In the orchard you PICK the kind of apples you want. In the market you take what the dealer has. We want the pick of the wheat for

**WILLIAM TELL FLOUR**

and we go right to the fields to get it.

The big **WILLIAM TELL** will be right in the heart of the richest wheat growing country in the world.

We go into the fields ourselves and pick just what we want—the very best of the season's crop.

And you see the results in a bigger loaf and a more delicious flavor when you bake with William Tell.

So Human
— it amazed all Ellsworthy

SOME of your friends must have been in the large audience which heard Marie Morrissey in her Tones-Test recital at Hancock hall recently. Ask them about it. This is the astounding discovery they made:

The keenest aural organ does not distinguish any difference between the voice of the living artist and the REPRODUCTION of the New Edison.

The New Edison alone can RE-CREATE music for you.

Come in and hear for yourself. Make the great discovery for yourself.

A very different sort of a hat, one of the sorts, for instance, worn into a downtown store the other day by a lady, is made of cardboard and covered with patent leather. The brim is 

THE NEW EDISON

The New Edison can reproduce music with all the life and spirit of the living artist.
