No letter from June 5, 1918, could be found in the text provided. The text begins with a letter from June 6, 1918.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham’s Vegetable Compound
Helps Her Health.

New York, N. Y.—For about three years I have suffered
with nervous and general health breakdown. It was so
bad that I could not work in the store, and I was
so nervous that I could not sleep at night. My
head ached, and I was not able to do anything.

I first used Lydia E. Pinkham’s Vegetable
Compound about three years ago, and I am
able to work full time and do not have the
nervous breakdown I had before, and I can
sleep at night, too. I am very happy and feel
great. I am now a salesman for the Lydia
E. Pinkham’s Vegetable Compound Co.

Sincerely yours,

[Signature]

A CRY OF DISTRESS

Dear Miss Pinkham,

My husband is an invalid and has been so since
1911. He has suffered from nephritis and
electric shock. He is covered with wounds and
is in a state of despair.

If you could help him, it would be a blessing.

A CYCLE OF DISTRESS

Dear Miss Pinkham,

I am unable to work and have been in bed for
months. I know you can help me. Please send
Lydia E. Pinkham’s Vegetable Compound.

A CYCLE OF BLESSING

Dear Miss Pinkham,

I am a widow with seven children, all of whom
are physically healthy. Your Vegetable
Compound is a blessing to me.

A Man Famine

IN common with other countries involved in the World War, the United States is now suffering from a depletion of its business forces because of the large number of men who have entered the service of the government in the business of war. This condition is likely to become more acute in the near future. Business effort is further hampered by the cancellation of many trains on the railroads and by congestion of traffic.

What's the answer? Conservation!

This is the watchword, the slogan of the day—We are asked to save food, coal, materials of every kind, yet little has been said about the CONSERVATION of TIME, TRAVELING EXPENSE, etc., which are also matters of great importance.

The most effective aid to Conservation is the telephone because—

It is the quickest means of communication and thus conserves time.

It enables one man to do the work of many and thus conserves labor.

It is surprisingly effective of results, being equal and sometimes superior to a personal call. It thus increases business efficiency.

It is economical—when properly used—what can be so accomplished by a telephone interview of a few minutes' duration, requiring several hundred words of conversation, is, therefore, conserve many hours.

Why not make "Conservation by Telephone" your slogan?

NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY

PE-RU-NA

Those who object to having one more blimp above our native skies.

Mrs. Sarah M. Miss, 116 Clark Street, Rocklin, City, Michigan, writes:

"I was very sick with Cattarh and Bronchitis. I also had a cold in the head. I used Persil and am now well. I am pleased with the results. It has done me a great deal of good and I cheerfully recommend it for such cases. I am so well I am going to visit frequently at any one who has a cold in the head. I am also going to recommend my name to others. I have found a real 'dry cure' and will advertise."
MRS. M. J. BURGER, 19 E. 45th St., Portland, Ore.:

My words are now powerful enough to do some strong justice to the young men in the ranks of the profession. And I wish to say something, if possible, from the heart of one who has been through the experience of having to

**Famous Buildings Wrecked**

Nineteen U.S. Crafts Enter in Largest-Attacked Airship Assault Since the War's Beginnings.

An Atlantic Fort-Thrill-Crowd 

Aircraft airships on a Paris airfields, Paris, were by American passenger planes, the first to ever be shot down by a German plane during the war. The German planes took part in a French airstrike, according to the passengers. The attackers failed to make their mission, however, as the German planes were dropped during a treacherous night. The Americans, according to a passenger, appeared a bit shaken up. 

**Army Trucks Complete Long Trip from Detroit to Atlantic Seaboard**

A military freight service has been established by the government of the United States for the transport of supplies to the front lines. The first trucks of 300,000 tons of supplies were sent from Detroit to the Atlantic Seaboard. The trucks were two French vehicles. Two of the magnificent curry supplies for all. The photographs show the standing truck was a difficult row of headstones.
