AMONG THE FARMERS.

"SPEED THE FLOW."

Correspondence on practical agricultural topics is solicited for this department. Address: EDITOR, THE OXFORD CRAFT, PARIS, MAINE.

THE FARMER'S WIFE.

The shadows lengthen on the lawn. The day is almost done. The weary wife, from early dawn, has been busy about the house. Faithful and constant, doing all that her hands and feet could do. To let some rays of gladness fall from her weary brow.

"I've tried to win some praise from John. I might as well be dead."

Just then her cheeks came churning up. She gave them a good wash with her apron. With merry chuckle she moved around, meeting with her usual success.

Their true appreciation of her labors without alloy.

With grateful sense of much supplied, The farmer's wife, with her hands full, Receiving showers of heaven-drawn dew, The welcome of her husband's friends.

The sympathy appearing especially in the eyes of her husband, Her smiling face, her cheering words.

But, brother farmer, is it true, That her hands are never weary? Miss the undertaker's clerk from you, Miss the undertaker's clerk from you, Miss the undertaker's clerk from you, Miss the undertaker's clerk from you.

As the spring advances we are gradually nearing a time when much more is frequently done to a herd of cattle by our blind adherence to the time-honored practice of leaving them in the open field.

The time has passed when this can be done at any time of year; but in midsummer cattle need special attention. More watchfulness is necessary at this season of the year than during an ordinary winter.

From November until April or May our cattle are about the stable yard, thus furnishing favorable opportunity for the farmer to observe the condition of his stock.

In summer our minds are preoccupied with the sowing of the crops, and while not coming in such frequent contact with our cattle, we are nevertheless obliged to escape as upon which immediate action is needed to prevent trouble and loss.

It is not sufficient at this age of the country even in the matter of salting to supply this want in the old way, once or twice per week. It should be provided under shelter for constant use, as desired, and the rock salt is the best form to furnish this important adjunct to the feed supply, as it is perfectly pure and wastes very little exposed to the elements.

It will be found that during the pasture season more animals are out of condition now than in our grandfathers' days, owing mainly to the fact that we are inclined to the exhaustion of certain elements in the soil or the want of an adequate rainfall to eliminate them in sufficient quantity for the use of the grass plants.

Wherever a good lot of cattle are grazing a lush pasture and fail to respond in flesh in a corresponding manner, the farmer may be sure that the land wants clover or manure. It may not be generally known, but either of these can be beneficially supplied without disturbing the soil and without the necessity of taking to the field by harrowing and early spring seeding, and the latter by winter spreading and early spring harrowing.

The speediest returns from manure are secured by its application to pastures and meadows. Let those who doubt it try it.

It would seem almost idle to enumerate the many reasons for summer attention to cattle, as they could scarcely escape the attention of a man of observation. With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

With the young breeder, however, although he may not be so generally conversant with the change from the old time, and involuntarily set it down against cattle raising of the present day. He forgets that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own, and that the old time was not so perfect as the farmer's own.

CATERPILLARS.

Riding through the neighboring towns, and even parts of this State, I have been

the least surprised that the people are beginning to cry out, almost in tones of supplication, through the press, "What shall we do to save our fruit trees from the caterpillars?" It is not an unusual sight to see thirty or forty nests in one apple tree, and of course every leaf eaten, or three or four strippings mean death to the tree. If the caterpillars are not killed this year, they will have more insects to lay the eggs. We have none in this neighborhood, and they will all do as we do we can get rid of them. Where they are so very plenty it will require "eternal vigilance" for a farmer to keep them from his trees.

Nov. for the remedy. When you are picking your apples in the fall, notice the ends of the limbs, from one to two feet from the end, and you will see the eggs glued around the limb, of nearly the same color as the limb. Take them off, and in the winter, when there is a deep snow and crust, among your trees, and they being bare of leaves, you can easily see the eggs and destroy them. In the spring, often before the trees are leafed out, they will begin to hatch, and quickly show themselves by their white tents; then go for them with your thumb and fingers. It is not pleasant to do this after a very short time, then fasten two or three old clothes pegs to a pole, and with a nail of soap suds, give them a sprinkling. I prefer old soap. Don't burn them on the trees; you might as well as well let the caterpillars have them as to burn them. I have never seen a caterpillar plied for I believe the circumstances require plain words.

Another thought and I am done. Don't hang the delusive idea that they are only come for a season; they will have their day and then leave with your help. After you have bought trees, some of them quite expensive, and set them out, you will find that they are not so easy to get rid of as you think. I will now close by repeating that either the trees or the caterpillars must go. Will those papers in which weekly help is given, their ways of doing things, then go for them with your thumb and fingers. It is not pleasant to do this after a very short time, then fasten two or three old clothes pegs to a pole, and with a nail of soap suds, give them a sprinkling. I prefer old soap. "ON THE HILL."

DIRECTORY.

First Baptist Church: Rev. G. Mayo, Pastor. Preaching every Sunday at 11 A. M. Sunday School at 10 A. M. Sabbath Evening Service at 7 P. M. Prayer Meetings Thursday Evenings at 7 P. M.

United Methodist Church: Mr. H. E. Cushman, Pastor. Preaching every Sunday at 11 A. M. Sunday School at 10 A. M.

A little good weather at last.

Miss Emeline Daniels has gone to Auburn.

Mrs. Pierce, of Chelsea, Mass., is at Mrs. Chase's.

H. E. Chase, Esq., of South Paris, was at the Hill Friday.

Several from this village attended Hebron commencement.

Mrs. E. H. Gayer and child, of Rock Island, Ill., are at Mrs. Kimball's.

Mr. and Mrs. A. C. Dyer, of South Paris, were at the Hill last Friday.

Mr. H. E. Cushman returned to Paris Monday. His sister accompanied him.

Bullin Edwards and family, of Everett, Mass., are visiting his father, Dea. A. Edwards.

Mr. and Mrs. H. B. Shurtland, of Portland, have been at the Hubbard House for a week.

J. C. Swift, of the Lewiston Journal office, was at Paris over Sunday, calling on old friends.

A large congregation greeted Mr. Hayden Sunday. A number came from South and West Paris.

Mr. A. P. Wedge will supply the pulpit at the Baptist church for the present, beginning next Sunday.

Mrs. Abdon Keith and two children, of Portland, are at Mrs. Mellen's for the summer. Mr. Keith was here over Sunday.

Lewis B. Andrews, Esq., and Mr. E. H. of the Portland Chair Company, West Paris, were in the place last Thursday.

The "Shamrock" which has carried Paris Hill people on many a pleasure excursion, has been sold and carried away to Turner.

Children's day exercises and anniversary exercises were held at the Baptist church Sunday. The floral decorations were quite elaborate.

The summer term of district school, eight weeks in length, under the instruction of Miss Mary Pray, closed last Friday. It has been a successful term.

Miss Irene King of the Democrat office, who has been on a vacation to the islands in Portland Harbor, Mrs. Chas. E. Waterman will take her place in the office.

Several farmers struck into their hay last week Monday, and have been waiting for a chance to get the water out of their hay "so they could get it in out of sight," as one of them expressed it.

Stoddard, the New York mail contractor, who has bid off the Paris Hill and South Paris route, has not yet appeared, and W. W. Farrar is employed by Postmaster Mellen to continue in the service until other arrangements are completed.

Old Father Time is ringing his bell to announce the arrival of the month season. Don't delay in putting your winter clothes out of the reach of these destructive pests. Many housekeepers are now cleaning their bags, but for ourselves we find nothing better than one of those large cambric or cedar chests, with fasteners, a good lock, strong handles, and rollers, and a good lock. They last a lifetime, and are selling this week as low as \$10 at Paine's Furniture Co., 4 Canal Street, Boston.

DOUGLASS SEMINARY.

Commencement at Douglass Seminary, Waterville, occurred last week. Examination of the various classes took place on Monday and Tuesday, and the exercises were enthusiastically in their praise of the school and in appreciation of the excellent work which has apparently been done during the term just closed. The last exercise was a free concert on Tuesday evening, program of which is given below.

PART I.

Music: "In the Valley," Von Weber.

Music: "Gloria," and "Benedictus," Bach.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

Music: "The Song of the Lark," Whittier.

THE OXFORD BEARS.

A LOT OF LIVERY REPORTERS LOOK THEM OVER AND TELL WHAT THEY SEE.

EAST BROWNFIELD.

Schools are closing the summer term. Dr. Osmond, of Ipswich, is visiting J. E. Siskney.

Miss Sara V. Rice, of Boston, is visiting her aunt, Mrs. W. S. Stickney.

Mr. Silas Snow, of Snowville, has recovered from his serious illness, sufficiently to visit his daughter, Mrs. L. M. Gilles.

Haying has begun and promises well. Berries of all kinds are plenty.

With all the rain we have had it is said to be very dry in some places.

Prayer meetings are to be held at the school house on Thursday evening through the summer.

Quite a number from this village go every Sunday afternoon to the Cotton neighborhood to assist in the Sabbath School organized there.

LOVELL.

Work on the road machine is done until after haying.

Circle at G. A. R. Hall on Wednesday afternoon and evening.

Considerable potato is being peeled in this section.

Mr. Stephen S. McDaniel's living at the Toll Bridge is very low with consumption.

E. S. Hutchins is building a very neat and convenient set of buildings at the village.

HARTFORD.

Mrs. Record, daughter of the late Volney Rose, is very low with consumption.

Lewis Stetson collects the cream in Duxbury for the Buckfield butter factory.

Let E. Keene is building a large ice house.

The new road from Albert Sampson's to the county road near Stillman's is open for travel.

Our first moss of new potatoes June 25th.

Mrs. Sullivan Cox is very sick.

NORTH BUCKFIELD.

Just beginning haying about here. Grass is rather light and not so forward as people thought.

Crops are rather backward for so early a season especially corn.

Apples, pears, etc., are looking rather promising on the trees this year.

Our Sabbath School is progressing nicely under the supervision of Josiah Hutchinson of the lower village.

Wood is brought to market at this writing. A. F. Mason is buying in this place.

ALBANY.

Miss H. Edna Dresser, a teacher in the grammar school, Georgetown, Mass., is spending vacation at her father's, P. F. Dresser's, in Albany.

News says: "at the close of the term Miss Dresser's pupils presented her with a splendid gift, bound volume of Longfellow's poems."

Rev. Mr. Moulton's wife has come to spend the summer with him.

Miss Snow, a teacher of Guilford, Conn., is spending vacation here.

Rev. Mr. Moulton preached Sunday afternoon at North Waterford.

Clifford Wheeler and wife, of Bethel, and Deacon Hersey, of North Waterford, were at our church Sunday forenoon.

Mr. Lewis, of Lovell, was in town Monday on business.

Dr. Swadlow, of Bethel, and his friend have been perambulating our brooks, taking out a trout now and then.

Several gentlemen are in this region selling pumps, mowing machines, etc.

Several of our farmers will commence haying the first day of July. They are expecting a fair crop.

Everett Harmon, a student at the Perkins' Institute for the blind at South Boston, is at home spending vacation with his mother.

A son of J. Adeline Brown, of Penobscot, Mass., who is suffering from the effects of diphtheria, is spending vacation with his mother.

Weeks among friends here for his health.

GRAFTON.

The past two or three weeks the weather has been wet and cold and there seems to be no change yet.

On the night of the 17th we had a frost that did considerable damage to the growing crops. Potatoes were injured.

I think there will not be more than one-half the usual amount of hay cut this summer in this section and on many farms it will be very late before they will commence to hay.

There are a large number that will go away haying from this section.

Miss Ady Taylor is some better, but yet is very poorly.

The flies and fishermen were never so plenty as this summer.

BYRON.

A. W. Green, of Carthage, went up the East Branch of Swift River one day last week and caught 17 trout. There is a party of nine camping on the stream now.

Rev. D. A. Gammon was in town last week and spent one day at Jonathan Shaw's.

Lupine Brown has returned home from Wells. She has brought her horse.

Charles Marden cut his leg quite badly while peeling potato.

Our post office will be quite an ornament to Gam Corner.

SOUTH BUCKFIELD.

Farmers are finishing haying this week. Haying is among the things of the near future.

Owing to some untoward accidents Black Nathan had to take a back seat at the Canton races but still maintained his reputation as a trotter. He trotted a half in 1-7 and a quarter in 28.

Nathan like his sire is a natural trotter. He has ventured down to East Hebron and gleamed these items: Franklin Pierce is the present owner and owner of the Jabez T. Davis farm.

Mr. P. P. Jones of Auburn, but more recently of Lynn, Mass. He seems to be a practical energetic young man and we predict he will make a successful farmer.

Black Nathan has been master trackman on the railroad off and on for more than twenty years. The railroad company has paid him more than \$2,000, and many not all slips through his fingers either.

Erza Marshall has sold his homestead farm and taken up his residence with his son-in-law, Llewellyn Keen, near West Milton.

Frank Sawyer and family occupy one of Will Packard's houses.

S. H. Irish has traded his Prescott colt for a work horse with Bangs of Auburn.

Ripe raspberries are among the novelties of the season.

Selections Ellis Whitman is agent for the Deering works. We had supposed the Buckeye as near perfect as any.

Confess Ellis is a plausible and convincing talker. Mr. Biesse uses one of these machines on his East Branch farm.

As far as looks go we were highly pleased with the Gazette horse race at the city this week.

Thad Leavitt advertises an auction for the sale of personal property at his late residence on Saturday of this week.

Johnnie Gerrish has rented the Harrison Record residence and Benjie boards with him.

Rev. John A. Lowell, pastor of the Free Will Baptist church of Danville, N. H., is visiting relatives in town.

Lowell is a son of the late Mark Lowell of Buckfield, a graduate of Bowdoin College and for many years pastor of a church in Lewiston. He has for the past sixteen years been pastor of the church in Danville.

When visiting the city put up with Bangs on Main Street. He is a good fellow.

Wilson Shaw is having this week employing George Snel and A. W. Sawyer. Albert Shaw is also having employing Percy Lowell.

NEWRY.

Warren Kilgore, of Dakota, is in town with his wife on a visit to his parents.

Dr. C. Harlow is still confined to his house. Quite a number of relatives from Buckfield and vicinity have visited him during his illness.

Four young men are going down country this week to work haying.

Fourth of July is close at hand. Green peas and corn are looking fine.

How is that for this northern land?

BETHEL.

Johnston Cushman has been busy trying cases in Bethel the past week. We are happy to know that the parties before him for assault and adultery were not citizens of Bethel.

The boys from Bethel belonging to the base ball club hired T. C. Carter to take them to Gorham, where they played a game with Gorham and being victorious they made night hideous on their return, tooting their horns.

S. D. & J. M. Phillips have sold two loads of horses this spring and are expecting the third carload this Saturday morning.

HANOVER.

There will be a celebration and basket ball at Hanover village on the fourth of July. All are invited to bring their baskets full and spread them on tables which will be prepared for them in the pine grove. Programme is as follows:

8 A. M. sharp. Horshoes.

9 A. M. oration, by Rev. Mr. Pease, of Bryant's Pond.

Immediately following the oration a game of ball between the Bryant's Pond and Locks Mills teams.

Dinner.

After dinner a game of ball between the Locks Mills and the standing line of the morning.

Back race, for prize.

Back race, for prize.

In the evening a grand ball at Union Hall, under the management of the Union Circle. Dancing 75 cents per couple; supper, 50 cents per couple.

The steamer North Star will run to and from all points of interest during the day. The Rumford Brass Band will furnish music.

PORTER.

Fine growing weather.

Some farmers have commenced to hay but the weather is not suitable to do much. The hay crop will be good if we have the right kind of weather to secure it.

Mr. George Young, the man that broke his leg so badly a short time since and Dr. Moses E. Sweet who is attending him, thinks it doubtful if he can ever get on his feet.

David Pratt, who has been to Portland to the Maine General Hospital, has returned home much improved in health.

Walter Greenleaf, who was there the past winter, although one lobe of his lungs is entirely gone, is around quite smart. He had a part of three ribs taken out.

Mr. French has two rose bushes of the varieties of the Twin Sisters and Queen of the Prairie; one of them has 150 full blown roses and the other 75.

Mr. King Goodrich is here on a visit from Dover, N. H.

Mr. Sewell Sawyer has given peas for dinner June 12th.

L. L. French had sweet corn spindled June 15th.

Hands are still busy peeling potato.

There has been a large amount peeled this season.

Mr. Jackson Wedgewood died the 20th.

EAST WATERFORD.

Daniel A. Donahue, of Boston, is visiting his uncle, William Knightly.

Walter Greenleaf, who was there the past winter, although one lobe of his lungs is entirely gone, is around quite smart. He had a part of three ribs taken out.

Mr. French has two rose bushes of the varieties of the Twin Sisters and Queen of the Prairie; one of them has 150 full blown roses and the other 75.

Mr. King Goodrich is here on a visit from Dover, N. H.

Mr. Sewell Sawyer has given peas for dinner June 12th.

L. L. French had sweet corn spindled June 15th.

Hands are still busy peeling potato.

There has been a large amount peeled this season.

Mr. Jackson Wedgewood died the 20th.

EAST BETHEL.

The spring board Tuesday evening was well attended. A first-class company of about seventy-five joined in dancing and a nice time was enjoyed by all.

Mr. Jacob Kimball has gone to Massachusetts to visit his son, William Kimball, who is very low with consumption.

Hon. W. W. Cross and Master Bobbie Cross from Brighton, recently visited at C. N. Kimball's.

A number from this place attended Rev. G. R. Hannaford's birthday party, which was at the church, by Rev. W. W. Wakeman, mod.

Regular meeting of P. O. H. at grange hall, July 6th.

EAST SUMMER.

Mr. Isaac E. Richardson of Washington Territory is visiting friends in Hartford and vicinity after an absence of several years. He was for many years a much esteemed citizen of Hartford and his old friends are pleased to greet him again.

He was accompanied by Rev. W. C. Richardson, now a professor of natural sciences in the State Normal School in Troy, Alabama. Since his graduation at Waterville he has followed teaching most of the time in the West. He was at one time in charge of a normal school in Dakota, and has been very successful in his profession.

Eastman, the seedman, is finishing up a building for his increasing business, which has outgrown his present quarters. All will rejoice at his success.

SLOTCUM.

News is scarce here about this time. S. A. Stevens is surveying on Mrs. Pleasant Holt's farm.

S. A. Stevens has finished putting in the foundation of the Baptist church, which is the building at her brother Scott's, quite sick.

SWEDEN.

Fred Clark and Owen Demeritt of Bethel, recently visited friends and relatives in town.

The people met last week and related Charles Whitehouse's story. It is now well under way and will be completed in season for him to put in his hay.

Mrs. J. A. Young has several geranium leaves that are 2 1/2 to 3 inches in circumference.

Married the 23d inst., Clarence Ridge of Lovell, and Mary L. Ellis of Sweden.

Harry Whitehouse was in town Friday, has been at work for O. E. Edwards.

PERU.

Mrs. Daniel De Lano and her daughter, Annie, have come up on a visit to her son.

Mrs. Hattie Leadbetter has returned home sick from Auburn, to her father's, Lorenzo De Lano's.

J. E. Conant had new potatoes from his field on the 21st. Can any one beat that?

There is quite a silo craze in this section. There will be six or seven built this season.

Mrs. May Robinson is improving.

Elder Burgess of Orr's Island, changed pulpits with Elder Carver last Sunday, the 23d.

BROWNFIELD.

Mr. O. E. Linscott has returned from Nebraska where he has been visiting friends.

Mrs. C. King, who has been boarding at the Pequot house, has gone away for a few days.

Mrs. Wallace Merrill and children of Brighton, are visiting her parents, Mr. and Mrs. A. C. Morrison.

Mr. Sherman Morrison has gone to Frysburg for a few days to work in a coal shop.

EAST BRANCH FARM,

BUCKFIELD, MAINE.

MCKUSICK

By OLYMPIA, by ALMONT. First Dam, LADY BURN, by BURTON. Trotting children, by MARY'S TROTTER. Children, Second Dam, Desmonds, by Flora Temple, by Old Dred.

Third Dam by H. H. Messenger, by Winthrop Messenger, by Imported Messenger.

Foaled July 11, 1885. A fine bay with black legs, mane and tail, small star and both hind feet white. Stands 15-2, and weighs over 1000 pounds.

While the breeding of McKusick continues him to rank with the best stallions in New England he is a natural and fast trotter and has the best of feet and legs. He has numerous elegant forms, fine style, and open, smooth and rapid gait. His individual merit was such that he was awarded the first prize at the New England Fair in 1886, over the best of three-year-old stallions ever shown in the County.

Service Fees \$25 to Warrant.

East Branch Farm is situated within one-half mile of Buckfield village, Maine. It is a well-kept place, with a large number of good pastures. Mares and colts kept by the week or year.

Tabulated pedigree and other information furnished on application to H. C. Ellis, Bangor, Me.

GEORGE D. BISBEE, Proprietor.

FRANKLIN PRINCE,

7434.

Black stallion, six in face, only on nose, stands over 16 hands high, will weigh 1100 lbs., bred by John Woodman, No. Leeds, Me.; foaled June 23, 1884; sire, Dr. Franklin; dam by Riley's King, (sire of Cleveland King, 2:27 1/2; 2d dam by the Knights Horse, 2d dam by Old Hound Horse, Dr. Franklin, (sire of Lawrence, 2:25 1/2); by Gen. Knox, sire of 11 in 2:30 1/2; dam by Riley's King, by Gen. Knox, 1st dam, Lady Riley, a powerful black mare that was a match race with two men, to England, in 1850, by the same owner. He has numerous elegant forms, fine style, and open, smooth and rapid gait. His individual merit was such that he was awarded the first prize at the New England Fair in 1886, over the best of three-year-old stallions ever shown in the County.

THE PUZZLER.

Communications for this Department should be sent to the Editor, W. H. LAYMAN, East Somer, Maine.

L-HIDDEN PROVERB.

One word taken from each of the following proverbs will form another proverb.

1. Those who speak from experience speak the truth.
2. A man is known by the company he keeps.
3. There are teeth of pearl in the head of a dead dog.
4. He has paid dear for his whistle.
5. You should never tell tales out of school.

A sorrow shared is half a trouble; But a joy that is shared is a joy worth double.

6. Children and fools speak the truth.
7. If cold can reach you through a hole, Go make your will and mind your soul.
8. That which we learn by experience is long remembered.
9. More things spring up in the garden than the gardener sowed.
10. A secret once told is a secret no longer.

12. Look out for your own sins and let other people look out for theirs.

SOLOMON.

L-ENIGMA.

Composed of 24 letters.

My 14, 16, 21, 10, 16 is bright.

My 12, 11, 22, 5 is to scrape with the teeth.

My 18, 19, 24, 8, 15, 21 is to purify.

My 20, 23, 16, 6 are prophesies.

My 17, 9, 1 is a large company.

My 16, 13, 8 is a resting place.

My whole is what David the Psalmist has been called.

MARY.
