Shipments at the factory have exceeded those of July last year thus far this month.

There is considerable interest in sporting circles in the matched race to be trotted at the fair grounds next Saturday at 1 o'clock P. M. between Kitty Waite, 2:26, and Hebron, 2:30, for a stake of \$100 a side.

A stake is deposited with the clerk of the race, and the horses will be driven to the start at 1 o'clock.

Harry T. Jordan of this place is one of the editors of the "Hill Top," a very creditable young summer resort journal published at South Paris in the interest of the famous Palmering House.

The June issue of the "Maine Central" contains an excellent history and sketch of our townsmen, Joseph H. Jones, Esq., "one of the boys" and his general disposition makes friends wherever he goes. They say that "Jo" is a hustler to sell goods.

Mount Mica Lodge, No. 17, I. O. O. F., will celebrate its nineteenth anniversary by the usual excursion to Portland and the islands Saturday, Aug. 25th.

Persons at all stations in Oxford County, ranging from \$1.50 for Oxford to \$1.00 from South Paris, Norway, Gilsum and Mechanic Falls. Tickets good on all regular trains and good for return up to Monday night. This three-day ticket is a new feature in the excursion line, and ought to be a popular one, as it gives an opportunity to spend three days at the sea shore, or to go just over Sunday, with very little loss of time from business, at a low price.

**THE FRYBURGH CHAUTAUQU.**

LAUDER ATTENDANCE THAN USUAL FOR THE OPENING WEEK.—NOTES FROM THE GROUNDS.

(Reported for the Democrat.)

The usual reunion was held Tuesday evening, July 25, for friendly greeting and welcome to newcomers, but on account of the rain there were few present from outside of the grove. Wednesday morning cleared auspiciously and the routine of work began as laid out by the program.

The afternoon brought the crowd of visitors attracted by Mrs. Livermore and as ever before she held an interested audience all attention while she unfolded the past history of the "Modern Miracle"—the Chicago of 1893, and the wonderful development from the explorations of La Salle in the sixteenth century to the present magnificent proportions of the "Great City of the West."

The evening was devoted to the description of the Passion Play of 1890 at Oberammergau by Rev. J. J. Leary, who on the edge of the rocky shore. All the open spaces between the trees were filled with fire burghs, so that nothing might be visible from the grove.

The chief features were two boxing contests.

The general arrangements were in charge of Capt. Wadsworth who is given great credit for their satisfactory nature. Considerable money changed hands over the fight.

**TALK OF THE STATE.**

Work has begun in good earnest on the re-building of the big pulp mill at Howland Falls.

Burglars blew the safe in the Sears-Roebuck store and secured about \$50 worth of stamps.

Rockland thinks her credit is pretty good when she can borrow \$20,000 on time at 2-1/4 per cent.

Several buildings were burned by the lightning in Wednesday night's showers. The wind blew over the spire of a church in Snowdon.

Russell Jellison, aged 14 years, son of Mr. John Jellison of East Waterbury, was drowned at Bartlett Pond while bathing, in company with several other boys.

The body of a man was found in the water at the wharf at Bar Harbor, with a bottle of whiskey and a few pennies in his pocket. Undoubtedly a case of suicide.

The Peasey library building at Eastport is soon to be dedicated. It is regretted that the donor, Mr. Peasey, cannot be present on the occasion; he is now in Europe.

Arthur Westwood of Beverly, Mass., 19 years of age, committed suicide by shooting at Portland Sunday. He was formerly a resident of Portland. His mind had been affected for some time.

It seems pretty well settled—at least definitely expected—that the E. C. Allen publishing business at Augusta will be continued, though who will be at its head or who will furnish the necessary capital is not yet known.

The Lockwood Company, Waterville, is a pretty good institution for a city to have. For instance it pays the public cost of \$12,000 in taxes and throughout the business depression the Lockwood has kept its feet steadily employed.

It is now reported that a new variety of rust is affecting the growing grain in nearly every portion of the state, and that the apple tree fungus has damaged the fruit crop in apple growing sections of Kennebec County thousands of dollars.

**HERE AND THERE.**

What with the apparently irreconcilable differences between the house and senate, the dictatorial interference of President Cleveland with the legislative branch of the government, and the general incapacity of the Democratic party in government affairs, when it has full control, the tariff bill seems likely to fall to the ground, and the whole question to be "referred back to the people" at the congressional elections this fall.

His Majesty Debs appeals to the great American public to aid in the alleged great Pullman boycott by refusing to ride in Pullman cars. The great American public, however, is naturally selfish, and the scheme which would make most favor with the people, and which would compel Pullman to hire his porters on the business-like, American plan of paying them what their services are worth, instead of paying them through their wages out of the traveling public.

The kingdom of Hawaii dies hard. Queen Liliuokalani is not yet persuaded, after all that has occurred, that she has nothing to hope from the American people, and she has sent a commission to confer with President Cleveland and find out if he will do anything toward her restoration. It is easy to imagine that this thing will soon get to the point where President Cleveland will exclaim, "I have had enough of this Hawaiian monarchy, which haunts me day and night. Why did I ever call this up out of the blackness of oblivion, whether that had just been driven?"

It is thought a matter worthy of newspaper note that the owners of wild lands who appear before the state assessors nearly all think that the valuation of their wild lands is too high. Is there anything remarkable about it?

There was once a good story started. The story was that there was a bridge over which a notice was posted giving warning of a fine for driving across the bridge faster than a walk. One day a man drove across at a good smart trot. An officer stopped him and pointed to the warning notice. He took out his wallet, and counted out twice the amount of the fine. "Keep the change," said he, "I'm going back in a few minutes." This "cheat" has done extensive duty at intervals. It has just made its latest appearance, and this time the scene is at Canton. Monticello should be thankful that it is no worse.

It is now thought probable that the Wellman Arctic expedition is lost, and that the members of the party have very likely perished. This expedition was one organized and led by an enterprising newspaper man. If it has failed, its failure will cause a loss of that faith which some people have in the superhuman powers of the newspaper man. But Wellman had carefully studied and considered the matter before his expedition started, and his preparations were very complete. It isn't time to give him up yet.

There is more meaning than ever in Senator Hill's profession of principles: "I am a Democrat."

The house has passed a resolution to submit to the legislature of the states a constitutional amendment providing for the election of senators by direct vote of the people. Such an amendment, however, has considerable to encounter before it becomes incorporated in the constitution. The first thing to be secured is the approval of the senate itself, and that is some hardy likely to be given, especially during the existence of the somewhat strained relations which exist at present between the house and senate on account of the tariff bill.

The bids for building the opera house were opened Thursday night. They ranged from \$15,000 to \$22,000.

Noyes & Andrews at their blue store, Norway, are offering some great values in odd lots.

After a few changes in the specifications the contract for building the new opera house will probably be awarded to Joseph Philbrook & Co., of Lisbon Falls.

The stockholders have decided to build a clock tower thereby insuring a chance for some generous Norway person or who is interested in Norway's prosperity to put in a town clock.

Saturday was one of the warmest days of the season. The thermometer registered nearly one hundred.

It will pay you to visit the great clothing store at Noyes & Andrews' clothing store, Norway.

**A BRUTAL PRIZE FIGHT.**

LOCAL TOWNS ENGAGE IN A LAWLESS SPORT.

THE KING WAS AT TRUNDY'S REEF—A FIGHTER BARELY FOULDED—CONSIDERABLE MONEY INVOLVED.

Yesterday afternoon there was one of the worst prize fights at Trundy's reef, that Maine has been disgraced with for a long time.

Yesterday at about one o'clock, about forty sports from Portland and elsewhere, had assembled on Trundy's reef, which is a small open vale between the rocks on the edge of the rocky shore. All the open spaces between the trees were filled with fire burghs, so that nothing might be visible from the grove.

The chief features were two boxing contests.

The general arrangements were in charge of Capt. Wadsworth who is given great credit for their satisfactory nature. Considerable money changed hands over the fight.

**"ON THE HILL."**  
DIXFIELD.  
The past week has been extremely warm, mercury was in the nineties. A large quantity of hay secured in good condition. Farmers around here are busy with the hay. Some of the farmers who were nearly (or quite, who knows?) eaten by mosquitoes at Ashtabuck Falls last week, are now enjoying the weather. It would be a big contract. We would like to see a native guide might know how to deal with them.  
Miss Olin has gone to spend a week of her vacation with her grandmother, Mrs. M. W. Fickett.  
John Olson is down from the lake to do his haying.  
The Dudley and Shurtliff party came down from Mettalluk Pond the 22d. They have been camping out three weeks.  
**WILSON'S MILLS.**  
Sylvester Cook's two oldest children were married last Sunday at Westfield by Rev. A. K. Bryant. His son, Fred J., to Miss L. E. Swan, his daughter, Willie E., to Charles E. Swan of Milan, N. H. The ceremony was very simple. More than twenty persons assembled there by previous invitation, who congratulated them on their happy prospect in future domestic life. A wedding feast was served at the residence of the bride. What remained of the forenoon was used in conversation and music, instrumental and vocal, each one of course having due regard for the sacredness of the day, or at least trying to. In regard to the dinner, I will only say in passing that it was all the best in the line of desire, and also seemed to know what it was made for. After the repeat ended we all took a walk up into the pasture, and soon found ourselves on the top of Young hill, where we could see a lot of the "Alps on Alps," and Mount Washington far in the background. The sight of the mountain gave much additional excitement to the view, and a few thoughts of the past developed into warm memories. I was aware of it. Thirty-six years ago this month I visited the mountain, and on the highest point there was a small monument in process of building, and every one going to the place was expected to add a single stone to the structure, which I cheerfully did, and also another to a similar one which marked the spot where Lizzie Boyne perished. I have not been back since. On leaving for the house a stone was brought and placed where we stood, thus making the monument complete. The following Monday night about thirty-five gathered there, all being invited, and though not present to see, I have reason to believe a first-class entertainment. The double wedding, hinted at the week before, materialized in due form, and is now an event of the past.  
Will Emerson used to keep several swarms of bees, but they finally all died and the bees still remain where they were. Not long since Mr. Emerson discovered that a swarm of bees had taken possession of one of the hives, and with a view to killing them, he had poured kerosene on the hives. It is hardly necessary to add that Mr. Emerson did not feel at all illing at his proceeding. No one has any idea where they came from, since they were found to be a swarm of bees kept in the cellar.  
There is to be a gospel temperance lecture at the City on Tuesday, August 7th, at 7:45 P. M. The lecturer is J. M. B. Abbott, a native of this State. "Our Boys of Tomorrow." Lecture free, and all are invited to come and bring their families.

Potatoes are looking well; bugs plenty.  
Grain is good but several will cut their oats green for fodder.  
Corn is looking well. George H. Brown has been nearly ready to haying. It seems to grow faster for him than it does for most people. I expect his being with it with his horse has something to do with it. He is saying he does not have and that is weeds.  
**BYRON.**  
Mrs. Kate G. Houghton did a large family washing Monday A. M. and caught five brook trout in the P. M. "many of them weighing a pound," she says in town this week and with S. M. We had a heavy shower here Tuesday afternoon, and another Wednesday night. The shower Wednesday night did quite a lot of damage. During the shower of Wednesday night the farm buildings of David G.
