NEWSPAPER HISTORY

The Rockland Gazette was established in 1846. In 1874 the Courier was established and consolidated with the Gazette in 1882. The Free Press was established in 1855, and in 1891 changed its name to the Tribune. These papers consolidated March 17, 1897.

A subscriber hands in this item: "Motorists who saw Officer Berry straighten out a bad traffic jam at the corner of Main and Limerock streets at 4:15 yesterday afternoon have nominated John for promotion. Two trolley cars and dozens of autos crowded into that congested area but were sent on their way with promptness and without confusion. Our traffic problem is one that requires just this sort of handling."

ON MY SET

James Briggs is a radio fan and a "go-getter." Sunday morning he logged KFI, Los Angeles, and he has received a verification from KFFD of San Diego, which he logged some time ago.

Wilbur W. Bisbee has my thanks for a copy of The Boston Globe "Radio Station, Call and Log Book," with corrections up to Nov. 1st. Mr. Bisbee is located at 1081 Boylston street, Boston.

After digesting the radio sermon Sunday forenoon it is always a good plan to tune in on WNAC which from 12:15 to 12:45 broadcasts a request program of an concert by Arthur Martel. The combination of a skilled organist, and programs which are calculated to suit all tastes cannot fail to have a popular result. Listen to Arthur Martel next Sunday.

Reports of the Harvard-Yale game came in without the slightest interruption and there was no time in the four periods when the fans could not tell exactly where the ball was located. I got best results from WBZ.

MADE A FINE SHOWING

Carver Administration, In Closing Meeting of Two-Year Reign, Shows Most Satisfactory Results.

The City Government elected two years ago held its final meeting last night and listened to department reports which gave a most satisfactory account of its stewardship. The two years' administration showed an unexpended balance of \$5,917, and this in spite of the fact that a program of permanent improvements has been steadily pursued. The floating interest bearing debt has been reduced \$20,570, and the administration has taken care of bills amounting to \$32,946.03 which were not included in that debt. Every last bill contracted since Jan. 1, 1926, will have been paid, and the city will still have \$18,566.49 on hand.

Mayor Carver's address follows:

This meeting marks the end of the administrative duties of this Council as the government of this city for the years 1926 and 1927. It is fitting at this time to offer my congratulations to you for the business-like manner in which you have conducted the affairs of the Council and to extend my thanks to the Council and heads of departments for their hearty support, without which what measure of success which may be claimed for this administration would have been impossible.

The policy of the administration has been economy in the conduct of civil affairs without carrying the economical ideas so far as to impair the efficiency of the organization. How well this has been done we will have to leave to the judgment of the citizens. That we will have lived within our income will be shown by an examination of the appropriation account for the two years which shows a balance unexpended for the two-year term of \$5,917.09. The desire on the part of the present administration to stay within the appropriation has made it advisable to forego many desirable improvements and conform its activities to what seemed to be the most necessary. A number of temporary sidewalks have been laid and a start made on a program of cement construction. A large mileage of resurfacing has been done on the most needed highways, some 8 or 10 miles having been treated. The program of permanent street has been carried to its end and we have now a stretch of permanently paved street from the Berry engine house to Maverick square.

The lighting committee has negotiated a new contract with the lighting company whereby through a reduction in price the city will be enabled to have between 80 and 90 new lights at no increase in cost. These are now being installed in locations where most needed.

Our fire alarm system which was found in a bad state of disrepair, has been entirely rebuilt and the efficiency of the department will be further increased by the delivery before the first of the year of a new motor city service truck. The fire department as a whole are to be commended for their prompt and cheerful service.

The department for the care of the city poor under the direction of the city matron shows a reduction in expenditure for the two years of \$3,155.51 and this without any neglect of need.

The work of the Police Department has been very satisfactory. This in spite of the fact that the constant increase in traffic has about doubled their work.

Probably the most interesting feature of the report to the average citizen will be that of the financial condition of the administration. The figures for the first year are already in your possession, those for the current year will be presented this evening. By consideration of these two reports you will find as the net result, that, as has already been stated there is an unexpended balance of the appropriation account of \$5,917.09.

The temporary loans have been reduced from \$148,570 as of Jan. 1, 1926 to \$128,000 on Nov. 1, 1927 which shows a reduction of the floating interest bearing debt of \$20,570. In addition to that we have taken care of \$32,946.03 of unpaid bills which was not included in the interest bearing debt. These two amounts make a total of \$53,566.03 of the city's obligations which have been paid by this administration.

The report of the treasurer shows, \$10,887.51 as bills payable. To offset this is a cash balance of \$29,454. These bills are being checked out as fast as possible and will result in all bills due and presented before Nov. 1 being paid, and a balance in cash of \$18,566.49 still in the treasury. In other words on the payment of this roll of accounts the city will owe no bills or notes contracted since Jan. 1, 1926 and will have paid \$53,566.03 of those contracted before that date and will have a balance of \$18,566.49 cash on hand.

The report of the treasurer shows continued the same plan for collecting with continually increasing results as the constantly decreasing balance of back taxes will show. It has been the policy of the collector to clear books of any clearly uncollectable back taxes while insisting on the payment of those which should be collectable. This has resulted in the reduction in the balance due on back taxes from \$106,981.17 as of Jan. 1, 1926 to \$51,120.34 on Nov. 1, 1927.

In conclusion I wish to express my appreciation to you and the heads of departments for the pleasant relations you have maintained and for the assistance and co-operation you have given me both individually and collectively during the two years in which we have been associated.

There were 142 arrests last year, according to the annual report of City Marshal Robert A. Webster. Thirst was the principal cause, there being 92 arrests for drunkenness. The cash receipts of the department were \$1037. Lodging was afforded 486 persons, and Careless Charlies left 145 store doors unlocked.

Robert U. Collins had the remarkable record of collecting 99 per cent of last year's tax commitment, or \$217,622. He collected on back taxes \$35,742 and on interest \$1283, making a grand total of \$304,648. This is a feat which has never been equalled by any previous collector.

There has been no municipal litigation in the courts, according to City Solicitor Edward C. Payson, with the exception of a few tax suits. Earl U. Charles, sealer of weights and measures condemned eight scales out of 500 tested; 15 weights out of 100 tested; 14 milk jars out of 1800 tested, and four liquid measures out of 700 tested.

Dr. H. W. Frohock, city health officer, reported that measles had been the only epidemic and that scarlet fever had been conspicuous by its absence. There were very few cases of pneumonia and influenza and but one of typhoid. Whooping cough is now having its innings. "The water supply is above reproach," says Dr. Frohock. "Not one unfavorable report has been received from samples sent to the State Health department." Dr. Frohock adds that the sewer system is still a source of trouble and will soon demand serious attention.

Chief Engineer W. S. Pettie reports that there were 46 box alarms during the year, 96 still alarms, one chief's call and one out of town call. The department wet 24,300 feet of hose, and has on hand 7700 feet in different stages of wear.

City Clerk E. R. Keene gathered in chicken feed to the amount of \$1686, one of the chief sources being dog taxes amounting to \$522.

H. H. Payson has bought the Manchester-Jones-Kuhn house on Grace street.

Thanksgiving Proclamation

By the President of the United States:

Under the guidance and watchful care of the divine and beneficent Providence this country has been carried safely through another year. Almighty God has continued to bestow upon us the light of His countenance and we have prospered. Not only have we enjoyed material success but we have advanced in wisdom and in spiritual understanding. The products of our fields and our factories and our manifold activities have been maintained on a high level. We have gained in knowledge of the higher values of life. There has been advancement in our physical well-being. We have increased our desire for the things that minister to the mind and to the soul, we have raised the mental and moral standards of life.

We have had the blessings of peace and honorable and friendly relations with our sister nations throughout the world. Disasters visiting certain of our States have touched the heart of a sympathetic nation, which has responded generously out of its abundance. In continuing to remember those in affliction we should rejoice in our ability to give them relief.

Now that these twelve months are drawing to a close, it is fitting that, as a nation and as individuals, in accordance with time-honored sacred custom, we should consider the manifold blessings granted to us. While in gratitude we rejoice, we should humbly pray that we may be worthy of a continuation of divine favor.

Wherefore, I, Calvin Coolidge, President of the United States, do hereby set apart and designate Thursday, the 24th day of November, next, as a day of thanksgiving and prayer, and recommend and urge that on that day our people lay aside their usual tasks, and by family fireside and in their accustomed places of public worship give thanks to Him who holds all in the hollow of His hand.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this twenty-seventh day of October, in the year of our Lord one thousand nine hundred and twenty-seven and of the independence of the United States of America the one hundred and fiftieth.

CALVIN COOLIDGE.

By the President,
Frank B. Kellogg, Secretary of State.

North Knox Society Buys Titus Farm and Elects Officers.

At the annual meeting of the North Knox Fair Association the important announcement was made that the society has bought from W. R. Titus the farm adjoining the fair grounds. The need of more space has long been felt, and the climax was reached this fall when the Midway was so cluttered up with paraphernalia that patrons of the grandstand could see little else than the start and finish of the races.

These officers were elected: President, J. C. Creighton; vice president, R. M. Carroll; secretary, H. L. Grinnell; treasurer, W. A. Lucas; trustees, R. M. McKinley of Union, L. Mank of Warren, C. E. Vanner of Washington, Albert Sherman of Appleton and E. N. Hobbs of Hope.

UNION THANKSGIVING SERVICE

The union Thanksgiving service will be held in the Universalist church on Wednesday evening at 7:30 o'clock. This will correct the announcement in Saturday's issue that the place of meeting would be in the Methodist church. The sermon will be preached by Rev. Walter S. Rounds, who will take as his subject, "The Garment of Praise."

WHILE CITY SLEPT

Water Co. Crew Completed Big Task—Some Forty Year Old Pipe.

A fine bit of engineering with a number of interesting side lights was put through Saturday and Sunday by the Water Co. when a Main street hydrant was changed from the Chisholm block site to a location in front of The Courier-Gazette building and a gate set in the main line at the same operation. This fire plug, in addition to another which is to be set at the Nye carriage factory, gives to this high value and hazard district adequate fire protection. These two hydrants are, strange to say, the only ones to be located on the eastern side of Main street.

The cutting in of a gate on the main line makes it possible to segregate any section of Main street in case of accident, thus giving emergency fire protection heretofore unavailable. Another interesting fact is that the 12-inch pipe laid 41 years ago, was in almost perfect condition inside and out, with no sediment or rust deposit discernible. The first 40 years were possibly the hardest but it is a safe deduction that if any reader of this article sees the same pipe exposed in 1967 it will be in the same clean condition.

The whole job of cutting the huge pipe and setting in the new section with gate for the hydrant attached was done in a couple of hours and almost nobody was discommoded by the brief shut-down. The crew functioned like clockwork under the direction of Supt. McAlary and Foreman Knowlton and today the hydrant is in commission. It is one of the handsome new Darling type, standardized for the business district.

The present installation is one more forward step in the plan worked out by Supt. McAlary with the fire department heads whereby all of the city's large mains are interlocked and in case of need the entire flow can be concentrated in any district. This plan also includes Thomaston and the supply to that town can be strongly augmented at a moment's notice.

YOUR FAVORITE POEM

If I had to live my life again I would have made a rule to read some poetry and listen to some music at least once a week. The loss of these tastes is a loss of happiness.—Charles Darwin.

ENDYMION

The rising moon had hid the stars;
Her level rays, like golden bars,
Laid on the landscape green
With shadows brown between.
And silver white the river gleams,
As if Diana, in her dreams,
Had dropped her silver bow
Upon the meadows low.
On such a tranquil night as this,
She woke Endymion with a kiss,
When, sleeping in the grove,
He dreamed not of her love.
Like Diana's kiss, unasked, unsought,
Love gives itself, but is not bought;
Nor voice, nor sound betrays
His deep, impassioned gaze.
It comes—the beautiful, the free,
The crown of all humanity—
In silence and alone
To seek the elected one.
It lifts the boughs, whose shadows deep
Are life's oblivion, the soul's sleep,
And kisses the closed eyes
Of him who slumbers lies.
O weary hearts! O slumbering eyes!
O drooping souls, whose destinies
Are fraught with fear and pain,
Ye shall be loved again!

No one is so accursed by fate,
No one so utterly desolate,
But some heart, though unknown,
Responds unto his own.
Responds—as if with unseen wings,
An angel touched its quivering strings;
And whispers, in its song,
"Where hast thou stayed so long?"
—Henry Wadsworth Longfellow.

A capacity house greeted Dr. Charles Leech Gulick, renowned organist, at the First Baptist church Sunday evening, and was well repaid by the enjoyable program presented by Dr. Gulick and the choir. The organ numbers were interesting and entertaining, the overture "Poet and Peasant" and the Fantasia on "Carmen" arrangement of Lemare, being the high lights.

Probably no use to kick but Rockland isn't getting a fair shake in the matter of eclipses. Five are scheduled in the Sky League next year but only one will be visible here. That is an eclipse of the moon and doesn't begin until 4:13 a. m. We're that peeved about it that we refuse to sit up.

A recent letter from H. A. Daniels, who is traveling abroad is dated "Anno 6, Nov. 3, 1927 A. D." Mr. Daniels explains that Oct. 28 was the end of the 5th year since Mussolini's march on Rome. And now, since that date, starts the sixth year, or "Anno 6," and this date is now used throughout Italy and on all Italian ships.

All teams on membership, new and renewals, are requested to report at next Friday's Educational Club picnic with Mrs. Allen Ulmer, Willow street, and members will contribute current events, etc., to the program. Dr. Cadman discussion and speakers at 5. Is it not wiser to repeat the 18th amendment? Can it be enforced, and why not? are the questions.

Yales 14 to 9 victory over Harvard Saturday was almost a victory for the Crimson, which, according to all the advance dope should have been snowed under. On Thanksgiving Day Pennsylvania and Cornell have their annual game. While on Saturday comes two notable contests—Army and Navy and Boston College and Holy Cross. Then we fasten up the shutters for outdoor sports.

Via Magnolia, N. J., where it was picked up by an amateur radio operator, comes this wireless message from the MacMillan arctic expedition. The message read: "We are within a few degrees of the Pole and all is well. We have passed a cold night. We are frozen in and will not be out until next spring. At the present time the arctic is under a mantle of the spumoni night."

Many teachers are profiting by the opportunity of home study for college credit. In many cases this credit is used for renewing certificates. Some teachers are substituting the credit earned through extension courses for summer session work. Supt. Fred C. English of Mars Hill, and nine of his teachers have signed up for a course in "Methods of Teaching" to be taken by correspondence. This work will be studied by the group with the expectation that there will be both pleasure and profit as an outcome.

From the office of the Eastern Steamship Lines, Inc. in Boston comes announcement of the "13-day all-expense vacation cruises and a new regular winter service by the new S. S. Yarmouth—the most luxurious 6000-ton liner sailing from an American port." The Yarmouth will sail from New York Jan. 8, Jan. 24, Feb. 10, Feb. 26, March 13 and March 30, for Miami, Havana, Kingston and Nassau, round trip fares ranging from \$105 to \$230 and including all except shore expenses. Sounds rather enticing, n'est ce pas?

Deposits Made Here

Night and holiday deposits are made through this door on the outside of the Security Trust Company building.

With the installation of the Security Trust Company's Night Depository system all necessity of leaving money in private safes is overcome. Every depositor, new or old, may use the Night Safe whenever they wish, without charge.

The Night Depository System is very simple to use. The depositor places his money in a specially constructed canvas bag which is fitted with a Yale lock, unlocks the Night Safe door and drops his deposit through the chute into the safe inside.

The entire system has been designed under modern scientific methods to be burglar proof. The outside door, the chute and the safe are protected by the Bankers' Electric Protective Association and tampering with any part of the system instantly sounds an alarm. Let us show you how the system works.

The Courier-Gazette

THREE-TIMES-A-WEEK
Rockland, Me., Nov. 22, 1927.
Personally appeared Frank S. Lydell, who on oath declares that he is President in the office of The Courier-Gazette, and that of the issue of this paper of Nov. 19, 1927 there was printed a total of 6300 copies.
Before me, FRANK B. MILLER,
Notary Public.

Commit thy way unto the Lord; trust also in him; and he shall bring it to pass.

A countrywide poll of editors and political leaders, the results of which are announced by the National Republican, discloses some interesting data with respect to the presidential situation. The forecasting of the nomination of Gov. Smith by the Democratic National convention without much opposition is in line with an already registered public opinion. Returns from Maine supported the New York man. The poll on the Republican side, based on the assumption that Mr. Coolidge will not be a candidate, shows in some particulars more closeness. The total on newspaper reports for first choice were: Hoover 577, Lowden 518, Hughes 218, Dawes, 88, Curtis 39, Borah 28, Longworth 11, with many scattering votes for Watson, Willis, Goff and other candidates. On the report of political leaders as to the first choice, Hoover also led with 267, Lowden was second with 248, Hughes was third with 115, and Dawes was fourth with 60. Maine favors Hoover. Says the Washington magazine in a summing up of its poll:

Many of the editors and political leaders reported Coolidge sentiment still strong, despite the President's statement, and predicted that the nomination finally would be forced upon him. The reports indicate that Gov. Lowden's strength is chiefly concentrated in a dozen states, while that of Hoover, Hughes and Dawes is more widely scattered. One reason the publication of the poll attracted considerable attention was the fact that it pointed to conclusions that already are widely held among political observers and leaders as to the present day conditions in the political arena. Two points upon which more comment was heard was the relatively poor showing in the canvass made by former Secretary Hughes of the Republican side and the almost sensational weakness of the McAdoo canvass among the Democratic leaders and editors.

There strayed into a column of the preceding issue of this paper (nobody seems able to explain why it was allowed there—it is one of those mysterious things that happen in a newspaper office) this two-line bit of cynicism: "Praising a rival may be good christianity, but it's poor politics." Some reader of the item may have drawn a conclusion that the statement was the paper's own. Let us with all the emphasis possible to convey by type repudiate it. The cynic is ever with us, but modern sport, modern politics, modern business, has advanced to a point where not to yield recognition, even admiration, to a competitor in any line, is regarded as unworthy of the true sportsman, which is to say, a gentleman. Good christianity and good politics are synonymous. The man who cannot on occasion praise a rival is a poor fish.

We often have occasion to felicitate ourselves upon the character of the drinking water supplied the people of this eastern section of Knox County. When a piece of the twelve-inch main was yesterday taken up from a Rockland street, where it had seen service for nearly half a century, it disclosed an inside that was practically as smooth and clear as on the day when it was put under ground. Only water of the highest degree of purity could give such handsome account of itself as that.

This is the week in which hunters in Maine are privileged to shoot the majestic bull moose. That is, in eight of the sixteen counties, of which Knox is not one. And yet the plentifulness of the animal in this vicinity would suggest that the elimination of one of 'em here and there would by no means interfere with the public good.

The book-makers in their three to one odds were not far afield in their estimate of Yale and Harvard, whose Saturday game concluding the collegiate football season saw the Sons of Eli bringing in the scalps of the Sons of John to the tune of fourteen to zero.

That its faithful staff may enjoy an unobstructed observance of Thanksgiving Day, the Thursday issue of this paper will go to press at the close of the preceding afternoon. Advertisers and contributors will kindly note the fact.

Inquiry is made by anxious readers of this paper as to the result of the search for a meteor which was asserted to have buried itself in the roots of a Bangor tree. Did our up-river contemporaries inform the world?

If you begin now to list up your Christmas intentions you will find that it makes for avoidance of worry when a little later the day is seen advancing upon you with overwhelming suddenness.

There never were so many people saving money in Knox County as there are today. Truly a hopeful thing, for present and future.

THE HOUSE ON BOWLEY HILL

How the Community Sweet Shop Brought Fame To a Man Who Thought He'd Retired.

When Edward C. Powell retired from the shoe manufacturing business in Haverhill, Mass., a few years ago, and came down to his wife's home in South Hope he had retired into the belief that he had retired from active business. Henceforth he would abide in a land of milk and honey and do nothing else except possibly write spring poems. So Edward C. Powell thought.

One day the Powells bought a small strip of land adjoining their estate, having in mind its usefulness for a right of way. And then they thought what a fine idea it would be to build a little house by the side of the road where they could serve sandwiches and the like.

The house, which became known as the Community Sweet Shop, was built, and the sandwiches found a ready sale. And the Powells had another idea. They would raise chickens and ducks and cook 'em nice and pretty to tempt the appetite of hungry wayfarers. This was in 1925. The idea took so well that the house by the side of the road was enlarged. The fame of their chicken dinner menu spread like the proverbial wildfire and the Powells suddenly awoke to find themselves famous.

Six hundred chickens were raised on the farm this year and all of them went into the pan also about 400 more which they were obliged to buy to meet the demand. Ducks were not so much in demand, yet there were not a few patrons who had much rather eat duck dinners than saw wood.

Women folks found that the little house on the brow of Bowley's Hill was a wonderful place for holding their auction parties and sewing bees. They liked the way the sun flooded those southern windows; they loved the purple that bathed the distant hills, and they found the open grate fire the acme of contentment when the atmosphere became tinged with the slightest chill. Mr. Powell personally lugged about five cords of wood to that fireplace and dreamed about lugging a hundred or so more.

The many scores of patrons who have enjoyed the warmth of this fireplace and perhaps read their fortunes in the flames, will be interested to know that it contains 30 tons of field stone, most of which was gathered on the farm. An exception was the specimen of coquina rock from Florida which was set in the middle of the arch and forms a conspicuous setting. The masonry work was done by William Clark of Rockport. The mantel is constructed of cement, sand and lime.

The Community Sweet Shop opened May 1st this year, and but

THE GLENWOOD CABINET PARLOR HEATER

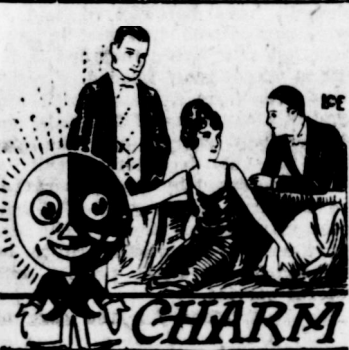

Some homes cannot use a furnace, so the Glenwood Cabinet is made for first floor installation. This heater will heat the ordinary home throughout. It is really a Glenwood Furnace arranged for parlor use. Special dust-proof flues, regular four bar furnace fire pot, a circulating system that changes the air in the house every three minutes. IT IS ECONOMICAL. Some users tell us that three tons of coal will heat their home.

The W. C. T. U. held its regular meeting at the home of Judge Frank B. Miller Friday afternoon, with Miss Anne V. Flint as hostess. Although the skies were lowering and the showers heavy a number of brave spirited women were present, and listened with interest to a short address by Mayor Carver, who spoke to them on "The Needs of the City." The Mayor said the city's greatest job is its schools. Every fifth person you meet is a scholar and every fourth person a student in school. The school population has increased by 246 in the past two years and the crowded condition of most of the grade school rooms makes an evident demand for more room in the no distant future. Next to the school problem in importance is the streets. A program for putting in some first-class road each year is being well carried out. Mayor Carver's remarks were listened to with much interest. His ready command of facts and figures showed his familiarity with the city's business, a thorough understanding of municipal affairs. In speaking of the city's social conditions he said that where Rockland used to be considered one of the worst of the coast towns by the Civic League, now it was called one of the best. Rockland no longer deserved the hard name it had obtained in former days. That Mayor Carver's administration has been in line of good business, is proved by the fact that the city's interest bearing debt has been reduced \$35,000 in the past two years. Mayor Carver's talk was much appreciated and his audience assured him of its hearty co-operation in any move for civic betterment.

ORVILLE T. WOOD

Orville T. Wood died at his home on Limerock street Nov. 1, breathing his last in the same room where he was born 79 years ago. He had been an invalid for nearly five years.

The deceased was a son of Aaron and Amanda (Healey) Wood. In his younger days he worked in the Limerock quarries, and leaving this vocation conducted a trucking business until failing health compelled his retirement from active labor. For a number of years he operated a buckboard, and carried excursion parties to points within a radius of 30 miles. Friends knew him as a very industrious citizen and the son of good humor, ever ready to assist those in need, and always in a genial frame of mind.

Mr. Wood was twice married, his first wife being Mary York of Damascus, and the second wife Mary Josephine Sprague of Waldoboro. Surviving the first union is one daughter, Mrs. Michael Halligan; and of the second marriage there are four surviving daughters—Mrs. Leroy Kallio, Miss Candie Wood, George W. Wood and Miss Amanda Wood.

The funeral services were conducted by Rev. B. P. Browne, and there were many evidences, through the medium of floral offerings and otherwise of the sorrow which the community felt in the loss of a long-time neighbor. The burial was in the Robbins cemetery. The bearers were John E. Brewster, J. Robert Adams, Silas Norton, Frank A. Robbins, William Frye and Walter

LIVER MUST HAVE LIFE

Tuesday Health Talk No. 3
By Blake B. Annis, D. C.

The liver is your personal laboratory wherein is produced the most important of the chemicals necessary to digestion and to make useful to the body the blood and bone tissue building substances in your food. To perform its work the liver must be supplied with sufficient life; sufficient vital energy to enable it to function. If there is spinal pressure on the nerves which deliver this life current it must be corrected before there can be normal liver function.

Troubled For Years.
"I have had liver trouble for years. Medical help and medicines failed to bring relief; instead of getting better my condition became worse. I finally tried Chiropractic and after a series of adjustments I improved so wonderfully that my family and myself are very thankful. I recommend Chiropractic to every sufferer."

KNIGHT'S BODY IS FOUND

The body of Milton Knight, who was drowned in Chickawaukie Lake three weeks ago tomorrow, was found in 22 feet of water this forenoon by the Bath diver W. Scott Tibbetts.

The remains were taken to the Bowes & Crozier undertaking rooms where Medical Examiner Frohock was making an examination as the paper went to press.

A hasty inspection by the diver showed no bullet wound or other sign of foul play. The body was partly free of the bottom, and would have floated in another day, in the opinion of Mr. Tibbetts.

The location bears out the story of the two boys—Oscar Rackliff and James Barter who were eye-witnesses of the tragedy.

Rackliff, in fact was in the boat with young Knight. They had just wounded a duck and were in pursuit of it when their frail boat suddenly filled and began to sink.

Knight swam about two boat lengths and then sank. When he went down for the second time he did not reappear. Rackliff clung to the boat and was rescued by Barter who had remained on the shore.

Mayor Carver has worked unflaggingly to recover the body placing all of the city's facilities at the disposal of the searchers.

Wild rumors are thus quieted. Many a suit guaranteed to wear like iron does so by eventually becoming rusty.—Christian Science Monitor.

SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound, as it helped her very much, so I tried it. After taking four bottles, I weigh 116 pounds. It has just done wonders for me and I can do my housework now without one bit of trouble."

—Mrs. M. Riessinger, 10004 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose? Wealth? Happiness?

Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.

SHE loves them all, does the Reo Flying Cloud. Be it the spirit-level smoothness of Pennsylvania's concrete, or the lava-shingled trail of Nevada, she sweeps to meet them with that joyous thrill of motoring that only the Reo Flying Cloud gives.

Hour after hour, mile upon mile, day after day, those who drive a Reo Flying Cloud are learning the meaning of a "pleasure car."

Swung upon long, flexible springs, cradled by hydraulic shock absorbers, she irons out the bumps of every road. She has power for the hardest pulling and speed for the swiftest flight. Yet no matter how fast she is going, how treacherous the roadbed beneath you, she comes to a quick and gentle halt when you touch her velvet stop brakes.

"Edmund Breese is right. Luckies give complete enjoyment," says DeForest

The well-known trainer and boxing expert explains his preference to Evelyn Hoey, Musical Comedy Star, as they chat before the Buckingham Fountains in Chicago, Ill.

You, too, will find that LUCKY STRIKES give the greatest pleasure—Mild and Mellow, the finest cigarettes you ever smoked. Made of the choicest tobaccos, properly aged and blended with great skill, and there is an extra process—"IT'S TOASTED"—no harshness, not a bit of bite.

Edmund Breese, Well-known Actor, writes: "We who act owe our audiences perfect voices—we must keep our throats in condition. Like others, I have solved the problem of smoking by adopting Lucky Strikes because they protect the throat and give complete enjoyment."

WHEN BETTER AUTOMOBILES ARE BUILT, BUICK WILL BUILD THEM

From 'roof to basement' that's the way to buy a car

Buick welcomes this searching test

The man who buys a home goes over it thoroughly, from roof to basement, to make certain that it has the sound construction that means long and enduring service.

Buy your car as you would a home. Buick welcomes this searching test, and invites critical comparisons. And Buick is willing to leave the decision to you.

PLEASANT POINT

Mr. and Mrs. Bert McIntire of Warren were at A. W. Ornes Sunday.

Capt. J. O. Chadwick and L. W. Chadwick were among those who motored over the new Kennebec Bridge the day it was opened to the public.

W. I. Rivers of Quincy, Mass., and Frederick Dally of Dorchester, Mass., spent Saturday night with Mr. Rivers' parents at Broad Cove. Sunday they were at Mr. Rivers' summer home, Dream Harbor and called on friends, returning to Boston in the evening. Mr. Dally is looking for a summer home and is very much pleased with Pleasant Point, and his name may be added to our summer colony in the near future.

Riley Davis and Leslie Young motored to Portland Friday, returning Saturday accompanied by Mrs. Davis who is recovering from a surgical operation at State Street Hospital. Mrs. Davis wishes to thank her many friends who favored her with such a generous supply of post cards. She received nearly 100.

It takes more than a few clouds and muddy roads to keep the members of Pleasant Point Improvement Society away from the schoolhouse when there is to be a baked bean supper. And those who ventured out last Friday evening enjoyed one of the best suppers the society has ever had. When all expenses had been paid there remained \$13.88 to be added to the road fund. After the tables were cleared away, Henry Teel and Arletta Maloney played a number of violin and organ duets. Miss Marion Orne gave a solo; and the play entitled "Not So Terrible" was given by Miss Bernice Dority. Mr. and Mrs. Homer Marshall and Miss Arletta Maloney, all taking their parts in a very pleasing manner. At the close of the program the secretary Mrs. Grace Maloney was presented with a beautiful cake in appreciation of her services as president of the society for the past five years. Another good program is promised for next Friday evening.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Bayer Aspirin. The name Bayer is on every tablet, and on the box. If it says Bayer, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Bayer Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Bayer—at any drugstore—with proven directions.

Physicians prescribe Bayer Aspirin; it does NOT affect the heart

Aspirin is the trade mark of Bayer Manufacture of Monacopolit.

C. M. P. CO. STARTS WORK

The Central Maine Power Co. started construction yesterday on the new transmission line from the Glen Cove sub-station to the Lawrence Cement Co. plant in Thomaston. Fifty men will be used in excavating along the right of way. The job will be what is called a 40-foot graded line, i. e. the minimum height from the ground will be 40 feet and the maximum 65. The conducting unit will be 2-0 aluminum cable, steel re-enforced.

The line will deliver 35,000 volts at the cement plant with provision for a twin line when desired. There will be steel switch towers at each end of the line with steel poles interspersed along the right of way. The job will be what is called a 40-foot graded line, i. e. the minimum height from the ground will be 40 feet and the maximum 65. The conducting unit will be 2-0 aluminum cable, steel re-enforced.

Brimful of Health

Wide-awake Children Brought up on Father John's Medicine

BECAUSE her mother used it when she was a little girl, Mrs. J. J. Whitney, Melrose, Mass., knows the value of Father John's Medicine and has always used it for her own children now that she is responsible for the health and happiness of a growing family. Mrs. Whitney, like thousands of mothers, has learned to depend on Father John's Medicine when any of the family has a cold or a cough, or has become weak or run down. Its pure food elements build new strength to throw off disease. Its healing properties soothe the throat irritation and it helps to drive out impurities. And do not forget it is guaranteed free from alcohol and dangerous drugs.

I've just got to tell somebody

NO, I'M not going to be married. Neither have I fallen heir to a lot of money. But I have discovered the one tobacco that makes a pipe come through a thousand per cent—Prince Albert!

Yes, Sir, Prince Albert—the world's largest-selling brand. I was sitting with a fellow-commuter the other morning, when he was filling his pipe from a bright-red tin. I got a whiff of that tobacco and said: "Do you mind if I borrow a load?" He passed the tin over, and I filled up and lighted up.

I never tasted anything so good in my life. It was wonderfully cool and sweet, with a mildness I had never met before in a pipe-tobacco. Mild, as I say, yet it had that rich, rare body that put satisfaction into every pull. What a taste!

I could hardly wait till the train pulled in to get me a supply. I've smoked enough of this cool, mild, long-burning tobacco to know that it gives you deep-down contentment in every load. Try Prince Albert. You'll say so!

PRINCE ALBERT

—no other tobacco is like it!

You get quantity, too, with P. A.—TWO full ounces in every tin.

MOTHER!

A Child Doesn't Laugh and Play if Constipated

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Fig Syrup," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness. Beware of counterfeit fig syrups. Ask your druggist for a bottle of

"California Fig Syrup," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

MOVIES

STRAND THEATRE

Dolores Costello is starring today in "The College Widow." She said she was just the "college widow"—she had fooled them—the big game was off—they wouldn't play—they'd go on a spree to the road house her father, president of the college, had taboored—then in stepped Jane—could she win them back—she had recruited them—could she get them going again—See "The College Widow!" See Dolores!

The big attraction for Wednesday and the holiday is "The Nest," starring Pauline Frederick. Scientifically as well as dramatically, fine things are being said of "The Nest," even in advance of its showing here. Its entire investment is said to be magnificent with really prodigious display in such scenes as the "other woman's" apartment, the gambling rooms, the cabarets—all essential portions of the picture in treating of the temptations from which a mother had to win her son back to the hearthstone. Pauline Frederick plays the role of the mother. The story tells how she tries to protect her son and daughter as they grow into maturity after their father's death. Their growing selfishness matches her growing indulgence of them and only a great unselfish love that comes to her saves both her and her children from a deep, ignominious fate. But for the intervention of this unselfish love all three of them would have sunk deep in the cauldron of life. That is the story. They say Miss Frederick and her supporting cast play it beautifully.—adv.

EMPIRE THEATRE

"The First Auto," with Barney Oldfield, is the attraction at the Empire today.

May McAvoy and Conrad Nagel, the stellar combination that made such a hit in "Crummy," several years ago, is revived for the first time in Warner Bros. production of "Slightly Used," directed by Archie Mayo. They are supplemented by an exceptionally strong supporting cast which includes Robert Agnew, Andrew Ferris, Eugene Bessner, Anders Randolph, Sally Eilers, Arthur Rankin, David Mir and Jack Santoro. "Slightly Used," a comedy of youth and love, comes Wednesday and Thursday.

The other feature is "The Bandit's Boy" featuring Bob Steele.—adv.

PARK THEATRE

The feature picture for today is Dolores Costello in "Old San Francisco."

Though stories of the American stage have been numerous, as well as varied, Raynor Selig has succeeded in penning a dramatic comedy of upstage and backstage which cannot fail to impress the readers of the nation. Cosmopolitan, seizing the opportunity to film a different sort of a stage story, has produced Selig's "Becky," with Sally O'Neill in the title role and with Owen Moore in the role of Dan Scarlett, a New York crook. The picture which will be seen Wednesday and Thursday is one of the most lavish Cosmopolitan pictures of the year. In the role of the little Irish-Jewish shop girl, who has an ambition to become a grand opera star, Sally O'Neill has the best role of her screen career. It permits her a wide range from slapstick to emotional drama which many far older and more experienced screen stars would not care to attempt.—adv.

WITH THE BOWLERS

Outbowed in Belfast

The first match between Belfast and Rockland bowlers in Belfast, resulted in a victory for the former five 2,522 to 2,390. Cliff Boyington of Belfast made the highest single and highest total for the local team, 121 and 556, but Milligan of Rockland carried off the honors of the evening with a single of 125 and a total of 557. BRIDGE IS POPULAR

Thousands Crossed Carlton Structure Saturday and Sunday—Bit Airy

Swamped by an unexpected rush of automobiles to cross the Carlton Bridge Sunday, a double force of toll collectors on duty since 8 o'clock in the morning, was for several hours at the height of the rush unable to cope with the situation and lines of cars were strung out as far as span 6. From 3 o'clock Saturday afternoon until 7 Sunday evening nearly 2500 cars crossed the structure. Sunday's total is estimated at 1800. Pedestrians crossing the bridge met with an Arctic-like reception, bitterly cold winds piercing the warmest of clothing. Some of the Woodville residents who have to cross the structure daily to work, seem destined to suffer severely unless a wind break of some sort is provided.

Two miles on either side of the bridge the Kennebec is unobstructed and the highway deck is swept from end to end by the full strength of the wind. When the ice is in the river the winds will be so much more disagreeable to pedestrians. The week-end auto traffic total compares favorably with holiday rushes on the ferries.

A JOLLY PARTY

Summer Reading Club Event Features Children's Book Week.

In connection with Children's Book Week which has been observed at the Public Library this week a jolly party was given in the Congregational parlors Thursday evening for the members of the Summer Reading Club, to which the parents were also invited. The travel idea in line with the theme of the club's summer reading was carried out in the games, program and costumes of the evening. As the children entered, each was given a number later used in a travel game, which was won by Sylvia Shafter. Prizes were given in other games, the award in each case being a choice book. This program was presented:

Piano—Troop	Recitation—Little Land of Holland
Dance—Highland Fling	Bertha Kent
Sylvia Cohen, Sylvia Shafter	Sylvia Cohen, Sylvia Shafter
Violin solo—Rosella	Sherman Rubenstein
Piano solo—A Rose in My Garden	Madeline Rawley
