

Thompson Dec. 10th 1835-

To Warren Rice Esq.

Sir, I send as stated below, what statistical information I have been able to collect concerning the schools in this town.

We have 21 School Districts

" 1861 scholars between the ages of 4 & 21.

" 18 School Houses, valued at \$7800.

About 1400 scholars on an average attend school.

The amount of the value of books & stationery annually purchased ^{by scholars} perhaps is something near \$1000. It ought to be much more.

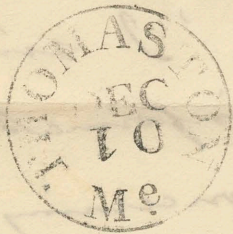

The amount of money raised by the town this year for the benefit of schools, is \$2000. Dividend of Bank Tax rec'd from the state 233.39

Total. \$2233.39

Having mislaid your letter, I do not know that I have answered all your inquiries; but the above is all that I have ascertained.

Respectfully Yours

R. Woodhull.
