The wedding of Nellie Louise Franklin, daughter of H. A. Franklin and wife, of Roxbury, Mass., and Charles E. Bellatty, son of Mrs. Charles A. Bellatty, of Ellsworth, took place at the Eliot Congregational church, Roxbury, last Wednesday evening.

The bride, gowned in white duchess satin, trimmed with real lace worn by her grandmother, with a white tulle veil extending to the end of her train, was preceded by her eight bridesmaids, Edith Franklin, Mary E. Franklin, Lillian J. Franklin, Margaret U. Franklin, sisters of the bride; Agnes Foster, of Boston, Florence Howe, of Concord, Mildred Browne and Elsie Ernst, who were gowned in white peau de cygne and carried bouquets of yellow lilies.

Miss Franklin, a sister of the bride, was her maid of honor; she wore a yellow satin empire gown trimmed with real lace, and carried a bouquet of white peonies. Miss Dorothy Jordan, of Brookline, was the little flower girl.

The ceremony was performed by the Rev. Benjamin F. Hamilton, assisted by the Rev. Winfred C. Rhoades. The best man was Lyman A. Cousins, of Portland. The ushers were Benjamin Franklin, brother of the bride; Leon H. Davis, Leslie W. Beckwith, Howard H. Adams, Ernest J. Babcock, Arthur H. French, Dr. Eugene R. Kelley, all of Boston, and Charles B. The equipment of the Franklin street engine house for the use of horses on truck and hose carts is completed, but the new system will not go into use until after the meeting of the city government in July. At that meeting the reorganization of the companies will be decided. The two men who will be quartered at the engine house have not yet been selected.

The Helpsomehow society of the Baptist church is arranging an entertainment to be given in Hancock hall next Wednesday evening, which happens to be the night before the Fourth. The first half of the programme will consist of musical specialties, and in this the society expects to be assisted by the mandolin quartette and the Dutch character artist, Prof. Herr Von Spiegelhammer (?). The last half of the programme will be an amusing sketch entitled, "Scenes in the Ellsworth Union station."

The Mt. Desert Transit Co. has purchased several of the properties on High street recently bonded, as already reported in THE AMERICAN. The money was paid over for several of the properties last Saturday. Those purchased include the Charles W. Mason, Hoyt Stevens, A. W. Packard and J. A. Cunningham houses and lots. Speculation is rife as to the use the company intends to make of the property, and residents of the vicinity are somewhat disturbed with the thought that car yards or barns may detract from the value of their property. It is also rumored that a union depot will be built on the site, and that it will be not only a depot for the Maine Central and Mt. Desert Transit Co.'s roads, but for the Washington County railroad as well. These are all rumors, however, and the company is giving out no official information of its intentions. At Bar Harbor also property has been purchased for a terminus.

HANCOCK.

Hancock friends of Ferdinand I. Wood, of Dorchester, Mass., who spends part of his vacation each year in Hancock with Capt. C. F. Chester, will be interested in the following from the Boston Globe, which accompanied a cut of Mr. Wood and his launch:
 Ferdinand I. Wood, of Dorchester, who has been building a gasoline motor launch since last Christmas, saw the completion of his task Saturday, when the Minna, as she is named, was successfully launched at Tenean beach, Neponset. An admiring throng cheered as the launch slipped from its place on a dory, into the water.
 The Minna was built at a wheelwright shop on Harvard street, two miles from where she was launched. On a large four-horse dory she attracted much attention on the journey to the beach.
 The length of the Minna over all is 26 feet. Her water line is 21 feet and beam 6 feet, 8 inches. The frame is of white oak, with seven-eighths-inch cedar plank. The gunwale is of hard pine. The shear strike, decks and cabin are of northern oak. The locker seats are of cherry. A 33-gallon copper tank is installed with brass connections. The windows are plate glass, with green silk curtains. The launch has 10-horse power of the opposed two-cylinder type.
 Mr. Wood began work on his boat Christmas morning, and utilized every spare moment. He was assisted by J. F. McIntosh, and almost every night the two could be found at work in the little shed, in which there was barely room enough to move when the boat was finished.
 Mr. Wood is an experienced skipper and anticipates a lot of pleasure from his boat this summer.

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

MR. F. BROOKMAN WIFE AND CHILD.

MRS. J. C. STERLING'S CHILDREN.

G. H. FARMER and SON.

Pe-ru-na Should Be Kept In Every Household Where There Are Little Children.

Pe-ru-na should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But, have Pe-ru-na on hand—accept no substitute.

Mrs. F. Brockman, 813 Meade street, Appleton, Wis., writes: "I have never had a return of the catarrh, which had made me so miserable and unhappy before I began taking Pe-ru-na."

No Doctor Required. "Mr. Edward Otto, 927 De Soto street, St. Paul, Minn., writes: "I cannot say enough for Pe-ru-na. It has done great work in my family, especially for my oldest boy."

The Benefit Which the Children of the United States Have Received From Pe-ru-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded. But at least this much can be said that the coming generation owes a great debt to Pe-ru-na, for it is in the tender years of youth that slight ailments are liable to develop into lasting disease.

A Child's Life Saved. Mr. G. H. Farmer, New Martinsville, W. Va., writes: "Our little son, Harry, is well and healthy now and we think if we do as you directed us, he will keep his health and grow strong."

Mrs. J. C. Sterling, 133 Brown Avenue, Norfolk, Va., writes: "My little boy, Meredith, suffered with indigestion so badly he could not eat anything without it making him very sick, so I thought (as many others have) that I would try Pe-ru-na, and it worked like a charm."

Mr. Howard Andrew Sterner, 424 Canal street, Reading, Pa., writes: "I have Pe-ru-na in my house all the time and won't be without it. It is good for children when they take a cold or croup. It cured my baby boy of croup."

Mr. W. F. Doring, Mt. Vernon, Mo., writes: "I have used Pe-ru-na to my entire satisfaction and am exceedingly well pleased with the results, having suffered greatly with catarrh of the stomach."

Mrs. J. C. Sterling, 133 Brown Avenue, Norfolk, Va., writes: "My little boy, Meredith, suffered with indigestion so badly he could not eat anything without it making him very sick, so I thought (as many others have) that I would try Pe-ru-na, and it worked like a charm."

Mr. W. F. Doring, Mt. Vernon, Mo., writes: "I have used Pe-ru-na to my entire satisfaction and am exceedingly well pleased with the results, having suffered greatly with catarrh of the stomach."

As soon as the value of Pe-ru-na is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering, cases of catarrh will be prevented.

When Sickness Comes to the Little Ones It Is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mother looks forward with dread to the torrid heat of summer, thinking of her children and the many liabilities to disease that are before them.

A Multitude of Mothers Have discovered that Pe-ru-na is their stand-by, and that in many of the ailments of spring and summer to which the children are subjected, Pe-ru-na is the remedy that will generally quickly relieve.

Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Pe-ru-na quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Pe-ru-na is a household remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Pe-ru-na has. Mr. C. Hallock, Antwerp, Ohio, writes: "My daughter Allie, after taking three bottles of your Pe-ru-na is entirely cured of catarrh of the head of two years standing. We have used Pe-ru-na as a general tonic as well as for catarrh and are well pleased with it and recommend it to anybody who has catarrh."

The Mothers Hold Pe-ru-na in High Esteem. Not only because it has cured them of their various ailments, but because it promptly rescues the children from the throes and grasp of catarrhal diseases.

We have in our files many testimonials from mothers whose children have been cured by Pe-ru-na. However, the large majority of mothers who use Pe-ru-na, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Pe-ru-na that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys.
