## A Blessing To Suffering Humanity.

### DR. DAMON'S

Painless Method for Extracting Teeth and Roots and for Filling Sensitive Teeth.

Nearly 7,000 Extracted at His Office the Last Two Years.

No Pain, Danger or Bad Results, Simply applied to the Gums or Tooth.

Below I give a few testimonials from well known people in this vicinity. If space would permit we would add thousands but have room for only a few:

### A Word from Capt. Chas. C. Clover with Sherman, Clover & Co.

This is to certify that I have had 25 teeth extracted at Dr. Damon's office by his painless method and experienced no pain or inconvenience what ever; and can recommend him to anyone who needs his services.

CHAS. C. CLOVER.  
Rockport, Me.

Having several times seen the name of the local Anesthetist for the painless extraction of teeth by Dr. J. H. Damon of Rockland I am satisfied that the teeth are actually taken out without pain and with no bad after effects, and can heartily recommend it to any who need teeth extracted.

H. E. ANNOTT, M. D.  
Warren, Me.

This is to certify that I had out three teeth, by use of Dr. Damon's method without pain. It is a grand success.

BENJ. NEWBERT.  
North Haven.

See what Dr. Jordan says. I would advise all my friends having difficult teeth to go to Dr. J. H. Damon of Rockland, Me. He will extract the most difficult teeth without pain, to a certainty, and all his work is first class.

J. A. JORDAN, M. D.  
South Warren.

I have had nine teeth extracted without the least pain by Dr. Damon's method applied to the gums and would advise any one to try it before trying either of the other methods.

YOUNG, CHARLES B. FRENCH.  
All branches of dentistry performed with the greatest care, filling and preserving the natural teeth. Artificial teeth inserted on all of the best material. Crown Bridge work finely executed. Either and Gas always on hand and administered when advisable.

J. H. DAMON, Dentist.  
Office 308 Main St., over Brock's Electric Car Station.

I also have with me Dr. Nathan late of Harvard Dental College, as assistant.

## ANOTHER FINE SCHOONER

Is to be Launched This Week from Bean's Yard, Camden.

The Mary Manning is Her Name and She is a Beauty—Something About Her Construction and the Ceremonies Attendant Upon the Launching—May Have Other Contracts

There will be launched from the yard of William Bean, shipbuilder, 11 M. Camden, on Thursday next, at 11:45 standard time, the four-masted schooner Mary Manning built for Capt. John Holmes of Waterville, N. J. Capt. Elias Burr of Silverton, N. J. will command her. The dimensions of the vessel are as follows: Length of keel, 100 feet; length over all, 220 feet; depth, 18 feet; depth of poop, 4 1/2.

This vessel is built of oak and hard pine and has a galley amidships. One great improvement, which is an invention of the builder, is an extension of the forward house deck to the foremast, a good arrangement as it protects the winches from storms and gives a chance to work the chains and windlass under deck. The J. Holmes Birlall, launched by Mr. Bean several weeks ago, and the Mary Manning are the only vessels with this improvement. Both of these vessels are built of the best material, by the best workmen whom Mr. Bean could procure.

They are furnished with the latest improvements and have secured the best class given to any vessel in the record of American and foreign shipping. Net tonnage, 1,172. Mr. Bean has been informed by Capt. Amos Birlall, Jr., who commands the J. Holmes Birlall, that it has become known that his vessel is a little superior to any other, not only in the construction of the hull but in the finish and furniture in the after cabin, and he is fairly besieged when in port by ladies and gentlemen requesting permission to inspect his accommodations.

An innovation at the launching of the J. Holmes Birlall was the strewing of flowers from the bow by four young ladies dressed in white, this in place of the old custom of breaking the bottle. At the launching of the Mary Manning it has been decided to have the same beautiful christening of flowers. As the low leaves the ways, she will be christened by four young ladies dropping flowers into the water. Mr. Bean, as well as the captain and owners, are much pleased with the change from bottles to flowers as their experience with bottles on board vessels has been very disagreeable.

The Manning is owned by Mr. Bean and William Pascal of Camden, Capt. John Holmes and Mr. Manning of New York.

All through the construction of the Birlall and Manning Mr. Bean has employed no clerks, but kept all the accounts, bought all the materials and employed the workmen. It has kept him very busy.

He is talking with other parties regarding new contracts and the prospect is favorable that one or two large schooners will grow in Mr. Bean's shipyard next season.

## CEMETERY IMPROVEMENT.

An Important Step in the Right Direction—Let Us Beautify the Home of the Dead!

The Acorn Cemetery Association has been organized with the following officers: President, Mayor F. C. Knight; Directors, W. T. (Robertson) and J. Fred Merrill. These officers are to select the secretary and treasurer. The association has some 50 members. Every member pays \$1 to join and the money thus raised is to be used to beautify the cemetery. The association plans to raise money in other ways. All owners of lots are cordially invited to join and assist in the good work. This is a private cemetery and has no assistance from the city.

See View Cemetery is the city graveyard and as such has help from the municipality. The sum of \$50.00 has been spent this fall in removing unsightly bushes, raising the fence and making other improvements, and there are to be additional expenditures made.

For the first time for nine years, through the instrumentality of Mayor Knight, the Cemetery Board has been organized as provided in the city charter. This board consists of the mayor, overseers of the poor and city treasurer.

In line with the movement to beautify Acorn Cemetery, the lot owners in Sea View Cemetery should follow the good example thus set and organize an association to co-operate with the Cemetery Board.

Rockland's cemetery can be made beautiful and attractive, and now is the time to get matters so arranged that the work of betterment can begin in the spring.

## CHARITABLE ASSOCIATION.

Condition of Finance and Election of Officers—Plans for the Coming Winter

The annual meeting of the Rockland Charitable Association was held Wednesday, at two p. m., in the probate office court-house.

The report of Treasurer E. K. Gould showed cash expenditures the past season to the amount of \$291.60 in money drawn from the treasury. This does not include other money contributed to the committees in the various wards and an immense amount of clothing and goods given away. For example, in ward 3 garments to the number of 138 were distributed. The money used last year was collected as follows: Miss Lucy Farwell, \$99.25; Mrs. G. M. Brainerd, \$57; Mrs. A. Howes, \$20.50; Mrs. E. S. Farwell, \$15.75; Mrs. G. M. Hicks, \$15; Mrs. R. C. Hall, \$14.25; Mrs. Henry Pearson, \$6.50.

The following officers were elected: President, L. F. Sturtevant; Vice President, Mrs. Mary A. C. Norton; Secretary, Mrs. T. A. Wentworth; Treasurer, E. K. Gould. Executive Committee—Ward 1, Mrs. Abbie Hall and Mrs. G. M. Hicks; Ward 2, Mrs. A. Howes; Ward 3, Miss C. M. Farwell, Mrs. W. S. White, J. D. May; Ward 4, Mrs. G. M. Brainerd, Miss Emma Litchfield, Rev. J. S. Moody; Ward 5, Mrs. Henry Pearson, Mrs. J. R. Stewart, R. C. Hall; Ward 6, Mrs. E. S. Farwell. The chairman of the various ward committees appoint their own assistants, and some of these appointments have been made.

Collectors will be appointed later, who will canvass the city for contributions. Plans have been made for more systematic work the coming season than ever before.

## OLD MUSICIAN.

Man Who Has Been Prominent in Musical Matters in This Part of Eastern Maine.

"What are you doing in musical matters now?" queried a C.-G. reporter the other day of Willard Hart of South Union.

"Well, I'm thinking of having a singing school or two," answered Mr. Hart, and as Mr. Hart is 76 years old the answer was in a measure startling.

Willard Hart of Union is one of the musical pioneers of Eastern Maine. When he was twelve years of age he played violin in the choir of the old church, Union's first, which stood in the woods where the Free Church now stands. At that time, according to Mr. Hart, more people attended that one church than attend all the churches in Union today.

Well, to return to the choir, it seems that old Parson True bought an English bass viol and Marcus Gilmore learned to play it. Dr. Harding, Union's first physician, led the choir with the assistance of Major Gilmore, and after the bass viol found its way into the choir it was thought necessary to have a violin, so the Hart youngster, scared almost to death, was triumphantly installed with his little fiddle alongside Marcus Gilmore and his big fiddle, and for years afterwards played there and—to digress again—Mr. Hart now has in his possession that old bass viol which Marcus Gilmore in years ago helped out the last time. But the older old minor melodies from Billings' books.

## CLOSE PREDICTION.

Didn't Wait Until After Election and Then Say "I Told You So," But Made His Estimates.

There was some considerable betting in Camden on the result of the elections. Several heavy wagers were made Monday night, preceding the ball play, at the rate of 3 to 1 in favor of Republican success in the city centers. Among the predictions made we have failed to find any as close as the following, made by Col. C. H. Lewis in writing at the Bay View Hotel in evening, and placed in Clerk Thurston's hands:

"I will wager three to one that Morton will be elected governor of New York by 70,000, but I predict that he will have from 90,000 to 100,000. Greenleigh will have 55,000 majority. Strong will be elected Mayor of New York City by 35,000 majority. Buzell will carry New Hampshire by 5,000. McKinley will have 55,000. We will gain seven Congressmen in New York. In Massachusetts, and the next House will be Republican."

## NEW DEPARTURE.

Instituted in School Government by Rockland's New High School Principal.

Principal Landes of the High School has instituted a new system in his grade, the workings of which will be watched by the other teachers with interest, as it is very much of a departure from the methods used in past years. Hereafter pupils whose rank in studies and deportment is good will be dismissed at recess if his or her recitations have been completed at that time. Those who have no recitations until after the recess period do not come to school until that time.

The effect of this would seem to be the lessening of the number of pupils in attendance at one time and would give the teachers a better opportunity to attend to their classes. Then again the time which would be spent in a more or less vented schoolroom could be employed by the pupils in studying at home.

## LOOKING WELL.

Everything Favorable to the New Enterprise in Camden Real Estate—Fine Cottages.

Col. C. H. Lewis has returned from New Hampshire and reports all things favorable connected with his development of the handsome properties about Camden village. Several capitalists have been here and seen the properties and were more than satisfied. Others were to have been in Camden last week, but Col. Lewis was a little under the weather and telegraphed them to postpone their visit.

Among other things to be done will be the organization of a heavily capitalized building company which will erect a number of fine summer houses. From 15 to 20 handsome cottages, costing from \$8,000 to \$20,000 each, will probably be erected there next season.

Camden promises to be a good deal in evidence another season.

## LOCAL LACONICS.

Dr. R. B. Miller, who has been somewhat severely ill, is improving.

Mrs. E. D. Day of Rochester, Mass., is the guest of her brother, Dr. R. B. Miller.

Fred Ames, the crockery drummer, was in town last week with six big trunks.

Tilson wharf addition will be ready for the teamsters and their little loads of rock in about a month.

Joseph Farwell, esq., of Unity is visiting in the city—N. Jones returned Thursday from a week in Bangor.

Olson Wilson of Portland, U. S. Bank examiner, inspected the Rockland National, Thursday, and found everything in ship-shape order.

Mrs. Louise Farlish and Mrs. Carrie B. Shaw both have clavers at their homes, in which they teach the new method of piano playing.

The bridge between Farwell Opera House and the Safford building is being rebuilt, jacking by the use of the old plank, repairs came none too soon.

The class of '95, K. H. S., has ordered class pins of Daniels of Boston. It is a dainty creation in the shape of a flag of silver with blue green facing and silver givings. The class colors are green and white.

"Rockland people carry lots of insurance." said a representative of an accident company, Thursday. "That man over there," pointing to a well known professional man, "draws four hundred dollars a week in case of accident."

The regular weekly meeting of the W. C. T. U. will be held next Friday, at 2:30 p. m., in the Y. M. C. A. parlor. It will be held in the interest of Woman Suffrage, and Mrs. R. C. Hall will present a paper. All interested are invited to attend.

It may be interesting and not generally known that Rev. W. S. Roberts, D. D., of Burlington, Vt., formerly pastor of the First Baptist Church, in this city, married John Philip Sousa and wife in Philadelphia, when Dr. Roberts was located there.

Coughlin & McNamara have completed their contract to build the ledge in the South Main street sewer. They have been at work four months, and have blown out nearly 600 feet of rock, and have laid the ledge at the bottom of a 13-foot trench. There seems to be nothing now to bar the progress of the sewer south to Crescent but plain, everyday dirt.

Good news for the patrons of the Rockland, Thompson & Camden street railway. On and after Nov. 15 the company will issue no more transfers but will sell 11 tickets for 50 cents. These tickets can be bought on the cars of any conductor. The public will appreciate this reduction in rates. Freight business on the electric road is booming. Freight cars will leave Camden at 2:30 every afternoon for the accommodation of the people of Rockport and Camden.

H. I. Hix has been confined to the house by illness the past two weeks, but is improved. Miss Carrie Brainerd left yesterday for Bangor, where she visits several weeks.—E. H. Lawry and wife are visiting in Boston and other places.—Dr. Seth E. Benson and wife, who came here to attend the funeral of Mrs. King, are the guests during their stay of Mr. and Mrs. F. R. Spear.—Mrs. T. W. Hix has gone to Georgia where she spends the winter with her husband—Chester Farham has returned to Portland. He has been visiting at Mr. N. Parker's.

## QUIETLY WED.

The Scranton, Penn., Truth of Nov. 3, contains the following: "Philip F. King of this city and Miss Ellen E. Crawford were married by Rev. Father O'Reilly of St. Peter's Cathedral at 6:30 Thursday evening. Mr. Charles R. Heinemann was groomsmen and Miss Maggie O'Malley bride-maid. The bride was escorted by Mr. J. D. Chester. A wedding supper was served. Mr. and Mrs. King are at home at 223 Wyoming avenue, where they have begun housekeeping."

Mrs. King is a charming young lady who has been in Rockland at her birth-place. She was for several years one of the C.-G.'s talented composers, but has more recently been in connection with the Boston Budget. This C.-G. and his entire force sends the heartiest congratulations.

## SAFE FODDER.

The following good story is told of an old Thomaston resident. His cow had gotten into a neighbor's cabbage patch and feasted on the fruit. The neighbor of course was irate, and called upon Mr. Carney in a very angry tone, saying: "Your cow has eaten a dozen of my green cabbages."

"Don't worry, my friend, don't worry!" replied Carney; "who ever heard of cabbages hurting a cow?"

## UNDERTONES.

The Weight Philharmonic Society had a rehearsal Thursday evening. The door was promptly closed at 7:30, and after the rehearsal of the first selection it was opened and the ladies concertants admitted. Several prominent members were caught.

Sousa will give a reception to band men after the concert, Nov. 23.

## DOING WELL.

Dr. Freeland Taylor, son of the late Cyrus Taylor of Hope and nephew of Marcellus Taylor, is a prominent physician at Pueblo, Colo., and has served very efficiently for his county as Superintendent of Education in his county.

The baseball situation in this State is much more interesting than it has been for years. Bangor is afraid that she is to be excluded from the New England League while Lewiston and Portland fear that they might be kept out of the game on Maine talent with a view to forming a State League. Local sports agree that a State League would be very interesting but they cannot figure the cost except to their detriment. It is estimated that it would mean a monthly expense of \$1,400 to run a team in such a league. Rockland will probably do the same as she did last year, and strengthen by Wakefield, County, Central and Toadhook go on the diamond to beat all comers.

## A FEW FRATERNITY FACTS

Transactions Among Secret Societies—Warren Installation.

Order of the Secret Monitor—Conclave To Be Established in This City—Masonic Hall, Thursday Evening, to Consider the Advantages of Applying for a Charter for the Conclave of the Order of the Secret Monitor.

From corresponding with some of the officers of the Grand Conclave in England it is ascertained that they have two more degrees than is known in this country and that they recognize the one of the grand figures of the Wagner music-drama or as a warbler of the pyrotechnic trills and melodies of the Italian school. Whether in grand opera, oratorio or upon the concert stage, she commutes the situation and conquers her audiences with her initial phrase.

Only three cities in the state are favored by Sousa with concerts—Rockland, Portland and Lewiston. Brunswick and Bath get matinees. Friday afternoon, Nov. 23, the organization appears in the Bath Alameda, and then comes to Rockland by special train for the evening concert.

If you have goods to sell and wish people to know it, an advertisement in THE C.-G. will show it.

Secretary Cotton is doing good work with the local Y. M. C. A., infusing a world of life, animation and hustle into its various departments. This is one of the city's most important and beneficent institutions, and should be heartily and cordially backed by all citizens.

The Rockland Commercial College evening school has a good attendance. The young men of the city shouldn't neglect this opportunity of improving themselves. No better or more modern instruction can be found anywhere, and the terms are reasonable in the extreme.

## IN DEMAND.

Elmer I. Thomas, the Lewiston architect, was in the city Wednesday, en route for Vinalhaven. Mr. Thomas will have a great many memorials of his rare skill in this capacity of the state if he keeps on. The Rockland Syndicate Block and new school-house are his architectural handiwork. Camden's beautiful opera house looks to him as its designer, while on Vinalhaven the new memorial building and new school-house, now in process of erection, are the product of his fertile mind.

Mr. Thomas is an architectural architect who can architect.

## THE ROBIN HOODS.

The opera company, in which Miss Maud Ulmer is leading lady, which gave Rockland people such a treat, is having a splendid business. One evening last week the company played to a \$700 house. Last evening the company was in Yonkers, N. Y., and tonight in Paterson, N. J. They are also rehearsing the "Maid of Plymouth" in which Miss Ulmer has the title role.

She will join the Bostonians early in December.

## CITY CHAT.

And the public library continues to grow as a result of thoughtful gifts of friends and the judicious purchases of Col. Lockwood. There are now about 1200 volumes on the shelves. The library will probably open with 2000 books. Recent acquisitions are sixteen volumes placed in the library in trust by W. C. Prince, esq., of Thomaston, which includes several very valuable books.

When Sousa gets here, Nov. 23, the people will have an opportunity of helping the library and of hearing a magnificent concert. Sousa brings 50 players, including several world-renowned soloists, and Mme. Francesca Guthrie-Moyer, the so-called "soprano queen." One of the best known composers of the age says of her: "She is equally at home as one of the grand figures of the Wagner music-drama or as a warbler of the pyrotechnic trills and melodies of the Italian school. Whether in grand opera, oratorio or upon the concert stage, she commutes the situation and conquers her audiences with her initial phrase."

Capt. Otis Ingraham of the City of Bangor is home for his winter vacation, and the fall captain is welcome to the home circle. Forty round trips, eighty passages, is the record of the handsome new boat for the year, and the number of passengers carried is legion. The boat has been very popular and the fact that Capt. Otis was her presiding genius did not by any means detract from her popularity.

And it is with unmitigated, unadulterated and so forth satisfaction THE C.-G. notes the real estate and summer cottage boom at Bay Point. Many residents of this are going to see the handsome sloping acres of the Point thickly dotted with elegant summer houses. Rockland will try and bear it resignedly, for it will mean many a dollar for many an honest Rockland tradesman.

A New York insurance man, in town last week, said: "When I was in this city, I learned that I was going as far east as Rockland they felt quite perturbed and worried to think of my going way down into the woods on the verge of winter. But you have one of the nicest little cities in the world. You have stores, you have large assortments of goods, you have all modern conveniences and you have a people wonderfully well informed. There's a man of unerring judgment!"

## GUESSING CONTEST.

The Yankee guessing contest which was started in THE COURIER-GAZETTE one week ago Tuesday closed Saturday at noon, after a most interesting season. From the time of the announcement of the contest until the close, guess coupons flooded the office from all over the county, state and nation. The total number of guesses was 954. These guesses came from all sections of the county and country and ranged from estimates of 7 seeds to that of 1209, the latter being made by a New York City reader of THE C. G. whose large estimate was probably influenced by the big Republican majorities in New York.

Saturday afternoon Fernald & Blethen counted the seeds in the big pumpkin, and lo! and behold there were 495, which are on exhibition in their window.

The successful guesser is Jesse Wilson of Thomaston who guessed 493. Stillman Choate of Rockland guessed 497, but Mr. Wilson's guess was received two days earlier, and according to the terms of the contest the first nearest guess wins the prize. Capt. Wilson gets the pair of Fernald & Blethen's Storm King rubber boots.

Other close guesses were the following: E. O. Russell, Rockland, 492; Lizzie Fuller of St. George, Phineas Harris of Martinsville and Fred Huntley of Rockland 500 each.

THE C. G. will institute another guessing contest next Tuesday.

Permit us to say, Brother Fuller, that Saturday's Tribune was exceptionally fine. The "animal story" is the brightest thing yet!

Gov. Cleaves and President Cleveland agree on one thing. They've appointed the same day, Thursday, Nov. 29, for Thanksgiving.

New England's Congressional delegation will be entirely Republican with one exception, Congressman Fitzgerald of Massachusetts.

The Opinion of last week publishes an item regarding the Sunday School scholar and the fishermen disciples, credited to the Lewiston Journal. Our neighbor might have got it first hand from THE C. G. of two weeks ago.

Shipbuilder H. M. Bean of Camden has done a pretty thing in neglecting the red bottle breaking christening ceremony to innocuous desuetude, and substituting in its place a beautiful floral christening. Mr. Bean is a strong temperance man and thinks that liquor and vessels and captains should be strangers.

## SECRET SOCIETIES.

Interesting Disclosures from the Mysterious Haunt of the Gay and Frisky Goat.

Claremont Commandery, K. T., had a special meeting last night for work in the Red Cross degree. At the next regular convocation occurs the annual election of officers.

Aurora Lodge, F. & A. M., received one application for membership Wednesday night, and worked the Fellowship degree on William Thurston.

Golden Rod Rebekah Degree Lodge of Appleton has invited Aurora Lodge of Belfast to visit them on the evening of Nov. 14 and confer the degree in full form by the degree team of Aurora. About 35 visitors are expected, and as Golden Rod Lodge has nearly 20 candidates to initiate, great interest is felt in the visit. Golden Rod Lodge will soon organize a degree team and commence drilling. The lodge is officered as follows: N. G., Mrs. D. H. Mansfield; V. G., Mrs. Will Newberry; Secretary, H. C. Pease; Conductor, Mrs. N. S. Gushue; Warden, Mrs. Fannie Luce; Chaplain, Mrs. Helen Keene.

## WON'T BUY BEANS.

Coffee Drinkers Prefer their own

Drinks to a Pseudo One.

Once there was a time, says a well-known New York paper, when no one would buy tea or coffee packed in sealed packages; but steady duplication of the bulk packed goods has led to a change in sentiment, and now all careful persons buy the package teas and coffees.

## WONDERFUL PRECISION.

Scribe Ceases to Wonder That the Boston & Bangor Company Has So Few Accidents.

"Come up into the pilot house and get a better view as we pass along!" says Capt. Sartell of the Mt. Desert, addressing a C. G. scribe, who with a companion was standing near the bow of the boat just before she left Bar Harbor on a recent trip. We had watched the horses come on board to the number of 18 on their way back to New York, several carriages and a large lot of other freight. We had said good bye to Des. Morse, the genial agent of the Mt. Desert at Bar Harbor, and were now gazing on the October tinted trees that cover the mountains surrounding the great Summer Resort.

To the pilot house we went and seated in easy chairs watched the panorama. The pilot stood close by the man at the wheel, watching the course of the steamer, a journal open before him in which he had noted the time of leaving the dock at Bar Harbor, and ever and anon changing the course of the steamer.

"West by South an' a half South" says the pilot.

"West by South an' a half South" says the man at the wheel.

Now we are approaching N. E. Harbor, the pilot takes the wheel and the captain pulls the cord over his head and blows the whistle twice, then one pull at the bell that communicates with the engine room and the speed of the boat is slackened, then another pull and the wheels stop revolving, then two pulls and the wheels turn back and when the steamer touches the dock, which is done with scarcely a jar, the pilot notes the time in the journal before him.

"How much does she vary in time between the different points as you pass back and forth?" we ask the pilot.

From a minute to a minute and a half!" he answers.

The steamer has come to the dock like a thing of life, scarcely a word being spoken; and the freight is quickly transferred to the dock and the Rockland freight is quickly taken in, and the captain says "all aboard!" and away we go to make other landings on the route to Rockland.

We have wondered why the boats of the B. & B. S. Co. have so few accidents, but after noting the precision with which the Mt. Desert is run we have ceased to wonder.

## CENTRAL LABOR UNION.

Permanent Organization Effected Saturday Night. Able Officers Chosen.

Representatives from the labor unions of this city and vicinity met Saturday evening and formed a permanent organization by electing the following officers: President, A. L. Carleton of the Lime Burners and Trimmers Union; Vice President, I. A. Trueworthy of the Painters and Decorators Union; Secretary, J. N. Farnham of the Carpenters and Joiners Union; Treasurer, H. C. Clark of the Cigar Makers Union; Guard, Horace Bucklin of the Lime Burners and Trimmers Union. About fifty were in attendance and were enthusiastic concerning the Central organization which now has every assurance of a prosperous and useful existence.

Take care of sick children with Colds now. Balsam of Wintergreen is a doctor right at hand.

## SOCIETY SALAD.

Several Nice Tea Parties and Card Gatherings—Several Prospective Weddings.

MISS Anne Rice gave a 6 o'clock supper at her home Middle street Wednesday. The seven guests as well as the hostess are all engaged. The R. S. C. met with Miss Cassie Cushman Friday night. Miss Esie, daughter of Chas. E. Hicknell and wife, charmingly entertained a score or more young friends Wednesday evening, her 10th birthday. Miss Martha Hills entertained the Half-Past-Six Club Monday evening of last week. Mr. and Mrs. J. S. Willoughby entertained at whist Thursday night, the guests of honor being Senator W. P. Frye and wife. Delicious lunch served. Miss Lola Messer gave a whist party last Tuesday evening in honor of her guests, J. E. Hathaway and Frank Pickering of Salem. Miss Lela Mank of this city and Daniel Munroe of Springfield are to be married at the Methodist church tomorrow.

Master Fred, son of Mr. and Mrs. Joseph Veazie, was pleasantly surprised at his home on Orange street Friday evening. The guests were as follows: Masters Charlie Littlefield, Willie Frohock, Frank Pierce, Mont Packard, Frank Pratt and Cyrus Hills; Misses Winnie Spear, Cathie Mugridge, Margaret Mitchell, Jennie Allen, Mary Hitchcock, Eva Pinkham, Clara Leighton and Nellie Winslow. They played games and enjoyed a nice lunch.

## FRATERNITY FACTS.

Hamilton Lodge of Good Templars is holding interesting meetings. Two candidates joined Saturday evening and two applications for membership were received. An entertainment is being arranged for, which will soon be presented. The members are planning to generally attend the District Lodge tomorrow at West Rockport. The following delegates will represent the lodge: A. C. Hamilton, W. A. Kipley, C. J. Gregory, Sadie Larabee, Emily Dolham, E. A. Mank, Delle Higgins, Lattie E. Gregory, Grace Flanders, Helen Macomber, Annie Ladd, J. N. Farnham, Oscar Duncan, E. R. Davis.

After due consideration the local union of Carpenters and Joiners of this city has fixed the admission fee at \$2. Important meetings are being held every week. At the next meeting which occurs on Wednesday evening business of special importance to every member is to be considered. Following the meeting the members have arranged to serve a clam stew to those in attendance. The following members have been chosen to represent the Union in the Knox County Central Labor Union: R. W. Sylvester, C. W. Field, W. O. Rogers, A. Haylen and J. N. Farnham.

## FORMALLY OPENED.

The new Searport House, built by William Grinnell of Camden, was formally opened Thursday. A large party attended from Camden. Among them were Mr. Grinnell, Postmaster Isaac Combs, J. H. Gould, Frank J. Willey, George Crane and Will Huse. Dinner was served in the evening followed by a dance. The house was completed Nov. 1, and has all the modern improvements, artesian water, bath room, electric bells, etc.

## THE SPORTS.

What is Going on in Pugilist and Football Circles—Some Coming Matches.

Announcement is made in another column of the sporting exhibition to be held in the skating rink Thursday night. Jack Purke who is matched to fight Joe Donovan on his rounds, as the principal event, is in Rockport training for the event under the direction of Jack Kelley. Purke belongs in Boston and has successfully participated in several noteworthy "scrapes." He is particularly anxious to get the better of Donovan as it will greatly influence his backing in a prospective match with the Australian Tom Tracey. Whether he will or no remains to be seen.

A reporter of THE C. G. visited Donovan's training quarters on Park street Saturday afternoon and was just in time to see the closing round-off of some terrible bag punching. Every day for a number of months past, Joe has indulged in this sort of exercise and if there is anyone in this section of the state who can punch the bag harder or more skillfully than Joe Donovan, the writer will walk some distance to see it done. Six rounds of three minutes each is devoted to this practice and not only are all the muscles of the arm and chest kept in full play but free perspiration brings down a superfluous weight. The feature of Donovan's practice however is skipping the rope. By which, school girl exercise is not meant although the movements are practically the same. When John L. Sullivan was training for the Klean fight it was thought a great feat for him to skip the rope 1000 times without stopping. Donovan has a record at the present time of 2400 and did it a thousand times without a break, in the reporter's presence. The two exercises mentioned show powerful strength and wonderful endurance, both of which are possessed by Donovan. Sunday he took a little walk over Dodge's Mountain. He also is anxious to win the decision Thursday night, as he expects to meet O'Brien shortly.

Football received a damper by last week's snowfall although we didn't suppose it possible for anything in the catalogue of the elements to interfere with that game. A team from Bowdoin college may play here tomorrow and the Waterville High School team is booked for Saturday. The boys must have and deserve support.

## COMMANDER CARVER.

Edwin Libby Post, G. A. R., again announces the candidacy of Col. I. D. Carver for Department Commander of Maine, and this time they are going into the light to win. At the last encampment held in Bangor Col. Carver's name was first presented and to the astonishment of nearly everybody got a vote which took nearly three figures to express. His opponents in the field this year are Major Green of Portland, whom York county supported the last time, and Col. W. T. Eustis of Dixfield.

## THE STEAMBOATS.

A. H. Hanscom, purser; Capt. Howard Arey, pilot; Frank Price, freight clerk and Cyrus Higgins, baggage master of the City of Bangor have been transferred to the Penobscot. Fred W. Pote who has been steward will resume his duties as agent in Belfast. Mrs. Pote who has been matron on the boat will return to her home in that city.

## FROM APPLETON

Comes a Very Newsy Letter Which Has to Do  
With General Improvements and the Like.

E. D. Gushue is painting his residence.  
Lafayette Worthing is repairing his house.  
The Grange Hall has been extensively re-  
paired.

Nathan Hawkes has been repairing his  
buildings.

J. G. Wentworth has just completed a  
first-class henry.

G. H. Page now has one of the prettiest  
stables in town.

Old Fellows Hall has just been painted in  
colors and presents a very attractive ap-  
pearance.

J. T. Peabody and L. M. Gushue have  
greatly improved their grounds at Gushue's  
Corner.

Appleton really has a move on and only  
needs a railroad to make it one of the busiest  
towns of Maine.

Mrs. May Ulmer's cottage is completed.  
It is a nice home and the work was done  
under the supervision of F. L. Davidson.

S. J. Gushue is going to make extensive  
repairs on his Messer Block. He is also  
making additions to his mill at Jurekville.

The Union Church is being repaired and  
painted and the interior embellished. The  
citizens are contributing liberally for the  
good work.

Golden Rod Lodge, Daughters of Rehekah  
in Oswego, went to city work and likes his  
team from Belfast are expected to initiate some  
25 members into the Lodge soon.

Mrs. W. A. Pease has been painting her  
Appleton residence. It is occupied by Dr.  
Strickland, formerly of Auburn. He is also  
making additions to his mill at Jurekville.

The doctor is giving excellent satisfaction in his practice  
and is a good fellow.

## IN WARREN.

Barlow Wetherbee arrived safe and sound  
in Oswego, went to city work and likes his  
new position first-rate.

The Cong'l Ladies Circle served a nice dinner  
in Town Hall, Friday noon, in which  
baked beans played the leading part.

## CAMDEN, THE ENTERPRISING.

light of day. All of Camden's working men

should have shares in this home building,

and thereby lay the foundations for a house and

fortune.

Four new looms were received last week

for Mt. Hilly mill and one new one was put

into Megunticook mill one or two days ago.

Knowlton Iron are hustling on the suit of

blocks for the new vessel being built in Thom-

aston by Dunn & Elliott. It is a very fine

suit.

There are one or two fine bargains for

prospective house buyers in Camden. For

example, the church house on High street, a

magnificent place, can be bought at a most

satisfactory price. Camden really can but

prove a paying investment, and there is no

more doubt about a handsome advance in the

value of Camden prospects than there is of

the fact that THE C. G. is the best advertising

medium in Eastern Maine.

The article in this paper two weeks ago re-

garding the operations of Col. C. H. Lewis

and the development of his properties above

the village has materially brightened the real

estate situation, and inquiries are even now

being made as to the value of certain hold-

ings. The article was widely copied in New

York, Massachusetts and Philadelphia papers,

while it went the grand rounds of the Maine

press.

The oakum mill with a crew of six is busily

turning out the high grade oakum that fully

fills the sheds of many a gallant oak-

prower. It will shut down in about a month

says Mr. Alden.

Money is a great deal easier than it was

a few months ago, and there's plenty to be had

on good securities at six per cent.

Edw. Prince is recovering from his injuries

sustained by being thrown from his oyster

boat Sunday last week. A couple of

deep gashes were cut in his pate.

Mothers.

"One good mother is worth a hundred

schoolmasters," said George Herbert. Men

are what their mothers make them. But if

the mothers are peevish and irritable, through

irregularities, "female weakness," and kindred

ailments, they find no pleasure, no beauty in

the care of their babies. All effort is torture.

For all such, who feel weighed to the earth

with "weaknesses" peculiar to their sex, try

Dr. Pierce's Favorite Prescription. They will

find the little ones a delight instead of a

torment.

To those about to become mothers it is a

priceless lesson. It lessens the pains and

perils of childbirth, shortens labor and pro-

motes the secretion of an abundance of nour-

ishment for the child.

SAVANNAH, GA.

MESSRS. LIPMAN BROS., Savannah, Ga.

DEAR SIR—I would like to add my testi-

mony to the almost miraculous effect of P. P. P.

in the case of Mary Ingraham, a woman living

in my place; she had a constant cough, sore

throat, debility, etc., and was emaciated to a

degree that she was unable to get out of bed,

unable, being given up by physicians; she

has taken the famous old Blood-Medicines

without the least effect, until being put

under the P. P. P., she immediately began to

improve and is now in as good health as ever

in town today. It lessens the pains and

perils of childbirth, shortens labor and pro-

motes the secretion of an abundance of nour-

ishment for the child.

Yours truly,

are always due to digestive disturbances of some sort. Some part of the digestive system is failing to do its work. The stomach is sensitive and inactive. The digestive fluids are insufficient in quantity. The bowels are constipated and congested. The liver is torpid—the kidneys are not performing their functions. These conditions show themselves in headaches, biliousness, sour stomach, "heartburn," distension, flatulence, restlessness, debility, loss of appetite and flesh. They may arise from any of a thousand things. They can be perfectly and permanently cured by one thing—**LIVURA**.

Mrs. J. M. Smith, of Nashville, Tenn., says: "Ever since I could remember I have suffered with sick headaches. For years I tried out and ran down. LIVURA has cured me." (See LIVURA from your druggist. Costs 25¢. For Extra, Pimples, Itch, Eruptions, Etc., use LIVURA OINTMENT. Price, 50¢. Prepared by LIVURA MANUFACTURING CO., Nashville, Tenn., and New York, N.Y.)

Sunday was a fine and pleasant here. Looked more like spring than it did earlier in the week when we had the great snowstorm. The snowstorm of Monday night and Tuesday was a whizzer as your scribbles, who was out most of Tuesday forenoon collecting news for THE C. G., can testify. We noticed drifts to the depth of 4 feet, also that some farmers hadn't dug their potatoes, and that some orchards were not gathered and that everything was pretty well snowed under. About 12 inches fell here—Peter Lenfest lost a valuable three-year-old steer by disease Tuesday—Angie Collins has gone to Appleton to stop the winter with her grandmother, Mrs. Boynton.

Preaching by Rev. W. E. Gaskin, text, "Ho! every man that thirsteth come ye to the waters," etc. In the sermon he mentioned particularly how broad the call to all to come drink and eat, the one which left out that all felt thirsty at times and all felt hungry at times and that was the time to come and be saved. The sermon was very interesting.

Harvey S. Hall has been in the west for the past few weeks visiting his son Thurston Hall, who resides there. It is reported that while there he has been delivering some of his political speeches. Judging from the recent elections in that section they must have had a great influence on the voters there. Harvey said when he went away he would fix them all O. K.

Some talk has been made here recently with regard to religious services being held in the schoolhouses. The districts formerly had charge of the school buildings, but at the present they are owned by the town and under the supervision of the school committee. The school-house in the north west district was wanted by the people there for Sunday school and for preaching.

The school committee felt it to be their duty to consent to the above and did so. They met a few weeks ago to hold a meeting, and not finishing the party that had it, they went in the windows and broke the lock that was on the door. Recently when the pastor went to hold a meeting, they found a notice on the door that the building was reserved for school purposes only. The school committee mean and want to do right in the matter. If the school-house above referred to can be used right and be entered in the proper way and be in charge of some responsible person, the school committee would be perfectly willing for the school-house in the north west district to be used for religious services.

Everything is cheap, flour, beef, pork, butter on the island, but we have to ante the same per week for board that we used to in the 70's.

Good creamery butter is worth 20 cents a pound, country 15 cents. The country butter is a little the stronger which makes it less price.

Two good hotels in town! Edwin Roberts is starting up the net business quite lively.

Steam heat is contemplated for Union Church, also for the Bowditch Co. store and Lane & Libby's.

Nov. 9, snow was six inches on a level, something never known in the history of the island.

Prof. Pierce says a first-class singing master will do well to come here and start a school. He must be way up on the tones.

The Central House has something new, a call bell. Albert is always ready for the call.

The party with a good gun to exchange for a good gold watch should mention it to W. W. Freeman.

William, why not go and get a mess of rabbits? You have plenty of teams.

Lead-pencils were selling at Himey's at a cent each, Thursday night, but H. scooped them in.

Who will be the lucky man to get the prize for the most appropriate name for the new lockup? Why not call it Finland?

No Democrats in town—only Mack and Bill!

Frank O. says the apple measured more than we represented it.

Who says two of our boys got put in the lockup at the city? We don't believe it!

Tuesday was a great day with the boys. No work, plenty of sport and all enjoyed it. Don't get a day off only when you can't get to the high school!

Hert Robbins took the first sleigh-ride of the season.

P. O. Randall got quite a fall from Memorial building. No bones were broken, but he got a black eye.

EMERY & CO.:  
Gentlemen:—Enclosed find check for \$2.18 as commission on account of F. G. P., wytopitlock, which we had paid to us today. Please cancel his account on your book, also that of G. L. E. which we received. This is good work, considering that it is less than a week since our bills were put into your hands.

Yours truly,  
F. T. HALL.

October 17, 1894.

To Whom it May Concern:  
We are free to state over our signature that we commenced doing business with Emery & Co. as collectors and can say they collect in a most satisfactory manner. We feel in giving a case to them we have looked after the payment of a bill which needs strict attention, without being troubled with the care of it in any way. It is the best agency we ever had to do with.

HINCKS & CO.

EMERY & CO.:  
Gentlemen:—Herewith we hand you notes and account for collection, as per memorandum attached, to the amount of \$2,618.44. Your prompt collection of our previous claims sent to you which other collection agencies said could not be collected, permits us to say that you are the most prompt and successful collectors we have ever tried, and we have tried them all. We shall give you all our business hereafter, and if any party wants to know you are, you are at liberty to refer them to us, as we like to aid enterprising firms like yours.

Yours, etc.,  
J. HAYDEN & CO.

## BOSTON LETTER.

Our Weekly News Notes From New England's Great Metropolis.

Boston, Nov. 12, 1894.  
The Bowdoin and Technology foot ball teams played a tie game at the South-end baseball grounds, Wednesday, with a score of 6-6. The field was covered with snow, and the cold caused a good many fumbles. Bowdoin has a strong team, and put up a good game. Technology, the best team for his team. Knowlton, the quarterback, tackled splendidly, and Hicks and Mitchell also made some brilliant plays.

Gov. Greenhalge left Boston Thursday for Maine, where he will spend about ten days at Castle Harmony Camp. He goes as the special guest of Gen. Davidson, of his staff, president of the Wild Goose Club. Chairman Winslow of the Republican state committee, and a few other personal friends accompanied the governor on his outing. The governor will return at the end of this week, but not sooner.

Capt. David H. Smith of this city returned from New London, Conn., last week where he attended the sale of the material saved from the wreck of the schooner Clara E. Colcord, which was wrecked some time since on Cornish shoal. Capt. Smith bought the entire lot of material, which included anchors, chains, sails, and running rigging the price paid being \$1000.

Personal.—F. W. Thurlow has been visiting friends in the city. Mr. E. W. Worthington spent Sunday in Boston. Mr. and Mrs. E. H. Lawry are visiting in Boston and vicinity. F. S. Sherman of Camden spent a few days here last week. Mrs. Edgar Stackpole of Thomaston is visiting her daughter, Mrs. James Dingley at Rockport. W. H. Bird was in town on business during the week. Mr. and Mrs. Edwin Smith of Thomaston are visiting in town. Mr. and Mrs. Mervyn Ap Rice have been spending a few days in town.

A few more playhouses like the new Castle Square Theatre and Boston will become celebrated as a city of beautiful theaters. Tonight the theatre will be open to public view and the new play "Capt. Paul" will be presented. Those who are fortunate to secure admission will surely unite in saying that this latest addition to Boston's long list of beautiful theaters is one of the finest, most comfortable and most elaborately furnished buildings devoted to theatrical purposes in America. Saturday night the officials of the state and municipal governments, and the representatives of the press of this and other cities were offered a private view of the splendors which are soon to become familiar to all who patronize the drama.

Eddie Foy takes his leave of Boston playgoers in this week's performance of "Off the Earth" at the Park theatre. The clever comedian has firmly established his reputation in this city by his peculiar methods, his humor and his cleverness as an interpreter of some of the most amusing songs ever introduced in a piece of this kind.

The extravaganza is by no means a one-part piece. Admirable opportunities are provided in the principal roles for Louis Montague, Sadie MacLennan, Kate Uart and Hallen Moty, whose ability as singers enables them to make the most of the musical score. The concerted music receives full justice from a large and well-drilled chorus, and the ballets, of which there are at least half a dozen, are skillfully danced by an efficient corps, headed by Signora Morando.

The fourth week of the successful production of "In Old Kentucky" at the Boston theatre will open tomorrow evening. The uniformly large audiences have been most generous in their approving reception of the play. "In Old Kentucky" is one of the greatest of the many Boston theatre successes and it could doubtless continue the attraction for the balance of the season did not other engagements compel its earlier withdrawal.

Respectfully,  
THOMPSON & COSMEY.  
P. S.—W. D. W. settled his account.

October 23, 1894.

MESSRS. EMERY & CO.:  
We are fully satisfied with your work for us. You have collected some bills that have been standing for a long time and that we considered worthless. We are fully satisfied that your methods are working well, and shall give you some more accounts as soon as we get time to look them up.

Respectfully,  
THOMPSON & COSMEY.  
P. S.—W. D. W. settled his account.

October 17, 1894.

MESSRS. EMERY & CO.:  
Please credit W. E. L. of Newburg with \$15.00. He says he will pay balance very soon. If he calls on you charge him 10 per cent. for collecting.

Respectfully,  
THOMPSON & COSMEY.

UNITY, Oct. 5, 1894.

NEALLY & CO.:  
Enclosed find \$5.00 on account. I will send the balance in a week or ten days. I should have sent it before if I could have got it.

Yours truly,  
JAS. S. B.

We have given him a receipt for same. We call this good work.

NEALLY & CO.

## CAMDEN.

Johnnie Knight received two cargoes of coal last week.  
G. F. Wentworth has moved into the Hall house, Chestnut street.

L. A. Page has been confined to the house a few days by sickness.  
There was not a very large attendance at the firemen's ball Saturday evening.

E. N. Duffey's house on Washington street has been improved by a coat of paint.  
Alf. Matz is next on the boards for the Opera House, Friday evening, Nov. 23.

Two of our sports went up on Mt. Arrow after the first snow last week and brought in eleven rabbits.

The building on the corner of Main street and Atlantic Avenue is to be moved in the foot of Mechanic street.

Camden mill shut down Saturday for repairs which were being made in the basement, new floors, posts etc.

The cheap clothing men packed their mammoth stock onto a team and moved out of town Saturday night at 12 o'clock.

M. C. Whitmore has extended his wharf fifteen feet, will put up a big coal shed and go into the wood and coal business.

Robert Bean is still located in Boulder, Colo. He likes there and is enjoying good health.—The Viking is doing a fine business.

C. B. Abbott auctioned the goods of the late G. A. Young, at Adams' stable, Saturday afternoon. They comprised a horse, harnesses, wagons, jiggers and household goods.

The future of Camden as a summer resort is brightening even in these hard times. A few capitalists have an opportunity to make money without risk, by buying up desirable sites that are not already taken.

Where is Mr. Wiggins with his coast of Maine summer resort property? It struck us as being a very appropriate poem in a few additional jingling lines on Camden and Mt. Megantic would not come amiss.

The anchor factory is now in busy operation, making two anchors for H. M. Bean's new schooner, one of 4000 pounds, the other of 3800 pounds.

C. H. Lewis, the originator and organizer of the Frenchman's Bay Land Company and the first man to see and profit by the facilities offered by Sorrento for a summer resort, has recently purchased about eight hundred acres at Camden, with a shore front of three miles and is developing it on a grand scale.—Ellisworth Enterprise.

William K. Kennard of this town is getting fame and we hope money through some of his devices.

This C. G. G. has already noticed his ingenious hose coupler. His patent clothes stick and twine cutter are now attracting attention. Several samples have been made and an effort is to be made to push their sale.

Camden's real estate can now be bought at a very reasonable price, but the indications are that before many months a decided direction will start and be of an increasing nature for several years. A stone cottage at Ogier's Hill for a Chicago gentleman is planned and the estimates are being made with building the same.

About 1000 tons of coal were discharged here the past week for J. & B. C. Adams and Johnson Knight, and the water front has been a very busy locality. Coal retails for 50 cents a ton less than the price of one year ago.

Stove and egg is now delivered for \$5.50 a ton. In larger lots it can be bought cheaper still.  
And the cheap clothing men left Rockland and came to Camden. And they advertised cut rates paid for all customers, and for the people of the town, from Lincolnville, and from Hope, and from Rockport, Rockland, Thomaston, and even from the isles of the sea.

And Camden's clothing dealers cut rates paid for all customers, and for the people of the town, from Lincolnville, and from Hope, and from Rockport, Rockland, Thomaston, and even from the isles of the sea.

J. Murray Howe of Boston, a noted summer resort real estate man dealing in coast property, was in Camden last week.

Miss Helen, in company with some Boston and Philadelphia friends, climbed to the top of Mt. Battie, where they were delighted with the beautiful surrounding scenery.

Mr. Howe is a gentleman who bought the greater part of Islesboro and built the hotel called the Islesboro Inn. This beautiful island resort just opposite Camden is in a flourishing condition and is patronized by the wealthy Philadelphia set who come early and remain late in the season.

Miss Marian Kelley closed a very successful term of school in the Cub District, Friday.—Miss Irene Marshall left on the Pullman, Friday evening, for her home in Auburn.—Miss Teresa Arzu is confined to the house by illness.—Miss Marian Kelley left today for a week's visit to Winterport.

Mrs. George Aluberts of Vinalhaven was at Mrs. A. R. Leadbetter's, Sunday.—Miss Hattie Derry returned Tuesday from a two weeks trip to Boston.—Edward S. Stearns is home from a visit to Cambridge, Mass.—Mrs. Cora Hannum of Brunswick is visiting her parents, Mr. and Mrs. Bean, Sea street.

Miss Jessie Paul has returned from a visit to the Hub.—Mr. and Mrs. George W. Achorn go to Boston this week.—Rev. Mr. Cousins of the Maine Missionary Society preached in the Congregational church Sunday.

Freights and Charters.

Reported From Brown & Co.'s Weekly Freight Circular.

The intervention of a holiday has to some extent abridged the list of charters effected this week. The situation, however, has not varied appreciably. If anything the market is hardly so firm in some of the off-shore departments, for while the spot supply of vessels most in favor continues small this factor is counteracted by a light demand, and also by liberal offerings of tonnage to arrive—namely of case petroleum and other long voyage ships, and of lumber and timber vessels for South America and Europe.

Lumber freights for the River Plate and Brazil ports are quiet, and though substantially unchanged are not firm, tonnage to arrive being freely offered, while the inquiry is light. Maximum rates for yellow pine cargoes are about \$11 to Buenos Ayres and \$14 to Rio Janeiro. For the West Indies, chartering this week has been slow and the market is easy. For coal from Philadelphia to Cuba nominal quotations are: \$1.60 to Havana, Matanzas and Cienfuegos, \$1.75 to Sagua and \$1.85 to Cardenas; for lumber from the Gulf to Cuba \$5.50 to \$6, all Spanish Gold; and for lumber from the South for other West India ports: \$5.50 to \$7. Home-ward freights are not plentiful and generally unattractive. Coal freights coastwise are firm; vessels in somewhat better supply.

Yellow pine lumber freights coastwise remain dull at \$2.50 to \$2.75 from Atlantic and \$5.50 to \$5.75 from Gulf ports to New York.

CHARTERS.—Sch. Lizzie B. Willey, Savannah to New York, lumber, \$4.02 1/2.—Sch. Fannie Whitmore, hence to Pernambuco, sail, \$1.—Sch. D. H. Rivers, Bull River to Baltimore, phosphate rock, \$1.80.
