I wish to take this opportunity to thank the Maine business enterprises listed on this page for their cooperative support in making this special supplement on promoting Maine industry possible.

In addition to the copies distributed with the regular editions of the Portland newspapers, which we hope will be mailed as widely as possible by Maine people to those who might be interested outside the State, we are having an extra supply printed to use as a supplementary mailing piece to industrial prospects.

It is only through the loyal Maine spirit of the Guy P. Gannett Publishing Company, the sponsors listed on this page and the teamwork of many individuals that this first color and rotogravure supplement on Maine as an Industrial State has been made possible.

The sincere thanks of this Department are extended to all.

Louis Shelpe, Commissioner
Department of Development of Industry and Commerce
