THE FIRST STEP

Dr. W. Louis Raynolds

Our physicians have found that the use of scrubs has given great relief to many suffering from chronic pains and headaches, and that the use of scrubs in the treatment of the disease has been most successful. The use of scrubs is now becoming general in hospitals and as a matter of fact is the only method of treatment that has been found to be effective.

In the use of scrubs, the patient is placed in a warm room and a pair of gloves and a pair of pants are fitted to him. The gloves are filled with a preparation of scrubs and are then placed on the patient's head so as to form a helmet. The pants are then pulled up over the head and the scrubs are then removed. This process is repeated several times and the patient is then left to himself for a short time to allow the scrubs to work their way into the system.

The use of scrubs is now becoming general in hospitals and as a matter of fact is the only method of treatment that has been found to be effective. It is not only a cure but a preventive of the disease.

The use of scrubs is now becoming general in hospitals and as a matter of fact is the only method of treatment that has been found to be effective. It is not only a cure but a preventive of the disease.

LOCAL AFFAIRS
[Continued from Page 1]

Perkins, Isle, successful and over to Wardwell, A vacation Grindle.

We have here in the Fishponds of the Marketing Service a fine looking fisherman, C. W. Harper, formerly of Southport. He has moved to Ellsworth and will be here only a short time. We understand he is going into the salmon fishing business requiring at his shop 130 Main Street.

Wardwell, A vacation Grindle.

The company's estimate of the first day of the season is a record. On a Tuesday, December 21, 1892, the first day of salmon fishing season, the number of fish caught was 211. This is about the number caught in the first day of the season in 1892. The company's estimate for the second day of the season is about 100 fish.

The sales of the company at the present time are about $2.75 each. The company expects to sell about $1.50 each.

Water Rates Hearing

The hearing before the committee of the House of Representatives was held on Wednesday, December 23, 1892. The hearing was opened by the Chairman, Mr. Frank W. Hill, who said that the purpose of the hearing was to consider the rates charged by the Water Power Co. for services rendered to the town.

The hearing was opened at the expense of the town. The committee was instructed to report to the House of Representatives on the rates charged by the Water Power Co. for services rendered to the town.

The hearing was continued and will be resumed on the next day.

W. H. DUNN

Firemen, Freemen, Councilmen

This is the particular reason which the editor of the Ellsworth Press and the editor of the Ellsworth Gazette have been so active in the publication of this newspaper. They believe that the rates charged by the Water Power Co. for services rendered to the town are too high.

The editor of the Ellsworth Press said that the Water Power Co. is charging too much for services rendered to the town.

The editor of the Ellsworth Gazette said that the Water Power Co. is charging too much for services rendered to the town.
