**LOCAL HONEY**

Tim Chase, the rock wall instructor, is also a keeper of bees. He has included several of his products in this year's catalog. This honey will become a staple in your healthy diet. Check out his skin care products on page 12.

**TIM'S HONEY**

1 LB Cat # W31 $2.25
2 LB Cat # W31A $4.25

**PURE MAPLE SYRUP FROM WHITEFIELD**

Austin produces this top grade syrup from the sap he collects from his own "sugar bush" here on Townhouse Road. Unlike the 2-3 year old "store grade" this is from this springs boiling. The very best of nature's sweeteners. Try some on his cereal.

1 PINT Cat # W15A $5.50
1 QUART Cat # W15B $10.00

**STONE GROUND WHOLE WHEAT FLOUR**

Our neighbor Austin Moore grinds this flour from organically grown Hard Red Spring Wheat. Imagine baking your own whole wheat bread using this wholesome flour, stone ground right here in Whitefield.

1 BAG 5 LBS Cat # W12A $2.75

**CEREAL, HOT BREAKFAST**

"PRIDE OF WHITEFIELD"

Austin makes this hearty breakfast from his home grown grains. It cooks like oatmeal in 5-6 minutes. It is the breakfast of choice for several of the farmers here on Townhouse Road. You know when you can satisfy a farmers appetite, it must be good!

1 BAG 2 LBS Cat # W12B $2.25

**DRIED BEANS, VERMONT CRANBERRY**

Austin grows this oldtime Northern New England variety. Oval, medium size, plump, red and pink streaked. Great for soup and baking with their mild tasty flavor.

1 BAG 2 LBS Cat # W14C $3.25

**PLOYES**

When we first tried these French Acadian buckwheat crepe-like pancakes, we knew they would be popular with others who love healthy wholesome food grown right here in Maine. The Bouchard family of Port Kent have been milling a unique light buckwheat flour for generations. Ployes (rhymes with boy's) have no eggs ... no milk...no sugar...low fat...no cholesterol...just add water. They are wonderful! We serve them regularly at our B and B and the diners often buy a bag to make their own. C'est Magnifique!

1 BAG 1.5 LBS Cat # W25 $3.75

**BED AND BREAKFAST**

Sheepscot Meadows Bed and Breakfast is an English style B & B. Located here at the home of the "Tree Pool", just 15 miles from the Capitol and 15 miles from the coast, we are only 8 miles from Common Ground Fair. With 80 acres of woods and rolling meadows bordering a mile on the famous Sheepscot River, the setting is decidedly pastoral. The comfortable homey bedrooms are complimented by the deliciously creative English styled breakfast. We cater to local people who want a friendly quiet place for their visiting friends and family. Reasonably priced quiet comfort. 549-5761

**ADDRESS CHANGES!**

Most of our communities are going thru a 911 address changing and road renaming process. To assure our mailing list is up to date and that you will get our catalog ... be sure to use your NEW address on the order form. If you are not going to order from this catalog - but want to continue receiving the SVTP catalogs, be sure to drop us a line or a ring, about your new address. The Post Office will not always continue forwarding mail.

MARKING STAKES
These dark green colored stakes are the perfect size to mark garden rows. They are inconspicuous.
25 STAKES 18" Cat # H13H $2.50

AL'S FLOWER POUCH
We recently found this unusual gardening tool made in Canada. It is an attractive green plastic
pouch complete with drainage holes, planting slits and a strong integrated hanging loop. It makes
the perfect solution to the problems of hanging plants. Seedlings are tucked in the slits to grow and cover
the whole pouch. Simple and complete instructions are printed right on the bag. Some recommended
plants are: Super Petunias, impatiens, ivy geraniums, strawberries, Sweet 100 tomatoes, etc.
1 POUCH (Retail: S3) Cat # C15 $2.50

STORAGE BARREL
These heavy duty, light weight, 43 gallon, recycled, food grade, plastic drums once
contained olives from Greece. They are great for storage of potatoes, rain water, apples, grain, sap,
rubbish or clothes etc. Our attractive red / rust colored barrels are short and squat
so that you can reach the bottom. They have a nice clamp top.
1 barrel 43 GAL Cat # C10 $15.00

COOLING MOTH TRAP
Caddling Moth is the most common fruit worm pest of fruit trees. This EARLY
ALERT Disposable trap will help you to control the pests. No harmful
chemicals, it uses Biodegradable

LOCAL CRAFTS
NESTING BOX BLUEBIRD
Maurice Dauphin makes these Bluebird nesting boxes. He uses thick
upplanned pine for durability.
The inside is laddered so
that the young birds can
climb out. The front swings
open for easy cleaning.
There is a predator guard on
the front. Maurice is an avid
birder, his sensitivity to the
needs of the birds is keen,
and as a craftsman he pays
close attention to details.
We think you will find his
work to be a good investment for both you and
your bird friends.
1 box Cat # K13 $12.50

HANDKNIT DISHCLOTH
Mae also makes these unusual oldtime items.
Everyone who has one says “You just have to try
them to believe it”. She hand knits them from
strong cotton. They are just the right size (8" x 8")
and great for scrubbing and all around cleaning.
1 DISHCLOTH 8" X 8" Cat # K50A $2.00

WHOLESALE FOODS
FROM WHITEFIELD
SABATINE’S MOZZARELLA
Onofrio and Millie Sabatine, right across the river,
have been making this great cheese for over
fifteen years using old world methods. Millie
makes daily batches on her wood cook stove. Nerf
milks eight cows to produce enough to satisfy the
customers of their popular cheeses. On pizza, in
salads and with fresh tomato, basil, and olive oil,
mill say this is the best mozzarella anywhere!
1 BRAID 1 LB Cat # W10 $3.50
RUGOSA ROSE SEED
This wild rose seed has been "stratified", that is, it has been through a freeze-thaw cycle, that makes it ready to plant in the spring. This seed produces deep red roses on short stout stems. Super as a hedge it’s often called the Maine rose.
1 pkt 50 seeds min. Cat # Z12A $2.75

LUPINE, RUSSELL'S CHOICE MIX
This new (1993) mix of the old favorite that the rural roads of Maine are noted for. Superb mix of pinks, white, violet-blue, red, yellow, peach and bi-color combinations. Seed your patch this year for a long lived, carefree, eye catching Lupines.
1 PKT 100 SEEDS Cat # Z14A $2.25

PROVIDER BEAN SEED
Maine's most popular early green bean (50 days). 5-5 1/2" long medium green, bushy, round pods. Seed germinates in cool weather. Each flavor is terrific. We seldom can wait, and eat them right in the garden. Seeds a 20-25' row. 1 pkt 175 seeds Cat # Z17 $1.00

NEW NASTURTIUM
'EMPERESS OF INDIA'
Nasturtium have edible blossoms adding a peppery taste to salads. They keep coming when cut. They love full sun. This variety has stems and leaves with a red toning that gives the plants an olive color. The scarlet flowers are spicy hot!

HARDWARE:

HEAVY DUTY RECYCLING BAGS
For years we have been using these heavy woven poly recycled grain bags to hold our manure and bark. I also put pumpkins in the turnip and hang them for cups and plastic to be recycled. And then, they stopped making them, going to paper instead. Luckily I still have a good supply. People ask to buy them for their myriad of uses, so here they are, and a good deal at that.
3 BAGS 100# SIZE Cat # H19 $2.50

TREE GUARDS
After last year's devastating losses to rodents, these guards have proven to be a very good investment to your trees and shrubs. Inexpensive protection for your valuable young trees. These heavy duty, vinyl, spiral coverings expand as your tree grows. They protect against rodents, winter sun and wind damage. Removes easily in summer.
1 guard 24 inch Cat # H10 $0.75

STAKE AND TWINE KIT
We have put together a great inexpensive all-purpose row marking, plant-staking kit that contains 10, 30" bamboo stakes and over 300' of nylon twine on a handy winder with built in cutter. What a bargain!
1 kit Cat # H13A $3.50
FERTILIZER
Inorganic 5% nitrogen, 10% phosphate, 10% potash in granular form for that quick boost of established plants. The farmers choice.
1 BAG 5 LBS Cat # N12 $2.00

BONE MEAL
The gentle, long lasting organic source of mild phosphate. Every permanent planting should have this in the soil. It is an excellent feed for bulbs and it lasts for years.
1 BAG 4 LBS Cat # N13 $4.75

LIME
We carry lime in every one of our catalogs, because all over this state, acid soil is the norm. The natural sweetener that helps Maine's acid soil absorb nutrients. Mined in Union, Maine. All of our soils benefit from lime.
1 BAG 50 lbs Cat # N14 $2.50

COW MANURE, AGED
We are constantly scooping out manure piles. It is only a matter of time before this valuable soil amendment is all gone. Farmers are VERY protective of this "by product". But, we still have some of this "BLACK GOLD". Aged sweet, this is a good soil builder. It's getting rarer as our dairy farms continue to disappear from the valley.
Tommy tells me this is "the last year of it"!
1 BAG 40 lbs Cat # N15 $5.00

BARK MULCH
Spring is an excellent time to add bark to your landscape. It fights erosion and slowly adds its fiber to the soil. Our shredded softwood bark assures not just an attractive landscape, but also offers waterholding qualities and weed control. It promotes root growth by lightening the soil.
1 BAG 40 lbs Cat # N16 $5.00

DIATOMACEOUS EARTH
Composed of finely ground fossilized shells of tiny fresh or salt water creatures. This natural product has both abrasive and surplike qualities which kill insects through dehydration. The insect's 'skin' is penetrated by the scratchy powder, and loses its body fluids. Apply in wall voids and other out of the way places to kill many common pests. Sprinkle on carpets or pet bedding to control fleas. Economically used as an animal feed additive to control intestinal parasites. Use as a barrier around vegetable and ornamental beds to discourage slugs and crawling insects.
BAG 3 LBS Cat # N19 $3.50

BACILLUS THURINGIENSIS (BT)
HARMLESS to humans, all other animals and beneficial insects, this highly effective stomach poison (bt-k) affects only the caterpillar stages of tent caterpillars, gypsy moth, cabbage looper, tomato hornworm and other leaf-eating caterpillars. Biodegrades quickly in sunlight. A scientific wonder now in use worldwide. 6 oz treats 4050 sq ft.
Bottle 6 oz bt-kurstaki Cat # N20 $3.50

LLAMA MANURE
Llama manure is odorless, non-acidic and 100% organic. Perhaps best of all, it comes packaged in all natural time-release pellets! "Llama beans" have received rave reviews from everyone we know who has tried it.
SACK 20 LB Cat # N21 $5.00

WATERGARDENING:

Water gardening is our newest focus. Two years ago we reconstructed a lawn into a new garden area that included a 12' pond with recirculating waterfall and bridge. In studying about the water-loving plants, and talking with others we realized that almost everyone has at least a passing interest in gardening in wet places. So, we have planned our second workshop to show how you can begin gardening in this fascinating environment.

WATERGARDENING WORKSHOP

On Saturday May 31 we will explore the wide range of possibilities in gardening in wet places. From learning what to plant in that existing wet spot, to digging a hole and using a membrane to create a real in-ground pond complete with water fall or fountain. We will learn the special needs of plants and the aquatic wildlife. This workshop includes a hearty lunch of a soup, sandwich drink and light dessert. 9 am to 12 noon. Reserve your place early.

VEGETABLES

NEW KITCHEN HERB PLANTER

Oregano, Basil, Rosemary and Garlic Chives all in a convenient LITTLE GARDEN planter. Just place this "collection" in any handy place. No weeding, no fuss. Bring inside when fall comes.

5X6X12 PLANTER Cat # V12M $14.00
LILIES
This is one of the great garden plants of all time. The genus consists of about 200 bulbous herbaceous varieties, all indigenous to the North Temperate Zone. We are very excited about our lilies. Ever since we discovered this dependable importer who has a wide selection of very high quality bulbs, we have been promoting lilies as a plant that needs more representation in our Maine gardens. Perfectly hardy, these bulbs will add a new dimension in beauty at a price you can't beat.

ORIENTAL LILIES
Perhaps the most exotic hybrids are the Orientals, derived from species native to Japan. Their flowers are large and open. Most Orientals have spotted flowers that are outward facing or pendant, but some of the newest hybrids are upward facing, and some are spotless, like the popular "Casablanca." Orientals bloom over a long period - from mid-July into September. They have a pronounced sweet, spicy fragrance.

ORIENTAL LILY "STAR GAZER"
This lily is like a Toulouse-Laurec poster--bright and joyful. Vivid red with white margins. 18" flowering July-August. Excellent for pots too. Most lily lovers rate this their favorite more than any other!
3 BULBS 16/18 CM Cat # B10B $7.50

SUPERTUNIA
WOW! I wait till you see these. It grows into a trailing mat of nearly solid blossoms! They are long lived everblooming. Deadheading isn’t necessary as in the old petunias. This is truly a SPECTACULAR new plant. We have found a grower who will supply these in 4” pots as they can’t be put in a flat because they will tangle. Grow them in a pot well off the ground, or put 3 in a 2 foot window box. Hard to find in season! Shades of pink and fuschia.

FRUIT TREES

We started the "pool" with fruit trees twenty seven years ago. There is still a great call for them. They are easy to grow if you do a good job preparing—preparing the soil and preparing yourself with knowledge.

Generally speaking, you should buy at least two different trees to assure there will be fertile pollen for the bees to pollinate.

Our trees are grown in Maine. All are grafted on semi-dwarfing rootstock (except pears & plums). We will be happy to show you how to plant and prune when you pick-up your trees.

APPLE 'MCINTOSH'

Sheepscot Valley

Tree Pool
721 Townhouse Road
Whitefield, Me 04353-9705

This is our twenty-eighth year of providing high quality, inexpensive plants and supplies to gardeners in and around our beautiful Sheepscot River Valley. This is a twice a year event when interested gardeners "pool" their orders to get the best price on quality gardening materials, and members volunteer to help distribute plants on "pick up days". Without this cooperative effort we couldn't do it, so if you are an experienced gardener and would like to help as a volunteer, please let us know.

Most of our stock is purchased from growers and wholesalers right here in Maine. One of the practices that we promote is the use of "bare root" plants. Professionals often buy their plants in this condition for three reasons: 1. the plants are without leaves on their branches or soil on their roots and are "dormant", so their needs are few. (Keep cool, covered, and humid). 2. The quality and condition of the plant can be best judged by looking at the roots. 3. The plants are less expensive, they weigh less, the costs of soil, potting and caring for actively growing plants are eliminated. And, bare rooted plants can be shipped almost any time of year.

A very important part of our work is teaching our members the care of these bare rooted plants. We stress that the plants be kept covered and protected from the drying effects of wind and sun (bags are provided at pickup time). We recommend that the holes be prepared before picking up the plants, so that planting can be a smooth, carefree and enjoyable experience. There are a variety of informative handouts available.

We also have a growing selection of plants that are not available here in Maine in the bare root condition. These are traditional landscape plants, usually evergreen, that are grown in a container or more likely, they have been field dug with soil attached to the roots and wrapped in burlap - they call this B & B or Balled and Burlapped. We are fortunate to have several excellent wholesalers who have only the highest quality stock and are sensitive to the unique needs of a cooperative. That's why we can continue as Maine's oldest, largest plant cooperative, into this our next 25 years.

Our organization continues to change as time passes. As we enter our next quarter century of service we are adding still more new items to our catalog- over 50 this year! And we are pleased to offer some remarkable workshops to satisfy our interest in promoting learning. We are continuing our collections series of Lilacs, Hosta, Flowering Crabs and of course, perennials. We hope you will find something to add enjoyment to your gardening.

You may have noticed that the catalog is priced @$1. Due to rising costs of printing & postage we must charge those who want a catalog but don't order. The $1 is refundable.

YOUR ORDER MUST BE PLACED BY SUNDAY APRIL 6th. PICKUP IS SATURDAY MAY 17 and SUNDAY MAY 18 8 am to 5 pm

Mark this on your calendar now, because there will be no other reminder. There is only a two day pickup. There can be NO Friday pickup. Come to Sheepscot Meadows Farm on Townhouse Road in Whitefield. We recommend that if you would like help or information from our knowledgeable volunteers, that you come at off peak times, in the afternoon and on Sunday. If you have any questions please call Dave Chase at 549-5761 ....I can also be reached by E-Mail at: dchase@gwi.net feel free to contact me anytime.
