Ellsworth People Demand The Best In Candy

Our experience has shown that they do not patronize hand

made sales in candy any more than they would a bargain

sale of dirty soap, ours milk or cheap bread. Our

family business is growing and the sale of chocolate at

least once a week, often twice a week, so that our families

are always ready to recommend any new line.

Page & Shaw, Huyler's, Apollo, Lippett's

and secondly we added a new line,

"Candy and Confections at a Good Price."

NO OCCUPATION.

She times her meals to suit her hungers. She chooses the food she best likes. While schoolchildren, her mother, who had been a school teacher, would give her hard-boiled eggs and milk and bread and butter and cakes. Now she is an adult and chooses her own foods. When breakfast is served all are done, she begins her breakfast, and then the rest come up one by one, and sit down to eat.

By way of accompaniments.

She has no "accompaniments," and she likes them that way.

Then progress goes for dinner.

A hearty dinner sets one on the road to get through the evening.

Then the rest go to bed and all are quiet.

For those that the children have gone to bed,

For those with young enough to go to bed and get to sleep.

For those that the mother has a choice of making the dinner,

For those that she has a choice of making the dinner.

For those that the mother has a choice of making the dinner.

INOROUT
The All-Brand Varnish

When the furniture gets a discouraged look, and the woodwork seems to need a perfect appearance, INOROUT will bring back the glint to the glistening. Live steam and boiling water won't harm a bit.

Outside, for the front door, porch railing, swing chair, buggy, box, barn or gate, every stitch rugged up by the weather, INOROUT gives a brilliant protection against black, blue, green or brown scale, snow or freezing rain. You can't beat it. Gallons quoted and ready. Try it.

Bay State Liquid Paints
From the same body of material painting the whole house, there's no New England competitor in the job.

CORRESPONDENCE.

Test Problems.
North Pacific, April 29, 1929.

Sir:

Receiving a magazine recently, I tried the problems in mathematics for the grade of eighth or ninth level and found the former problem (speed) rather simple. The latter problem (speed and distance) is much more difficult than I thought and I give the following suggestions as the solution:

The average time is 1 hour and 30 minutes. The train is a fast one and runs at a speed of 70 miles per hour and 100 miles per hour respectively. The passenger train runs at an average speed of 50 miles per hour and 24 miles per hour respectively. 1. Accurate and precise speed. 2. The solution to the problem is approximately 6:00, or the time it takes for the passenger train to cover the distance traveled by the train.

Sincerely yours,

[Signature]

**SCOTT'S SHOE SHOP**

There Are Just a Few Who Make Collections Costly

**Most Telephone Subscribers** pay their bills promptly and the expense of collecting the majority of telephone accounts is, therefore, reasonable.

**But there are a number of subscribers who** overlook their telephone bills, who neglect to pay them within the reasonable specified time, and the cost of collecting these accounts is greatly increased. This, as well as the inconvenience and irritation to the community's telephone service, is due to the fact that the telephone company is not able to dispose of these accounts in a timely manner.

**The effort** involved in collecting overdue accounts would be saved if all accounts were paid within a reasonable time, and might better be devoted to other work of value to the community's telephone service.

We are taking this means of placing the facts before telephone subscribers in general and we feel certain that they will cooperate by paying their bills promptly.

Goodyear Leadership—and Tires for the Smaller Cars

Enormous resources and scrupulous care have produced Goodyear Tires for the smaller cars—a value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3.5, 30x3.75, and 31x4.75 sizes.

Last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at the nearest Goodyear Heavy Tourist Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

The Goodyear Tires in this car were purchased at the Goodyear Dealer nearest you. They have been used for 9,000 miles without a single complaint.
