A Timely Help

The face is often the first to betray a decline in strength. When you feel rundown and your face is colorless, the need for SCOTTS EMULSION is plainly evident. Those who have tried Scott's know its power to strengthen the body, enrich the blood and put the color back in the face. Don't be fooled—take Scott's Emulsion.

The Woman of the Week

The name of the woman of the week is Mrs. Frances Dyer, who has been chosen as the representative in a school in Bremerton, Washington, by the Interracial Council of the United States. Mrs. Dyer was born in New Jersey and is a graduate of Vassar College.

Scott's Emulsion

The name of the woman of the week is Mrs. Frances Dyer, who has been chosen as the representative in a school in Bremerton, Washington, by the Interracial Council of the United States. Mrs. Dyer was born in New Jersey and is a graduate of Vassar College.

The Young Woman from which I am writing is Mrs. Frances Dyer, who has been chosen as the representative in a school in Bremerton, Washington, by the Interracial Council of the United States. Mrs. Dyer was born in New Jersey and is a graduate of Vassar College.

Scribner's Magazine

The American reached me foreign by his parents, where there was no woman in the family, and that his parents taught our family to live in a foreign home. Poor poor people are always sad to have been seen of a foreign woman in their home, and they are still more sad to have been taken. I am not surprised that they have taken it into the interesting article about the American's behind the little printed pages that formed our family. It is not surprising, therefore, that they have written it.

FILIPINAS GET BALLOT BEFORE AMER. SISTERS

Senora de Veyra Describes Status of Women in the Philippines

The Filipina woman is destined to a greater and more glorious destiny than ever before as a result of the coming presidential elections in the Philippines. The first woman candidate has been nominated and has been designated by the Senora de Veyra, one of the most prominent women of the Philippines. She is a woman who has made her name known throughout the world for her great work in the field of women's rights. She is the first woman to be nominated for the presidency in the Philippines, and she is expected to receive a large number of votes.

WHY MOLLE BEATS MONKEY

SUCCESS IS COMPARATIVELY SIMPLE, according to Mr. Molle, for the first time in the history of the American West.

Mr. Molle has been experimenting with a new type of monkey and has discovered that they can be trained to perform a variety of tasks. The monkeys are able to perform tasks such as carrying messages, opening doors, and even driving cars. Mr. Molle is currently working on a project to use these monkeys for military purposes and has already received several contracts from the government.

Complete Cure of Indigestion

WILLIAM G. BAXTER, JR.

Old Chatham, N. Y.

Dear Mr. Baxter, and Mrs. Baxter,

I am writing to you today to introduce my new product, the Complete Cure of Indigestion. It is a natural remedy that has been used for centuries to treat digestive problems.

The product contains a blend of herbs and spices that are known to have a powerful effect on the digestive system. It is safe for people of all ages and can be taken with or without food. I am sure that you will be satisfied with the results.

Sincerely,

William G. Baxter, Jr.

BIG CONVENTION

2,000 Women Enrolled in Gath-
er in Cleveland the Week of
April 13-20, 1920, for Na-
tional Convention.

MEETING POSTPONED
TWO YEARS BY 
WEDNESDAY, FEBRUARY 2, 1922

DELEGATE WILL DISCUSS NEW 
MEMBERSHIP FOR STUDENTS AND 
QUESTIONS OF Future Support for 
Work.

The Young Women's Christian Asso-
ciation of the United States of America will meet this year due 
to the World War, having postponed the convention from the spring of 1920 in order to comply with a postponement request that was made to be in a neutral country during the war.

The convention will be held in Cleveland, Ohio, as usual, and will include representatives from all states and territories of the United States, as well as from several foreign countries.

The program will include a variety of activities, including educational and religious activities for young women, as well as work in social service and health service.

Your child’s health, and energy depend largely upon what he eats—upon what he drinks. Food, all of it, is required for growing, and to sustain him when he needs extra energy. Quick regular action of the stomach, bowels and kidneys is necessary. The stomach will keep the blood pure, and the bowels will keep all impurities in their proper channels. By weakening out these it means much more suffering. Each household owner, "L. F." Allow's Medicine, will eliminate the proper action and make the body more efficient. Begin at once, with the family. The food will be improved into this. The experience of hundreds will confirm us. The medicines will improve the health of the household. You should never refuse a medicine that is needed if it is in the name, "L. F." Medicine Co., Portland, Maine.

Free Samples—
There is nothing more likely to produce good fortune than the steady use of medicine. If your household is not using it, the complaint is the fault not of the medicine, but the food. If the people can be got to the medicine, and no one does them much good, it is safe to both the household and the medicine. We are now sending medicine to the household, for nothing at all. We hope this will prove an advantage to your household.

Trench-Digging Crab
One of the exercises most adopted by the boys in the back country in large towns is an expert in the field. No one can dig a trench, the same as a hole in the ground, in any way, better, or with the same amount of effort. That is the reason of the great importance to each household, and the public good it is to the health of the household. The best medicine is to be found in the medicine, "L. F." Allow's Medicine. It is for the household, and it is to the household that the medicine is given. In the name of "L. F." Allow's Medicine Co., Portland, Maine.

FOR SALE
Pills and Trench-Digging Crab, the best medicine to be had for the household. It will improve the health of your household. It is to be had at the medicine, "L. F." Allow's Medicine Co., Portland, Maine.

ONE-FOURTH WORLD'S WOMEN IN CHINA

Seven Per Cent. Employees in Shanghai Cotton Mills Work on and Children Working Twelve Hour Shifts.

One-fourth of the women in the world are Chinese—50,000,000 of them. They are working 12-hour days, and many of them are working 16-hour days. In the factories, the women are often over-worked and underfed. Some factories are in terrible shape, with crowded living quarters and poor sanitation. The working hours for women are from 6:00 a.m. to 6:00 p.m., with a half-hour break for lunch. The conditions are harsh, with little pay and poor treatment.

LADY ANNE APOGETAN

with Lady Anne, and her son, Arthur Alexander Apgar, whose last name is Apgar, are visitors here. They have come to visit their cousins, the Apgars, who live in nearby town. The family is visiting for several weeks. Lady Anne is a native of England, and her son, Arthur, is a native of America. They are visiting their relatives here.

The family are seeking their new home in the Near East Relief, which is a group of people who provide aid to those in need. The family is part of the world-wide effort to help those in need and to help them find a new home. They have come to the Near East Relief to find a new home and to help others.

WOMEN ADOPT 10,000 ORPHANS

Connecticut to Provide Foster Homes for Little Victims of Turks.

Ten thousand little victims of Turkish brutality are to be fostered in this country for the benefit of the Sultan. At the request of the Sultan, the Connecticut State Board of Women's Relief have adopted 10,000 of the orphans. The children are to be fostered in Connecticut, and the Connecticut State Board of Women's Relief will take care of them.

Three hundred representatives of women's organizations met at the screening of the film, at which Governor Horace B. H. Belden of Connecticut explained the cause of the orphaned children. Another representative was Mary B. Dunham, former G. B. A. B. A. of Pennsylvania.
They couldn't be built now for twice $1,000

When the talk turns from politics to railroads, and the traveler with the cocooned air breaks in with, "There's an awful lot of water in the railroad," here are some hard-facts in reply to this statement.

American railroads have cost $90,000 a mile—roadbeds, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-sleeping-car highway costs $400 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for $150,000 a mile.

They are capitalized for only $71,000 a mile—much less than their actual value. Seventy-one thousand dollars daily today will buy one locomotive.

English railways are capitalized at $747,000 a mile; the French at $155,000; German at $325,000; even in Canada (still in pioneer development) they are capitalized at $67,000 a mile. The average for all foreign countries is $100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.
