Income Taxes

Income Taxes must be filed with the government on or before March 1st.

We have a limited supply of Income Tax Returns, form 1040, to hand out to those not yet done for the year 1939 and shall be pleased to furnish them while they last to those who have not yet filed their taxes.

We have also just printed for Distribution, a "Digest of the 1939 Federal Tax Law" forms 1040 and 1040-A. This will be the last copy of the Income tax paper.

We shall be pleased to furnish these on request. In any way we will gladly render any assistance which may be possible in aiding our friends in filling their returns.

Why Be a Drifter?

Like a floating leaf in the wind, a dandelion, subjected to the slightest breeze, is blown by a gentle gust to the right or left. As a result, the whole dandelion is carried away from this spot, and will spend the rest of its life floating in the current of air. In this manner, it habitually carries with it the seeds of plants, which are just as helpless as the dandelion seed.

The Ellsworth Welfare Office is a result of the fact that man has been careless, and the state now comes to the aid of the dandelion. The welfare office has never before found such rich soil. This class should not be left to drift about, but should have a better home welfare office

DOMESTIC SERVICE COURSES PLANNED.

Trained Home-Maker Is To Have Eight Hour Day and Standard Minimum Wage.

Courses for training home assistants, who will go to work when the eight hour day and minimum wage law goes into effect. The law has been harmonized by the Vocational Education Committee, after a long period of working for the purpose of doing away with the dirt that is being paid.

The object of this course, now being offered by the Vocational Service Committee in New York City, is to place domestic service on the same dignified basis as other work as electric work, instead of allowing occupation of less importance to women.

The housekeeper, who will go to work when the eight hour day and standard minimum wage law goes into effect, must be a good cook or an expert in the kitchen. If not, she must be taught to cook. She must also be a good organizer, and have a thorough knowledge of the kitchen and the pantry.

In raising prices, there is so little water and so little meat on the market that the eight hour day will not have much effect. Prices are wretched, and the cost of living is very high.

In the next few years, the eight hour day will have much effect.

Dear Mr. and Mrs. Hughes:

Through theFriendship Circle of women who attended the international conference in Denver, we received a letter from Mrs. Hughes who asked us to send her a copy of the report of the conference.

I am pleased to say that we have received a letter from Mrs. Hughes who has sent us a copy of the report of the conference.

We are glad to say that we have received a letter from Mrs. Hughes who has sent us a copy of the report of the conference.

I am glad to say that we have received a letter from Mrs. Hughes who has sent us a copy of the report of the conference.

I am glad to say that we have received a letter from Mrs. Hughes who has sent us a copy of the report of the conference.

Yours truly,

[Signature]

LUCY L. HUBBARD.
CARRY FOOD BY AIR
French to Feed Hungry by War Planes

To supply its provinces in the event of occupation, France has decided to institute an air service to transport food supplies to any part of the country which might be occupied by the enemy. The service will function at once and will be called "Air Post.

The planes will be armed and will have to carry a certain amount of ammunition in addition to the food supplies. The planes will be equipped with special containers for the transport of food, and will be able to deliver the supplies at any point within a radius of 100 miles of their starting point.

The service will be managed by the French Air Ministry, and will be under the control of the French Army. The planes will be furnished by the French Government, and will be operated by the French Air Force.

The service will be advertised in all parts of France, and will be available to any part of the country which may be occupied by the enemy. The service will be free of charge, and will be open to all persons who may need it.

In the meantime, the planes will be equipped with special containers for the transport of food, and will be able to deliver the supplies at any point within a radius of 100 miles of their starting point.

The service will be managed by the French Air Ministry, and will be under the control of the French Army. The planes will be furnished by the French Government, and will be operated by the French Air Force.

The service will be advertised in all parts of France, and will be available to any part of the country which may be occupied by the enemy. The service will be free of charge, and will be open to all persons who may need it.

In the meantime, the planes will be equipped with special containers for the transport of food, and will be able to deliver the supplies at any point within a radius of 100 miles of their starting point.

The service will be managed by the French Air Ministry, and will be under the control of the French Army. The planes will be furnished by the French Government, and will be operated by the French Air Force.

The service will be advertised in all parts of France, and will be available to any part of the country which may be occupied by the enemy. The service will be free of charge, and will be open to all persons who may need it.

In the meantime, the planes will be equipped with special containers for the transport of food, and will be able to deliver the supplies at any point within a radius of 100 miles of their starting point.

W. W. FOR OPENING SESSION.

STUART CLARK, Judge of Probate for 

Franklin County, Maine, in Session.

THE AMERICAN, ELLSWORTH, ME., WEDNESDAY, MARCH 12, 1919.
IN AUGURATION.

NEW CITY GOVERNMENT TAKES OFFICIAL PLACES.

The Council of the City of Ellsworth, at their regular meeting, Tuesday, March 12, elected the following officers: Mayor, Martin L. Adams; Chief of Police, E. O. Newton; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Clerk, Mrs. W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

Without the formality of bills there would be no colleges. Our school is the form is our college. The members of the class do not sit in a line, but are grouped into small groups, with a leader in the middle of the school room. The leader is in charge of the class, and the members of the class are free to discuss the work of the Thursday meeting.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.

The Council also appointed the following officers and employees of various city departments:

Chief of Police, E. O. Newton; Fire Chief, W. J. Brown; Water Engineer, A. J. Plastridge; City Clerk, W. G. Bement; City Treasurer, A. J. Plastridge; City Attorney, W. G. Bement; City Engineer, John L. Johnson; Schools Superintendent, H. W. Dunn; City Assessor, F. C. Pariseau; City Auditor, A. S. Hardy; City Recorder, W. E. Anderson.
AFTER SICKNESS THEY GAVE HER VINOIL
And she soon got back her strength.

New Castle, Ind.—"The madmill bug" is a real pest to farmers, and a considerable damage is being done to the crops. One farmer has lost five acres of corn, and another has lost ten acres of beans. The pest is said to be the most destructive insect that has ever been known to attack the crops.

The bug is about the size of a small fly, with long legs and a long snout. It feeds on the leaves of the corn, and also on the beans. The damage is done by the direct feeding of the pest, as well as by the indirect feeding of the ants, which are attracted by the sugary exudations of the bug's mouthparts.

The damage is said to be most severe in the early stages of the corn, and also in the late stages of the beans. The pest is found in the United States, and also in other parts of the world. Its name is "the madmill bug," because it is said to be a cause of insanity in humans.

COUNTY NEWS

VINTAGE SILO

Raymond Hull, who has been arrested for advising persons to take the "vintage silo," was arraigned in court yesterday. He was charged with the same offense for which he was previously arrested.

The "vintage silo," a device for collecting and preserving vintage wine, is said to be a new and ingenious method of preserving wine. It is said to be more effective than the ordinary methods of preserving wine, and to be less expensive.

The device is a large glass container, with a perforated lid. The wine is placed in the container, and the lid is perforated with tiny holes. The vinegar is allowed to pass through the holes, and the wine is protected from the air. The vinegar is said to preserve the wine, and to give it a unique flavor.

The "vintage silo" is now being manufactured in Europe, and is said to be in great demand. It is said to be a good investment, and to be a source of income for the manufacturer.

CHILDREN CRY FOR FLETCHER'S CASTORIA

In Use for Over 30 Years
The Kind You Have Always Bought

The Kind You Have Always Bought, and which has been in use for over 30 years, has been the subject of much speculation in recent years. The theory that it is a form of cheap medicine, and that it is used only for the purpose of making a profit, has been prevalent.

The theory is said to be based on the fact that the product is marketed at a low price, and that it is available in many parts of the world. It is said to be a form of cheap medicine, and is marketed in many parts of the world.

PLANT HOME GARDENS.

When Made a Family Affair They Yield Good Returns and Fro-
Nestor H. Furness, Fort Wayne, Ind.

Home gardens are used much this year as a part of the

many thousands find that the extra food, especially in rural

areas, is due largely to the stimulus given by the World's Fair and

the increased demand for food.

The owner of a good family garden will show the

necessity for a clean and wholesome supply of vegetables,

which is the basis of the growth of plants.

Purchasing Lime for Farm Use

The form, Concentration, Fit-

tness of Division, and the Con-

dition of the Soil Are Factors

Requiring Consideration.

A Study of the Soil Neutralizing

Power of Limes.

The chief point to be observed in the farmer's purchase of lime

is that the product should be a good one, with a

low content of impurities and a

high percentage of lime.

The use of lime, therefore, is

not only beneficial to the

soil, but also to the

plants and animals that

grow on it.

The lime is a

good fertilizer, and

when applied to the

soil, it will

improve its texture

and

increase its

productivity.
