

**WAS TORTURED FOR TEN YEARS**

With Terrible Stomach Trouble Until She Tried "FRUIT-A-TIVES".

MRS. F. S. STOLZ

8807 Sacto Ave., Sacramento, Cal.  
"I had Stomach Trouble for 10 years, which became so bad that I got Stomach Cramps two or three times a week.  
After years of terrible torture, I read about 'Fruit-a-tives' or Fruit Liver Tablets, and sent for a trial box and wrote that it was the last remedy I would use—if 'Fruit-a-tives' did not help me, I would die.  
After taking the trial box, I felt better, so kept on taking 'Fruit-a-tives' for nearly a year, and am thankful to say 'Fruit-a-tives' saved my life.  
It also saved a friend from an operation for Stomach Trouble, after he had given up all hope of getting well."  
Mrs. F. S. STOLZ.  
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price, by FRUIT-A-TIVES Limited, OGDENSBURG, N. Y.

Twelve Tire Tests No. 5

Price

YOU owe it to yourself before deciding on which tires to buy to compare the prices of various standard makes. You should, of course, also remember quality.

For there are two distinct classes of tires—first, those that are made to sell at low prices; and second, those that are made with the ideal of high quality in mind.

It stands to reason that it is better to buy a tire of the latter class if you can get it at the right price.

Most motorists have a mistaken notion that all "quality" tires are high-priced. But fortunately this idea is not founded on fact.

You will find that Michelins are moderate in price, though they are recognized the world over as unsurpassed for durability.

Our Soldiers.

[To Their Mothers.]

We're gathered here to dedicate this flag flung to the breeze in honor of our boys, who now defend it "overseas"; "Our soldiers"—why it seems as though it were but yesterday that they were little fellows busy with their boats at play.

With smiling face and sob suppressed, with many a heart-wrung prayer, we saw them march away to join the legions "over there".

And so, to-day, these ten bright stars, set in their field of white, to us are blue forget-me-nots, most precious in our sight.

—GRACE THOMPSON MOORE.

Brooklyn, N. Y., May 16, 1918.

The above poem, written for the flag-raising at Prospect Harbor last Thursday, is given a larger place here in the hope that more might read it. Though addressed especially to the mothers of Prospect Harbor, its message, with healing balm for aching hearts, is to all mothers who have sons in the service.—Ed.

MANUFACTURERS OBLIGED TO SECURE SUGAR CERTIFICATES

Food Administration Urges Increased Use of Milk for Children—Asks Farmers Release Wheat.

Orono, Maine, May 29.—According to the new sugar regulations announced by the United States Food Administration through Federal Food Administrator Merrill on Monday.

Under the regulations no retail grocer shall sell sugar to manufacturers using sugar in their products after May 15th without the required certificate.

Sugar For Home Canning. Householders and consumer customers are required to fill out a certificate in order to secure sugar for canning purposes and these certificates will be provided by the retail dealers in each community.

Milk Important Food. Milk is one of the most important food sources the human race possesses.

For the purpose of stimulating growth, and especially in children, butter fat and other constituents of milk have no substitutes.

Wheat. The seventh grade girls invited the boys of their class to a picnic at the Back shore, May 20.

Further Restrictions. Further restrictions against the use of meat have been put in force in England, according to word received by the United States Food Administration.

Binder Twine for Harvest. Farmers are earnestly requested by the Food Administration to place their orders for binder twine as soon as possible, so that the local dealers can provide an early shipment for an adequate supply of twine to meet their harvest requirements.

Further Restrictions. Further restrictions against the use of meat have been put in force in England, according to word received by the United States Food Administration.

Urges Release of Wheat. So great has become the European demand for flour that the U. S. Food Administration is urging farmers not to hold wheat for seeding their next crop except in a few States where the period of harvesting winter wheat overlaps the period of planting.

Unnecessary Tire Sizes.

Regarding government restrictions on the importation of rubber, and the endeavor of tire manufacturers in co-operation with the government to restrict the manufacture of unnecessary tire sizes.

"The intention of the government in the control and restriction of the importation of rubber is to conserve shipping space, and the program that has been laid before the manufacturers of rubber goods has won their unanimous support.

"There is nothing in the present or probable future situation to occasion the slightest apprehension of a shortage of tires for legitimate use.

"There never was a time when users of motor cars could so well serve the nation as by making the most of their cars in legitimate commercial and passenger service, and refusing to hoard or unnecessarily anticipate their needs in tires or other motor car supplies."

Mr. Weston called attention to the fact that the government has not at the present time imposed any restrictions on the use of motor cars by the automobilists of the country.

NEW WATER RATES.

ELLSWORTH COMPANY FILES SCHEDULE AS ORDERED.

PUBLIC UTILITIES COMMISSION WILL GIVE ANOTHER HEARING AT COURT HOUSE MONDAY EVENING.

In accordance with the order of the Public Utilities Commission of Maine, the Bar Harbor & Union River Power Co. has filed with the commission a new schedule of rates for water in Ellsworth.

A comparative study of the new rates and those now in effect shows the following changes:

For domestic uses, private houses with one family, the only change made is on the additional faucet charge, which is \$3 instead of \$4 as at present.

For commercial uses (stores and offices) the first faucet charge is increased from \$1 to \$2, and additional faucets from \$2.50 to \$3.

Under the present schedule there is a different charge for bakeries, drug stores and restaurants—\$10 for first faucet, \$3.50 for each additional faucet.

The special rate for fish markets and laundries (\$10 for first faucet and \$5 for each additional faucet) is also eliminated.

The special rate for photographers and barber-shops is also eliminated.

Practically an entirely new set of rates for meter service has been introduced.

For domestic uses—From 1 to 300 cubic feet, 50 cents per 100 cubic feet per month.

For commercial uses, with the same divisions as to amounts used, the rate is 10 cents less per 100 cubic feet.

For manufacturing plants the new rate is 8 cents per 100 cubic feet per month.

All the present printed rules accompanying schedule as issued in 1916 remain unchanged.

Rule 17—Bills for meter service will be rendered monthly, and will be subject to a discount of 5 per cent if paid on or before the tenth of each month.

# WATER POWERS IN MAINE

Is it necessary for the advocates of the development of water powers by the State to make sweeping statements which are in a large measure untrue and clearly misleading in order to maintain their position on the Water Power question?

In the first place the development at Rumford Falls was not an entirely new development, which made the cost lower than it would otherwise have been, and in the second place the cost of development at Rumford Falls is not a fair illustration from which to make a comparison, for at Rumford Falls there is a water fall of one hundred feet and at Rumford Falls the cost of development is cheaper than is any other power development east of the Mississippi River, excepting at Niagara; moreover, the cost was MORE THAN ONE MILLION DOLLARS, how much more was not stated and the paper quoted was not warranted in assuming that it was but a little above that sum. But on the basis stated the development at Rumford Falls presents other phases of the question which enter into the cost of development. For example, the Rumford Falls Power Co., owing to the class of customers it serves, is practically required to develop more than the amount of PRIMARY power available as a safeguard against accidents, thereby reducing the cost per horse power installed, as against the power earning revenue, in proportion to the excess developed.

On May 2 an editorial in a paper advocating State ownership in referring to the development of 18,000 additional horse power at Rumford Falls at a cost of more than one million dollars, said:

"This is a remarkable achievement. It indicates that the cost per unit of recent hydraulic power is less than \$60.00. Now note the average high charges of electric lighting and power companies selling to the people and of the Haines Futility Court rate regulating upward. Under monopoly right to fix its prices as high as it pleases we shall surely find that the present unregulated and probably illegal Maine water power trust is making oceans of money, as should be expected when one is allowed to charge as high as he chooses.

A statement that cannot successfully be controverted is that the average cost per water horse power in Maine is not less than \$150.00, exclusive of the cost of transmission and distribution.

As an example, the great Azischoos Dam cost one million dollars and the amount of power available at that dam if developed for power purposes is stated to be 7000 horse power, so that the cost without FLUMES, HEAD GATES, or ELECTRICAL EQUIPMENT is still \$131.00 per horse power.

Again the impression is given that because power may be generated comparatively cheap at one point the consumer is paying an exorbitant price for lighting his house or for use of power. Why should not the issue be met in a fair spirit?

The writer of the article quoted must know that it costs large sums of money to transmit electric current from its source to the place of use; that it requires pole lines, transformers, service lines, meters, etc. That the distribution to the customers is one of the largest items of cost and also maintenance; that there is also a loss of power between the point of generation and the meter of the consumer; that the labor cost is largely chargeable to the distribution system.

Why does the writer of the editorial dodge the fact that power that is sold on a constant basis of twenty-four hours in the day and on 312 or 365 days in the year, is a very different matter from power that is sold to a householder for lighting purposes or to a user of a motor for a few hours a day, and where the amount used is but a small fraction of what the service corporation is obliged to be ready to furnish at any time?

Before making statements charging persons who are developing electric power and trying to meet the needs of the public with illegally over-charging the public, why not investigate what a power factor means, what the difference is between primary and secondary which these people who develop water powers have to inform themselves before they can embark on the enterprise.

In this paper quoted above willing to commit the people of the State of Maine to undertake a development costing millions of dollars on the amount of information possessed on this subject as shown by the editorial cited?

## COUNTY NEWS

### ASHVILLE.

Mrs. E. A. Hanna recently visited her sister, Miss Pinkham, in Bangor.  
Miss Ada Bartlett, who has been visiting in East Dixmont, is home.  
The Riverview Local Union will meet with the Ashville Christian Endeavor society on June 11.

Alton Robertson of Vanceboro was in town on Sunday to attend the memorial services of his cousin.

Elliott Sperry of Bangor was in town Sunday to attend the memorial services of his brother, Sgt. Ralph Robertson.

Capt. E. E. Bragdon, who has been in Florida and Massachusetts during the winter and spring, arrived home last week.

Miss Margaret Bain has arrived from New York to open the Schieffelin cottage. Mrs. Schieffelin will arrive on June 11, but some of the family will come as early as June 1.

Mrs. Fanny Leighton has received word of the safe arrival in France of a second son, Curtis. Orman went over some months ago. Mrs. Leighton has three sons in the service, the oldest, Harold, being in training in Alabama.

Several from this place attended the funeral of John Tracy of West Gouldsboro at the Union church, East Sullivan, Wednesday. Mr. Tracy passed nearly all his life at his home on Tracy's Point, Ashville, which he sold a few years ago to Mr. Ogden of New York, who transferred the property to William Schieffelin. Mr. Tracy was a highly-respected citizen, and will be greatly missed by his old friends and neighbors.

Memorial services were held on Sunday morning at the chapel for Sgt. Ralph Robertson, who died in France of blood-poisoning. Rev. George Sparks delivered an able address, in the course of which he mentioned the other boys in the service from this place—Mr. and Mrs. John Tracy, one son; Harold Whalen, now in France; Mrs. Fanny Leighton, three sons; Mr. and Mrs. Beuel Johnson, one son; Mr. and Mrs. Fred Orcutt, one son. The church was prettily decorated with boughs of green, flowers and flags. A large pillow of violets which were gathered by the school children and arranged by Mrs. Estella Robbins, was among the many floral tributes. There were music by the choir, and a solo by Wilton Hanna. The church was crowded, many coming from all the surrounding towns.

### NORTH PENOBSCOT.

Mrs. Abbie Hutchins lost a valuable horse last week.

There was a dance at the hall Wednesday night. Whitney's orchestra of Verona played.

Rev. Mr. Davis, formerly pastor here, now of Orrington, who was here Friday, purchased a horse of Homer Lowell, and returned Saturday.

No minister has been appointed by the Methodist conference to this charge, which has been regularly supplied for more than fifty years. There are too many denominations with minor differences for the highest spiritual efficiency.

A fire set on the wood lot of Roy Billings to burn some brush was not properly controlled, and Friday the wind fanned the embers into a flame which rapidly spread over adjoining lots of J. M. Hutchins and George L. Soper, burning thirty cords of pulp wood and many lengths of fence, besides doing much damage to standing wood and threatening the destruction of Mr. Soper's buildings. A large crew soon gathered and saved the buildings. The buildings of J. G. Leach caught fire in several places, but were saved. A night crew was put on and finally got the fire under control.

### CRANSBERRY ISLES.

Oscar Crantz left Monday for the service.

Mrs. Vida Joy is spending two weeks at Islesford.

Mrs. Charles Gott returned from Portland last week.

Charles Hulbert and family of Franklin are guests at Henry Bunker's.

Walter Stanley will leave Friday for Rockland navigation school.

Mr. Harding, who has been the guest of Mrs. Dellie Harding, left Monday for camp.

Mrs. Roy Bulger and little daughter Hope are visiting her mother, Mrs. Jude, in Ellsworth.

Mrs. Fred Bracy and daughter Florence have returned from Boston where they spent the winter.

Nine of the Mother's club members attended the meeting of the Island Federation at Bernard Saturday, and report a fine meeting.

May 27. ROONEY.

### LAMOINE.

Mrs. A. J. Gibson of Waltham, Mass., is here for the summer.

C. A. Reynolds and wife have arrived from Cambridge, Mass., for the season.

Mrs. Jennie King has opened her home. Her daughter, Mrs. Morris Hodgkins, is with her.

W. K. Salisbury appreciates the timely help which his friends recently gave him in his planting.

Mrs. Cassie C. King is ill of bronchial pneumonia. Her daughter, Mrs. Marcia Chamberlain, is expected to-morrow.

Miss Mildred Smith, youngest daughter of Mr. and Mrs. Jefferson Smith, and Walter West were married in Ellsworth, Friday, May 24, by Rev. J. W. Tickle. The bride and groom are both popular young people of this town. The best wishes of their many friends are extended.

A memorial service, with an address by Rev. Mr. McLain of Bar Harbor, will be held Thursday forenoon at 10 o'clock, at the grange hall. A special service for prayer, in accordance with the President's

proclamation, will be held in the afternoon at the church, to be followed by a corporation meeting of the Forest Hill cemetery.

**The PERUNA Family**

has three members you should know if you desire to enjoy life.

1. The popular liquid form of Peruna—the reliable tonic of the American household, with a long history of success in treating all catarrhal difficulties.
2. The tablet form, which is made after the same formula and is more convenient for many.
3. Manalin, the ideal laxative, by the regular use of which constipation may be overcome and natural action restored. Manalin has no habit forming drug, but is an aid to nature. Your druggist has all three. So many thousands have received benefit from the use of one or both these remedies that they are a recognized part of the equipment of every careful household.
