The old brick school house had an escape Saturday forenoon. It seems to have been the custom for some time past to dump ashes from the second story window on the shanty roof of the shed. The following regarding our distinguished townsmen is going the rounds of the press:

As Captain Clark of the adjutant general's office was searching the records, he came upon the roll of Company A, State Guard called to Fort McClary from July to September, 1864. Among the names of the privates is that of Hannibal Hamilton. Opposite each name is a space for "remarks." "Against Mr. Hamilton's name is the entry, "Stop all pay and allowances at his request." Mr. Hamilton was a member of the United States as well as a private in Company A, Maine State Guard. In neither position was he a patriot for revenge.

It is related, though not on such unimpeachable authority as the public records, that the illustrious patriot was assigned to duty under the quartermaster, and that that functionary, not wishing to put his distinguished subordinate at too arduous work in the supplies department ordered him to go to fishing. It is nowhere recorded that the fish caught were sold to the stock of supplies in the quartermaster's department.
