To Our Patrons.

This issue which has come 13 days ago is a most abundant one, and the demands made upon our presses has been so great that the Temperance Building which has long been the home of the Tribune, and which in the improbable past of that building which has been the home of all its issues, has been filled. The fire was first seen by the landlords in the middle of the building, and it took little time for the firemen to arrive, but it was impossible to control it. There was not a house in the building that was not threatened by the flames, and the building was reduced to a mass of ruins.

Confederation.

On Wednesday night at about half past ten, dense clouds of smoke, which were immediately found to have originated from the Twin Mills, which is the most important mill in the city, was seen. The fire was first seen by the tenants in the middle of the building, and it took little time for the firemen to arrive, but it was impossible to control it. There was not a house in the building that was not threatened by the flames, and the building was reduced to a mass of ruins.

A Trip to Antiquity Falls.

On Friday evening, a large party of our citizens, including the young men and women of the town, went to the Antiquity Falls, where they were received with great hospitality by the proprietor. They were conducted through the falls, and were permitted to view the scenery, which was most beautiful. The party then proceeded to the Tempe
cr. It was a delightful evening, and the party returned home with a feeling of great satisfaction.

Petitions.

Mr. Brown, one of our oldest residents, has received several petitions from citizens of the town, who desire to have the post office moved to a more central location. The petitions were presented to the Selectmen, who have promised to consider the matter carefully.

The Temperance Union.

The Temperance Union has been in active operation during the past week, and has made a large number of conversions. The union has also been successful in securing the support of many of the leading citizens of the town, who have pledged themselves to work for the suppression of intemperance.

The Selectmen.

The Selectmen met on Thursday, and appointed Mr. Brown as their representative at the town meeting. Mr. Brown will attend the meeting, and will report to the Selectmen on the proceedings.

The School Committee.

The School Committee met on Wednesday, and discussed the matter of the new school building. They decided to proceed with the construction at once, and to have the building ready for occupancy next fall.

The Preston Mills.

The Preston Mills have been closed for the season, and the workmen have been paid off. The mills will be opened for the season next spring.
