How Much is 1¢

Suppose that for one cent you could insure the quality of your cake, biscuits, etc., wouldn't that be real economy?

Well, one cent is about the difference in the cost of a whole cake or a pan of biscuits made with Royal Baking Powder as compared with cheaper baking powders made from alum or phosphate—a trifle, indeed, to insure the quality and wholesomeness of your baking.

The collection of telephone bills that remain unpaid after the reasonable specied date is-

WASTEFUL—Because it consumes in work that should be unnecessary, time, effort and expense that might be better devoted to necessary work.

EXTRAVAGANT—Because it lavishes upon work that should be unnecessary, the time, the effort, the expense, that might otherwise be concentrated on the important business of keeping telephone service up to standards.

Telephone Subscribers can make a large part of this collection work unnecessary, just by paying their telephone bills within a reasonable time.
