ICE FISHING REGULATIONS

ICE-IN 1997 through March 31, 1998
and
ICE-IN 1998 through March 31, 1999

LEE PERRY, Commissioner

MAINE DEPARTMENT OF INLAND FISHERIES AND WILDLIFE
41 STATE HOUSE STATION, 284 STATE STREET
Augusta, ME 04333-0041
IDENTIFICATION OF SALMON & BROWN TROUT

The more obvious difference between salmon and brown trout may be found in the "head and tail" areas. Knowing them may help the angler release a fish more quickly when certain creel and size restrictions apply.

On salmon, the vomerine teeth are small and arranged in single row on shaft, few to none on vomerine head.

On the Brown trout, the vomerine teeth are well-developed on both vomerine head and shaft, arranged in a zig-zag row on shaft.

On salmon, the caudal fin may be slightly forked and on the brown trout, the caudal fin is square and unforked.

ASK FIRST...Most outdoor recreation in Maine takes place on private property through the generosity of the landowner. Only by respecting landowners and their property can we be sure we will have land available in the future for the various forms of outdoor recreation we enjoy. If you know you are welcome to use someone's land, don't abuse the privilege. If you don't know whether you are welcome, find out. If the land is posted or you know you are not welcome, find another location. ALWAYS SEEK PERMISSION before engaging in any form of outdoor recreation on property which belongs to someone else.

Reporting Tagged Fish
Anyone catching a tagged fish should report it to the Regional Fishery Biologist at the nearest Regional Headquarters listed on page 2.

Personal Fishing Logs
If you wish to keep an official "Personal Fishing Log" for the Department's Fishery Management Regions, please contact either the Augusta office or any of the Regional Headquarters offices listed on page 2.
LICENSE INFORMATION

LICENSE REQUIREMENTS
No resident of this state, 16 years of age or older, or nonresident, 12 years of age or older, may fish through the ice in inland waters or transport fish taken from inland waters without first obtaining a valid Maine fishing license. Maine Residents may obtain fishing licenses from any resident license agent. Nonresidents may obtain fishing licenses - in person or by mail - from the IF&W Department Office in Augusta or from any of the numerous nonresident license agents throughout the State.

Unless otherwise specifically provided, all fishing licenses expire on December 31 of the calendar year for which they were issued.

FREE FISHING LICENSE PROVISIONS:
A free fishing license will be issued, upon application, to the following:
1) Any Maine resident who is blind;
2) Any Maine resident who is over 70 years of age (available from Town Clerk);
3) Any Maine Indian who is a member of the Passamaquoddy, Penobscot, Maliseet or Micmac Tribe (must obtain licenses from their respective tribal headquarters);
4) Any Maine resident who is a war veteran, has a service connected disability of 100% or has served in a combat zone and has a service connected disability of 70% or more;
5) Any Maine resident (or nonresident, if reciprocal privileges exist in the home state of the nonresident) who is suffering from the loss, or loss of use, of both lower extremities;
6) Any mentally retarded person (as defined in Title 20-A, §7001, sub-§3).
(These free licenses may be obtained at the Department Office in Augusta.)

DUPLICATE LICENSES
A duplicate license will be issued, upon payment of $2.00 to any person who has accidentally lost or destroyed his or her original fishing license.

Residents must obtain duplicate licenses from the resident agent who issued the original license or from the IF&W Office in Augusta.

Nonresidents must obtain duplicate licenses from the IF&W Office in Augusta or at any of the Warden Service offices at the Regional Headquarters.

Closed to the taking of salmon. During the month of March: Daily bag limit on salmon: 1 fish; minimum length on salmon: 16 inches; artificial lures only. Open to fishing for cusk in the nighttime with 5 lines under "no live fish as bait" restriction.

AN-2: Androscoggin River—Open per Class A. Daily limit on trout: 2 fish; Minimum length limit on salmon, rainbow trout and brown trout: 12 inches. Daily bag limit on bass: 1 fish between 12 and 15 inches, artificial lures only for bass.

AN-3: Auburn Lake—No motor vehicles on ice (ATVs & snowmobiles exempted.)

BE SURE TO READ THE INSTRUCTIONS BEFORE EACH COUNTY LISTING - THEY ARE NOT ALL THE SAME
TIPS FOR CATCHING & RELEASING FISH

By carefully following these simple instructions, you can release your fish unharmed.

1. **Time Is of the essence.** Play and release the fish as quickly and carefully as possible. An exhausted fish may be too weak to recover.
2. **Keep the fish in the water** if it is not going to be part of your daily bag limit. A fish out of water is not only suffocating, but may also be subjected to a "quick freeze".
3. **Be gentle.** Keep your fingers away from the gills. Don't squeeze the fish.
4. **Remove the hook with small pliers or a similar type tool** - If the hook is deeply embedded or in a sensitive area such as the gills or stomach, cut the leader close to the snout. Make an effort to use regular steel hooks to promote early disintegration. Do not use stainless or gold-plated hooks.
5. **Lake trout (togue) often have expanded air bladders** after being pulled up rapidly from deep water. If the belly appears expanded, release the fish from the hook first, then gently press your thumb along the stomach near the paired belly fins and move it forward a few times to remove air from the bladder. Finally, proceed to revive and free the fish.

One good way to aid you in releasing your fish quickly is to use barbless hooks in the first place - or bend the barbs over as shown - or simply file them off!

"If you enjoyed catching your fish, so will the next angler!"
Laws Regarding Placement of Ice Fishing Shacks

It is illegal for any person who owns any shack or temporary structure used for ice fishing to place or allow the shack or structure to be placed on the ice of any inland water more than 3 days before the water is opened to ice fishing.

Any ice fishing shack left for more than 15 days on property not owned by the person owning the shack, without permission of the landowner, is considered abandoned and may be removed or destroyed by the landowner. The landowner may recover any costs incurred for removal or destruction of the shack through civil action.

All ice fishing shacks, while on the ice of any inland waters must be labeled on the outside in 2-inch letters with the name and address of the owner. Ice fishing shacks must be removed from the ice of inland waters within 3 days after those waters close to ice fishing. (This also applies on border waters with New Hampshire - see page 31).

NEW ---Free Fishing Days--- NEW

Free ice fishing days are back and will take place on Saturday & Sunday immediately preceding President's Day each year. Any person, except those whose license has been revoked or suspended, may fish on these days without a license. All other laws and regulations apply.

Fishing Derbies and Tournaments

A permit must be obtained prior to conducting a fishing derby or tournament. For detailed rules and laws, contact the Fisheries Division at Inland Fisheries and Wildlife, 284 State Street, Station #41, Augusta, Maine 04333-0041 or call 287-5261.

Laws Pertaining To Bait Dealers/Use of Live Bait

A. Live bait restrictions. It is unlawful for any person to take, sell, use or possess, either dead or alive, for use as bait for fishing in inland waters, any pickerel, goldfish, yellow perch, white perch, bass, sunfish, crappie, humpout, carp, alewife, or any spiny-finned fish. The following are legal bait for fishing: Smelt, Lake chub, Eastern silvery minnow, Golden shiner, Emerald shiner, Bridle shiner, Common shiner, Blacknose shiner, Spottail shiner, Northern redbelly dace, finescale dace, Fathead minnow, Blacknose dace, Longnose dace, Creek chub, Fallfish, Pearl dace, Banded killifish, Mummichog, Longnose sucker, White sucker, Creek chub sucker, American eel, Blackchin shiner.

B. Importation of bait-fish prohibited. It is unlawful to import into this State any live baitfish or smelts.

C. Bait Dealer's license. It is unlawful for any person to deal in live baitfish or live smelts without first obtaining a valid dealer's license. For further information, contact IF&W (NOTE: A person may take live baitfish for their own use, by the use of hook and line or bait trap only, if that person holds a valid fishing license.)

D. Permit to take bait from closed waters. Any person (except licensed bait dealers who receive a permit upon issuance of a license) who wishes to take live baitfish from inland waters which are NOT CURRENTLY OPEN to fishing must first obtain a written permit from this department. There is no charge for this permit.

E. Checking baitfish traps. All baitfish traps must be checked at least once in every 7 calendar days by the person who set them.

F. Bait traps to be marked. All bait traps and bait holding boxes must be marked with the name and address of the person who is taking or holding the bait.

G. Marking holes. When using drop nets to fish through the ice for baitfish/smelts, all holes made in the ice MUST BE MARKED either by evergreen boughs placed around the hole, or by suspending at least 1 strand of fluorescent biodegradable tape at least 3 feet above the ice around the entire perimeter of the hole so that the tape is visible from all sides.
Closed waters. All inland waters are closed to ice fishing except those which have been opened by rule.

Ten acre ponds. All ponds of ten acres or less formed on brooks, streams or rivers are governed by the same fishing rules which apply to the brook, stream or river on which the pond is situated, whether the pond is natural or artificial. (This does not apply to private ponds.)

Possession limit. A person shall not possess at any time more fish than he may lawfully take in one day.

Minimum legal length. Minimum legal length is total length of a fish measured from the tip of the snout to the tip of the tail with the lobes of the tail squeezed together.

Special bag limit. Whenever any waters have a special bag limit, no person shall possess more than one day's bag limit taken from those waters.

County lines. Where county lines divide a body of water, the more liberal county rule shall apply to the entire body of water.

Five line restriction. Unless otherwise provided by rule, a person may fish through the ice with not more than 5 lines, all of which must be under the immediate supervision of the person who set them.

Illegal fishing. It is unlawful to fish other than by the use of the single baited hook and line, artificial flies, artificial lures and spinners, except that smelts may be taken in accordance with rules promulgated in regard to the taking of smelts. Use of a gaff is unlawful.

Night fishing. Ice fishing at night (1/2 hour after sunset until 1/2 hour before sunrise) is prohibited except as provided by special rule.

Cusk lines. All lines set at night for cusk must be visited at least once every hour by the person who set them.

Sale of certain fish prohibited. It is unlawful to buy or sell, directly or indirectly, any landlocked salmon, trout, togue, black bass, white perch, or pickerel.

Advance baiting. It is unlawful to deposit any meat, bones, dead fish or other food material for the purpose of luring fish.

Use of helicopter to transport fishermen. It is unlawful to use a helicopter to transport a fisherman or game fish to or from any pond under 10 acres in size or any beaver flowage.

Failure to label fish. It is unlawful to keep black bass, salmon, togue or trout at any sporting camp, hotel or public lodging place without attaching to the fish the name and address of the person who caught them.

Removal of heads and tails - species identification. It is unlawful to alter the length of salmon, trout, togue and black bass unless the fish are being prepared for immediate cooking. It is unlawful to possess or transport fish dressed in such a manner that the species of fish cannot be identified, unless the fish are being prepared for immediate cooking (smoking does not constitute cooking).

Marking fish. It is unlawful to tag, fin clip or otherwise mark any fish to be released alive into inland waters without expressed written consent from the Commissioner.

Illegal use of antifreeze. Adding substances containing ethylene glycol or other antifreeze agents to waters of this State is a violation of Title 38, § 413.

Litter. It is unlawful to dispose of litter (which includes abandoned ice fishing shacks) anywhere in this State except in areas or receptacles designed for that purpose. Convicted violators face fines up to $200 for the first offense and up to $500 for subsequent offenses.

Notice of submerged vehicle. The owner of any motor vehicle which becomes submerged or partially submerged in the waters of the State, shall immediately notify the Commissioner of Inland Fisheries and Wildlife of the event and the location of the vehicle. The owner of the vehicle shall be legally liable to remove such vehicle and pay any damages resulting from the submersion or removal. The vehicle shall be removed within 30 days (same day if public water supply).
GENERAL LENGTH, BAG & POSSESSION LIMITS

DAILY BAG AND POSSESSION LIMITS FOR ICE FISHING

SALMON — TROUT* — TOGUE

5 fish in the aggregate, not to include more than the following from all waters open to ice fishing:

Salmon 2
Togue 2
Brown Trout 2
Rainbow Trout 2
Brook Trout (incl. splake) 5*

* The term "trout" when used alone includes brook trout, brown trout, rainbow trout, sunapee trout, blueback trout and splake.
The term "brook trout" also includes splake.

BAG LIMIT

Any legal fish, except baitfish and smelts, taken from inland waters shall be immediately released alive into the waters from which it was taken or shall be killed at once. Any fish killed becomes part of the daily bag limit.

NIGHT FISHING

Ice fishing at night (1/2 hour after sunset to 1/2 hour before sunrise) is prohibited unless the water is open by special rule under the county listing.

It is unlawful to introduce fish (including baitfish) or fish eggs into public or private waters without first obtaining a permit from the Department. THIS MEANS IT IS ILLEGAL TO RELEASE UNUSED LIVE FISH BAIT INTO ANY WATERS. DO NOT DUMP YOUR BAIT BUCKET!

The daily bag and possession limits and minimum length limits on this page apply to waters that are open to ice fishing which DO NOT have special regulations stating otherwise (as described on the cover page).
Statewide Fish Consumption Advisory for ALL Inland Waters Due to Mercury Contamination

Mercury is present in fish caught in all inland waters. Mercury is toxic to the nervous system. The unborn fetus and young children are especially sensitive to the toxic effects of mercury because they have actively developing nervous systems. For this reason, one consumption advisory is issued to protect the unborn fetus and young children. A less restrictive advisory is issued for all other individuals (the general population). For both groups, separate advisories are issued regarding warm water fish (e.g., bass, pickerel, perch, sunfish, crappie) versus cold water fish (e.g., trout, salmon, smelt, cusk). Warm water species tend to have higher levels of mercury in fish tissue than cold water species.

Pregnant women, nursing mothers, women who plan to become pregnant, and children less than 8 years of age, should NOT EAT warm water fish species caught in any of Maine’s inland surface waters; Consumption of cold water fish species should be limited to 1 meal per month.

All other individuals should limit consumption of warm water species caught in Maine’s inland waters to 2 to 3 meals per month. There are no limits for consumption of cold water species for the general population.

Specific Water Body Consumption Advisories

PCBs and Dioxins (potential carcinogenic, reproductive and developmental toxicants) have been found in fish caught in specific waters of the state in amounts warranting consumption advisories. The following advisories are directed to the general population. Pregnant women, nursing mothers, women who plan to become pregnant, and young children are cautioned to pay close attention to the mercury advisory.

Androscoggin River (Gilead to Merrymeeting Bay). Consumption of all fish species should be limited to no more than 6 - 12 meals per year.*

Penobscot River (Below Mattaseunk Dam, Mattawamkeag to Bangor). Consumption of all species should be limited to 12 to 24 meals per year.*

Sebasticook River (Hartland to confluence with Kennebec River in Winslow). Consumption of all species should be limited to 24 meals per year.

*People who tend to consume older (larger) fish are advised to use the lower limit when a range is given; older fish accumulate more PCBs and dioxins.

NOTE: The specific Water Body Advisories above are based on 1995 sampling data. These advisories may be revised as new sampling data become available. For more information about current advisories or any revisions, contact the Maine Bureau of Health, Environmental Toxicology Program at (207) 287-6455.

(Ice-in 1997 through March 31, 1998 and  
Ice-in 1998 through March 31, 1999)

Each biennial revision of this publication shall, upon filing with the Secretary of State, constitute an official consolidation of fishing rules as printed.

**SPECIAL REGULATIONS**

- **S-1**: Closed to the taking of smelts.
- **S-2**: No longer used in book - general law permits the taking of smelts through the ice by hook & line only.
- **S-3**: Night fishing for smelts permitted; 3 hooks per line permitted, hooks to be not less than 4 inches apart.
- **S-4**: Use or possession of live fish as bait is prohibited.
- **S-5**: Smelts may be taken at night.
- **S-6**: Open to night fishing for smelts, yellow perch, & chubs.
- **S-7**: Restricted to two lines per person.
- **S-8**: Border waters with New Hampshire: See page 31.
- **S-9**: Border waters with New Brunswick: See page 30.
- **S-10**: Daily bag limit on brook trout: 2 fish; minimum length limit: 12 inches, only 1 may exceed 14 inches.
- **S-11**: Two fish daily bag limit in the aggregate of salmon, trout, & togue.
- **S-12**: No size or bag limit on bass and pickerel.
- **S-13**: No size or bag limit on bass.
- **S-14**: Open to the taking of cusk in the nighttime with 5 lines.
- **S-15**: Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches, only 1 may exceed 12 inches.

- **S-20**: Daily limit on whitefish: 3 fish.
- **S-21**: Minimum length limit on trout: 12 inches.
- **S-22**: Daily limit on salmon: 1 fish.
- **S-23**: Daily limit on togue: 1 fish.
- **S-24**: Minimum length limit on brook trout: 10 inches.

**HOW TO USE THIS BOOK:** Once you have determined the location (town and county) of the body of water you will be fishing:

1) Find the appropriate county and read the instructions under the county heading to determine the meanings of the letter codes that follow the listed waters. **ONCE YOU HAVE READ THE INSTRUCTIONS**, look for the water you wish to fish.

2) If the water is listed with a county abbreviation, (e.g., AK for Aroostook, KC for Kennebec), look at the special county rules at the end of the listing for regulations that apply specifically to that body of water, then check the General Laws/Regulations (pages 4-6) for provisions that were not affected by the Special Regulation.

3) If the water is listed with only an A or B (season dates) then the General Laws & Regulations on pages 4-6 apply.

4) If the water is listed with an A or B and an S-code, refer to the table to the right to see what Special Regulations apply to that body of water, then check the General Laws/Regulations (pages 4-6) for provisions that were not affected by the Special Regulation.

**EXAMPLE:** MOOSE POND, Bridgton, B, S-17. This body of water is closed until January 1 and then open to ice fishing for all fish from January 1 - March 31 and General Law provisions (pages 4-6) apply except that the length limit on salmon is changed to 16 inches.

Most brooks, streams and rivers are CLOSED to ice fishing. Any that ARE open will be so listed under the appropriate county heading.

(BE SURE TO CHECK THE TEXT BEFORE EACH COUNTY LISTING).

Special regulations may apply to waters in ANY county. Whenever any water is followed by an S-code you must refer back to this table to determine which special regulations apply.
