LOCAL LACONICS

News Notes and Brief Mention of Home Happenings.

The Abiezer Veazie house, Rankin street, is receiving a coat of paint.

One of the crew at G. F. Kaler & Co.'s cut one of its hands badly in a mauling, Thursday.

Work has been resumed in the Tillson wharf storehouse. The workmen wear lovely striped suits.

S. G. Prescott & Co. have leased the store vacated by W. J. Oxtun, and will conduct a branch business there.

"Take out that ad," said Connors, rising to Tink C-G. man. "Sold my stove as soon as Tuesday's paper was out."

A party of our business men took supper at the Bay View Camden, Tuesday evening, and then made the rounds of the stores that were open.

We call attention this week to our full and complete report of Probate Court. THE C-G. is the only paper in the county that fully reports this important court.

Clarence Daniels has moved his watch repairing establishment from Brock's car station to the store of Mrs. James Hanrahan where he has the southern window.

W. E. Staples has bought the barber business of F. L. Porter, Ulmer Block, corner Sea and Main streets, and is now in charge. Mr. Staples is an experienced and expert barber.

Tax Collector Farwell is making the poll tax business lively. The constables are busy serving warrants and there is quite a stream of the \$3 payers going in and out of Mr. Farwell's boudoir.

Business was lively on Main street, Wednesday, but it consisted mostly in picking up hats that had blown off and reversing umbrellas tops that had been turned wrong side out.

A. L. Payson has opened a billiard saloon in the rooms under the Central House, Shepherd Block, at the Brook. He has nice tables and has fitted the rooms up very comfortably.

A great improvement has been made at the junction of Main and Water streets. Another improvement that is now needed is to clear away the culch and old junk that fills up the premises of the Gen. Berry House.

Kilwood sold at a killing low price last week—\$2.50 a cord for good Province wood, Thursday. You see the wharves of our lumber manufacturers are filled with wood; the kilns are not doing a big business, so it's a case of over production.

A chorus consisting of the Rubinstein Club and twelve male voices is rehearsing choruses for the entertainment to be given for the benefit of the Emergency Hospital, some time in January. "Crowned with the Tempest," "To Thee, O Liberty" and like grand choruses are in preparation. The chorus will meet this evening at Dr. W. V. Hanson's, Masonic street.

One of our well known politicians and a prominent candidate for an important office was arrested last week for non-payment of his poll tax. The officer allowed him 30 minutes to go and raise the money. He had not at last accounts been heard from. The officer has a lot of lobster twine and a jackknife in his possession as a keepsake.

Tuesday morning last there were exciting stories about of the attempt the previous evening to burglarize J. H. Flint's store, one burglar being captured and the other escaping after being wounded by one of the officers. The burglar proved to be a scuffle between two men, in which one was pushed

through Mr. Flint's window. They paid the damages, and the tragedy was ended.

City Clerk Burnham has his office now with Tax Collector Farwell, over the Crockett & Lovejoy store, foot of Linerock street, where parties who wish to have their intentions of marriage published can do so. Mr. Burnham also ties the nuptial knot in the most approved style.

SHORT STORIES

A Consultation Held—How a Thomaston Doctor Answered an Urgency Call.

A Rockland citizen had a coat made by one of our tailoring firms. He tried it on and the two members of the firm, after looking the coat over, put their heads together to discuss the fit.

"Pretty serious case!" said a bystander to the man who was trying on the coat. "They are having a consultation over it. Haven't you better call in another tailor?"

They tell a good story on a Thomaston physician. He received a note one day from the family of a patient, saying that the man of the house had "branc fever" and to come at once. The family lived a number of miles away, the traveling was bad and it was getting dark, but the exigencies of the case demanded prompt action, and the doctor went. After a most trying drive through mud and darkness he arrived at the house, to find his patient sitting in front of the stove, smoking his pipe and experiencing an attack of rheumatism to which he was subject.

In answer to the doctor's queries regarding the attack of "branc fever" the patient allowed that "there wasn't any one in the house that could spell 'rheumatism,'" and so they wrote "branc fever."

A HUGE TURNIP.

UNIVERSALIST FAIR.

As Usual It Proves a Very Beautiful and Successful Event.

The Universalist ladies seem to be pursued by bad weather when they hold their fairs, but they always seem to be too much for the weather, and invariably make a gilt-edged success of their annual fair, be the weather propitious or be it not.

Wednesday last was a day of hurricane, and rain, and blow, and mud, and likewise it was the day of the Universalist fair. Despite the storm there was a generous patronage, and those who dared the vicissitudes of the weather were well repaid for their bravery.

The feature of the fair was the presentation of "The Seven Ages of Woman." The first installment was the "Baby Booth," presided over by Faith Greenhalgh and Grace Hicks, looking very cute in baby caps. The booth was of white draperies, with dotted net and white ribbons. Pretty dressed dolls and baby things were offered for sale.

The next booth showed the "School Girls," Misses Eva Gay, Hope Greenhalgh, Alice Glover, and Lucy Crockett. They held away in a circle of evergreen and offered potted plants for sale.

"Sweet Sixteen" was a lovely booth, Misses Anna Ingraham, Sadie Gilchrist, Mabel Haynes and Olive Gilchrist being the presiding ladies. The booth was heart-shaped and loaded down with tempting candies in heart-shaped vessels. The whole picture was set off by an immense heart of roses that hung from the wall.

The "Brides Booth" came next in order. Here Mrs. George A. Gilchrist, Mrs. A. H. Berry and Mrs. J. H. Wiggin, in shade hats and wedding draperies, did a profitable business disposing of articles of fancy work made and contributed by members of the society. The booth was octagonal in shape and hung with orange draperies. A number of nice pieces of work were sold before the man with note book arrived, but among the pretty pieces left we noticed a fine oval tea table cover of linen laid work, made by Stella Keene; very lovely linen center piece of laid work, maiden hair fern design, Mrs. C. A. Haskell; rose bowl doiley, linen and laid work, azalia pattern, representing a great deal of new work, Mrs. Arthur Shea; very pretty side-board scarf, linen and laid work, [Mrs. C. A. Haskell]; tray cloth of satin damask linen, laid work, very pretty, and other nice work, Mrs. W. H. Fogler; doiley of dainty design, Mrs. Myers of Portland, Ore.; beautiful lace work doily, Miss Flora Wise; pretty canvas book cover, fleur de lis design, Mrs. W. T. Cobb; rose bowl, hand painted, Mrs. W. M. Kinnell of Portland; very pretty hot roll cloth of linen with tatted edging, Mrs. W. F. Norcross; dainty tray cloth, drawn work, Mrs. Emma Frohock; pretty sofa pillow cover, conventional design in browns and greens, Mrs. W. H. Glover, rich looking sofa pillow, china silk, Mrs. C. H. Barry; blotter, golden rod pattern, artistically hand painted, Mrs. J. H. Wiggin; picture throw, very pretty hand painted with a design of wild roses, Mrs. Dr. Woods. Other pretty pieces were the following: Pin cushions by Mrs. A. M. Austin, Mrs. Austin Black and Mrs. C. H. Barry; doiley, Miss Kitty Coburn; hand painted vases, Cora Gregory, and a commodore set of outline work.

The "Mother's Booth" contained aprons and like useful housewifely articles for sale. Mrs. E. B. Hastings, Mrs. E. W. Palmer and Mrs. G. L. Knight had charge here.

"Ancient Maidenhood" was the next historical booth in chronological order. Over this edition of Spinstersdom the following ladies presided with winning grace: Misses Stella Keene, Flora Wise and Anna Greenhalgh. They were attracted in ancient costume, in which spinsters' curls, antique brooches and old time dresses figured.

The "Old Ago" booth was held in quarters for comfortable slippers other articles so agreeable and appropriate for declining years. A fire place and spinning wheel helped to give the picture an antique coloring. Mrs. G. H. Clifford in becoming costume had charge of this booth.

In the center of the floor were attractive little lunch tables, each in charge of a pretty young lady waiter, who hastened to fill the orders of the many patrons who seated on the good things offered for sale on the European plan. The menu, which was neatly type-written by Frank T. Pearson, will show what was enjoyed. It was a most delicious supper

and promptly served.

MYND.

COUNTY JAIL.

What is Going On at Our Handsome House of Detention.

E. A. Sherman has charge of the jail heating apparatus.

There were 32 prisoners at our gilded jail Tuesday.

The new striped suits were put on by the jail occupants, Thursday.

Two parties from Vinalhaven, Wallace and Brown, were taken in at the jail Tuesday. They are held for December Court for breaking and entering.

Deputy Sheriff Rivers showed Titus C-G. man through the jail, Thursday. Everything was found in prime condition, neat, clean and comfortable.

The inmates of the jail are compelled to take a bath once a week, and Deputy Sheriff Rivers says that there is a great deal of kicking therat, but they take the dose just the same.

The inmates kicked vigorously at the idea of putting on uniforms, but they put them on just the same. Those who work in the stone-yard, tramps and the like, have striped suits of white and blue. The others have brown suits.

Tramps do not come in as frequently as last year, thanks to the stone yard. They get drunk and come in on a drunk sentence. But the county justices have caught on, however, and they will henceforth be sentenced to hard labor.

COUNTY COMMENT.

Random References to Events in Neighboring Towns.

Appleton will have another railroad meeting next Saturday.

The people up Appleton and Liberty way are dead in earnest about that proposed railroad, and mean to have it. A correspondent writes us from Appleton: The town is well worked up and we think will be a. n. first ballot. Liberty is in for it strong, think Liberty good for \$20,000.

Appleton and Liberty have valuable resources which would be developed as a result of the advent of a railroad into that country. There is splendid water power, limestone and the like all along the proposed route.

The terminus of the proposed extension of the Georges Valley Road is not fully decided. Some have suggested Burnham, but the old survey ended at the Head-of-the-Tide, Belfast. But the people in the towns up that way are anxious for the road, and its terminus is a matter of secondary importance.

Our county lobster fishermen are feeling very sore over the lobster law. One of the county fishermen, in a letter to THE C-G. says: Laws are made that cause the children to go with their feet bare and their clothes very poor, then they hold the stars and stripes over the school-children where these children go, and tell them they must honor the old flag. I have lost very many dollars by this cruel law.

ROCKPORT PERSONALS.

F. M. Robinson has recently returned from Boston.

Al Havener was at home a few days last week.

Wallace and Raymond Page, who have been stopping with their grandparents at Beuchamp and attending school, left Friday for Freeburg, Mass., to visit their father during the vacation.

OUTLOOK.

England has been revelling in drilla twelve feet deep. Most likely over there that the coal strike is ending.

Spectacles are now being made Franco for horses. A horse with a pair of gold-rimmed glasses astride his nose would be a queer spectacle of himself.

Speaking of the latest news from Hawaii, the Bangor Commercial thinks that the indications are that "the people of the island, having enjoyed, even for a brief space of time, the advantages of a clean, honest, republican form of government will not allow it to be displaced for the rotten monarchy which previously existed. And we believe," the Commercial continues, "that in this determination the people of Hawaii will have the sincerest sympathy of the great majority of thoughtful American citizens." This view is hardly in harmony with the Gresham-Blount theory.

There is a strike on the great Pennsylvania coal line, the Lehigh Valley Road, because the corporation will not recognize the labor union. The Portlan Advertiser says:

Just as the great strike of coal in England comes to an end, a strike of employees on one of the great Pennsylvania coal lines begins. The Lehigh strike is planned as not on account of wages but on the part of the employees. Considering the company refuses to recognize the labor organization. That is still-necked foolishness on the part of the corporation if it wants to avoid a strike, but a shrewd move if it wants to have work for a time, as is conjectured in some quarters. In that case the foolishness is on the part of the employees. Considering the winter is coming on and that business is dull and thousands of men are unemployed, it is the worst time possible to start a strike. The British strike was against a 25 per cent reduction of wages. It began last July and involved 350,000 men. The men have finally won, just an estimated direct cost of \$150,000,000, not to mention the indirect cost caused by forcing coal to enormous prices and in other ways. In industrial war it is as destructive as the other kind in everything but life.

Ex-Governor Jeremiah M. Rusk died at his home in Viroqua, Wis., Tuesday morning. Jeremiah M. Rusk was born in Morgan county, Mo., June 17, 1830. His father was a farmer. He was educated in the common schools of his native State. He was twenty-three years of age when he moved from the State of Missouri to Wisconsin, taking a farm near Viroqua. In 1862 he entered the Union army. He was major and afterwards lieutenant-colonel of the twenty-fifth Wisconsin regiment, and brevet brigadier general. Shortly after the close of the war he was elected State bank controller, an office which he filled from '66 to '70. He was a member of the Forty-second Congress. He served three consecutive terms in Washington and distinguished himself as a legislator. While in Congress he was an intimate friend and associate of James A. Garfield. Upon Garfield's election to the Presidency he was tendered successively the appointments of charge d'affaires to Paraguay and Uruguay and chief of the bureau of engraving and printing. He declined both, and in 1881 he was nominated for governor on the Republican ticket. He was elected by a majority of nearly 12,000 votes over his opponent. He was secretary of agriculture in Harrison's administration. His reputation was gained as governor of Wisconsin, and especially from the courage and independence with which he dealt with the Anarchists of Milwaukee.

The hydrant or Commercial street, near the kilns, has been moved some fifty feet nearer the bridge, to make way for a rock landing to be built by G. E. Carleton.

The case of Dave Winslow and Geo. Higgins was tried the 20th. Winslow was fined \$5, and in default was sentenced to thirty days in jail. Geo. Higgins was sent to Reformatory School.

The C. & R. Water Co. has laid a small pipe along its Commercial street water main (This Winter if the pipe freezes they will force steam through this small pipe and drive out the frost).

The Rockport Ice Co. has elected these officers: President, E. A. Morrill; Secretary, W. A. Merriam; Treasurer, T. E. Brewster. The company has 3000 tons left of its last winter's pack of 25,000 tons. Lily Pond is in fine condition, ready for its winter freeze.

Dr. H. E. Abbott, who has been in business in Rockport six years, will leave in two weeks for Lynn, Mass., where he has a line opening. Dr. Abbott has many friends here where he has built up a fine practice. He has served on the Board of U. S. Pension Examiners and is a skillful practitioner.

That section of sidewalk on Commercial street that was built experimentally of line chip proves to be a failure, inasmuch as the frosts and rain make it muddy. The constant travel wears away the chips rapidly and they become fine as dust and the frosts loose it so that it is muddy soon as it thaws. There is the same fault at the schoolhouse walk. The concrete walk of cold trap, pitch and gravel on Union street seems to be just the thing, and will probably be adopted as the most economical and best material for sidewalks.

CHURCH GOING.

A Rockport Clergyman Makes Some Pertinent Inquiries.

Rev. W. W. Ogier, pastor of the Rockport Methodist Church, has been investigating the cause of some who stay away from church on the Sabbath, and sent letters to a number of Rockport citizens a few weeks ago, asking the reason that people did not attend church on the Sabbath. Several replies were returned, which formed the substance for a sermon Sunday, the 19th.

One writer thought that people were too busy; another that lack of pride was a reason, as some did not have pride enough to be respectable. Business men were too weary to attend, and some thought married men had wives who kept them at home, while old probabilities kept some at home, as too wet or dry, too cold or too hot. Other excuses were made which the speaker commented upon.

The sermon was one to be remembered by those present. We are sorry to state, however, that only a few of the writers of the replies were present.

GROWING INDUSTRY.

Livingston Manufacturing Company and the Work It's Doing.

One of our young industries that is growing and developing in a satisfactory manner is the Livingston Manufacturing Co., doing business on South Main in a new building erected for its occupancy. This company is peculiarly a Rockland enterprise. Early last spring some of our young business men associated themselves with Charles W. Livingston and proceeded to manufacture granite cutting tools in a small way. Mr. Livingston had an experience of twenty years as a blacksmith, the most of the time being spent in the granite business. He is an expert, and when the Livingston Manufacturing Co. put out its first tools so decided was the approval they received that it was found impossible to meet the demand. In April the company was formed, and in June it was enlarged, more capital put into the business, and F. J. Bicknell was secured as business manager. The company is now officered as follows: Directors, John Blethen, M. A. Johnson, Theo. Kooten, M. T. Johnson, C. W. Livingston, G. H. Blethen; President, John Blethen; Secretary, M. A. Johnson; Treasurer, G. H. Blethen.

The company now has a fine place of business, supplied with four forges, trip hammers, four emery wheels, two drilling machines, patent saw and shears. The motive power is a Thompson-Houston electric motor, and the forges are run by a crew of five men now employed there. As the business is now developing in all probability the size of the plant will be doubled next year.

The company makes and repairs all kinds of granite and marble tools, and all kinds of tools used in lime rock or other quarrying, drills, wedges, hammers, sets and all kinds of tools for the granite business, and ship to all parts of the country. The tools they manufacture are the best made and are coming into use in all this section. Last week they shipped a three-ton order of tools to Boston. Mr. Livingston's long experience at the business enables him to get out just what fills the bill.

An invoice of seventeen tons of steel, a car-load, was received Thursday. The company is agent for Park Bros. Black Diamond and Silver steels. They are just completing an order of 500 of the patent McLean cheese knives.

The company is made up of pushing, hustling business men and it's a go.

HE COMMITTED SUICIDE!

The Cause and Its Lesson.

Why did he commit suicide? Oh! for the reason that thousands of others are on the verge of in some sin, or in immediate danger of insanity, paralysis, kidney, or some other equally unfortunate result of an nervous affection. He knew he was afflicted with a nervous disease, but was careless, apparently indifferent to the outcome; or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthless so-called remedies. His case was a sad one, but no worse than that of any other nervous sufferer, who has nervous or sick headache, biliousness, dizziness, irritability, melancholy, falling memory, hot flashes, fainting, sleeplessness, nervous dyspepsia, sexual debility, epilepsy, etc. The same or similar consequences are likely to result to any one who has any of these advance symptoms of an awful end. Do not hesitate in getting rid of them by intelligent treatment. Dr. Franklin Miles, the celebrated specialist, has studied nervous disease over 20 years, and has discovered the only reliable remedy for them. Thousands of voluntary testimonials prove the virtues of Dr. Miles' Restorative Nerve.

Alonso Barker, of Clinton, N. Y., writes: "I was an epileptic with extreme nervousness that I was on the verge of insanity. My hands trembled so that I could scarcely feed myself. I used twelve bottles of Dr. Miles' Restorative Nerve, and was cured. It is with pleasure I recommend this wonderful remedy for nervous troubles."

"I had been a great sufferer from brain headache until I took about four months ago, to use Dr. Miles' Restorative Nerve and Pills, since which time I have not had a headache. Several of my friends are using Dr. Miles' Restorative Nerve, and I do, to be sure that you claim for them."—Mrs. Mary Kiser, Lorain, Ohio.

W. H. Capwell, editor Tribune, Plymouth, Pa., writes: "My wife was cured of sick headache of many years' standing by the use of Dr. Miles' Restorative Nerve. She has recommended it to her friends, and they all praise it highly."

Dr. Miles' Restorative Nerve is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It is positively free from opium or dangerous drugs. Dr. Miles' Pills, 50 cents, 25 cents. Free book at druggists, or by mail.

BOSTON LETTER.

Our Weekly News From New
England's Great Metropolis.

Boston, Nov. 27, 1893.
Eastern patrons of the Boston & Maine R.
R. now have the pleasure of setting foot on the
second sets of the Hub in a railway station
which when completed will be one of the finest
in the country. Last week the Boston termi-
nus of the Eastern Division of the R. & M. R. R.
was transferred to the new union station, and
the night Pullman had the honor of being the
first train to roll into the new structure. Only
the Eastern Division will make use of it at
present. The entrances to the station, which
are lost in number, are of polished oak and
form the lower part of an archway, of which
the top is stained glass. Passing through the
door one enters the main waiting room which
is forty feet high, the ceiling supported by
twelve pillars fluted in bronze and gold. On
the right of the entrance are the women's toilet
rooms, while on the left are the men's toilet
rooms. These contain the latest sanitary im-
provements, and the walls, floors, and parti-
