MUTUAL BENEFIT COLUMN. Edited by "Aunt Madge."

MOTTO .- HELPFUL AND HOPEFUL

The purposes of this column are succinctly stated in the tilte and motio -tils for the mutual benefit, and alms to be helpful and hopeful. Being for the common good it is for the common use-a public servant, a purveyor of information and suggestions, a medium for the interchange of idens, in this ca-pacity it solicits communications, and its success depends largely on the sup-port given it in this respect. Com-munications mus, be signed, but the name of writer will not be printed ex-cept by permission. Communications will be subject to approval or rejection by the editor of the column, but none will be rejected without good reason. Address all communications to The American, Ellsworth, Me.

ENDEAVOR. "What hast thou for thy scattered seed. O Sower of the plain? Where are the many gathered sheaves Thy hope should bring again?" "The only record of my work Lies in the buried grain."

"O Conqueror of a thousand fieldst In dinted armor dight. What growths of purple amaranth Shall crown thy brow of might?" "Only the blossoms of my life Flung widely in the fight."

"What is the harvest of thy saints. O God! Who dost ablde." Where grow the garlands of thy chiefs In blood and sorrow dyed? / What have thy servants for their pains." "This osly-to have tried."

Dear M. B. Family: Some one of the nieces sent the above

nes written by Julia Ward Howe.

How many, many have "tried!" Dear Aunt Madge and M. H. Sisters: What a beautiful rain we have had for our crops and hay. It fails on the last and unjust. When is that reunion coming off? I speet to

When is that reunion coming off? I expect to go to Bangor soon by land, and probably may go by the Bluehill route. I would like to stop off long enough to shake you and your John by the hand. To change the

route. I would the the two you and your John by the hand. To change the subject; I see by the papers the talk of schools going back to the old-fashioned size and pencil. It says there is such a shortage of paper and so much masted in scribbling that something must be done. I dis-tinctly remember the first slate that I had. It is more than eighty years ago. My father came home from away bringing two slates one for Billy and one for me. Mine was a little 7 by 9 affair. A slate pencil nearly six inches long he cut in two and give each of us a plece resumpting. See how home you can keeg it." I used mine until I reached compound multiplication. The sums were so long that they covered one side of the slate. But now it is called by another name, and done a shorter way. Do any of our old-timers remember the old guill pen? It has been slide with one of those pens that I hearmed to

They would take the large feathers from the goose-wing. dip one in hot oil. Then it was called Dutch quill. They had to be made with a penknife, cut to a point, and then tha point split on the thumbnail. The first steel pen that I ever had the handle was made of tin and painted red and shut up to carry in the pocket. My first writing-book was sheets of paper sewed together and a brown, paper cover. The teacher ruled it and set the copy-the alphabet large and small. Stadle."

I hope Sadie you will come and see I hope Sadie you will come and see us on that trip to Bangor. I told Idora, who spent the day with us yesterday, that I seemed to be having the reunion on the instalment plan. H. O. B. was here not long ago, and visited us, Ed-mina and others.

mina and others. Further on in the column you will find an allusion to the time of having the reunion. There is no particular reason why we should have it the third reek in August, only, as Dr. Crane would say, it has become a habit with

us. Perhaps one reason is, having is mostly over then, and the Johns can come better, and another is, the "folks" home on summer vacation can be with us. How about August 26 this year?

Dear Aunt Madge: As I write our dear old State is cele-

hrating its hundredth anniversary, but they have to get along without my arand success. Frust it will be a read success. Frust it will be a read success. Frust it will be a read success. One who has often read with us is in Partland with a tew words about it in the column. Socony products and service have kept pace with every step of progress made in the petroleum industry-and with every requirement of those who depend upon it in any way.

As a result, Socony gasoline today represents half a century of refining experience. It is truly the -standard of quality motor fuels. Socony stations are ever increasing in number because motorists are demanding, more and more, a uniformly clean and powerful gasoline, easily obtainable.

Because Socony is always uniform, it always gives full mileage with low carbonization. And this is true whether you buy it in Bar Harbor or Buffalo. The economy of a permanent carburetor adjust-ment is possible only when you can obtain your regular gasoline whenever you need it. Socony service enables Socony users to do this.

For complete motoring satisfaction, begin using Socony regularly today.

Look for the red, white and blue Socony sign.

WEDNESDAY, JULY 21, 1920.

With two new picture houses in prospect. Ellsworth is looking for moving times next winter.

Hancock county friends of Roscoe A. Eddy of Bar Harbor congratulate him upon his reappointment for a third term as commissioner of labor.

The report of the expert accountants who made a special audit of the accounts of the city of Ellsworth in the spring, is published in full on pages 6 and 8. It should be carefully studied by the tax-payers of Ellsworth. It contains many suggestions looking toward a more systematic and business-like method of bookkeeping.

The fuel administrators of the New England states have united in a report to the governors of the states, summarizing the fuel situation in New England. They say that unless quick and effective relief can be obtained through the Interstate Commerce Commission or through executive action of the President, the New England states will be face to face with the worst steam coal crisis in their history. Already the effort seems to have had results, as the coal operators have promised all the coal New England needs; but the fuel administrators and the governors will not be satisfied with promises. New England, the northwestern states and other sections of the country are threatened with a fuel famine, while millions of tons of coal are being exported. It is a time to resort to strenuous measures if home industries are to be protected.

Interested and interesting visitors to Ellsworth this week were Mr. and Mrs. Arno W. Glidden of North Abington, Mass., who were married here fifty

years ago, and visited here for the firs ime since that day, as a golden wedding trip. They were accompanied by a son and daughter, arriving Saturday, and remaining over Sunday, the anniversary day. They have another son, located in South America. Mr. Glidden was born in Ellsworth seventy-four years ago. He was learning the printing trade in The Ellsworth American office when the Civil war broke out, and he enlisted. When he returned in 1865, he finished his trade, and for a year was foreman of The American office. From here he went to Aroostook county, where he published a paper for a few years, and then went to Massa-

chusetts. Mrs. Glidden was also an Ellsworth woman, Miss Alna Tinker, whose home was on the Surry road She was also employed in The American office, and it was in this office that the romance of more than fifty years had its beginning. Mr. Glidden's father was proprietor of the old Ells-worth House sixty-five years ago. Before coming here, Mr. Glidden made out a list of names he could recall of friends and associates of his boyhood

Be-

here, whom he wished to look up. He had 110 names on this list; he found just nine of them. All the others are dead, or have moved away. Dirigo theatre will be the name of the new pleture house to be built on the site of Waverly hall and the Forsyth building. The name will per-petuate one of the several names by which the larger of the two buildings has at various times in its history been known. From the fact that the Dirigo club for several years occupied the second floor of the building. It has sometimes been called Dirigo hall. Now J be Dirigo theatre. The Dirigo Theatre Co. has been incorporated, and this week will take over title to the property. Plans for the remodelling of

the buildings have been completed by Milton W. Stratton of Bar Harbor, and work will begin at once, under the supervision of Frank R. Moore. An order has already been placed with the Ellsworth Foundry & Machine Works for the steel trusses that will support the roof. The building will be 61.6 feet wide and 78.6 long. Plans of the

front elevation show a simple but at-tractive design. There will be four connecting doors at the entrance in the middle front, opening directly on the ticket booth, with roomy lobbles at right and left. At the left of the entrance will be toilet rooms, and at the right an office. There will be three blocks of seats, with two aisles. The floor will be absolutely clear of posts or

other obstructions to the view . There will be 504 seats. Exits will be provided on all four sides of the building. Hugh Campbell has already been engaged as operator, while his wife will be in the ticket booth.

AUDIT REPORT

CITY OF ELLSWORTH, MAINE

MARCH 7, 1920 BY ERNST & ERNST: BOSTON.

Boston, May 27, 1920

Mr. Edward F. Small Chairman Finance Committee, Ellsworth, Maine. Dear Sir

Dear Sir: Dear Sir: Pursuant to your instructions we have made a detailed audit of the books of account and records of the City of Elisworth. Maine, for the fiscal year ended February 7, 1920, and herewith submit our report. Our ex-amination did not include the tax commitment books, as the tax collector refused to submit his records for our inspection and all efforts to obtain any data in that department were unsuccessful. All other recorded trans-actions for the year were carefully examined by us, and we made a thor-ough verification of the assets and liabilities at February 7, 1920. It was impossible to obtain a trial balance from the general ledger as it contained only appropriation accounts, a few old accounts receivable which were considered uncollectible and edmetery accounts. A funded debt account was left with a debit balance of \$69,874.34 in the year 1880, and a similar account appeared on another page with a credit balance of \$12.-255.12 in the year 1899. Neither of these accounts was ever closed out At the end of each fiscal year the credit balances of appropriation accounts were carried down for the new year, but debit balances were sim-ply ruled off, marked "overdrawn" and the accounts closed. No accounts were kept with notes payable, bonds outstanding, cash, or other assets or liabilities.

We attach hereto as a part of this report a balance sheet at Febru-ary 7, 1920, and statement of revenue and expense, together with various supporting itemized schedules. Your particular attention is invited to the following comments in connection with our audit of the accounts: Current assets, \$21,095.30 Cash, \$329.24

hank and reconciliation of the amounts reported with the balance shown by the treasurer's cash book. In examining the cash book, we found that it had never been reconciled with the check book or the bank statements. The cash book showed a balance at the close of February 9, 1920, of \$4,-591.21, but as items were included that had been received up to March 1, there was an overdraft at February 7 of \$8,351.32. We reconciled the cash at February 7, 1920, and found that at the close of business the account at the Liberty National Bank was overdrawn to the amount of \$10,455.41 and that there was on deposit at the Union Trust Commany 2290 47 and on band \$31.87

to the amount of \$10,455.41 and that there was on deposit at the Chion Trust Company \$290.47 and on hand \$31.87. We reconciled the cash at March 13, 1920, the last date on which checks were drawn, and found that the cash book balance agreed with the check book and bank statement on that date, and that there was cash amounting to \$\$51.65 on deposit at the Union Trust Company. Totals of pages in the cash book were entered in pencil. No postings were made from this book to the ledger, journal entries being made for all cash items. A number of items that were entered in the cash book were not

were made from this book to the ledger, journal entries being made for all cash items. A number of items that were entered in the cash book were not in the journal and, therefore, not in the ledger accounts. We made a thorough audit of all recorded cash transactions for the year, tracing the receipts into the bank, and compared the Mayor's rolls with the supporting data and canceled bank checks. We found two checks made out to certain payees but endorsed by others, as shown in an attached schedule. All Mayor's orders were com-pared with the journal entries and found to be signed by the Mayor. The tax collector paid out cash for street, sidewalk and various other pay rolls, and also invoices charged to those departments. We recom-mend that the treasurer be the only disbursing officer of the city and that no payments be made except by check. On the above mentioned pay-rolls and invoices paid by the tax collector, approximately half of the signatures for the receipts of money were signed "J. H. Bresnahan, Collector" with a rub-ber stamp. We were unable to audit these payments for the reason that we were unable to obtain the tax collector's records as heretofore mentioned. The receipts of movies were unable to audit these payments for the reason that we were unable to obtain the tax collector's records as heretofore mentioned. The collector's explanation of this method was that the persons to whom the money was due owed the city for back taxes.

Accounts Receivable, \$20,772.96. No accounts receivable were kept in the ledger. We computed the taxes unpaid for 1919 as \$18,634.01 by taking the total tax assessed for the year, as committed to the tax collector, and deducting the total of cash re-

year, as committed to the tax conector, and deducting the total of cash re-ceived from him and the disbursements reported made by him. The tax collector, John H. Bresnahan, has had a contract with the city of Ellsworth for the past few years to collect the taxes and also ½ per cent. interest per month on all taxes not collected by August 1 of the year committed.

We computed the interest for 1918 due the city as \$547.10 of which \$75.38 was paid, leaving a balance due of \$471.72. On the 1919 taxes the total interest was \$1,351.89; the amount received from the collector was \$\$2.38, and the balance due from him for interest on 1919 taxes, \$1,269.51. We have included the unpaid interest as part of the accounts receivable due the city on February 7, 1920. Section 35—State of Maine revised laws 1916 has the following in re-

Section 35---State of Maine revised laws 1916 has the following in re Section 35—State of Maine revised laws 1916 has the following in re-gard to the collection oftaxes: "Every collector of taxes shall once in two months at least exhibit to the municipal officers, or where there are none, to the assessors of his town, a just and true account of all moneys peceived on taxes committed to him, and produce the treasurer's receipts for money by him paid; and for neglect he shall forfeit to the town two and one-half per cent, of the sums committed to him to collect." The tax collector did not take into account the total supplementary tax of \$222.64, although he did include \$56.09 which he had collected. This makes a difference of \$166.55 on his account as shown by the reca-pitulation attached.

Abatements on taxes could not be properly audited, as they were found to be entered in some cases as three years' abatement, and the amount applicable to each year could not be determined. We illustrate below: F. B. Aiken Estate 1918

tached balance sheet. The library fund cash was verified by communication with the bank. The securities were verified by actual inspection. The income from the investments, instead of being deposited in the bank, was credited to the li-brary appropriation in the ledger. This income should be deposited, and an account opened with the library fund in the ledger entirely distinct from the appropriation account. According to the records all but \$2,000,00 of this fund came from

the appropriation account. According to the records all but \$3,000.00 of this fund came from three life insurance policies left to the city by Z. Jellison amounting to \$5,000.00 each, to be known as the Jellison Memorial Fund, the income to be expended for books only. Mr. Jellison died in Brooklyn, N. Y., in May, 1919, and on August 13 a check was received from the Benefit Life \$15,222.20 \$620,18

This was the amount of the outstanding bonds of the city as shown by the city clerk's records and verified by us by communication with the First National Bank, Boston, Mass. No provision has been made in the nature of a sinking fund to pay this debt at maturity. A description of these bonds follows: \$28,000.00 Refunding Loan Bonds, denomination of \$500.00 each

Nos. 1 to 56, dated June 1, 1917, due June 1, 1937, interest at 4 per cent. per annum payable June 1 and December 1, principal and interest payable at the office of the City Treasurer, Ellsworth, Maine, or at holder's option at The First National Bank of Boston, in Boston, Mass. The bonds were signed by A. C. Hagerthy, Mayor, and Roscoe H. Smith. Treasurer, and were

signed by A. C. Hagerthy, Mayor, and Roscoe H. Smith. Treasurer, and were sold to the Augusta Savings Bank, Augusta, Maine. \$30,000.00 Refunding Bonds in denomination of \$1,000.60 dated June 1, 1912, due June 1, 1932, interest at 4 per cent. per annum, payable June 1 and December 1, principal and interest payable at the office of the City Treasurer in Ellsworth, Maine, or at the holder's option at The First National Bank of Boston. These bonds were signed by John A. Cunning-ham. Mayor, and Charles W. Joy. City Treasurer, and were sold to E. H. Rollins & Sons, Boston, Mass. Berenue and Expense.

Revenue and Expense. We include as a part of this report a statement of Revenue as it should appear on the books, and also a statement of Revenue and Expense with other exhibits showing items making up the Contingent, Highway Truck and Permanent Sidewalk appropriations. We audited the assessors' books and found that the valuation of \$2,347,129.63 at 0.342 per cent. produced \$80.271.83; adding \$90 poll faxes at \$3.00, or \$2,670.00, made a total of \$82,941.83 for 1919. We tested several pages and found them correct. Added to \$82,941.83 is a supplementary tax of \$267.25 and a supplementary non-resident tax of \$15.39, making a total of \$83,164.47 for the year 1919. Permanent Assets, \$84,949.50.

This amount represented inventories shown by the finance committee, and it is our opinion that the values were conservatively stated. The de-tails making up the above are itemized on the attached balance sheet.

Concerner Fund, \$3,793.12. The purpose of this fund is to provide for perpetual care of ceme-tery lots. It consists of money given to the city for the care of certain lots, the principal of which is supposed to be on hand at all times. Inter-est is added to this amount at 4 per cent. per year to take care of the lots. All this fund had been expended and there was no cash on hand for either principal of the income. The various lat accounts have been expedied with principal or the income. The various lot accounts have been credited with

HE NOW BELIEVES IN "FRUIT-A-TIVES" Teacher Of "New Thought" **Healed By Fruit Liver Tablets**

SCHENECTADY, N. Y. "I am not in the habit of praising any material medicine as I am an advocate of 'New Thought'; but some time ago, I had such a bad attack of Liver and Stomach Trouble that I gave up thinking I did not have it and took 'Fruit-a-tives' or Fruit Liver Tablets. Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body. 'Fruit-a-tives' is the highest result of 'New Thought' in medicine".
