#### The Strength of a Bank.

THE strength of a bank depends primarily upon the ease and speed with which it can make its assets available in cash when needed.

Because of our membership in the Federal Reserve System, we can at any time instantly obtain cash by rediscounting with the Federal Reserve Bank the commercial paper which constitutes a large part of our assets.

This in effect increases our available reserve and insures our being able to meet demands for cash at

The children and parents of the Unitarian Sunday school are invited to a lawn party at the home of Leonora Higgins, Saturday, Sept. 13, from 2 to 5. will include a hike. Picnic lunch. If not pleasant, it will be held the following Saturday.

There was a good attendance at the lecture given by Capt. Richmond P. Hobson at Hancock hall last Friday evening. He, was introduced by Rev. J. W. Tickle, chairman of local committee of arrangements. Capt. Hobson spoke eloquently on the question of national prohibition.

During the practice preliminary to the ball game at Wyman park Saturday afternoon, a ball crashed through the wind-shield of Rev. J. W. Tickle's car. Miss Eleanor Royal, who was in the car, was cut about the face by flying glass, but not seriously. Mr. Tickle received many slight cuts.

Fire Monday evening in the Higgins house on High street, occupied by F. E. Tilden, caused considerable damage. The fire started in a small closet near the kitchen chimney. The kitchen was burned out, and the entire house pretty thoroughly smoked and partly wet down. The house is owned by The Bar Harbon Realty Company. Loss on building and furniture is covered by insurance.

Many friends in Ellsworth will learn with regret of the death of Miss Helen Tincker at Somerville, Mass., on Monday. She had been a frequent summer visitor in Ellsworth, and was expected this summer. Miss Tincker was a daughter of the late Richard Tincker of Ellsworth, and the last survivor of the family. The funeral was held at the Summit Avenue Baptist church in Somerville this morning. The body was incinerated.

Ellsworth friends of Mr. and Mrs. J. W. Tatley of Montreal were sorry to learn of the injury of their oldest daughter, Frances, in an automobile accident at York Beach recently. The family had spent the summer at York Beach, and was just leaving for their home. Running along the Beach at good speed in their car, a car going in the opposite direction skidded into them. Miss Frances was thrown through the wind-shield, receiving serious cuts, and her condition was at first critical. She is still in a hos-pital, but recovering. Other members of the family escaped with slight cuts.

Ellsworth music lovers are looking forward with pleasurable anticipation to the song recital to be given at Hancock hall this evening by Miss Marie Morrisey, contraito, known to so many of them through the beautiful renditions of her voice on the Edison phonograph. Interest will be added to the recital by the tone-tests, affording a direct com-parison of Miss Morrisey's voice with harmon of miss Morrisey's voice with the re-creations on the phonograph. Miss Morrisey will be accompanied by Wil-liam Reddick, pianist. The concert is given under auspices of E. F. Robinson, the Edison dealer here, and admission is by free tickets, which may be pro-cured of him.

George A. Joy, formerly of Ellsworth, died very suddenly last Thursday evening at Woodland, where he had resided the past year. Mr. Joy had spent Thursday evening at the home of friends, and was stricken while on his way to his boarding place. His body was found beside the road in the morning. Mr. Joy was born in the Joyville section of Ellsworth seventy two years ago, and was the last survivor of a large family of the late Horatio Joy. #### POWER HOUSE ACCIDENT.

Public Utilities Commission Makes

Report on Death of Mary Murphy. A decision has been rendered by the Public Utilities Commission in the matter of the accident at the power house of the Bar Harbor & Union River Power Co. in Ellsworth on Aug. 6 last, which resulted in the death of Miss Mary Murphy, aged twenty-six years, of Mount Desert Ferry. The report follows:

"A crew of about sixty men, under the supervision of H. N. Tuley, is engaged in making additions and alterations at the southerly end of the dam. In the midafternoon of Aug. 6, Miss Murphy met Supt, Tuley in the passage-way extending through the dam. After some conversation, Miss Murphy, against the protests of Mr. Tuley, as he claims, insisted upon going through the door into the transformer room.

"The evidence is not very clear or satis factory as to the reason that she insisted upon going into the place of danger, or in fact why she was there at the dam at all. She evidently had no business there, and the evidence certainly discloses no reason why this foreman should have left his work and have been talking with this woman there in the middle of the afternoon. They were apparently feeling, for she grabbed his cap and ran thoughtlessly into the transformer room. She came in contact with some of the high voltage wires with which the room was filled, her clothing caught fire, and she was so severely burned that shedied in about twelve hours, although everything possible was done for her relief. Of course this poor girl had no right to be there at all, and her death was the direct result of her own heedlessness. She was evidently ignorant of her danger and would not take seriously the warnings and entreaties of Mr. Tuley.

"The evidence of Mr. Tuley shows that this womon had been in the habit of !

## Is Your Blood Poor? If it is, You Need Vinol

Anaemic, run-down, nervous, devitalized conditions result from poor or thin blood. A glance at the formula of Vinol, printed on the label, will show that it contains the very ingredients necessary to make good blood. It soon creates a healthy appetite, improves digestion, and helps you to get full benefit from your daily food, and builds you up.

Drewsville, N. H.

Bradford, Pa. "I have used Vinol for impoverished bood and suffered from indigestion and bilious attacks. As Vinol helped my son, I gave it to my daughter—she soon improved in health, and it has built her up and restored her health."—Mrs.N. Burnell. "I have used Vinol for impoverished blood. I was broken out with
a rash and run down so it was hard
for me to keep about my work.
Other medicines did no good, but Vinol
enriched my blood and improved my
condition very rapidly."-Rose Lasky.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Sunday, Aug. 31, Rev. John Edward Bushnell, D. D., of Minneapolis, Minn., gave a powerful sermon at the Congregational church, to a large and appreciative audience. Mrs. Louise Homer Tileston contributed two fine solos, with the organist, Miss Gladys Mayo, accompanist.

Sunday, at the foot of Seth Lurvey's hill, a car load of young people was ditched and overturned. The occupants escaped with a few cuts and bruises. The car was badly damaged. The car, with a chauffeur, was hired in Bath to bring home for the Labor day recess, Capt. Roland Lunt and Daniel Lawton. Whether the driver lost control or the car skidded on the wet road is a matter of doubt. All are thankful that the party of six escaped with no more serious injuries.

Dear M. B. Friends:

You will all enjoy the following good letters, for which I thank each of the sisters who remembered us this week with letters and recipes.

We have talked over the good time that we had at the reunion. We did enjoy the day so much. Each year that I go seems better than the last one. I was much interested in the poem from Aunt Mary's John. I expect he feels better, now that he is a member, and in reading over the report of the reunion, we had a good laugh to think that you got my boys mixed again-it was Melvin Wilbur who had the wife there. Homer has

never been married. Ruth and I have been quite busy canning berries, string beans, etc. It takes lots of time, but they are such a help. I will not try to write a long letter this time, as so many roted yes to the call for letters, so with best wishes to all, from ARE.

BROCKTON, Sept 1, 1919.

Dear Aunt Madge

I was much interested in the letters from our absent nieces last week. I wondered who "Tin Lizzie" was, a new niece surely, but on reading the letter I knew it was none other than our old friend "Ford," though her home cares deprive her of appearing in ciety as formerly. I see she has lost none of her eagerness and aspirations to be up to date, and from now on wishes to be recognized as "Tin Lizzie." I imagine there vas no opposition raised by the mutuals.

Friday morning, I hastily left my work to see if The American had arrived. I eagerly snatched it up, and turned first to the M. B. column, and was giad to and my assen-friendi-Charity" was selected as reporter of Aug. 14. As I read the names of those present, I found a few new ones, and could but wonder what kept away several who usually attend.

i recently received a letter from my friend who attended the reunion for the first time. She enjoyed it exceedingly, and said she was very glad to meet such a nice company of ladies, and did not forget to mention about that wonderful spread at the neon hour. I hope a recipe of some of those dainties will appear in the column later, especially those requested by "Charity." I will send a recipe of "winter salad" which I tried last fall for the first time, and it is very much liked.

Aunt Madge, I expect you will be deluged with letters from now on, if the M. B.'s keep their good resolutions and heed the timely suggestions presented, which I hope they will, that your task may be lightened.

EAST HOLDEN, Aug. 30, 1919. Dear Aunt Madge and all M. Bs.

was disappointed about getting to the reunion, but my only excuse is that my chauffeur went back on me (after I had tried to keep on the good side of him for a whole year) and I did not know in time to send you a word of greeting by mail. My thoughts were with you all day, and when I sat down to my humble dinner I thought of all the good things I was missing. Well, such is life!

The thing that worries me most just now is the sugar shortage. Say, you ought to see the "sour" mess I have canned-some seventy five quarts, and not a spoonful of sugar in them; also sixteen quarts of apple juice ready for jelly. Won't I have a good time stewing when sugar does come in fashion

Received a hearty greeting from Aunt Maria and Uncle Mark as they passed this morning on their way to town. Have been visiting daughter over town calling on old friends and seeing the town. This is not a letter to be prond of, but perhaps it will help out sometime when Aunt Madge sits down and there is not a word to help her out. Really, sisters, I think we should all take lessons from Aunt Madge in patience. Don't you?

With good wishes for you all.

## Now All You Good Fellows, Come Fill Up Your Pipes

F ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke.

Kentucky Burley is the leaf that Nature made
for pipes. Wholesome and hearty, honest as
the day. And Velvet is that same good Burley leaf,
brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts, Yo' mouth with friendly smoke— An' let the old world wag."

# What is a Call for "Anyone"?

The distinction between a person-to-person call and a station-to-station call is indicated by their names. In the former, you ask the toll operator to call some designated **Person** and get him on the line; in the latter, you simply ask the toll operator to connect you with his telephone.

The latter form of toll call is simpler and quicker to handle; therefore, it costs only about three-fourths as much as the person-to-person call. It can be employed to advantage if it is reasonably certain that the person wanted will be at the other end of the line, or, in the event of his absence, if the business to be discussed with him can be transacted with anyone else there.

Examples of station-to-station method of giving a toll call.

- "Bangor 3265-W-Anyone."
- "23 Green Street, Manchester, N. H.—Anyone."
- "Residence of Joseph Brown, Burlington, Vt.—Anyone."
- "John Smith's telephone, Pittsfield, Mass.—Anyone."
  "Robinson Machine Co., Springfield, Mass.—Anyone."

Quicker service will be obtained if you call the telephone number desired. If you do not know the number, the toll operator will get it for you.

#### WEDNESDAY, SEPTEMBER 10, 1919

Governor Milliken has received a request from United States Attorney-General Paimer asking him to recommend a suitable man for appointment as fairprice commissioner for Maine. This is a part of the campaign against profiteering.

All five of the proposed constitutional amendments submitted to the voters at the special election Monday were ratified. Chief among these amendments was the one providing for a \$10,000,000 bond issue for road improvement, and this seems to have been carried by the largest vote and the largest majority of any of the questions. It was the one question on which the voters were best informed and had a decided opinion. The other amendments allow the use of credit of the State to the extent of \$1,150,000 for the construction of State wharves or State piers, provide for the appointment of national guard officers by the governor instead of being elected by the guardsmen as at present, increase the State's debt limit from \$300,000 to \$800,000, and provide that voters who change their residence within the State less than three months before shall retain their right to vote in their former place of residence until they have acquired the right to vote in their new home.

## WANT FLYING SHIP CHILDREN TO HONOR AS TYPE FOR NAVY

Seek to Develop Model to Ride Out Storm.

#### SEE LESSON IN OCEAN 'HOPS'

Defects of Boats of the NC Pattern Studied by the Naval Experts in Washington-To Play Its Full Part in Naval Strategy Seaplane Must Become as Independent Unit as Modern Destroyer or Submarine.

Flying ships, instead of flying boats, will be the logical evolution of navy seaplanes, navy experts believe, as a result of the first air trip across the Atlantic. First impressions of the lessons taught by that trip had already the men who conceived and built the NC machines, one of which Lieutenant Commander A. C. Read maneuvered to safe mooring at Plymouth, England. It was the experience of the NC-1,

lost off the Azores, and the NC-3, battered out of usefulness by heavy seas before she made port at Ponta Delgada, that the inventive genius of the department turned for inspiration, rather than to the NC-4.
Experts are convinced that to play

its full part in naval strategy the seaplane must become as independent a unit as a modern submarine or destroyer. It must be able to keep the seas in heavy weather, riding on the surface. It must be able to lift itself into the air or to plane down to a safe landing, even when tall seas are running, and it must provide for its crew, safety, shelter, and reasonable comfort under very adverse circumstances, for the efficiency of the plane depends upon the efficiency of its

To fulfill its function as a scout the seaplane of the future must be able to communicate at all times by radio.

Plan Flotillas of the Air.

The answer to all of these requirements in the minds of the experts is larger craft, veritable flying ships. The vision toward which the designers are looking is that of flotillas of seaplanes relying wholly upon their own power for transportation on the surface or in the air and operating from swift "mother ships," as submarines and destroyers now operate.

As battleships have developed from 11,000-ton predreadnaughts to the 43,000-ton monsters for which the navy is now contracting, so, naval officers The missionary meeting was held on say, seaplane evolution will come type Tuesday afternoon with Mrs. Edward C. by type and year by year, each advance being based on results obtained with preceding types. This is the program laid out by the navy department as the basis for the request recently made to congress by Secretary Daniels for \$45,000,000 for aviation development in the next fiscal year.

Part of this appropriation, if granted, will go into lighter-than-air devel-opment. The general board is expected to recommend the immediate purchase of a British rigid dirigible for personnel training and the con-Mrs. Mary Slater and daughter Thelma struction of a similar vessel on American designs as a pilot ship of a fleet of air cruisers. The purchase of the British Zeppelin would permit the training of a crew to handle the first American craft when completed.

The navy department is said to be ready to proceed with Zeppelin construction on its own plans whenever congress grants authority and appropriations. The ship, it is understood, would not be patterned exactly on the British modifications of German Zeppelin construction. The discovery of noncombustible helium gas to inflate the bags is said to have pointed the way to some radical changes in design. Details of what is contemplated have not been disclosed.

Naval experts point out that in both scaplane and dirigible development one of the most important elements to be considered is that of getting efficient power. The Liberty motors have proved highly satisfactory so far as endurance goes on the transatlantic flight, but no means have yet been evolved to get the full benefit of their power. The problem is the same as that encountered with steam turbines in surface craft.

#### Testing Reduction Gear.

The navy has been working for months with a reduction gear system to go between the engine and the propeller. A similar device has permitted destroyers to use turbine engines, but it has been found a difficult task to design a lightweight reduction gear for seaplanes or other craft. Should this device be worked out, the NC seaplanes could be made much more effi cient and their cruising radius could be greatly increased.

As to the sea-keeping qualities of the NC planes, the experiences of the NC-1 and NC-3 indicate to experts that some way must be found to get the plane surfaces higher out of the wa-This would save them from battering into the sea when riding the sur-

face. New gasoline motors for lighter than-air craft have been worked out and received their first test on the flight of the dirigible C-5 from Montauk Point, L. I., to St. John's, Newfoundland. So well did they function that decision had been made to attempt a direct flight to Ireland with the C-5 before the ship was blown to sea and wrecked. Another attempt to cross the Atlantic will be made as soon as similar engines can be installed in another aircraft of the "C" type.

Plan \$30,000 Memorial to Volney Rogers, Who Provides Park.

School children of Youngstown, O., have started a unique campaign to raise \$30,000 to defray the expenses of the proposed statue and memorial entrance to Mill Creek park in honor of Volney Rogers, lover of children, of birds and nature.

Men in Youngstown gladly would defray the expenses, but the memorial is to be the tribute of the Youngstown public, for whom he provided what is regarded as one of the finest natural parks in the country, and is to be solicited through his friends, the chil-

The movement to erect the memorial was started last fall when the Volney Rogers committee of the chamber of commerce was named and pubtaken definite shape in the minds of lic suggestions for the form of the memorial were called for.

Mr. Rogers, an attorney in Youngs town 47 years, loves the country. He explored Mill Creek valley, and when the valley's forests were being despoiled for lumber and its patural cliffs for stone, Mr. Rogers became active and personally procured options on more than 500 acres now included within the park. He then obtained legislation permitting the purchase of parks by townships and purchased \$25,000 bonds needed for the project.

Mr. Rogers lives near the park. His father, James Rogers, was one of the pioneers of Columbiana county, and the Youngstown attorney was born near Rogers, a town built on land owned by Theophilus Rogers.

#### OLDEST PRACTICING DENTIST

York Man Has Passed Ninetieth Birthday and Still Works.

Dr. Charles Elmendorff, said to be the oldest practicing dentist in America, celebrated his ninetleth birthday at his home in Penn Yan, N. Y.

Doctor Elmendorff is the son of the late Dr. James Elmendorff, one of the first dentists to open an office in western New York. When nineteen years old Charles entered the office and worked continuously at dentistry. Practically all of these 79 years have been passed at Penn Yan. When Doctor Elmendorff began working the art of filling teeth was unknown. All he did for years was to extract teeth that could not be pulled at home by the use of a string. Later, however, when the science of treating teeth advanced, he was called upon to learn and employ new methods.

The aged dentist is in excellent health and can be found in his office every day.

#### All Need Treatment

The blood, the nerves and the liver-there are cases in which they all need treatment at the same time, the blood being impure unsteady, and the liver torpid and sluggish. In these cases such a combination of medi-cines as Hood's Sarsaparilla, the great blood purifier. Peptiron, a real iron blood and nerve tonic, and Hood's Pills. the gentle yet thorough cathartic, is of signal service.

The many effective and highly approved ingredients of these three successful medieines cannot all be included in one medicine because of iscompatibility, but they are practically combined by taking the medicines in conjunction,-Hood's Sarsaparilia before eating. Peptiron after cating, and Hood's Pills as needed. It was a happy thought of Mr Hood to suggest that they be so combined in the treatment of such cases as are referred to here, which nowadays seem to become much more common .- Adet.

BASE BALL.

Ellsworth Won and Lost Last Week-A Challenge for County Championship.

Elisworth baseball team played three games last week, defeating Bucksport at Bluehill on Tuesday, losing to a so-called Bucksport team at Bluehill on Friday, and defeating Rice & Miller of Bangor for the rubber game between these two teams at Eilsworth Saturday.

Tuesday's game was reported in THE AMERICAN last week. The other two games are reported below.

Ellsworth has issued a challenge to Bluehill for the championship of the county, the game to be played on neutral ground. So far the challenge has not been accepted.

FRIDAY AT BLUEHILL.

Friday Ellsworth went to Bluehill for fourth game with Bucksport. Three times this season the Penobscot river boys have been trimmed by Ellsworth, but Friday they put one over on the Union river team. Ellsworth, without its regular pitcher, ran up against a sort of an all-star aggregation from Eastern Maine though playing under the name of Bucks-

In the box for the all-stars was Williams-"Gus" Williams of the Newport team, who pitched Dexter to a 1-0 victory over the Easterns at Brewer on Labor day, allowing the Easterns but three hits. Working with him was his regular backstop, Lawry, of Newport. DeRocher, of Orland, another U. of M. man playing with Newport, but who has played several games with Bucksport this year, was at the third station. "Doc" Dwyer, star twirler of the Easterns, held down the second bag, and McLain of Pittsfield played short. Some team!

Bush pitched a good game for Ellsworth and after the first two innings, in which the stars shot around the bases for eigh runs, he held them well in hand. But if young "Cy" Young had only been there! The summary:

SATURDAY'S GAME.

Saturday's game, the rubber game with the Rice & Miller team of Bangor, proved the best game of the season yet played on the home diamond. The Bangor team came over strengthened by Pitcher Ambrose of the Orono Orioles, while young

'Cy" Young was in the box for Ellsworth. It was a pitchers' battle, with almost errorless fielding support. Young had much the better of it in strike-outs. fanning twelve of the R. & M. men, while credit. Both were hit safely only five

The visitors got a jolt in the first in Lowell, Mass., Thursday, accompanied en Young struck out the three | by Mrs. Eleanor Goodwin, who will visit heavy hitters at the head of their batting her son, Albion K. Guptill at Chelmsford list. Ellsworth followed this up by landing on Ambrose. Sturtevant sent a pretty single to left, Shea sent the first ball pitched to right field for two bases, and Sturtevant and Shea scored on sacrifices by Linneban and Fortier. The two runs scored in the first inning proved to be all that were necessary. Ellsworth did not

score again, and the visitors gathered in

one lone run in the eighth inning. That eighth inning looked serious, however. With one man out, the bases were filled by a two-bagger, a pass, the only one given by Young, and a single. Young juggled a bunt, and one man scored, the bases remaining full. Then Young tightened up, or speeded up, striking out the next two men and fully retrieving himself for the lone error. A CHALLENGE TO BLUEHILL. The Ellsworth baseball team has issued the following challenge to the Bluehill team to play for the championship of the

CHALLENGE.

To the Managers of the Bluehill Baseball GENTLEMEN:-There is some question as to

the championship of Hancock county at base-ball, it being claimed both by the friends of Bluehill and Ellsworth, each of which teams having won one game against the other.

Now charges of fear to play the decisive game have been made against the Elisworth team, and in order to settle whatever dispute there may be as to which is the better team I, the manager of the Ellsworth team, hereby challenge the Bluehill team to play a game of baseball on any neutral grounds for the net gate receipts, and if that inducement is not sufficient, we will play for a side bet or purse up to two hundred dollars (\$200) a side.

Realizing that the regular pitcher of both teams is incapacitated for the balance of the

season, I make the following propositions, viz.: Each team to be allowed to select whatever pitcher they may wish, and the other players must be residents of the town or city in other words, each team to be strictly local with the exception of the pitcher. The time and place for the game to be arranged by the managers of the respective teams.

An early reply is respectfully requested.

RED CROSS MEETING.

Hancock County Chapter Must Continue Peace Program.

The war is over. Hancock county chapter of the American Red Cross has a record of achievement in its war activities of which it may well be proud. But the work must not cease here. There are many directions in which the Red Cross may be of great value to this immediate section, as well as being ready to bear its part when an emergency call comes, as it is likely to do in peace as well as in war. On Thursday evening of next wee there will be a general meeting at Hancock hall, Ellsworth, opening at 7.30, when some of these opportunities for service and the necessity of preserving the county organization, will be set forth by able speakers. Everyone is urged to at-

sentatives. Admission will be free, and no collection will be taken. The speakers will be James Jackson, division manager for New England; Miss Lavinia H. Newell, director of woman's work; Miss Elizabeth Ross, director of bureau of nursing, and Cheney C. Jones, director of civilian relief. Each will speak about fifteen minutes, covering the following subjects:

## A TEACHER OF "NEW THOUGHT

Believes "FRUIT-A-TIVES" Highest Result of "New Thought" In Medicine.

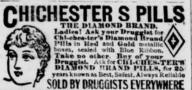

MR. A. A. YOUNG

"I am not in the habit of praising any material medicine as I am an advocate of New Thought, but some time ago, I had such a bad attack of Liver and Stomach Trouble that I gave up thinking I did not have it, and took a natural medicine, 'Fruit-atives' or Fruit Liver Tablets.

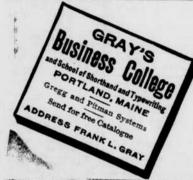

Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body.

While I am no backslider from 'New Thought', I feel there may be times when a help to nature may be necessary; and if so, I believe that 'Fruit-a-tives' is the highest result of New Thought in medicine".

### WOMEN GIVE OUT

Housework is hard enough when healthy. Every Elisworth woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Ellsworth woman's experience:

Mrs. Percy Lindsey, 14 Sterling St., Ellsworth, says: "I suffered from an annoying kidney weakness for nearly a year. I was up one day and down the next. I ached all over. My feet and ankies swelled so badly I couldn't put on my shoes. I tried different remedies but got no relief until I used Doan's Kidney Pills. After the first box, I noticed improvement and I used about five boxes in all. By that time the trouble had entirely disappeared and I have felt like a different woman since. I have gained in weight and feel stronger in every way."

#### TRY THIS TO BANISH ALL RHEUMATIC PAINS

People who have been tormented for years—yes, even so crippled that they were unable to help themselves—have been brought back to robust health through the mighty power of Rheuma.

Rheuma acts with speed; it brings in a few days the relief you have prayed for. It antagonizes the poisons that cause agony and pain in the joints and muscles and quickly the torturing soreness completely disappears.

It is a harmless and inexpensive remedy, but sure and certain, because it is one discovery that has forced rheumatism and sciatica to yield and disappear.

Begin the Rheuma treatment to-day, and if you do not get the joyful relief you expect, your money will be returned. Alexander's Pharmacyalways has a supply and guarantees it to you.

Pa., a former Bangor man who owns a cottage on "The Head," bought a year or so ago the building at the shore which was once a market belonging to the late Col. William Hadlock. Many will associate the "Colonel" with the building, as he was always at the steamboat landing upon the arrival and departure of the little steamers that plied between here and the surrounding harbors. Mr. Sawtelle had collected a few relics which he prized, and placed them in the building, which he intended fitting up as a waiting room. Some of his friends suggested, in a joking manner, that he should have his sign out, and on the spur of the moment he painted over the entrance "The Curio Shop." It turned out to be no joke. was allowed to rummage into hay lofts, sheds and attics, and collected many old relics which had been carelessly set aside as of no further use. The owners have been made to see the value of such things, and in the future old things will be more highly prized. If any reader in the nearby vicinity has not already visited the shop, it will be worth while to do so. The things collected are not for sale, but loaned for safe keeping. In the room above the curio shop, the three Islesford painters who have spent their summers here have displayed their beautiful oil paintings of island. The stairway and room in which the paintings were for sale were artistically decorated in evergreen trees, and over the entrance was a large painting of the green woods. It is hoped that next summer our artist friends may be with us again.

bile type with a 34 by 4-inch pneumatic tire, this size being suitable for use on both large and small cars. The axle is either a broken front axle or a short section of a strong steel beam. The emergency axle is bent or dropped, the offset being necessary to clear the axle-housing flange or brake drum. The device is attached by means of two U-shaped clamps and nuts. The sketch shows the general appearance and manner of attaching the emergency wheel to the rear axle of a car, but it may also be used in front, as the clamps are casily shifted.

#### TO SILENCE RATTLING RODS

Noise Made Is Source of Much Annoyance to Occupants of Car-Way to Remedy Trouble.

Where long rods of small diameter are used for brake connections, and so forth, particularly on the smaller cars, the rattle and chat ering they make is a source of constant annoyance. There is an easy way, however, to put a stop to these noises. A coll spring one-half inch to an inch in diameter should be firmly attached at one end to the middle of each rod and the other end extended under tension to the frame side member or some other convenient point for anchorage. The tension on these springs will hold the rods rigid and prevent vibration and

"I had no appetite scarcely at all, and what little I did eat would cause gas to a dizzy feeling about the head. When fully nervous. I worried about myself

"I had fallen off until I was almost "skin and bones" and my strength and energy were slowly leaving me. I had a dread of the future and could see nothing but the operating table and the knife. I had a perfect borror of an operation, but had made up my mind that it was either life or death and prepared to submit to it. I had made all preparations for the operation and called on my sister to tell her good-bye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me and told me to wait and try a good tonic for a while. The next day as I returned from the consultation room I thought of what she said, and as I had heard so much about Tanlac, I decided to try it as a last resort, and stopped at the drug store and got a bottle. Of course, I had lost heart and had no faith in medicine, but to please my sister, I made up my mind to take it, and oh, what a happy day that was for

It had a soothing effect, and in a few days I felt no pain at all. I was so happy over my wonderful improvement that I sent for my neighbors to tell them how much beter I felt. I sent and got another bottle of Tanlac and have just finished my third and feel like I have been made over again

"As I have said before, I now weigh one hundred and twenty-five pounds and me, and I will have to make them over out of house and home. I have even gone back to my coffee which I was told not to touch. Those horrible pains in my back when I get up in the morning I feel reable to attend to my housework again and feel as if I had started life all over. My covery is the talk of the neighborhood. I "I feel so grateful for my escape from

the operating table and the knife that you as I was to come and see me and I will be glad to tell them about my case."
