trounced the Station team by the

Day and Regatta

Camp Medomak, one of the largest
summer camps for boys, held its an-
nual regatta and field day Tuesday,
with more than 230 taking part. A
large number of spectators enjoyed
the sports.

The Cubs, Juniors, Seniors and
Rangers competed in rowing, pad-
dling, swimming and diving.
In field events the boys divided into
four tribes, Senecas, Mohawks, Dela-
wares and Navajos. In the evening
the parents, guests and friends at-
tended the outdoor theatre, when
"Ambrose" a two-act play by Stuart
Walker, was presented.

Outstanding competitors were Da-
vid Crawford of Watertown, Robert
Williams of Belmont, Don Sutherland
of Athol, Dick Scott of New York,
Stewart De Bard of West Newton,
Vincent Wentworth of Auburndale,
Stephen Hall of South Norwalk,
Conn. Bernard Webber of Bedford,

Frank E. Poland, director of the camp,
and Ormond Loomis were in charge of
the program.

Rockland 4, Camden 0.

Hats off to Wendell Thornton who
blanked the Camden team on its own
field Tuesday night, after having
pitched seven innings against the St.
George team on the previous night.
His work was so inspiring to his
team-mates that they plucked ahead
for the victory which restored them to
second place in the league stand-
ing.

Seavey had a busy time of it in
shortfield, accepting all of his nine
chances. Thurston the Camden sec-
ond baseman had the same number of
chances, with only one misplay.

Rockland 11, Thomaston 1

Thomaston played listless and mel-
ancholy ball at Community Park last
night and the result was the first
one sided and uninteresting game
that has been played in the Knox
County Twilight League thus far.
The redeeming features of Thomas-
ton's ill-starred exhibition were the
work of Benner at short and the outer
garden performances of Vinal and
Chaples.

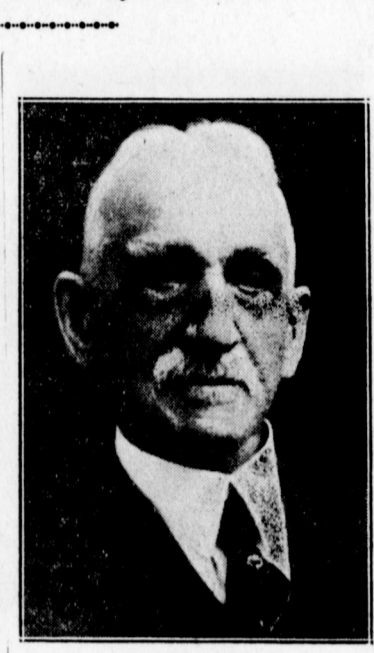

Jones, without apparently extend-
ing himself, held the visitors to five
singles. Thomaston's solitary score

NOTABLE MAIN STREET BIRTHDAY

Capt. J. F. Gregory and Alva W. Gregory Built On Firm
Foundation Back In the Days of '89

Alva W. Gregory, President and
Manager of the Corporation, Who
Pioneered "One Price" in Rockland

Capt. J. F. Gregory, Founder of
Gregory's, Who Retires At 89 In
Order To Have Time To Play

General congratulations are being
accorded J. F. Gregory Sons Co. on
its 41st birthday anniversary which
will be observed Friday at the store.
Few business houses pass the two
score mark with colors flying as in
this case. The firm has only this
year completed a thoroughly modern
remodelling which makes the plant
probably the largest and most up-to-
date men's furnishing store east of
Portland.

The firm began its career in mid-
August back in 1889 at 421 Main
street in the property now owned and
occupied by M. Berman & Son, under
the firm name of J. F. Gregory &
Son and included Capt. J. F. Greg-
ory and Alva W. Gregory. The
new firm proved a lusty infant and
in 1891 was forced to seek new and
larger quarters, moving to the store
in the then Farwell block, now occu-
pied by the F. W. Woolworth Co.

This was the business home until
1901 when the big fire in Kimball block
opened the way for the firm to secure
its present fine quarters, the double
store at 416-418 Main street.

The firm incorporated in 1913 with
A. W. Gregory as president-treasurer
and Seabrooke Gregory as clerk and
the corporation is extant today with
A. W. Gregory still at its head.

Shortly after the incorporation, fire
visited the block but the store was
not seriously damaged. Last Septem-

ber the veteran Capt. J. F. Gregory,
aged 89, retired from active service
at the store, feeling that he wanted
to quit while he was still young with
time to play. At that time it difficult
to keep out of the harness and
frequently lends a hand during rush
hours.

Along about 1920 Ralph U. Clark
joined the staff and has since gained
a wide reputation as a window
dresser. He has entire charge of this
department and the firm spares no
effort or expense in making its win-
dows attractive. In addition to Mr.
Gregory and Mr. Clark the store staff
includes Mrs. Susie Campbell, book-
keeper, Harold Whitehill and Robert
Gregory.

The Gregorys started business with
two brand new ideas for 1889—high
quality merchandise and one price—a
trade doctrine religiously adhered to
down through the years. At that
time the average price of a suit
was \$15 and the new store put in a
quality to require \$30. In addition a
rigorous "one price" doctrine was
pioneered in a day of hours-long
haggling and barter. The merchants
on the street openly scoffed at the new
ideas and predicted a speedy collapse
of the venture, but time has proven
that the Gregory idea was right.

Today the name "Gregory's" is
synonymous with quality merchan-
dise and the one price idea.

NO UNSAFE CARS
Should Be Used On Maine
Highways — Save-A-Life
Campaign

Gov. Gardiner announced Monday
that he is very gratified at the
response of the motorists to the Maine
Save-A-Life motor vehicle inspection
campaign. He said it is his desire to
see all motor vehicles bearing Maine
registration plates bearing the official
yellow and black inspection sticker
on the right-hand corner of their
windshields. This is an outward
sign, he said, to all people that the
car is not only safe but that the op-
erator of that machine is a careful
driver and is cooperating with the
State of Maine to reduce motor
vehicle fatalities.

State police from now on until the
end of the campaign will remind all
owners of motor vehicles not bearing
the official windshield sticker of their
responsibilities in this campaign, and
the owner of that motor vehicle may
be subjected to a police inspection.

No unsafe cars should be on the
highways of Maine. The Save-A-Life
campaign is a worthy movement and
the purpose is to save human lives
and prevent injury, first, to the people
of our state and, second, to make our
highways safer for the many visitors
that use our beautiful state during
the vacation time. It is hoped that
at the end of the campaign every mo-
tor vehicle will have been inspected
and that Maine will take the lead of
all other New England States by hav-
ing inspected more cars in relation
to the number of cars registered in
each state.

All civic organizations, the press
and other civic agencies have been
called upon to lend their wholehearted
support in an endeavor to save human
lives and to prevent automobile acci-
dents. About ten more days are left
for the Save-A-Life campaign. Over
800 official stations are located
throughout the state and these 800
stations have been carefully selected
by the state officials and are ready
to give a free inspection to all motor-
ists. The inspection, consisting of
brakes, lights, horns, steering
mechanism and other safety factors.
There will be no good reason for
any motorist not having availed him-
self of the opportunity of obtaining
the official windshield sticker which
signifies that his motor vehicle is
safe for the highways.

O'BRIEN-McDONNELL

The residence of Rev. H. R. Win-
chenbaugh was the scene of a quiet
wedding ceremony Tuesday evening
when he tied the knot which united
Francis J. M. O'Brien, one of Rock-
land's new residents, and Miss Con-
stance K. McDonnell of Cambridge,
Mass. The couple were attended by
Mr. and Mrs. Cleveland L. Sleeper, Jr.
The bridegroom is a son of Walter
A. O'Brien a Portland railway mail
clerk, and is in charge of the Port-
land Evening News circulation inter-
ests in Rockland and Belfast and
covers the news field for that paper.
The bride is a daughter of Charles
H. McDonnell a well known Portland
musician.
The couple will reside in Rockland,
where they are cordially welcomed.

THE LIONS CLUB

Learns Very Interesting Facts
About Cement As Told
By Mr. Sonntag

The presence of Wildan Thomas, a
feature artist on the programs of
Station WIIAS, Louisville, Ky., and
the initiation of a new member were
among the several features of the
Lions Club noonday luncheon at Hotel
Rockland yesterday.

Mr. Thomas sang several selec-
tions, his parody on "Where the River
Shannon Flows" making an especial
hit. The pep which he displayed in
leading the chorus numbers was also
much appreciated by the members.
The new member initiated was Earle
C. Dow, county treasurer, who has
been on the waiting list several
months. He gave the lion's roar in
most approved fashion, although some
doubt was expressed as to whether
he actually touched the floor each time
as prescribed by Tamer Saville.

The story of cement was told in a
very concise and interesting manner
by Carl H. Sonntag, conservation
engineer of the Lawrence Portland
Cement Company. Reviewing the
early history of this commodity he
said that there was much guesswork
and little chemistry in its prepara-
tion. The only successful plants in
England were constructed by Ameri-
can engineers.

Mr. Sonntag exhibited a specimen
of klinker which he dug from the
ruins of the plant near Snow's ship-
yard built by the late Francis Cobb,
and which was sold after having
been exposed to the elements more
than 50 years. "They made good
cement there," said the speaker, "but
after a year and a half of operation
found that they could not compete
with imported cement."

The Lawrence cement company
was organized in 1832, an dwo mem-
bers of the fourth generation of
Ackermans are still active in it.
The plant at Thomaston was in no
sense a promotion scheme and no
stock issue was floated. "It is the only
one of the 165 cement plants in this
country which is running to full
capacity," said Mr. Sonntag, amid
heavy applause. "It is a straw show-
ing that New England is coming into
its own," he continued.

The speaker offered the interesting
bit of information that 35,000 tons of
stone will be shot down in one blast
at the Thomaston quarry this week.
The concern is shipping 29 car-
loads a day; its annual payroll is
about \$230,000; its freight bill is in
the vicinity of \$35,000 a month; em-
ployment is given to 180 men at the
present time.

Yesterday's guests were Ralph
Johnson of the University of Ken-
tucky, Jack Sinfant and Dr. A. H.
Chase of the Boston Club.

Albert Dodge presided at the piano.

CHOSEN HONOR MAN

Distinction Comes To Rock-
land Boy At Newport
Training School

A recent issue of the Newport Re-
cruit contains a portrait of Benjamin
Cohen, who has been chosen honor
man of the 21st company. The young
seaman is a son of Joseph Cohen,
formerly of this city, and a brother
of Harry Cohen, proprietor of Knox
Book Store. The Newport Recruit
said:

"Cohen, Benjamin, apprentice sea-
man (201-39-54), has won the dis-
tinction of being the honor man of
the twenty-first company. He was
born Oct. 8, 1899, at Rockland, Maine.
He is a graduate of Boston English
High School.

"He enlisted at Boston, Massa-
chusetts, Jan. 2, 1929. He passed the
test for and expects to go to the Hos-
pital Corps Training School, Port-
smouth, Virginia. When his com-
pany was formed, he was chosen as
apprentice chief officer. He per-
formed his duty in a highly satisfac-
tory manner and presents a clean
and neat appearance and carries him-
self in a military manner.

"His parents, Mr. and Mrs. Joseph
Cohen, 15 Wabeno street, Roxbury,
Mass., will be delighted to learn that
he is doing so well in the Navy."

THE KENNEBEC SHERIFF

John F. Choate of Waterville, past
commander of the Department of
Maine American Legion, has been
nominated by Gov. Gardiner for
sheriff of Kennebec County, to suc-
ceed Chester W. Getchell, who re-
signed Saturday at the request of
the Governor and whose resignation was
promptly accepted

The Courier-Gazette
THREE TIMES A WEEK

Rockland, Me., Aug. 21, 1930.
Personally appeared Frank S. Liddle, who on oath declared that he is Pressman in the office of The Courier-Gazette, and that of the issue of this paper of Aug. 19, 1930, there was printed a total of 6340 copies.
Before me, FRANK B. MILLER,
Notary Public.

And who is he that will harm you, if ye be followers of that which is good?—I. Peter 3:13.

The County Commissioners, in their session Tuesday, agreed that under the present rate of county expenses there would be a reduction in the tax rate for 1931 and 1932. Unless something unforeseen happens, the cut in county taxes will be fully as large, if not larger, than the cut made for 1929 and 1930.

We regard the above statement as exceedingly interesting to the taxpayers of the county, at the time when they are to give in their votes for officials who shall carry on the affairs during the ensuing two years. The reductions in the tax rate are the result of careful and intelligent administration of public business. The commissioners have not been niggardly in their policies. There have been many improvements wrought in the county buildings, repairs that have waited upon a convenient season, and the modernizing of portions of the courthouse interior which had in certain of its rooms gone out of date. The commissioners are to be congratulated for this favorable showing, upon which there is no question the taxpayers will heartily register their commendation.

The Brockton fair dates are changed this year. This great New England exhibition will open Sept. 9 for five days and nights. This is three weeks earlier than usual, and the chill that accompanies October nights will thus be avoided. Announcing this change the Boston Globe says: "In addition, the advantages of daylight saving will give the afternoon arrivals a better opportunity to inspect the exhibits. Another point is that flowers, fruits and vegetables are at their best then, and this important department of the fair will be more striking than ever. In line with the spirit of the times, the management has arranged tercentenary features for each of the five days. The first four days of the fair will be given over to the elaborate horse show and to the light-harness racing, while the dog show will also be in progress. On the concluding day the track will be taken by automobile racers, including some of the best-known, dirt-track speedsters in the world. Thrills aplenty are assured. A firemen's muster also will have its place on the program.

Rev. Harry C. Leach, who with his family is occupying a cottage at Pleasant Beach, and will preach at the First Baptist Church next Sunday, is a native of West Rockport and was baptized and became a member of the Rockland church, following which he and Mrs. Leach were missionaries in Burma for three years, where two of their three children were born. Upon their return to this country, Mr. Leach was located in Pittsfield, Mass., for eight years and then became pastor of the First Baptist Church in Hackensack, N. J., where he is completing his fourteenth year. His two daughters were graduated from Wheaton (Ill.) College this year.

Scout Executive John W. Thompson, who is soon to take up his new duties in Quincy, Mass., visited the Scout camp "Massasoit" at Bourne-dale, near Cape Cod Canal this week, and had the pleasure of meeting the entire executive board and attending a meeting of the Scoutmasters. The camp has a capacity of 200 boys and is splendidly equipped. Quincy has 675 Boy Scouts. Mr. Thompson has devoted the past five years to Scout work in Rockland and was a Sea Scout director for one year in Boston before coming here. "Rockland will always be home to me no matter where I go," Mr. Thompson told a Courier-Gazette reporter yesterday.

The steam yacht Aztec, which served as Commander C. F. Snow's flagship during the World War was in Rockland harbor yesterday, having been restored to the possession of her former owner Mr. Burrage, from whom she was taken over by the government when Uncle Sam took a hand in the big disturbance across the water. The Aztec visited this port a number of times during the war in order that the officers might inspect the Naval Training Station then in existence here. Capt. William F. Lakeman of Rockland was in command at one time. The yacht is 262 feet long, and attracted much attention along the waterfront yesterday.

Scout Executive Herbert Patrick of the Portland Council will be here early in September to arrange his program with reference to the Boy Scouts of Pine Tree Council, which will hereafter be under the direct supervision of the Portland Council, as one of its districts. It is understood that a full time Scout executive will be sent here.

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds, was always bothered with pains in my back and lower part of abdomen and sides.

"Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say.

"I shall never be without Kruschen Salts, will never cease taking my daily and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1929. "P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at David L. McCarty's, and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast—walk a little each day. Do not overeat.

Look for the Banner on the pump

Why SOCONY BANNER is a better gasoline—

BECAUSE it's made to start quickly—the proper amount of low boiling points in this new Socony Gasoline gives a new meaning to quick starting.

BECAUSE it's made for instant pick-up—the intermediate range of boiling points in this new Socony Gasoline gives you the fastest pick-up.

BECAUSE it's built for power—the proper percentage of power-producing boiling points in this new Socony Gasoline gives added power which you feel the moment you use Banner.

BECAUSE it gives maximum mileage and economy—the exacting range of boiling points of Banner makes it burn clean with the minimum of carbon and dilution, which means more mileage at less cost.

BECAUSE it has high anti-knock value—comes by this high anti-knock rating naturally since it is made only from those crude oils in which this characteristic is inborn.

BECAUSE it is gum-free—the annoyance and expense resulting from gum-sticking valves and other parts are entirely absent.

These are facts based on actual road tests made in Portland, Lewiston, Augusta and Bangor, August 7th, 8th, 9th and 11th.

1. Socony Special plus Ethyl... the best premium gasoline.

2. AND NOW... the new Socony Banner gasoline excels in the popular-price class.

IT'S here in your own home town NOW! With extra power that you can feel. With more miles from every gallon... you can count them. With quicker starting... you can see it... and that goes for pick-up, too. Not a knock on the steepest hill! No wonder that motorists are telling each other: "It's the better gasoline!"

Try it today. Join the thousands of motorists who are driving straight to the Banner pumps... the busiest pumps in town.

Home From Europe

On their return they were met in Portland by W. T. Smith and finished the journey to Thomaston by automobile, arriving home at 2 o'clock Sunday morning, weary but feeling that the voyage had well repaid its cost. In time and money, in Ireland the travelers noted the vegetable gardens, which made a pleasing impression, planted in small patches of ground surrounded by hedges, the many shades of green being delightful to the eyes to dwell upon. In Scotland the Gap of Dunloe near Lake Killarney gave opportunity for a pony-back ride to the younger set of the traveling party, when photographed, the picture disclosing young Smith of Thomaston. In Germany the countless miles of wheat fields and the friendly and courteous manner of the people made a lasting impression upon the visitors. The river Rhine, celebrated for the beauty of its scenery, excited their admiration. England's castles and other noted buildings were enjoyed. There were

JOLLY "OLD FOLKS"

Observations On the Three-Quarter Century Club Jamboree In Waterville

Editor of The Courier-Gazette:—

The Three-Quarter Century Club had certainly a not very cheerful outlook on the morning of the fifteenth, for the sun refused to shine, the skies were dark and threatening and long before Waterville was in sight the rain came pouring down, but when reached the fair grounds all outside troubles were at once forgotten, for each new arrival was met at the door by young and active members of the reception committee who had anticipated every want and were prepared to show us every attention.

New members were escorted to the registration department and given badges; boxes, baskets and other superfluous articles were checked and cared for, and information, both oral and printed was provided.

Speakers were there from many different places, one brisk little woman coming from far-off Florida to be with us on that special day. Other entertainment of varied and interesting kinds was continuous and kept us all busy and happy every minute.

"Melba" and "Gram" did their full share and were enthusiastically received. The talking dog was a darling and sang with his mistress in a sweet little voice which was not at all dog-like as he didn't bark his syllables as he had expected, but rather trilled them, reminding one of a bird, rather than a dog.

The fiddling contest was won by our Rockland representative F. S. Philbrick, who was applauded at the end of each number and when he wound up with "Marching through Georgia" everybody joined in and sang "to raise the roof."

At noon hot coffee, milk, Poland Spring water and paper tumblers were provided and everything possible was done for the comfort of the guests. Did a tired woman put her head on a railing and bow her head on her hand for a moment, some one was immediately at her side, asking if she was ill or if she would like a hot drink or if assistance of any kind could be given.

The band played at intervals all day and it surely was "some band!" The best I have heard for many years, for they played with vigor and vim, just as if they enjoyed every note themselves and were "in it" as we sometimes say of frolicsome children.

On the return trip our chauffeur proved himself a very kind and thoughtful young man, for he drove out of his way in all that pouring rain to get us to the State House at Waterville.

Both the car and its owner, as well as the gentlemanly and patient chauffeur were certainly appreciated by the guests, and to one at least of the party, August fifteenth will stand out in their memory as the happiest day of the year.

In September they return to Mill City where they will have their home. They are the recipients of many gifts and have the warmest wishes of their many friends for the future.

visits to the Tower of London where the crown jewels were seen, and to Windsor Castle, one of the homes of the king and queen. A trip in the London subway, 300 feet underground, awakened a feeling of awe in William. The only unpleasant incident of the trip occurred in Belgium, where the German train bearing the tourists was refused admission to the city of Brussels. All schools will begin Tuesday Sept. 2nd for the fall term of fifteen weeks. The only changes in the teaching force the coming year will be at the East Union school, which will be taught by Mrs. Merle Messer, a teacher of experience, who is well known in town; and at Stone school, which will be taught by Miss Doris Overlook of Washington, also an experienced teacher, who has many friends here.

It will be generally regretted that Mrs. Mitchell, who taught at High School for the afternoon sessions the past year, cannot teach the coming year. As yet no one has been secured for this position.

Because of the Primary School having so many pupils and five grades, parents are asked not to send children to that school this fall, unless they are at least six years of age by January 1st, 1931. Not only do five year old children take far more of a teacher's time than can be given to other pupils, but very often these young pupils have to take the work of the year over, frequently feeling that they are failures, which is often very depressing to a young child, who does not realize the fact, that his failure is due to his being too young to do the work.

Mrs. Spear was born in Rockland and this city had always been her home. She was the daughter of Edwin and Elona (Robbins) Lovejoy, and was married at the close of the Civil War to Thomas Benton Spear, who served in the Fourth Maine Regiment, and who was associated with the late G. L. Farland in lime manufacturing under the firm name of Farland & Spear. Mr. Spear died 47 years ago. In this long period of widowhood Mrs. Spear has found solace in the companionship of her children, Edwin B. and Walter H. Spear. Home was ever first in her affections. She was also greatly devoted to the Universalist Church of which she was a member, and even in

her later years she was an active worker at the fairs and other church events.

The funeral services will be held at 2:30 Friday afternoon at the residence of Walter H. Spear, 74 Beech street. Rev. George H. Welch officiating. The interment will be in Achorn cemetery.

Suggestions about reducing the Navy promptly bring all the Rear-Admirals to the front.—Southern Lumberman.

A BEVERAGE TREAT— is always welcomed. Morning, noon and night, a delicious drink of soda brings grateful relief to parched throats by banishing thirst. A liquid treat of this kind can be leisurely enjoyed here at one of our convenient tables which permits you to rest while you refresh yourself!

CARIBOU'S AIRPORT

Opened Yesterday With Big Celebration—Is Municipally Owned

Yesterday at Caribou occurred the official opening of Maine's only municipally owned airport, and the northernmost aviation field in the United States. Gov. Gardner was guest of honor and delivered an address Wednesday, which was set aside as Governor's Day.

More than 20 well-known birdmen, among them Army and Navy fliers, were present, and competed in the air circus which was a feature of the celebration. A masquerade and torch parade preceded the masque ball at the hangar. Prizes were awarded for the most original costumes.

Thursday's program included addresses by Senator Gould, Congressman Snow, Senator F. W. Mitchell, and Hon. Ira G. Hersey. A banquet was given the visiting aviators at the Caribou High School gymnasium.

Caribou Airport was started in 1927 when a number of local business men headed by George W. Shaw, J. C. Briggs, O. L. Keyes, and John H. Wilson selected a broad plateau of 90 acres more than 800 feet above sea level, and a half mile from the center of the community. Through their efforts the town was induced to appropriate \$11,000 for the erection of a modern hangar 80 feet wide and 60 feet deep with an overhead clearance of 18 feet.

A LIVELY CONTEST

The Gasoline Derby of Next Week Has Created Much Interest

Much interest is being manifested in the Gasoline Derby about to be staged by the Sea View Garage. Registration have already begun and so many people have signified their intentions of entering the contest that the management is contemplating using two cars instead of one.

Some interesting figures should be available through this contest. Mr. Palmer promises a high and an average mileage figure for both women and men drivers. This feature of the derby alone has aroused much interest and the men had better look to their laurels. Reports indicate that the ladies are going after these prizes in earnest and despite the prevailing opinion, we have some splendid women drivers.

Mr. Palmer has gone over the details of the contest very thoroughly with the writer and proved that no tricks to secure high mileage figures are employed. It is a strictly stock car being used and every one will drive over the same route and have exactly the same amount of gasoline. It is a good sporting contest open to every one holding a driver's license. May the best man or woman win.
