ED HOWE'S FOLDING SLED

This is the best sled for ice fishing, hunting or trapping that there is on the market today. It is light and strong and when loaded is easy to haul through the woods. It will fold so as to be taken on the running board or back seat of an automobile. Will hang up in a corner taking practically no space at all. It weighs only 5½ pounds and will carry 500 lbs. Dimensions 36x18x7 inches. It makes a very handy sled to have around the home for hauling wood, ashes, rubbish, etc.

ED HOWE’S HILLMASTER TOBOGGANS

These are made of Hard Maple, beautifully finished in Natural Wood Color. The middle and two outside slats are thicker than the other four. This adds greatly to the strength of the Toboggan as it decreases the running surface on iced slides; it will greatly increase the speed, and make it easier to steer in the snow. Note the long, graceful bend, which enables it to take a bump without a jar, and makes it run. Toboggans are a necessity for the trapper to get his supplies in with to his back camps. Our Toboggans are the best to be had. Do not confuse with low grade unreliable makes. We recommend the 6 ft. and 8 ft. models for trappers’ use. The 5 foot is good for light loads.

Dailey's Superior Animal Gland Lures

"The Original Animal Gland Lures"

These are exactly the same lures used by E. J. Dailey on his long Adirondack Mountain Trapping Lines, and which have made him America's recognized "Master Trapper." Formerly these lures were made to attract only the nature of the animal, but late improvements and vast experiments have produced a lure that appeals not only direct to the very nature of the animal, but also to their hunger and passions, thus giving the user three chances for success. Over 100,000 properly handled animal glands enter into Dailey's lures each season and every care is taken to prevent undesirable contamination. These lures have been on the market for 20 years and each year their sales have increased, proving they actually increase the catch.

Among users are U. S. Department of Agriculture, U. S. Department of the Interior, and many other known trapping authorities throughout the states. The glands are actually good products, Dailey's Animal Gland Lures have been imitated, but those who have tried the imitation were glad to come back to the Original Animal Gland, time-tested and proven superior. Special bases used in these lures have produced a product that the cold of the Arctic or the heat of the desert cannot destroy the valuable Odors and it is only necessary to use one-half the amount at a set, compared with many scents and lures. They are created in different formulas for each animal species for best results and are not an expense but an investment that pays many times over. New set instructions now furnished with every shipment including photograph of Dailey's Famous Dirt-Hole fox and coyote set.

FOXTAIL—Overcomes human odor and attracts animals to your trap line. Used on soles of footwear and along trail.

ODOR ELIMINATOR—Destroys odor on traps, pack, gloves, etc., and is attractive to every type of animal. Works in all conditions and is not an expense but an investment that pays many times over. New set instructions now furnished with every shipment.

WOLF—Lure No. 1. Made from fox glands and secretions properly blended and appeals to the very nature of the animal. Worth a dollar a drop to the trapper and intended for Fall and Early Winter use but good all year. Price $2.00 postpaid.

FOX—Lure No. 3. Made from fox glands and secretions properly blended and appeals to the very nature of the animal. Worth a dollar a drop to the trapper and intended for Fall and Early Winter use but good all year.

COYOTE—Lure No. 1. Professional size, 4 oz. bottle, enough for an entire season. Price $2.00 postpaid.

RACCOON—No. 1. Recommended for use in northern areas. Not mild but real. Works on the most herd fearing animals and provides the best lures with the most powerful lure of any size.

RABBIT—Useful where they need thinning out or have become pests.

DAILEY'S TRAP STAIN—A powerful preservative intended for preserving flesh boxes, lure materials, etc. A bottle makes 8 ozs. by adding to water. Much more powerful and last odorous than alcohol. Price per 4 oz. bottle $1.00, postpaid, with directions.

POSSESSION—You can make money trapping as soon as the air gets crisp. Starting a trapping business means a lot of work, but it is more rewarding than any other type of business. It requires a lot of hard work, but the results are well worth it.

DAILEY'S ALL-PURPOSE LURES

For Flesh Eating Animals

Lure Prices:

1 Oz. Size

Per Single Bottle, $1.00 postpaid

1 Bottles $2.50 postpaid

7 Bottles $5.00 postpaid

Here is a lure created and perfected by E. J. Dailey after several years testing on his long trapping lines. It is intended for trappers who make one set for various flesh-eating fur animals or for trappers who feel they cannot afford a bottle of Dailey's Animal Gland Lure for each animal species they trap. It is not a mild lure, but a powerful lure made from expensive ingredients that calls animals from long distances, and only a very small amount is needed at any set. Complete trapping instructions for all flesh-eating animals are included in the set.

Each $1.00; 3 for $2.50; postpaid

NOTE: Dailey's Lures are furnished only in professional size as listed. Not made in 4 oz. size except as advertised.
Dailey's Superior Fox and Coyote Bait

"Flesh Bait At It's Best"

Preserved flesh bait that can be used successfully with or without additional lure. The preservative in this bait prevents odors freezing out and adds to the attractiveness. It receives the same care in producing which is given Dailey's lures which assures an uncontaminated product. It can be used in warm climate without further decomposition and is much superior to common decomposed bait. Not only is it the leading flesh bait for fox and coyote, but can be used successfully for mink, 'coon and other flesh-eating animals. Price: 1 Jar $1.00, 3 Jars $2.50, 7 Jars $5.00. Postpaid with valuable trapping instructions.

Dailey's Anti-Freeze Compound

Here is the original Anti-Freeze tested for years on Dailey's long trilopoes before offering it to the public. The use of this allows dirt trapping during even hard freezing weather and the users bring in fur when others find their sets frozen hard. It has an odor pleasing to animals, yet will not cause them to dig up traps and it is only necessary to spray sets after making, using a small spray gun, and it will pass through spray gun even in very cold weather. The name of E. J. Dailey connected with this compound assures a worthy product. Instructions furnished. It is put up in liberal 4-oz., bottles enough for 100 sets. POSTPAID

Dailey's Fear Eliminator

For Fox, Coyote, Mink (Mention Which)

Dailey's Fear Eliminator puts the finishing touches on a set and overcomes trap and other odors while it eliminates fear of the approaching animal. Make your sets in the regular way, using lure for attracting a connection, then when set is completed, sprinkle a few drops of this product around set. It will absolutely not cause animals to dig up traps and under actual tests increased catches as much as 50 per cent. Like all Dailey's products, this is fully guaranteed when used according to the instructions furnished with it, and you can order with the assurance that there is none better. Price: Per 2-oz. bottle $1.00; 3 bottles $2.50, postpaid.

Dailey's Buck Lure

$1 per bottle; 3 for $2.50

A time tested product. Scientifically compounded by Dailey. Overcomes human odor, makes "still hunting" easy and sure. Our sale of this item increases each year. Many of our customers have used it year after year. Free instructions with each bottle.

ED HOWE'S ANIMAL BAIT PELLETS

These pellets are put up in "pill" form. Each pellet contains the proper amount of scent. Made to withstand snow and rain. It eliminates all guesswork. Wonderful for amateur trappers. Clean and easy to handle. When ordering, be sure to mention the kind wanted.

ALL PURPOSE ANIMAL LURE

If you are one of the many who use only one lure for calling all fur animals, we are pleased to offer you a lure that has been "tested" for several years against all other types of this kind and we offer it to the trapping public with the assurance that it has the maximum in calling appeal to all fur animals. Knowing that a lure of this type must be powerful and give out odor even in hot, sunny weather, we have used the highest grade of ingredients obtainable and no substitutes of any kind are used in the compounding. Don't compare this with cheap lures that are put on the market to catch the trapper rather than the animal, for we have placed this on the market to stay and we know the lure will advertise itself by actual results. It is particularly recommended for all flesh-eating animals which includes Foxes, Coyotes, Wolves, Wildcats, Skunks, Possum, Badgers, Wasps, Bear, Mink, Fisher, Martin, etc., but may be used successfully for all animals. The reputation of HOWE FUR CO. stands behind this lure which guarantees you satisfaction. Bottles contain one ounce.

FOX BAIT

For bait is another item that should be selected after most careful consideration. Arnold's Fox Bait is made up of tender, juicy morsels, yet firm enough to be easily handled, that will interest Mr. Fox. It is not prepared in a haphazard manner but compounded, aged and ripened under perfect conditions. Only choice components are used, no seconds find their way into this bait. No odor killing preservatives are used. Making the world's leading fox bait is an art in itself. No other scent is required or recommended—you pay one dollar for a jar of Arnold's Fox Bait—it is not necessary to invest another dollar for scent to use with it. It is not only the perfect fox bait but is equally effective on coyote, coon, fisher and bear.

ARLONDS SPECIAL WILDCAT CALL

Arnold has spent much time in the trapping and study of Wildcat and found that there are several ingredients which interest "cat men," based on these essentials in making "cat appeal," thereby drawing out part of the important, individual odors. This is the reason why most trappers find "cat agents" they purchase are of little or no value. Arnold's new idea is to place before the trapper a special combination—three of the best known "cat calling ingredients" each in a separate bottle and each to be used separately or as a complete mixture together. Each case contains three 4-ounce bottles of different calls. No discount on quantity lots. Per case, straight price, $1.00.

Jack Chain No. 12—For all small traps. 36-ft. package, 90c, Not Postpaid. Shipping wt., 4 lbs.

**TWO TRIGGER**

For Muskrat, Mink, Skunk, Marten, Weasel. Inner jaw spread 4 inches. Wt. per dozen, 16 pounds. Furnished with or without teeth.

**PRICE:** Each 97c; Dzen $9.75. Not Postpaid.

Trappers cannot afford to use cheap, ordinary traps for Muskrats. The losses are too great; it does not pay.

The inner trap of the Two-Trigger grips the animal's foot and the outer jaw closes over the body, holding the entire foot and leg in a rigid position. This is the principle which prevents a Muskrat from breaking its leg.

From foot to shoulder all movement is prevented.

**NO. 1 JG STOP LOSS TRAP**

Equipped With Optional Delayed Action At No Extra Cost

The No. 1 JG Stop Loss trap is made especially for the catching of Muskrats and to prevent losses by wrigging-off. The Stop Loss feature was applied to the No. 1 Jump style trap in order to accommodate our many customers who prefer the Jump style trap. We have received many favorable reports regarding the performance of this trap. To use delayed action, place delayed action bar under spring and over guard. This bar will delay the action of the guard until animal is firmly held by the jaws. The guard snaps up to the body when the animal pulls on the chain, thereby releasing the guard. It is not necessary to make a drowning set with this trap.

Jaw Spread, 4½ inches. Length of Chain, 16½ inches. Weight per dozen, packed, 9 pounds. Not Postpaid—Postage Must Be Added.

**ONEIDA VICTOR NO. 1 V-O STOP LOSS TRAPS**

(With Delayed Action Feature)

Jaw Spread 4 Inches

- Length of Chain 16½ Inches
- Wt. 8½ Lbs. Per Dozen Packed
- Each 62c Per Dozen $6.25
- Not Postpaid

It is not necessary to make a drowning set when using this trap.

The No. 1 V-O Stop Loss Trap with the guard is made especially for the catching of muskrats and to prevent losses by what is known as wrigging-off. Exhaustive tests and actual use in the field have shown that they do prevent these losses. The auxiliary guard moves high up on the animal's body, thereby holding it in such a position that it cannot twist off or gnaw off.

If the animal begins to thrash around it moves the whole trap instead of just twisting its leg, which naturally tends to prevent its breaking the bone. The auxiliary guard also forms a barrier making it almost impossible for the animal to get back to its leg and gnaw off.

ONEIDA NEWHOUSE

Since 1848 Without A Rival

The high reputation of these celebrated traps is due to the following reasons:

First—For the springs, nothing but the best steel obtainable for the purpose is used. The standard is kept up by constant tests and by daily watching results. All steel not of the very best quality is rejected.

Second—The springs, upon which so much depends, are tested in three different ways before leaving the factory and are "set" several days in cold water.

Third—Every other part is rigidly tested and inspected, and each trap is set and sprung by an expert to insure its working correctly.

The Oneida Newhouse Animal Traps have been the universal favorite of professional trappers since 1848. All Oneida Newhouse Traps are equipped with Winkleless, non-twisting Super-Weld chains.

The New Katch-All

Hot Trap is the strongest and most durable French style trap on the market. Made of No. 2 heavy galvanized iron cloth, equipped with patent bolt cup. In order to kill the rat, submerse trap in cold water. This also destroys all odors, and will positively not rust or injure the trap in any way. In our experimental tests with all makes of traps, made over a period of 30 consecutive days, we found the "Katch-All" caught more rats than all the other traps combined. Blis: 19 inches long, 8 inches wide, 7½ in. high. Price $1.10 each. Ship. wt., 3 lbs. Not postpaid.

The New Katch-All

Quickly removes fat and extra flesh from pelts of animals. Made of finest grade English knife steel, curved blade with beveled edge. Rounded corners eliminate danger of cutting holes in pelt. Easily sharpened with a file to trapper’s individual requirements. Postpaid.

Newhouse Setting Clamps

Use these clamps for setting Bear Traps, etc. No. 4—0V Re. No. 5—11.45 Re. Use No. 5 clamp for bear trap. Spring Yokes to hold on spring while other is bent, 20c.

THE FUR GETTER is a little device for killing fur-bearing animals, ejecting a chemical into the open mouth when the animal attempts to get the bait. When the chemical gets on the membrane of the throat, nerves feeding from the membrane to the heart paralyzes it, causing the animal to die near the set. The chemical is harmless outside the mouth, but burns the eyes like red pepper if it gets in them.

The device was first originated on a sheep ranch in a crude form in 1926, for the purpose of killing coyotes. It has been very successful since that time.

Never has it endangered any livestock in any way, but will kill dogs and cats the same as fur-bearing animals, if placed where they will find it.

Many Fur Getters, after having been set for six months or more through all kinds of weather, have killed coyotes. With a little practice the device is very easy to set and take up. It has killed nearly all fur-bearing animals, but was especially designed to kill coyotes. The coyote usually lies around very steps from the set, although same will be farther and some will be closer. Very seldom will one get over one hundred yards.

All that is needed for bait is a little rabbit fur or prairie dog hide wrapped around the bait holder and shell. After the hide is in place, a prepared bait may be put on or it may be dipped in tallow, lard, old bacon grease, shrimp mashed up and rubbed on, or anything the trapper has been successfully baiting with.

ED HOWE'S ADJUSTABLE FOX STRETCHER

This stretcher will give you the best looking Fox skins you ever had. Made of soft pine, slotted at top and bottom so that it is easily adjustable. With this style stretcher animals' legs and feet can be correctly stretched. Also can be used for Coyotes, Wildcat, Otter, etc.

Length 41/2 feet, width adjusts from 5 1/4 inches to 9 inches. Price: each, $1.25; dozen, $15.00.

Not prepaid. Shipping weight: each, 4 pounds; dozen, 42 pounds.

ED HOWE'S WOOD STRETCHERS—ONE PIECE

GAME SMOKERS

Drives animals from dens, burrows, hollow trees, logs, etc. It produces a dense smoke and gas heavier than air, which gets quick results. Avoids digging into animal dens, and destroying retreats of game, which lessens the fur supply. Light in weight—each tube less than an ounce, easily carried. 18 to the package.

Price Per Package, 65c, Postpaid

ED HOWE'S MOVABLE FISH

A great bait for water set, wiggles like a live fish, can be plainly seen by day or night.

The most wonderful bait in the world for Coon, Otter, Mink, Muskrat, and all animals that frequent the water.

These fish are movable, they wiggle 'round and 'round in the water like a real live fish, and by their constant motion are sure to attract the attention of all animals that frequent the water. Coon, Mink, Muskrat and Otter especially are very curious and inquisitive and will stop to investigate anything that is bright and shiny. When the object is in the water they will invariably attempt to pull it out with their paws and as the fish are fastened to the pan of the tray, they are immediately caught.

Hoosier Crow Call

Full instructions how to use this crow call with each order.

The NATURAL TONE of a Crow's Call. It is designed after two years' study in calling crows to the hunter. It was found that the TONE of the call when asking for help is much different than that of their regular conversation calls. A hunter well versed in calling can call them within range in a few minutes; their sense of direction in locating calls is very keen, as are also their eyes, so keen from making a move until they are close enough for the range of your gun. Price 95c postpaid.

**MARBLE’S FLEXIBLE REAR SIGHT**

**IMPORTANT FEATURES**

Automatic Joint

Whenever the sight is struck on front or back, the coiled spring in the hinge brings it instantly into position for shooting. Can be locked down. This joint alone more than doubles the value of the sight.

If snow gets in deep hole it can be thrown out by pulling sight back and letting it fly forward.

Elevation Lock. The lower sleeve, which is turned up against the elevating sleeve, prevents it from being turned and holds the disc stem true and rigid at any elevation.

Interchangeable Discs. Discs having various sizes of outside diameter and different sizes of apertures can be used.

Point Blank Adjustment. A screw in the bottom of disc permits a quick change of point blank range without tools.

This sight will fit all American rifles, except Remington Models 12, 14, 141, 144, 147, 24, 241, 25, Monten make, model, caliber, and with proper screws for attaching sight to gun.

ED Howe's Gun Owner's Necessities

Marble's Shotgun Sights for Double Gun

Bi-Color Front is made with ivory body, gold cap and steel base. Construction eliminates danger of breakage. Can be seen in any light.

Ivory Front, because of its whiteness and large size, is more easily seen than the ordinary metal front sights.

The use of either sight greatly increases accuracy in shooting. Are easily attached by use of reamer.

About Ivory Rear Sights for Double Guns

The Rear Sight should be placed at the rear sight distance, according to length of gun and shooter's eyesight—never more than 18 inches.

The rear sight keeps one from aiming too close to the gun rib, which prevents a clear view of the bird and causes misunderstanding. Good alignment cannot be secured without a rear sight.

No. 224—Front Sight Reamer ........ 10c
No. 226—Rear Sight Reamer ........ 10c

Marble's Auxiliary Cartridges

Places the pistol cartridges at the forward end of shell chamber for firing. Bullet takes rifling on being fired; does not strip and become deformed; does not load the barrel. Gives thoroughly satisfactory results. It allows the use of very cheap ammunition for small game or target shooting in a large, high-power rifle.

The implement is simple, strong and its use is perfectly harmless to any part of the rifle. Can be used through the magazine if desired.

When rifle firing pin hits auxiliary pin, neither is harmed, because the primer or rim is soft and takes up the impact.

When saturated with oil, these "ropes" exclude all air and moisture and make it impossible for the barrel to rust or become pitted. They are longer than the barrel and larger than the bore. This insures a constant pressure of oil against the entire circumference of the bore. One oiling will last for a year.

**TRAFFIC-ACE POLICE WHISTLES**

This famous whistle is the loudest and most durable on the market being used by the Chicago Traffic Police and many other Traffic Police throughout the country, by refugees, air raid wardens and others who require the very best. Easy to blow. Will not stick to the lips in cold weather. Clean, addressless and twistless. Contains no cork ball. This omission together with its scientifically constructed sound chamber gives it the so-called high and low tone-tune effect and the loud piercing sound. Supplied in beautiful prescriptions colors: Ivory, Black, Walnut, Oynx.

FANCY FRANZITE GRIPS

A beautiful pair of carved stocks or grips on a revolver or pistol is a source of pride to the gun lover. They add to the appearance of a gun much as a precious jewel enhances the beauty of a ring.

FRANZITE GRIPS are reproductions of exclusive original models designed and executed by skillful artists and workmen in our employ. The motifs are natural and lifelike and the designs are carried out to the finest detail. These smart looking grips are molded of FRANZITE ivory and beautifully toned and finished by hand. They are a proud addition to any gun lover's favorite handgun or to his collection. The six outstanding motifs are listed below. Both sides of grips are carved. For a complete understanding of symbols designating different models of guns consult our FRANZITE Grip Folder and Size Chart.

FRANZITE STAGHORN GRIPS

The best grade of Staghorn for revolver and pistol handles came from Europe and Asia before the war, but now are no longer available. FRANZITE Staghorn Grips are excellent reproductions of the finest Staghorn, having well-formed grain, and grooved surfaces. FRANZITE Staghorn is supplied in Ivory with brown tones, in the following numbers, others to follow later.

All Grips Postpaid
FRANZITE GRIPS are practically unbreakable, because of the high impact strength for resistance to breakage under sudden hard blows; hence, their superiority over walnut, rubber, pearl, and ivory. They handle very easily, whereas FRANZITE GRIPS are uniformly tough-without grain. Pearl handles often chip easily, whereas the extreme strength and toughness of FRANZITE GRIPS make them virtually indestructible. The hardness of FRANZITE GRIPS is comparable to that of aluminum, hard rubber, or hard oak wood. They are light in weight—about the same as walnut.

Genuine FRANZITE GRIPS may be recognized by the FRANZITE TRADE MARK and Mr.'s name (RICHARDSON) on the inside of each grip.
### FRANZITE TARGET GRIPS

**Trade Mark Registered**

Shooting enthusiasts who use target grips have a big advantage over competitors who use the conventional ones. It's the same old story of "golf clubs that fit," "shoes that fit," and "shotgun stocks that fit." Nearly all .22 and .38 National handgun records are set by men using good target grips.

**FRANZITE Grips** are the result of much study and experimentation on the shooting range.

**FRANZITE Target Grips, Series “T,”** are shaped to fit the hand and give it the proper support. A built-in adapter or black fills in the spaces behind the trigger guard. The front strap and on some models the back strap, is covered. The extra width and butt extension fills out the hand and lines up the gun with the target. The shooter will be surprised at how easily his score will be improved.

**FRANZITE Target Grips, Series “TT,”** have a long, sloping, snug fitting thumb rest on the left grip, properly designed for right-hand shooters.

**FRANZITE Target Grips** for automatic pistols are recessed to give easy access to the magazine and proper support to the hand.

**Supplied in luxurious colors:** Ivory; Walnut; Onyx; Agate; Black.

**THE TRAPPERS PARTNER**

*A Book Of Modern, Master Trapping Methods*

Here is the book you have been waiting for, E. J. Dailey's latest book on trapping, containing seventeen chapters fully illustrated of "boiled-down" trapline information.

This is not a book telling how they used to do it nor is it devoted to long descriptions of fur animals, but it tells how the trapper of today can be successful, and includes the most modern sets with all details often omitted by others, yet vitally important.

The sets given in this book are the ones that Dailey's 44 years trapline experience has proven the best fur-getters, including his famous dirt-hole set for fox and coyote in detail, the set with more fox to it's credit than any other set, and originated by Dailey, also how to treat traps, make sets freeze-proof, build camps, proper stretcher sizes, snaring, proper handling of furs, lure formulas, etc.

HARRY PHYFE'S
FOX AND WOLF METHODS

(The Fox Wizard) New Revised Illustrated Edition Now Ready

Like the "Old Gray Mare," Fox skins "ain't" like they used to be. SO we decided to help out our trapper customers by offering these methods at $2.50. JUST ONE-HALF of what we have sold several thousand copies for.

HARRY PHYFE Covers the Following Points:

"Real Northland Ice and Snow Trapping"—"Dry Land and Water Sets"—"The Mound Set"—"The Glacier Ice Set"—"Big Bait and the Circle"—"Use of Undertunnel Set"—"Traps To Use and How To Fix Them"—"Cross, Silver, Red, White, Blue Fox"—"Wolf and Coyote"—"The Phyfe Exclusive Snow Set"—"Bait and Scents Formulas"—"How To Make a Set Old"—"The Land Set in Freezing Weathern

PHYFE'S FOX SCENT

We are now able to offer you in 1-oz. bottles the famous Harry Phyfe formula Fox Scent. This is compounded identically to the formula mentioned in the Phyfe methods and saves the trapper the cost of buying necessary materials. Price $1.00 per bottle; 3 bottles for $2.50, postpaid. 4-oz. size bottle $2.00.
Fox and Coyote Trappers

Are you satisfied with the methods you use?

The bunch system is entirely new and different from any other method and it gets the skunk fur-bearers. They are called directly in a trap that has been given a special treatment that renders it odor and rust proof for the entire season. This trap also makes the trap so attractive to the fur-bearer that no other bait or lure is needed, making a set that is very simple to construct, and one that is nearly 100% effective.

This is one way to make a trapline pay. There is nothing left wanted and no high-priced lures are needed. It works on bare ground, before and after freezing weather, and in any depth of snow. America's most successful fox and coyote trappers are my pupils and I have satisfied users in all sections of this continent from Alaska to Old Mexico. In addition to my system I also tell you the pet sets of many other famous trappers—some of these methods alone have sold for fifty to seventy-five dollars each. No other trapper-writer has ever attempted to publish so complete a publication of this kind, and after you have studied it, you will not have to order other methods.

Sold under a money-back guarantee. Price Five Dollars, and worth it. Send all orders to

KINDLE-LITE

KINDLE-LITE is composed of various scientifically-processed fibres, hydro-carbons and other chemicals, resulting in blocks of concentrated heat, which are neither self-combustible nor explosive, and light only by application of a burning match or other open flame.

Approved by the Bureau of Explosives for the United States and Canada as "NON-DANGEROUS". May be shipped and stored anywhere. Do not deteriorate. Burn, according to size of block, from 10 minutes to 2 hours each, in wind, rain or snow, and even floating on water. Burn up completely. Leave only clean, powdery residue. No odor, no smoke.

As DANGER FLARES and EMERGENCY WORK LIGHTS they protect the life of the motorist during night repairs on road, or as signal-lights for Scouts, Hunters, Explorers, etc.

PERFECT TORCHES for burning out insect nests and caterpillar webs, for thawing out frozen radiators, pipes, railroad switches, etc.

INSTANT FUEL to cook, heat, boil, fry and grill food in camp or trailer stoves. Countless other uses.

FIRE KINDLERS eliminate the use of paper, kindling wood, dangerous oils and liquids for lighting all kinds of fires.

Genuine Hudson’s Bay “Point” Blankets

Genuine HUDSON’S BAY BLANKETS are the most famous Blankets in the world, bar none. More than 150 years ago the Hudson’s Bay Company started making their genuine “Point” Blankets. In those days Indians traded fur for goods. Short indigo lines called “points” meant prices. Thus, 3½ marks or “points” meant three large and one small beaver skin. Four “points” meant a price of four large beaver skins. Today “points” mean sizes. Thus, a 3½ point blanket measures 63x81 inches and is a single blanket, a double 3½ “point” blanket measures 63x162 inches and weighs 10 pounds per pair. A four “point” blanket measures 72x90 inches and is a single blanket, a double 4 “point” blanket measures 72x180 inches and weighs 12 pounds per pair.

For the present HUDSON’S BAY BLANKETS are available in all colors. Write for catalog.

WHITE with multi-stripes, size 72x90 inches, $28.95, postpaid.
SCARLET with black stripes, size 72x90 inches, $28.95, postpaid.

**Delivery Charges... Who Pays?**

We pay delivery charges only when items are shown; otherwise a sufficient amount to cover delivery must be included with your remittance in the event you want shipment forwarded by parcel post. Mailing weight is shown on all articles which we do not deliver free. Where the customer fails to include necessary delivery charges in remittance, we will ship "charges collect" either by express or parcel post, whichever is most economical.

**TRAPS AND SUPPLIES FOR FUR**—If you want traps and supplies from us when you send in your furs we will gladly exchange. Your order should be attached to fur shipment.

---

**How To Figure Postage**

Find in what Postal Zone your city is located. Next, add up the weights of the articles selected and refer to the chart shown on this page. It will show you the amount of postage required. To this amount add the amount of Insurance or C.O.D., fee and you will have the approximate transportation charges on your shipment. All shipments by Express and Freight are made "charges collect" unless otherwise specified.

**Special Delivery**

Handled and transported like first class matter with immediate delivery from your Post Office. Up to 2 lbs. 35c; Over 2 lbs. 50c.

**Special Handling**

This service may be used at any time on rush shipments. Receives expedited handling and transportation privileges, not immediate delivery. Packages up to 2 lbs. 10c; From 2 lbs. to 10 lbs. 35c; Over 10 lbs. 75c.

**Parcel Post C.O.D. Fee**

Orders accompanied by a 25% deposit will be shipped C.O.D. The following fee is added to invoices:

- Not exceeding $2.00: 20c
- Not exceeding 5.00: 35c
- Not exceeding 25.00: 50c
- Not exceeding 50.00: 75c

An additional money order fee is collected upon delivery.

**Insurance Fee**

All parcel post shipments (not C.O.D.) can be insured if wanted. The following is the fee to add:

- Values under $5.00: 5c
- Values from $5.00 to $10.00: 10c
- Values from $10.00 to $25.00: 15c
- Values from $25.00 to $50.00: 20c
- Values from $50.00 to $100.00: 25c

**Parcel Post Charges Outside U. S.**

The charges on items not postpaid to points outside the U. S. and Possessions is 14c per pound.

**Air Mail Charges**

We can ship Air Mail if charges are included. To U. S. and its Possessions the rate is 8c per ounce. We allow regular mail rates on prepaid items shipped Air Mail.

---

**Non-Resident Licenses**

We are selling agents for the Maine Inland Fish & Game Dept. and can furnish Maine Non-Resident Hunting or Fishing Licenses of all kinds. Free copy of Maine Fishing Laws or Maine Hunting & Trapping Laws, Mail card. Mention which or we will send both if wanted.

**TO OUR FRIENDS AND CUSTOMERS**

This is our latest copy of our general catalog. We have adequate stocks of all items listed when this catalog goes to press. TRAPPERS! We have all kinds of supplies for fox, marten, ermine, and other species. ALL PRICES QUOTED IN THIS CATALOG are subject to change without notice when conditions are due to increases beyond our control.
