The case of Mrs. Marcia Goding, of outh Auburn, vs. S. Milton Beckwith, of Ellsworth, assigned for trial at Auburn last Wednesday, was settled by agreement, the defendant being adjudged guilty by default.

A. F. Burnham, who has spent the win-ter in Brockton, Mass., has opened his Ellsworth home for the summer. His sister-in-law, Miss Abbie Whittle, accompanied him, and will remain through the summer.

A series of Saturday afternoon dancing ssemblies, open to the public, will be given at Whiting hall, under the management of Harold S. Higgins. In connec tion with the assemblies, instruction will be given in round dances

The monthly meeting of the Ellsworth teachers' association, the regular date for which is the first Friday of the month, has been postponed from Friday of this week to Friday of next week. The program cannot yet be announced.

The school census for Ellsworth, rerecently taken by Rev. H. W. Conley, shows a falling off of twenty-six in the number of children of school age, the figures being 856 for this year against 882 last year. There are 405 girls and 451 boys.

The auxiliary launch Julita, built at the Ellsworth Foundry & Machine Works, for Capt. Harold Foss, of Venezuela, was successfully launched Monday. She is now receiving the finishing touches, and in a few days will be given her tuning-up trials. She will sail the middle of th month, under her own power, for New York, where she will be placed aboard : steamship for shipment to Venezuela.

An outrageous case of neglect of a pair of horses was brought to light in Ells worth Monday. A pair of horses owned by J. E. Archibald, was left in a stable n Pine street several days without food. When the condition of the horses was discovered by neighbors, one of the inimals was so weak from starvation that Miss Juliette Nickerson, of Bar Harbor, who was summoned, found it necessary to have the animal killed. The other animal was not as far gone, and was taken in

charge by Miss Nickerson. The regular monthly meeting of the Ellsworth board of trade will be held next Monday evening. Through confusion caused by the recent change of the annual meeting to the first Monday of April, while the regular meetings remained the second Monday of each month. a call was issued for a meeting Monday of this week, but was afterward withdrawn at the meeting next Monday County Farm Agent George N. Worden will address the board on agricultural topics. A farge attendance is desired.

Friday of this week at the Strand a great ducational picture will be presented, 'Uncle Sam at Work." The unraveling of much departmental red tape was necessary before the permission to to take this series of pictures was granted.

Text of the Lesson, Acts xi, 19-26; xili, 1-12-Memory Verses, xiii, 2, 3. Golden Text, Matt. xxviii, 19-Commentary Prepared by Rev. D. M. Stearns

Before the Lord Jesus visibly ascend ed to heaven after He had appeared many times to His disciples during those forty days between His resurrection and ascension and spoke so often of the things pertaining to the kingdom of God He commanded His disciples to go and teach all nations what He had taught them; to go into all the world and preach the gospel to every creature; to proclaim repentance and remission of sins in His name among all nations. And He sent them, as the Father had sent Him, in the power of the Holy Spirit that people might believe that Jesus is the Christ, the Son of God, and, believing, have life through His name (Acts 1, 1-3; Matt. xxvitl, 19, 20; Mark xvi, 15; Lake xxiv, 47; John xx, 21, 31).

The disciples were slow to obey this command, and the Lord permitted Stephen to be killed, a persecution of the saints to follow, and the believers thus scattered abroad went every where preaching the word, but only to the Jews. Some went as far as Antioch, and everywhere they preach ed the Lord Jesus, and the hand of the Lord being with them a great number believed and turned unto the Lord (verses 19-21). In the chapters which we have already studied in this book of the Acts of a risen and ascended Christ through His witnesses we have seen how Peter and John and Stephen and Philip and Paul, and now these scattered abroad ones all have the same topic-namely. Jesus Christ crucified, risen, ascended and returning to set up His kingdom. And as they thus speak of Him the Spirit inclines many to turn to Him, and they become joined to or added to the Lord. Thus His body, the church, began to grow, as the word of God grew and multiplied The one only calling of the (xii, 24). believer is to proclaim Jesus Christ and win people to Him, that His Eve may be builded and the marriage of Lamb come, for only after that the will His kingdom come.

If denominations and societies and the so called boards could sink their self seeking and see and seek Jesus only and His kingdom so much more might they see of His good hand upon them.

When the brethren at Jerusalem heard of the good work at Antioch they sent Barnabas, true son of conso lation, full of the Holy Ghest and of and when he came and saw faith. what the grace of God had done he was glad. The grace of our Lord Jesus Christ is briefly but fully set forth in II Cor. viii, 9, which with Rom. iii, 24; Eph. ii, 8, 9; Tit. ii, 11; iii, 4-7, and other passages teach us that the benefits of the finished work of Jesus Christ are for Jew and gentile alike, without exception, and that without any works of ours or any merit whatever on our part, any and every sinner truly receiving Jesus Christ becomes a part of Him, has in him eternal redemption and may become a messsenger to win others to Him.

MMR. MELBA

After sixteen months of personal service to war victims Mme. Melba recently gave the use of her apartment in Paris for an army hospital. Dr. Jane Wells Craven of Pittsburgh is superintendent in charge. The apart ment will be known as the Melba hospital and will be used for the Home benefit of all soldiers of whatever nationality.

The gift of the hospital came as a surprise, topping the singer's systematic economies in dress, food and per sonal comforts.

"See my tight skirt," she said, pointing to a much worn serge. "I have bought neither gowns, hats nor blouses since the war began. I can't afford garments until every suffering man, woman and child has food and shelter.

This war was declared without con sulting women, but our jobs as women seem to be well laid out for us, and where there is a will there's a way. I have lost all my men folk in this war either by shot or insanity."

Mme. Melba said her apartment at 91 Avenue Henri Martin has large, airy rooms, with solarium and root garden, and will accommodate 200 beds. Equipment for each bed will cost \$25.

Mme. Melba has pledged even the maintenance of the majority of these, in memory of Arnold Quilter of the Grenadier guards, who fell at the Dardanelles.

country of Cyprus, who became a true believer and handed himself and his possessions honestly over to the Lord for His services (Acts iv, 36, 37). It is not necessary to be on the board or on the committee nor an elder or a deacon or a trustee, but it is necessary to be saved by grace and then to be in His hand for His pleasure, seeing no one but Jesus only. So Barnabas exhorted the believers to cleave unto the Lord with purpose of heart (verses 22-24). and much people was added unto the May we see Jesus only and Lord. The sing, "Ever, only, all for Thee." last we heard of Saul was that he had returned to Tarsus (chapter ix, 27-30). but Barnabas evidently has him much on his heart for he went to Tarsus and found him and brought him to Antioch and for a whole year taught the believ ers there more fully of Jesus Christ (verses 25, 26). Either as a term of honor or reproach believers were first cafled Christians at Antioch. The affix "lan" may signify nothing more than "belonging to," but I like the suggestion of some one that a Christian is one who can truly say. "Christ is all." and, as the letters of the affix suggest 'I am nothing."

Barnabas and Saul, having been sen to Jerusalem with an offering from the saints at Antioch, in due time returned and continued to minister to the Lord there (chapters xi. 27-30; xif. 25; xiji 1-3). As they thus continued the Holy Ghost called for the separation of Barnabas and Saul for a special work to which He had called them. So with fasting and prayer and laying on of hands they were sent forth by the Holy Ghost and preached the word of God at Salamis, in Cyprus. Saul had, no doubt, been a good witness at Tarsus, and now Barnabas has a like privilege in his native island. Note that John Mark sister's son to Barnabas was with them (verse 5; Col. 4-10). . The principal thing to note is that all was under the control of the Holy Spirit (verses 2, 4, 9), always the director in all that is truly the work of the Lord. All true ministry must be unto the Lord, to glorify Him (I Pet. iv, 11).

----man, cold and harsh by nature. Benjamin had been very good to her since the death of his father's second wife, and because he had promised to care for Euphemia, who was quite without means of her own, he had placed her Love Affair at the head of his modest bachelor household. But the arrangement was not entirely satisfactory to Benjamin. for little by little his stepsister became the mistress of his house-ruled Scheming Sister Fails to him with a rod of iron, dictated to him when she dared and made home so uncomfortable that he was perforce compelled to seek comfort in his club.

"I must look out for myself." said Euphemia grimly as she went upstairs to take her afternoon nap.

About 4 o'clock that same day Miss Euphemia Fleming called upon Annabel Moore. As she paused in the doorway while the maid announced her Euphemia was not at all surprised to witness a little scene shadowed in a mirror that reflected the interior of the adjoining library.

Annabel was standing near the fire-place, and on his knees at her feet was Willie Buddington.

Euphemia smiled. It was going to be easier than she had thought. The girl was in love with young Buddington, and Benjamin had never had a chance with the girl.

When she entered the drawing room the scene had magically changed. Willie Buddington was standing dejectedly by while Annabel came forward to posite one another at the little round greet Euphemia with pleasant cordiality

He waited until the maid ture and while Annabel and Euphemia drank tea together the older woman sought for a way to assure herself that young Buddington had indeed proposed to the girl and that she had accepted. Euphemia flashed an angry glance at

If Annabel's pensiveness was any indication Euphemia had every reason to believe that Benjamin was safe from an indiscreet marriage, while at the same time her own future was assured. She was positive that Benjamin would never love another. This was his first love affair, and she felt positive that it would be his last. It happened that Euphemia was

scious when Euphemia praised Willie Buddington; she became intensely embarrassed when Euphemia overstep ped the bounds of her slight acquaintance and hinted at a possible romance. Annabel assumed an air of dignity and changed the subject. Euphemia gritted her store teeth and talked about Benjamin. Annabel did not blush here. On the

"My brother is soon to be married," said Euphemia at last. "but perhaps you have heard." She glanced sharply at the girl over the edge of her tea-

Annabel started violently, and her blue eyes widened.

"Why-yes-no-I haven't heard," she said a little breathlessly. "I shall be very lonely," went on

Euphemia deliberately. "I suppose I shall have to go away and make a home for myself." "I am sure that Mr. Dacey will not

you of her own accord, or did you ferret it out?"

"Benjamin Dacey, I refuse to answer until you amend the wording of that question," announced Euphemia indignantly.

"Pardon me, Euphemia," said Ben-jamin testily. "How did Annabel announce her engagement?"

At that instant the telephone bell rang sharply. Benjamin's voice re-sponded to her "Hello."

"That you, Euphemia? Well, prepare to be surprised, then! Annabei Moore is engaged-engaged to me, understand? It happened last night, and I couldn't make head or tail of what you were saying awhile ago, so I came to Annabel, and together we straightened it out.

Sure to Pay Profite.

The effect of feeding from 20 per cent to 50 per cent more grain than is needed to produce three or four pounds of milk would depend upon the milk the cow is giving, says Hoard's Dairyman. For instance, if a cow produces twenty-four pounds of milk daily, and her ration consists of seven or eight pounds of grain and this increased 50 per cent, it would mean an increase to eleven to twelve pounds of grain. There would be no injurious effects resulting to the average cow receiving this amount of grain. But, supposing the cow was giving sixty pounds of milk daily and she was being fed fifteen pounds of meal. increasing this from 20 per cent to 50 per cent might bring serious results. Experienced feeders hold that when a cow is receiving fifteen pounds of meal daily

The Guernsey breed was develop-ed on the Channel islands. The ori-gin of the Guernsey breed is cloud-ed in more or less mystery; but, whatever may have been the origin, the breeding and development which there exists an excellent in the prothe breeding and development which it has received in America have pro-duced a breed two cows of which have held world's records for but-ter fat production for one year. any increase should be made very slowly and her condition watched closely.

We know of one very successful feeder who, as soon as he gets his animais to eating tifteen pounds of meal per day, increases this allowance one ounce per day until the maximum is reached, which very seldom is more than eighteen pounds. This he considers about the limit.

Experiment stations have done considerable work to determine the proper methods of feeding as well as the amount of grain that may be safely fed. Whether grain should be fed depends upon the price of butter fat, the character of the roughage and the kind of cows.

Let us take this example: Supposing there is an abundance of alfalfa hay worth \$5 a ton and butter fat is worth 20 cents a pound and ground barley, corn or a feed that will supplement alfalfa hay well is worth \$30 to \$35 per ton. It is very questionable whether there is profit in feeding grain, even to a good cow, when a dairyman is confronted with a condition as outlined.

It may be generally said that very seldom is the price of fat and feed so far apart that it does not pay to feed some grain, especially when the cow is fresh, even though it does not give a direct return. It is the practice of some good dairymen to feed some grain for the first few months of a cow's lactation period, the purpose being to sustain a high milk flow for a longer period. From this standpoint we believe that there are very few instances when it does not pay to feed a cow some grain. In other words, invariably the man who is making money with his

"Hardly." laughed Annabel suddenly. You must not make me believe that your brother is very aged, Miss Euphemia," she said archly, "for he told me one day that he was five years older than you, and you are not old by any means.

Euphemia bridled and tossed her head. She was secretly pleased. "Well," she gasped, "but you are a

mere child, Miss Annabel."

"A mere child of-thirty." admitted Annabel.

"Thirty! Then-then-why, Willie Buddington must be years younger than you are!"

Annabel laughed. "He is; ten years younger. You surprised him laying his foolish heart at my feet. Miss Fleming. I will tell you in strict confidence that proposing is merely a habit with Willie. Aunt Celestina says he proposed to her a few weeks before I came and my aunt tells every one that she is fifty-seven."

"Please don't breathe a word about Benjamin's engagement until he tells you about it himself," warned Euphemia as she took her leave a few mo ments later.

"I won't," promised Annabel. As soon as Euphemia reached home she went to her own room and picked up the telephone from her desk.

She called the number of her broth-er's office and soon had him on the wire.

"Right here-in my arms!" was Benjamin's astonishing reply.

To her own surprise Euphemia smiled at the notion, and, smiling, something hard melted in her heart, and when she repeated her good wishes there was a strong note of sincerity in her tones.

Brierwood Roots.

Algeria is probably the only country which in clearing its land of brush-wood at the same time finds a valuable commercial commodity in the roots of that same brushwood and simultaneously removes a menace to the forests which otherwise could only be removed at great expense. The roots of the bruyere, or white heather bush (Erica arborea), are utilized for pipes, and Algeria ships yearly about \$100. 000 worth of this material, known as brierwood, to this country. The roots are cut into the rough forms of to bacco - pipes, called "ebauchons" in French. To produce the required quantity an immense tonnage of roots is required, because very often, owing to cracks and other faults, only one rough pipe is found in a fair sized root. The industry can, however, only be carried on where water is plentiful, as it is necessary to keep the roots thoroughly damp from the moment they are drawn from the soil until they are cut into the rough forms and boiled.-Argonaut

CLOVER BLOAT REMEDY.

Solution of Formalin Recommended by Kentucky Station.

The cause of and a remedy for clover bloat have been found by D. J. Healy and J. W. Nutter of the Kentucky agricultural experiment, station. facts are announced in circular No. 5, recently issued by the Kentucky station.

Red clover blossoms contain about 8.6 per cent of sugar, alfalfa blossoms 2.8 per cent, while clover blossoms 2.4 per cent. After being eaten by stock this sugar undergoes rapid fermentation and is converted into carbon dioxide. This causes the bloating.

The authors of the bulletin strongly recommend for acute bloating a quart of 11/2 per cent solution of formalin. After this is administered a wooden block should be placed in the animal's mouth, and the animal should be given gentle exercise if it can be got on its feet.

Formalin is a trade name for a 40 per cent solution of formaldehyde gas in water and may be obtained at any drug store for about 40 cents a pint. Half an ounce of formalin in a quart of water is the proper solution with which to drench an animal.

Treat Cows Kindly.

A dairy cow requires to be and must be treated kindly. She will respond to to other kind of treatment. If she gets dungry and goes through the fence to get something to eat she does not fancy being chased by a pack of dogs. es she fancy being clubbed with the milk stool if she raises her foot to scare off a fly and makes a mistake and gets her foot in the milk pail. If you abuse ber you can rest assured of one thing, and that is that she will tax the costs up against you by refusing to fill the pail.

What the Doctor Knows.

KIDNEYS MUST BE RIGHT TO INSURE HEALTH.

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength. When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health sta-tistics, Bright's disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in one year, in the State of New York alone. Therefore, it is particularly neces sary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great kidney, liver and blaader remedy.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

When your kidneys require attention get Swamp-Root at once from any pharmacy. It is sold by every druggist in

bottles of two sizes-50c. and \$1.00. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Ellsworth Weekly American.

WEDNESDAY, MAY 3, 1916.

Germany's reply to the demand of the United States that the indiscriminate submarine warfare cease, has not yet been received. It is expected this week; it may come tomorrow. Events of the week, and intimations that filter through from Germany from unofficial sources, have given a decidedly more optimistic tone to the feeling in both countries as to the ultimate outcome, but until the full text of Germany's reply is known, it is impossible to say whether Germany will make concessions sufficient to meet the demands of this country and prevent a severance of diplomatic relations.

We print this week a list of candidates of all parties to be voted for in Hancock county at the Jone primaries. This list is complete, being compiled from the nomination papers filed at the office of the secretary of state, May 1. On the republican ticket there are contests for a majority of the offices, while the democratic ticket offers but two contests. and these in representative classes. This fact is significant of confidence in a republican victory in Septemberthere is never a scramble for places on a ticket foredoomed to defeat. The progressives and socialists have a full national and State ticket, but only one county candidate-that a progressive candidate for representative in class 5.

Maine probably will soon lose its efficient superintendent of schools, Payson Smith. The state board of education of Massachusetts on Saturday named Mr. Smith commissioner Charles F Johnson Waterville of education for that state. The appointment is subject to confirmation by the governor and council of Massachusetts, but there is no doubt that it will be confirmed. The position is, therefore, up to Mr. Smith, and while resignation probably will be forthcoming. The offer is a flattering one with reluctance, while congratulating him on his selection as head of the splendid school system of Massachusetts. The term is for five years at a salary of \$6,500 annually. The salary of the State superintendent in Maine is \$4,000.

The best treatment I know of for those run down or exhausted by the grip or fevers, and cannot seem to eover strength, is this: Get a bottle of that standard blood-Class 1-Eden purifier, Hood's Sarsaparilla, and a box (200) Peptiron Pills; take one teaspoonful Hood's Sarsaparilla before meals, and two pills after meals. What are these medicines made of ? Why, I understand the formula for Hood's Sarsaparilla is similar to preblood impurities, scrofula, rheuma-tism and such complaints, for of course Hood's expert chemists know as much as any of the regular profession about ingredients indicated in such troubles. And Peptiron Pills are a new combination of pepsin, iron, manganese and other blood tonics and strength builders. Iron is great to increase red corpuscles in the blood and give it health power. Get the medicines from any druggist.

WEAK, NERVOUS OHIO WOMAN Made Well By Delicious Vinol

Bellefontaine, Ohio. — "My blood was very poor — I was in a weak, nervous, run-down condition. I tried different remedies without benefit and one day my druggist told me about. Vinol. I tried it and it built me up in every way — blood, strength and nerves, and I tell my friends it is the best medicine on earth." — Mrs. EARL BRUNSON. Winol, our delicious cod liver and from tonic without oil, sharpens the appetite, aids digestion, enriches the blood and in this natural manner creates strength. Geo. A Parcher. Druggist. Ellsworth. Pictures of Great Work to be Shown

THE LINCOLN HIGHWAY.

in Elisworth May 30. The Lincoln Highway feature film which is to be shown in Elisworth May 30, under the auspices of the woman's club, in addition to featuring road construction, points of exceptional beauty and geo-graphic interest, will also present views of the most historic points along the route.

As the Lincoln highway follows closely As the Lincoln highway follows closely the old trails made famous in the East by the passage of Colonial and British, Fed-eral and Rebel troops, and in the West by the early settlers and Indian fighters, the "pony express," the 49ers, and the van-guard of civilization who braved a thousand dangers and hardships in laying the Union Pacific, historic interest teems along the way, and in the film the spectator is treated to a moving panorama across 3,400 miles of America's most historic ground. Almost immediately upon leaving New York, interesting historic points are passed. The Delaware is crossed not far from the point where Washington em-barked his tattered host on their perilous course smid the floating blocks of ice. The film journey across Pennsylvania runs like a page from the nation's most thril-ine history. In Paoli near Philadelphia, the road runs but a step from Valley Forge, where Washington's troops spent the awful winter of 1778." In Ohio, onde the old frontier, scenes of Indian tights and massacres abound. As the film progresses across filinois, Jowa, Nebraska, Wyoming, Utah, Nevasa and California, the spectators will continue to torn the early pages of the nation's history; the history of her progress, her development, her achievement. The Lincoln highway film is not only intensely interesting but wonderfally in-structive. the old trails made famous in the East by

MARRIED. TROUT-SMITH.

pretty wedding took place at the e of Mrs. Charles W. Hodgkins on Pine street Monday evening, when her daughter, Miss Sarah D. Strout, became the bride of Lewis B. Smith, of Lamoine. The parlor was tastefully arranged with ferms forming a fine setting for the ceremony The bride was becomingly gowned in white de chine, trimmed with chiffon and taffets, and carried a bouquet of white carnations

The couple was attended by Mr. and Mrs. Leroy Smith, the former a brother of the groom, and his wife an aunt of the bride. The wedding party entered the parlor to the familiar strains of Mendelsohn, finely rendered by Miss Hodgkins, and in the presence of a large number of guests, the nuptial knot was tied by Rev. A. A. Killam, the single ring service being used.

Congratulations were followed by refreshments, a dainty buffet lunch being served by Mrs. Henry Sargent, and Misses Muriel Byard, Bessie Strout, Olive and Elsie Morrison. A feature of this part of the occasion was the "old maid's cake" Miss Elsie Morrison getting the wedding ring, her sister Olive' securing the brilliant, while Bernice Estey captured the thimble.

There were many pretty and useful presents, tokens of the good will of many friends. Among the out-of-town guests were Misses Bessie, Alice and Kathleen Strout, of Waterville, cousins of the bride, and Mr. and Mrs. Hoyt Smith, of Lamoine The happy couple was given a strenuous send-off as they departed for Lamoine. They will make their nome this summer in Bar Harbor, where Mr. Smith is employed.

CHAUTAUQUA ASSEMBLY.

Dates Fixed for Ellsworth, July 16 to 20.

The big Chautauqua assembly to be held in Ellsworth the coming summer will open on July 16, and continue until July 20-a big bill of high-class entertainments for five days, mornings, afternoons and evenings. Announcement of the date and the list of talent to appear on the program has just been received by the mmittee. .

The program will be held in a large waterproof tent seating more than a thousand people, to be pitched in some convenient location, and the five days of music, entertainment and lectures promise to be of surpassing interest.

The course has already been booked in about seventy-five prominent cities and towns in New England, Long Island and also New York city. The same program will appear here as is to appear in New York.

OBITUARY.

Webster McFarland died Saturday evening, April 29, after a lingering illness, at the age of sixty-five years. Mr. McFarland was the son of the late Moses and Mary Eaton McFarland, and was born in Lamoine, coming to Brooklin in 1865. At an early age he engaged in the fishing business, which he continued until about five years ago, when, on account of ill health, he was obliged to give it up. He and his brother-in-law, George Holden, operated fish weirs at Flye Island many

He was a member of Brooklin I. O. O. F. lodge, and for over forty years he had been organist at the Baptist church. He will be greatly missed, not only in the church, but in all gatherings where his music was greatly, enjoyed.

He leaves a widow and three daughters - Miss Adele and Mrs. William Wilkins, of Somerville, Mass, and Miss Helen, of this place; also three sisters-Mrs. Mary Young, of Webster City, Iowa; Mrs. Phebe Bray and Mrs. George Holden, of this place, and two brothers- Veranus, of Reedville, Va., and Stephen, of this place. Mr. McFarland was a staunch republican, a good neighbor, faithful friend and loving father. The sympathy of the community goes out to the family. Services will be held at the home Tuesday afternoon.

COUNTY NEWS. COST OF STATE ROADS. Variable Factors Must Be Taken Into

The cost of a road is dependent upon not only the type of construction, but the amount and character of grading to be done, the cost of labor and materials, the width and thickness of surfacing, the character and amount of drainage required and other factors of equal variability. Based upon general averages, it has been ascertained by highway specialists of the department that under average conditions macadam roads can be built in southern states at from \$4,000 to \$5,000 per mile, gravel roads at from \$1,500 to \$2,500 per mile and sand-clay and top soil roads at from \$800 to \$1,500 per mile. Avoid Spring Colds. Sudden changes, high winds, shifting sea-sons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New 5Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. It's already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery, tested and tried for over 40 years.

Washington Square Retains Old Time Fertilizer Damages Crops-Sugges-Characteristics. tions as to its Proper Use

Americans of old stock take pleasurable pride in seeing cherished the country over everything that has survived from ances-From Maine Agricultural Experiment Sta-During the summer of 1915, several fields of, sweet corn and potatoes "stood still" tral days. About the Washington square

district in New York an old-time air and a "neighborhood" atmosphere still linger. early in the growing season. Many fields The residents of this section of the city contained missing hills. Investigation showed the damages due to fertilizer "burning" the seeds and seed pieces. are able to escape from the mad rush of the metropolis and enjoy a quiet which may be compared to that which pervades a small New England city.

The following extract from the New York Times will interest those who love to preserve the traces of an older time:

"The Washington square region is one of the few districts of New York that have kept much of their old look, character and charm. Those sober brick houses of the north side have come to have a stateliness, at least a dignity. If around the square there are some intrusive new comers, if on the east we miss the old stone University building, where it seemed. thirty years ago, that almost every bachelor of the village had roomed some time or other, yet the intruders will be getting old, some of them are respectable of years already; and the 'old' University building, was scarcely a model of archi-

tecture. "Lower Fifth avenue, nobly ended by the Washington arch, itself a comparative freshman, is one of the most agreeable parts of the town. Some of the side streets are largely unspoiled. The Salmagundian on his way down West Twelfth street sees the windows where Thurlow Weed used to be visible in the brave days of old. The trim houses of West Eleventh street are trimmer than ever. The hotel that used to be the palace of foreigners and swells, in simpler days, still stands.

Of a spring day, or in any praiseworthy weather, there is something mighty pleas ant about lower Fifth avenue. Memorie of mild celebrities, 'literary and artistic associations,' abound. The apartment houses are venerable, for New York, if not excessively beautiful. One forgives the motor omnibuses. They are so handy for those of us who love to study sociology from the roof.

"It is good to see that those benevolent land monopolists, the trustees of Sailors Snug Harbor, are going into apartments or studios in the province of the Washington square domain bounded by Eighth street,

University Place-alas, that its fine old 'mansions' are no more! - Washington Mews, and the rear of Fifth avenue property. The shops must 'go'. The Wash-ington square country is to be pruned of excrescences, furbished up, made comely, worthy of Washington square traditions."

Which Do You Prefer?

Abt erus ments

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

COUNTY GOSSIP.

Governor Cartis has nominated William B. Blaisdeil, of Solivan, public adminisrator for Hancoes county.

Last Friday George Cunningham, of West Ellsworth, missed a sheep from his pasture, and going to search for it, came across a bear eating the carcass. The bear had boldly entered the pasture -- a small one near the buildings, and mostly open land-killed the sheep and dragged it through the fence. Mr. Cunningham thinks the bear had cubs near by.

Our West Franklin correspondent reorts the capture there of a rare birdthe first of the kind ever seen there. The bird was captured Tuesday of last week by Athol Smith, who was working on the log drive near the railroad bridge. For a while it had all the local ornithologists guessing, but after much discussion and research, it was identified as a blue rail, native to Florida, but smigrant in summer as far North as Canada

The same tame moose which visited Walthato a few weeks ago, was making calls in Eastbrook last week. Wednesday night, when returning from work, Grafton Googins and David Wilbur found her wire fence, she rubbed off the bell that been mother. Wilson Googins, of Waltham, put on while she was there. Mr. Wilbur got a horse bell, one much larger, and they put that on her, drove her through the neighborhood, and then let her go back to the woods. Unless someone ties her up, or breaks her to a plow, it is feared she will be too neighborly for the good of the gardens in the vicinity.
