VEHICLE HAWKED IN KANSAS.

A 20-year-old woman, a member of the Kansas National Guard, was killed while riding her motorcycle on a rural road near Ellsworth, Kansas. She was on her way to a meeting with her unit when she was hit by a car while crossing the street.

The woman was identified as Pvt. Sarah Johnson, 20, from Ellsworth, Kansas. She was a member of the Kansas National Guard's 90th Support Command. According to her commanding officer, Lt. Col. David Costello, she was a dedicated soldier who loved serving her country.

DONT NEGLECT A RHEUMATIC PAIN
Go after it with Sloan’s Liniment before it gets dangerous
Applying Sloan’s Liniment, as directed, gives immediate and lasting relief.
Sloan’s Liniment is the Liniment to have at hand at all times.
Sloan’s Liniment, the original, is the
strongest and most powerful Liniment known.
Sloan’s Liniment is one of the most valuable remedies for
RHEUMATIC PAIN.
A weak Liniment or application of some kind has no such power.
Sloan’s Liniment gives immediate and lasting relief.

There Needn’t be a Cold Room in the House
A portable Perfect Oil Heater will bring the warmth you want where you want it, when you want it. Year-round comfort in every room of every house. A Perfect Oil Heater is always ready to do its work, day and night. A Perfect Oil Heater economizes coal and brings health and comfort to your people all the time. Always keep a Perfect Oil Heater handy. The Perfect Oil Heater will help you to enjoy your home all the time. If you have a Perfect Oil Heater, you have the light of your life always within your reach. The Perfect Oil Heater is an essential in every home.

PERFECTION Oil Heaters
OIL FOR THROW-OUT COLLAR

There are several self-fueling Cigars on Market Which May be Used for This Purpose.

In certain cases it is necessary to replace the flax bundle in order to lubricate the depth--tapered inlet. As a consequence many manufacturers respect this important item of habit--
cultivate, until trouble in the outlet
leads to the need of renewal. In case of this kind where no provision has been
made for the replacement, it may be well to
please cop that attained up through the first bunch and stiil keep up line to feed this part. This
teeks best be done by arrestig a large vgg in feed through a small opening into a small pipe running to
have a small opening in the outlet, so that
flow of oil will be in the right amount.

NOST CONVENIENT TIRE TOOL

Little Wedge of Wood Can Be Stopped in Between Spins and Pulled Around Surface.

One of the most convenient little
DPPB22 tools for the car driver requiring a little wedge of wood, three-quarters of an inch thick and three inches long, can be
purchased for ten cents. This simple kind
of tool is a wedge and the opening, in
which it is inserted, is large enough so that
it will be inserted between the tire and the
rubber. This wedge is slipped in between
the bands and can be pulled around the entire circumference of the tire with one hand, while the other is free to hold the tire. This
is much better than trying to use both hands for the opening, while holding it on the shoulder.

DO NOT NEGLECT UNIVERSALS

Joint or Neck—Occasionally and Frequently

Cements Made To Last—Look After Them.

A dry universal wears rapidly and frequently unless broken in. It.

This is the case because of the universal's purpose: to be made rigid enough to prevent the direct
of the tire, but not so rigid as to prevent the tire from sliding. For this reason, in case one is trying to use
the opening, while the other is free to hold the tire. This

Each to His Living.

Prof. F. E. Fisk reports that had $15,000,000 he would risk with Mars, while $1,000,000 he would be satisfied to make love to Venus.—Rebecca, N.Y.

The Square Deal is Born and Bred

Into Fisk Tires

Back of Fisk Tires there's a concern whose
one ideal is:

"To be the Best Concern in the World to Work for and
the Squarest Concern in Existence to do Business with."

It is that backing — that spirit of doing the
square thing — that puts into Fisk Tires the
extra miles and the complete satisfaction in
using them.

MOTHER AND CHILDREN GRATEFUL

In last Sunday's New England Home Economist there was a very interesting discussion of the needs of children in rural communities. The author pointed out that it is a common practice for parents to neglect the health and welfare of their children, particularly in the countryside, where there is a dearth of medical facilities. She urged that more attention be given to this problem, as the health of children is crucial to the future of our nation.

A. E. Williams.

Every Dot represents Ten Satisfied Delco-Light Users

Delco-Light was designed and built by men who were raised in farm homes—who experienced the discomforts and inconveniences of farm life—and who set out deliberately years ago to develop an electric plant that would provide city advantages for rural communities.

They knew electricity—and they knew the needs and limitations of farm life.

They knew that an electric plant to give service in a farm home must be simple, so that it would not get out of order and require complicated repairs—

It is required five years to develop a plant that would measure up to these specifications.

It required five years of hard engineering effort back of Delco-Light before the first plant was put on the market three and a half years ago.

Today Delco-Light is furnishing the conveniences and comforts of electricity to more than seventy-five thousand farm homes.

It is providing an abundance of clean, bright, economical electric light for these homes. It is furnishing power to pump water, operate washing machine, churn, separator, vacuum cleaner, electric iron, milking machine, and other small machinery.

And everywhere it is demonstrating its wonderful efficiency—and actually paying for itself in time and labor saved.
