  
both.

Finally, one evening after he had  
been served with a meal entirely dif-  
ferent from the one he had ordered,  
the foreigner lost his temper and spoke  
rather sharply to the young woman.  
"Easy there!" admonished his table  
mate, an American waiter. "She's a  
German, you know, old man."  
"But I do not want a lady," said the  
German plaintively. "I want a waiter!"  
—Saturday Evening Post.

The Ax In the Glacier.  
Zurbriggen, one of the celebrated  
mountain climbers of the world, in  
scaling a peak of Los Angeles, near  
Chamonix, accidentally let his ice  
fall from near the summit of the peak.  
It fell some thousands of feet. In the  
normal course of things it was hurled  
down, being covered deeper and deeper  
each year, and at the same time being  
carried slowly downward as the ice  
flowed on. Seven or eight years after-  
ward Hon. C. G. Gracie and Harkbar,  
a sepochy chief, in descending the  
Alps, happened to find the falling ice  
and a massive barrier of the way, being  
unable to find the bridge over it, cut  
a path down to the bottom, where Hark-  
bar stepped on an ax which had "M.  
Z." Zurbriggen's initials on the handle.  
There could be no mistake as to the  
fall, and the ax was as Harkbar had  
identified it and used it before.—Christian  
Herald.

A Heroic Slave.  
There was a humble slave in the pal-  
ace of the Caliph Haroun al Raschid,  
and in his audience chamber  
twenty rare vases, and it was  
written in the laws of Bagdad that  
who should have the misfortune to  
break one of these would pay the pe-  
nalty with his life. This slave was  
brother of the Caliph's and was  
tried and condemned to death. But  
the caliph had no sooner pronounced  
sentence on him than the slave turned  
around, and walking calmly to the  
twenty vases, with one sweep of the arm  
destroyed them all.  
"Why have you done that barbarous  
deed?"  
"To save the lives of nineteen of my  
fellow countrymen," the doomed slave  
replied.

South Paris, Maine, July 28, 1914

ATWOOD & FORBES,  
Editors and Proprietors.

GEORGE M. ATWOOD. A. K. FORBES.

TERMS.—\$1.50 a year if paid strictly in advance.  
Advertisements.—All legal advertisements  
are given three consecutive insertions for \$1.50  
per inch in length of column. Special con-  
tracts made with local, transient and yearly  
advertisers.

Here and There.

Even the Boston Herald in its editorial  
page drops occasionally into archaic  
forms, as for instance when it refers to  
"sweet peas."

A recent news paragraph calls attention  
to the fact that in 1910 Charles E.  
Hamilton made a record flight from New  
York to Philadelphia and return. Only  
four years ago.

Lincoln Beachey tells Lieut. Forster that  
it is useless to try the flight across the  
Atlantic. Not the first time we have  
heard of the devil rebuking sin.

The grown-up has never eaten such  
delicious raspberries as those we found  
in the fence row on a hot day returning  
from the swimming beach.

And never will, so long as the earth  
shall stand.

Society notes: Mrs. Angie, held for  
investigation by the police in connection  
with a recent death, has gone to her  
summer home in Maine, where she antici-  
pates a pleasant season. Mrs. Carman,  
under indictment for manslaughter, has  
decided to give up the quiet summer  
which she had intended, and will accept a  
number of the most fashionable resorts  
with her presence for a short time each.

A Kansas paper calls for the extermina-  
tion of the mosquito. Everybody  
would be willing to vote for that. Also  
for the abolition of poverty. And they  
will be accomplished about the same  
time.

Even now that Huerta is eliminated,  
the Washington dispatches say that  
"Peace is by no means assured in Mex-  
ico." Almost superfluous information to  
intelligent readers.

Treatment of Work Horses.

The Boston Work Horse Relief Asso-  
ciation sends out the following hot weather  
rules. They are worth reading and fol-  
lowing:

1. Load lightly and drive slowly.

2. Stop in the shade if possible.

3. Water your horse as often as pos-  
sible. So long as the horse is working, he  
will not hurt him. But let him drink only a few  
swallows if he is going to stand still. Do  
not fail to water him at night after he  
has eaten his hay.

4. When he comes in after work,  
sponge off the harness marks and sweat,  
his eyes, his nose and mouth, and the  
dock. Wash his feet but not his legs.

5. If the thermometer is 75 degrees  
or higher, wipe him all over with a wet  
sponge. Use vinegar if he is possible.  
Do not turn the horse on him.

6. Saturday night, give a bran mash,  
cold; add a tablespoon of salt per  
7. Do not use a horse for a day after he  
has been worked. The ordinary bell-shaped  
hat does more harm than good.

8. A sponge on top of the head, or  
even a cloth, is good if kept wet. If dry  
it is worse than nothing.

9. If the horse is overcome by heat,  
get him into the shade, remove harness  
and bridle, wash out his mouth, sponge  
him all over, shower his legs, and give  
him four ounces of aromatic spirits of  
ammonia, or two ounces of sweet spirits  
of nitre, in a pint of water; or give him  
a pint of coffee water. Cool his head at  
once, using cold water, or, if necessary,  
chopped ice, wrapped in a cloth.

10. If the horse is off his feed, try  
him with two quarts of oats mixed with  
bran, and a little water; and add a little  
salt or sugar. Or give him oatmeal gruel  
or barley water to drink.

11. Watch your horse. If he stops  
sweating suddenly, or if he breathes  
short and quick, or if he sneezes, or if  
he stands with his legs braced together,  
he is in danger of a heat or sun  
stroke, and needs attention at once.

12. If it is so hot that the horse  
sweats in the stable at night, he is in  
danger. Unless he cools off during the  
night, he cannot well stand the next  
day's heat.

War Is What?

SOME VARIOUS POINTS OF VIEW THAT  
REACH FAR AND NEAR.

The Battered Man—Chance to break  
the deadly routine of the parade ground  
with some real excitement. In isolated  
cases to provide opportunities for mili-  
tary or political advancement.

The Business Man—A period of eco-  
nomical depression, often followed by  
large failures and the consequent loss of  
the public's investments.

The Volunteer—A stern patriotic duty  
to be entered upon without inquiry as  
to its justice or injustice.

The Philosopher—An uninteresting  
and gross instrument for the settlement  
of the world's unavoidable quarrels.

The Historian—A logical, if somewhat  
regrettable, method of arranging the  
world's boundary lines.

The Optimist—"The natural strife of  
humanity, tending toward the general  
betterment of the social common."

The Pessimist—"The natural strife of  
humanity, tending toward the general  
destruction of the universe."

The Mother—"A long vigil in an empty  
room and memory of child voices forever  
stilled."

The Wife—"A husband gone, a home  
destroyed and a woman's heart broken."

The Soldier—"The last great barrier  
between civilization and the millennium—  
Life."

The latest addition to the fighting force  
of the United States navy, the torpedo  
boat destroyer launched at Philadelphia  
on Monday, is named the O'Brien. It  
was christened by Miss Maria Bradbury  
Campbell of Cherryfield, Maine, a great-  
granddaughter of Capt. Joseph O'Brien,  
the leader of the first naval en-  
gagement of the Revolution off Machias,  
for whom the destroyer is named.

## THE OXFORD BEARS.

### THE DOINGS OF THE WEEK IN ALL SECTIONS OF THE COUNTY.

Paris Hill.

First Baptist Church, Rev. G. W. F. Hill, pas-  
tor. Preaching every Sunday at 10:30 A. M.  
and 7:30 P. M. Prayer meeting Thursday evening  
at 7:30. Communion the last Friday before  
the 1st Sunday of the month. All are  
not otherwise connected are cordially  
invited.

Arthur J. Daniels, of Berlin, N. H., is  
spending his vacation with his mother  
and brother, at Paris Hill.

Essendon Post, G. A. R., and Warren  
C. S. of V. M. Smith donates the flag  
pole and the flag is to be in the keeping  
of the Sons of Veterans camp and is  
played on all public and patriotic oc-  
casions.

Mrs. Bertha Twitcheell, of Jamaica  
Plain, Mass., was the guest of her rela-  
tives in Paris last week.

The entertainment and dance given  
under the auspices of the Universalist  
Church Friday evening at 8 o'clock, was  
a large audience. The program of music  
and readings was of high class and re-  
flected much credit upon all who took  
part. The violin solos by Miss Marion  
Haskell, the piano solos by Miss Ruth  
Cummings, the readings by Mr. Knick-  
erbocker and the songs by Miss Mary  
Little, all abounded in a high or-  
der and every number on the program  
received a hearty encore.

The mixed fours tournament on  
the golf links Friday and Saturday was  
an interesting contest and was won by  
Mr. Mathewson and Miss Weimer, de-  
feating the finals Arthur Shaw and  
Miss Josephine Cole.

Next Friday and Saturday at the courts  
of the Paris Hill Country Club there will  
be a tennis tournament commencing  
Friday morning at nine o'clock. On  
Saturday afternoon from four to six  
o'clock a tea will be given by Mrs.  
Davies.

Miss Olivia E. Phelps Stokes, of New  
York, who has spent several previous  
seasons at Paris Hill, will return here  
the present week and will occupy the  
home of Mr. and Mrs. Atwood for the  
month of August.

Mr. and Mrs. Arthur P. Champlin and  
two children and Mr. and Mrs. Chas. B.  
Mitchell of Portland, were at Paris Hill  
Sunday.

Greenwood.

Several persons have called and visited  
here during the past week, and probably  
more will before it closes. We all know  
what last week was for getting hay,  
while this has been somewhat below the  
standard at times.

O. L. Peabody still keeps his farm on  
Patch Mountain and is now cutting his  
hay on it, while his mother does the  
housework.

A letter from D. O. Davis of Minnesota  
informs us that the season was very  
dry until the first of July, so that the  
crops are about three weeks late; but  
since then the weather has been fine, and  
everything is looking in. In answer to the  
question about the apple crop, will say  
it looks promising, as does also the  
small fruit, except strawberries, which  
are past their prime. He will be 32 Jan-  
uary, and, except an occasional lameness  
he calls himself well preserved for a  
person of that age, and especially when  
he has lived four years of his army life  
in the civil war.

Recently the question was asked in  
some paper, "Who has the button?"  
Now it happens that we have it, and  
not only one but two of them; and here  
will give the history of each in a nut-  
shell.

The first mention is of solid copper  
nearly an inch in diameter, concave  
convex in form, the button and eye being  
one solid piece. In the upper surface is  
a six-rayed star and round the edge a  
small rim. The under surface contains  
only the English crown and the words,  
"Best quality," in small letters. That  
button was one of a set that father  
wore on a swallow tail coat twenty-five  
years ago, and being washed in some  
kind of white metal which he looked  
more like silver than copper.

The other button is brass, a size smaller  
than the other, flat instead of convex,  
and worn by an uncle at the same time.  
On the upper side there lies an open  
circle, probably intended for the Bible,  
around which are the words in raised  
letters, "In God we trust." Possibly  
those words were true in those days  
now, unless the golden calf is intended.

Gilead.

Nathan Coffin of Gorham, N. H., was  
in town last Tuesday on business.

Mrs. Sumner Griffin and son of Lewiston  
have been visiting relatives and friends  
in this place.

J. E. Richardson and family have re-  
turned home from Norway, having been  
called there by the sudden death of Mrs.  
Richardson's sister, Mrs. M. R. Bennett.  
Lawrence Phillips of Shelburne, N.  
H., was in town recently.

Frank Coffin was in Norway last week.

A. D. Wright and family were in Bethel  
recently.

Oxford.

Mrs. Emma Martin, widow of John  
Martin, died at the home of her daughter,  
Mrs. Wm. Bezel, Sunday, July 19th.

The funeral was held at the home of Mr.  
Byrd, Rev. Mr. Finkham officiated,  
and was attended by Mr. Holman and Miss  
Ruth Glover. The service was very im-  
pressive, and the large number testified  
to the esteem in which she was held.

There were many flowers, the gifts of  
friends, and masses of beautiful water-  
lilies covered and surrounded the cas-  
ket. She leaves two sons, Charles and  
Frank Martin, and two daughters, Mrs.  
Hattie Boyd and Mrs. Bettie Miller.  
Several grandchildren and other relatives.

North Stoneham.

I. A. Andrews was called to Bethel to  
see his father, Eldon Andrews, who is  
sick.

Mrs. Bertha Keniston and children and  
a Miss Brackett of Lowell went around  
the lake with George Fox Sunday.

Lyman Chute and crew have gone to  
Harrison to do the haying on his farm.

Lizzie Adams from Portland is visit-  
ing her parents, Mr. and Mrs. Sylvester  
Adams.

John Wilson of North Lovell is help-  
ing H. B. McKenney.

Amos McKenney of North Lovell is cut-  
ting the hay on W. Durgin's farm.

Brownfield.

Friday evening, the 17th, a terrific  
thunder storm passed over this town. It  
struck in a sudden and unexpected way.  
There are quite a good many strangers  
in the village.

Richard Rounds is rushing work on  
his new house. When it is completed he  
will have one of the finest cottages in  
this vicinity.

Little Rupert Johnson, who broke his  
arm playing ball and was taken to the  
hospital in Portland, is at home again  
with a fairly good arm.

Mrs. Sylvia Gilpatrick, who has been  
very ill, is gaining slowly, but is still  
very feeble.

Blueberries are plenty here.

Locke's Mills.

Earle Farrington is having his build-  
ings painted.

Mr. and Mrs. Chester Buck, of West  
Paris, called at David Foster's Sunday.

Friends in town Tuesday. She expects  
to spend a part of September at "Outside  
In."

Mrs. Frowell and children, Mr. and  
Mrs. James Howell, Mrs. Lynn Maden,  
of Berlin, N. H., and Mr. and Mrs. Rose  
of Philadelphia are at "Camp Echo."

Mrs. Lottie Elliott of Bethel is visit-  
ing her sister, Mrs. J. C. Littlefield.

C. B. Tobbetts has returned from  
visiting her parents at Durham.

Mr. Bragg, our Grand Union man, was  
in town Thursday.

East Waterford.

Mrs. Jennie Willey and daughter Mil-  
dred of Wakefield, Mass., and Mrs. Abbie  
McIntire of Reading, Mass., are guests at  
J. E. McIntire's.

Mrs. William Egan and son Louis of  
Bridgton spent Saturday night and Sun-  
day at S. S. Hall's.

Mrs. Helen M. Landon and friend  
granddaughter, Capt. Jerome L. Landon  
of Philadelphia, are at "Camp Echo."

B. G. McIntire and family are at Pine  
Lodge, Pappoose Pond, this week.

West Paris.

The Universalist church will be closed  
during the month of August, and the  
pastor will spend his vacation as usual  
at the Universalist meetings at Ferry  
Beach.

Mrs. Nelson, State Bible Missionary,  
who has been at Ferry Beach, is at home  
this week.

Seth Marston has returned from Ohio.  
A good number started by team and  
saw for the berry picking fields at  
Ferry Beach.

Mrs. Flora Dunham of Brook-  
line, Mass., has been a guest at Quincy  
Day's and Bert Day's during the past  
week.

Mrs. P. J. Miles and daughter Zola of  
Gorham, N. H., who have been the guests  
of friends here, returned home Sunday.

Mr. Miles came from in the auto and  
the family of Frank Ring came and were  
guests during the day at Bert Day's.

Mrs. Clara Thayer of South Paris was  
the guest Wednesday of her cousin, Mrs.  
Maud Day.

Mr. and Mrs. Lewis Mann are spend-  
ing weeks at their cottage at Bryant  
Pond.

The body of Preston G. Lowe was  
brought here Wednesday from Rumford  
and buried in the family lot under the  
auspices of Evening Star.

Mr. Lowe formerly lived here in the  
farm now owned by Lester Hickey.  
He sold to the body of Farmington is  
the guest of his grandfather, Rev. Seth Ben-  
son.

Hazel Bennett of Stratford is visiting  
at Charles H. Shaw's.

Mrs. Ellen Briggs is visiting her daugh-  
ter, Mrs. N. I. Swan, at Bryant Pond.

C. S. Bacon, who has been confined to  
his bed for several weeks, is now able to  
walk, and is on the street.

Mrs. Ellen Moody has been with the  
family of Samuel E. Jones, Jr., at Norway,  
during the past week.

Mr. and Mrs. Vernal Bates of New  
Haven, Conn., spent a few days with the  
family before going to his camp at Lit-  
tle Concord Pond.

Oscar Peabody is cutting the hay on  
his farm in Greenwood.

C. H. Lane is at Tripp Pond, Poland,  
with Mr. and Mrs. A. C. Shortell.

Mr. Leon Berry has been a recent  
guest of his parents, Mr. and Mrs. Will  
Berry.

Charles Merrill and Mrs. Lucella Mor-  
rison of Norway were here Sunday to at-  
tend the funeral of their relative, Henry  
B. Dunham.

Howard Lane has greatly improved the  
main entrance to his store by putting a  
corner entrance from Main and Church  
streets, thus avoiding the long climb  
down Main street.

A new cement sidewalk on  
Main street.

Mr. Charles Pratt has purchased the  
old house of Mrs. Hattie Mooney Lyons  
and the Hatfield family have moved to  
Main street.

Mr. and Mrs. Albert Ryder of Free-  
port are guests of Mrs. Ryder's sister,  
Mrs. Levi Shedd, and other relatives.

Bryant's Pond.

One of the events near at hand is the  
fair to be given under the patronage of  
the village society, which is to take place  
at the opera house, July 29 and 30. This  
fair is held for the purpose of increasing  
the sidewalk fund. The effort means a  
lot of work for the various committees  
who desire to make it a success. There  
will be many attractive booths and there  
will be a chance to purchase almost any-  
thing in the fancy line.

Black bass are coming to the surface  
rapidly this month, and everybody who  
cares to fish can have a good chance.  
Our hundred summer visitors  
seem to enjoy life, fishing, boating and  
bathing.

A new street light will soon be in-  
stalled on Meader Hill, making eight  
within the village limits. The amount  
is being raised by private subscription.

Through the month of August meet-  
ings will be held at the Universalist  
church each Sunday afternoon, services  
commencing at 2:30 P. M. The church  
is directed by Rev. C. G. Miller of South  
Paris.

The farmers are getting deep into their  
work this week, and in their rush find  
it difficult to obtain all the help needed.

The ladies of the Baptist society have  
made it possible to bring about thorough  
repairs on the interior of their church.  
Workmen are engaged in papering, paint-  
ing and laying new carpets, which makes  
a very decided and welcome improve-  
ment in its appearance.

Miss Leigh Wilson, recently from this  
Boston Conservatory of Music, has been  
the guest of her grandmother, Mrs. Ed-  
win Thompson. She returned to her  
home in Davis, West Virginia, Friday.

West Sumner.

Mrs. Hattie Howe is quite ill with  
bronchitis. She has been cared for by  
her daughter, Mrs. Merrill of Rumford.

Mrs. Emily Young is at A. G. Farrar's.  
Mrs. Lillian Martin is visiting at P. G.  
Barrett's.

Miss Evie Vining of Abington, Mass.,  
is spending a week with her sister, Mrs.  
Chas. A. Barrow.

Miss Emily Tuell motored to Gardiner  
on Sunday with Mr. and Mrs. S. B. Bu-  
bier of Paris.

Miss Kate G. Nelson, representing the  
Chase Bible Society, is boarding at Mrs.  
Heald's.

H. N. Bradgdon's moving picture  
shows are being well patronized, and are  
very popular.

W. A. Bartlett has a new horse.  
Another exhibition will be held next  
Wednesday evening.

Rev. Chester G. Miller will occupy  
the pulpit in the Universalist church  
every Sunday during the month of Aug-  
ust at 10:45 A. M.

East Sumner.

The Arthur Heald family of South  
Weymouth, Mass., were in town a day  
or two last week while en route for W. J.  
Heald's camp at Quonago. They came  
by auto.

Rev. L. M. Robinson is on his annual  
vacation at his home on a farm, and is  
to put up another building for the stor-  
ing of farm implements and other prop-  
erty.

A room at Walter Russell's is well  
fitted with groceries and other goods for  
sale at reasonable prices.

Mrs. Lizzie Irish of Somerville, Mass.,  
is a guest of Mrs. Rebecca Russell.

Kind neighbors have assisted Ariel W.  
Horton in securing a hay crop. As Mr.  
Horton lost his only horse when most  
needed.

Blueberry pickers are well paid for their  
labor, as raspberries are scarce and plenty  
of blueberries are also coming on quite  
well.

The frequent rains have made the gar-  
dening work very promising, but have pro-  
longed the haying season.

East Bethel.

Making hay while the sun shines is  
the work.

Chas. G. Kimball is working through  
haying for Mrs. Susan Bean.

Miss Edna Burdett visited relatives at  
Bethel village last week.

Mrs. Bertha Cole recently visited her  
parents, Mr. and Mrs. L. E. Cole.

Mr. Porter Farwell recently visited  
his daughter, Mrs. B. J. Russell, and fam-  
ily, at Woodford.

Mrs. Lucetta Bean has returned home  
from Norway for her usual vacation.

Albert S. W. is at home from Oxford  
and working for Z. W. Bartlett.

Mr. and Mrs. W. H. Partridge of Bos-  
ton were recent guests of Mr. and Mrs.  
J. L. Holt.

Mr. Irving Kimball of Boston has been  
spending a short vacation with her  
parents, Mr. and Mrs. J. L. Holt.

Dickvale.

During an electrical storm the light-  
ning struck half way between David  
Cheney's house and Mrs. E. A. Richard-  
son's, but did no damage.

Maurice Tracy is working for his  
father, R. S. Tracy.

Mrs. E. A. Richardson and daughter  
Mabel visited relatives in Frye one day  
last week.

David Cheney is working for L. K.  
Lorway, haying.

Idella Wyman from Weld is visiting  
her grandparents, J. C. Wyman and  
Mrs. E. G. Childs and wife visited friends  
in East Fern one day last week.

West Paris.

The Universalist church will be closed  
during the month of August, and the  
pastor will spend his vacation as usual  
at the Universalist meetings at Ferry  
Beach.

Mrs. Nelson, State Bible Missionary,  
who has been at Ferry Beach, is at home  
this week.

Seth Marston has returned from Ohio.  
A good number started by team and  
saw for the berry picking fields at  
Ferry Beach.

Mrs. Flora Dunham of Brook-  
line, Mass., has been a guest at Quincy  
Day's and Bert Day's during the past  
week.

Mrs. P. J. Miles and daughter Zola of  
Gorham, N. H., who have been the guests  
of friends here, returned home Sunday.

Mr. Miles came from in the auto and  
the family of Frank Ring came and were  
guests during the day at Bert Day's.

Mrs. Clara Thayer of South Paris was  
the guest Wednesday of her cousin, Mrs.  
Maud Day.

Mr. and Mrs. Lewis Mann are spend-  
ing weeks at their cottage at Bryant  
Pond.

The body of Preston G. Lowe was  
brought here Wednesday from Rumford  
and buried in the family lot under the  
auspices of Evening Star.

Mr. Lowe formerly lived here in the  
farm now owned by Lester Hickey.  
He sold to the body of Farmington is  
the guest of his grandfather, Rev. Seth Ben-  
son.

Hazel Bennett of Stratford is visiting  
at Charles H. Shaw's.

Mrs. Ellen Briggs is visiting her daugh-  
ter, Mrs. N. I. Swan, at Bryant Pond.

C. S. Bacon, who has been confined to  
his bed for several weeks, is now able to  
walk, and is on the street.

Mrs. Ellen Moody has been with the  
family of Samuel E. Jones, Jr., at Norway,  
during the past week.

Mr. and Mrs. Vernal Bates of New  
Haven, Conn., spent a few days with the  
family before going to his camp at Lit-  
tle Concord Pond.

Oscar Peabody is cutting the hay on  
his farm in Greenwood.

C. H. Lane is at Tripp Pond, Poland,  
with Mr. and Mrs. A. C. Shortell.

Mr. Leon Berry has been a recent  
guest of his parents, Mr. and Mrs. Will  
Berry.

Charles Merrill and Mrs. Luc

# William Tell Flour

## Makes Cakes Like This!

Light, tender, mouth-melting cake, the kind that you are proud to serve, whether it is just a cake you stirred up for the family or a splendid big rich one for the birthday party.

Wonderful for pastry, too, and just as good for biscuits, hot rolls and bread.

Goes farther—a help in household economy—because it is milled by a special process from Ohio Red Winter Wheat.

Your grocer will have it. Good grocers like to sell **William Tell Flour**

# The Shaw Business College

NO PAYMENT IN ADVANCE has been the policy of this institution for thirty years. It has been the policy of the college to give the student a full examination of the goods, and a test of their quality before payment is required. No other school in New England has faith enough in you or itself to allow this.

Our Guarantee—Full Satisfaction or No Payment.

PORTLAND, BANGOR, AUGUSTA. SUMMER SCHOOL AT SOUTH CASCO.

# Dr. Hess Fly Chaser

Costs \$1.00 a Gallon at the TUCKER HARNESS STORE.

It is guaranteed to be one of the best fly oils made. Try a Gal.

James N. Favor, PROP. OF THE TUCKER HARNESS STORE.

Efficiency in the Kitchen.

It has become more and more recognized of late years that there is a good way and a poor way of doing housework, just as any other line of work. Various attempts have been made to economize the labor of the housewife, but it was not until efficiency managers had revolutionized office and factory that an efficiency manager appeared and demonstrated that there is as much science in running a house as a business.

The woman who evolved this great idea is Mrs. Christine Frederick, who established the Appliance Experiment Station, at Greenlawn, L. I. She also wrote a book upon the subject, but her real worth to her theories was never fully appreciated until her model kitchen and laundry were shown in operation at the Efficiency Exposition in New York City early in April.

The word "efficiency" frightens a great many women, who imagine that the necessary equipment is expensive and complicated, and that theory and practice cannot go hand in hand. Of course there are unscientific Mrs. Fredericks' kitchen that are not founded in fact, but that is owing to the shortsightedness of the mistress, or possibly to her ignorance of their advantage. The man of the house, be he farmer or city dweller, who keeps himself supplied with all the latest devices that will assist him in his work, knowing that any tool that enables him to save time accomplishes his task more effectively will pay for itself in a short time. Woman, more conservative, clings to the dustpan, the scrubbing brush and the dishcloth of her mother and grandmother, and then wonders why she ages more rapidly than her husband.

The saving of needless steps is the first principle of Mrs. Frederick's plan for the conservation of energy. She insists that there should be no haphazard arrangement of the furniture, the ice box in the far corner because it best fits there—the sink where the plumber has seen fit to place the drain, the kitchen, on account of pipe connections. These items should be considered carefully in the beginning.

All food preparation starts from the ice-box. This should be built in the wall whenever possible, so that the ice-man can put in the ice without ever entering the kitchen. Many country housekeepers will hold their hands in horror at the expense. "We've always kept the ice-box on the porch, and that was sufficient to keep the ice from cracking up the kitchen floor." But does the utterer of these words realize the energy expended in going back and forth between porch and kitchen for every article wanted from the refrigerator? And, moreover, does she realize the waste of ice, due to the much higher temperature in which the ice box stands outside?

Assuming that she has seen the wisdom of having a modern ice receptacle, the next item to be considered is the kitchen cabinet. Here again conservatism must be combated—though fortunately not to such an extent as formerly. "Why, I've always had a big pantry to keep my things in, and I'd feel squeezed to death with everything jumbled together in a cupboard." But everything is not jumbled together in the up-to-date cabinet. There is the maximum of ease with the minimum of space—heir ar bin, the sugar box, the bread box (mouse proof), drawers for canned goods, cutlery, milk tickets, cook books, small change; revolving rack for condiment jars, sliding shelf for pots and pans, rolling pin rack, utensil books, cutting board—everything that one needs, without the necessity of moving from her place.

After preparation of the food the next step is cooking, so close to the cabinet stands the fireless cooking gas range with its hood attachment. The cost of this range is \$50.00, and though it may appear expensive, the immense saving in fuel soon places it in the class of money savers. For example, a range is placed in the oven and heat applied for about twelve minutes. The gas is then turned off and at the expiration of thirty minutes the oven door is opened and the meat found done to a turn. The hood attachment is used for gases prepared in top of the stove—cereals, vegetables and the like. Heat is applied for about five minutes, or until the boiling point is reached, then the hood is dropped until it rests firmly on the top of the stove, the gas is extinguished, and the cooking finished without trouble or expense.

In the efficiency kitchen the oven is waist high, thus doing away with the old stooping, always so burdensome in the old style stoves.

The last step in the preparation of food is the serving table. This has a metal top, making it easy to clean.

The cabinet, the range and the serving table, all stand in a row on one side of the room, so there is no crisscrossing and re-crossing, taking the thousand and one unnecessary steps so often due to faulty placing of the furniture.

After the serving comes the harder part—the clearing away. Many a woman sighs, "I don't mind getting the dinner, but the everlasting dish-washing that comes after it." Even in this age of efficiency one cannot say, "Presto, change" and have it done, but Mrs. Frederick shows how many of the disagreeable features can be eliminated. To begin with, a wheeled tray is used to convey the dishes from the dining room to the kitchen. The dishes are all placed in this tray, thus doing away with the endless trips back and forth carrying a few dishes at a time.

On the side of the room opposite the serving equipment is placed the cleaning up furniture. The dishes are borne at once to the combined sink and dishwasher. Into the latter the dishes are placed securely, and in this is placed the china and glassware. The water is then turned on, the strainer gives a rotary motion, the dishes are thoroughly flushed. The strainer is then lifted out and the china placed, without drying, on the open shelves along the kitchen wall, these open shelves having been found to be more sanitary than the closed cabinet, besides much more easy of access. Nothing has yet been found to take the place of the old dish rack, the pot and pans, but a wooden scraper and a handled mop make unnecessary much actual contact with the soiled dishes.

Of course, all the dishes are thoroughly scraped before being placed in the strainer or dishpan, and for this purpose a small table is placed just to the right of the dishwasher. In this is cut a circular hole and the garbage pail stands beneath, so that all the parings and scrapings drop naturally into it, the dish meanwhile resting on the table.

Last of all, one of the most practical of the new inventions, and especially valuable to city housewives, is the electric. Constructed on the principle of a crematory, all garbage, either wet or dry, is dumped therein and in a short time reduced to a fine powder. This is a useful invention, the foul-smelling, fly-infested, disease-breeding garbage can is done away with altogether, and the kitchen as a whole is kept more serviceable. It is not torn or faded, like wall paper, and is readily cleaned with a damp cloth, so that it always presents a clean appearance.

The floor is covered with linoleum, preferably of a dull brown, though it may be had in many other shades, it is something more than a floor covering. This has a woven cloth foundation and comes in many artistic designs, as well as the plain, and probably more serviceable pattern. It will not tear or fade, like wall paper, and is readily cleaned with a damp cloth, so that it always presents a clean appearance.

# What YOU Need

Perhaps YOU—like hundreds of others—are all "run down." Not sick enough to take to bed—nor miss work. But your appetite is poor—your food doesn't digest—your bowels fail to act freely.

"L. F. Atwood's Medicine" will tone you up so you feel like new.

"We have used your 'L. F. Atwood's Medicine' for the last ten years for all kinds of ailments, and we think it a great family remedy. I know of others who have used it and who regard it just as highly. Two or three doses will tone a person right up, and make him feel like new."

Big bottle—50¢. Small bottle—25¢. Sample FREE by mail—from us, "L. F. Atwood's Medicine Co., Portland, Me."

# FOLEY KIDNEY PILLS

FOR RHEUMATISM, KIDNEYS AND BLADDER

## A WOMAN'S DAY

It begins early, and ends late. It is full of work from sun rise to bed time. Being constantly on her feet, she often has kidney trouble without knowing it. She has backache. It is hard for her to get up in the morning, she is so tired and worn out. She does not sleep well, has poor appetite and is nervous. Her bladder gives her trouble too.

FOLEY KIDNEY PILLS will cure all that, and make her again STRONG, WELL and VIGOROUS.

Get FOLEY KIDNEY PILLS at the nearest drug store and START TAKING THEM TODAY. They cost less than other pills and are sold only in the yellow package.

A. E. SHURTLEFF & CO., South Paris, Maine.
