## REVOLUTIONARY PENSIONERS OF KNOX COUNTY, MAINE

By Edward Kelloch Gould, State Historian of Maine

Author of "Major-General Hiram G. Berry," "British and Tory Marauders on the Penobscot," "Storming the Heights, Maine's Embattled Farmers at Castine in the Revolution," "Revolutionary Soldiers and Sailors of Knox County, Maine, and Their Descendants" (Ms.), "Colonel Mason Wheaton, Revolutionary Officer and Captain of Industry."

### FOREWORD

These papers contain a rich store not only of personal, but of war history; detached statements and broken fragments, to be sure, but none the less interesting and real. They tell us in the very words of the actors in that war of Concord, Lexington, and Bunker Hill; of the siege of Boston, of Ticonderoga and Crown Point, of Monmouth, White Plains, of Trenton and Valley Forge; of the battles of Saratoga and Yorktown and the surrenders of Burgoyne and Cornwallis; of the gallant, but ill-starred attacks on Quebec, and the sufferings of the retreat from the frozen north. In justice to my associates in the Sons of the American Revolution, I feel that they should get the benefit of their generous financial outlay by having at least the sketches of the Revolutionary Pensioners published, and they are offered herewith.

(CHAPTER XXIX.)

### David Kelloch

David Kelloch of Cushing was mustered March 30, 1777, as a Private in Capt. Abraham Hunt's Company, Gen. John Patterson's Regiment, and while in Capt. Hunt's Company spent the terrible winter at Valley Forge.

He was also a Private in Capt. Samuel Gregg's Company, Col. James Cargill's Regiment, Massachusetts Militia, enlisted Aug. 25, and was discharged Dec. 31, 1775. The Company was raised at St. Georges, Waldoboro and Camden. He was also Corporal in Capt. George Ulmer's Company, Col. James Hunter's Corps, engaged April 26, and discharged Nov. 20, 1782.

In his declaration for pension he gives the following statement of his service. He enlisted Dec. 18, 1776, as a Private in Capt. Wm. Cook's Company, Col. Joseph Bond's Regiment, Massachusetts line, where he served until about Dec. 18, 1776, when he was honorably discharged by Lieut. Col. Samuel Alden, who then commanded the Regiment. Immediately after his enlistment he marched from Prospect Hill in Charlestown, Mass., to New London, then to Albany, thence to a place called Half Moon, thence to Fort George and then on to Ticonderoga. Here the march was continued to Fort St. John's on Lake Champlain, thence to Fort Chamblée and thence to Sorel at which place his term having expired he was discharged. After leaving the service he followed the sea for a living.

After his discharge he again enlisted and served in the Continental Army for three years nine months. In the war of 1812 he was a Private in Capt. J. Chapman's Company, 21st U. S. Infantry, enlisting at Boston, Jan. 2, 1813, for the war and was discharged at Sackett's Harbor, May 24, 1815, by expiration of service. He was born at St. George, age at enlistment 43 years, occupation farmer.

Prior to the Revolution, David had training as a soldier in the French and Indian war of 1755. He was

### PAYSON-FOGLER

The Payson-Fogler family held its annual reunion last Wednesday at the cottage of Mr. and Mrs. George L. St. Clair at Crescent Beach with 50 or more present. Among those coming from a distance were Mrs. Rose Wilder who at 98 years headed the group as the oldest representative, Miss Frances True and Edward Wilder of Lowell, Mass., Mr. and Mrs. Clarence Hale of Boxford, Mass., Col. and Mrs. John Fogler of Skowhegan, Otis True of Charlotte, N. C. and Mrs. E. H. Wing of Stoughton, Mass. The long table laid in the dining room and augmented by several small tables carried a heavy array of summer vegetables, salads, sandwiches, cakes, pies and other delectables for which this family has always been noted. The afternoon was spent in reminiscing, with several of those present contributing incidents of by-gone days and amusing stories. It was voted to send cards to Miss Helen Fogler, 31 Wyoming avenue, Melrose, Mass. Miss

### Two Hundred and Seventy-Two Folks Are On Four Star List

Two Hundred and Seventy-Two people are published in the Roll of Honor today which is an achievement the Contest Editor is proud to display. Each name included represents an added point of knowledge concerning that individual which has been distributed to the readers all through Knox County. Each reader has learned to see his friends in a new light and to better appreciate his service and community standing. People You Should Know stories have enabled you to know them better, and to be glad you live in the same vicinity with them.

Today's winners are Miss Ruth Richards, 2 Maple street, and Mrs. E. N. Sylvester, The Bicknell, Rockland.

**Tuesday's Flashes Tell Us That—**  
Fred C. Black provides employment for between 60 and 125 home folks, depending upon the season, in his Black & Gay Canning business. J. Murray Miller, dependable plumber of Thomaston and for miles around, has operated his own contract business for the past 12 years.

Celia B. Flye, charming owner of the Colonial Beauty Shop on Main street, in Thomaston, has been making Thomaston and neighboring folks beautiful three years.

Levi Seavey, Four Star Thomaston citizen and Men's clothing store owner, says—"Use everybody honestly" is the best policy for success in the commercial world.

Julius Anderson, modern milkman, started into the wholesale milk business 18 years ago and into retailing 13 years ago.

Arthur E. McDonald, friend winning owner of McDonald's Drug Store, knows this has been an accommodating community headquarters in Thomaston 45 years.

Harold L. Mason, Amoco Service Station owner at The Cement Plant and on Main street in Thomaston, says people enjoy stopping because of the speed and courtesy in serving their wants.

### Last Saturday's Flashes Tell Us That—

William E. Edwin and James L. Dornan follow the monument manufacturing business which was started at East Union 55 years ago.

Katharine Small, beauty expert, has been 9 years making "my fair lady" charming.

William J. Robertson erected his present lumber and supply plant at Thomaston in 1922.

Elise Allen Corner has followed her terpsichorean art 12 years.

Stanley Miller, hustling manager of Newcastle Grain Co. of Thomaston, has had business more than triple, since starting his New Manamar Feeds.

Edward P. Starrett, longest established grocer in Thomaston, has been taking good care of community food needs in the same spot for 50 years.

Harry Smith has been auto servicing for himself 14 years.

Fogler who has always been an enthusiastic attendant at the family reunions is now a semi-invalid, confined to her home. It was voted also to hold the reunion of next year at the same place on the fourth Wednesday of August. An expression of appreciation was extended Mr. and Mrs. St. Clair for their delightful hospitality.

## CURTAIN FALLS ON TWILIGHT

### But Star Baseball Attraction Of Season Will Be At Camden Saturday

The Twilight League season ended yesterday, but the classic of the baseball season will be next Saturday's game at Camden, when the Champion Shells face a team made up from 12 hand picked players from the other three teams, the proceeds to be split 50-50.

Camden will present its regular team. The picked team will be made up thus: Catcher, Bucklin of Thomaston; pitchers, Walker of Thomaston and Gray of Rockland; first base, M. Simmons of St. George; second base, Felt of Thomaston and Karl of Rockland; third base, Glover of Rockland and Flanagan of Thomaston; shortstop, Wiley of St. George; left field, I. Simmons of St. George; centerfield, Monaghan of St. George; right field, Ellis of Rockland.

This game will be called at 3 o'clock, but there will be plenty to entertain the spectators all the afternoon, as the Old Timers (men over 40) will play at 1 o'clock, and there will be a beano outfit on the ground for the benefit of those who have a weak heart and cannot stand the strain of seeing the old boys cavort.

The prize of \$250 offered by Curtis Bok of Philadelphia will be awarded to the Camden team, which has just won the pennant, and cash prizes of \$25 will be awarded to the most valuable player on each of the four teams. Those players are—but wait till Saturday and see for yourself.

Wotton, one of the best baseball umpires in the State, will be at the plate; and "Gabby" Fowler, who has just completed a highly satisfactory season, will umpire on bases.

### Thomaston Took Both

Thomaston took both ends of a double-header from the Rockland Orphans at Thomaston Sunday afternoon.

The first game was a walk-away. Thomaston making 11 hits and receiving 10 passes. Into this aggressive combination were stirred about half a dozen errors, made by the visitors.

The Orphans made a contest of the sixth inning to overcome the long lead which Thomaston had gained by making seven runs in the preceding inning. A newcomer in these two contests was Wood, the Ellsworth young man whom "Styvie" is bringing to Thomaston as his athletic director. He pitched the second game and Rockland made only three hits off him. He is a good batter and a whirlwind on bases.

### First Game

Thomaston ..... 3 1 2 0 4 0 3 0 x—13  
Rockland ..... 0 0 0 0 3 0 2 0 0—5  
Base hits, Thomaston 11, Rockland 10. Errors, Rockland 6. Batteries, M. Sawyer and Bucklin; Gray and Barter. Two-base hits, Walker, Felt. Three-base hits, Cannon, McAlary. Double play, Dimick and Flanagan.

### Second Game

Thomaston ..... 0 0 0 0 7 1 x—8  
Rockland ..... 0 2 0 0 5 0—7  
Base hits, Thomaston 6, Rockland 3. Errors, Thomaston 3, Rockland 3. Batteries, Wood and Bucklin; French and Barter. Two-base hit, Wood.

### Hallowell 3, Camden 2

All the scoring was done in one inning at Camden Sunday, and the only trouble was that Hallowell put one more man across the plate. Bennett held the heavy hitting Kennebeckers to six hits, and made the same number of bingles off Jude and Vinal who worked for the visitors.

Hallowell ..... 0 0 0 0 3 0 0 x—3  
Camden ..... 0 0 0 0 2 0 0 0—2  
Base hits, Hallowell 6, Camden 6. Two-base hits, Lovell, Dailey. Batteries, Vinals, Jude and Luce; Bennett and Thomas.

### Camden 6, St. George 2

The Boyntons, father and son, rode to a double victory at St. George yesterday afternoon. The son won the League game 6 to 2, and the father won the exhibition game which followed 8 to 7. Both games were well contested, one of the features included.

ed a marvelous shoestring catch by Stimpson, and the batting of Lord.

### First Game

Camden ..... 0 0 2 1 1 0 0 2 0—6  
St. George ..... 1 1 0 0 0 0 0 0—2  
Base hits, Camden 9, St. George 4. Errors, Camden 3, St. George 1. Batteries, Boynton, Jr. and Thomas; Colbath and C. Mackie.

### Exhibition Game

St. George ..... 0 0 0 1 1 0 5—7  
Base hits, Camden 11, St. George 8. Errors, Camden 3, St. George 1. Batteries, Boynton, Sr. and Thomas; Polky, Stimpson and C. Mackie.

### Thomaston 8, Rockland 1

"Doug" Walker was in splendid form at Community Park yesterday afternoon, fanning ten and holding the Orphans to two hits. He also shared with M. Sawyer the distinction of making three safe ones. Mitchell was hit freely.

Thomaston ..... 1 0 3 0 0 1 2 1—8  
Rockland ..... 0 0 0 0 1 0 0 0—1  
Base hits, Thomaston 14, Rockland 2. Errors, Rockland 2. Batteries, Walker and Bucklin; Mitchell and Frye.

### Camden 13, Rockland 6

In a game marked by 10 errors the Camden Shells defeated the Rockland Orphans on the Camden ground yesterday forenoon. Ellis won applause with his one-hand catch of Lord's drive. McCarty led both teams at bat.

Camden ..... 0 5 0 1 1 0 2 4 x—13  
Rockland ..... 0 1 0 0 0 0 2 0—6  
Base hits, Camden 11, Rockland 8. Errors, Camden 4, Rockland 6. Batteries, Stahl, Thomas and Weed; Hamalainen, Ellis and Frye.

The Philadelphia Colored Giants play in Camden Sept. 17.

"Styvie," sometimes known as Lewis C. Sturtevant is the happiest man in Maine since his return to Thomaston. He managed the Twilight League team over the weekend, and rumor says that he will handle it permanently next summer. Between whiles he is discovering some promising talent among the youngsters who practice on the Thomaston diamond.

The Vinalhaven Chiefs closed a wonderfully successful season in a blaze of glory yesterday, defeating Waterville 5 to 4 in a game which went 17 innings. Sunday the Chiefs defeated Rockport 5 to 1. Reports deferred.

## QUEER CRAFT LAUNCHED

An unusual motor boat was launched at Port Clyde Saturday when the Silver Foil, designed and built by Nathaniel Wyeth, took the water.

The Silver Foil is 18 feet long and five feet on the beam, of tear drop pattern, and termed the last word in the way of air foil creation. With her bulb-like nose the craft looks not unlike a whale and the illusion is emphasized by the location of the exhaust, the vapor from which would cause many observers to exclaim, "there she blows."

The Silver Foil is fitted with a special motor, and the designer says he will be greatly disappointed if she does not clock 50 miles an hour.

The launching was a success, but the owner soon discovered the necessity of a larger propeller, having three blades. Wyeth is a University of Pennsylvania student, and has spent his entire vacation in construction of the craft.

## THE LIBRARY DEDICATED

### Tenant's Harbor Gives Formal Recognition To the Mary Elinor Jackson Memorial

The formal opening and dedication of the Mary Elinor Jackson Memorial Library took place in the library building at Tenant's Harbor on the afternoon of Wednesday, August 28, in the presence of a group composed of townspeople and summer residents of St. George and a number of friends from Rockland and Thomaston, the latter including Mr. and Mrs. William O. Fuller Mr. and Mrs. E. M. Lawrence, Mrs. Annabelle Berry, Capt. and Mrs. J. E. Creighton and Mrs. Eben Alden. The guest of honor was Miss F. Elizabeth Libby, Director of the Bureau of Library Extension who came from Augusta in the place of State Librarian Dunnack, who was unable to attend owing to illness.

Mrs. Perley E. Miller, librarian of the Memorial acted as hostess. The dedicatory address was ably and stirringly delivered by Mrs. Charles B. Rose of Tenant's Harbor.

The committee which has had charge of the planning, work and organization for the library consists of Mrs. R. J. MacKenzie, Mrs. Orris Holbrook, Miss Fannie B. Long, Miss Harriet B. Long, Mrs. Talbot Aldrich, Charles Wheeler, Mrs. William T. Hocking. The summer visitors have displayed great interest in the undertaking and contributed generously of money and books. An association has been formed, consisting of both residents and non-residents and now has a membership of over 150 paying the small annual dues. A formal meeting will be held shortly. In connection with the interest displayed in the library it is gratifying to note that since it was first opened to the public on February 16, 1935, there have been 4150 books loaned to 268 registered borrowers. There are at present nearly 3000 volumes on the shelves.

After the dedication exercises a silver tea was held at the home of Mrs. R. J. MacKenzie, which was well attended and much enjoyed.

### The Dedicatory Address

My fellow townspeople and guests:—For some time our little library has been in very successful operation. As it has now passed beyond the experimental stage it has been deemed advisable to dedicate it formally at this time. This pleasant duty has been entrusted to me and I consider it a great honor to be called upon to perform this important task.

May I ask you all therefore to join with me in dedicating this building to the people of the town of St. George. We dedicate it to the youth of the community to the end that it may supplement the work of the schools in laying the foundation of their education and to the end also, that it may develop a love of reading that will prove of much value and comfort in later years. We dedicate it to the older citizens of the town in

## TO HONOR EDNA ST. VINCENT MILLAY

The Women's Educational Club plans a memorable event, rain or shine, next Friday at 2 p. m. when at 198 Broadway, Clarence F. Joy's present residence there will be held the unveiling ceremonies attendant upon the club's effort to honor Edna St. Vincent Millay, famous woman poet, with a bronze tablet as a marker placed on her birthplace. Several of Maine's illustrious literati are expected to be present, speeches are in order and the Educational Club's own poets will present original poems as tributes to this distinguished lady.

Camp chairs will be provided and the public invited.

Following the unveiling club members adjourn for their customary discussion and current event confab to the attractive barn at Amesbury street, Mrs. Etta Sanborn hostess, where 6 o'clock coffee and box lunch will be served. At 7:15 speakers and open forum.

At the club's recent meeting with Mrs. E. M. Lawrence at Rosecliffs, the hostess was exceptionally happy in her address, which included her own answer to the burning problem as to how to stamp out poverty, for she set forth strikingly the fact that it is poverty of the mind, poverty of mental riches and mental resources poverty of character, poverty of intellectual powers which are most deplorable, rather than poverty of material things.

She pictured the sad but common spectacle of the woman who has denied herself study club advantages and contacts with brainy people whose discussions would have aroused her from sleeping sickness of the intellect, while her husband out in the world has far outdistanced her, finds her dull, uninteresting, behind the times and is bored by her lack-luster

companionship. Mrs. Lawrence congratulated this club on its marked improvements in co-operative spirit and for its success in stimulating women and girls to dare to do their own thinking.

## YOUR FAVORITE POEM

If I had to live my life again I would have made a rule to read some poetry and listen to some music at least once a week. The loss of these tastes is a loss of happiness.—Charles Darwin.

### THE SOLITUDE OF ALEXANDER SELKIRK

I am monarch of all I survey:  
My right there is none to dispute;  
From the center all round to the sea  
I am lord of the fowl and the brute.  
O Solitude! Where are the charms,  
That severest have seen in thy face?  
Better dwell in the midst of alarms,  
Than reign in this horrible place.

I am out of humanity's reach,  
I must finish my journey alone,  
Never hear the sweet music of speech;  
I start at the sound of my own  
The beasts that roam over the plain  
My form with indifference see;  
They are so unacquainted with man,  
Their tameness is shocking to me.

Society, Friendship, and Love,  
Divinely bestowed upon man,  
Oh! had I the wings of a dove,  
How soon would I taste you again!  
My sorrows I then might assuage  
In the sweet relief of religion and truth,  
Might learn from the wisdom of age,  
And be cheered by the sallies of youth.

Ye winds that have made me your sport,  
Convey to this desolate shore  
Some cordial endearing report  
Of a land I shall visit no more:  
My friends, do they now and then send  
A wish or a thought after me?  
O tell me I yet have a friend,  
Though a friend I am never to see.

How fleet is a glance of the mind!  
Compared with the speed of its flight,  
The tempest itself lags behind,  
And the swift-winged arrows of light  
When I think of my own native land  
In a moment I seem to be there;  
But alas! recollection at hand  
Soon hurries me back to despair.

But the sea-fowl is gone to her nest,  
The beast is laid down in his lair;  
Even here is a season of rest,  
And I to my cabin repair.  
There's mercy in every place,  
And mercy, encouraging thought!  
Gives even affliction a grace  
And reconciles man to his lot.

### A CLASS REUNION

#### Fourteen Who Received Diplomas 31 Years Ago Meet At Crescent Beach

Crescent Beach Inn was the scene Friday night of an unusually happy gathering, the occasion being a reunion of the class of 1904, Rockland High School. Out of a class of 29 which received diplomas on that memorable night in June 31 years ago, 14 reported, augmented by three others who entered with the class of 1904 but did not complete the four-years' course.

There were many in the group who had not seen the others in a long period of years, and the first part of the evening was spent in guessing who and exchanging greetings. Then came supper with all gathered around a long table prettily set and decorated for the occasion. The enthusiasm already present was even more stimulated by the excellent food and careful service given by the management of the Inn, and compliments were heard flying on all sides. The remainder of the evening was spent before the open fire reminiscing—"Do you remember . . ."

Members of the class (graduates) present were David Crockett of Camden, Mrs. Annie Colley Emmons of Methuen, Mass., Wendell Hodgkins of Winthrop, Mass., Luke S. Davis, Mrs. Florence Thomas McMillan, Mrs. Evelyn Richardson McKusick, Mrs. Merle Doe Bartlett, Bert Wardwell, Donald H. Puller, Mrs. Laura Dowling Fife of Thomaston, Miss Lou Belle Jackson, Mrs. Frances Butler Sherer of Rockville, Mrs. Gladys Jones Morgan, Mrs. Elizabeth Whitman Davis. Others of the class were Mrs. Margaret Perry Marshall of Port Clyde, Walter C. Ladd and Ralph Choate. Guests were Herbert Emmons of Methuen, Mass., Mrs. Hodgkins, Mrs. Davis, Mrs. Wardwell, Mrs. Choate.

A special guest was Miss Harriet Long of Tenant's Harbor, a former teacher at Rockland High, whose patience and kindness, to say nothing of her efficient teaching, have been many times remembered in the years between. It was a great joy to have her present and she was constantly surrounded by a group of her former pupils with whom she had labored diligently back in 1904-05. It was a matter of regret that Miss Anna Coughlin, another beloved teacher, could not be present, having accepted an invitation to attend the 1925 banquet which was taking place the same evening at the Thorndike.

Letters were read from Mrs. Reta Patterson Coburn of Warren, Mrs. Alzira Wentworth Sandwall of West Newton, Mass., Mrs. Bertha Cates Vezina and Mrs. Myra Cates Redman of Danville, Mrs. Maud Ingraham Gould of Portland, John Sanson of Waldoboro, and Mrs. Florence Haley Cowie of Fort Sam Houston, Texas. Letters bearing expressions of regret not to be present and filled with wishes for the happiness of the "old grads."

It has been suggested that the class members take to the reunion next year their children and—ye gods!—their grandchildren.

EDWIN S. RICHARDS

Edwin Samuel Richards, well known Appleton resident, died Aug. 26, in Rockland. His illness covered a period of only a few days. The deceased was born in this city July 4, 1860. Until recently age had dealt so mildly with him that many persons believed him to be half a score of years younger. He was a son of Dotford and Margaret (Maddocks) Richards, both deceased, and was the last of the family of seven.

Mr. Richards never lost interest in Government affairs. One son, Raymond O. Richards, is serving as a United States Vice Consul in Foo Chow, China.

No tribute to his life would be complete without a reference to his many benevolences, always performed quietly and seldom known to others than the recipients. His smile and hearty greeting will be sadly missed. They played an important part in winning universal popularity for him.

Mr. Richards' wife was formerly Miss Estella Simmons. His surviving relatives are Mrs. Grace M. Robbins of this city, Miss Wealthy A. Richards of Melrose, Mass., Mrs. Ruby Atherton of Hope, Mrs. Annie L. Miller of Lincolnville, Mrs. Horace E. Richards of Mt. Vernon, N. Y., and Raymond O. Richards of Foo Chow, China, seven grandchildren and two great-grandchildren.

The funeral services were held Wednesday afternoon from the Russell Funeral Home, Rev. John L. Quigg officiating. Interment was at Pine Grove cemetery, Appleton.

## Everyday Cooking Miracles

BY FRANCES WEEDMAN

Director, Hotpoint Electric Cookery Institute

Granted that fish hauled in on hobbie's own hook and line are endowed with a certain inimitable differentness—that is, if sunburn, patience, and effort have anything to say about it—almost anyone can eat fish, "catcher" and other details unknown, and still like it! Of course, however, the fish must be fresh, it must be scrupulously cleaned, it must be exquisitely cooked before it obtains the suc-

cessful triumph of a real fish story. Many homemakers used to listen with displeasure to the family's outburst of "We want broiled fish!" Not that broiling fish was difficult or that it took too long, but it always branded the broiler with "fishy" splatters and odors. Then along came the modern electric range—the miracle electric range of 1935—with a whole "show" of magic cooking feats! Among other things, broiling was included in its program in its newest, most accomplished, most breath-taking form.

It is safe to place brown paper under fish when broiling in an electric range

Modern Broiler Pan For example, just fancy being able to broil fish and other "broilable" foods without having the food leave the telltale, besplattered broiler oven, and smoky, grease-filled broiler pan. Removing stains from this oven is hardly any trouble at all because the hard, smooth enameled walls are easily accessible for quick cleaning. Removing "tracks" from the broiler pan, too, is likewise a simple task. In the first place, stains cannot be charred or

easy as it is in the Miracle Broiler, when a better, easier way presents itself? Fish may be placed on brown paper—a "bib," if you please—and broiled in the miracle broiler without giving the fire department one bit of business. The paper catches the drippings while the fish turns brown and crispy, and the steady, unvarying heat of the controlled electric embers isn't even tempted to swallow up a corner of the paper. No smoke, no fish odors, no broiler to soak and scour—only the best broiled fish you ever served will be your culinary reward.

### Broiled Fish

This, then, is the electric way to broil fish, be it trout, white fish, halibut steaks or what have you! Cover the smokeless broiler pan with brown paper. Lay fish on the brown paper over the broiler pan, season and spread with melted butter. Heat upper unit of electric oven until cherry red. Place broiler pan with fish upon it under unit and broil about 20 minutes. Serve with sliced lemon.

### HAD GAY SEASON

#### Dark Harbor Reports "Best For Many Years"—Some Cottagers Staying

The season at Dark Harbor has been the gayest and most prosperous for many years. Some of the cottages will remain open well into September and a few even until October, but already some of the cottagers have gone, and the Islesboro Inn closes soon. The Inn has been the center of festivities this season, many delightful affairs having been held there.

The cottage of Mrs. John Turner Atterbury was slightly damaged in a recent electrical storm, the heat of the lightning in some instances melting nails down to less than half their original size.

Miss Dorothy Forbes, who arrived at Dark Harbor last week, is planning to remain for a month or more. She has been staying in Boston at their Commonwealth Avenue home, with her father, J. Murray Forbes, who has been ill. He has improved so much that he could be moved to the Forbes' home in Milton, Mass., where his second daughter, Miss Mary, will be with him.

Harold I. Pratt, who has been spending a part of the season at his Dark Harbor estate, for the first time in several years, has left for New York.

Marshall Russell of New York, who, with his family, has been spending several weeks at the Inn, has returned to the city, but Mrs. Marshall and the other members of the family will stay for another week.

Mr. and Mrs. Joseph Swan of New York have been guests for a week of Mr. and Mrs. Hamilton Hadden, at their Dark Harbor cottage.

Mr. and Mrs. James Luke, Jr., and their young daughter, have returned to Wilmington, Del. Just before leaving Mr. and Mrs. Luke entertained at a cocktail party on the lawn of Mrs. Blanche Pendleton's home, the 28 guests being members of the Pendleton family. Mrs. Luke is a daughter of Mrs. Pendleton.

Dr. and Mrs. Judson Pendleton entertained at contract and mid-night supper at their summer home recently.

Mr. and Mrs. Wellington Bertolet entertained friends at dinner at their Hughes' Point cottage, covers being laid for 17 guests. Mr. and Mrs. Bertolet have had as house guests Mrs. Diges and her daughter of Reading, Pa.

The Saturday night dances at the Inn have been exceedingly well patronized, and have been hugely enjoyed by the dancing members of the colony. Mrs. Henry Smith's Orchestra of Belfast has furnished the music.

### LAKEWOOD THEATRE

Mitzi Green, Youthful Movie Star,  
Playing Special Engagement There

"Fly Away Home," which the Lakewood Players are presenting at Lakewood this week, is introducing to audiences the youthful talking picture star, Mitzi Green, whom everyone has

Mitzi Green

seen in such films as "Tom Sawyer," "Skippy" and "Little Orphan Annie."

"You and I" will be the next attraction at Lakewood, starting Monday night, Sept. 9. This delightful comedy is the story of a happily married middle-aged man who always has desired to be an artist but who has devoted his life to business in which he has been successful. His wife finally persuades him to give up business for a year and turn artist and the attic of their home is fixed up as a studio. What happens forms the basis of an amusing and beautifully written comedy woven into this story is the subordinate plot of the son of the household who wants to be an architect but who feels he should go into the commercial world to support the girl he loves and wants to marry.

**A FOOTBALL BARGAIN**  
Do you want to help the High School football team. An easy and inexpensive way is to buy a season ticket, which costs only \$1 but which will admit you to the four hair-raising, home games. Sixty boys will be selling these tickets, and your conscience will be clearer if you swap one buck for a chance to see four games. Costly equipment has been bought for the boys, and the bills are coming in.

All pupils who have not registered for High School are requested to attend to this matter this week. This notice applies to post graduates and out of town pupils who are entering for the first time this year. Principal Blaisdell will be in his office this week for consultation with pupils and parents.

A satisfactory answer to the question of whether melons can be raised in Maine furnished today by C. A. Colson of 505 Old County road who deposited on the melon editor's desk as fine a sample as was ever seen in the local markets. Mr. Colson is one of Rockland's most successful gardeners.

Mr. and Mrs. Clarence Tolman and William Heath were recent visitors in Yarmouth.

Those from this town who attended the meeting Wednesday of the Knox County Fish and Game Association at Camden Yacht Club were William Stevens, Dr. A. H. St. Clair Chase, Samuel Tarr and Oscar Starrett.

Recent guests of Rev. and Mrs. Howard A. Welch were Mr. and Mrs. George Gilmore of North Attleboro, Mass.

Mr. and Mrs. James Mollanson and daughter Jenice, and Mr. and Mrs. Nicholas Montgomery of Gloucester, Mass., spent the weekend and holiday with Mr. and Mrs. C. B. Tolman.

Miss Eleanor H. Goodwin of Kennebunkport, now assistant in the High school, will make her home with Mr. and Mrs. G. D. Gould.

Mrs. Katherine Overlock and Mr. and Mrs. Harry Gordon were visited the weekend and holiday by Mr. and Mrs. Milton Overlock of Pittsfield, Mass.

Mr. and Mrs. Forrest Bangs have returned to Belmont after visiting relatives here.

Mr. and Mrs. Arthur Hawes and son Richard and daughter Betty Jane of New York city visited two days recently with Mr. and Mrs. Virgil Hills.

Joseph E. Smith

Joseph E. Smith, 73, died Saturday at the home of his son, Leroy Smith, after an illness of about seven weeks. Funeral services were held Monday at the home of Mr. and Mrs. Leroy Smith, Rev. H. I. Holt officiating. Burial was in South Thomaston.

Mr. Smith was born in Standish, son of the late Joseph E. and Eunice (Butler) Smith. He lived for many years in South Thomaston, being employed as stone polisher at the quarries at Clark Island. He also worked at the William Dornan monumental works in East Union. For the past few years he had been employed as cook on the S. S. Westport but had made his home in Versailles, Conn., for a few seasons before coming to this town.

He leaves three sons, Leroy of Warren, Pearl and Marion of Versailles, Conn., and four daughters, Mrs. Lottie Thomas of Versailles, Mrs. Gladys Dow of Florida, Mrs. Thelma Davis of Savannah, Ga., and Mrs. Goldie Davis of Rockport; two brothers, William of Union, and Thomas of Washington; and eight grandchildren. Sympathy is tendered the survivors.

## SCHOOLS WAGING CAMPAIGN AGAINST HATED "HICKIES"

Clear Skin Promotes Confidence and Leadership, Making Adolescents Feel at Ease and Not Self-Conscious When Associating With Others, Survey Finds.

A large percentage of boys and girls in the teen age and early twenties are suffering from that bothersome skin irritation known variously as adolescent pimples, acne, or by the youngsters themselves as just plain "hickies", according to an extensive survey being conducted in the public schools of one of our largest cities.

It is being carried on in the effort to learn more about it and to check it as much as possible because, the authorities say, the skin blemishes not only spoil the appearance of adolescents for a period of time, often leaving scars in serious cases, but they tend to develop an inferiority complex through extreme self-consciousness which often affects the patient for a whole lifetime. Such a condition tends to lower the qualities of leadership, and proves a serious handicap.

During the sensitive years of the teens and early twenties, a pimply complexion is an almost unbearable burden to most boys and girls, just when they want to look their best. They stand before a mirror and try some method of treatment that generally consists of applying pressure

to the pimples, and results in worse pimples.

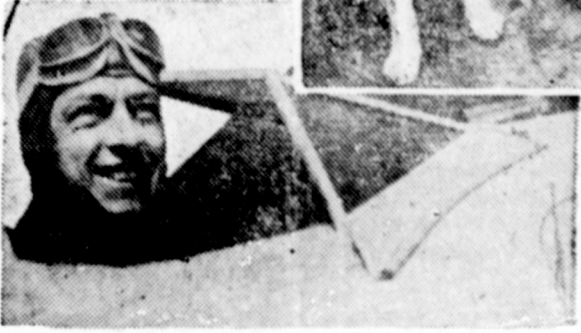

The school campaign is spreading the information that these pimples are more than skin deep. During the years of adolescence, the development of important glands disturbs the entire body. Waste products are created in the system and get into the blood stream. The result is that they irritate the skin where the most oil glands are found, on the face, shoulders, chest and back.

One of the recommendations being made by authorities on the skin, to enable the body to combat these poisons and avoid a pimply face, is the eating of fresh yeast. It has been found that it supplies elements to the body that clear the skin irritants out of the blood, they say, and it has a vitalizing effect on the tissues around the base of the pimples, enabling them to throw off the infection and heal more quickly.

This characteristic leaves less danger of scars when the pimples go away. They found that a few weeks of treatment among three large groups, in the city where the survey is being conducted, resulted in clearing up 89 percent, 83 percent and 77 percent of the cases.

## EXPOSITION OFFERS WIDE VARIETY OF DAILY EVENTS

DAILY contests and dozens of new, special features will mark this year's Eastern States Exposition in Springfield, Mass., from Sept. 15 to 21. Inclusive. Woodchopping and woodsawing championships, sheep dog trials, Massachusetts State Grange horseshoe pitching, dynamometer horse pulling, first New England championship ox drawing contest and junior musical festival are among the day to day events. Among the feature attractions will be the South Polar Guernsey dairy herd of Admiral Richard E. Byrd, cattle that spent 20 months at Little America on the Antarctic ice barrier; the Genesee 12 horse hitch; a collection of world's champion record Holstein cows, etc. Of interest to women will be the 438 entries of the second national hooked and braided rug contest.

## Lights of New York

By L. L. STEVENSON

Three hundred men are hard at work making a 50-foot square model of New York city. Every block is represented as a unit, every building 15 or more stories in height being modeled and cast. The five boroughs are separate units which may be detached from the whole. It will take the 300 a year to complete their task. But the model, constructed at the suggestion of Bernard Deutch, president of the board of aldermen, will prove a great value in fire and police work as well as in administration, traffic control, building and future planning. When the workers, all of them expert, have completed the model, they will turn to a geologic map of New York. No such map exists, the cost having been prohibitive. That map will prove not only of interest to science but will be of much aid to builders.

The depression has made possible the model and the map as well as other models and maps. Two years ago Dr. Casper Kramer, a professor of ancient languages in New York university, came out of his office one day and saw two "parcel boys" delivering packages. He talked with them and learned they were architects unable to obtain work at their profession. He wanted to help them. Thinking the matter over, his original idea expanded to include other white collar workers. The cartographic study was the result. Advanced, backed and carried on by Professor Kramer it is a project of the works division of the City Welfare commission.

Funds for the project were limited so at the outset the problem of the fine tools necessary to carry it on arose. The men solved it themselves. From scraps and junk, knitting and darning needles, they made their own. They also found a use for discarded razor blades since they were also turned into tools. With their homemade implements they have constructed products which were shown in a recent exhibition at Grand Central palace, while the map of the Mississippi valley, made by 70 men in six weeks, was shown at the Century of Progress in Chicago during the summer. Also more than 300 men are receiving weekly checks instead of being on relief rolls or doing menial jobs.

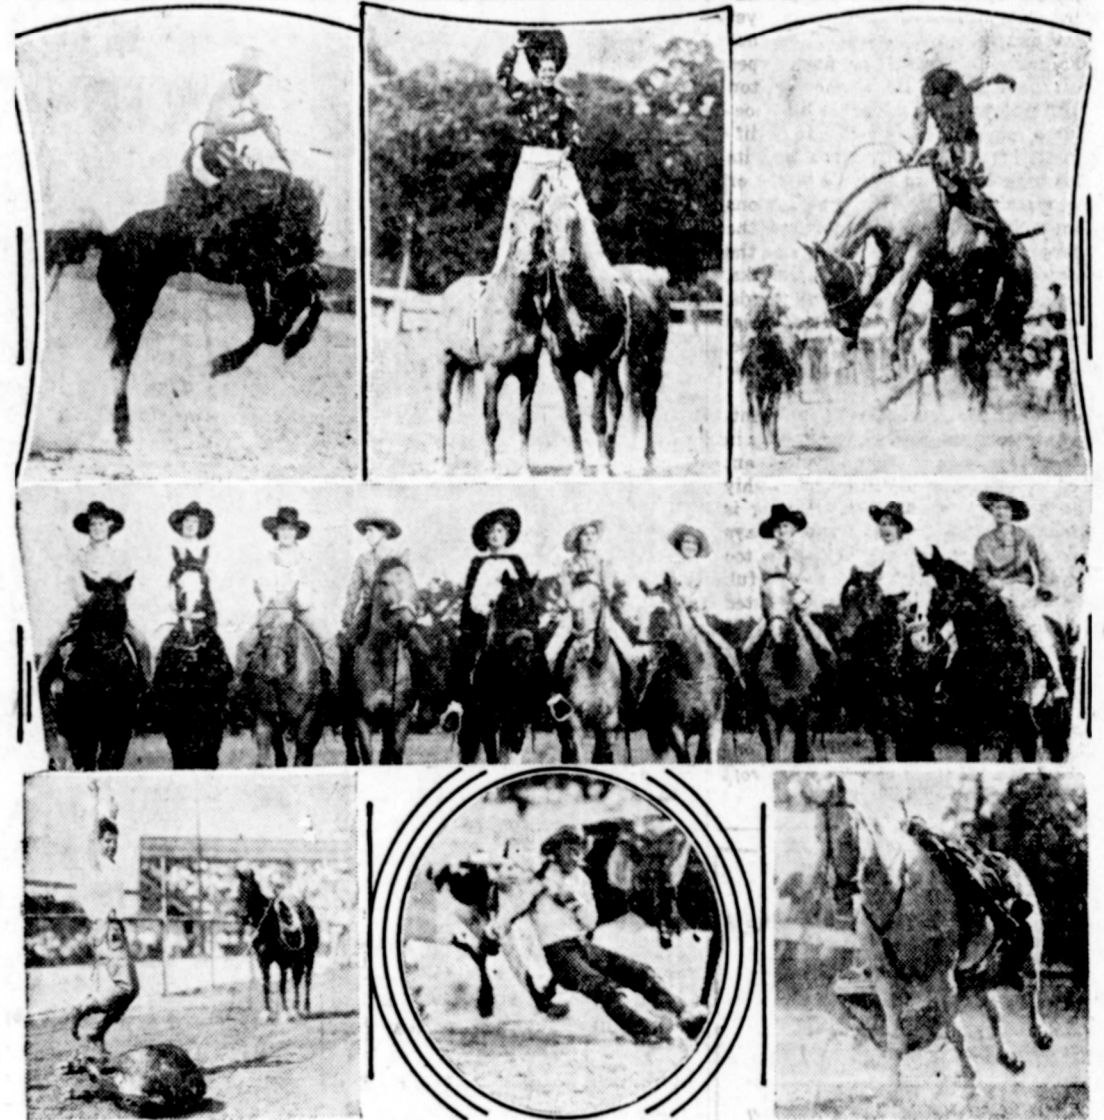

Up at the New York Botanical gardens, a seed was planted 30 years ago. By and by a sprout came up. Now the seedling has grown to a height of 90 feet, the tallest leaves brushing the glass dome in the conservatory. At the top, there are two tassels with greenish flowers. For three months, the blossoming will continue. Then the tree will die. During the years of its life, the tree has been storing up starch for its blossoms. It is a sugar palm which originated in Malaya. The specimen in the Bronx is the only one that has ever bloomed in the United States, principally because there are few greenhouses large enough to maintain a sugar palm.

Natives of various Pacific Islands are getting a bit away from the City of the Seven Million—in which the sugar palm has been successfully introduced, find many uses for it, according to Dr. Elmer D. Merrill, director of the botanical gardens. Parts are used as thatch for houses, fibers for rope, caulking and materials for brooms, baskets and raincoats. From the flower stalks sap is obtained which is bottled into sugar or excellent wine. But think of waiting 30 years for coffee sweetening or a drink of wine!

Looking over the displays of the new model automobiles with all their attachments, from two horns to cigar lighters, my mind goes back to the old days when horns and even windshields were "extras" and thus added to the original cost. It seems as if I also recall a law which provided that if a horse became scared, the motorist had to get out and lead the animal past the goldarned thing. Looking into Broadway show windows discloses how times have changed.

## RODEO HEADS EXPOSITION PROGRAM

TOP hands of the cow country, cowboys and cowgirls, will compete for honors in the world's championship stampede and rodeo at the Eastern States Exposition in Springfield, Mass., from Sept. 15 to 21 inclusive. Increased prize money, day purses, and added events have attracted a wealth of entries. The stampede and rodeo will take place every afternoon and evening.

## Humble Fish Yield Rich Vitamins, Tests Show

Vancouver, B. C.—A billion-dollar industry from the deep sea may come to the nets of British Columbian fishermen as a result of tests being made with a medical product obtained from two of the humblest fish in British Columbia waters. A Vitamin A and D oil, blended from oils obtained from the pilchard and grayfish livers, has been perfected. It is believed.

Tests on school children of Prince Rupert have revealed that the oil is superior, more potent and quicker in action than cod-liver oil.

## Municipal Court in Ohio Now "Pays Its Own Way"

Mansfield, Ohio.—When Mansfield's municipal court was established in 1923, jurists any laymen questioned whether it would be able to pay its own way. Now, all doubt as to the answer has been dispelled. Judge R. E. Hutchinson, who has occupied the municipal bench since the court was created, said that receipts for the last seven years have totaled \$208,510, as compared with expenses of only \$83,397, for the same period.

## Women's Smoking Rooms Are Approved by College

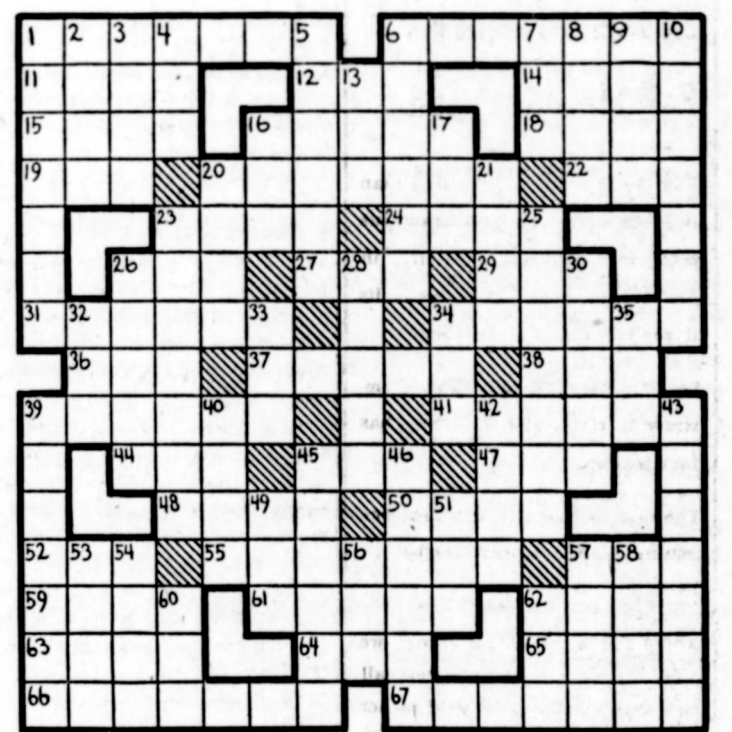

Corvallis, Ore.—Women's rights conquered tradition at Oregon State college when the administration approved a provision for women's smoking rooms in two dormitories. Authorities said establishment of the smoking rooms will lessen fire hazards caused by co-eds smoking in their study rooms, a practice that is still forbidden.

Everybody **TALKS** about the weather---but our New **"AIR-CONDITIONED" AMERICAN GAS** DOES something about it!

### HERE'S WHAT IT DOES:

"AIR-CONDITIONED" American Gas counteracts erratic engine tendencies due to daily changes in outside temperature and humidity, and makes your motor run efficiently and uniformly no matter what the weather may be.

### HERE'S WHY IT DOES:

"AIR-CONDITIONED" American Gas is unlike other regular gasolines. To begin with, it is produced from a 100% Pure Petroleum Base, with careful adjustment of light end content to meet varying weather conditions. It is not acid-treated. Further, no chemicals are added—it does more than regular gasolines to which chemicals are added—it does more than any other regular gasoline can do.

### HERE'S THE THING FOR YOU TO DO:

"AIR-CONDITION" your motor! Stop at any Yellow and Black

American Gas Pump and fill up your tank with "AIR-CONDITIONED" American Gas. Then keep your car "air-conditioned" with "AIR-CONDITIONED" American Gas. Even though it costs us more to produce, it is being sold at regular gas price from Maine to Florida and inland by thousands of American dealers and stations.

### OTHER GUARANTEED FEATURES!

**CLEAN BURNING:** 100% Pure Petroleum Base—No Added Chemicals—100% clean burning—no harmful deposits.

**GREATER NET POWER:** "Air-Conditioned" gasoline plus clean burning, guarantee superior performance. Hence, GREATER NET POWER.

**HIGHER ANTI-KNOCK:** By new processes—without acid treatment—in the world's most modern refinery, we obtain naturally from 100% Pure Petroleum Base a higher anti-knock value than the other regular gasolines get artificially by than addition of chemicals to bring up anti-knock alone.

**MORE MILES:** Greater net power and higher anti-knock rating net more miles to the gallon than any other regular gasoline.

### Training Muscles of Problem Child

Lack of Coordination Must Be Overcome By Special Methods

By Dr. E. A. Farrington  
Director, Bancroft School;  
Secretary, Special School Association

The backward child, especially in later childhood, is unevenly developed. He may be ten years old in his studies and only five in self-control. His program must therefore be completely individual. It can be applied to him alone. This is why special classes in which the teacher is required to train from ten or fifteen to twenty or thirty pupils seldom accomplish anything worthwhile. The problem child is easily fatigued, and cannot concentrate on one idea for more than a few minutes without getting tired. Frequent changes in the program are therefore necessary.

#### Coordinating the Muscles

The very young problem child is almost invariably poorly coordinated. His muscles have not yet learned to "pull together." Hence he cannot perform the finer types of movement. He cannot button and unbutton clothing, tie his shoelaces, or buckle his belt. It is difficult for him to put a box and its lid together or to pick up a pin or a match stick. His first lessons must be confined therefore to the larger coordinated motions, and the objects he uses, such as blocks, pegs, marbles, or sewing cards, must all be large. He needs a real football. If he starts out with these, he will soon be able to perform the finer motions.

Lack of coordination is frequently accompanied by slowness in learning to talk. The development of speech is a difficult and highly technical process. The training is long and tedious, beset with delays and discouragements, and, alas, too often only partially successful. Nevertheless, it should be persisted in, for occasionally a success is achieved that repays the teacher for all the time and effort expended.

This is the seventh of a series of articles on the "problem child." Dr. Farrington will reply to questions addressed to him at the Bancroft School, Haddonfield, N. J.

### Jump out of straw into clover. Gregory's Fall Hats are ready

You perhaps weren't the first man on Main street in a 1935 straw, but you'll feel like being the first in one of these new Tyrolean felts if you'll see and study them.

Yes... you literally leap from straw to clover and the clover has four leaves.

The best looking... the most becoming... the lightest weight... the finest shadings.

These are some of the things we could tell you about these new fall hats from Mallory, but we'd rather hear you say them yourself! They're different!

# "Camels don't get your Wind"

## FAMOUS SWIMMERS AGREE

Champion swimmers speak with authority when they discuss sound wind—healthy nerves—and Camels. Buster Crabbe, champion in the 400-meter free-style Olympic event, says: "I have smoked Camels for years. If you go in for sports at all, I'd advise Camels. You'll find, as I did, that Camels are so mild they never get your wind or cut your endurance."

What Buster Crabbe says is confirmed by Helene Madison; by Jane Fauntz, the Chicago girl who rose to Olympic fame; and by Stubby Kruger and Josephine McKim. So turn to Camels. Enjoy those costlier tobaccos in Camel's matchless blend. Smoke all you wish. Athletes say, "Camels don't disturb your nerves or wind."

So Mild! YOU CAN SMOKE ALL YOU WANT

## COSTLIER TOBACCOS!

### Right Out Of The Air

By R. F. SERVICE

Radio's master prophet is also one of radio's master musicians. Frank J. Black, Long the accepted authority on music in radio, Black has prophesied the seven major changes that have come into radio in the past four years. This year he says there will be fewer bad comedians and more dramatic programs with good music. Watch and see if he isn't right.

Frank J. Black

\*\*\*Seldom does the radio listener hear a stage production before theatre audiences do. But that is what Cornelia Otis Skinner is providing with her newest "Solo Dramas" which are heard on Sunday evenings.

\*\*\*Barry McKimley, youthful star of those "When Dreams Come True" programs, discovered what is meant by "life's little ironies." As a mere lad, he was a star tap dancer who gave it up to become a singer. In his program when tap dancers were written into the part, girls from a famous Broadway show were used!

\*\*\*Who has been "in danger" more times and in more ways than anyone else in radio? None other than pretty Adele Ronson, who plays "Wilma" in "Buck Rogers in the 25th Century" over CBS. A talented actress, she can scream effectively as well as act—and the part she has portrayed for several years has brought her more letters of sympathy and approval than any other actress in radio.

Adele Ronson

\*\*\*Phillips Lord, whose "G-Men" series is causing a lot of talk among radio fans, is expected to bring back his "Seth Parker's Singin' School" as well as two new ideas he is getting ready, making him the busiest man in radio.

\*\*\*Radio Theatre producers are culling the top figures in the world of stage and screen for their Monday evening CBS programs. Helen Hayes, Wallace Beery, Robert Montgomery, and Mary Boland have already starred on this series and Otto Kruger, Ruth Gordon, Ruth Chatterton and Joan Crawford are set for future programs.

Rudy Vallee

\*\*\*One of the liveliest duels on the airwaves is being staged by Rudy Vallee and Al Jolson with their lavish guest star programs which are heard on Thursday and Saturday nights over the NBC networks. Long the pace setter for broad variety entertainment, Vallee is being matched name for name by Al Jolson from Hollywood. While Rudy leans toward the sophisticated showmanship, Jolson has been quick to apply the human interest formula to his programs. Not only does he go after the biggest athletic stars for sports fans but he often pops up with five-year-old champions and the like.

\*\*\*Tito Guizar, young Mexican tenor, who has probably been "in the White House as often as the Vice-President, is going to appear in Washington once more. He'll head the entertainers who will perform for visiting South American dignitaries.

Helen Jepson

\*\*\*Far-reaching is the good that Major Edward Bowes performs for his beginners on his Sunday evening NBC Amateur hours. The genial Major now has three troupes of his successful amateurs on the road playing theatre dates.

FOREIGN LOTTERIES ARE PUT UNDER BAN

Postal Department Renews Drive on Swindles.

Washington.—The federal government is strengthening its barriers against sweepstakes and other foreign lotteries. Customs inspection is being strengthened at borders and other ports of entry, and a series of nets has been woven to enmesh ticket counterfoils shipped back to foreign agents. Seizures have increased rapidly in recent months.

Forty thousand sweepstake tickets were confiscated recently by federal agents in post offices in Boston and Philadelphia. Three hundred tickets were seized in an express office in Buffalo. Quantities ranging from single tickets brought in by individual foreign travelers to hundreds of books of the flimsy smuggled across the Canadian border are being taken almost daily by customs officers. Mail sacks full of tickets and counterfoils seized in post offices all over the country are being shoveled more frequently now than formerly into the big furnace in the basement of the dead letter office at Washington.

Growth of Traffic. Traffic in foreign lotteries has grown enormously in the United States in the last four years. The annual loss to the American people is estimated at more than \$10,000,000. No estimate is available of the additional millions lost through the purchase of counterfeit tickets, but single seizures by the government have involved more than \$500,000 worth of such "phonies." Investigation of a Cuban lottery whose agents were reported to have sold 3,000,000 tickets in the United States revealed only 100,000 tickets entered in the drawing.

Operators of the Irish sweepstakes have boasted that they take \$1,000,000 net profit, out of the United States on a single lottery. This figure was greatly exceeded last year, when more than 2,000,000 tickets at \$2.50 each were sold in this country on the Cambridgeport lottery operated by the Irish Free State. Of the 2,000,000 buyers there were less than 1,000 winners. For every winner there were more than 2,000 losers, and all who held counterfoils lost.

There are three Irish sweeps a year, based upon the running of the English derby at Epsom Downs, the Cambridgeport at Newmarket and the Grand National at Aintree. Other big lotteries for which tickets are sold in the United States are the French National, Cuban National, Mexican National and the Canadian Army and Navy lottery. The government recently confiscated tickets on a lottery in Morocco.

Warnings to Post Offices. Lists of names of foreign sweepstakes and other lottery ticket sellers against whom fraud orders have been issued by the government are sent each month to 15,000 post offices. Special compilations of names and addresses go to twenty-four postal exchange stations through which all mail for Canada, Cuba, Irish Free State, France and Luxembourg must clear. No money orders can be drawn to these persons, and all mail addressed to them must be returned to senders. More than 750 orders have been issued since last August.

Since many persons are not willing to claim the returned letters and thereby admit complicity in a lottery, in violation of the United States penal code, the cash contents often go into the United States treasury and the lottery counterfoils are destroyed. Coming in by mail, the tickets run a gauntlet of watchful postal agents, adept at detecting fraudulent material, no matter how skillfully it may be concealed in rolled newspapers, books, clothing, and first-class mail matter.

news! The charge for PYROFAX GAS SERVICE has been radically reduced! Instead of paying \$36.50 you now pay \$9.75 FOR A LIMITED TIME ONLY

BURPEE FURNITURE CO. 361 MAIN STREET, ROCKLAND, ME. This lease fee of \$9.75 is your only initial expense other than the cost of the appliance you select. There are no extras—all installation charges and piping are included in the cost of the appliance. Now you can afford the convenience of this finest of all gas services. This temporary reduction in the fee for Pyrofax equipment is the first step in our economy program to bring you clean, modern cooking at a low price. The first step was low monthly terms. The second step was the sliding scale of gas prices which lowered the yearly cost of gas in the average home considerably. And now we take pleasure in announcing this third important step. Now that all three are in effect, Pyrofax Gas Service is so economical that almost any family can afford it. This offer is good for a limited time only, so don't delay. Come in today and let us show you, in actual figures, how little it costs to cook with clean, modern Pyrofax Gas.

## Whisk . . . off he goes to college in Gregory's capable students' Clothing

You are too proud to send your son off to college in the wrong clothes . . . and you are too shrewd to spend more than you need to for the right ones.

That's why you'll come to Gregory's with your boy and that's why your son will be a good looking asset instead of an unattractive expense.

"John and I've got to go down to Gregory's this afternoon" has been said by dozens of wise Dads who know that both John and his dad are coming out of the visit with flying colors.

Mrs. Frank L. O'Neill, Barbara's mother, and daughter of A. C. Ramsdell, with Mrs. Dell Sturges, brought them to Rockland and remained a few days.

**PITTS-KARL**

Stealing a march on their friends, Maurice Kenneth Pitts and Miss Barbara Karl, both of Rockland, were married Thursday night at the Methodist parsonage, Rev. C. E. Brooks using the impressive Episcopal double ring service. The couple were unattended.

The bride, daughter of Mr. and Mrs. Donald Karl, Granite street, is a graduate of Rockland High School and attended for a time the Maine Central Institute at Pittsfield. Mr. Pitts, the son of Mrs. Nina Clark, is in the employ of the First National store.

The newlyweds are very popular and their many friends are waiting to shower them with congratulations on their return from a brief wedding trip. They will make their home in this city.

**ST. GEORGE**

While Victor Mackie was engaged in dismantling an old building at State Point Saturday a piece of lumber, probably containing an exposed nail, slid from the roof and threw him from the gable end to the ground 35 or 40 feet below. Mr. Mackie sprained his right wrist, but Dr. Biggers found that no bones had been broken.

## The SNAPSHOT GUILD

IT'S FAIR TIME

Left—"The Country Fair or bust." Right—Even the side-show offers snapshotting opportunities.

LET'S forget about the home, the seashore, the woods and pictures of the children and today think about picture making opportunities at the county and state fair.

September is fair time and I'll wager that mighty few of you have ever given any thought to this angle of snapshotting. Right? Honestly the county or state fair offers more possibilities for snapshotting than space will permit telling about. Can't you see the barker in front of the side-show extolling in husky, loud voices the merits of their shows? There's the side-show band with its battered instruments letting forth loud blasts of discordant music; the not so clean looking vendors of dolls, trick gadgets, balloons and various other things of questionable value; every one of them a subject for good human interest pictures.

But let's look toward the more serious side of the fair—the exhibits, for instance. By making intelligent use of your camera you can take home with you not only pictures of general interest but if you are particularly interested in farm products you can snap record pictures that may later prove invaluable. There is the judging of cattle, sheep, horses and hogs, for instance. If the judging is done in an open-air ring you can snap the picture of the winner of the blue ribbon with any camera—box type or folding.

In taking such pictures, or any picture, as far as that is concerned, don't just look in the finder and snap

the first thing you see. If the animal being judged has any unusual markings manage to get to a place near the ring where these markings show up the best in your finder. Try too to avoid unattractive backgrounds such as telephone poles, wires or sheds.

Among the innumerable picture possibilities at the fair you will surely want to take some action pictures and a fair isn't complete without the thrill of horse racing whether they feature the veteran driver proudly seated in his sulky or the young, dare-devil jockey.

Snap a picture of the start of the race as the drivers or jockeys maneuver their horses to the barrier or starting post and by all means take your position at the turn of the track as the horses dash perilously around the curve and into the "home stretch".

Remember this, however. If you do not have a camera with a very fast shutter, say one that will operate at 1/500 of a second or faster, don't try to snap a rapidly moving object as it whizzes directly across the lens of the camera or direct line of vision. Your chance of getting a good, sharp picture are much greater if you catch your subject at an angle of about 45 degrees. It's always better to play safe than to take a chance and perhaps get a blurred picture. Load your camera with film today and be ready for that eventful day when you are "off to the fair".

## THE PAGE RECITAL

Famous Dancer and Her Partner Gave Notable Exhibition At Camden

The recital given at the Camden Opera House by Ruth Page, celebrated American dancer, and her dancing partner, Bentley Stone, gave to the lovers of the artistic one of the rarest treats ever experienced in

this section of Maine. Magic in color and movement, sparkling music, vivid costuming, combined to make an effect that beggars description. Miss Page herself is an amazing artist, one who takes what is

best from the old school and adds to that best a new color and form for future generations to emulate. She is not a disciple of outworn tradition, but a protagonist in her field, a modern without resorting to the distorted and mysterious. She has a real art that is communicated and understood. The program:

Variations on Euclid..... Mompou  
Tango and Apache from Ballet "Hear Ye! Hear Ye"..... Aaron Copland  
Shakedown..... Guillon  
Mr. Stone..... Prokofieff  
Fugitive Visions..... Prokofieff  
Melody, Toli, Play, Flattery, Sport..... Miss Page  
Spanish Dance..... DeFalla  
Peter Pan—(by request)..... Miss Page  
The Flapper and the Quarterback (1925)..... Loomis  
Miss Page and Mr. Stone  
Du bist die Ruh from "Romantic Ballet"..... Schubert  
Miss Page and Mr. Stone  
Humoresque..... Casella  
Berceuse, Giddy Girl, Senorita..... Cyrell Scott  
Tropie..... Gleeking  
Sailor..... Mr. Stone  
Gypsy..... Miss Page  
Waltz from Ballet "Gold Standard"..... DeFalla  
Miss Page and Mr. Stone  
Ibert

The high light? Difficult to choose. Possibly Du bist die Ruh made the most profound impression, serving to display to particular advantage the sensitive sympathy existing between Miss Page and her dancing partner. Their dancing was one of one body, their grace indescribable. Among numbers repeated were The Flapper and the Quarterback, Senorita, Sailor and Waltz. The use of masks was clearly used in various numbers. Several of the costumes were designed by Nicholas Remisoff who also designed the masks executed by Violet Clark. Mr. Stone was choreographer for his own dances.

Too much cannot be said of Ruth Gordon's work as accompanist.

Using only an upright piano, she was able nevertheless to imbue her work with the verve and fire and rhythm necessary for the dancers to perform at their best. Miss Gordon played "Jugler" by Toch as a piano solo, her performance meriting many recalls.

It was one of the most appreciative audiences ever gathered at Camden. The rafters, indeed, rang with applause, and the artists were recalled over and over again.

The Camden Firemen's Relief Association must have realized a tidy sum for their first aid equipment, a worthy cause meriting support.

## EAST UNION

Mrs. Doris Robbins and young daughter, Elaine of Union, accompanied by her father, Herbert Messer, were callers Wednesday on Mrs. Mary Robbins. In the account of the Robbins reunion the name of Mrs. Doris Robbins was inadvertently omitted, as a member of the obituary committee.

Miss Sarah Daniels of New York is visiting relatives here.

Murray Hubbard who has been passing a few days with his uncle, George Davis, has returned home.

Mr. and Mrs. W. B. Wentworth have as guests Mr. and Mrs. Walter Lindsey and two children of Swanton, Vt.

Beaver Camp girls left for their homes Thursday after a delightful season.

Visitation Day at South Hope the services of which were conducted by Rev. C. Guy Robbins, was largely attended.

# People You Should Know

## ★★★★ FOUR STAR FOLKS ★★★★★

By HELEN NELSON, Special Staff Feature Writer

(Copyright 1935—By Claude Moss—Reproduction in Any Way Forbidden)

### VIRGIE F. STUDLEY

★★★★ WE have been told that a "Who's Who" of Rockland area without Virgie F. Studley, would be almost like a boat without a rudder out in the Atlantic. Primarily you all know him as a community citizen who is interested in real estate, and if you have property for sale or wish to buy some, his judgement and experience are valuable to you, and he will gladly serve you in any way he possibly can. We have learned so many good things about him and his genuine community interests that it would take easily a page to tell all of them. However, no one has ever seen "Virgie" wanting to sit on the wagon seat and crack the whip, while others are pulling the load in doing things for this good Rockland city. He likes to be one of the "pullers" and is always found in the harness in public spirited affairs. "Virgie" wore his first little-boy rubber boots in Washington, Me. Earned his first big dollar in a saw mill. Loves the woods and lakes, and a rod and gun. The furniture business captured his imagination in 1904 and starting from nothing, he built up one of the most successful furniture businesses in this territory. Having achieved his goal there, he sold it and entered his interests in real estate. September is his lucky month; he's partial to number "27"; making folks welcome is an art with him; he's what we call one of the "steering-wheel folks" sets out deliberately to accomplish—and to befriend, and for him the latch string is always out in more places than he can count. Transpose "sraey enil" and tell us—How long has he devoted to real estate.

### GEORGE H. GLANTZEL

★★★★ EVERYBODY knows the joy that flowers bring. However sad you feel, however broken-hearted—those lightly and brightly sendings from heaven, the flowers, can and will bring you gladness and cheer. Our rooms may be dark and unpleasant—so uninviting that it is almost depressing—but just let George Glantzel, Florist, at Rockport, bring in a bouquet, or a pot of flowers, and see how they will radiate freshness and sweetness. He's a joy bringer; knows more about flowers than any person we have met since in Maine; owner of Lily Pond Nurseries, that furnish trees, shrubs, perennials—to a cottage. "George" was recorded in the vital statistics of Germany. When 14 started in a garden school and been bringing beauty into the world ever since; belongs to almost every lodge in this district; fine American citizen; here's a tasty little news item, won't eat but very little sweets but goes for all the veal he can get; his hobby is flowers 265 days a year; been in same location 30 years; gay, carefree, active person; smokes long cigars; carries a warming smile and is a champion of champions.

Phone 465 and ask: How many years of his life has he been connected with flowers?

### RUSSELL STAPLES

★★★★ THE subject of this article is the Highland Square Garage in Rockport, and you will agree with us we have picked a winner in this line of business. You know almost as much about the place as we do, so we'll try to keep from saying the usual things about it. We will say that this Highland Square Garage inspires confidence in everyone who enters it, and it is one place you'll always get your money's worth. Russell Staples the owner, takes his business seriously; pays strict attention to the minutest detail; thinks less about the money returns than he does about doing a good job, and he is building better than he knows for a bigger business as years flit past. He knows his business from A to Z, and is hardworking, earnest and conscientious. He does good work on all makes of cars, with a little special edge on Dodge and Plymouths; brakes, ignition, lubricating, and the entire list of good service is his whole-day-long-job. "Russ" just beat a rain storm in on his first arrival on earth at Searsport; first big business was errand boy; zipping over the straightaways, hills and hollows in the car is his weakness, and he has been one of the good home crowd in Rockport 12 years. One of his tricks is walking all around the bed when he gets up so he'll be on the right side for the day. He can think as fast as an airplane propeller can whirl, and most of his thoughts are working for the good of others.

Phone 702 and ask: How long has he been repairing cars?

### ROLAND CROCKETT

★★★★ IN 1905 Roland Crockett of Rockport drove his first one cylinder Cadillac at the "terrific" speed of 25 miles per hour, but he didn't know then he was going to operate one of the most complete garages in Rockport in the year 1935. Four years special training in the business in Boston, and a diploma from Cook's Electric College, tells you how he went about making a good job of his knowledge of the business. He does everything with cars; sells them, paints them with dandy Duco spray, repairs any break, sells and charges Willard Batteries, handles a large stock of ignition parts, and has the latest equipment made for specialized lubrication—only one of its type in this home area. He services cars quickly and cheerfully, and nothing is too much trouble. Another thing—he's the Atwater Kent Radio man of Rockport, has special testing equipment, and shortly will have his diploma of graduation from The National Radio Institute. Here's a man who wouldn't be happy if not hustling. He operates the School Bus, and watches carefully over the welfare of those youngsters; Chairman of School Board; Mason and Lion; and you would know he is the Captain of his own Ship. Rockport marbles were the first ones he ever rolled; got the magnificent fortune of 10 cents a month driving cows to pasture; and tossing the ball in the basket, is his pet recreation. He knows and loves every inch of Rockport; considers it the finest spot on earth, and his warm, joyous smile sends folks on their way—satisfied! Phone 448 or 2380 and ask: How many years has he been working on cars?

### ROSE E. BARROWS

★★★★ WE all have the same amount of time—yet, what a difference there is in what we accomplish! One local resident who gives a splendid account of her hours, is Mrs. Rose E. Barrows, who operates the Sea View Cabins—a little village of itself—at Glen Cove, on the main highway. Rose Barrows herself, who has blessed four generations of time, is an inspiration. Her eyes are as bright, her smile as warm, and her ideas as progressive as you'll find along the entire highway, from Key West to Canada. She has taken care of as high as 2500 overnight folks in a year; nothing cheap about her ideas or comforts; curled hair mattresses; bedding sunned and aired daily; cabins heated; a delightful bungalow; running city water; convenient driveway and parking; old fashioned flower gardens, and Mrs. Barrows herself, supervises it all, and is a little bundle of concentrated sunshine. Hudson, her son, Glen Cove postmaster, operates the well stocked community grocery and filling station, and Winnifred, his joy, complete the circle of willing workers for the comfort of home folks and travelers. "Gram" was born in this home grounds—likes a good movie; Hudson is a baseball fan, and Winnifred enjoys a good hike. They bring folks back year after year, and send them on their way with happy memories, because all three belong in the Golden Rule class.

Phone 2580 and ask: How many delightful cabins await the traveler at Sea View Cabins?

### FRED PRIEST

★★★★ SHE agrees—he agrees—in fact we all in Rockport agree that the milk and cream sold by the Fred Priest Dairy has them all beaten when it comes to flavor and quenching power. And that folks is the reason today he delivers more milk in Rockport than any other milk man. Miss Ruth Priest is known to every man, woman and child as she attends to the delivery, and delivers to all milk as fresh and sweet as nature intended and she is a unanimous favorite with the citizens. Her patrons are pleased and happy over the service and quality given them. It is pure and wholesome and "tastes it." "Fred" is an ex-farm boy from Kennebec County. Beneath a blazing, scorching sun he worked in the fields for a neighbor for his first money at fifty cents day, besides his dinner. Forty years ago he was one of our best butter makers then went into milk business. He'd rather eat fried chicken than anything else; goes fishing again and again. But he doesn't quit. Fred keeps right on trying and some day by accident might get one. He will not do mean, petty little things to others; always on the jump around his farm; doesn't dabble in other's affairs; and the sun comes shining through every time he enters your company.

Phone 8216 and ask: What is the total of years he has been delivering milk in Rockport?

### CHESTER P. WENTWORTH

★★★★ DID it ever occur to you that a handshake is a true index to character? Well, if you want to prove this, go in and shake hands with Chester P. Wentworth of The Rockport Ice Company, at Rockport. You will discover then what strong, genuine, friendly contact is. And "Chester" has a host of friends who have come to know him through this genuineness. His main business is a complete general store, where 1001 things await your needs. Foods, home remedies, household conveniences, school supplies, things needed around the barn, and garage, Socony-Vacuum gas and oil for your car—and you save money by buying your needs from the home store in Rockport, from one who's around-the-clock interest is bound up in his home community. "Chester" first tipped over his high chair in Rockport. First big money-making job brought him 10 cents a week driving cows. Some day, when his ship comes in, he's going to invite all his good friends, charter an air conditioned pullman and see the country. And if his ship doesn't anchor, travel is still his idea of a good hobby. Monday morning January 2nd, 1893, "Chet" Wentworth tied up his first pound of sugar in this longest established general store in Rockport. Been Town Treasurer since 1928 and Tax Collector since 1929. Full of good humor and smiles; grand judge of refrigerators and pantry shelves; always has time for youngsters; and if you stop in his store early in the morning the rest of that day is going to be bright and happy for you. Try it and see! Phone 421 and ask: What year did he become the owner of this business?

### C. EDGAR RHODES

★★★★ CHARLES EDGAR RHODES of Rockport is a man who performs his duties quietly, quickly and understandingly. He gets no protests, never shirks in waiting on his customers, but gives a good-hearted service that lifts many burdens, provides comfort and makes possible enjoyment of his trade. He has towing service, tires, accessories and that quality Tydol gas, and—if that isn't enough, he's a machinist in the bargain. Used to operate his own blacksmith and wheelwright shop, and when the pace turned to automobiles, he kept right in the lead with the procession. He's worked on one cylinder automobiles, and gas engines, ever since we learned their usefulness. Charles, Jr., is his right hand man in the shop, and since he was pretty much born in the business, would naturally be another of the A-1 boys. Another activity that burns up "Ed's" enthusiasm, is the fire engine. Santa Claus brought him his own first little fire engine in Washington, and he has never since been able to get them out of his system. Now you know why he's Chief Engineer of the Rockport Fire Company. Throwing rocks into the fill for the bridge is exactly how Ed Rhodes earned his first copper penny, and he'll probably be a delegate of that good-time convention that's slated for the tail timbers October 15. In his quiet way he has been making Rockport friends 32 years; he never loses them, and never misses a chance to "get aboard" when the Rockport band wagon needs a boost. Everyone just feels happier when Ed Rhodes is around.

Phone 2196 and ask: How long ago did he start this oldest Rockport Garage?

### NELLIE R. BALLARD

★★★★ TEACHING "the young teaching" the young is a task of importance in the scheme of things, and one Knox County citizen who can claim real credit on this score, is Nellie R. Ballard, of the Ballard Business School of Rockport. You must have an accurate knowledge of business yourself, before you can impart that knowledge to others, and this is where Nellie R. Ballard stands "ace high." Many years she was a bookkeeper before entering the Rockland Commercial College where she taught five years. It was always characteristic of her to want to know the "whys" of business affairs, and once mastered, equally as interested to make these ideas and principles clear to others. She was blessed with a keen, logical mind, and the kind of understanding that cuts through to the heart of things which accounts for the splendid success she has made in teaching. Accountancy, Secretarial and other courses. She has figured in the lives of 150 students in Rockport and

## CLAUDE S. MOSS COPYRIGHTED NEWS-PAPER FEATURE

The "People You Should Know" appearing in today's Courier-Gazette is a printed publication of my Copyrighted Newspaper Feature Contest, published in daily, weekly and semi-weekly newspapers or magazines throughout the United States of America, which includes the following component, essential and necessary parts:

- STORIES**—of persons, firms or industries, printed in news form, including business or biographical facts, or both.
- QUESTIONS**—of any kind or character that can be asked.
- ANSWERS**—to aforesaid questions.
- RULES**—giving explanatory information concerning questions asked; directions for obtaining answers; nature or amount of awards given contestants; time limit for submitting answers.
- AWARDS**—stating names of prize winners and amount awarded in money or its equivalent.
- ROLL OF HONOR**—listing names of every person or firm written, in any form, making a composite directory of persons or firms included in this copyrighted feature.

HAVING COMPLIED with the provisions of the Copyright Law of the United States of America, I have been given the exclusive right to all or any part thereof, to arrangement, adaptation, form, style, plan, translation into other languages, and to all versions thereof, by said copyright law, to print, reprint, publish, copy and vend this Copyrighted literary work.

THOUSANDS OF DOLLARS have been paid by me to publishers for space carrying my copyright notice, to attorneys and to the Copyright Office at Washington, D. C., for protection of this original newspaper feature contest. Therefore, any person who willfully and for profit, shall infringe all or any part of my copyrighted material, or who shall knowingly and willfully aid or abet such infringement, will be arrested and punished by imprisonment or fine, or both.

Signed, CLAUDE S. MOSS.

when they walk out with her diplomas, they have a mighty good start on the road to "somewhere." School opens this fall Sept. 16, so why go or send your son or daughter to Bangor or Portland for same courses as given here at a less expense. She takes a personal interest in every student and each Christmas receives postals from all over America from former pupils. She was born in a Penobscot County rose garden; always interested in music; can see good humor and laugh as loud as the loudest; loves young folks and does all in her power for their education and is one of Knox County's finest career starters.

### ENOS & MARIAN INGRAHAM

★★★★ THE Mountain won't come to Mahomet so Mahomet must go to the Mountain. And—success won't come to anyone; we have to go to it, and what's more carve our own pathway. Two Rockport citizens who have carved their own pathway and done it well, are Enos E. and his joy in life, Marian A. Ingraham, of Rockport. Coal, Grain, General Store are the main works, but they serve folks in hundreds of accommodating ways you never hear about. Groceries, meats, dry goods, wearing apparel, dishes, shoes, home medicines, cosmetics—they have them all. Maynard and Oliver, two up-and-coming hustlers, help Mother and Dad, and even "Just Plain Bill," of the third generation, wears his shoe leather out keeping people satisfied and happy. Rockport is where these good folks all instructed "Doc" Sork to make a safe landing. Enos learned about store-keeping from his Grandfather, Job Ingraham, who used to burn time here 70 years ago and had his own store, too. Enos was treasurer of the Shepherd Company over 25 years. Today his hobby is making this store a real asset to Rockport community. Marian's thrill comes from the whole outdoors, flowers and nature. They occupy one of Maine's most beautiful coast spots. No "fuss or feathers" about this happy family. They are like Chesterfields—"They Satisfy", and are what Edgar Guest calls—"Real Folks". Welcome Friends to our Four Star crowd of Rockport boosters.
