

THE UNIVERSITY OF CHICAGO PRESS

SOUTH PARIS.

**The Rose.**  
The ball-dog loved to play upon the Rose. When she was for an hour, then turned away to take the scent of the flowers. She was not to be in the garden throughout the day. And he in the garden throughout the day.

**A. W. Walker** was in Bethel Tuesday. County Agent R. H. Levejoy was in Bethel on Tuesday.

**George Thompson** is spending a couple of weeks in Bethel.

**Dance at Oxford** every Thursday evening. Music by Shaw's Orchestra.

**Horace Walker** is spending a few weeks with his son, F. W. Walker, in Bethel.

**Mr. Emma Mann** entertained the Mt. Zion Past Grand Association Tuesday afternoon.

**Mr. and Mrs. George Jordan** and Mrs. Ada Jordan of Mechanic Falls were in the village Thursday.

**Glenn Keniston** is at the Central Maine General Hospital, Lewiston, where he has been critically ill.

**Mr. Lafayette Briggs** went to South Albany last week to attend the school session at the Dresser school house.

**Franklin Maxim** and grandson, Frank Maxim, have been visiting Mr. and Mrs. Harry Maxim at Falmouth Foreale.

**An examination for teachers' certificates** will be held at the high school building in this village next Saturday.

**Henry B. Howe** of Springfield, Mass., formerly of South Paris, was a guest at M. L. Noyes' for a short time last week.

**Mr. and Mrs. Arthur Tripp** and Mrs. Levi Small of Webb's Mills were guests of Mr. and Mrs. Everett McKee one day recently.

**Miss Maxine Bennett**, who graduated from Paris High School this month, has taken a position as stenographer in the office of Walter L. Gray.

**The Ladies' Social Union** of the Universalist church will open their booth at the fair grounds for the week ending on Tuesday celebration on the 4th of July.

Town Will Lease Hall and Exempt It.

**SEVERAL IMPORTANT VOTES TAKEN AT SPECIAL MEETING.**  
At a town meeting well attended for a special, Wednesday afternoon, it was voted to take a lease of the hall for town meeting purposes, and offices for the selectmen, in a new block it shall be erected on the site of the burned Odd Fellows' Block. It was also voted to take a lease of the hall for town meeting purposes, and offices for the selectmen, in a new block it shall be erected on the site of the burned Odd Fellows' Block. There was discussion but no action on several other articles in the course of the evening.

**Walter L. Gray** was elected moderator of the meeting. There were between 100 and 150 voters present, some from the north part of the town—all men except the town clerk's stenographer. The first article for action was to see if the town would allow a new block on the site of the burned Odd Fellows' Block to be swung into the street about five feet farther at the east end. Moderator Gray explained briefly that the lot had been bought by an association of citizens, who did not want to make money from it, but rather to lose. The first scheme advanced had been to build a block covering this lot and that on which True Block stands, but this is not feasible at present. There might come a time when it would be advisable to extend the new block over the lot where True Block now is, when a straight front would be desirable, and it would be necessary to make the change suggested in order to make the line of this building straight.

**Arthur B. Forbes** briefly expressed opposition to any further extension into street at that corner, and a motion to pass over the article was carried without opposition.

**The next article** was to see if the town would lease the hall in the new block for town meeting purposes. The vote was in the affirmative. Moderator Gray, as one of the promoters of the new block, stated that plans indicated that a building of this kind would be required would cost about \$50,000. Careful figuring of income showed that it would not be practicable to erect the block unless town would take the lease indicated, at a good rental.

**A number of questions** were asked, and it was stated in reply to one of them that the plan represented a hall with a seating capacity of 300 on the floor and 100 in the gallery. In reply to a question regarding what was a fair rental, Mr. Gray stated that a rental of \$1000 to \$1200 a year would be a fair rental.

**J. F. King** said he would be willing to consider more than a fair rental. Mr. P. Woodbury favored paying more than the amount named for the sake of having the building and the hall. John Pierce said we have got to have a place large enough to hold town meetings even if it costs considerable.

**There was further discussion**, and then P. F. Ripley moved that the selectmen be authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years.

**John Pierce** moved to make the selectmen authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years. Under another article the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years.

**Under another article** the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years. Under another article the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years.

**Under another article** the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years. Under another article the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years.

**Under another article** the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years. Under another article the selectmen were authorized to lease the hall at a rental not to exceed \$1200 per year, for a term of ten years.

NORWAY.

**A South Paris Man Honored.**  
At the recent commencement at the University of Maine one of the advanced degrees conferred was that of Master of Science upon Hugh C. McPhee, son of Mr. and Mrs. John McPhee of this place. Mr. McPhee is a graduate of Paris High School, class of 1914, and of the University of Maine, class of 1918. During his college career, he has several times honored for his high scholastic attainments. He was elected to the two honorary scholastic societies, Phi Kappa Phi and Alpha Zeta. At the commencement exercises, he received general honor and the Danforth Prize for highest rank in the College of Agriculture.

**Since leaving college**, Mr. McPhee served as sub-master of Ashland High School and as principal of East Corinth Academy. He is now scientific aide at the state college farm, Highmore, in Monmouth, which position he has held since the summer of 1919. He has put in much time in investigation work both at the farm and at the headquarters in Orono. During the academic years of 1919-1920 and 1920-21, he has combined his investigation work with the necessary advanced studies at the university required for the degree of Master of Science.

**Mr. and Mrs. Ralph Harman** have returned from Visalia, California, and will make a short stay in Paris before leaving for their home in New York City. Mr. Harman is the guest of his mother, Mrs. Ella Jewett Cook. Stephen Jewett, Jr., came with her and will spend the summer with his family.

**Miss Mabel Groves** of Gardner, Mass., is visiting her sister, Mrs. Harlan Brown. Mrs. Maude Thompson Krammering, who has been visiting Mrs. W. W. White, returned to her home in Philadelphia Monday. Mrs. Whitmarsh accompanied her and will spend several weeks there.

**Dr. Hubert S. Barker** of Louisville, Ky., is the guest of his mother, Mrs. Gertrude Barker. Mr. and Mrs. Burton A. Shaw were in town Thursday, having returned from a trip to Montreal. They left later for their home in Sanford.

**Mrs. Grace Richardson Carroll** of Fryburg is visiting her aunt, Mrs. Annie Sampson. Mr. and Mrs. V. W. Hille, Mrs. Eva M. Kimball, Mrs. H. B. Young and Miss Edith M. Smith made a trip to Lewiston Wednesday.

**N. Flint Allard** of Lowell was in town Thursday. W. W. Durgin of West Stoneham was in Norway a day or two last week. While here he attended the moving picture. Mr. Durgin is 81 years old and this is the first time he has seen moving pictures.

**The Ladies' Circle** of the Universalist church met with Mrs. W. Sampson Friday. The pupils of Miss Pearl F. Cook will give a recital at the Grange Hall this Tuesday evening.

**Miss Marjorie McAllister** and Mr. Herbert Hill were united in marriage by Rev. H. F. Aldrich on Tuesday, June 14, at 7:30 P. M. A very pretty wedding was held at the home of the bride's parents, Mr. and Mrs. H. F. McAllister, the double ring service being used. Ethel Flavin was bridesmaid, and Reynold Chase was best man.

**The bride** was dressed in white crepe de chine, and carried a beautiful bouquet of sweet peas. The bridegroom was dressed in white tuxedo and carried a white boutonniere. The room was decorated with evergreen and June roses, an arch being made of same, under which the bride and groom were present at the wedding.

**The bride's gift** to the bridegroom was a sterling silver brooch, while the groom's gift to the bride was a pair of gold cuff links. The bride's father, Mr. McAllister, has five children, Marjorie being the only daughter. She is a graduate of West Paris High School, class of 1918.

**The young people** are very popular, and their many friends wish them much happiness. Mr. and Mrs. Herbert E. Hill will be at home after July 1st.

**Graduation Norway High School.**  
The graduating exercises of the Norway High School took place in the Opera House Thursday evening. The stage was tastefully decorated by members of the junior class, in the class colors, green and white. The class was marshaled to their place by William Ledger of the junior class, when the following program was presented:

**The class ode** was written by Miss Margaret Elwinwinter with the music by Miss Elizabeth Mae Klein. The Don Sells prize was presented to Miss Grace A. Dubey, who sustained the highest rank during the four years course.

**Saturday afternoon's** showers shortened the initial game of the Twin Towns Athletic Association, but did not prevent its going to a decision. The game was called after Westbrook, the visiting team, had had five innings, the score standing 3 to 0 in favor of the Twin Towns.

**A parade headed by the Norway** and Paris band preceded the game and helped all the crowd. The line-up of the Twin Towns team, and the management of Ralph C. Masterman, is as follows:

Are YOU

**One of the 1,400,000 ?**  
Over 1,400,000 people in the United States have invested their money in electric light and power business.

**They have done this** because these companies have proved, through long years, to be safe and sure dividend payers. What can be safer than an investment in a security that has paid dividends without interruption 58 times, as Central Maine Power preferred has?

**The price is \$107.50 a share**, the yield is 6 1/2 per cent.

**Why not send coupon ?**

**Central Maine Power Co.**  
(Of which the Oxford Electric Company is a part)

**JUST RECEIVED**  
**A Car Load of the**  
**McHenry-Millhouse Asphalt**  
**Shingles and Roll Roofing**

**The McHenry-Millhouse Asphalt Shingles and Asphalt Prepared Roofing in Rolls** is rendering Service and Satisfaction on all types of buildings throughout the United States. Millions of buildings from the most pretentious residences down to temporary structures are covered with these asphalt roofing materials.

**McHenry-Millhouse Asphalt Prepared Roofing in Rolls** is unquestionably the most economical and durable roofing material manufactured. It saves 50 per cent. in actual money. It is speedily applied—durable—almost everlasting—spark and fire-brand proof. Insurance companies make the same rates on it as on metal or slate. It is always pliable, never breaks, cracks nor shrinks. This roll roofing is practical for flat or steep surfaces. Made of the best waterproofing materials, it defies wind and weather and insures dry, comfortable buildings under all conditions. The best roofing in the world for the price.

**We would be pleased to have you call and look at this new roofing and let us give you prices that will please you.**

Attractive New Merchandise

**These are days of unusual activity** all through our store. The new merchandise is attracting a great amount of attention. Our assortments for summer are now at their best, may we suggest right now is the opportune time for making your selections.

**ATTRACTIVE SHIRT WAISTS**  
**ABUNDANCE OF NEW NECKWEAR**

**Neckwear styles** change with every whim and fancy of Dame Fashion. Neckwear is an important part in the finishing of suits, coats, sweaters, dresses and waists. Neckwear lends an artistic touch that brings the climax to the article it is used with. Come in and see the new neckwear; collars of many shapes, collar and cuff sets, collar, cuffs and vests to match. Vestees and many new pleasing.

**SWEATERS OF MANY KINDS**  
New arrivals this week puts our stock in good shape to take care of any of your needs and let us say right here that prices are very reasonable, nearly one-half less than a year ago. The slip-ons, tie-back and Tuxedo sweaters are here in many weights.

**CHILDREN'S GINGHAM DRESSES**  
We have a large line to show you, not one but what will please mother and daughter. Handsome little models developed in those bright, pretty Gingham. Several styles with bloomers to match. If you could see these dresses, the styles and the prices, you would not undertake to make them.

**Georgette Waists, \$5.95, 6.95, 7.95.**  
**Voile Waists, \$1.95, 2.45, 2.95, 3.95.**

**WHITE WASH SKIRTS**  
Smart looking skirts of Baronette, Surf Satin and Gabardine. These skirts embody every idea of modern skirt making—the cut, the hang, the fit and finish—all just as it should be. Let us show you the new line. We'll be pleased to show you whether you buy or not.

**Surf Satin Skirts, \$3.95, 4.95, 5.95.**

**LADIES' VOILE AND GINGHAM DRESSES**  
The Dress section is now showing many pretty models, plaid and small check Gingham with organdie collar and cuffs. Some with vestee of organdie.

**VOILE DRESSES** in medium and dark colors, attractive color combinations, organdie and lace trimmed.

**A large showing of Bathing Caps** at 25c, 30c, 75c, all colors and many shapes.

**Great Saving for You in Our Suit and Coat Department**  
Many styles that you have admired all the season are here. A deep cut in prices is very noticeable. If you need a coat or suit, now is the time to purchase. The size, color and style may be here now.

## Convenience and health in the kitchen

It is often necessary to heat up something in a hurry, in less time than it would take to build up a coal fire. It is then that the convenience of the New Perfection Oil Cook Stove is most appreciated. The heat you want is ready in an instant, in any volume you may need. Remember, the white-tipped flame gives the most heat.

By a simple turn of the wick you can obtain heat for either quick boiling or simmering from any one of the burners. And when you are through with it another turn extinguishes the flame and the kitchen is kept cool and comfortable.

Another convenience for the household is the New Perfection Water Heater. Just as clean, safe and economical as the cook stove. Produces hot water in a few minutes.

New Perfection Oil Cook Stoves are sold in one, two, three and four-burner sizes—with or without warming cabinet, except the one-burner, which has no cabinet. Most housewives like the cabinet top because of its convenience in keeping dishes warm.

Sold by dealers everywhere.

**NEW PERFECTION**  
Oil Cook Stoves and Water Heaters  
STANDARD OIL CO. OF NEW YORK

## Combination Cream

**It Melts Into Your Skin**

So smooth, so delicately creamy, is Combination Cream. It is the blended perfume of 26 selected flowers.

Not a suspicion of grease after use; nothing to clog the pores.

And fragrant with the rare Odor Jontel—the blended perfume of 26 selected flowers.

To nourish the tissues—to keep the skin soft, clear, and pliable—this is the foundation for powder—you will find in Combination Cream Jontel every requirement you have long sought in a face cream.

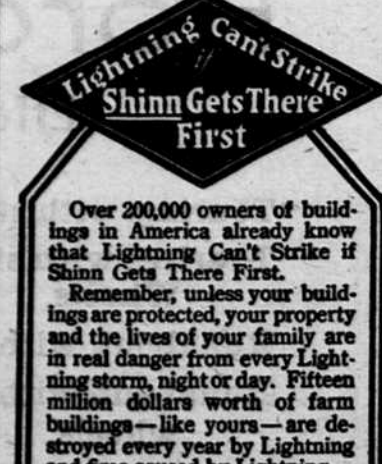

Today is none too soon to give your skin the benefit of Combination Cream Jontel. Take home a jar.

## Shinn-Flat

Over 200,000 owners of buildings in America already know that Lightning Can't Strike First.

Remember, unless your buildings are protected, your property and the lives of your family are in real danger from every lightning storm, night or day. Fifteen million dollars worth of farm buildings—like yours—are destroyed every year by lightning and fires caused by lightning.

## Shinn-Flat

Prevents Lightning Losses

Shinn-Flat conductors are distinctive in design—woven in a flat, continuous cable—with greater carrying capacity than any other lightning rod.

Shinn's Cash Bond, guaranteeing the return of your money if lightning strikes, is given to the owner of every building protected.

Estimate of cost cheerfully furnished.

**A. L. MORSE,**  
South Paris, Maine.

The Children's Hospital of Portland, Maine, owes to young women of high school education or its equivalent a two and one-half year course of training which includes six months at New Haven Hospital, New Haven, Conn. Also a six month course is offered to girls wishing to take a nurse's training. When the full term is completed a certificate will be granted. Address: Dr. C. N. HARRIS, 65 High Street, Portland, Maine.

## HOMEMAVERS' COLUMN.

Correspondence on topics of interest to the ladies is solicited. Address: Editor, HOME MAKERS' COLUMN, 65 High Street, Portland, Maine.

### We Eat Comparatively Few Fish.

A NUTRITIOUS AND APPETIZING FOOD DESERVING OF WIDER USE.

Many families during the war formed the habit of having two or three fish days a week and some of them kept it up ever since. Many others, if they tried it, would find that the use of more fish adds pleasant variety to the meal. America has as good a fish supply as any country in the world, say food specialists of the United States Department of Agriculture, but Americans eat less fish than the people of many other countries. For instance, in England an average of 65 pounds of fish yearly for each person is eaten, while here the average is only 15 pounds.

All told, there are said to be about 100 kinds of edible fish available in the United States, but most persons are familiar with not more than a dozen. It is a good plan to try new kinds of fish whenever there is an opportunity and, if they are not available in the local market, to suggest to the fishman that he supply them. Also, if fresh fish can not be obtained, many kinds of salt, smoked and canned fish can be shipped anywhere at any season of the year.

**HOW TO SELECT A FRESH FISH**

Whenever possible, it is best to go to the market and select fish. A fresh fish has full, bright eyes, bright red gills, firm flesh, and a fresh odor. The flesh along the backbone should be examined with special care, because that is where a fish spoils first.

Frozen fish should be bought in that condition and thawed in a cool place just before cooking. Much of the prejudice against frozen fish has come from the fact that it was thawed out some time before it was sold. Fish does not change in flavor and food value so long as it remains frozen, but it spoils very quickly after it is thawed.

Broiled fish—broiling over coals or under the gas flame until brown—is a favorite way of preparing the smaller fish. Fresh fish of 1 to 2 pounds size, or smoked fish, such as flounder baddie or white fish, are delicious served in this way.

Wash the fish, split, season, dot with fat, place on a greased broiler, and broil until the flakes can be easily separated. If a gas broiler is used, place the rack several inches below the flame and brown. Broiled fish makes an attractive garnish and gives additional flavor and food value.

Boiled fish—Boiled fish is easily prepared, and, when served with a well-seasoned sauce, is delicious. Cook whole or, if too large, cut in pieces. Cover with boiling salted water, but do not allow it to boil rapidly, as hard boiling breaks the fish. Cook for 10 minutes per pound. Skewered fish, such as carp, is improved by adding a half cup of vinegar to the cooking water.

Baked fish—Use the whole fish or a piece from the middle of a large one. If desired, stuff with mashed potatoes, cooked rice, or bread crumbs well seasoned. Cut gashes down the back and insert strips of salt pork or dot with fat. Dredge with fine corn meal or flour, place in a baking pan and cook (tilt tender, allowing 10 to 12 minutes a pound. Sometimes fish is baked in a tomato sauce or in milk enough to cover the bottom of the pan.

Fried fish—Small fish may be fried whole; larger ones should be cut into pieces suitable for serving. Roll the fish in corn meal or flour, dip it in batter, or in bread crumbs, egg, and again in crumbs. Fry in deep fat, or in a small amount of fat in a skillet. Fish fried in deep fat is less likely to be greasy than when fried in a pan.

**Can Plenty of Cherries for Pies.**

Sweet white and large black cherries are usually canned unpitted, but acid cherries ordinarily are pitted before canning. Unpitted cherries present a more attractive appearance, and many like the flavor the pit gives to the product. The following directions for canning the delicious fruit are given by the United States Department of Agriculture:

If cherries are to be canned whole, plunge them for 20 to 30 seconds in hot water. This prevents splitting. A sirup for sweet cherries may be made of 3 1/2 pounds of sugar to 4 quarts of water. Pack cherries, whether pitted or unpitted, to within one-half inch of top in jars which have been boiled 15 minutes. Fill jar with sirup and put on rubber, which has been for 15 minutes in a solution made from 1 tablespoon of soda and 1 quart of boiling water. Remove top from water in which it boiled for 15 minutes and place on jar. Partially seal jar. (With glass top can, put one ball in place. With screw top jar, screw half way on.)

If steam-pressure cooker is used, place jars in cooker and process quart jars 35 minutes. When a commercial hot-water bath canner or a home-made one is used, place the jars (after partially sealing) in the canner or in a large boiler of water should cover the jars. Do not start counting time until the water is boiling. Process quart jars for 30 minutes. When processing is finished, remove jars to a complete sealing, test for leaks, and store in cool, dry place. If the jar leaks, remove rubber and put on new wet one and process 15 minutes more.

**Give Good Care to the Ice Chest.**

Choose a well-made ice chest; it uses less ice than one of poor construction. It should keep a temperature of 30° F. or less. Test yours with a thermometer. Keep the ice chest clean; wipe up anything spilled in it and, when necessary, wash it out with hot water, using two tablespoons washing soda to each gallon of water; rinse and dry thoroughly. Keep the drainage clean by flushing with hot water and cleaning with a long-handled brush. Such cleanliness does not prevent ice from melting; it does save food from spoiling.

Keep the ice compartment well filled. This is economy in the long run. Do not cover the ice with ice blankets, newspapers, or cloth. These prevent the ice melting, but make the ice chest less cool. Do not keep food in the ice compartment, as the melting of the ice is increased every time the door is opened. Do not open the ice chest door unnecessarily. When one is opened, cold air rushes out and warm air rushes in. See that doors are closed tight after use, not left ajar.

Select fairly thin dishes for ice-chest storage. Thick dishes take up and hold heat. Enameled ware and ordinary glass are better than heavy earthenware. Never put warm food or cooking dishes in the ice box. Chill drinking water and such foods as butter, radishes and olives by letting them stand in the ice chest rather than by serving them with iced cream.

**Broiled Chicken.**

Clean and draw a young chicken; spread the inner side with melted butter or brush with olive oil. Broil in a well-oiled broiler, slowly, for twenty minutes. The skin browns very quickly; cook most on the flesh side, turning frequently. Remove to a platter and spread with creamed butter, to which add a little lemon juice and a very small amount of paprika have been added; serve with sliced lemon.

**Prune Whip.**

Cook by boiling one-third a pound of prunes and one-third a cup of sugar; remove stones and force pulp through a sieve. There should be one cup of pulp. Pour the pulp into a large bowl with the unbroken white of one egg and beat with a wire whisk ten minutes. Fill serving glasses three-fourths full; add unsweetened whipped cream. Decorate with sections of cooked prunes.

Cereals vary considerably in the amount of water absorbed as they are cooking. This fact accounts for the thin oatmeal or the too thick grits which sometimes appear from the hands of an inexperienced cook. A cup of hominy grits should be cooked twice as much as oatmeal, and a cup of Scotch oatmeal, and it requires twice as much salt as any other cereal.

### Doctor Bills vs. Bath Rooms.

ILLNESS, contagion, epidemics—all have their origin indirectly in those places where sanitary precautions are not taken.

A HOME without a bathroom, or with one that is old and antiquated, more often than not is a menace to health. Doctor bills are ever-present throughout life; the bill for the cost of a new bathroom equipment is paid only once in a life-time and the protection is permanent.

**MODERN BATHROOM** equipment gives the necessary sanitary protection needed by all the family.

**THE HOUSEWIFE** finds it easy to keep modern plumbing fixtures spotlessly shining and clean.

**PRIDE BORN** of having up-to-date plumbing equipment is a source of pleasure for years.

**QUALITY** appliances have but one goal—the first. And this fact assures satisfaction.

A NEW BATHROOM equipment doesn't cost as much as you think. In our display room we show the latest models. We shall be glad to give you our figures. Our figures will be as low as good work and good material will allow. Stop in today and see our display.

## 1¢ a dose

And you cannot find anywhere a better, purer, more potent remedy for indigestion, biliousness, constipation, impoverished blood than this "L. F." Atwood Medicine. Yet a 60 cent bottle contains nearly sixty doses—enough to overcome the most stubborn cases when directions as to eating and exercise are carefully followed. It is the family physician for the entire household—children and grown-ups. It quickly helps to break up a cold, thus preventing serious sickness. Headache, dizziness, bad breath and languor are banished with a few doses. Buy of your dealer.

"L. F." Medicine Co., Portland, Maine.

## Why Pick On Your SHOE DEALER

It is a well known fact that tanners and most shoe manufacturers have taken enormous losses. One tanner alone lost \$6,000,000.00 last year. Shoe retailers all over the country are marking down their shoes to replacement cost. Nevertheless, the woods are full of amateur economists WHO CLAIM PRICES OF SHOES WILL SHORTLY RETURN TO PRE-WAR LEVELS, BUT WILL THEY? YES, THEY SURE WILL.

When hard coal is back at \$9.00 per ton;  
When railroad fares are back at 3c per mile.  
When house rent is back at \$10 per month.  
When gasoline is back at 10c per gallon;  
When telephones are back at \$1.00 per month;  
When a square meal is back at a quarter;  
When farm labor is back at \$35 per month;  
When gas is back at 90c;  
When shaves are back at 10c;  
When the freight from N. Y., now \$1.84, is back at 97c;  
When street car fares are back at a nickel;  
When money is back at 5 per cent;  
When cooks are back at \$5 per week;  
When hair cuts are back at a quarter;  
When movies are back at a nickel;  
When a car-wash is back at a dollar;  
When ice cream is back at a dime;  
When a doctor's call is back at one buck;  
When a newspaper is back at a penny.

For the love of Mike, why expect the manufacturer, wholesaler and retailer of shoes to go the route alone? Aren't we Americans all in on this proposition together? Haven't we got to work it out together? Well, then, haven't the manufacturers, wholesalers and retailers of shoes gone much faster and much farther than the average in reducing prices and making readjustments? WE'LL SAY THEY HAVE. We're ahead—way ahead of the procession. Now let the barbers and the movie houses, and the Standard Oil, and the soft drink parlors, and the landlords, and the hotels and restaurants, and the draymen, and the bankers cut THEIR prices and catch up with the shoe men.

## Reduced Prices on I H C Farm Machines

REDUCED prices recently announced by the International Harvester Company of America on its entire line of farm machinery, places us in a position where we can offer corresponding reductions on I H C farm-operating equipment.

We believe our customers will see the wisdom of placing orders now at the reduced prices for such machines as they will need in the near future. The reduced prices, coming at this particular time, enable you to secure planters, cultivators, haying and harvesting machinery at prices that we could not quote earlier in the year.

We know that it is a serious problem for the farmer as to whether he should buy new and modern machinery, either of the same or greater capacity than that which he is now using, or whether he should make another attempt to put in as good repair as he possibly can his old machinery.

To those in doubt, we offer the following suggestion: List all the repairs which you need for old machines, keeping the list for each machine separate, then bring the lists to us. We will give you an estimate of the cost of these repairs, and you can then determine the best course to pursue.

1st. Look at this subject from different angles—  
1st. Will the repairs which you may buy now actually put your machines in good order, and will these repaired machines perform their work in a satisfactory manner?

2nd. Will the cost of repairs which may add only a year's additional life to an old machine be justified? If you will need a new machine next season, perhaps the cost of the repairs now will be out of proportion to the service or life which they will add to the machine.

And finally, if you contemplate the purchase of a new farm-operating equipment, we want to impress two important thoughts upon your mind: The quality, efficiency and capacity of the International Harvester lines, and the value to you of I H C Repair Service, which is prompt, dependable and continuous.

3rd. Will it pay to patch up an old machine now when you really need a similar machine of more modern construction, or of greater capacity?

4th. Maximum yield per acre is your salvation this year. Your expenses for plowing, seeding, cultivating and harvesting, as well as all overhead expenses, are the same whether you eventually harvest a large or small yield. Up to a certain point your yield per acre goes to paying the expenses of raising the crop. The profits must come from what is produced in excess of the amount required to pay the cost of production. And the amount of your profits depends upon the size of this excess.

5th. If you use a planter with a defective dropping mechanism, the loss of corn may not only balance the cost of a new planter but the loss may seriously affect your profits. If you use a mower or harvester that is not delivering full efficiency you are also taking chances with your profits.

6th. Seed corn that is not planted and cut grain that is scattered pays no dividend.

### The Ideal Ointment

## Petro-Tan

SCRATCHES: An inflammatory condition of horses, extending under the fetlock to the hoof or knee. Caused by dry, dusty roads, over feed, exposure to wet and mud, poor circulation, or weak kidneys, or from other causes. Varies from a slight swelling and soreness to a raw, open sore with intense pain and lameness. Treatment is external to the affected part.

To those who have horses affected with scratches, we recommend that they try Petro-Tan. In severe cases, it is well to smear Petro-Tan on cloth or gauze, then bandage it over the part for a few applications. Reports which are received right along testify that Petro-Tan removes the soreness, heals quickly, and is economical to use. Also for boils, chafes, cuts and other wounds.

Sold by druggists. 25c, 50c and \$1.00

Equally good for humans for cuts, burns, scalds, mosquito bites, chapped hands, sunburn, etc.

Manufactured by  
**Dr. C. M. MERRILL,**  
SOUTH PARIS, MAINE.
