WHY BE A DRIFTER?

Like a Swedish or German, some people follow the line of least resistance and spend all their surplus cash for luxury. Drifting is very easy but accomplishment requires determination. Decide to save all you can start on it and without a test you will find your total savings considerable. Hancock County Savings Bank Ellsworth, Maine

**Frail, Sickly Children Improve Rapidly on Vinol**

The reason we so strongly recommend Vinol for frail, sickly children is because it is a non-toxic remedy which contains Bef and Cod Liver Fats, Iron and Manganese and Peptone, and Co- Qyonephosphate, and no other of the valuable elements needed to build up the body. It is delicious to the taste, and children love it.

**These Two Mothers Have Adored**

**MOTHERLY CARE**

Lola and Mary, 12 years old, were given Vinol with a loving heart by their mothers, and they have never been the same. At first, they were frail and sickly, but after taking Vinol, they improved rapidly. Their mothers were overjoyed to see their children's health improve so much.

YOUR SECURITY FOR HOW WAR BONDS RISE IN VALUE

It is the Wealth of This Great Country That Nourishes These Three Hundred and Fifty Billion Dollars

How many billions of "Liberty" realize fully the security that it bears of the passing years? It is the wealth of the richest nation in the world. This wealth is your wealth at what your wealth consumes.

We have invested $42,000,000,000 in American securities, which amount to 75 per cent of the world's total investment.

In the United States alone, 7 per cent of the wealth is invested in Liberty bonds.

With this investment, the government will have the means of purchasing the United States, the British Empire, and all the countries of the world.

As a result, the United States will be in a position to control the world's finances.

The United States will be able to pay off all its debts and to build up a powerful navy and army.

It will also be able to lend money to other countries, which will enable them to build up their industries and to pay off their debts.

History of All Loans For A Century Shows That Advantages Have Always Come With Peace.

Will history repeat itself? The people of the United States have been conservative for centuries. They have always been cautious in spending money and in taking risks.

The government has always been careful in managing the nation's finances.

The government has always been able to pay its debts and to build up a powerful navy and army.

If this continues, the United States will be in a position to control the world's finances.

The United States will be able to lend money to other countries, which will enable them to build up their industries and to pay off their debts.

The United States will also be able to lend money to other countries, which will enable them to build up their industries and to pay off their debts.
