INTRODUCTION

The primary source of the information published in this directory is compiled from public library annual reports submitted to the Maine State Library. This provides a useful guide for a local library to compare its basic operation with other libraries and also gives an overall picture of public library operations.

This is not a complete picture of library service in Maine. Statistics reflecting school, academic and special library activities are not reported to the Maine State Library. Also, there does not yet appear to be a readily acceptable measurement which would adequately indicate in-library service to patrons (reference, use of periodicals, special programs, etc.).

Users of the directory are invited to suggest ways to improve or expand future editions. Please forward comments to Library Development Services, Maine State Library, Augusta, Maine 04333.
