In the future business hours at the postoffice will be from 7.30 a. m. to 7.30 p. m., and both deliveries will be closed at 7.30 p. m. instead of eight o'clock, as heretofore.

Some of our Redmen went to Lewiston today to help paint that city a brilliant hue. Grand Sachem A. I. Mather of this city will sing some of his character songs there.

An informal reception was tendered the new secretary of our Y. M. C. A., Thursday evening in the association rooms, a large company being present. A fine concert was given by the Zethus Instrumental Club.

The young people of St. David's Society made a great hit at Wintport, Tuesday evening, where they put on a play for the benefit of the Catholic Society there. J. H. McNamara furnished a portion of the entertainment, and as usual was given an enthusiastic reception.

A big crew of men and teams has been at work the past week constructing a road down over Juniper Hill. This road will join the Camden road near the Glen House, and will pass through the fields west to the base of the precipitous hill, then swinging to the south skirt the edges, passing the brow of the hill and passing on into the woods nearly to the reservoir. Here the road branches to the right and left. The right-hand road takes a circuitous route through the woods, striking the Blackington's Corner road north of the reservoir, while the left hand road follows the southern reservoir wall and comes into the main road at the old Crockett homestead. The roads are being constructed of fine road gravel which make the best kind of a thoroughfare. The undergrowth and woods will be trimmed up and landscape work brought to the aid of nature. On the slightly summit of the hill a lookout will be constructed and a place where refreshments of various kinds can be obtained will stand nearby. Seats, tables and the like will be put up, and one of the most beautiful localities in the state will be thrown open to the public. The view from this hill north, east, south and west must be seen to be appreciated. The Messrs. Crockett's generous enterprise will be appreciated the coming hot summer days.

The road machine was at work on Crescent street, Friday, toiled by six fine horses. Teamster Lee says the new pair are fine ones.

Some of the houses purchased by the Bay Point Co. are being metamorphosed with piazzas and the like into cozy seaside cottages.

The Rockland Charitable Association reports the need of many articles of clothing, and provisions, and few offerings. Don't forget the poor!

Will some of our traders do an act of charity by donating a new flour barrel for a danger signal at the muck hole in front of the Berry House Co.'s house? The old one looks tired and sick through long service.

The Rockland Charitable Association is in great need of contributions to help it in its work. One thing especially needed at present, for an old lady, is a shawl of some kind. Who will be the good Samaritan?

Smith's Bell Ringers and Pantomime Company gave their performance at the opera house Saturday evening last before a good sized audience. The company gave a good performance, in fact they do all they claim to do which is not often the case with companies. The musical selections were finely rendered and the tone of the performance was first-class.

UNCLE TOM'S CABIN.

Bangor Whig.
The time when "Uncle Tom's Cabin" fails to draw has not yet come and the play promises to be before the public for some time yet notwithstanding its constant service for so long a time. It was given at the Opera House Saturday afternoon by the Peck & Fursman Company to a good sized audience. The company did quite good work with the play and made a good impression in the familiar scenes. Little Lotta as "Eva" was attractive and winning and the Hyer sisters created considerable amusement in the parts of the Topsy's. Mr. Wallace as "Uncle Tom" and Messrs. Marshall and Dave in the characters of "Markus, Sr." and "Markus, Jr." were well received. The Sibeland pony, the donkey "Nero" and the hounds proved a source of interest to the young folks. At Farwell Hall Saturday evening next

IS ROCKLAND BOOMING?

Is Rockland booming?
Look here my friend! Just tell me where you've been.

We've just the smartest city here that ever you have seen.

On our snail bay big vessels ride,
Bringing cottages dot the water-side,
And big hotels the coming tide of travellers will win.

Our background is of limestone fine
Which keeps the vessels going,
And furnishes the nicest time
As all are now allowing.

The K. & L. and L. R. R. keep many men employed,
And bustling, bustling industry has idleness destroyed.

Is Rockland booming?
Come here my friend, no matter where you've been,

You'll find the smartest city here
That ever you have seen.

OLD WOOD.

A. M. Crabtree of South Hope is burning wood that has been under cover for twenty years.

FATAL SMOKING.

Willie Welsh, aged twelve years, whose severe sickness as the result of immoderate cigar smoking we have previously reported, died Tuesday last.

FLYING CHIPS.

Work has recommenced on the trestle of the L. R. R. Engineer Spofford is on deck.

Work has begun on the keel of the new schooner in the Cobb, Wight & Co. yard.

LONG VOYAGE.

The little schooner Willie set sail this morning for her long trip to the San Blas coast, Central America.

MAY COME HANDY.

The bad boys in the Lincoln Street Grammar School will be pained to learn that the new principal, Mr. Suckling, has a nice gold headed cane, given him by the pupils of the Catala Grammar School, of which he was the popular principal before coming to Rockland.

SHOE FACTORY.

The manufacturer with whom our people are talking will visit Rockland at an early day. In the meantime our people should be deciding what they will do. These business men want something besides gas to figure on, and our people should be prepared to talk cold-blooded business when the shoe man arrives.

BAT AND BALL.

Two sides representing the Y. M. C. A. played at the High School grounds Fast Day. Though more fun than science was displayed, the game was interesting, the score at the close being 7 to 3 in favor of Capt. Tuttle's delegation. A large number attended a game of ball between two picked nines at Thomaston, Fast Day. Simonton, Ray and Chaples of the K. C. C. team played, the latter doing effective work in the "box." The championship season of the National League began Thursday. A Y. M. C. A. nine will soon be formed here. The enclosed grounds on Broadway will probably be secured.

Y. M. C. A.

There was a large attendance at the meeting in the Y. M. C. A. rooms Sunday afternoon, it being the last opportunity to hear retiring secretary Whitford. The Iopas Quartet sang and Mr. Whitford made an address. It was a very impressive service. Mr. Whitford and family left by train yesterday for their new home, Cambridge, Mass., followed by the sincere benediction of scores of friends in this city. Mr. Whitford took with him, also, a fine gold watch, a parting gift from friends. Mr. Garland, our new secretary, went to Massachusetts yesterday, and will return the latter part of the week with his family.

WHAT NEXT?

Tuesday evening about 8.30 o'clock persons unknown set fire to the big heap of brush in the back yard of David Winslow's house, Lime-rock street. A stiff southwest breeze blew the flames directly toward the house and stable and Mr. Winslow's prompt action in applying water to the flames was all that saved these two buildings. A short time after persons passing the High School house were startled by hearing the school bell ringing violently inside. A close examination failed to reveal the cause, neither could any mode of entrance to the building be found.

The supposition is that the persons who set the fire tried to get the fire department out by ringing the bell.

STRONGLY BUILT.

Very Little Temptation Offered for Burglars to Bungle.

The vault being constructed by C. S. Crockett and crew for the Rockland Trust Co. is something wonderful to behold. A well known New York burglar was in town last week to see what opportunities there were for business in this direction, and he informs a reporter of the Tribune that the way they make vaults nowadays is having a depressing effect on the profession, and if they keep on as they are now tending all honest burglars will have to demean themselves by going to work for a living.

The Trust Co.'s vault has a foundation nine feet deep, with a two-foot brick wall, all concrete and stone and cement, with a flooring of railroad iron. The walls are of brick, cement and railroad iron, 18 inches through, with a two-inch air space. This will be lined with three-inch drill proof steel.

A Maine ice king estimates that the entire quantity of ice now held for sale in the State will not reach over one hundred and fifty thousand tons, his estimate being 50,000 on the Kennebec, as much more on the Penobscot, and the remainder along the coast. Ice owners here are holding their stocks at two dollars a ton, and the above named gentleman says a hot wave will send it up still higher.

FURRINERS.

There were three foreign arrivals yesterday, one having ties for the L. R. R. R. There have been 12 foreign arrivals for the month.

YES!

With the 30th day of the month our century of national life is rounded out, and every citizen of our free America will join in rejoicing over our prosperity, and will long tell to his children and grandchildren of the enthusiastic celebration of the event. For a concise, exact and vivid history of the various events, the May 1st edition of the Boston Herald will, as usual, lead, and every family should preserve a copy of that date.

THE BOSTON DENTISTS.

Dr. Watrous was called out of town last week, but will have the office, in Pillsbury Block, open day and evening after May 1st.

THE SHEEP HERDER'S LIFE.

Forest and Stream.

The sheep herder's life, to say the least is a hard one. He lives in a tent the year round, and often for weeks at a time entirely alone. The sheep require constant attention to keep them from straying and to protect them from the wolves and coyotes. Out in the blazing sun all day, with no friendly shade trees, and returning at night to his tent, he has to do his own cooking and washing and other work of the camp. As the grass is thin and scattering, the herd has to be kept constantly on the move, which makes the additional labor of moving camp at least every ten days. The herder is a stranger to even the common comforts and conveniences of life, and is deprived of all the benefits of society and friends. His bed is on the ground. His blankets and clothing become soiled and dirty. Often water is very scarce and he is thankful if he can get enough to make his tea. He is from forty to one hundred miles from any post office. He has no knowledge of what is going on in the world, and seldom keeps the run of the day, week or month. He must get his own breakfast and be out by daylight, as that is the time the flock are on the move. Often at night he has to be out to prevent the herd from being scattered by coyotes and other enemies. When added to all this are the fierce winds and fearful cold of the Wyoming winter, when he must pitch his tent upon the open plains with no fuel but the scanty roots of the sage bush, surely his occupation is not a desirable one. If asked what compensation there is for all his hardships and privation, I should have to give it up.

CRUMPLETS.

Scald one pint of milk, let it stand till lukewarm, then add a teaspoonful of salt and about three and a half cups of sifted flour. If you use granulated spring wheat flour, three cups will be quite sufficient. Beat vigorously, then add four ounces of butter, melted, and a half cup of yeast, or a half of a compressed cake dissolved in a half cup of lukewarm water, beat again and stand in a warm place until very light. This should take about two or two and a half hours. When light, grease large muffin or crumple rings and place them on a hot griddle. Fill each ring full of the batter, bake until brown on one side, then turn and brown on the other. As soon as the crumplets are turned remove the rings as they bake more quickly without them. A moderate fire is required for the cooking or they will brown on the outside before they are thoroughly done in the centre.

BLOOD ORANGES.

The blood orange is a mere variety of the sweet orange obtained by cultivation, and appears first to have been raised by the Spanish gardeners in the Philippine Islands, from the capital of which (Manila) it, together with the well-known oranges, formed at one time one of the chief articles of export. On its first appearance in Europe it excited a considerable sensation; and in the last century very high prices were demanded for the trees which bore the wonderful fruit. None, however, now come from Manila, the supply being derived almost entirely from Malta, where great pains and attention are bestowed upon their cultivation. It was for a long time supposed—and, indeed, the idea is not yet quite extinct—that blood oranges were produced by the grafting of the orange with the pomegranate, but there is no the slightest foundation for this belief.

BATH BUSINESS.

The condition of trade this year in Bath ought to be excellent. All our yards with but one exception are full of stock, and nearly every vessel on the stocks is the equivalent in tonnage of a ship of 50 years ago. The New England Co. and Gen. Hyde at the yard and the Marine Iron Works last Saturday paid out \$10,000 for coal alone—so we are informed. Ordinary harbor commands from \$1.50 to \$2.00 a day and a carpet heater asks 50 and 75 cents to heat the dust from a carpet. Labor in this city is scarce and high and the coming summer in consequence should be one of unprecedented prosperity for and in the shipping city.—Independent.

JUDGE AND REGISTER.

The Camden Herald speaking of our probate court officials has the following pleasant words: "Our new judges, Reuel Robinson, easily and promptly turns off the business and is winning the approval of lawyers and all having business before the court. A. A. Beaton now has his law library in the Probate Court Room which is retired from the court and is a portable which makes it convenient for him wishing to consult privately or to look at law books. Mr. Beaton is a very intelligent, accommodating and efficient register."

The elder swam nearly to the shore and sank before his mother's eyes.

VINALHAVEN'S ANNIVERSARY.

The Good Time Coming for Our Smart Neighbor.

This town at its last annual meeting appropriated the sum of \$350, to be expended in the proper observance of its 100th anniversary, which occurs the 25th of June next. A committee consisting of O. P. Lyons, L. W. Smith, T. G. Libby, George Roberts and D. H. Gilden were appointed to make all necessary arrangements. The recommendations of the meeting were that a brief history of the town should be published and distributed free, a good speaker engaged to deliver an oration, and an invitation extended to all local organizations and others to participate in a parade in honor of the occasion. A definite program has not yet been arranged, but the committee, although limited in means, will make every effort to carry out the recommendations of the meeting.

Vinalhaven, 71st town, was incorporated June 25th, 1789, and was so named in compliance to John Vinal, esq., of Boston, who had been employed by the settlers in obtaining legislation for quieting their upon their lots. It is said that the first permanent settlement was effected in 1765, but there are evidences of settlers having been here years before that time. During the Revolutionary war when the British occupied Bigby (Castine) many of the Islanders were compelled to leave their families and work upon the fortification. On times their cattle were killed and other indignities heaped upon them. To avoid abuse numbers left their homes and did not return until after peace was declared. In 1795, 72 of the inhabitants obtained from the government deeds of their lots, paying a small sum of money for the whole.

For the first half century after incorporation, the principal employment of the inhabitants was fishing, there being at one time nearly 100 vessels owned here and engaged in that business. Farming was carried on to a considerable extent, especially on the North Island, and a number of vessels built here, giving employment to many. About 1846 the quarrying of granite was commenced and that business has gradually expanded until now there is one of the largest granite quarries in the country, and Fox Island granite is known from the Atlantic to the Pacific. Two of Vinalhaven's offspring, North Haven and Hurricane, are thriving and prosperous towns, the former having been set off in 1816 and the latter in 1878.

Capt. Reuben Carver, now in his 92nd year, is the oldest person residing in town, and a descendant of one of the first settlers, his father having come here in 1766. The old gentleman is enjoying excellent health, and looks forward to the coming anniversary with a great deal of pleasure.

THOMASTON.

Thursday was the commencement of the Catholic "Forty Hours Devotion," and the choir of the Rockland church came to Thomaston to sing at mass, Rev. Fr. Quinn conducting the service.

Shubael Waldo, an old and respected citizen of this town, died Wednesday afternoon at the home of his daughter, Mrs. H. M. Lord of Rockland, where Mr. and Mrs. Waldo have resided for some years. Mr. Waldo had been in feeble health for some time, and about a month ago had a severe paralytic shock from which he seemed to recover. Wednesday he was out of doors several times, but in the latter part of the afternoon complained of a slight indisposition and retired, and in a few moments passed away quietly and peacefully before help could be summoned. The funeral occurred Saturday, from the house of his daughter, Mrs. F. E. Gilchrist, in this town. Mr. Waldo was born in Mansfield, Conn., 77 years ago, and was one of a family of twelve children, of whom only one, Mrs. Caroline Newcomb of West Willington, Conn., survives, at the advanced age of more than 90 years. Mr. Waldo was a tailor by trade, came to Portland, Me., and afterwards to Thomaston, being about 21 years of age when he went into trade in the latter place. His place of business was in the lower portion of what is now the R. H. Conner Engine Hall. He was for some years postmaster, his shop and the postoffice combined standing on the site of the Capt. Albert Watts residence. He afterwards bought out the grocery business of Timothy Fogg and Mr. Kellogg at the Creek, which was then the business center of the town. The store in which he did business now stands on the old site, and was sold by Mr. Waldo a few years ago to Thomas Williams. Mr. Waldo was a consistent member of the Congregational church, and sang for years in its choir. Fifty-four years ago he married Sarah B., third daughter of Col. John E. and Sarah B. Haskell of Thomaston, who outlives him. He had five children, all of whom survive him, Capt. F. D. Waldo of ship Isaac Reed, now loading in England for New York, Mrs. E. A. Robinson and Mrs. F. E. Gilchrist, residents of this town, Mrs. E. M. Prince, now in Florida, and Mrs. H. M. Lord of Rockland. He was a kind and indulgent father and husband, and an upright citizen, whose life is worthy of all emulation.

"GIT THAR!"

This is the latest advice from Sam Jones. He refers to that land of bliss where worry is unknown. Hope we'll all git thar bye and bye. Meantime whilst care and anxiety is inevitable, let us lessen it by using the best possible means of avoiding worry. Why need any housekeeper worry this season? Times are good, spring is here early, and all she wants to complete her happiness is within easy reach. Comparisons are odious it is said, but comparisons such as we are calling your attention to are advantageous, tending to show your possibilities for small outlay.

Hair Cloth Parlor Suits, latest styles, as low as \$65.00. \$95.00. \$18.00.
Vide Boston Globe, May 6th.

The odium all lies on the 1879 side. Why repine? Why hesitate? Why not be in style? When Parlor Suits are stretching out their arms to you, ejaculating "Please buy me for \$45. I'm ashamed to be found in such low priced company." Has your carpet reached the stage when to raise the dust with it may cause a collapse or a refusal to do duty? Be independent of it. Git Thar where

LOWELL BRUSSELS

is awaiting you at \$1.00 per yard that never strayed outside the door before this spring for less than \$1.25. What's the matter with them? Too good to last and every body has been buying them until we reach the point where we cannot continue to sell the same pattern. Mills have stopped making them. New patterns have taken their place, and these odd rolls must go. Same way with All Wools—quite a lot at 55, 60 and 65 cents. Extra Super Unions, 15, 50 and 55c; all 10 or 15c below usual prices. Just as good as the spring stock, every bit. We like some of the old patterns best.

Now is Your Chance to Get Floored.

Beg your pardon, did you say you needed a cooker or a baker? Guess you better see the Quaker.

Don't know if it's true, but some folks say you can cook and heat with a hot per day. It's the latest of coal dealers—that's true; a friend to the housekeeper and would be to you

How we do feel like praising up these. Feel like doing the public a service, because we get such good reports daily in regard to New Tariff and Quaker Ranges. Save their price in fuel in a short time—\$25 buys one. A passing word about one or two other specialties and we are done. Baldwin Dry Air Refrigerators save ice, therefore save money; \$8.00 is the price.

BABY CARRIAGES

Another reasonable article. The baby needs one and they cost but little. Ease, elegance and comfort combined. Brass Bed Stands, "English you know," consequently fashionable. Boston says so, New York re-echoes through its Fifth Avenue dude, and of course we must fall into the line of fashion. Might as well be out of the world. Etc. Our easy terms still in force for everybody, and we cordially invite you to our store, morning, noon or night. "Git Thar."

Mr. Clark was in the prime of life, and the possessor of a more than robust constitution. He was kind and generous hearted and had the respect of his acquaintances.

We would say to our tax paying friends who have become possessed of the idea that the raising of \$100 towards the town's centennial celebration would extort a big tax from them, that the percentage on the sum raised lacks 2-10 of being one mill. Verily we are taxed to death. Tell it not in Gath, neither publish it in the streets of Askelon.

Mrs. Judson Sherman of Montrose is visit-
ing her old home and friends in Appleton.
She is a member of the Ladies Aid Society of
Appleton which was organized several years
ago during her stay in Appleton. The society
met at Mrs. Hiram Keen's and enjoyed a picnic
supper. After the supper the president, Mrs.
C. A. Dunton, presented Sister Sherman with

it was gratefully accepted by Sister Sherman.

RANDOLPH, APRIL 24.
Daniel Brookings Relief Corps gave a supper
in G. A. R. Hall, Wednesday evening, April
10th, the Sons of Veterans and a few of the
Post assisting. We served supper from six to
eight o'clock and then had an interesting en-
tertainment, consisting of vocal and instru-
mental music, dialogues and speaking and had
a very pleasant time.

It is with great sorrow that we announce the
death of our faithful helper and worker, our
Conductor, Miss Minnie Jones. Her funeral

SEC. OF BROOKINGS RELIEF CORPS.

PORTLAND, APRIL 24.
The annual inspection of Bosworth Relief
Corps, No. 1, took place Friday afternoon,
April 19th, the inspecting officer being Mrs.
Lydia A. Bickford, President of Brunswick
Relief Corps, No. 10, of Auburn. There were
present by invitation, Claudman Relief Corps,
No. 18, of Saccapappa, and Thatcher Relief
Corps, No. 26, of this city.

Mrs. Caleb N. Long, Secretary of the Fair
Committee, made her report, after which the
Treasurer, Mrs. A. M. Sawyer, followed with
the financial report. The total receipts as re-
ported were \$12,989.54; expenditures, \$1,
764.94; leaving a handsome balance of \$11,
224.60. This fair was given by Bosworth
Relief Corps for the purpose of raising funds
to complete the Soldiers & Sailors Monument
to be erected in this city, and the above balance
was immediately paid over to the treasurer of
the Soldiers & Sailors Monument Association,
Henry W. Hersey, our city treasurer. The
Corps feel very proud of their success, as the
net proceeds were far beyond their most san-
guine expectations, and somewhere about
\$3000 more than was actually needed to com-
plete the monument, consequently the com-
mittee will not be stinted as to funds sufficient
to carry out their ideas in the surroundings, etc.

After the business of the Corps was con-
cluded there were recitations by the members
with remarks by the visitors after which the corps
closed and a collation was served to which all
did ample justice. Shortly after five o'clock
the visiting members from Saccapappa left for
home. If the various corps would visit more
often visits more frequently the order would be
much benefited thereby.

WANT A BRIDGE.

A Matter of Considerable Interest To
South Thomaston People.

Spence Head Island is part and parcel of
town of South Thomaston. On Spence Head
Island are granite works which are operated
by the Bolwell Granite Co. These works give
employment to quite a crew of men who live
on the main and are obliged to cross and re-
cross by ferry, a small boat, necessitating great
expense and inconvenience. To obviate this a
charter for a bridge was granted Feb. 28, 1880,
but the town of South Thomaston has refused
to build a bridge, although the cost would be
but about \$3000. The distance over the ferry
at low water is 237 feet and at high water 308
feet. The promoters of the bridge enterprise
have now appealed to the county commissioners
for relief.

A reporter of THE COURIER-GAZETTE has
been looking into the matter and is enabled to
give the following statistics: On the island
are 140 inhabitants, men, women and children.
The postoffice is on the main and these people
are obliged to row back and forth to get their
letters and papers. The number of men em-
ployed on the island is 80, of whom 60 are
citizens of South Thomaston; number of men
living on the main land, crossing the ferry, 23;
average number crossing the ferry daily, 40;
amount paid out there for labor in 1888, \$43,
281.73; amount paid for labor there in the last
fifteen years, \$507,041.53; average amount
paid per year \$33,802.77.

It would seem as though the town were in
duty bound to encourage so extensive a busi-
ness by giving the workmen proper facilities,
and where the expense is so inconsiderable we
should think it would be very ready to do so.

You'll find her smiling night and day,
Although at times she is not gay,
And should you wonder why you meet
This constant smile, regard her teeth.
She only laughs those gems to show,
Which SOZODONT made white as snow.

ing orders by telephone from Ellsworth.
Rockland's wholesalers fill man a big order
from Bar Harbor, Ellsworth and other distant
places received over the little wire.

SATISFACTORY GAIN.

Along with other booms there is a gratifying
boom in the matrimonial circles in this city.
The city clerk's books show 26 intentions of
marriage from Jan. 1st, up to the present time,
against 17 for the corresponding time last year,
and 1888 was a very fair year.

INDUSTRIAL NOTES.

The Saco Building Company has received
replies from the Richmond and Lynn shoe
firms who recently visited Saco with a view to
moving their factories to that city. The letters
indicate that both firms desire to find buildings
into which they can move immediately. They
consider Saco's offer liberal and if they are
unable to find a suitable building elsewhere
they will wait for the Saco building company
to erect one.

OUT IT COMES!

The work of pumping the Engine Quarry is
progressing rapidly. Two weeks of constant
pumping night and day, have sufficed to lower
it about 12 feet. New power in the shape of a
pump throwing a 10-inch stream has been ad-
ded, which, together with the other two pumps,
will take out about double the amount re-
moved a day at present. It will
require considerable less time to empty
the quarry than six weeks, which was the esti-
mated time. The water in the deepest part of
this quarry was found to be 83 feet.

MARINE MATTERS.

Capt. Arty of sch. Manitou, reported by us
last week as assisted off Hay Island by the
Life Saving Crew, wishes us to voice his thanks
to Capt. Shea and men for their prompt and
efficient aid. They were on board the vessel
20 minutes after she struck.

The Scott Wrecking Company has begun
work on the sunken schooner Anna Holton at
Newport, R. I. A portion of the cargo has been
removed and the water pumped out. It is
hoped to float her when she will be towed to
New London and the rest of the cargo removed
there. She will then be brought home for re-
pairs. She is owned in Thomaston.
