EAST BRANCH FARM.

At Rockfield, we recently stopped over

to take a look at the horse stock of Hon.

George D. Bissell, kept at East Branch

Farm, Rockfield. Mr. Bissell has a good

half mile track at his farm, where the

youngsters can be taught to extend them-

selves. The stock is in charge of Mr. H.

C. Ellis, a careful trainer and horseman

of considerable experience, as well as

being a gentleman well posted in regard

to pedigree, etc.

The premier stud at East Branch Farm

is the big horse, McKusick, 2:34.3.4.

McKusick is by Olympus, son of Almont,

and his dam was Lady Burns, by Burns'

Trotting Childers, a horse that was in-

volved in the Vowles; 2:14. McKusick is

Desmond's Flora Temple, 2:46, dam of

Gen. Grant, trial 2:24. McKusick is 5

years old, stands 15.2-12 hands, weighs

1040 lbs., and has his record as a four-

year-old, when less than one month from

the stud. McKusick carries the blood

of Alexander's Abdallah (who got Gold-

smith Maid, 2:14, and the great sire

Belmont, Almont, etc.), traces twice to

Tamborine, three times to the great sire

double portion of Vermont Hack Horse

blood. He was purchased by Mr. Ellis

at the age of a few weeks, and has

been handled after the manner of Mr. Bissell.

McKusick is a lofty looking horse in

harness, with great courage, while his

style and finish are such as to leave an

impression on one's mind, not easily for-

gotten. It is believed that a mark of 2

or 2.25 is not beyond the capabilities of

this fellow.

Cyren, a stable companion of Mc-

Kusick, and is a large nine-year-old

gelding, owned by Glenham, 2:22-1.2, dam Gypsy

Bonner, by Robert Bonner. He has

been given a trial mile in 2:44.

The brood mares and stallions owned

in this country, and some of the

latter will probably be worked for speed,

as the farm has entries in the Oxford

County Stakes.

Deborah is a brown mare, by Dictator

Chief, 2:21-1.2; dam Molly by Matchless,

sire of Palma, 2:22-1.4, and the dam of

Tamborine, 2:28. Deborah is a little

over 1655, is a nice animal individually,

and is speedily, though a double-gaited mare.

Will be worked for speed early, and

then bred.

Amy Lea is a stylish looking filly,

by Albert Lea 3888, by Florida, sire

Faust, 3 years 2:18-1.4, Fortune, 3 years

2:23, Freney, 2 years 2:27-1.4, all in 1889,

and other 2:30 performers. The dam of

Amy Lea is Mambrino Gift, by Mambrino

Gift, 2:20, the first stallion to acquire

a record as low as that. Albert Lea's

dam was by Conklin's American Star,

and her sire by her side a filly sold of

700, by Woodbridge, 2:25-1.4, son of Nut-

wood, 2:18-3.4, and Malaga, by Wood-

ford Mambrino, 2:21-1.2.

Nelly O'Neil is a chestnut mare, by

Blue Bird 75, a mare of a good deal of

nervous power, and a great roadster. Her

1890 foal is a chestnut filly by McKusick,

and she will be bred back to the same

horse.

Lady Wing is another fast road mare,

chestnut in color, and was got by Roman

Eaton; dam either by Mr. Bissell, or

by a chestnut colt by McKusick.

Mambrino Gift is a large chestnut

mare, by Mambrino Gift, 2:20; dam by

Albert Draper, by Uncle Vic, son of

THOUGHTS, WISE AND OTHERWISE.

Because apples have brought and are

bringing extremely high prices, it is

not surprising that the business is not

overdone; neither that it is underdone.

It shows what we all know, that with

scarcity comes high prices. Last year

we saw some apples sold at a dollar

barrel, and thousands of barrels rotted

unsold in the cellars. Most orchardists

would have made as much to have shak-

ed the apples from the trees and sold

them for feed making, or feed, at 10 to

15 cents a bushel, as they did to pick, sort,

keep, barrel, and sell them as they did,

as they were obliged to, after keeping

for months, and sustaining the shrinkage

and loss by rotting. Take a series of

years and apple raising pays a fair per-

cent. But it is as unfair to hold up the

price of a fancy barrel of apples as it

is to hold up the price of a barrel of

the extreme depressed price of last year.

It is a level-headed sort of way to keep

setting traps, caring for them, and rais-

ing the price of the apples, and then

in a while there will be a year that we

can refer to as a very satisfactory one,

like the present. The other years we

may average a fair return on the invest-

ment, but the present year is a year that

present prices will remain longer than

the next harvest.

ALBANY. Mrs. Sarah A. Marshall, who has been sick several weeks, passed away suddenly, yet very peacefully, the evening of May 11th, aged 75 years and 8 months.

Mrs. Marshall's husband died eleven years ago leaving her a small farm with some improvements. By good management she has removed the incumbrance, improved and increased the value of the farm. (Who will say that farming doesn't pay?)

She has been a regular contributor to the funds of the Congregational church of which she was a worthy and useful member. She leaves to mourn her loss many friends, one sister and two daughters both of whom are married and well settled. The elder lives in the house with her mother and kindly cared for her during her last sickness. Her funeral was attended by a large number of friends and relatives. Rev. D. W. Hardy of Bethel officiated.

Mrs. Phoebe Atkinson of San Francisco, Cal., is in town to spend the summer. She has been in California nearly thirty years and has secured quite an amount of yellow dust for which State is famed. She was a native of Albany and now owns the old homestead of her father the late John Cummings. She kindly gives the use of the farm and a good stock of cattle to her brother and sister and her step mother and she does not hesitate to put in a good many other things when needed and hires a man for them by the season. This is quite nice for them in old age as they are quite infirm, the brother 76 years and step mother 87.
