tariah church, as members of the congregation will go by automobile to Bangor to participate in the centennial ex-ercises of the Unitarian church there. All who wish to go to Bangor should leave their names with Martin L. Adams.

Mr. and Mrs. Pearl S. Thorsen, Mr. and Mrs. Roy S. Warner, Miss Caliste Bauer, and Ralph M. Holmes arrived from New York Saturday, by automobile. Mr. Thorsen and Mr. Warner returned to New York Monday, the others 'remaining for longer visits. Mr. Holmes, who is at present stationed at the government artillery proving grounds at Sandy Hook, N. Y., is home for a week's furlough.

The body of Lieut. William E. Emery, whodied Monday of last week at Fort Oglethorpe, was brought here for inter-ment. At camp he was given a full military funeral, and a firing squad accompanied the body to the train. In Ellsworth funeral services were held Sunday at the Baptist church, Rev. B. H. Johnson, pastor, being assisted by Rev. R. B. Mathews. Many assembled at the church to do honor to this promising young man who gave his life for his country.

Many friends in Ellsworth were pained to hear of the death on Saturday of Frank W. Brackett at his home in Brookline, Mass., where he was for years a member of the fire department. Mr. Brackett's first wife was Elizabeth, daughter of the late Mr. and Mrs. Gideon L. Cook of Ellsworth, and he had been a frequent visitor here. He leaves a widow. The was brought here for interment body beside his first wife and his son. There were prayers at the grave.

Harris Bunham of Ellsworth Fails was arraigned before Judge Crabtree in the Elisworth municipal court Monday, charged with assault and battery on Frank E. Brown. Dunham is alleged to have attacked Brown last Friday, while be was driving a team, striking him twice on the head with a club, and knocking him under the horse's feet. Brown's condition was for a time considered serious. Dunham was bound over for the grand jury, furnishing cash bail. A meeting in observance of food con

servation day was held at Hancock hall Monday evening. The meeting had not been widely advertised, and the attendance was not as large as it should have been. Henry M. Hall presided, and Rev. R. B. Mathews made one of his ringing speeches. Miss Constance Purdy sang the "Star Spangled Banner" and the "Marseillaise," and as an encore a new war song, "The Americans Come," by Fay Foster, which she had received only that morning. Miss Erva Giles sang, "When the Boys Come Home," by Speaks. Chorus Singing of patriotic airs was led by Harry L. Crabtree and members of the Ellsworth festival chorus.

Strangers whose business is not known easily excite suspicion in these days, and are apt to be investigated by the authorities. Sheriff Wescott has had two such cases the past week. Last week reports came from Bluehill that two men were acting suspiciously there. Sheriff Wescott was advised, and intercepted them at Ellsworth as they were leaving. One produced credentials showing that he was employed by a well-known detective agency and was working on a private case. He vouched for the other man, who it happened was employed on the other

Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him.

You sent that boy to school and to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into terrors that we cannot even know-and his faith has not faltered. He knows we will do our part, and we know he will do his.

Are we keeping the faith? Are we scrimping and saving and giving to help our boys do the thing that humanity has asked of them, and to help them come back to us sane and whole?

June 28, National War Savings Day

Saving to help our sons is not to be called by the ugly name of duty or sacrifice. It is love's blessed privilege.

THE PRIMARIES.

Few Contests in Hancock County and Vote Light.

Lack of interest because of few contests caused a light vo e in the primary election in Hancock county Monday. Because of the fict that there were no contests, no general tabulation of the returns was made by THE AMERICAN, and no exact cents; chicken supper, with strawberries figures are therefore obtainable as yet.

There was but one county contest, the three-sided fight between Willis A. Ricker of Castine, Arthur B. Holt of Gouldsboro and Albert K. McBride of Mt. Desert, for the two nominations for senator on the republican ticket. Incomplete returns indicate the nomination of Mr. Helt and Mr. Ricker.

There were contests for the republican nomination for representative in class 5 and class 6. In class 5 Ivory H. Foes of Hancock was nominated over Boyd A. Blaisdell of Franklin, the vote as un-

W. F. Aiken, who has received an ap pointment as an inspector of lumber for the government, was ordered to report in Boston for duty Tuesday, and left here Monday.

Rev. J. W. Tickle has received news that his brother, Corp. T. Tickle, of the English army, was taken a prisoner of war in battle recently, and is now in a German prison camp. Letters received from him say that he is well cared for.

The New York and Bar Harbor express was put on the schedule this week, arriving at Elisworth at 11.26 a. m. and leaving at 4.11 p. m. The time-table on page 5 has been corrected to date. The full summer schedule will go into effect next Monday.

The Holden dramatic club will present he drama, "Home Ties," at Hancock hall Friday evening, for the benefit of the Red Cross. This play has been given successfully in several neighboring towns, and the object for which the play is given should assure a good house here.

Miss Katherine Hardwick of Boston, supervisor of the home service section of the New England division of Red Cross, will speak this evening at Knights of Columbus hall, to all members of the Red Cross who are interested in home service work and in the growing interest of civiliau religion.

Monday reports came from Lamoine that a suspicions stranger was seen there. Commander Westfall of the coaling station was also watching the man, who gave his

name as Wass, and said his home was in Addison. He was brought to Ellsworth, and telephone communication with Addison disclosed the fact that the young man was at times mentally unbalanced. The

authorities from Addison later came to Ellsworth and took him home.

Who Killed the Deer?

Chief Game_Warden J. H. Macomber of Ellsworth is investigating the killing of two yearly buck deer, the bodies of which drifted ashore at East Bluehill last week. Mr. Macomber was notified of the finding of one deer, and requested Walter H. Butler of Bluehill, a former warden, to investigate. When he arrived at East Bluehill, he was shown another deer which had come ashore one-third of a mile from the first one.

Mr. Butler is of the opinion that the deer had been chased or clubbed to death by someone in a motor boat. There were no bullet holes in them. One of the deer had evidently been towed by a rope around its neck, marks of the rope re-

EVERYONE MUST HELP.

Wars cannot be fought without money, and upon the Treasury centers every financial demand upon the Nation.

The rich of this country cannot alone meet the needs of the Nation; the men of the country cannot do it alone; the women of the country cannot do it alone; but all of us, the people of the United States, disre-garding partizanship, forgetting selfish interests, thinking only of the supremacy of right and determining to vindicate the majesty of American ideals and secure the safety of America and civilization, can do the great and splendid work which God has called upon us to do.

They did not cost anything, as the boys caught the smelts in the brook and she dug the dandelions. But she has gone the limit, as it is close time on smelts, and dandelions have gone to seed. Now she is considering what to Hooverize on next. -SADIE.

So are we all "considering," Sadie, so tell your neighbor that she is not alone in her meditations. 1 am sure, however, that deep down in our hearts we are glad to be able to help win the war by going without some of our accustomed cakes. pies and good things, though occasionally this conservational "considering" does get on one's nerves. To the People of Hancock County:

The President of the United States and the Secretary of the Treasury have issued a public call to the people of the United State to pledge themselves during June to buy during this year two billion dollars of War Savings Stamps. These stamps are United States Bonds, bearing four per cent. compound interest, and their purchase price with interest is absolutely gua: auteed by the Government.

Important Notice

The sale of this amount of stamps to the people of the United States is vitally necessary to our military operations, and it is equally vital that the people pledge themselves to save; to avoid unnecessary expenditures; to refrain from using, for personal service, the products of industries needed by our army and navy, and to invest in Government securities to the limit of their ability.

THE PEOPLE OF HANCOCK COUNTY are called upon to purchase War Savings Stamps to the amount of \$708,300 maturity value.

THE PEOPLE OF HANCOCK COUNTY are called upon to pledge themselves DURING JUNE-before June 28- to make this purchase during this year, and to redeem these pledges by purchasing, in instalments if necessary, the amount so pledged, without unnecessary delay.

Thus far, although the year is about half over, the sum subscribed in Hancock county has reached less than \$85,000.

Let us all, for the credit of our county, and the State of Maine, resolve to put Hancock county 'over the top" before the twenty-eighth of June.

We can do this if every tax-payer will do his or her part; if people of means will support these ecurities with the same patrictic spirit that the people of the country have shown in regard to the Liberty Bonds; if everyone who can possibly do so will buy the maximum amount allowed by law-\$1000

As June 28 approaches, let us be able to meet the call of the President of the United States with an answering message that there are NONE among us unenlisted on that day.

Signed:

ANDREW P. HAVEY. County Director, War Savings, Hancock County.

Quotation from the President's Statement:

A JOURNEY THAT WAS UNNECESSARY

"Hello! Mr. Jameson, this is Kennedy of Bangor, Maine, Just arrived in New York this morning and I want to close that deal with you today, if possible. When will it be convenient for me to see you?'

"Well, Mr. Kennedy, I didn't expect you and I am going to leave town in about half an hour to be absent two or three days. Why can't we settle it right now over the telephone?" "All right, Mr. Jameson, that is perfectly agreeable to me:"

The deal was closed and Mr. Kennedy returned to Bangor without seeing Mr. Jameson at all/ Of course he could have accomplished this just as well by telephoning from Bangor and thus saved three days' time and about \$40 traveling expenses. And he hadn't even used the telephone to ascertain if Mr. Jameson would be in town.

A JOURNEY THAT WAS AVOIDED

"Hello! Is that you Mary? I'm so glad to hear your voice. Have just received your letter about John's illness. How is he today? I want so much to be with him and will come if necessary, but Marion is ill, too, and it's hard for me to leave home.

"Mother, I'm glad you telephoned me before leaving home, for the doctor has just been here and says that John is very much better. so it really is not necessary for you to come."

"That is indeed good news. I'm glad that I telephoned you before starting."

The primaries on Monday attracted but little attention. There was no contest for State or national office, only one for county office in this county, and three contests in representative classes. The interest, therefore, was in spots.

Senator Fernald, in an address before the republican club at Westbrook last Thursday evening, had this to say of Congressman Peters: "I wish I had words to express my views of the labors of Congressman Peters of the third district, dean of our delegation. Republican though he is, I want to say to you that John A. Peters is recognized by the members of the House, regardless of party, as a man of sound judgment, patriotism, and who votes as he believes right, regardless of politics or personalities. As a member of the House naval affairs committee he has won a place of high regard."

COUNTY GOSSIP.

An unusual pet is attracting considerable attention at the Baxter shore, Mariboro-a young seal that stays on or near the shore. It seems to like company, and when it sees anyone coming, will make a crying noise and come to meet them. It does not object to being taken up, and seems to enjoy being petted. It has even bad an automobile ride.

Mrs. I. S. Cummings of Ellsworth sends to our office an interesting old copy of the Maine Farmer, dated April 28, 1853. It contains some interesting articles on farming, showing in some instances radical changes from present methods.

Orlando Moore, a former resident of Brewer, and a native of Castine, whose death occurred in Los Angeles, Cal., April 18, is said to have loaded the famous shot that blew up Fort Sumter magazine. It was this crew that took the rebel ram Atlanta as a prize. After his discharge from the navy, he enlisted in the First Maine heavy artillery, was in the battle of Gettysburg, and was injured by an exploding shell. Mr. Moore afterward settled in Brewer and moved to California thirty-two years sgo on account of his health. He was collector of tolls on the Bangor-Brewer bridge for many years. He was active in the Pine Tree State association in Los Angeles, of which his son is vice-president

Albert I. Smith, a native of South Brooksville, died at Port Townsend, Wash., June 9, aged ninety-five years Mr. Smith went West sixty-seven years ago, so that few remain in his native town who can remember him. He first located in California, but soon after the Civil war, went to Washington state, where he occumulated a comfortable fortune in the lumbering business, from which he retired over thirty years ago and invested his money in Port Townsend real estate. He was the owner of the Central hotel. the leading hotel in the town, and of other valuable property. The Seattle Daily Times, in an extended obituary. hints at the romance in his life. It says: "Most of them came West, that is, to California, because gold was found on Sutter's farm. Albert I. Smith came because he was getting away, as far as possible, from the greatest sorrow of his life-the death of the young woman to whom he was engaged to be married. And he staved West until he died Sunday night, ninety-five years and fortyseven days old; stayed on to the end, and never married-probably the bldest bachelor the Pacific Northwest ever knew. But Bachelor Smith left lots and lots of friends behind. Furthermore, he made happy and comfortable the lives of many animals, for on dogs and horses he lavished his affections and indulged them as only a man weil fixed financially. and without wife or child, could afford to do. To the greatest industry in the state Washington he left a legacy in the shape of the familiarly-known endless chain conveyer which carries the wastage, siabs, etc., of a lumber mill to the great burners. Mr. Smith leaves one brother, James, and a sister, Mrs. Andrew McGee, both of Port Townsend, and six nephews and nieces, one of whom is Edwin Smith of South Brooksville.

PAYER MUST UNITE

By MICHAEL J. HICKEY. Manager Industrial Department, National Association of Manufacturers, New York,

Business in 1918 is to be war. It will primarily be war against a well prepared enemy without our borders.

We must not permit it to be war within our borders, as it will be if the bickerings, misunderstandings and secial unconsciousness are not effectively and constructively dealt with by those who are directly concerned with American industry.

The National Industrial Conservation Movement will continue to exert every possible and legitimate energy at the command of its writers, public speakers, printed literature, moving picture films, co-operating chambers of commerce, boards of trade, religious, civic, social and patriotic bodies. to spread the gospel of industrial co-operation

Certain agencies abroad in this land are constantly seeking, creating and seizing upon every possible form of excuse and opportunity to sow the seeds of dissatisfaction, discontent and unrest in our industrial world. These agencies thrive on misrepresentation, exaggeration and agitation of destructive varieties.

Must Combat "lams."

They preach hair brained "isms," class hatred and sedition.

To defeat them is not only an imper ative work for our national safety, but a patriotic duty incumbent upon every thoughtful American. It cannot be done by the occasional denouncing of such national enemies, thus affording them the notoriety by which they thrive, but must be combated in the public interest by a carefully worked ut campaign to present the impartial truth on the industrial, social and eco-nomic problems at stake.

Wage earners must be made to more fully appreciate that their interest in American industry is mutual with that of our wage payers so far as our industrial prosperity is concerned.

Wage payers who do not realize the value of cultivating the human element in their plants must likewise be shown the necessity for them to literally interpret and practically apply the lesson of co-operation.

It must also be recognized by our public officials and communities in general that a healthy industria! atmosphere is only possible when friendly relations rather than class antago nisms are fostered by law and public print.

It shall continue to be the purpose of our work on a national scale to diplomatically and truthfully correct the misinformation and spirit of thoughtlessness which has so frequently led the public into acts of reprisal that are inimical to their own interests as well as to the interests of the industrial institutions upon which our national welfare as well as our individual comfort and convenience is so dependent.

The patriotic importance of this work must be evident to all careful observers of events at this time. In its relation to our future industrial development the intrinsic value of a better understanding all round cannot be overestimated.

Spread the Truth

We will dedicate our energies to the spreading of the truth, the awakening of public thought and the public's sense of mutual interest and responsibility. We believe there is no more

Our work will also involve a further extension of the campaign to protect and conserve the lives, limbs and general health of wage earners, the reabsorption by industry of jobless warriors and such of our soldiers who may be partially crippled in our milltary service, the maintenance of our armed forces in the field and comforts of our home staying citizens as well as our brave allies. Our industries must likewise do their full and important share in the financing of our war operations. - Industrial Conservation,

DOING AWAY WITH THE INDUSTRIAL SCRAP HEAP

Railroads and Manufacturers Are Learning to Eliminate Waste, Including Drainage of Man Power,

Confronted by the necessity of utilizing every possible traffic facility for war material, the railroads are going to the scrap heay for additional equip ment. They are patching up discarded locomotives and engines 25 years old have been rebuilt and made "better than when they were new."

No doubt the railroad scrap heap is the largest of all American scrap heaps and by that token the one from which most material can be salvaged. But the conditions of railroad waste and extravagance in the name of efficiency equally characterize all American industry, and the new railroad policy of reclamation is important as an example and a precedent.

What the garbage pail is as an in-dex of household thriftlessness the scrap heap is as a monument to waste ful methods of manufacture. But the greatest of all wastes, progressive manufacturers now realize, lies in the careless manipulation of man power .-Industrial Conservation, New York.

New York .- Boy! Page Mr. Burns! Paging the Mr. Burnses of the counis precisely the task confronting I. M. Sacklin of No. 5 Beekman street who is in charge of a large sum of money seeking an owner-first name and present whereabouts unknown. Here is how it happened:

When Lincoln called for volunteers in '60 David Burns, then living at No. 135 East Twenty-First street, this city, stopped his work and marched off to battle. He was in such haste to respond that he notified no relative and made no disposition of a tidy bank account.

David Burns never came back. His unclaimed earnings lay in the bank swelling by the increment of interest until now they represent a large for tune even in these days. The windfall is awaiting the claim of the right Mr. Burns.

HOME BROKEN UP BY WAR

Connecticut Man and Wife Who Fo merly Lived Happily, Quarrel Over Kalser.

Torrington, Conn.-How the war broke up the home of Chieri Halabal, a Syrian, came out in a suit filed here by Halabal for \$6,000 damages and session of the home where he formerly lived happily with his wife for twenty years. When the war broke Halabal cursed the kaiser and Mrs. Halabal defended him. Their arguments became so warm that they sep arated. Mrs. Halabal took possession of the home, which was in her nam Now she proposes to sell it and Halabal has brought suit, claiming that the home was deeded to his wife only temporarily and was paid for out of his own earnings.

Snake Stops Water Supply.

Glenville, a hamlet three miles back of Tarrytown, was without water Tuesday. Its only supply is obtained from the Gypsy spring on Gen. Howard Car-roll's estate. The pipe that led from the spring appeared to be frozen, so William Van Winkle pulled the pipe out of the spring and took it home to thaw it out. There was consternation In the house when a garter snake start-ed to crawl out of the pipe.

. The snake had crawled into the pipe during the cold snap of Monday night and had frozen in there, shutting off the water supply. When the pipe was thawed the snake was released and tried to escape from its storage prison. Van Winkle caught it and is proudly exhibiting it in a jar. While this story has a Winsted flavor it is vouched for by Van Winkle's neighbor.

Lepers of Panama.

When the United States government began to construct the Panama canal it found seven pitiful lepers in the re-public in an isolated and forlorn building. In 1905 it was voted to spend \$25,-000 for a suitable building for these outcasts. In April, 1907, a hospital was opened at Palo Seco and each patient was given a plot of land on which he was given a plot of mind on which he might raise fruits and vegetables, and so be partly self-supporting. The Episcopal church, in establishing here the Mission of the Holy Comforter, has offered these lepers practically the only society they ever see except each other. Now a chapel, a school for the children, an infirmary for the shut-ins and laundry and gardens for the active make these lepers feel that they are being given their chance.—The World

ELLSWORTH FALLS.

Dr. Thomas S. Tapley and son Wasson of Tremont were here Sunday.

George E, Gray, Waldo L. Higgins and Herbert E. Flood spent last Friday and Saturday at Mr. Gray's camp at Beech Hill lake. They brought home eight salmon.

There will be a meeting of the boys' and girls' agricultural club in the vestry next Monday evening.

George Fernald and wife of Portland are visiting Mr. Fernald's parents, Frank E. Fernald and wife.

Miss Alice L. Cowan, who has been teaching here the past year, left Saturday to join her brother in Portland.

Mrs. Jennie Mason of Southwest Harbor is visiting here.

Wanted for Hospital Corps.

Men who have had experience in nursng or pharmacy are wanted, immediately for the hospital corps of the naval reserve. Applicants must be American citizens between the ages of eighteen and twentyfive, and must apply in person to the District Medical Aide, Room 1211, Little building, Boston, Mass.

As these men are to be trained in the first naval district, it is necessary that they have a knowledge of nursing and pharmacy. They will be assigned to hospitals in this district and will be trained under the supervision of some of the best physicans in the naval service. If of the draft age, the applicant must bring with him a release from his local board. If over eighteen years and not yet registered in the draft, he must bring a birth certificate.

Mrs. C. E. Bronson, and her sons are here for the summer. They are at E. C. Cole's as usual. Dr. Bronson and Miss Bronson will come later.

Mr. and Mrs. L. B. Deasy and Miss Deasy of Bar Harbor were guests of Capt. Deasy for the week-end. Mrs. Daniel Deasy accompanied them home for a visit.

June 10.

Mrs. Daniel Deasy is home from a visit to Bar Harbor.

Misses Nancy and Mabel Willey of Cherryfield are guests of friends here. Mr. and Mrs. Jesse Stevens of East

Steuben were week-end guests of the E. W. Bridges. Miss Frances Atwater arrived at E. W

Bridges' Friday, to spend most of her vacation here.

Mrs. Guy H. Cole of Steuben was here Friday. Mr. Woodbury accompanied her home for a visit. He will also visit another daughter in Miloridge.

Mrs. Louisa Wood of West Gouldsboro, and her granddaughter, Mrs. Chelsea Bailey, of Cleveland, O., with her infant daughter, are guest of Mrs. George W. Allen.

Funeral services for Calvin Tracy were held in Union church Thursday afternoon, Rev. Gideon Mayo officiating, with the choir from Gouldsboro. Mr. Tracy had been a sufferer for several years. He was a good citizen and neighbor, and much respected.

Ann, wife of William H. Moore, died suddenly Thursday night. Although it was known that Mrs. Moore had heart trouble, and subject to attacks, it was a great shock when her friends heard of her death. Funeral services were held at the home Saturday afternoon, Rev. George

Sparks of Sullivan officiating. Besides her husband, Mrs Moore leaves two daughters, Mrs. Harvard Havey of West Sullivan and Mrs. William Temple of this village, and one son, Ralph, of Steuben.

Why is it that United States Tires are setting new records for mileage and serviceability?

Chlorine, Used in Water, Kills the Germs of Disease, Yet Leaves the Drinker Untouched.

In the trenches of Europe there

must be pure water, lest epidemic disease sy.eep over them, destroying more than the shells, shrapnel and machine guns of the enemy; and Niagara comes forward with chlorine, or an allied product, which kills the germs of dis yet leaves the drinker unease, touched.

In the simplest forms, the process of breaking up salt and getting command of the qualities of the two elements in it consists of dissolving about one part of common salt in eight parts of water and passing a given current of electricity through it. The resultant fluid is a great bleacher and disinfectant. A gallon of it will kill all the germs in a day's drinking water of a city like Washington.

A thousand American cities sterilize their water with these products of Nisgara, which have done more than any other agency in the hands of the sanitarians to wipe out water-borne epidemics. In the hospitals of France and England they form the active part of mixtures used to sterilize the wounds of the soldiers.-National Geographic Magazine.

FAMILY REFUSED TO MOVE

Noise Than the Owner's Barking Dog.

There is a baby in an East End family, and the owner of the house in which the family lives is a woman who owns a dog. The baby cries and the dog backs and howls, says the indianapolis News,

The family with the baby went on a vacation trip recently, and during their absence the landlady decided she preferred a different tenant-one without a crying baby. So she notified the family to move out.

When the father asked for an ex planation she told him she was tired of being annoyed by the baby.

That "riled" the proud papa.

"You don't like a baby?" he re torted. "You don't like the baby because it cries? And you live with that dog that barks and howls all day long? A crying baby is no more a nuisance than a barking, howling dog."

He informed the landlady that he would move out with the baby when she got rid of the dog, but not before. There was no change in the situation at last reports.

Chance the Farmers Missed.

A great opportunity for amassing wealth has slipped out of the hands of every farmer and gardener this year, simply because they did not know how to grasp the opportunity, and there was nobody to tell them about it. The disappointment is temporary; the opportunity will return, says the Boston Transcript.

Golden seal root, for instance, wanted by druggists, and is worth \$12 a pound, and it might have been grown in quantities in the United States. The farmer who had seen the possibilities in its culture could have reaped a rich harvest. And many American families will remember the time when the arnica flower was a common flower, which the old folks saved and used for a home remedy for sprains, but the commercial prospect in its culture has not been realized and it has been allowed to disappear until now it 18 worth \$5 a pound. Druggists will be glad to pay that much money for it.

Real Trial.

Mr. and Mrs. Brown decided to have a spin in their new motor car. They had proceeded just three miles when the car broke down and refused to restart. Mr. Brown got out to make a general inspection of the working parts, which, needless to say, he knew nothing about. He had been underneath the car for some considerable time and had done little toward repairing except using bad language, when his wife intervened. "Now, John," she said, "I won't have you using such language. # Have patience, like Job."

WEST FRANKLIN. (A LETTER FROM FRANCE.)

Mrs. Effle Macomber, who enclosed her name and address with a pair of socks knit for the boys in service, has received a letter from Corp. W. N. Knspp, the American boy in France who received them. He says in part:

Thank you ever so much for the dear letter and the kind thoughts. I am sure you cannot imagine how welcome news from the good old U. S. A. is to one in a strange land. If those underful stockings, which I lackily drew could just tell of their travels, I'm sure you rould feel glad of the time spent in the knitting. I assure you that they have seen siderable of Europe, and are still "doing their bit" to put "Kaiser Bill" out of business. \$

The Red Cross cannot be too highly praised or the grand work it is engaged in. I'm sure that all the boys in the service appreciate it fully. Wish I could tell you about France, but the rules of consorship are quite strict in that respect. The American soldier is made welcome here, however, and there is a fine feeling of comradeship with our European friends

I forgot to tell you my home is in the West, way up in the "Panhandle of Idaho" on the shares of the most beautiful lake imaginable. Pend L'Orielle. I have often heard of Bas Harbor, and should like to visit Maine. Have seen most of the states. I thank you very much. There is really nothing that I am in need of, but I surely would appreciate the luxury of an American cigaret e, and some honest-to-goodness American candy, if you would care to send it.

Signor Marconi, in an interview in Washington, praised American democ racy.

"Over here," he said, "you respect a man for what he is himself-not for what his family is-and thus you remind me of the gardener in Bologna who helped me with my first wireless apparatus.

"As my mother's gardener and I were working on my apparatus together a young count joined us one day, and while he watched us work the count boasted on his lineage.

"The gardener, after listening s long while, smiled and said:

'If you come from an ancient fam-Hy, it's so much the worse for you, sir; for, as we gardeners say, the old-er the seed the worse the crop.""

SAYS IT ACTED LIKE A CHARM. Coughs, colds, sore throat or bronchial troubles which persist at this time of the year usually are of an obstinate character. That is all the more reason why a truly reliable remedy like Foley's Honey and Tar Compound should be used. Mrs. Margaret Smale, Bistop, Calif., writes: "Foley's Honey and Tar is a grand remedy; more than is claimed for it. I was suffering from a cold last week and used the medicine and it acted like a charm." Contains no opiates. -Moore's Drug Store.

of undeveloped water powers in Maire and that 500,000 additional h. p. may be added by storage the advocates of State ownership are making extrava. gant statements. The WaterStorage Commission

states that the MAXIMUM amount of undeveloped water powers is 1,023,060 h. p. They do not say that this amount is avail. able for development and clear. ly it is not available for practical developments On name as of their report of 1910 they state: "The assumed maximum de. velopment, based on that amount, the continuation of which can be assured during six months of the vear."

To develop on the basis of six months of the year would require extensive steam auxiliary power.

The actual amount of undeveloped primary power (that is, power that can be depended upon for ninety to ninety five per cent of the time) which may be developed along practical lines is not in excess of 300,000 h. p. or about one-third of the maximum stated above. This estimate is made by as competent engineer. ing authority as there is in the State of Maine.

The amount of storage avail. able for practical purposes is also much less than 500,000 h. p., owing to the large expense entailed. Storage reservoirs or water powers may not be practicable to develop if the damage cost on account of flowage is too great.
