Think of it—thousands spent for luxuries and pleasure for himself; and $148 to leave the world a little better than he found it?

Most of us do better than that; but not so very much better.

Our average annual gift for all causes is—

- less than we spend upon daily papers
- less than a local telephone call
- less than a third of the day's fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than $30 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 40,000 people. No wonder that every church board and charity society is forever meeting definite, forever passing the hat.

It is said because we are 'too busy' that it isn't necessary. We are too busy; and if we aren't willing to help, it's just because no one else has ever put up a big enough program to us, and asked us to think of the work of the church in a systematic businesslike way.
