### THE L. R. R. R.

Work Completed for the Present—What Has Been Done.

Parker Spofford, engineer in charge of the Lime Rock Railroad construction, has completed his work, and returned to his home in Bucksport Thursday. In April of last year Mr. Spofford was appointed engineer in charge of the construction of the then projected rock railroad. The 8th of the following May the firm of Spofford & Mitchell, composed of Mr. Spofford and James Mitchell, contracted to build four miles of the road, from the Knox & Lincoln to A. J. Bird's store. That contract was completed Sept. 1st. The rest of the road, mostly trestle work, was built by the railroad company, with Mr. Spofford as engineer. Work on this trestle began in July, 1888, and the first rock was hauled last fall. No further work will be prosecuted at the North-end until certain complications arising from the right of way are disposed of, and with the exception of one or two sidings work is practically completed for this season.

About 1 1-2 miles of trestle are completed and 7 1-10 of surface work, making about nine miles of road operated. Nearly 1 1-2 millions feet of hard-pine timber have been used in building trestle work.

Mr. Spofford has given the most perfect satisfaction, has shown himself an expert in his business, and has given the Lime Rock Railroad Co. a fine stretch of road. He says of the men with whom he has done business that a more energetic, above-board and fair-minded set of men he never had dealings with. Mr. Spofford has had an able corps of assistants in A. H. White and W. N. Lee of Bucksport and V. K. Parris of Paris, Me. Mr. White left in August last, Mr. Lee taking his place. This season Mr. Lee has had immediate charge of the work.

Spofford & Mitchell enter at once upon a contract to give the town of Bucksport a water supply, and will lay about three miles of iron pipe before cold weather sets in. It will be a gravity system, the supply being taken from Silver Lake, more commonly known as Big Pond, about a mile back of the town. The head will not be sufficient to supply all of the town, and it is expected eventually to put in a pumping station.

### HISTORIC BUILDING.

Sketch of the Busy, Useful Life of an Old Structure.

The old residence whose slow procession through Main street the past week has been the object of so many hearty anathemas, has a history of its own. In the early history of our city it stood near the site of the Rockland Savings Bank and did duty as a postoffice, John Spofford being Uncle Sam's postal agent at the time. Overhead Herman Stevens, esq., had a law office.

It was afterwards moved to the corner of Limerock and Union streets, near the "yaller" school-house, and in it several of our now prominent citizens boarded with Landlord Handley.

It was afterwards moved to the "Point" and rested there undisturbed until crowded aside by the incoming Lime Rock Railroad. It is now on its way to Perryville, where it will do further duty as a tenement.

### NEWSPAPER NOTES.

The Portland Press is giving us a very interesting column under the heading of "State Topics of Interest." It is very newsy and bright.

The newsy Pemaquid Messenger has entered upon its fourth volume. The Messenger has had a useful life and is one of our most valued exchanges. It has a hard-pan circulation of 1200 and is deserving of its prosperity.

There has been another change in the editorship of The Eastern State, E. A. Russ retiring and T. H. B. Pierce, esq., of Dexter, taking charge as editor and manager. Mr. Pierce has had newspaper experience, and is an able and pleasing writer.

### COMING HERE.

"We regret to say that Col. Fogler has the matter of removal to Rockland under advisement. Belfast cannot afford to lose him and his family. A leader at the bar and in politics, an eloquent and ready speaker, a capital presiding officer, a skillful organizer, and a general favorite, Col. Fogler's departure from Belfast would leave a void not easily filled. In social and musical circles Mrs. Fogler would be greatly missed, and we do not see how Belfast can possibly spare them."—Belfast Journal.

Col. Fogler is one of the best known lawyers in the state and would make a most worthy addition to Knox County's talented bar.

### NEIGHBORHOOD NOTES.

—Bluehill's mineral spring is sending its medicinal waters to many hotels.

—The St. George Baptists are raising money for a bell. It is quite necessary to hear the money ring before the bell rings. All contributions will be gratefully received.

### PALM AND NEEDLE.

W. F. Tibbets in his loft is at work on sails for the Milford—H. S. Perry is making a new suit for the Robert Snow, three sails for the Willie Martin and has finished a foresail for the Carrie Hix—The sailmaking business is starting in briskly.

### A NEW BANK.

A new national bank is soon to be started in this city, with a capital of \$300,000. Among the principal stockholders are F. E. Richards, John E. DeWitt of this city, Jeremiah Mason of Limerock, and several prominent Rockland gentlemen.—Portland Advertiser.

### EDITORIAL CHAT.

The seizure of another British sealing vessel brings the Behring sea dispute to the front again. The United States cutter Richard Rush on July 11 boarded and searched the Black

There are said to be 300,000 barrels of refined sugar in the store houses of Brooklyn, N. Y. What for? Ask the Trust.

It is probable that President Harrison will visit Bar Harbor this week, as he has asked us to change the address of his C. G. to that popular resort.

The legislature of Connecticut and New Hampshire have declined to accept the Australian ballot system until after its merits and failures have been tried in other states, particularly in Massachusetts.

The Boston Journal has come out for Prohibition. It wants to prohibit the storing of fireworks within city limits. But why not try High License? If Prohibition in the matter of liquor does not prohibit, why recommend it for fire-works?

The Eastport Board of Trade is doing what our Board of Trade would do, sending some of its members to Massachusetts with the purpose of inducing some manufacturing industries to be established in Eastport with the aid of local capital.

The Free Press quotes a local from this paper in its last issue putting the initials "H. M. L." after. We fail to fathom what these initials can mean unless they refer to the "Hundred More Locals" taken from this paper which they failed to credit.

The pack of canned lobsters of 1889 is now exhausted from first hands, and is only held by jobbers and retailers. This applies not only to Maine but to the Provinces. No more can be packed for nine months. Of canned corn, the stock of that below standard is now exhausted, and but little of the better grades left. The prospect is for a good crop of fine quality.

The complete novel in Lippincott's for August, "An invention of the Enemy," is furnished by W. H. Babcock. The plot hinges upon the legal fight between two inventors for the same patent. And works up to a powerful denouement. Mr. Babcock is himself a patent-lawyer of note, and so is able to give a realistic picture of the inner workings of a patent-case.

One of the scientific uses of the Eiffel tower will be to weigh the moon. The method by which this rather startling purpose is to be accomplished is explained, along with the other marvelous capacities of that mammoth aspiration of iron, by Camille Flammarion, President of the French Astronomical Society, in the July number of The Cosmopolitan, with a number of striking illustrations.

The George E. Keith shoe-factory in Rockton has a pay roll of about \$10,000 a week. What a little sum to spend in the city stores Saturday night! Wouldn't such a city store be a help to Rockland, Mr. Storekeeper? Wouldn't a factory that paid \$1000 a week be a help to Rockland, Mr. Storekeeper? Rockland can have a shoe factory, if Rockland people decide that they want one. We have the paving, now let's give that a rest for a time and talk factory.

If there is anything that is calculated to turn the milk of human kindness to bane and melancholy, it is to learn that the sugar importers are storing that article in New York warehouses with the intent of forcing its price still higher. To have to submit to the manipulation of the market by the Sugar Trust is by a shameful abuse of good nature. The American people are either very long suffering or very stupid that they have not ere this found a way to declare in the courts that a combination of firms for the purpose of regulating prices and killing competition is conspiracy against the public. There is not a man from Eastport to San Francisco, who has at least his sense, who does not know this. Why cannot our lawyers, if they are good for anything, find some way to say the same thing in their technical language, and cage the rascals? It is ripe time for strikes, lockouts and trusts to be recognized as felonies, and like all other conspiracies liable to severe penalty. Treat them all alike, and nobody will complain except those who feel the halter draw.

France with all her topsy-turvy tendencies has realized a condition of land-holding far superior to that of England and better than that to which America is hasting. Robert McKenzie says in his history of the nineteenth century: "French law divides all landed possessions equally among the children of the owner. This arrangement has resulted in an extraordinary difference of ownership. Nearly two-thirds of French house-holders are land owners. (Note: only one British house-holder in four is a holder of land.) Their holdings are of necessity very small, while 50,000 persons own properties which average 600 acres, and half of a million whose average is 60 acres, there are five millions whose possessions are under six acres." One half of the French people are directly engaged in agriculture; three-fourths live in the country or small towns, subject to rural influences. "What ever could induce the young men, who are reared on farms in Maine, to divide up the old farm into twenty-five or ten-acre sections, and mix more brains with their work, instead of going west, would eventually make this a very rich and prosperous state."

### ONTO HIM

Hon. Geo. E. Macomber of Augusta, one of the contractors for paving Rockland's Main street, turns out to be the shrewd insurance man who tracked Gilman, the Corinthian, diary.

We Print this week 3226 copies of the *Courier-Gazette*, our regular weekly circulation.

This is the largest circulation attained by any paper in Knox County, and nearly all of it is in that county and in the neighboring ones of Lincoln, Waldo and Hancock. We invite the most complete investigation of our claim, and will show our edition or our books to anyone who may wish to see.

CIRCULATION OF THE *COURIER-GAZETTE*  
August 4.....3226  
THOS. J. EMPEROR, Foreman.

## STATE OF MAINE.

KNOX, ME.—August 6, 1889.  
Then personally appeared the above named Thos. J. Emperor, and made oath to the truth of the foregoing statement. Before me,  
EDWARD K. HOULD,  
Justice of the Peace.

Rockland reports a gain of nearly \$300,000 in valuation the past year. Are we getting out of the woods? Sure!

In 1886 THE C. G. first commenced its crusade against mud and for paving. It was said to be impracticable, that the city could not afford it, that it would not stand and kindred other alleged arguments and objections. Main street is now paved from Lindsey to Park street and broad brick walks laid, and the question under discussion is how much more we shall pave the coming year. And now our assessors report that our tax this year, with the paving all paid for, will be \$1.50 less on \$1000 than it was last year. And the kickers, where are they?

Maine papers are just awaking to the fact that Maine is one of the best states in the country to be born in, to live in and to die in, and we are glad to see the state press trumpeting her innumerable attractions. It has been the policy of THE C. G. to have a good word in every issue for Rockland, Knox County and the State of Maine. There's enough to talk about, good texts are plenty, and when the Maine press as a whole get right down to the loyal business of heralding the great advantages and attractions of our state there will be a noticeable flagging and ebb in the financial tide that has been so steadily flowing westward and south. "Maine first, last and all the time," should be the war cry of the Maine journals, and it should be a slogan whose constant repetition shall demand attention. Here's to our own state, not indeed to the exclusion of all others, but certainly in preference to all others!

Rockland is growing large and handsome. The spirit of improvement has set firm hold of her people. Her Line Rock Railroad was a great enterprise and has made it possible to improve her streets. Main street is being paved and everything unsightly—such as awnings, wire poles, barber poles, hitching posts and the like,—have been removed and the street is fast becoming one of the finest business streets in the state. Many handsome new residences are being erected and the landscape gardener has been very busy during the season. Hay Point Hotel occupies one side of the harbor's approach and the Simpson House the other, and pretty summer cottages dot the harbor's rim. Mud and dust which have so long been the peculiar bane of the city will soon be but a tradition.—Waterville Sentinel.

## THE STEAMBOATS.

The Bangor News describes an apparatus, the invention of First Pilot Ira Farnsworth of steamer Lewiston, for taking time on the steamer. It consists of an ordinary clock dial, closely surrounded by two metal rings, each of which revolves on its axis around the outer edge of the dial. The inner ring is marked off in four spaces corresponding to the similar spaces on the clock, and on the outer ring are marked the minute spaces divided off by fives, corresponding to similar divisions on the clock face. Suppose it is thirteen minutes past three. The boat is leaving her wharf at Belfast and the pilot wishes to get the time from there to Northport. He turns the outside or minute ring until the sixty minute point coincides with the minute hand of the clock. There is nothing else to do until the boat is abreast of Northport. Then the pilot has only to look at the clock, count by fives the number of minutes from the point marked "sixty" on the movable ring, to the point now occupied by the hand of the clock, and record his time. There is no trouble of writing down the exact minute from which he began to reckon, and there is no possible way to forget or become mixed in taking the exact time....Friday last the hustlers and dock hands of the Lewiston steamer, a very handsome neerschmuss pipe as a token of their good feeling and appreciation....F. H. Smith & Co., of South street, New York, have not yet contracted for a new steamship, but expect to do so next month. The new ship will be for passengers and freight trade between New York and Bangor.

## THE SCHOOLS.

Miss Jennie K. North has resigned her position as first assistant in our High School, probably for reasons of health. Miss North has been a valued teacher in the High School for about 10 years. She has been a most successful instructor, faithful and talented, and has the esteem and respect of all the pupils. It is probable that a sub-master will take her place. There are now two vacancies to fill. Applications are plenty.

The schools will begin either the 9th or 16th of September, probably the earlier date.

## THE TWINKLERS.

A telegram received yesterday from New York conveyed the cheery information that the electric light contract and bond, had been signed the material for the plant here ordered, and that President Wickham of the company would be here shortly to complete arrangements.

## THE CORNER STONE

Deputy Labor Commissioner Campbell left Saturday for Trenton, N. J., to attend the National Factory Inspectors Convention.

Austin Martin has entered the employ of H. O. Gurdy & Co. John Meserve has taken Mr. Martin's place in the store of Ralph Hovey.

G. Kaker Mayo, who has been holding an important position in a big Gardiner dry goods store has entered the Boston Clothing store as salesman.

John Bird, 2nd, has returned from New York state, where he has been attending the annual convention of his college fraternity, he being the delegate from the M. S. C.

The many friends of Miss Fannie McNamara, formerly of this city, will be pained to learn of her death, which occurred Saturday morning of consumption. Miss McNamara was a young lady who won the love and esteem of all who knew her.

Mr. and Mrs. C. F. Wood gave a reception Friday evening at their residence, Masonic street, for their daughter Adele H. Wood, and her friends Miss Peck of New Haven, Conn., and Miss Louise Lowell of Bath. About 50 were present and it was a very pretty occasion.

Mrs. G. W. Drake, Mrs. J. G. Piper and Master Walter Faulkner of Malden, Mass., who are visiting Mrs. Drake, went to Crescent Beach Friday, Aug. 2, the guests of Mr. and Mrs. Austin Curtis of Warren, and Mrs. J. G. Smith of Ayon, Mass., in their very pleasant Crescent Cottage, returning Sunday evening.

True P. Pierce, esq., left Saturday for Fort Payne, Ala., where he has a fine position as treasurer of a big business concern.

Mr. Pierce has a reputation as a lawyer, not confined to this state, and is followed to his new location by the hearty wishes of scores of friends who hope to hear of his continued prosperity.

The remains of Mrs. Almira Robinson were brought to this city Thursday, from Charlestown for interment. The remains were accompanied by Mr. Robinson and Mrs. Robinson's son, Benjamin Arey. Mrs. Robinson will be remembered as Mrs. Almira Arey, who resided in the house which stood where Farland, Spear & Co.'s store now is.

Miss Eyle Burbank is visiting in Vermont.  
Miss Vira Cousins is at the Simpson House.  
Miss Jennie Robinson is home from New York.

Miss Nellie Shady has returned from a visit in Boston.

Marion Thayer and wife of Westboro, Mass., are in the city.

Ernest Haskell has entered the jewelry store of M. M. Genthner.

George W. Kimball and party have returned from Swan's Island.

Clinton Miller of East Boston is visiting friends in this city.

E. E. Gillette, wife and children will arrive here the latter part of the week.

Mrs. Julia M. Crevitt of Schuyler, Neb., has been visiting Stella E. Keene.

Chas. D. Bagley, wife and child of Leeboro, Richmond, are visiting Mrs. E. C. Spaulding, Mr. Bagley's sister.

W. O. Fuller, Jr., of La Crosse, Kansas, is at the residence of N. Jones. Mrs. Fuller came from Boston with him.

Mrs. Knight and Miss Knight of Worcester, who have been visiting Andrews Mitchell, Blackington's Corner, returned home Monday.

Mrs. N. C. Crockett, Miss Julia Spear, Miss Alice Crockett and Miss M. E. Cobb have gone to North Haven for a two weeks outing.

## Y. M. C. A.

The committee men had an enjoyable tea last evening....Rev. D. P. Hatch addressed the Men's Meeting Sunday afternoon....Secretary Garland, R. Anson Crie and F. W. Fuller leave Tuesday for North Labor where they will attend the Y. M. C. A. summer convention until after the 25th. Rev. C. S. Cummings will conduct the young men's meeting next Sunday, Rev. A. Hemingway the following Sunday and Rev. M. H. Babcock the third Sunday.

A. H. Whitford of Cambridge was to speak at the Y. M. C. A. rooms yesterday afternoon, and a member of the association stood outside the rooms inviting passers-by to enter. Mr. Whitford came along and the member, not knowing him, went to him and invited him in, saying Mr. Whitford was going to speak. "Who is this Whitford?" asked that gentleman. "Oh, a very smart young man," was the reply. "I'll do you good to hear him. There will also be good singing." "I don't put much stock in Whitford," said he, "but I'll come in and hear the singing." Just then Secretary Pierce came up and introduced the pair, and there was a laugh at the expense of the member.—Brockton Enterprise.

## THE LAUNCHING.

Olive Pecker, the new schooner building in Belfast by George A. Gilchrist for Capt. A. J. Hall of this city, will be launched one week from Thursday at about noon. Excursion rates are offered over the B. & B. boats, 50 cents for the round trip, leaving here in the morning and returning at night.

## A CORRECTION.

MR. EDITOR.—The Camden correspondent to THE C. G. of July 30 made a slight mistake in saying that the venerable Daniel Mansfield who preached in the chapel that Sabbath was the author of the American Vocalist. The author of that grand old singing book was Daniel H. Mansfield of the town of Hope, who died Feb. 28, 1855, and was a Methodist minister, belonging to the Methodist Conference a number of years.

## THAT MULBERRY.

Anent the discussion over the Russian Mulberry, with which some of our farmers have been playing, J. R. Richardson of this city says that he planted 15 and now has three, and that for a year past he has been trying unsuccessfully to give away the three. It grows luxuriantly in summer and falls off in the winter.

## LIQUOR LICENSE

Grand Secretary Brackett of the I. O. G. T. of Maine sends us a list of those persons in this county who have paid a special tax to the U. S. as dealers in liquors. Rockland has 30, Vinalhaven 5, Thomaston 3, Warren 3, St. George 1, Camden 4, Washington 1.

There are fourteen such in Lincoln County, distributed among five towns. Waldoboro leads off with 5; Damariscotta has 4, Somerville 1, Boothbay Harbor 2, Wiscasset 2.

## TURF AND STABLE.

Herbert Allen lost a valuable mare, Wednesday—Mrs. G. W. Drake drives a stylish black horse bought of C. M. Blake for \$200—Miss A. K. Spear received a nice looking riding horse on the Penobscot, Saturday morning—Andrew Mitchell has a fine new turnout—M. F. Donahue drives a handsome new span of bays from the Kennebec—Fred H. Spear received four new horses from Boston, last week. A fine pair of black roadsters were in the lot.

## THE YACHTS.

The steam yacht *Susquehanna*, which has been seen in Portland harbor and at other places along the Maine coast this summer, is a beautiful specimen of marine architecture, elegantly furnished and capable of making 22 knots an hour. But the *Susquehanna* is a costly thing, as it requires a check of just \$5000 each month to cover her expenses.

## AN OLD REGISTER.

John S. Harrington, Tenant's Harbor, has placed an old Maine Register of 1877 in our collection. It was published in Hallowell by Glazier, Masters & Smith.

## NEAR US.

Quite a number of houses have changed hands at South Free Isle within a few months. Capt. Eth Hatch sold his house to Capt. Wallace Thurston, and himself purchased Mrs. Emily Babblidge's place. Orrin Sylvester bought Mrs. M. C. Warren's former residence, Capt. Wm. Greenlaw has sold his place to E. G. Haskell and E. Spofford, and several new buildings are nearly ready for occupancy in the next district.

## SEA STREET.

ROCKLAND, Aug. 5, 1889.  
MR. EDITOR.—As long ago as the City Council rooms were in Phoenix Block, it became necessary to repair the breastwork which upheld the north side of Sea Street, and \$1000 was appropriated for that purpose, all of which was used except about \$50. The writer of this then proposed to the council that the street be straightened by building a sea wall high enough to clear the tides and filling in the space thus made from time to time as circumstances might suggest, but my proposition fell flat. But history does repeat itself.

## FOLKS AND THINGS.

"I am so glad!"

Shoe-factory next, or smother factory!

Several cases of cholera infantum are reported in the city.

The Catholic Young Men's Association is contemplating an excursion.

The Ingraham's Hill Sunday School goes to Owl's Head for a picnic today.

C. M. Sullivan's new house, Broadway, will soon be ready for the plasterers.

Tomorrow is circus day. The tents will be pitched west of the old depot.

The Free Will Baptist Sunday School picnic at Porterfield Ledges, next Tuesday.

Edw. Spear is making an addition to the buildings at his place on Rankin street.

A meeting of the Rockland & Ellsworth Steamboat Co. is called for Friday next.

A. I. Mather is having a hot-house, 125 feet long, built at his residence, Purchase street.

Very nice times are the Bay Point, Wednesday evening hops. About 100 people attend them.

Geo. N. McGregor is doing a nice job of landscape gardening at Holman's Oaks, Ingraham's Hill.

Tax Collector W. H. Smith has his headquarters in the city room opposite the police court room.

Main street is so clean that a young man at the Brook said he could see a fly in front of The Thordike.

It. Anson Crie, Broadway, is having the premises about his house graded, terraced and otherwise beautified.

The Iopas Male Quartet of this city sings at the Mass Sunday School meeting at Nobleboro Wednesday of next week.

Our people are becoming so neat and clean that they wash the sand out from between the bricks in our new sidewalk.

A. L. Payson, at West Warren, has gone into the market box business. He has a large contract to fill for a Boston firm.

The yoke of the Crockett kiln in front of Rankin Block took fire Friday noon, calling out the fire department. Little damage.

Principal H. A. Howard of Rockland Commercial College has an elegant specimen of ornamental pen work in the store of Spear, May & Stover.

People who ring in a fire alarm should remember that after the box is unlocked the key cannot be taken from the box until it is released by the master key which the chief carries.

The monthly assessment of the Rockland Loan & Building Association is payable next Monday. There will be about \$1000 to sell.

Capt. H. A. Mills has bought the Ambrose Mills house, Rankin street, and will occupy it. Mr. Mills has moved into the Glover Block, Linerock street.

Our Arithmetic man says that the distance from the South Thomaston line on Main street to Camden street is 1118 feet 11 inches or 1 mile, 172 rods, 1 foot.

Nine years ago the Union Hose Co., of Bangor visited Rockland, and were entertained here by a heavy thunder shower like that of last Thursday evening.

The old barn on Warren street owned by Ezra Whitney, has been demolished and report says he is to erect a double-tenement dwelling house on the lot.

Mrs. Sarah Elkins, Clarendon street, fell Thursday and broke the small bone of her right ankle, receiving also a severe sprain. A loose board in the house walk did it.

The True P. Pierce office is being fitted up for the occupancy of W. R. Prescott, esq. The office in Ulmer Block, vacated by Mr. Prescott, is occupied by F. L. Porter, barber.

A Rockland man, who lives at the center of Union street in the center of the city and works at the Brook, brought his dinner down one day last week so that he would not be obliged to walk home.

The Young Women's Christian Temperance Union will go a picnic Thursday of this week to Lake City. If not pleasant Thursday will go the first pleasant day, starting at nine o'clock a. m. from the Y. M. C. A. rooms. Fare for the round trip 50 cents.

Two carriages collided in the dusk of Elm street, Monday evening of last week. G. W. Palmer was thrown out and seriously bruised and lamed. The carriages were both wrecked. The overhanging trees make Elm a very poky street of a moonless evening.

At the Young Ladies Mission Band, Friday evening, the following officers were elected: President, Miss C. Alice Emery; Vice Presidents, Misses Carrie Anderson and Alice Graves; Secretary, Miss Anna Roberts; Treasurer, Miss Eva Loring.

Our Foot Ball Club went to Lake City, July 30th on their annual picnic. The first on the program was a fine layout for the stomach, which is always first class, then came a sail on the lake which was delightful. Other kinds of sport followed and it was voted an enjoyable occasion.

The new clothing store of J. F. Gregory & Son, foot of Linerock street, is now open for business, and a very cheerful, well-stocked place of business it is. A. W. Gregory, who is in charge, is a popular young man, and his patrons can look for good treatment at his hands.

The work of improvement at The Thordike goes steadily on and the big addition will soon be completed. Wednesday, Thursday and Friday evenings the house was full, seven of the 11 new rooms in the Sea street building in use. A big awning shelters the Sea street veranda. The Thordike is just a-swinging along. The members of the Bangor Band, who were quartered there, were delighted with their treatment. This is a broad-gauge house, nothing narrow about The Thordike.

Austin Black of Brooklyn, N. Y., has bought the C. S. Crockett house, Middle street, and will occupy it permanently. The many family friends will be pleased to welcome them back to Rockland. Mr. Crockett has bought a double lot on the corner of Broadway and Summer streets, east of Broadway and South of Summer, and W. H. Glover & Co. commenced work yesterday on the cellar of a house for Mr. Crockett, which will be about the same calibre as that of John D. May's, Grove street. The reported price paid for the Middle street house is \$6000.

The alma-house has received its first coat of paint.

Forty guests are now enjoying the many beauties of Bay Point.

The foundation walls of the new Catholic church are well along.

Capt. G. F. French has moved into the house recently owned by Wm. Norton, Warren street.

C. E. Goulding has commenced work on a 1 1/2 story house for Mrs. Marcella Hall, just off Suffolk street.

C. A. Haskell has moved into the old O. E. Blackington store which he will occupy while his old stand is being rejuvenated.

Tickets for the Bar Harbor excursion are limited, and parties desiring to participate should secure them at once of L. M. Benner.

The horse of Dr. Benj. Williams was frightened by a bicycle, Sunday, and ran away, smashing the carriage and cutting himself somewhat.

I. S. White is now moving into the new boarding house erected for him on Myrtle street, where he has commodious and convenient quarters.

"Rosedale" was well presented Saturday evening by the Sullivan-Stahl Co., but the general impression is that its presentation by our amateurs was superior.

The members of Hamilton Lodge, L. O. G. T., will leave their hall tomorrow morning at 8.30 o'clock in Berry Bros. barge, to attend the District Lodge at Rockport.

A company of friends and neighbors gathered at Mrs. Eliza Larrabee's at the North-end last Tuesday evening to witness the opening of a beautiful night blooming cereus.

Charles S. Bickford, of Belfast, a graduate of the Maine State College, has purchased the Aroostook Herald, of the heirs of the late Hon. J. B. Hall, and will take control next week. Mr. Bickford is a young man of excellent ability and will doubtless conduct that paper in an able manner.

Dealers say there will be no advance in the price of coal at present, owing to the quiet state of business. Household, however, remarks the Boston Transcript, should be careful not to procrastinate too far, for when the advance comes it will probably be as a thief in the night, and silently without warning.

An excursion will be held under the management of L. M. Benner on steamer Mt. Desert to Bar Harbor about the time President Harrison visits there, the date to be announced later, probably on Friday. The excursionists will leave here in the morning, returning the afternoon of the second day. Fare for the round trip including hotel bills, etc., will be \$5. Here's a nice opportunity to see the president, take in Bar Harbor and have a good time.

## THE CHURCHES.

Rev. Mr. Adams of Bangor presented the cause of the Maine Missionary Society, at the Cong'l Church, Sunday morning.... Rev. M. J. Kelly of Minneapolis, Minn., preached an interesting sermon in the First Baptist Church, Sunday.... The Lincoln Baptist Quarterly meeting is to be held on Matineas, Wednesday and Thursday of this week. The packet leaves Tillson wharf at 8.30 a. m. tomorrow.... Sunday and Monday. Quarterly Meeting was held at the M. E. Church. Presiding Elder Wharf delivered an able sermon, Sunday.... Dr. L. F. Bachelder led the Sunday evening meetings at the Free Will Baptist Church.... The engine hall at Blackington's Corner is being fitted up for religious services.... Rev. L. B. Hartman, D. D., of Trenton, N. J., will preach in the First Baptist Church, Sunday morning. Rev. Mr. Hartman is a preacher of note.

## THE MEADOWS.

Elkanah Spear and wife returned from a ten days visit to Unity, Pittsfield and vicinity, Sunday.... The familiar face of Silas Farrington will be seen no more. He realized but little during his last days. The funeral occurred on Friday. He was a man of strong convictions, good habits, strict integrity and patient industry. Such a man is always missed.... Itaymond Walsh and friends climbed the steep of Ragged Mountain the other day to gather in a winter's supply of the gay and festive blueberry.... F. C. Blackington and wife called on their East Union friends Sunday.... G. L. Farrand has been entertaining a relative from the west the past week.... Frank Levensaler and members of his family have been on the sick list the past few days.... The apple crop in this vicinity promises to be rather light.... Mrs. Levi Rockcliffe and family have returned from Lincolnville.... There is occasionally a man hereabouts who has not finished buying. The recent foggy and showery weather has put a damper on that kind of business.

## AMUSEMENTS.

Thursday evening at the play, "A Celebrated Case," the orchestra, under the lead of G. F. Meservey, played the "Rockland Schottische," composed by J. W. Walker. It was the best number of the evening.

Anderson Camp, S. of V., will have a jolly moonlight excursion to Belfast next Friday evening, on the Bluehill. A dance will be given in Belfast, and good music will be provided, both for the excursion and dance, and supper will be served.

E. P. Sullivan, under the management of T. C. Howard, gave three fine performances in this city last week, playing to good business. The company is unusually strong and gave the best of satisfaction. Rockland theatre goers remember such companies as these and will want to see them again.

Our musical people are looking forward with pleasurable anticipations to the concert of next Thursday evening in Farwell Hall. The array of talent, the Mendelssohn Ladies Quartet, the Park Sisters, and Herbert Pierce, the elocutionist—makes a tempting bill of fare. We hope that a large audience will enjoy it.

The bright and charming little actress Lizzie Evans, called the "Electric Battery" is announced in her new play "Fine Feathers" for next Monday the 12th. The announcement of her name alone is guarantee that the performance will be a fine one but not only herself, but the entire company is composed of sterling actors and actresses. This will be the only chance to hear her this year. Tickets will be on sale at Spear, May & Stover's Friday, the 9th. They have a long engagement at the Globe Theatre, Boston, shortly after leaving this city.

## THE CROW LAW.

A South Thomaston young man recently  
shot 11 crows, 10 in South Thomaston, 2 stand-  
ing in South Thomaston and shooting into  
Thomaston, the other 2 standing in South  
Thomaston and shooting into Rockland, so  
that according to the provisions of this much  
discussed law he received a bounty on the 10  
shot in South Thomaston.

Great law, that!

## NOTED PEOPLE.

The author of "Home, Sweet Home" died  
without a home, and now the author of the  
homestead law, George W. Allen of Ohio, has  
no homestead of his own, and is about to die  
in alms.

Fred Douglass, the recently appointed min-  
ister to Hayti, is not only the most famous, but  
he is one of the wealthiest colored men in the  
United States. His wealth is estimated at  
\$200,000. There are a great many colored  
men in Washington. Most of them made their  
money in real estate speculation. They used  
the wages which they received to buy land in  
the northwest section of the city.

## LAND SOLD.

Some time ago Mr. C. H. Holman of Rock-  
land, with his wife took a carriage ride from  
Bangor along the shore of the bay and river,  
and was much impressed with the scenery and  
beautiful sites along the route. Last week  
Mr. Holman bought the farm of Emory Brown  
of Northport, just below Saturday Cove. The  
farm contains 100 acres and was owned by the  
late Ethel Lindsey. The farm extends to the  
shore, is very slightly, and will make an ex-  
cellent place for a summer residence. The  
price was a handsome advance over that paid  
for the land for farming purposes. Mr.  
Holman is undecided as to when he will occupy  
his new purchase.—Bangor Journal.

## CAMDEN CULLINGS.

Mr. and Mrs. Edward Dudley of Dorches-  
ter, Mass., recently passed through here on  
their way home from a most delightful trip  
through the lake regions of Maine. Mr. Dud-  
ley has with him a Kodak camera with which  
he has taken some extremely fine photographs  
at Rangeley and Moosehead Lakes. He also  
succeeded in getting some fine views of the  
Penobscot River on the way down from Bang-  
or.

At the annual meeting of the Camden Woolen  
Co., the following directors were elected: W. G.  
Alden, J. H. Norwood, H. L. Alden, H. W.  
Farnum, Thomas R. Pillsbury, G. F. Burgess,  
A. F. Miller, J. H. Montgomery, O. W. Stone.

The Herald says: The light keeper's new  
dwelling house on Negro Island has just been  
completed. It is in a modern and pleasing  
style of architecture and very convenient. It  
contains six large, airy, well lighted rooms,  
besides numerous closets, halls, etc. Every  
floor in the house is of hard pine and the whole  
house is built in the most thorough manner  
and of the best materials. In addition to the  
house, a new barn, boat house and boat slip have  
been built and everything put in the best con-  
dition. Capt. Wiley, the courteous and effi-  
cient keeper, and Mrs. Wiley seem very much  
pleased with their new and comfortable home.

## CUSHING.

A Washington, D. C., lawyer with his family  
has engaged rooms at the Hathorne House,  
Cushing—Excavations are being made on the  
pirate's retreat at Hathorne's Point. A few  
relies have been secured—Since his ordina-  
tion, Rev. George A. Andrews has conferred  
the rites of baptism upon seventeen candidates.  
He was ordained last month—Thomas W.  
Marshall, who went to Hyde Park, Ill., last  
week, decided to locate there—F. B. Miller,  
esq., has gone to Waltham, where he is in  
charge of a law office—Mrs. Frances Launs-  
berry is visiting at Judson Payson's—Misses  
George Sweetland and Nina Miller of Rock-  
land are visiting Mrs. P. A. Smith—Frank  
Young is at home from Boston—Wm. N.  
Young went to Boston Monday—Capt. Wm.  
Stone took a party from this place down river  
Wednesday. The weather was fine and the sail  
was thoroughly enjoyed by all.

## WILEY'S CORNER.

Miss Martha Williams of Warren has been  
visiting Mrs. Franklin E. Hall.

Mrs. Harriet Harrington of Wollaston, Mass.,  
visited Eliza Kellogg last week.

Captain Alden Kallach has loaded schooner  
Telegraph with lime for New York.

Mrs. Emeline Watts and Captain Edward  
Watts, wife and son all left for New York last  
week.

as to be able to go to work. He has been sick  
three months.

Capt. Robert Gilchrist has taken the barken-  
tine Levi Andrews for a trip while Capt. Watts  
stops at home.

The Circle Society is making an effort to pro-  
vide funds sufficient to purchase a bell for the  
Baptist Church.

The Ladies Benefit Society held a very pleas-  
ant and successful meeting at Mrs. Erastus  
Robinson's Tuesday.

The veteran postmaster, Captain J. R. Wiley,  
faithfully attends to his duty through all ad-  
ministrations. He is very aged, but gives his  
whole time to the work of the office.

The children of Mrs. Alice Averill of Thom-  
aston, together with several others, by invita-  
tion, numbering 17, enjoyed a picnic in the  
grove recently. Cake, ice cream, etc., were  
served and a merry time it was for the little  
ones.

Waldo the past week, but has now returned  
home again.

Sch. Silver Spray passed down river Wed-  
nesday, with lime from J. O. Cushing & Co.  
for N. Y. She made her last trip in thirteen  
days.

**APPLETON.**

Mrs. Dolly Wentworth will be 89 years old  
in October, and retains her faculties in a re-  
markable degree.

The prospect for a railroad to Union Com-  
mon seems bright, and it is built the next  
step will be to continue it to Appleton.

G. & J. Ames are repairing their flume that  
went out in the spring freshet. They think  
of putting in their threshing-machine soon.

Frank E. Carlin sold a veal calf for the Bay  
Point Club House at its recent opening. The  
heavy dressed 225 lbs. and brought 9 cents a  
pound.

George Ames of Appleton has marketed  
about 10 bushels of string beans. They were sold  
in Rockland, and he received \$1 a bushel for  
nearly all.

Grain is heavy. Oats are tusting consider-  
ably. Potatoes are also tusting, and some are  
rotting. Blueberries are plentiful and very  
fine. Raspberries are also plentiful, and black-  
berries will be "immense."

**SOUTH LIBERTY.**

Daniel Overlock will repair his house.

Frank Cunningham has arrived home from  
Lowell, Mass.

Mrs. Ada Worthing of Bar Harbor is on a  
visit to her mother, Mrs. E. S. Whitehouse.

Wesley Pinkham is on a visit to his father,  
John Pinkham. Mr. Pinkham is a horse-car  
conductor in Lawrence, Mass.

Our school closed after a term of 10 weeks,  
taught by Miss May Norton of Palermo, who  
is a most efficient teacher. Five of the schol-  
ars did not have a mark against their names.  
We give the names of them: Miss Annie  
Leighton, Misses Addie and Maud Ludwig,  
Miss Lillian Prescott and Master Arthur Over-  
lock.

Somebody has labelled Philadelphia  
by saying that the grass could be heard  
growing in her streets. We wish it to  
be understood, once for all, that every-  
thing is quiet down there—even the  
grass.

## Floods and Their Causes.

A very timely article is "Floods and their  
Causes," by Felix S. Oswald. The primary  
cause of floods is traced to the destruction of  
forests, and remedial means are suggested.  
Another timely article, "Verstehing and his  
Work," is contributed by a personal friend of  
the great Russian artist, B. Macgahan.

I have used S. S. S. for debility resulting  
from chills and fever, and have found it to be  
the best tonic and appetizer I have ever took.  
It also prevents the return of the chills.

A. J. Anylin, Eureka Springs, Ark.

Dick Donahoe is a respected and well-to-do  
citizen of Springfield, Mo. He says that one  
bottle of Swift's Specific cured both himself  
and wife of a troublesome eruption of the skin.

Mr. W. C. Walte is engineer on a boat on  
the Arkansas river, and his address is Little  
Rock. He says that S. S. S. has relieved him  
of blood poison, which was the result of malaria  
and that it prevents chills and fever by toning  
up the system. He takes it in the spring and  
summer months to prevent sickness from the  
malaria of the swamps on the river.

Mr. L. M. Gellula, of Vicksburg, Miss.,  
says that his system was poisoned by nicotine  
from the excessive use of tobacco in smoking  
cigarettes. He could not sleep, his appetite  
was gone, and he was in a bad fix generally.  
He took S. S. S., which drove out the poison  
and made a new man of him.

The vicissitude of climate are trying to most  
constitutions, especially to people having im-  
pure blood. For all such and they constitute  
the majority, the best safeguard is Ayer's  
Sarsaparilla, the use of which cleanses the  
blood and strengthens and invigorates the  
system.

Mr. and Mrs. Vogler of South Hope and Mrs. M. E. C. C. of Cape Park, Mass., visited at Albion Allen's this week.

Augustus Heel had a narrow escape from a serious accident, the other day. He was getting in lay with a yoke of steers on the side of a steep hill when the steers took fright and ran down the hill with Mr. Heel holding on, being dragged and thrown around in quite a promiscuous manner. The rack was very much demoralized.

The Barretts and invited friends held a picnic on the shore of Canaan Pond near B. H. Carleton's last week. There were 20 on a hay-rack filled with hay. It goes without saying about here that there is more fun in the square inch in the Barrett family than in any other that ever had the good fortune to inhale their first breath in this town.

**SOUTH MONTVILLE.**

Prof. Knowlton, made a short visit here last week.

Mrs. Matilda Moore is visiting her sister here, Mrs. Betsey Gilman.

Mr. and Mrs. Simmons' company of Waltham, Mass., left for home Tuesday.

## JOLLY TIME.

Bangor's Firemen Visit Rockland and Have a Big Time.  
Thursday evening the Union Hose Co. of Bangor, accompanied by the Bangor Band, arrived on the Penobscot, and were met at the wharf by the Rockland Fire Department, headed by the Meserve's Quintet, assisted by E. P. Lahe, tenor drum, F. G. Singh, bass drum, L. M. Benner, cymbals. Through the drizzling rain, which at one time swelled into a torrent, the red-shirted visitors, 20 in number, were escorted to the Sears Co.'s quarters where a nice supper was served. After supper the firemen paired off for strolls about town, a portion visiting the theatre, all repairing later in the evening to the Sears and Gen. Berry engine houses, where music and speeches whirled the night away. From nine until twelve o'clock a heavy thunder storm was in progress, but the fun went on just the same.  
Friday morning the sun shone and all was serene. The visiting band gave a fine concert in front of The Thorndike, where they were royally entertained, and then barges and bux-boats took the guests and their entertainers on a trip to Thomaston, past the quarries, which were viewed with great interest by the Bangor men. At the prison, Thomaston, the party was cordially received by Warden Allen and his assistants and show through the various departments. A band concert was then given in the prison court, the convicts being called out to enjoy it, which they evidently did. The band played for nearly an hour, the prisoners loudly applauding. As they were marched back to their posts the band gave them "Marching Through Georgia." It was a striking picture—the gay uniforms of the firemen and band, the parti-colored attire of the convicts, the frowning granite walls, the watch towers and armed sentinels—if The C. G. had had his paints with him he would have painted it.  
From Thomaston the horses were headed to Crescent Beach, where one of those famous Crescent beach fish dinners was served. The visitors all voted it the best fish dinner they ever tackled. After dinner the band gave an enjoyable concert, which was followed by foot ball, vocal music by J. H. McNamara and others, and a general, unadulterated good time. On the arrival of the teams in Rockland a halt was made at the Gen. Berry house, where the Bangor men saw Oyster River water from the hydrant, through 100 feet of hose, take two able-bodied men and snap them around like horse-chestnuts on a string, and give out a stream of water that soon flooded the street.  
The line of march was then formed, there being 60 men in all, and with the visitors and local firemen intermingled, they marched up Main and around the square, in a soldiery, well-formed phalanx. At the Sears house the column was broken with cheers for the Rockland Board of Engineers, and the local and visiting companies. After supper the band gave another fine concert in The Thorndike's main office which was thoroughly enjoyed by a big crowd. From nine till three a jolly hop was enjoyed in the Armory, with music by Meserve's Quintet, while in the various engine halls social stores, music, speeches and Shakespeare held the boards. The visitors left on the boat Saturday morning, and left a good name behind. It was one of the most orderly times ever known in this city. All the firemen, local and visiting, conducted themselves in a gentlemanly manner, they all had a fine time, it was well managed and well carried out on the part of James F. Sears House Co., who planned it, and who had the assistance of the Hooks, Berrys and other city firemen, and the Bangor boys will be heartily welcomed when they come to Rockland again.  
FALSE ALARMS.  
The Sears Co. did themselves proud.  
The Bangor Band numbered 20 men, Frank L. Tuck, leader. It is a fine organization and plays with great skill.  
The H. & L. Co. erected a very appropriate piece of decoration over Main street at the foot of Spring street, consisting of crossed ladders from which swung the national flag and a big "Welcome." Thursday night this was decorated with flags, and Friday night was resplendent with lanterns.  
FAMILY REUNIONS.  
The second reunion of the Pillsbury family will be held at Cushing Hall, Newburyport, Mass., Sept. 3th.  
The Parsons-Crawford reunion will be held Thursday, August 15, at the farm of A. Vinal, Warren. If stormy, it will be held the next fair day.  
The Burton reunion will be held at the grove of John F. Burton, Cushing, on Wednesday, August 7, 1889. If stormy, it will be held the next fair day.  
The annual reunion of the descendants of Doctor Moses Robinson will be held at the home of the late Jacob Robinson, Warren, Thursday, Aug. 15, '89.  
The Newbert family will hold their thirteenth annual reunion at the grove owned by Lorenzo Newbert, North Waldoboro, on Thursday, August 15; if stormy the first fair day following.  
The Wiley reunion will be held Aug. 28 at Seth Wiley's, Warren. Tea and coffee will be furnished by the committee. Any information desired can be secured of John H. Thomas, the Secretary, South Union.  
The Ingraham Family Association will meet at Oyster River Lake, West Camden, Aug. 24th. The Andrews Family will meet at the same time and place. It not pleasant on that day the association will meet the first fair day thereafter.  
The thirteenth annual reunion of the Cope-land family will be held on Wednesday, August 14, at the residence of Levi McIntyre, in Warren, instead of Crescent Beach. If the day appointed should be stormy the reunion will be held the first fair day thereafter.  
OFF MONHEGAN.  
The Boothbay Harbor schooner Calvin M. Barker of Dennis, 600 tons, arrived there Friday night, with twelve men, the entire crew of the schooner Annie M. Gatchell of Gloucester, which the Barker ran down off Monhegan at 10.10 Thursday night. The Gatchell had just been under for coal and changed the watch, who were all up. The Barker was running free eleven knots and struck the Gatchell on the starboard beam and she immediately sank, the crew being rescued with difficulty as they stood there preparing for bed as they were.  
NEW YORK CHARTERS.  
Bk. Chestnut, Redman, from Portland to Greenock or Bowling, 3000 tons, 77.64 per standard—George Berry, Elizabethport to Portsmouth, coal, \$1.05—Caroline Knight and J. R. Bodwell, Hoboken to Rockland, coal, \$1.05—Wm. Rice, Hoboken to Rockland, coal, \$1.05—Sch. Lizzie Carr, from Fernandina to New York, lumber, \$8—free wharfage, hence to Fernandina with R. R. iron, \$1.50—July Fourth, Perth Amboy to Bangor, coal, \$1.05—Charlotte Fish, Port Johnson to Portsmouth, coal, \$1.10.

## BASE BALL.

Brieflets From the Local Arena of Sawdust and Tan.  
The Rockland's have played, to date, just 15 games, of which they have won 11.  
H. Howard, Rockland's famous first baseman, is laid off with an injured hand.  
P. Howard was hit three times in succession by pitched balls in last Saturday's game.  
Sweeney is covering first-bag for the Bangors again this year. He also captains the team.  
Wilbur of the Camdens will cover third base for the Rocklands the remainder of the season. Hix goes to center-field.  
The new management is taking hold of base-ball matters in earnest. The fenced grounds on Broadway have been leased for the season, and some of the best clubs in the state will be secured.  
The Warrens play here again tomorrow (Wednesday) forenoon. It will be remembered that the last time these two clubs met here the Warrens won in an exciting 11-inning contest, and this fact alone should draw large numbers to the association grounds tomorrow at 9 a. m.  
The event of the base-ball season in Rockland this year, will occur next Monday, when the Rocklands will cross bats with the famous Bangors. This club is too well-known in Rockland to need any description. If you would secure good standing-room, come early. Admission 25 cents.  
Madden, the pitcher who broke his arm while playing on the Rocklands, two years ago last Saturday, was in the city yesterday accompanied by his friend Mr. Ryan, brother to Madden's old catcher. They are playing on the Haverhills who went through here from Bangor on the boat last evening. The Bangors beat them in two games. Ryan, the old Rockland catcher, is playing great ball in Auburn, N. Y. Quinlan, another old Rocklander, is playing on the Woven House Club.  
A fairly interesting game of 7 innings was played Saturday which brought the club out with flying colors and showed their superiority over the combination which was considered good enough to check their victorious career. The club played good ball all through. Simonton and Gray excelled themselves in the battery the latter striking out no less than 15 of the 21 men who went to bat which showed the fine quality of his pitching. Simonton's catching was a treat to witness and Walter Spear, the coming Brothers of the team. The Rocklands faced Blackington in the box, with McGovern for back-stop.

## STEALING PAVING.

A man named George Brown, a paving cutter, was taken before Trial Justice Kittredge of Vinalhaven yesterday, charged with stealing a quantity of paving from his fellow workmen. Having had been missed on several occasions and suspicion falling on Brown, it was arranged to watch their piles of paving. Sunday night, Fred Snow, J. E. Norton and Reuben Maker were on the watch and saw Brown load a small hand cart with their blocks, and remove them to his own pile. A warrant was issued Monday morning and the fellow was arrested by Deputy Sheriff Gray and after a full hearing he was committed to await the September term of Court or furnish bonds for his appearance in the sum of \$100. This is one of the strangest cases of stealing that has been done here for many years. The weight of stone stolen must have been over ten tons.

#### BUSY BROCKTON.

A Shoe Town Which Is Worth a Visit.

Brockton is a Massachusetts city about an hour's ride from Boston. It has about 25,000 inhabitants, two daily papers, the Enterprise, Republican, and the Gazette, Democratic. The city has a shoe-factory in almost every yard, these busy institutions being scattered all over the city. Some of these factories are very large, some of them turning out 100 cases a day. One of the best known of these is that of W. L. Douglass, a series of handsome buildings with bright trimmings.

Brockton is growing, some 300 new houses now being in process of erection there. One of the largest churches is the Porter Cong'l Church, Rev. Mr. Warfield pastor, who is known to our people. It was at this church that A. H. Whitford, our former Y. M. C. A. secretary, was located for so long. The Brockton M. E. church is contemplating a large addition to its buildings.

Brockton has paved streets, horse cars, electric cars and electric lights. Its electric plant is a fine one with all modern machinery.

Brockton's water supply is not drinkable but very smelly. It is good for plants and gardens, but the drinking supply is bought from carts which furnish good water from "White Sand Spring," "Crystal Spring," "Granite Rock Spring," "Wagon Spring" and others.

One of Brockton's most successful physicians is Dr. D. E. Brown, an Ellsworth boy. Other Ellsworth men are found in the ranks of Brockton's successful business citizens.

The Brockton Manufacturing Co. does a big business in light summer coats, butchers' frocks, carpenters' aprons and the like, doing business in Bryant's Block.

Brockton is Massachusetts' strong "no license" stronghold, and not even the apothecaries can secure a license to sell intoxicants. The following well illustrates the change that has come over the spirit of certain Brockton dreams: An elegant saloon was fitted up near the electric light station. It was two years in building. The walls were decorated with stucco work and heavy plate mirrors. Statuettes of the "Disc Thrower," the "Diver," "Venus de Milo," "Apollo Belvedere," etc., occupied frequent niches along the walls, while above in the gracefully arched ceiling "Atlas" supports the earth. It is a beautiful series of rooms. It is now occupied by S. E. Lord, formerly of this city, as a carpenter shop. "No license" did it. Amid the statues, and groups of nymphs, and plate mirrors, and carved work, the sound of the plane, hammer and saw is heard. No, the artistic work hasn't been degraded; it's been elevated. Mr. Lord, by the way, employs a large force in joiner work, and has a big business.

Brockton is a clean, orderly, wholesome, attractive place, with beautiful homes, well-kept grounds, fine churches, well stocked stores, and intelligent, fine appearing people.

#### OUR CREAMERY.

A prominent wholesale dealer in dairy products in Boston called at our creamery a few days ago and expressed great pleasure at the appearance of things. This gentleman buys butter from many different manufacturers all over New England and the west, and he declares that the Rockland creamery butter is the best he handles. This is certainly a great recommendation, and adds to the already good reputation of our butter. For several weeks past the creamery has been unable to fill all the orders it has received. There is no doubt that two or three times our present output could be readily disposed of at good prices. This enterprise has come to stay. The worst is already past it having started at the most unfavorable time for several years, and the reputation of its products is thus early established, but more assistance is very much needed now in the way of additional cows to furnish the requisite amount for cream to complete success. The help at the factory is ample for a much larger amount without extra cost. Those farmers who have withheld their support for fear the enterprise would not succeed need not wait longer. If they wish to see this institution spread out and grow and be a great benefit to every farmer within its reach, they should now join hands with the few that have thus far carried it alone.

The present number of cows is not sufficient for the best results. It would cost but a trifle more to make double the present quantity, then the expense would be only half as much individually as at present. The cost for help, ice, coal, etc., being the same as now. We are now getting good prices and are likely to do so in the future, so as to give the farmer good returns. In the past few months of our existence with no market nor reputation for our butter, and at a time when the prices for this article have been remarkably low, we have not been able to give large returns, nor even quite meet our expectations. Many farmers from some distance away are expressing a strong desire to join us, and we shall probably extend our routes and give those who desire to avail themselves of so good an opportunity a chance to do so.

All new enterprises require time, patience, and labor. Our present board of directors have devoted much time and expense to establish this creamery; not a cent has ever been paid one of them for so doing, nor do they ask it. If the farmers, for whom they have labored so earnestly, will now all put their shoulder to the wheel and help on this great work, and themselves also, it will be the remuneration the managers desire or expect.

#### MAINE MANUFACTURERS.

The shoe factory of W. H. Daniels & Co. at Waldoboro, 13x33 feet, employing at present 50 hands, with a daily product of 12 cases per day, will soon increase their working force to 150.

The Norway Tanning Co. has one of the largest plants in the state. It has a capacity of 5000 finished hides a week, the product being mostly wax, kip, and split leather. It is now at work on embossed leather for the West Paris chair factory.

Negotiations are now pending between the owners of the old Tucker woolen mill at Gardiner and W. C. Jack & Co., the rag merchants and general merchandise dealers, and if a satisfactory lease can be obtained, the mill will be put in running order and resume work at once.

#### THE LETTER BAG.

A Valuable Collection of Literature That Has Widely Travelled.

When the class of 1884, Colby University, of which the editor of this paper was a member, disbanded at their Commencement, it was decided to have an annual letter bag. The first member in the class alphabetically, was to write a letter, and direct it to the next member of the class, alphabetically, who would read it, write one of his own, and forward it with the first to the next member of the class who would add his own and send the gradually increasing bundle to the next, and so on, until the rounds of the class were made, and the bundle of letters returned to the first in the class. The first member then

WITHDREW HIS FIRST LETTER,

substituted another, and sent to No. 2 and so on, the bundle retaining of course the same number of letters, new ones being substituted for the old. This practice has been kept up, and the editor now has in his possession the bundle.

It has travelled extensively. Miss Nellie A. Bragg, assistant in the Roxbury, Mass., High School, is No. 1. She sent it to Rev. Edwin P. Burt, pastor of the Biddeford Baptist Church, whence it went to Miss S. A. Curtis, Kennebunk, Me., who is teaching in a seminary, in Washington, D. C. W. K. Clements next received the letters, across the broad ocean in Leipzig. Mr. Clements is now in charge of the classical department of the Ferry College for Young Ladies, in connection with Lake Forest University, a well known western educational institution. Clements sent the letter to John E. Cummings,

MISSIONARY IN HENZADA,

Burma. A. L. Doe, principal of a school in Malden, Mass., F. M. Donnell, in a fine position with the Yale & Towne Manufacturing Co., Stamford, Conn., and John L. Dearing, recently ordained a Baptist minister, at Livermore, who will go to Burma for missionary work, come next. C. S. Estes, the faithful class secretary, one of the professors in Houlton, Me., Academy, receives the letter and forwards it to W. C. Emerson of the Portland Advertiser, thence to Miss Mary A. Gould, Portland, who is now away on a South American voyage in bark Sacramento. Then comes another long trip to

NEUTSIN, CHINA,

where Henry Kingman, the reckless, is doing missionary work, studying Chinese and playing tennis. J. C. Keith at Bar Harbor has the letter, and it is delayed in Rockland a few days by the writer who forwards it to Shailer Mathews, "Smathers," as he is known to the class, now one of the Colby professors, who promptly sends it along to C. W. Moulton in the book business, Tacoma, W. T. Then it goes to Dr. Rufus Moulton in the Boston schools and hospitals. T. P. Putnam, esq., Houlton, Me., has the letter for a while. It then visits E. F. Robinson, studying medicine in Providence, calls on E. E. Stevens, with the Washburn Mill Co., Minneapolis, Minn., and then takes another ocean trip to Benjamin Turner,

A MISSIONARY IN RANGOON.

Dr. A. I. Thayer at last receives the letter in N. Y. City, where he is studying medicine. It's a long journey that mail bag takes, and some of the news is rather stale when the letter reaches the last end of the alphabet, but it's interesting to class members.

#### A WESTERN CAMPAIGN.

How Prohibition is to Make Itself Heard in North Dakota.

M. H. Kliff of Tower City, North Dakota, a former resident of Vinalhaven, is organizer of the Non-Partisan Prohibition Alliance of North Dakota. Mr. Kliff writes as follows about this organization:

"Our constitutional convention is now in session. The Prohibition question will be submitted to a vote of the people at the next general election. This organization to which I belong is an incorporated company representing not to exceed \$250,000 capital, organized for 10 years of service if needed. We form branch alliances in every town, consisting of a board of officers, president, vice president, secretary, treasurer and executive committee of five. We propose to hold monthly meetings in all these towns, furnish them with plenty of prohibition matter, address them from time to time, have picnics and grand rallies in counties and mammoth mass meetings in counties we expect to win. We know, of course, what our opponents will do. We know money without stint will be poured in here from the east to corrupt and defraud the people. We know also that all manner of deception, lying statements will be spread broadcast over our state. Yet we feel there is intelligence enough among this population of hardy farmers to overcome any and all things that ruin and its followers can produce. God is on our side, and if we do our duty He will give us the victory."

Mr. Kliff is to favor us from time to time with letters on the progress of the campaign.

#### SHIPBUILDING.

The three-masted schooner building in Belfast, for Capt. A. J. Hall of this city, has been named the Olive Pecker, for the daughter of C. D. Pecker of Lynn, Mass., one of the vessel's owners.

Some of the forgings for the new Morse tug at Bath were lost in the Johnstown flood. Of the 52 freight cars which made up the train on which they were, not one has ever been found and the forgings, representing some \$1500, have never been heard from.

David Clark of Kennebunkport last week launched a finely modeled and substantially built three masted centre-board schooner, named Julia Frances, measuring gross 163.37 tons. The principal owners are C. W. Anthony and John Anderson of Fall River, from which port she will sail, in command of the launch. The vessel was fully rigged on the stocks, and a most graceful launch was witnessed by hundreds of the summer boarders in addition to the crowds belonging to town.

#### THE NEW STATES.

The Idaho convention has adopted a proposition taxing all property except public libraries, churches, cemeteries and mines. The state is limited in taxing to seven mills on a dollar. The Dakota Judiciary Committee recommends a supreme court of three judges and six judicial districts with as many judges, the present system of justices of the peace to be retained. In the Wyoming convention the judiciary article passed unanimously, and the prohibition article was defeated.

#### ANTIQUE OAK

Is the finish of the elegant quarters of the Rockland Trust Co. The company has fitted up the place of business in Wilson-White Block, formerly occupied by W. F. Norcross & Co., druggists, who have moved one door north, the present drug store and the Trust Co.'s rooms making two of the finest finished and furnished places of business in New England. The drug-store we have heretofore described, and we will now describe the bank.

The banking room proper is finished up in antique oak, highly polished, has a mosaic tile floor, with the walls and ceiling finished off by Lake in the new art plastic work, in a very harmonious blending of colors. The counters are of carved oak, surmounted by heavy plate-glass.

The directors' room in the rear has tinted walls and is finished in cherry. The furniture is in keeping with the other expensive appointments.

The vault, which we have previously described, is absolutely burglar and fire proof. It is made of solid masonry interlaced with railroad iron and lined with drill proof steel. All the attachments, locks, alarms, etc., are of the latest design and pattern. The vault has double doors with two combination locks on each. The vault is so constructed that the bank's officials can see around and over it, so that there can be no cutting through from adjoining apartments, and as the foundation is solid masonry from the cellar floor to the bank floor the vault is absolutely impregnable.

In the vault are 100 safe deposit boxes, a large portion of which are let. They rent at \$5, \$8 and \$10, according to size, and are used for the keeping of valuables, papers, bonds, stocks, etc. These boxes have two keys, one held by the owner and one by the clerk of the Trust Co., and the boxes can only be opened by the use of both keys; not one key, the owner's, can lock the boxes. The apartment containing the deposit boxes is separated by a steel grating from the Trust Co.'s portion of the vault, which contains a burglar proof steel chest for the company's use. This grating has a gate which is kept locked and has a bell attached which sounds the alarm whenever the gate is opened.

The Rockland Trust Co. is organized to do a general banking business. Its officers are as follows: President, A. F. Crockett; Vice President, E. A. Butler; Secretary, C. M. Kallio; Trustees, A. F. Crockett, A. C. Gay, C. H. Berry, W. S. White, E. A. Butler, F. C. Knight, H. G. Tibbets, W. T. Cobb, G. L. Farrand, S. M. Bird, W. W. Case, John D. May, E. K. Glover, James Donahue, all of Rockland, and F. E. Richards, Camden; Executive Committee, A. F. Crockett, E. K. Glover, W. T. Cobb, F. C. Knight, A. C. Gay. The company has fine quarters, is well officered and is now ready to do the big and profitable business which we trust it will have.

J. F. Bickmore of the firm of Trowbridge & Bickmore, real estate dealers, Denver, Colo., visited the company's rooms Thursday, and was greatly pleased with them, especially the safe deposit branch of the business. "Thirty dollars is what we pay in Denver for a safe deposit box the size of those five dollar ones," said he.

#### DIAMOND DOTS.

As the present Rocklands propose to begin anew, it will not be out of place to give a few statistics concerning the defunct R. C. C's. During their existence they played 12 games, of which they won 8. They made in these 12 games, 164 runs, to their opponents' 120. They played three games with Camden, all of which they won; five games were played with Warren, R. C. C. winning 2 and losing 3. They also won a game each from the Rockland Man'g Co., Thomastons and Vinalhaves. The other game was lost to the Thos. E. Shea Dramatic Co. Taken all in all the Rockland Commercial College Club had a very successful season.

Simonton has made four home-runs in 13 games played.

Gray and Simonton are doing splendid battery work at present. Both of these players are making an enviable record on the ball field this season.

The following represents the batting average of the Rockland players who have participated in more than one game: Simonton .545, Spear .500, H. Howard .300, P. Howard .273, Winslow .273, Nelson .222, Chaplin .182, Gray .100.

The C.G. Juniors have re-organized as follows: Glover, c.; Spear, p.; McLoon, 1b.; Irish, 2b.; Macomber, 3b.; Wotton, s.s.; Magee, c.f.; Bird, 1.f.; Singhi, r.f.

#### FARM AND GARDEN.

The Russian Mulberry—A Kindred Fruit—The Apple Crop—A Good Squash.

EAST UNION, July 31, 1889. MR. EDITOR:—Some time ago I stated that I had eaten of the Russian Mulberry, and that the quality of the fruit in my opinion was very poor. A certain "Fruit Grower's Friend," in the Lewiston Journal, criticised my opinion and claimed that the fruit was good. Probably there is no authority in this country better qualified to judge the merits of the Russian Mulberry than Prof. Budd, who says: "As to its size and quality, the less said the better, unless some special variety be selected larger and better than any I have yet seen in this country."

Another swindle that has cost the farmers much money is the Russian apricot. I planted two and both are dead. One was laid low on the 6th of last September by Jack Frost. A fruit tree that cannot resist a September frost is hardly fit for our climate.

If it would not be out of order to change the subject, I would take this opportunity to say that the apple crop about here is not very promising. Our Baldwin, Noddheads, Pippins and Wealthies will yield a fair crop, but the Greenings, Russets and many other varieties are on the retired list this season, and the plums are off on a furlough.

Those early squashes that I mentioned a few weeks ago, being near the road, attract the attention of the travelling public, and I often hear them exclaim: "Well I declare, that beats anything I've seen this year." To see large squashes as yellow as gold here in July is indeed something remarkable. We had some for dinner July 28, and if the quality is to be judged by the amount we devoured I should say as the Dutchman did, that "It is better as good."

By today's mail I send you one, which fulfills that prophecy, provided it proves good. CRANK.

## Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in

Ayer's Pills. In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceanside, N. Y., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

"Crank" promised to send one of these squashes a few weeks ago, and it arrived Wednesday. It was as fine a specimen of this favorite vegetable as you ever saw, and was delicious eating.—ED.

The State of Maine should have a constitutional amendment prohibiting the use of such names as borne by some villages. Knox county for instance, has a smart village called "Roxbury," and the town of Dexter is distinguished by a "Pirate's Corner."—Bangor Commercial.
