MUTUAL BREADS COLONIES

HOT—HEALTHFUL AND BONDSOME

The Boston baking industry, in the days prior to the use of electricity, was a bustling and dynamic one. Bakers operated in the evenings and early mornings to meet the demands of their customers. The use of natural ingredients and traditional methods of baking were emphasized, and the bread was often delivered to homes by bakers on foot or in carts.

Terrible Eczema for 10 Years

No Trace Of The Disease Since Taking "Fruit-a-lives"

To H. H. Baker, Boston, Mass.

Dear Sir:

I am writing to tell you how "Fruit-a-lives" has cured me of my eczema. It has been a problem for me for the past 10 years. I have tried everything from medications to home remedies, but nothing seemed to work. I used to scratch and itch constantly, and it was a terrible struggle to live with.

When I started taking "Fruit-a-lives," I was skeptical. However, after taking it for a few weeks, I noticed a difference. The itching and scratching began to subside, and my skin started to feel better.

I have been taking the product regularly ever since, and I am happy to report that my eczema is completely gone. I can now sleep through the night without scratching, and my skin is soft and healthy.

Thank you so much for this remarkable remedy. I highly recommend it to anyone who suffers from eczema. It has been a lifesaver for me.

Yours sincerely,

William E. Hays

SOME FACTS AND FANCIES ABOUT THE PHILIPPINES

There Has Been Much Misrepresentation in America About People and Conditions.

By MAXWELL H. KALAM, Secretary of the Philippine Mission.

A report in the N. Y. Tribune a week ago, that the Spanish Government had ordered the Dragoon Munro to be sent to the Philippines, has caused much curiosity among the American public. The report was greeted with scepticism, however, and the American Government has denied that such an order has been given. The American public is therefore left in a state of uncertainty as to the future of the Philippines.

The report was based on information received from Spanish authorities in Manila, who stated that the Dragoon Munro was being sent to the Philippines to put down a disturbance among the natives. This disturbance was said to have been caused by an insurrection led by a native chief named Marcos, who had been arrested for murder and sentenced to death.

The American Government has pointed out that the report is based on unverified information and that it is premature to discuss the matter until further information is obtained. The American public is therefore left in a state of suspense as to the outcome of the situation.

The American Government has indicated that it will take all necessary steps to maintain law and order in the Philippines, and that it will not tolerate any disturbance of the peace.

The American public is therefore left in a state of uncertainty as to the future of the Philippines and the American Government is faced with the difficult task of maintaining law and order in the face of an insurrection.

MANILA CARNIVAL BIG ATTRACTION OF FAR EAST

This is the season of the year when the Philippines become the playground for the entire Orient. It is called by various names in English. In the first Philippine carnival, the city of Manila is called the "City of the East," when the season is coming to an end. At the beginning of February, when the season is coming to a close, the residents of Manila enjoy themselves by going to the sea, the mountains, and the country.

There are commercial and government buildings, as well as private houses, that are turned into the best hotels and resorts. As a result, the city of Manila becomes the most beautiful place to visit in the Orient.

No, under this sun we can't grow corn, and it is a waste of time to ask why. But you can have a good crop by following the instructions given in the section on corn growing. If you want to grow corn, you can try it in the Philippines, where the climate is ideal for growing.

Rice Terraces Are World's Masterpieces

This is a photograph of the famous rice terraces, which are among the most beautiful places in the Orient. They are situated in the mountains of the Philippines, where the climate is ideal for growing rice. The terraces are not only beautiful but also very productive, providing food for the residents of the region.

Now All You Fellow Youths, Come Fill Up Your Pipes

Fever men ever "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'ts when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made good for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow age.

For eight long seasons Velvet "meditates" in wooden hodges, throwing off the rawness of "young" tobacco—truly "aging in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept and made better.

For Velvet's sweetness is the sweetness of good tobacco, "not put on" like "frosting" on a cake. Its mildness comes from natural aging, not having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarettes. Roll one.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the raising cost of living.

Other causes—the waste of war, under-production, the failure of crops, and the shortening of the season to the cost of the necessities of life, while freight charges have added only cents.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for $30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16 cents.

Now the freight charge is 22 cents and the suit sells for $30.

The cost of the suit has increased 210 dollars.

The freight on it has increased only 2 cents.

These reduction were due to the fact that the motor truck, which can carry three-fourths of an average ton, is 30 per cent cheaper than 100 years ago, and the railroads have lowered freight rates.

The $10 pair of shoes that used to cost $5 goes from the New England factory to the Florida dealer for a ton in freight charges, and the dealer adds one cent more than the pre-war rates.

Beef pays only two-thirds of a cent a pound from Chicago to New York.

American freight rates are the lowest in the world.

CLINIC HAS PROVED WORTH報導 Emphasized for First Well Worth of Infection

by Other Employers

A severe epidemic of scarlet fever swept through a city in the East last month, and the death rate was fifteen times the normal rate.

At the time of the epidemic the workmen received no notification of the epidemic, and the case was unreported in the city's health department.

The Department of Health of the city in charge of preparing phlegm and urine, reported to 3,300 the total cases of the disease.

During the epidemic the death rate was reported 15 times the normal rate.

In each case, which is the normal rate, the number of death reports per day was only six.

It is the policy of the Department of Health to give all death reports every time when they come into the hands of the department.

This arrangement was made by the Department of Health to control the epidemic.

A dental clinic is a formidable body in the United States, and it will be established by the Department of Health in every State.

The Department of Health is now preparing to establish it in the United States.

The Department of Health, in charge of preparing phlegm and urine, is responsible for the exhibition of this epidemic.
