## AMONG THE FARMERS.

Correspondence on practical agricultural topics  
is solicited. Address all communications to  
THE HUN, c/o The Portland Press, Portland,  
Maine.

**Flowers as a Side Line in Farming.**  
By R. T. Miller.  
Too few farmers realize the possi-  
bilities of an added source of income from  
raising cut flowers during the summer  
months and fall. These flowers are  
usually underappreciated and a ready  
market would undoubtedly be awaiting  
choice cut flowers from the farm.

The cost of growing these flowers would  
not be great nor would a great deal of at-  
tention and care be necessary. In many  
cases the woman of the house could at-  
tend them after they are once planted.

The flowers especially good for this  
purpose are, in the order of their impor-  
tance, sweet pea, aster and gladiolus.

Sweet peas are easy to grow. The grower  
should be careful to select a variety of  
color and to plant them in a sunny loca-  
tion. Any garden soil is suitable if it is well  
drained and dries out early in the spring.

The sweet pea is a naturally deep-rooted  
plant and to guard against the effects of  
drought, the preparation of the soil should  
be deep and thorough.

When the seed is sown, it is well to  
trench the soil in the autumn. If this is  
not done a trench at least 12 inches wide  
and 18 inches deep should be dug at the  
time of planting. The soil should be com-  
posted thoroughly with coarse, well-rotted  
stable manure, which is quickly available  
as plant food.

Some white and pink varieties have  
white or light colored seeds. The white  
seeds often decay in the soil, especially  
when it is cold, and consequently it is  
desirable to use these varieties thicker than  
black-seeded.

As soon as frost is out of the ground  
the soil should be prepared as the sweet  
pea is a cool crop. If the soil has been  
prepared in the fall, it is best to smooth  
the surface and plant the seed. The seed  
may be sown in single or double  
rows, the latter being more profitable.

As soon as the seed is sown, supports  
should be placed. For small areas there  
is nothing better than white or gray  
crack bogus five or six feet in length.  
Chicken wire six feet high, well sup-  
ported on posts, is also good.

Cultivate frequently throughout the  
season. Keep the weeds and grass down  
and surface mulch of soil to prevent drought.  
During July a surface mulch of straw  
material or grass clippings will prevent  
drying out of the soil.

As soon as the plants are full blown,  
fertilizers may be applied. A weak ap-  
plication of liquid manure every week  
maintains the size of individual flowers  
and results in a longer period of bloom-  
ing time. Bone meal also encourages  
flower production.

The flowers should be kept picked,  
and the stems cut off and allowed to  
go to seed, there is a dwarfing of the  
plant and consequently a shortening of  
the flowering time. Cut the flowers with  
scissors or a sharp knife late in the after-  
noon and put them in water over night,  
then take to market early in the morn-  
ing.

Desirable summer blooming varieties  
are: American Beauty, Blue Bird,  
Ferry, Countess Spencer, Czarina, Doris,  
Ferry, Foch, Orchid, King William,  
Brilliant and Salopha.

Aster—The China Asters are not dif-  
ficult to grow. They are not particular  
as to type of soil but require a liberal  
supply of water. They are composed of  
organic matter. The soil in which they  
are to be placed should be top-dressed in  
the fall and given a liberal supply of  
water. They should be sown early in the  
spring.

As soon as they show the first two  
leaves transplant them into one of the  
beds or into other seed boxes about  
two inches apart each way.

About a week or ten days before warm  
weather they should be placed in a cold  
frame to harden off. About May 15  
they can be planted out in rows 18  
inches apart with the plants 10 to 12  
inches apart.

Constant cultivation should be given  
throughout the season. A feed of liquid  
manure every week is also desirable.

Pick the flowers late in the after-  
noon or early in the morning and take them  
to market early in the morning. These flow-  
ers sell for 10 to 25 cents a dozen  
wholesale and 30 to 50 cents a dozen re-  
tail.

Gladioli—The best soil for gladioli is  
a medium loam. Avoid manure in con-  
tact with the bulbs. Manure should be  
applied to the autumn previous to  
planting. A good potato fertilizer is  
desirable. Bone meal is extensively  
used and liquid manure on the bulbs  
is also beneficial.

The gladioli are not hardy and plant-  
ing should be deferred until all danger  
of frost is over, namely June 1. The light-  
est soil is best for them. They should be  
planted in heavy clay, four inches in  
depth. The bulbs are planted in rows  
18 inches apart, about four to six inches  
apart in the row.

The plants should be cultivated con-  
tinuously.

At the approach of frost in the fall  
dig up the plants, leaving the tops on.  
After a few weeks trim off the leaves  
and store the bulbs in a temperature of  
40° F. Dry atmosphere and a light  
dusting of lime will keep them from  
rotting. A good potato fertilizer is  
desirable. Bone meal is extensively  
used and liquid manure on the bulbs  
is also beneficial.

## "OUTWITTING THE HUN"

BY LIEUTENANT  
PAT O'BRIEN.

CHAPTER XVIII.  
Experiences in Holland.

But I was not quite out of the woods.

I now knew that I was in Holland,  
but just where I had no idea. I walked  
for about thirty minutes and came to  
a path leading to the right, and I had

lights are not allowed in Belgium in  
that indiscriminate way.

My course was now clear. I would  
make a beeline for that village. Before  
I had gone very far I found myself in  
a marsh or swamp and I turned back  
and kept straight ahead, determined  
to reach that village at all costs and  
to do nothing to the right or left  
until I got there.

One moment I would be in water up  
to my knees and the next I would sink  
in mud clear up to my waist. I paid  
no attention to my condition.

It took me perhaps three hours to  
reach the ground. The path I struck  
led to within half a mile of the village.  
I shall never forget that path; it was  
almost as welcome to my feet as the  
opposite bank of the Meuse had seemed.

The first habitation I came to was a  
little workshop with a bright light  
shining outside. It must have been  
after midnight, but the people inside  
were apparently just quitting work.  
There were three men and two boys  
sugared in making wooden shoes.

It wasn't necessary for me to ex-  
plain to them that I was a refugee,  
even if I had been able to speak their  
language, for they were full of German  
soldiers and I suppose my face must  
have recorded some of the experi-  
ences I had gone through that  
memorable night.

"I want the British consul!" I told  
them.

Apparently they didn't understand,  
but one of them volunteered to con-  
duct me to the village. They seemed  
to be only too anxious to do all they  
could for me; evidently they realized  
I was a British soldier.

It was very late when my compan-  
ion finally escorted me into the vil-  
lage. I advanced to the house and  
was met by a man who seemed to be  
a soldier in the Dutch army. The cold  
shivers ran down my back while he  
said to me, "You are a British soldier,  
is that right?"

The family consisted of an old lady  
and her husband and a son, who was  
a soldier in the Dutch army. The cold  
shivers ran down my back while he  
said to me, "You are a British soldier,  
is that right?"

"This is funny," I said to myself. "I  
didn't know the Dutch had a fence to  
draw the line between the German and  
the British. I advanced to the house and  
was met by a man who seemed to be  
a soldier in the Dutch army. The cold  
shivers ran down my back while he  
said to me, "You are a British soldier,  
is that right?"

I had very little time to conjecture  
what was going on. He was walking  
so fast that I was sure it was a  
Dutch soldier, as the Hun walk much  
slower.

I was so bewildered, however, that  
I decided to take no chances, and as  
he seemed to be a friendly fellow, I  
went down it and away from that mys-  
terious fence. About half a mile down  
I could see the light of a sentry sta-  
tion and I thought I would go there  
and tell my story to the sentries, real-  
izing that as I was unarmed it was  
perfectly safe to do so.

Ordinarily I suppose I would have  
been embarrassed with so many peo-  
ple staring at me while I ate as  
though I were some strange animal  
that has just been captured, but just  
then I was too tired to care. I was  
hungry and I ate the meal that was  
served to me. I was very tired and  
I fell asleep.

There will always be a warm place  
in my heart for the Dutch people. I  
had heard lots of persons say that  
they were not inclined to help refu-  
gees, but my experience did not bear  
these reports out. They certainly did  
me a great deal of good.

I had a little German money left,  
but as the value of German money was  
only about half in Holland, I didn't  
have enough to pay the fare to Rot-  
terdam, which was my next objective.

Many of the German soldiers who  
were in the house of my Dutch friends  
people that I was able to reach the  
British consul as quickly as I did.  
Some day I hope to return to Holland  
and repay every single soul who  
played the part of the good Samaritan  
to me.

With the money that these people  
gave me I was able to get a third-  
class ticket to Rotterdam, and I was  
glad that I didn't have to travel first  
class, for I would have looked as much  
out of place in a first-class carriage  
as a Hun would appear in heaven.

That night I slept in the house of  
my Dutch friends, where they fixed  
me up most comfortably. In the morn-  
ing they gave me breakfast and then  
escorted me to the station.

While I was waiting at the station  
I heard another man come running up  
and there was considerable talking,  
but whether they were Germans or  
Hollanders I was still uncertain. He  
evidently thought someone was on the  
other side of the fence.

Finally I heard one of them laugh  
and saw him walk back to the sentry  
station where the guard was billeted,  
and I crawled a little nearer to try  
to make out just what it meant. I had  
begun to think it was all a night-  
mare.

I knew then what another narrow  
escape I had had, for I am quite sure  
he would have shot me without cer-  
emony if I had foolishly made myself  
known. I would have been buried at  
once and no one would have been any  
wiser, even though technically speak-  
ing, I was on neutral territory and im-  
mune from capture or attack.

This new shock only served to  
widen me more. I was completely  
lost and I was not sure of my own  
mind. I was so tired and so hungry  
that I was not sure of my own mind.  
I was so tired and so hungry that I  
was not sure of my own mind.

A very large part of the value of saw-  
dust used for bedding in stables lies in  
the organic matter it contains. But it  
must be in mind that its decay is not  
very rapid, and a heavy application of  
sawdust makes a light soil.

The finest fluff that ever sailed in any  
country is the fluff of plows, tractors,  
harrows and seeders that will shortly  
put out into the field. It is a good  
idea to get out into the field. It is a  
good idea to get out into the field.

## "OUTWITTING THE HUN"

BY LIEUTENANT  
PAT O'BRIEN.

CHAPTER XVIII.  
Experiences in Holland.

But I was not quite out of the woods.

I now knew that I was in Holland,  
but just where I had no idea. I walked  
for about thirty minutes and came to  
a path leading to the right, and I had

lights are not allowed in Belgium in

widen me more. I was completely  
lost and I was not sure of my own  
mind. I was so tired and so hungry  
that I was not sure of my own mind.  
I was so tired and so hungry that I  
was not sure of my own mind.

A very large part of the value of saw-  
dust used for bedding in stables lies in  
the organic matter it contains. But it  
must be in mind that its decay is not  
very rapid, and a heavy application of  
sawdust makes a light soil.

The finest fluff that ever sailed in any  
country is the fluff of plows, tractors,  
harrows and seeders that will shortly  
put out into the field. It is a good  
idea to get out into the field. It is a  
good idea to get out into the field.

## "OUTWITTING THE HUN"

BY LIEUTENANT  
PAT O'BRIEN.

CHAPTER XVIII.  
Experiences in Holland.

But I was not quite out of the woods.

I now knew that I was in Holland,  
but

# SOUTH PARIS.

March with windy winds have ceased to blow, and the weather is becoming more pleasant. The weather was very warm on April 1st.

The village schools are taking a vacation.

Miss Myra Richards spent Wednesday in Portland.

Mrs. Walter L. Gray was in Lewiston Wednesday.

Nelson Lapham, of Hanover, was in town recently.

A. L. Tirrell of Canton was in town a few days last week.

Mr. and Mrs. N. Dayton Bolster were in Portland Tuesday.

Harry Hamilton of South Woodstock was in town Tuesday.

W. S. Davis of South Woodstock was in this village one day last week.

Mrs. Alton Wheeler and daughter Miriam were in Lewiston Tuesday.

Mrs. Harry Morton was in Portland a couple of days last week.

M. K. Birch lost his wrestling match with Jim London at Bath Thursday night.

Mrs. Charles Dunham was in West Paris Thursday visiting her aunt, Mrs. O. K. Yates.

Edith Stevens and Marjorie McAllister of North Paris were in this village one day last week.

Mrs. William L. Gray was in West Paris Thursday, the guest of her son, Dexter W. Gray.

Mrs. B. C. Lowe and children, Birchard and Ivy, of North Paris were in this village Wednesday.

Mrs. Luella Smiley is to give several solos at "The Old Peabody" in Norway Wednesday evening.

Rev. Chester Gore Miller was in Bryans Pond Wednesday to attend the funeral of Delphine A. Cole.

Dancing at Grange Hall on Tuesday evening this week.

Mr. and Mrs. N. J. Newell's Jazz Orchestra will furnish music.

Rev. Dwight F. Faulkner was in Bryans Pond Saturday, to attend the funeral of Miss Gertrude Bolster.

M. K. Birch again met his match in Jim London at Lewiston Friday evening.

Ray Russell held his antagonist to a tie.

Willard Curtis, who is at Colby College, Waterville, is spending a vacation with his parents, Mr. and Mrs. William Curtis.

Mrs. E. W. Dutton of East Bethel visited relatives in town last week. From her home she visited in Lewiston and Turner.

Mrs. Annie Frost, who has been spending the winter with her daughter, Mrs. Ethel Cairns, has returned to her home in Norway.

The saw mill of the Wheeler Lumber Company at North Paris is running day and night, a night crew having recently been put on.

Mr. and Mrs. Everett Abbott, who have been visiting in West Sumner, have returned to their home in this village. Mrs. Hattie Curtis returned with them.

Mr. Arthur E. Forbes, who has been spending the past two weeks in Lewiston, is returning to his home in this village. He is accompanied by his wife, Mrs. Hattie Curtis.

A large flock of wild ducks was observed flying north over the village Thursday afternoon. A citizen counted them or tried to. He enumerated up to sixty when they got out of range. He thought there must have been seventy or more of them.

Miss Annie Newcomb, principal of the grammar school in this village, entertained eight of her fellow teachers at dinner in her Norway home Wednesday. The guests presented Miss Newcomb with a beautiful casserole in honor of her approaching marriage to Donald B. Andrews of Norway.

The morning Grand Trunk passenger train went four hours late Friday morning, owing to a freight wreck at Empire Road. Three cars left the front and piled themselves up in such a manner as to obstruct the track and hold up both the morning train west and the one moving east, the latter at Mechanic Falls.

Sgt. Maynard Douglas of Castine was in town Saturday, the guest of Hon. Donald B. Partridge. Mr. Douglas has been overseas eight months with the 1st Heavy Artillery. This regiment is armed with eight-inch howitzers. Mr. Douglas was principal of Canton Grammar School before he entered the service.

"The Elita Class" of the Congregational Sunday School met at the home of Mrs. Myra Stevens Tuesday evening. Only a small number of the scholars were present. The affair was more in the form of a social than a school meeting. The "Jolly Gnomes" gave specialties, and the high school students were present. The class certainly felt that it was living up to its name.

Ernest L. Kenney, of Randolph, was in town last week to visit his father, James E. Kenney. Mr. Kenney holds a good position in the R. F. Hazen & Co. of Portland. He has been in charge of the various Liberty Loan and other war drives at the Hazard factories and in the Fourth Loan drive than six hundred of the seven hundred and thirty-eight employees.

The High School students in their drama, "The Old Fashioned Mother," were greeted by full houses at the Grange Hall last Thursday and Friday evening. All the parts were well taken and the drama greatly enjoyed by the audience. Between acts the "Jolly Gnomes" gave specialties, and the high school students were present. The class certainly felt that it was living up to its name.

The people of the village should not forget the third hearing of the Norway and Paris Street Railroad which is to be held before the Public Utility Commission Wednesday, beginning at 10 o'clock A. M., at the court house. All those who can attend should be there. The hearing is of importance to the village and the people should be present. The hearing is of importance to the village and the people should be present.

Hanibal Hamlin Bryant, of Portland, was in South Paris Friday in connection with business of the Ginn Publishing Company, of Boston. Mr. Bryant is a native of Paris, and in his younger days was a school teacher. He taught 84 years in the village. He was principal of the school, most of them in the town of Paris. For a number of years he has been connected with the above publishing company. An older brother, William H. Bryant, who was also an old Maine school teacher, was at one time principal of the Paris Hill Academy, is also connected with this educational publishing house, or was up to about a year ago when he retired.

Mrs. Agnes Morton and the members of the Elita Quartette, Miss Gladys Hatch, Miss Myra Stevens, left Tuesday morning for Mechanic Falls, where in the evening they took part in an entertainment for the local Relief Corps. They gave Mrs. Morton's sketch of the life of the village, which was much enjoyed by a full house, where they were entertained by the local Relief Corps. As the appearance there some years ago as a vocalist. Mrs. Morton and young ladies spent several hours in Lewiston during the day Tuesday.

A heavy rain storm visited South Paris Friday night, beginning at 8 o'clock P. M. and continuing until midnight, although it was not heavy during the afternoon. It was a very peculiar thing about the storm. One peculiar thing about the storm was that it snowed in the western and southern part of the village, while the rest of the village was in the rain. The snow was in the form of a light drizzle, and it melted as it fell. The snow was in the form of a light drizzle, and it melted as it fell.

In Maryland a heavy fall of snow was reported. The snow was in the form of a light drizzle, and it melted as it fell. The snow was in the form of a light drizzle, and it melted as it fell.
