Edmon M. Williams of West Newton, Mass., is in the Hancock county jail, in default of \$1,000 bail, awaiting action of the October grand jury on a charge of passing worthless checks. Williams has been operating under various aliases at Rockland and Belfast. Sheriff Westcott was notified to be on the watch for him, and notified the banks of the county. Mary Bunker, aged nine years, had a narrow escape from drowning in the river last week. Mrs. Ralph Smith took her own children and the children of some neighbors to Woods shore for a little picnic. The children were in bathing, and the Bunker child, riding on a log, was carried into deep water. In her fright, the child jumped from the log. Mrs. Smith, fully dressed, plunged in to save the child, and though she could not swim herself, and the water was beyond her depth, she succeeded somehow in reaching the child and struggling back to a footing and to shore. But for her prompt and heroic work the child would have drowned. The child had swallowed considerable water, and it was some time before she recovered from the effects of her experience.

John A. Scott of Ellsworth, who has been principal of the academy at Corinna the past four years, will go to the high school at Machias in the fall. The Corinna correspondent of the Bangor Commercial writes as follows of a little party given Mr. Scott: "Members of the class of 1920, Corinna Union academy, gave John A. Scott, the retiring principal, a very happy surprise Tuesday evening, Aug. 17. They came in a body, and stole it upon him without his suspecting what it all meant. During the evening, games were enjoyed and refreshments of ice-cream, cake and punch served. Just before leaving, Donald Maxim, president of the class, in a few well-chosen words, presented Mr. Scott with a beautiful gold watch chain, to which was attached a Knights Templar emblem. This class has been with Mr. Scott during all his four years' stay in the academy, and the members of it wished, as they expressed it, to show their appreciation of his kindness to them."

Dr. Harvard Greely has been exhibiting a curiosity in the shape of an old-time rubber shoe, which he dug out of his attic recently. One of the so-called rubbers of to-day would blush with shame, even through its coal-tar face if placed beside this old-time rubber. It is of pure rubber, nearly one-quarter of an inch thick. This one is hardened, almost vulcanized, by age, but in its youth it could have been stretched out like a rubber band. Worn-out rubbers of this type were much coveted by the boys, who cut them into strips for bean-shooters, or wound them for the center of their rubber balls.

MOTTO:—HELPFUL AND HOPEFUL.

The purposes of this column are succinctly stated in the title and motto—it is for the mutual benefit, and aims to be helpful and hopeful. Being for the common good it is for the common use—a public servant, a purveyor of information and suggestions, a medium for the interchange of ideas. In this capacity it solicits communications, and its success depends largely on the support given it in this respect. Communications must be signed, but the name of writer will not be printed except by permission. Communications will be subject to approval or rejection by the editor of the column, but none will be rejected without good reason. Address all communications to The American, Ellsworth, Me.

**INVISIBLE WOUNDS.**

(By Folger McKinsey.)  
Did you think that all wounds must be wounds you can see?  
That only the bandaged are wounded? Ah, nay!  
There are wounds of the heart that, so hidden may be  
They are never disclosed to the light of the day—  
Invisible wounds, so much harder to bear  
Than the wounds that are open and fresh to the air!

There are lives that are wounded, whole lives wounded deep  
By the loss of their faith in the things that they thought  
They could trust, that they knew would not fall in the sweep  
Of the changes, the changes the battles of life may have wrought—  
Invisible scars hidden down in the heart  
That no one discovers, that fester apart!

Well, they ache just the same as the wounds that you see  
On the surface of things in this life as we go;  
And they're harder to heal, lest with love and with grief  
We doctor them tenderly all that we know—  
Invisible wounds that hurt clear to the core  
When they come to us out of life's terrible war!

Dear M. B. Friends:  
The poem from "Ann" brings out a thought which should make us all considerate of others. They are the brave who bear the invisible wounds; and, all unconscious of their burdens, their fellow travellers journey beside them through life.  
There will be a surprise for you from "Ann" at the reunion. Not that she will be present, but we shall not soon forget how very much she helped last year to make the gathering a success.

Some of you may already know that "Esther," on her return trip from Seattle, stopped in Massachusetts for an operation in a hospital in Boston. We all hope for her restoration to her usual good health. "Ford" remained in Massachusetts with her, but we still are thinking some of the sisters will be here together.

I neglected to mention last week how welcome letters and messages are from those who find they will not be able to attend our annual festival. One of the after-dinner pleasures is the reading of words of remembrance from the absent members, and some have already responded. I hope the new nieces, who joined us since last August, will make an effort to come and get personally acquainted with

the others. In two minutes you will find that you always "belonged."

The American Magazine for September, like the former issues, is full of sensible, practical articles. The editor, commenting on one with the title, "What About These Awful Prices?" has the following:  
"Don't be a Typhoid Mary of Pessimism. A few years ago there was a mysterious outbreak of typhoid fever cases in New York. For some time the health authorities were unable to trace them to the source of infection. Finally they ran them down to a woman employed as a cook, who was carrying around the typhoid germs, to which she herself was immune.  
"Too many of us are Typhoid Marys of Pessimism. There is nothing really the matter with us. We are not even scared ourselves, but we go around talking as if we were, and all that we accomplish is to scatter germs of fear which infect others and do harm. A business man who has travelled in forty-five states since March 1 says the condition of our country is wonderful, and if people would shut their mouths talking about possible panics, and go on about their business, we would be in for a period of prosperity the like of which we never saw."

"O'Gjshrdnucmfwpetaoinvbgkqjvcwmypp  
The original article is by Bruce Barton, whom I quoted last week from another paper. He writes:  
"I am going to quit talking about prices when I go to visit people and when people come to visit me. I mean to make an honest effort to restore real conversation to my home. What chance have the children of this generation to grow up as idealists, when their childish ears hear nothing but talk of costs and losses and gains?"  
In connection with the above, it might not be amiss to give Irvin S. Cobb's definition of a pessimist: "The word, I take it, is derived from two shorter words. Pest—a common nuisance. Mist—an atmospheric opaqueness interfering with and distorting the vision. Hence, then, Pessimist—a common nuisance who sees through a fog."

I had a call from a New York lady this week, who gave me the following directions for blueberry jam. As soon as I get time I shall try it:  
One pound blueberries, one-half pound sugar, one orange cut in small pieces (with the rind); cook slowly.

**Atlantic.**  
There is much complaint, especially in Mirtun, of the ravages of the gulls. The gulls in large numbers come down on the hills and fields and rapidly eat up all the ripe blueberries. In some of the fields the owners have resorted to the use of scarecrows in the effort to keep the gulls away. Then, too, the fishermen complain because the gulls eat the herring out of the bait-pockets aboard the lobster boats while they are at their moorings, and at the weirs the gulls eat the herring out of the pounds.

**Facts for Sick Women**  

**Reliable Information**  
All American women know of the great success of Lydia E. Pinkham's Vegetable Compound in restoring to health women who suffered from ailments peculiar to their sex, yet there are some who are skeptical and do not realize that all that is claimed for it is absolutely true—if they did, our laboratory would not be half large enough to supply the demand, though today it is the largest in the country used for the manufacture of one particular medicine.

The Facts contained in the following two letters should prove of benefit to many women:

Buffalo, N. Y.—"I suffered with organic inflammation and displacement. When lifting I had such pain and bearing down that I was not able to stand up, and it hurt me to walk or go up or down stairs. I was going to a doctor without any results and he said the safest thing would be to have an operation. I met a lady who told me she had three operations and was not well until she took Lydia E. Pinkham's Vegetable Compound. I felt relief after taking two bottles of Vegetable Compound and I kept on with it until I was cured. I always use Lydia E. Pinkham's Liver Pills and they are fine. Everything used to turn sour on my stomach and the Liver Pills relieved that."—Mrs. A. ROGERS, 293 Fargo Avenue, Buffalo, N. Y.

Sacramento, Calif.—"I had organic trouble and had such terrible pain and swelling in the lower part of my side that I could not stand on my feet or even let the bed clothes touch my side. I gave up my work thinking I would not be able to go back for months. My mother advised me to take Lydia E. Pinkham's Vegetable Compound as it had saved her life at one time, and it put me in a wonderful condition in a couple of weeks, so I can keep on working. I work in a department store and have to stand on my feet all day and I do not have any more pains. I surely recommend your Vegetable Compound to all my friends and you may use these facts as a testimonial."—BERTHA J. PARKER, 3220 M St. Sacramento, Calif.

**DIRECTORS:**

H. S. Leach.

**IMPORTANT TO EXHIBITORS:**

For any information concerning the fair, address the secretary, A. S. Witham, Bluehill, Maine.

Entry book for exhibitors will be opened with the secretary after Sept. 1, 1920.

All entries for the trotting races must be made on or before Sept. 1, 1920, as the entries for those classes will positively close on that date, at 11 p. m.

Entries for the draft contests must be made at least one hour before the time for such contests to take place. Entries for all articles, stock, manufactures, produce, etc., must be made before 12 m. Tuesday, Sept. 7, and all persons contemplating making an exhibition of any kind are requested to give notice of such intention as early as possible, naming articles, etc., to be exhibited, space required, etc.

Promptness on the part of exhibitors will save much annoyance and delay, and will be greatly appreciated by the managers.

No entrance fee will be charged on exhibits of any kind made by residents of Hancock county.

Plenty of stalls and pens will be furnished for horses, cattle, sheep and swine, but exhibitors will please notify the secretary early of space required.

Plenty of water on the grounds to supply the stock in the driest time and for all other purposes for which water is needed.

**GENERAL REGULATIONS.**

Entries for articles and stock should be made on Monday, Sept. 6, and positively not later than 12 m. Tuesday, Sept. 7. Entries should be made with the secretary. Cattle not drawing premiums, driven over five miles, will be entitled to a mileage of five cents per mile, distance to be reckoned one way.

Stock to be on the grounds by 9 a. m. the first day.

Stock will be judged at 9 o'clock on the second day. Each person owning stock must be on hand to bring his animal out in judges' ring.

Specimens of agricultural products must be thoroughly cleaned and in boxes, tubs or baskets, and have a suitable place, to be numbered by the secretary or superintendent of the department.

No two members of the same family can enter vegetables, farm crops, dairy products, canned goods, etc., and fruit, in the same class.

No premiums will be paid except on articles raised or manufactured and animals owned and kept within the limits of Hancock county.

Judges examining animals and articles are requested to report their awards to the secretary before 11 a. m. of the second day, and to him only until after the award of premiums is published.

Any driver exercising cruelty or using profanity while driving his team shall be immediately ruled off the grounds by the judges.

No person who is an exhibitor can act as judge on the class in which he exhibits.

No premiums or mileage will be paid on articles or performances unless adjudged worthy by the judges, although there is no competition.

Premiums will not be paid to exhibitors until two weeks after the fair.

If the society should not receive money enough to pay premiums to exhibitors in full, they will be paid proportionately, according to what the society may receive.

Premiums will be forfeited if not called for before January 1, 1921.

Every animal or article entered for Premium must be owned by the person entering it, or his family, and all products of the farm, dairy, orchard, garden, house or shop must be entered by the producer or his special agent, and must be finished and complete.

All farm and garden products must have been produced or harvested the present year, and only one exhibit of every variety from the same planting or crop can be entered for premiums in its class.

Exhibitors, when requested by the secretary or by superintendents of departments, are expected to make verbal or written statements concerning their contributions; refusal to comply with such request may bar the exhibit from premium.

Awards will in no case be made when the exhibit is deemed (by the judges) to be unworthy of the premium.

When there is but one competitor in a class, the judges may award the first premium, if meritorious, but if not worthy of receiving the first premium, and if, in the opinion of the judges, the animal or article may be worthy of the second premium, then the judges must award only the second premium.

The managers will take every precaution for the safe keeping of animals and articles after arrival, and arrangement for exhibition, but the association will not be responsible for any loss or damage that may occur. Exhibitors must give personal attention to their animals and articles, and at the close of the fair attend to their removal.

The association offers a liberal reward for the arrest and conviction of any person or persons apprehended in committing any malicious mischief or removing or purloining any articles left with the association for exhibition or otherwise.

No person shall be permitted in the judging ring except the judges, groomers or persons in charge of the animals, officers of the association and members of the press.

Stock, etc., will be marked with tags furnished by the secretary, designating the number of entry, and during the entire fair they must be placed entirely under the control of the officers of the association, and must in no case be removed before the close of the fair without special permission.

Authentic pedigrees of blood stock of all kinds will be required, which must be filed with the secretary at time of entry. No animal will be allowed a premium unless sound.

**GRATUITIES.**

Owing to the lack of time, and other causes, doubtless many articles of value and interest manufactured and grown in this county have been overlooked in the enumeration of the following premium list.

It is earnestly hoped that all persons having such articles of any kind will kindly bring them in, and they will be awarded space for exhibition, the same as listed articles, and if in the opinion of the judges and directors, such articles are entitled to a premium, gratuities will be awarded.

Any person having novelties of any kind that would prove instructive or interesting will confer a favor on the society by presenting them for exhibition.

**CAMPING.**

Parties furnished tenting grounds free. Good spring water inside the grounds.

The management desires to make this one grand picnic, and will do all in its power to give those attending a good time.

**SPORTING EVENTS.**

The management has made arrangements for a ball game each day. Dance in town hall each night. A band will furnish music each day and for dances.

A merry-go-round will be on the ground.

AS WE SEE THEM.

Ellsworth Has Good Word for Summer School Students.

This is the last week of the Boston University summer school in Ellsworth. Most of the students will leave Ellsworth for their homes on Friday or Saturday, but many of them will remain in Ellsworth to extend their vacation until time for the regular sessions of the university to open in September.

Last week The American printed a series of short sketches by the students giving their impressions of Ellsworth. This week the editor asked business and professional men of Ellsworth and some of the women who opened their homes to the boys to give their impressions of the boys.

A POETIC FAREWELL. The B. U. boys are leaving us. And sorry we will be. We'll miss their smiling faces. And their tuneful "harmony."

FROM THE MAYOR. I have been very much pleased with the manner in which the boys of the summer school have conducted themselves while in Ellsworth.

PRESIDENT BOARD OF TRADE. I have read with considerable interest the comments of the summer school students on their impressions of Ellsworth, and feel that, on the whole, their visit with us has been satisfactory to most of them.

Prospect Harbor. Mr. and Mrs. Bert D. Joy of Bath were recent guests at W. A. Palmers.

FROM THE CITY MARSHAL. The close of the Boston University summer school for disabled soldiers Friday of this week, I am told marks a very satisfactory experiment.

boys, assembled in a small town like this, with so little going on outside of school hours to occupy their attention, would behave in so dignified a manner as have these boys.

SORRY TO SEE THEM GO. It has been my good fortune during the summer to have been in the company of the Boston University students a good part of the time when they were out of school.

JOLLY GOOD FELLOWS. I have five of the Boston university students rooming here. I find them very pleasant and agreeable, not noisy, just jolly good fellows.

DOLLARDTOWN. Dr. and Mrs. Peters, Mr. and Mrs. Newman and Mr. Berger of New York, who have been touring through eastern Maine and the Provinces, pitched their tents on the Floyd farm Thursday night.

**SUMMER SCHOOL.**

**A Rescue at Contention Cove—Baseball and Pink Cats.**  
(By Robert E. Huse)

Risking his life, Richard W. Sullivan, a well-known student of the summer school, plunged into the water to rescue Miss Evangeline Worthy after she had sunk for the second time, and swam with her to the shore at Contention Cove last Friday, going down with her once before he reached the rocky beach. The rescue was accomplished before the eyes of more than 200 people at the Cove attending the picnic given the summer school boys by Mrs. E. M. Roberts.

Sullivan was fishing from a boat about fifty yards from shore when his attention was attracted by the struggles of Miss Worthy, who had swum out from the beach and was about twenty feet from the boat in which he was seated. Jumping into the water, he swam to her, grasped her as she was about to sink the third time, and struck out for the shore.

Sullivan's act was made doubly heroic by the fact that as a result of war injuries, he has for some time been forbidden by physicians to enter the water, due to danger to himself

from the sudden change of temperature.

Proceedings to secure a Carnegie medal for Sullivan have already been started by friends among the summer school boys and by Ellsworth citizens. The opinion of the spectators was unanimous that the rescue deserved recognition by the Carnegie hero fund committee.

In a snappily-played game of baseball, the summer school team met and defeated the Great Northerns of Bangor last Saturday at Ellsworth, turning them back at the end of the battle with the score 6 to 1 against the visitors.

Starting to score in the second, the Boston university nine played consistently chalking up tallies in the fifth, sixth, seventh and eighth. The lone score of the Great Northerns was made in the sixth inning.

The pitching of McCorry was the feature of the game. The big twirler who held down the berth on the regular Boston university nine last spring struck out fifteen opponents in the course of the game.

Leading throughout the entire game, holding the opponents to but one hit for eight innings and a score of 7 to 2 in the ninth, and then los-

ing on a whirlwind come-back by the opposing team which netted six runs, the summer school nine succumbed to the P. C. F. aggregation in a game played at Old Town last Wednesday, score 8 to 7.

A veritable slugfest began when P. C. F. came to bat in the ninth. The ball was sent soaring into all corners of the lot, and six happy base-runners scampered across the plate before the third man went out.

Through the courtesy of Capt. and Mrs. E. M. Roberts, the entire student body of the summer school and their guests were entertained at a monster clam-bake and picnic held at Contention Cove last Friday afternoon. The affair was an unqualified success, and was pronounced by the ex-ser-vice men one of the most enjoyable of the many good times given them during their stay in Ellsworth.

The afternoon was spent in sports, swimming, and getting ready for the dinner at 5 o'clock. The dinner was served on the rocks. The men arrived back in the city early in the evening.

"Meow, me-a-ow, me-a-a-ow!" A plaintive but insistent call aroused the attention of the loungers along Main street a few nights ago. Staid and sober individuals who would never indulge in the cheering thirteenth-century of the olden days, could hardly believe the evidence of their eyes.

Gentlemen of bacchanalian tendencies were astounded, and their minds reverted to visions of weird and wonderful forms of animate life which were supposed to have been cast into oblivion by the eighteenth amendment.

"Gosh all hemlock!" exclaimed an astonished pedestrian. "There's a pink cat!"

Red elephants are not unheard-of. Purple cows have been enthroned in literature, and denizens of Boston's Bohemian district, which nestles on the slope of Beacon Hill in close proximity to the residences of the mighty and the executive headquarters and courts of justice of the state, are familiar with the distinctive "Purple Cow," that Mecca of society people, artists, musicians, writers and professional idlers.

But a pink cat! This was a new phenomenon in Ellsworth. The evidence was present, however, and those who saw, believed.

So far, the search for the person or persons who dyed the erstwhile white feline an alluring pink, has been unsuccessful. The cat's owner is said to be still on the war-path.

With the conclusion of classes at 11 a. m. next Friday, the seven-weeks' session of the Boston university summer school for ex-service men will come to an end here in Ellsworth. Nearly twenty-five of the students will leave for Boston and other points on the 12.20 train Friday noon. Most of these will travel by boat from Bangor to Boston.

Others of the students will leave Saturday and Sunday, while nearly twenty will remain in Ellsworth for a week or more after the closing of the summer session to enjoy a brief vacation before returning to enter the regular winter session of the university beginning in September.

The summer school baseball team left Ellsworth this afternoon in automobiles for Old Town, to meet the P. C. F. team for another game.

"I've never caught a bass in all the fishing I've done since being here in Ellsworth," said Frank Horrigan, one of the untiring fishermen, Monday noon.

Two hours later Horrigan had landed a five-pound bass at Mill Meadow brook—a fish which local fishermen pronounced the biggest beauty caught hereabouts this summer.

Horrigan, Prof. Charles E. Bellatty and Dr. Eugene R. Kelley of Boston left Ellsworth about 1 o'clock, determined to bring back a sizeable string. The only result of the afternoon's sport, however, was Horrigan's bass.

More of the "intra-mural" baseball has been going on the past week. Monday afternoon the "Yannigans" defeated the regular team, 6 to 4, in a six-inning game at Wyman park. Although scheduled to play again Tuesday afternoon, the teams did not meet, owing to the absence of several players.

Lawrence Gott and family and Mrs. Lucy Emery visited Miss Fannie Allen recently. Edward Jarvis returned to New York Thursday. Mrs. Eleanor Thomas returned to Portland Friday. Mr. and Mrs. Raymond Cousins spent a few days recently with his mother, Mrs. Eveline Cousins. Mrs. Aaron Moses is visiting Mrs. Lois Clough.

Francis Harden of Charleston spent the week-end with his parents. Miss E. Hope Joy has returned to Ellsworth, where she is employed in the home of Supt. Stevens. Aug. 23. L.

**Ellsworth Defeats Bluehill in Poorly Played Game.**

Ellsworth A. A. defeated Bluehill in a weird exhibition of baseball at Wyman park last Thursday afternoon. Only six innings were played, but that was quite sufficient to furnish an all-around exhibition by both teams of how not to play the national game. The summary:

NEAR EAST RELIEF.

State Organizer in Hancock County Last Week.

Ralph H. Tibbals, State organizer for the Near East Relief, was in Hancock county last week. The Near East Relief committee, formerly the committee for Armenian and Syrian relief, is one of the two relief organizations chartered by Congress, the other being the Red Cross. The two do not duplicate each other's work in any way, as Near East Relief works only in Asia Minor, where the needed work cannot be done successfully by the Red Cross, and here, according to Herbert Hoover, is "the most desperate situation in the world."

Mr. Tibbals, when in Ellsworth, called at The American office. Speaking of the work, he said: "To meet the desperate situation, Near East Relief, prior to January 1, 1920, gathered and expended more than \$32,000,000. The committee is maintaining 229 orphanages housing more than 54,000 orphans, and aiding in various ways 56,000 others. It has sixty-three hospitals and 128 clinics, as well as eleven homes for native girls rescued from Turkish harems. Industrial schools are maintained for the orphans, and employment afforded thousands of refugees at useful occupations. Thus these suffering people are not pauperized, but helped to become once more self-supporting."

"To this work Maine contributed \$80,000 last year, and of the 600 relief workers employed by Near East Relief, Maine has contributed fifteen. One of these is Miss Doris Nevin of Bluehill.

"Much more is needed by these perishing peoples of the Near East than has yet been undertaken for them, although thousands of lives have been saved and thousands aided to 'come back' to their own. These people kept the gate against the Turk; saved Suez, Egypt, India, Britain; saved the war on the Eastern front, Liberty and us.

But 2,000,000 perished miserably; 4,000,000 are utterly destitute; 250,000 children are without homes or parents.

"America has ever responded to the cry of suffering humanity. Today there are many cries for help, but none that rises from a more just claim upon American sympathy and gifts.

"The State director for Maine is George H. Sisson, Room 6, 15 1/2 Temple street, Portland. Checks should be made payable to Harry S. Boyd, treasurer, and sent to this address."

CASTINE NORMAL SCHOOL.

Special One-Year Course for Experienced Teachers.

Dr. Augustus O. Thomas, State superintendent of public schools, has been carrying on an extensive campaign to increase the number of professionally-trained teachers in the State. None of the Maine normal schools is filled to capacity.

The Eastern State normal school at Castine, which is nearer to Ellsworth than any other Maine normal school, is offering, in addition to the regular two-year course to which graduates of class A high schools are admitted without examination, a special one-year course open to teachers of five or more years of successful teaching experience.

The diploma which is granted at the completion of this course is exactly the same as that awarded to the graduates of the regular two-year course.

The principal and faculty members of the school realize full well that there must be an upward and onward movement in education in Maine, and are well aware that the normal schools all over the country must send out not only a larger number of trained teachers to the cities, but a still greater proportion of them to the rural communities of Maine.

The new principal, William D. Hall, is especially alive to the need for better teachers for the rural communities.

Correspondence with prospective students and with friends of the school who can suggest the names of desirable candidates, or who have constructive criticisms to offer, is solicited. The school catalogue may be obtained by addressing Principal Hall, Castine, Me.

Helpless from Rheumatism, Not a Pain or Ache Today

Proof That

Mr. Buss writes: W. A. Varney, Lynn, Mass. "For over 40 years I suffered more or less with rheumatism. About two years ago I was completely overcome. For eight months I was helpless. I couldn't even hold a newspaper. Var-ne-sis saved my life. After the first bottle I began to feel relief. The pain in my joints subsided. My stomach which was greatly disordered grew better, and I could eat. Var-ne-sis step by step brought me back to life in this way. With each bottle I grew better and better until at last I was a well man and from that time have not had a twinge of rheumatism."

A brother G. A. R. veteran, Frank M. Alley of Lynn, said: "No one can appreciate the marvelous recovery of Mr. Buss better than I. I was in touch with him all through his sickness. I never saw a sicker man, and to see him regain his health after he had started to take Var-ne-sis was wonderful."

There is no excuse for you to suffer with rheumatism. What Var-ne-sis has done for others, it can do for you. You ought to read "The East of Human Hinges." It's Free. Send for it today to W. A. Varney, Lynn, Mass.

VAR-NE-SIS RUB-ON EASES PAIN

AN ELLSWORTH INTERVIEW

Mr. Franks Tells His Experience. The following brief account of an interview with an Ellsworth man eleven years ago, and its sequel, will be read with keen interest by every citizen.

A. M. Franks, carpenter, 67 High St., Ellsworth, says: "I noticed my back was growing lame and ached severely. Finally, I got so bad I was compelled to lay off from work and was down and out for several days. I was in this condition until I got Doan's Kidney Pills. They helped me from the first and when I had taken a couple of boxes, I was relieved. I have since had a cold which settled on my kidneys, causing another attack, but Doan's Kidney Pills, procured at E. G. Moore's Drug Store, very soon removed the aching from my back and I have not been annoyed since with the trouble."

STILL PRAISES DOAN'S. Nearly twelve years later, Mr. Franks said: "I shall never forget the benefit I derived from Doan's Kidney Pills at the time I received them before. Since that time they have always proven very beneficial. I have had to use a kidney medicine."

## COMPLETE CURE OF INDIGESTION

One Box of "FRUIT-A-TIVES" or "Fruit Liver Tablets" Brought Relief

WILLIAM GALE SHEPHERD

Old Chatham, Columbia Co., N. Y.  
"I was bothered with Constipation, Liver Trouble and Indigestion for three years; and tried all kinds of medicine with no relief.

I was so bad I would have a dull, heavy feeling in the pit of my stomach; generally about three or four hours after eating.

I saw advertised in the "Troy Times" "Fruit-a-tives" and sent to R. W. Seymour's drug store in Chatham and bought two 50c. boxes. Before I had finished one box, I was relieved and now have no more trouble. I can eat anything I desire.

I would advise anyone in the same condition as I was, to take "Fruit-a-tives"; it is a God-send, and I would not be without "Fruit-a-tives" in the house."

WILLIAM GALE SHEPHERD.

The Bluehill team won a last game from Castine Thursday, 7 to 3. The feature of the game was a great one-handed catch by Robinson in left field, made while running with his back to the diamond. The two teams will play at Castine, Thursday.

Thursday the locals went to Ellsworth to play the so-called Ellsworth A. A.; a team whose specialty is an umpire and a press-agent, and is composed of four B. U. men, four from Ellsworth and the over-advertised "Rip" McPhee. After nine hits for a total of thirteen bases had been registered off "Rip" in five innings, he retired in favor of Eaton. The game was called in the sixth on account of darkness. With the score tied, two out and a man on third, Louder of Ellsworth hit sharply to Perkins, who apparently threw him out at first by six feet, but the alleged umpire was suddenly afflicted with astigmatism and called the runner safe, allowing Sturtevant to score from third and giving the game to Ellsworth by the score of 10 to 9.

Sullivan and Bluehill met at Academy field Saturday in a game characterized by fast fielding by the visitors and savage hitting by the local team. Clemmons, Sullivan's short stop, was particularly good, covering the infield like a carpet, while Bluehill's game was a comedy of errors. With Sullivan leading 13 to 10, one of the umpires called the game at the end of the seventh on account of threatened darkness, but the other umpire claimed there was plenty of time for another full inning and ordered the teams to play. The Sullivan team left the field, and the game was declared forfeited to Bluehill, 9 to 0.

# Bright eyes

Dull eyes and that disagreeable, listless feeling are usually the first signs of a bilious condition. A tablespoonful of "L. F." Atwood's Medicine should be taken promptly to stimulate the action of the liver, bowels and other digestive organs. This household remedy never fails to bring quick relief and may ward off a serious attack of indigestion. Sufferers from biliousness should have a bottle always on hand, and take small doses regularly as a precaution. This will tone the stomach and keep the entire system healthy and normal.

Don't experiment with unknown widely advertised pills and tablets that may contain acetanilid or other coal-tar derivatives. The true "L. F." has established a splendid reputation through 60 years of unchanging quality, and is well worth the confidence it enjoys. It has been used in many families with unvarying beneficial results for three generations. Get a bottle today. Most druggists and storekeepers carry it. hill, has written a piece for the orchestra called "Morning and Evening in Bluehill." Its two movements, delineating sunrise and the birds' matin chorus, and the "Kneisel Pupils at the Movies," show what can be done with disjointed bits of composition which the violin students practice under their master. There will be a song with words and violin obbligato written, like Mr. Jacobi's piece, for the occasion, sung by Miss Betty Quay. Miss Katherine Carpenter will sing a "Plantation Love Song" and an old French chansonette. The climax of the program will be reached at the end, when thirty-one violinists will play in unison an air and a gavotte by Bach.

## Can The Leopard Change His Spots?

In 1912

Warren G. Harding, through his newspaper, the Marion (O.) Star, vilified Theodore Roosevelt. He said:

"In seeking a prototype for Col. Roosevelt among American public men, one finds the closest resemblance to Aaron Burr."

"Benedict Arnold is more like Roosevelt for he won his country's plaudits and turned traitor."

In 1920

Warren G. Harding, reactionary of reactionaries is preaching the same doctrine he preached in 1912. He has made "reaction" the real faith of a betrayed Republican party, and declared war on progress.

## Now the whole family can go out on a Summer evening

THE women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

II

But it has done a great deal more than that.

It has brought people closer together, given them new interests, swept away old prejudices.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

III

It's had its effect on the tire business.

When automobiles were new people were willing to buy any kind of a tire. Now

they're beginning to insist on *knowing what they are getting*.

And the more they insist, the better it will be for us.

IV

We want our customers to know what they are getting.

That's why we represent U. S. Tires—so there will be *no doubt* about it.

Whatever the size of your car, you know that the U. S. Tire you put on it is the *best kind of tire* its makers know how to make.

U. S. Tires are guaranteed for life, *without any limitation* of mileage.

That ought to mean something to the man who has thought about tires.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.
