U. M. C. BLANK CARTRIDGES

ARE DIFFERENT

From other blanks in two respects:
They sell better.
They shoot louder.

There is always a great demand for U. M. C. Blanks. The boys want the U kind. The S. & W. sizes because of the bevel crimp, special powder and wadding have a reputation.

HOTELS AND CAMPS

A BEAVER TALE.

What of "Black Edward"? Just one word's enough.
His heart's as tender as his tales are "tuff."

YOU see it's this way. A visit to the Rangeley Lake region without a little run up to Beaver pond is as rank a failure as half a pair of scissors, or the hole of a doughnut with the dough gone. Yes, "Going up to Ed's" is like smoking opium, lying, or "wasting"—it grows upon you, and the man who once sets his happy foot on the shores of old "Beaver" is as certain to return as—well as a punched "quarter."

Now as to the fishing, a word or two. Guides talk, notwithstanding, I have never yet found 5 and 10-pound trout plenty enough to be monotonous—never have, but the reasonable man with a fair idea of the proper dissemination of "feathers"—if he chance also to be a true sportsman, could ask nothing better.

Within easy reach of Ed's doors lie (even nature "lies" up there—I wonder why?) 5 or 6 lakes in which the fly fishing is simply "great," and I say this after having fished every dam spot in that region many times. "Take 'Ell Pond," for instance, around the "pond among the pads," or "Little fish" with a gentle ripple about sundown. Such incessant "rise," and such a run of fish marks that charming little pond as the acme of fly fishing possibilities.

What is there for the "Man behind the gun" up there? Simply this. In the open season he can easily get all the deer the law allows him, and will also find "Ruffed Grouse" (i. e. "Partridge") in abundance. With Moose, Bear and Caribou the case is that of those 5 and 10-pound trout, they do not actually "hang around the door yards."

How do you get to Beaver Pond?—thence. The total of 27 miles from Rangeley Village is now covered by backboard to Kennebec Lake, thence by steamer down that beautiful sheet of water, a very pleasant break in the journey, thence by backboard again, direct to Ed's Camps on Beaver Pond. The roads already good are constantly being bettered, and ladies and children can now with perfect comfort make a journey that once meant miles of rough and toilsome tramping.

At the Camps the accommodations leave nothing to be desired by those who realize that this is the "Backwoods" and not "Broadway." The cabins are clean, roomy, and thoroughly comfortable, beds and table excellent (and most of the food at least eatable) while the proprietor—i. e. the "Old Man"—is a happy combination of kindness and pleasing fiction.

The first step for those who would like to see for themselves how much actual truth there is in all of the above, is to address
ED GRANT & SON, Beaver Pond, Maine, and then "wait till something drops."

BACK FROM MOOSEHEAD.

F. L. Shaw Tells of the Game Prospects There.

F. L. Shaw, the well-known proprietor of the Shaw Business college, returned Sunday from his camp in the Moosehead lake region. He has some interesting things to say about the condition of the game as he found it there. "One thing that impresses one as he goes to this part of the state," said Mr. Shaw today to an Advertiser reporter, "is the condition of the water. It is the highest that I have ever known it to be in this region. It has rained almost continually there for the past three weeks. The result is that the country for miles around is flooded many feet deep. Why, the water is so deep that the roads are impassable except for canoes."

"When we were coming out, we found the gate in Pine stream down and the entire land around covered with water. The water in the roads was up to my hips, so that I do not know what I should have done if I had not had on hip rubber boots. The two gentlemen with me and I determined to open the gate. We did this with some difficulty and when the gate was up the water rushed out in a terrific stream."

"But it is the condition of the game that impresses one the most at this time. We had frequent opportunities to see deer though we could not kill any as it was close season. All the deer we saw were plump and in fine condition."

"At this season of the year the game is usually thin and can almost be seen through. We found them plentiful, sleek and in the best of condition. On

the morning that we came out one of the gentlemen with me took a trip through the fields and saw 23 deer scattered about. On Monday before that I had counted five moose.

"With the game in this state the prospects for a good season next year are of the best, and many sportsmen will undoubtedly go into the woods during the summer to be on hand when the season opens. One of my camps has already been let and many more men will soon be in."

Deer Are Hungry.

A farmer residing at North Augusta called at the state house, Saturday, and made a complaint at the office of the fish and game department to the effect that five deer were making sad havoc of his potato patch. At intervals they make their appearance and feed themselves to repletion and then disappear again. The farmer wants to know what the authorities are going to do about it. He doesn't want to lose his potato crop, but he feels that he will unless the depredations of the deer are put a stop to. In addition, he thinks the state should pay him damages, for the law prevents him from killing the animals and restrains him from protecting his property. When Commissioner Carleton came to the office Monday morning, he was told of the visit of the farmer, who, by the way, did not leave his name, and he wanted to go up to North Augusta and investigate the peculiar case.

Anna Held Fishes.

Reports come from the Belgrade lakes that the fishing up there is excellent. A few days ago Anna Held, the actress, caught a 5-pound bass and was greatly pleased at her success. She is now glad she postponed her departure another week.

RANGELEY LAKE HOUSE.

[Special correspondence to the MAINE WOODS.]

RANGELEY, June 18, 1902.

The past week has been a busy one here. The Beauseant Commandery, Knights Templar, kept everything in motion. Before leaving the dining hall at lunch, served just before the train left, they sent for Mr. John B. Marble and, paying a high tribute to the Rangeley Lake House, gave three cheers with a will. Cheers were given for Eminent Commander Walter F. Medding, also for the ladies and the "Indians."

The flag is now flying from Range-mere cottage as Mr. and Mrs. H. J. Burrows of East Orange, N. J., have arrived for the season.

Mrs. L. H. Bowden after a month's stay here returned to her home in Salem, Tuesday morning.

Mr. Abel Proctor and friend, Mr. A. F. Breed of Lynn, also returned home and the flag will not fly from Hillside camp again until September.

Mr. Philip F. Noble of St. Louis, Mo., son of Rev. Dr. Noble, arrived Tuesday. Rev. Dr. Noble preached in Boston last Sabbath.

Mrs. Edward S. Crocker of Fitchburg, Mass., and niece, Miss Mildred Sears of Cambridge, who were here four seasons ago, are here for the June days.

Dr. and Mrs. C. E. Prior of Malden, Mass., who came with the Knights Templar, decided to remain for a few days' fishing.

Last Thursday was "ladies' day" for landing salmon. Miss Ellen McLean of New York, after a good fight, landed one weighing 7½ pounds, the largest landed here this season by a lady; Mrs. A. R. Whitney of Morristown, N. J., one 3¾ pounds; Miss Ada M. Varney of Lynn, one 3¾ pounds. The day following Mrs. Whitney took one 6 pounds and Mrs. W. W. Coolidge of Salem, Mass., one 6½ pounds.

Mr. and Mrs. Van Slyke of New York City are here for a stay or some time.

Mr. and Mrs. N. P. Williams, Miss Ruth and brother Duvall of Evanston, Ill., reached here last Wednesday to spend the season in this region.

Dr. O. D. Eastman, Messrs. L. K. Lord and C. L. Cummings of Woodville, Ill., were here for several days and are now at Seven Ponds.

Dr. H. R. Humphries and M. A. Mosle of New York City went from here to Kennebago for a few days.

Mrs. M. K. Arnold of Philadelphia has been taking a trip through the Rangeleys intending to arrange for several families, who have always been at the Adirondacks, to come here this summer.

Mr. and Mrs. F. A. Keith of Boston were here for several days this week.

Mr. C. A. Taft of Whitinsville, Mass., intends to remain until he lands a salmon over 4 pounds, which is the largest he has landed this trip.

Mr. and Mrs. J. B. Lord of Malden and Mr. and Mrs. Geo. C. Morton of Boston returned home this morning after a stay of two weeks. Mr. Morton has been the lucky angler of the party as he brought to net several 4-pounders. Mrs. Morton's salmon lacked two ounces of

being a record one. Mrs. Lord caught several 2-pound salmon. Yesterday they passed the day at Quimby pond where they took a dozen weighing from ½ of a pound to 1½ pounds each.

Mr. and Mrs. F. M. Bradley of Washington, D. C., arrived last night for the summer.

Mr. and Mrs. A. Blanchard of Andover, Mass., Dr. and Mrs. Mitchell of Jacksonville, Fla., were among the arrivals yesterday.

Rangeley Lake House fish record: June 11, 4-pound salmon, John S. McLean, New York; Harry Quimby, guide; 8½-pound salmon, A. R. Whitney, Morristown, N. J.; E. Hinkley, guide; 3½-pound trout, S. O. Lunt, Boston; Joe Tibbetts, guide.

Andover Fish Notes.

[Special correspondence to the MAINE WOODS.]

ANDOVER, June 16, 1902.

Mrs. Geo. Andrews and Miss Arabelle Elliot went fishing Saturday, June 14th in Andover North Surplus brook. They caught about 30 trout of good size. Mr. and Mrs. Henry Porter went the same day and caught 65.

Mrs. Chas. Kimball reports 63 as one day's fishing. Mrs. Wirt Lovejoy caught 30. Mr. Herman Abbott caught over 100 in Hall brook. Rev. J. A. Waterworth and wife, with Miss A. M. Eliot, went to Cummings's Camp, Howard pond, June 17th, for one week of trout fishing.

MOOSELOOKMEGUNTIC HOUSE.

[Special correspondence to the MAINE WOODS.]

MOOSELOOKMEGUNTIC HOUSE,
HAINES LANDING, ME.

June 17, 1902.

The weather at Haines Landing continues cool and disagreeable. While it has had a telling effect upon the fishing there have been several good fish taken during the week. The hotel wharf seems to be a very lucky fishing spot as there have been some good fish taken from there almost daily.

Dr. Wm. Daintree of Lewiston, who spent some time at the Mooselookme-guntic House fishing, left Saturday after a much enjoyed and successful sojourn. His catch while here was fifty trout and salmon, the majority of which he put back.

Within a few days more the house will be well filled with people who will spend the summer. Many of them are regular guests.

Accommodations for at least fifty more guests have been arranged by the addition of large new camps which will be completed within the next few days. Two of them are 33x33 feet and are planned for six rooms instead of four. They will also have bath rooms in the rear. They will be the largest log camps in this region.

Mrs. J. R. Burns has gone to Boston for a few weeks.

Capt. J. Waldo Nash, the taxidermist of Norway and Haines Landing, is having additions made to his place which will give much needed room.

Mr. Page has engaged Mrs. Edward B. Sands for housekeeper this season. Mrs. Sands is a native of Massachusetts but has resided in Washington, D. C., for the past two years, being engaged as clerk in the census department. She is considered a very competent housekeeper.

Late arrivals are:

Wm. J. Brady, Nashua; Mr. and Mrs. W. H. Langshaw, Seymour Langshaw, Eunice Langshaw, New Bedford; A. L. Stevens, Boston; Walter Valancourt, Baltimore; Nina Waldsworth, Williamette, Ct.; J. W. Jacobs, New York; D. W. Rice, Dedham; E. P. Quimby, Charlestown; H. E. Smith, Rumford Falls; F. W. Stony, C. T. Ceeler, Boston.

BALD MOUNTAIN CAMPS.

[Special correspondence to MAINE WOODS.]

BALD MOUNTAIN CAMPS,
HAINES LANDING, June 17, 1902.

The few good days the past week were thoroughly enjoyed by the guests here and it is the unanimous opinion of all that as soon as the weather gets settled there will be some fine fishing on this lake.

Mr. A. S. Hinds of Portland returned on Saturday. He had one good day and brought in six trout and two salmon, weighing from 1½ to 3½ pounds.

Mr. and Mrs. F. R. Tibbetts of Portland spent several days with us. Mr. Tibbetts was in this section on a business trip, but enjoyed it so much that he intends to spend his vacation up here.

Among our guests are the following. C. W. Whitney, E. W. Kimball, Troy, N. Y.; W. J. Stewart, Boston; Miss Poe, New York; Mr. Sam'l Boothby and family are at their camp.

NEW ADVERTISEMENTS.

Mt. Kineo House convenient for fly fishing. Fishing rods E. T. Hoar, Rangeley. Chas. E. Libby of Portland advertises furnished camps to let.

PEOPLE AT BIRCHES.

[Special correspondence to the Maine Woods]

BIRCHES, STUDENT'S ISLAND, }
June 17, 1902.

Most welcome are the days of sunshine to the guests here. The hearthstone is now kept warm at Camp Buena Vista, Dr. and Mrs. H. M. Wells of New York arriving last Saturday to remain all the season. The Doctor is always ready to relieve the suffering and from the camps all over the lakes he often receives a call.

The social life has begun and picnics, excursions on the lake, card parties, 4 o'clock teas, etc., are now in order.

Mr. H. C. Kennedy launched his yacht, Cricket, on Monday. Mr. Ralph B. Cooley of Brooklyn, N. Y., has ordered a naphtha launch, a counterpart of the Cricket, which is expected this week.

Mr. J. H. Finn of Jewett City, Conn., with Bob Martin, guide, the first morning he fished caught several good fish, the largest a 3-pound trout.

John Philbrook is guiding two gentlemen from Montville, Conn., Messrs. Chas. W. Comstock and T. E. Robertson. They have caught many small fish, one 3-pound trout and a 3-pound salmon.

Mr. and Mrs. J. Buckley returned to New York, Monday, much pleased with their trip and the fishing. Mrs. Buckley caught a 4½-pound salmon and a 2-pound trout. One afternoon they brought in six fish that weighed 16½ pounds. Pearl Flint, who was their guide, has gone to Parmachenee club where, until the close of the season, he will guide Judge Frederick Ward and wife, well-known Brooklyn, N. Y., people.

One of the happy parties here is composed of Mr. and Mrs. Henry McFarland of Concord, N. H., and Mr. and Mrs. J. W. D. Carter of Portland, who occupy Camp Springfield.

Mr. C. W. Whitney of Troy, N. H., has for many seasons visited this region. He is this year accompanied by his grandson, E. W. Kimball, of Troy and friend, C. A. Hubbard, treasurer of United States Fruit company of Boston. Russ Spinney is Mr. Hubbard's guide. Of the 27 fish taken, he had killed but seven, the largest a 3½-pound trout. Mr. Whitney had caught twelve and saved five, among them a 3½-pound and 3-pound salmon, Ned had caught ten and killed but four.

Dr. F. A. Morrell of Putnam, Conn., spent several days this week calling on friends at his old home in Strong, where he took a box of nice salmon weighing from 2 to 3 pounds each. Mrs. Morrell has not taken any over 2 pounds, but is still fishing for a big one. Frank Stewart is their guide.

Their friends Mr. and Mrs. F. S. Wicks of Syracuse, N. Y., with Chas. Turner, guide, are making a good record. Mrs. Wicks has caught twenty-five fish, the largest a 3-pound salmon. Her husband has not been as successful although he caught a 3-pound trout.

Mr. C. W. Gardner of Boston, who spent two or three days with his family this week, one day chartered steamer Wm. P. Frye and gave a shore dinner to a company of friends.

Many of the camps will be taken by the last of the week.

The following are among the late arrivals:

J. A. Green, A. F. Gilmore, New York; A. L. Stevens, Boston; B. E. Heald and wife, Lawrence, Mr. and Mrs. Geo. E. Morton, Boston; Mr. and Mrs. J. Buckley, New York; C. W. Whitney, E. W. Kimball, Troy, N. H.; Chas. A. Hubbard, Newton Centre; L. B. Holbert, Portland; F. E. White, Lewiston; F. P. Tibbetts and wife, Portland; Mr. and Mrs. Geo.

L. Milet, Providence; Chas. W. Comstock, F. E. Roberts, Montville, Conn.; Mr. and Mrs. W. Gardner, Robert Gardner, Lawrence Gardner, Boston; Mr. and Mrs. Henry McFarland, Concord, N. H.; Mr. and Mrs. J. W. D. Carter, Portland; J. H. Finn, Jewett City, Conn.; Dr. and Mrs. H. M. Wells, New York.

THE BEMIS WEATHER.

[Special Correspondence to the MAINE WOODS.]

BEMIS, June 17, 1902.

The June weather of 1902 will hardly bear out the praises bestowed by poets, for it has been anything rather than an ideal June. The record kept by Station Agent Newton at Bemis shows that the first fifteen days of the month include seven clear days, three showery, two rainy and three

KING AND BARTLETT.

KENNEBAGO LAKE HOUSE.

[Special correspondence to the Maine Woods.]
SPENCER, June 17, 1902.

King and Bartlett camps are filling up rapidly. The last party to arrive was that of Dr. Criado of New York. The Doctor is accompanied by his wife, son and sister, Mrs. Richards, Mr. Gonzales and Mrs. Richards's maid. A wing has been added to the cabin occupied by the Doctor and it is now as cozy a little home as man can desire. Mrs. Richards occupies the new cabin built by Geo. Day last fall.

Karl A. Dolge, also of New York, spent two days at the Pierce camps on Big Spencer lake. He returned with nine large trout, the result of several hours' fishing one morning. The largest weighed 2 pounds, the others running a shade under. This is Mr. Dolge's first season in Maine and he is delighted with the camps, the fishing and the scenery. He, Mr. Seymour and Mr. Walter Kerr, also of New York, are the most successful anglers in the camps at present, each having caught some fine strings of trout and salmon.

Harry Pierce made a trip to his camps on the Kibby last week and two of the employees from here went over afterwards to put those camps into good condition for the accommodation of any of his guests who may wish to try conclusions with the trout of that noted stream.

The trout there, while not so large as the trout in the Spencer river, are numerous and gamy, and lovers of stream fishing will find the Kibby a good thing. The camps there are pleasantly located on a little ridge overlooking Spectacle pond from the front and Kibby stream from the rear.

The Spencer River camps, also owned by Mr. Pierce, are only three miles from King and Bartlett Camps and a good catch can be made there any fine day. Little King and Bartlett lake, one mile distant, was visited one day last week by Mr. Seymour, who reported a good catch.

BLACK BROOK CAMPS.

[Special correspondence to the Maine Woods.]

DEAD RIVER, June 17, 1902.

Mr. M. D. Brown of Lowell, who is here with Mr. E. C. Larrabee of Kingfield, has had some good fishing both in number and size. Mr. Larrabee took 114 home with him, some of which weighed 2 and 2½ pounds each. Mr. Brown sent a nice box home to his wife. Mr. Brown will stay several weeks longer.

Dr. C. F. Rowell and Leon Bump and a friend of Wilton were in here a few days last week, getting 150 trout in one day on a fly. They weighed 38 pounds. Herman Harlow, guide.

Mr. J. C. Viles of Skowhegan was also here one day last week.

Fishing is at its best. Good catches of large fish can be made every day.

Mrs. J. G. Harlow caught seven trout in less than one hour that weighed 8 pounds one day last week. One evening she got ten, all of good size.

Deer are seen daily in large numbers. Occasionally a moose comes in sight. They are beginning to come to the water to feed.

A bear came to one of the camps here one night last week. He must have had a good sharp appetite as he ate up nearly the whole of a barrel of pickled tripe.

J. G. HARLOW.

Fishing at Stratton.

[Special correspondence to the Maine Woods.]

STRATTON, June 19, 1902.

Mr. Frank Mann and friend, Mr. Bisee of Boston and Mr. Harry Hunter of Wilton are at L. F. Hinds's for a few days' fishing. They fished Stratton brook, Saturday and had fine luck. They, with Harry Hinds and W. E. Dill caught 170 trout. Harry Hunter caught one that weighed 1½ pounds.

Brook Fishing Around Strong.

[Special correspondence to the Maine Woods.]

STRONG, June 17, 1902.

A good number from Strong have been out to try the brook fishing the past week. Messrs. R. S. Johnson and M. Luce went near Mount Blue and secured about 150 during the day.

Mr. P. W. Mason took a day off and fished the valley brook. Result, 80 trout.

HEALD POND CAMPS.

[Special correspondence to the Maine Woods.]

JACKMAN, June 17, 1902.

Mr. Charles Raulet and Dr. G. E. Frances of Worcester returned home after a very successful stay at Heald Pond where they found good fly fishing. Several good salmon were taken during their stay.

Mr. C. S. Cook of Boston purchased the camps of Fred Henderson last fall and has made many improvements during the past winter. It is Mr. Cook's intention to have the three miles of buckboard road repaired so as to make the ride from the carriage road a comfortable one.

GUESTS AT BEAVER POND.

[Special correspondence to the Maine Woods.]

BEAVER POND, June 17, 1902.

The Mason party, consisting of Mr. John N. Mason, Mr. W. T. Mason and Mr. A. B. Chapman, all of Brooklyn, passed through Beaver Pond, June 10th, en route for Big Island where they will make their usual stay at Mr. Mason's camp. They were accompanied by Guides Dan Heywood, Geo. Love and Eugene Soule.

Mr. J. W. Mason is one of the old Megantic club members and is still hale and hearty, and always has pleasant anticipations of his annual trip to Maine. He owns a beautiful camp on one of the islands in Big Island pond.

Mr. J. Stewart of Boston arrived at Beaver Pond, June 10.

June 11th, a party consisting of Mr. L. O. Crane, Boston, guided by Ed Jones; Mr. L. D. Seaver, E. A. Phippin, Dr. Geo. H. Payne, Cambridge; Chas. G. Wells, Boston, passed the night at Beaver Pond.

Sunday the guests at Beaver Pond walked to Big Island and took their lunch. It was an ideal day and all enjoyed the trip very much.

The new dining room at the Megantic club is an extremely pretty building. It is built of logs partially shaved and standing upright. It has a roomy veranda, which furnishes a beautiful view of the Big Island pond.

Mrs. Edward Grant and little daughter Faye arrived at Beaver Pond, Monday. They will make their annual visit.

The survey party are camping near the foot of Kennebec lake. The Ballard party left Tuesday morning for Lexington, after a ten days' visit at Beaver Pond.

SQUARE LAKE NOTES.

[Special correspondence to the Maine Woods.]

HOULTON, June 16, 1902.

We have just had the heaviest rain for the season, small streams are up to high water mark.

Among the arrivals at the Lake the past few days are: D. W. Deering, E. E. Beatty, Boston; L. C. Ludwig and wife, E. L. Cleveland and wife, Houlton; Fred Stevens, W. H. Thompson, Portland; T. J. Fox, Houlton.

Saturday June 7, four fishermen landed 60½ pounds of trout and salmon. The largest square tail was taken by Mr. Stevens of Portland, 7½ pounds. The largest landlocked salmon by D. W. Deering, Boston, 9½ pounds.

T. J. Fox, Houlton, caught a white fish on a troll that weighed 8½ pounds. They have caught white fish in these waters that weighed 8 pounds.

Mosquitoes have not put in an appearance yet. They never bother us much in this section.

CLEAR WATER CAMPS.

[Special correspondence to the Maine Woods.]

ALLEN'S MILLS, June 18, 1902.

Mrs. Geo. P. Ordway of Boston caught a 4-pound square tail trout from the piazza of the main camp. She has also caught a 3-pounder and secured smaller ones.

A deer swam across the pond this week and came up between the boat house and the main camp. This is the second one that has been seen here this year.

STRINGS OF TROUT.

Deer and Moose Chased by F. & M. Engines.

Record String of Fish Taken From Tufts Pond.

[Special correspondence to the Maine Woods.]

KINGFIELD, June 17, 1902.

The train that pulled out of Kingfield station Sunday morning had a little race with a moose. The animal was found on the track just out of the village and was chased for some distance down the track. When the animal decided to leave the rails, he ran plump into a barbed wire fence where he became badly tangled up, but freed himself after a while.

This same moose was seen out by Elmer Tufts's that forenoon, where he remained for some time. Two others were seen in the same neighborhood that day.

Leon Thomas secured 40 good trout at Indian stream last Thursday.

Chas. French and Reuben Huse took about thirty apiece at Carrabasset a few days ago.

Bert Dolbier and Perley Morrill took about the best lot of fish from Tufts pond that they have taken there. One salmon and two trout weighed over 10 pounds. Several others weighed from 4 of a pound to 1 pound each. The largest salmon weighed about 4 pounds.

A. R. Thurston took two trout and salmon from the pond in twenty minutes, Saturday night. The largest weighed about 1 pound.

W. S. Dolbier has a way of using salt, so he says, to catch fish with. He doesn't say much about the "salt," but simply says that he uses salt. He took some salt the other day and went over to Hid pond. He got near enough to thirty of the best of the trout to get the salt onto their tails, so he put them into his basket and went home.

Ralph Butts took a string of thirty nice trout at Stanley brook recently.

C. E. Barker and Carroll Barker had the luck to take sixty trout on Alder stream a few days ago.

Dan Cushman, engineer on the Franklin & Megantic, chased a deer with his engine for about 60 rods near Carrabas sett last week.

Fish and Game Notes.

G. W. Turner, L. M. Goodrich, G. N. Leavitt and C. S. Ross of Goodrich start on a week's fishing trip to Square lake on Thursday.

Cliff Solomon of Young's Corner caught a brook trout Friday that tipped the scales at just 1 pound. It was a beauty and Cliff is a proud boy.

While fishing in Square lake one day recently, Eben Weltz, the popular meat cutter at Shaw & Milton's in Caribou, succeeded in catching a salmon which weighed 23 pounds. This is the largest landlocked salmon that has ever been taken in Square lake as far as is known.

Moose in Salem.

George Bangs of Phillips saw a cow moose near Salem village on the John Lowell farm Wednesday morning. The moose went through the village, followed by quite a crowd, then came back and jumping off the bridge swam down the stream and finally disappeared in the woods.

Stoddard House Arrivals.

[Special Correspondence to the Maine Woods.]

A Victim of Scotch Logic.

A highland hotel keeper was one day having a squabble with an Englishman in the lobby of the hotel about his bill. The stranger said it was a gross imposition—he could live cheaper in the best hotel in London.

The highland landlord replied, "Oh, nae doot, sir, nae doot; but dae ye no' ken the reason?"

"Not a bit of it," replied the stranger hastily.

"Weel, then," replied the host, "as ye seem to be a sensible bit callant, I'll tell ye. There's 365 days in the Lunnon hotel keeper's calendar, but we have only three months here. Dae ye understand me noo, fren?" We maun mak' hay in the hie-lan when the sun shines, for it's unco seldom she dis't."—Scottish American.

The Applan Way.

The famous Applan way, mentioned by almost every Roman writer, connected the Eternal City with all parts of south Italy. For many miles from Rome the space on each side was filled with sepulchers, many of them of persons distinguished in history. To have a sepulcher on the Applan way was equivalent to being buried in Greenwood, in New York, or Pere la Chaise, in Paris.

—"Joshua Simpkins" will be the attraction at Lambert hall, Phillips, Saturday evening, June 28. It is said to be a well written pastoral play, with an interesting plot, the story being a happy blending of sunshine and shadow. The situations are said to be strikingly realistic with an overflow of fun and amusement. There are seven comedy parts in addition to that of Uncle Josh, which character is really a whole show in itself. A sensational novelty is introduced in the third act in the shape of a realistic sawmill scene, in which a monster circular saw is used, and which is said to actually saw through real timber. A fine orchestra is carried by the company, also a fine band of music, which will parade at noon in burlesque costumes.

DON'T DELAY.

It is "Putting Off" Till Some Other Day that Causes so Many Sudden Deaths.

If its for the kidneys, liver, bladder or blood, rheumatism, dyspepsia, chronic constipation, or the weaknesses peculiar to women, the most efficient medicine known to the medical profession is Dr. David Kennedy's Favorite Remedy, and a very simple way to find out if you need it, is to put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a milky, cloudy appearance, if it is ropy or stringy, pale or discolored, you do not need a physician to tell you that your kidneys and bladder are badly affected.

The Rev. Theodore Hunter, pastor of the Presbyterian Church, Greensburg, Ky., writes us the following:

"It gives me much pleasure to state that I have received great benefit from the use of Dr. David Kennedy's Favorite Remedy. Some time ago I had a severe attack of kidney trouble, but a few bottles of 'Favorite Remedy' have entirely removed the malady."

"Favorite Remedy" speedily cures such dangerous symptoms as pain in the back, frequent desire to urinate, especially at night, burning scalding pain in passing water, the staining of linen by your urine.

It is for sale by all druggists in the **New 50 Cent Size** and the regular \$1.00 size bottles—less than a cent a dose. *Sample bottle—enough for trial, free by mail.*

Ball Game.

An interesting game of ball was played Saturday afternoon on the park between the Phillips team and the Hoyt Cadets of Farmington. The score was 7 to 4 in favor of the latter team. The game was won in the eighth inning when the cadets ran in four scores, making a lead which the home boys could not overcome. Up to that time the score was a tie. At the end of the first inning the score stood 2 to 1 against Phillips, but things were evened up in the third, then each scored in the fourth.

Double plays were made by Wheeler and McDonald, and by Jones and McDonald. Two baggers were driven out by Wheeler and Bradbury. Umpire, Nickless; scorer, Merrill.

The teams were made up of the following men:

Cadets: Brown, c.; Jones, p.; Fredericks, s. s.; McDonald, 1b.; Wheeler, 2b.; Marr, 3b.; Lowell, 1. f.; Newton, c. f.; Bradbury, r. f.

Phillips: Hammous, s. s.; Noble, 2b.; Wing, c. f.; Parker, p.; Carr, 1b.; Carlton, 3. b.; Hardy, c.; True, r. f.; Hoar, 1. f.

Dr. Hatch Is Dead.

A WOMAN'S LOVE.

A sentinel angel sitting high in glory
Heard this shrill wail ring out from purgatory
"Have mercy, mighty angel; hear my story!"

"I loved, and, blind with passionate love, I fell,
Love brought me down to death and death to hell,
For God is just, and death for sin is well."

"I do not rage against his high decree
Nor for myself do ask that grace shall be,
But for my love on earth who mourns for me."

"Great Spirit, let me see my love again
And comfort him one hour, and I were fain
To pay a thousand years of fire and pain."

Then said the pitying angel: "Nay! Repent
That wilt thou! Look! The dial of thy bent
Down to the last hour of thy punishment!"

But still she wailed: "I pray thee, let me go!
I cannot rise to peace and leave him so.
Oh, let me soothe him in his bitter woe!"

The brazen gates ground suddenly ajar,
And upward, joyous, like a rising star,
She rose and vanished in the ether far.

But soon adown the dying sunset sailing,
And like a wounded bird her pinions trailing,
She fluttered back, with broken hearted wailing.

She sobbed: "I found him by the summer sea
Reclined, his head upon a maiden's knee,
She curled his hair and kissed him. 'Woe is me!'"

She wept: "Now let my punishment begin!
I have been fond and foolish. Let me in
To expiate my sorrow and my sin."

The angel answered: "Nay, sad soul; go higher!
To be deceived in your true heart's desire
Was bitterer than a thousand years of fire!"

BEAUSEANT COMMANDERY.

Sir Knights Make Pilgrimage to
Rangeley Lakes.

Entertained in Farmington by
Pilgrim Commandery.

Rangeley Salmon Yield to Per-
suasion of Sir Knights.

[Special correspondence to the MAINE WOODS.]

RANGELEY, June 18, 1902.

That the pilgrimage of Beauseant commandery of Malden, Mass., to Rangeley was a grand success in every way there can be no question whatever.

They took in the lakes, the fishing, our beautiful scenery and enjoyed all of the pleasures possible, in the short time at their disposal.

They were met at the Farmington station by Pilgrim commandery, accompanied by Wheeler's band of Farmington, and escorted from the depot up Broadway to High, South, Main streets and then to the asylum of the commandery.

The commandery ladies received the ladies of Beauseant and witnessed the parade, accompanying them to the asylum, from whence they all adjourned to Drummond hall where lunch was served and a concert was furnished by the Lynn Cadet band which accompanied Beauseant commandery.

Eminent Commander Harry B. Austin gave an address of welcome, which was responded to by Eminent Commander Medding in behalf of Beauseant commandery. The lunch was served by the young ladies of Farmington. The following were the members of the reception committee:

Em. Sirs Harry B. Austin, George C. Purington, Enoch O. Greenleaf, Newell P. Noble, George M. Currier, Mrs. Edward C. Merrill, Emery V. Varney, J. Clinton Metcalf, Benjamin M. Hardy, Fred G. Paine, William M. Pratt.

Ladies' reception committee: Mmes. Enoch O. Greenleaf, George M. Currier, George C. Purington, Emery V. Varney, George B. Cragin, Fred G. Paine, John C. Houghton, John M. S. Hunter, Edward C. Merrill, Frank W. Butler, George McL. Presson, William A. D. Cragin, Henry W. True, Newell P. Noble, J. Perry Whorff, Benjamin M. Hardy, Charles F. Smith.

Officers of Pilgrim commandery: H. B. Austin, commander; E. C. Merrill, generalissimo; E. V. Varney, C. G.; J. M. S. Hunter, S. W.; Daniel B. Belcher, J. W.; Geo. C. Purington, Pre.; Benj. M. Hardy, Treas.; Geo. B. Cragin, Rec.; J. W. Brackett, St. B.; Geo. McL. Presson as Sw. B.; Burton A. Davenport, warden; Francis O. Lyford, 1st G.; J. H. Byron, 2nd G.; W. G. Holley, 3rd G.; Jas. E. McKeown, sentinel.

The past commanders in line were Charles E. Marr, Seth E. Beedy, L. G. Brown, Arthur T. Moor, A. D. Parsons. Members in line were Abner T. Hinkley, W. A. D. Cragin, S. G. Haley, Joel Wilbur, J. H. Bell, C. W. Bell, Wm. B. McKeen, P. W. Mason, J. W. Hines, R. Hanley Smith, John Hopkins, Wilfred McLeary, F. A. McLeary, John J. Linscott, Isaiah R. Clark, Wm. M. Pratt, J. C. Metcalf, F. W. Butler, F. G. Paine, S. O. Tarbox, Jr., S. Clifford Belcher, D. S. Bean.

Early in the afternoon the crowd numbering 120 including the band, started for Rangeley via the Sandy River and Phillips & Rangeley railroads in regular passenger coaches and with the addition of three open cars ahead of the engine.

The ride in the observation cars was a novel one and much enjoyed. To most of the company it was their first trip and the scenery of the valley of the Sandy river, around the hills and through the forests was much admired.

A most beautiful picture the Sir Knights, in their handsome uniforms, presented, as they halted in front of the hotel. It had been a perfect June day, the setting sun cast its last rays over the lawn, and the piazza was lined with guests to welcome Beauseant Commandery, who wisely chose as the Mecca of their pilgrimage, for June 13-17, 1902, the Rangeley Lake House.

So perfectly had the arrangements been made that in a remarkably short time rooms had been assigned, and the Sir Knights and ladies soon felt at home.

Following are the names of the Sir Knights and their ladies of Beauseant commandery, who formed the pilgrimage.

Walter F. Medding and wife, Thos. P. Blake and wife, Arthur W. Houghton and wife, J. Hobbs and wife, Chas. P. Stevens and wife, Wm. V. Lee, Mrs. Geo. B. Hobbs, Miss Hobbs, Walter Hobbs, Mrs. Davis, Frederick J. Ross, Thos. W. Houghton, Wm. H. Leach and wife, Frank C. Wood and wife, Dr. A. L. Tolman and wife, Mrs. Chas. E. The large dining room was more attractive than ever, with the banners of the commandery arranged in a conspicuous place. The tables were decorated with bright carnation pinks and ferns, and all did justice to the bountiful supper served in such a fine manner.

Quickly passed the evening hours, the Sir Knights and ladies taking a promenade through the large parlors, on the piazzas and through the hotel, greeting old friends and meeting new ones. The band gave a concert and there was dancing in the casino.

Arrangements had been made for religious services at the village church and led by the band, the commandery in uniform, headed by Eminent Commander Walter F. Medding, marched to the church, which was packed. Many could not be seated and remained standing out-of-doors.

The band played a voluntary and a quartet consisting of Sir Knight E. D. Treadwell, Mrs. H. P. Ballard, Mrs. E. Locke and Sir Knight, A. F. Pease, sang beautifully. Rev. Mr. Roberts, pastor of the church, gave an interesting discourse, taking for his subject "The Brotherhood of Love," text, John xiii, 15.

In the evening all gathered in the hotel parlors for a service of song. The band gave a concert of sacred music and Rev. Mr. Roberts gave a short address.

Monday, some went on the lake fishing. There was an excursion around the lake by steamer both morning and afternoon. Teams were ordered and parties drove in all directions. The band gave concerts. Here and there happy groups of Sir Knights and ladies were always found on the piazza, in the office and parlors. Card tables were arranged in different places. Some went over to the casino for pool, others were on the golf links. Everywhere was the company scattered and everyone was most enthusiastic over the charms of this, to them, new country.

The two large salmon caught by Sir Knight Ballard and Sir Knight Dr. Eddy weighing 6½ pounds and 6½ pounds, proved that there are anglers as well as brave knights in this commandery.

In the evening there was dancing in the casino, with music by the band. Much to the delight and surprise of the company, Sir Knight Treadwell, having sacrificed a handsome moustache for the occasion, dressed to impersonate a ballet dancer, dressed in an elaborate costume, black stockings and shoes, white skirts, pink tarlatan dress, long blonde hair, wearing a pink hat, appeared and gave an exhibition of dancing. Then Sir Knight Purington, arrayed in a pink suit with broad rimmed straw hat, carrying a large black sunshade trimmed with pink, joined the "lady" and gave exhibition of the southern cack walking. Again and again were they called back and loudly applauded, but not until the tin horn band of forty or more pieces, led by Sir Knight Alexander Grant, marched through the casino did the dancing cease.

Fireworks on the lawn were constantly set up during the evening.

Tuesday morning, bright and early all were in the dining hall. The band gave an hour's concert on the piazza, playing most beautifully the popular national music to commemorate Bunker Hill day.

There was none too much time for handshaking and the regretted goodbye after a 11 o'clock lunch was served and all marched to the station to take the special train in waiting. The trip home was via rail, lunch being sent from Boston to meet them at Portland.

Too much praise can not be given the ex-commander, Walter F. Medding and the following of the committee of arrangements: Sir Knight Thos. P. Blake, generalissimo; Sir Knight Fred L. Putnam, captain general; Sir Knight Arthur W. Hutchins, recorder, for the perfect and delightful way in which every plan was made and the details carried out. All express themselves as more than pleased and charmed with the Rangeley Lake House and this part of Maine.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

The reported discovery of oil at Addison, Washington county, is said to be really a fact. It is said that for some time there have been indications of oil in the vicinity. An oil expert and well known geologist has recently been there and has given his opinion that the fluid is there in paying quantities. The general manager of the Pleasant River Granite company, which is doing a good business there, has taken hold of the matter and it is likely will push it. Oil is flowing freely and the residents of the town are con dent a gusher will soon be in operation.

Doan's
Kidney Pills,
A Modern Medicine for
Every Kidney Ill.

Mr. T. H. Hughes, of Saxtons River, Vt., employed by B. F. Locke & Co., says: "My kidneys did not act properly for years, and I gradually grew on me. For two or three years they troubled me very much with a dull, aching pain across my back and in my loins. If I stood on my feet for any length of time, I felt the pain across my back more and my legs became numb. When the pain in my back got so bad that I could stand it no longer, I put on plasters, and I used a great many of them, but they only afforded me temporary relief. I also used medicines of all kinds, but they did not reach the cause. I saw Doan's Kidney Pills advertised, and so well recommended, that I was induced to give them a trial, and I got them at Andrew's drug store. They gave me immediate relief. After the treatment I seldom felt any symptoms of my former troubles, but when I did I took a few of Doan's Kidney Pills and it soon left me. My rheumatic pains were not so severe, and I did not have that tired, languid feeling. I had more energy in doing my work and give all the credit to Doan's Kidney Pills. They did me a great deal of good, and I feel justified in recommending them to others as a good and reliable medicine."

by the temperature of the atmosphere.

We have a good supply of hot weather goods, and sell to every customer, not because we are good salesmen, but the reason is that the merchandise is good, and the prices right.

Yesterday we supplied some with shirt waists, storm skirts, crash skirts, wash skirts, suits; while others bought gingham, underwear, hosiery, corsets, wrappers, etc.

Today and tomorrow we will be glad to accommodate as many as time will permit.

FRANKLIN county was right glad to extend the hand of welcome to Beauséant Commandery, Knights Templar of Malden. While the sun did not shine on them the entire time of their stay the welcome was hearty enough to make up for that. A thoroughly enjoyable time from start to finish in this verdict. No more delightful spot than this could have been chosen by them, and there could be no people more delighted to see them.

THE frequent reports of moose seen in the different parts of Franklin county would indicate that these noble animals are much on the increase here. The moose are frequently seen on the outskirts of our villages and show but little fear.

WE are pleased to note the explanations made in many instances by our correspondents when telling of many fish taken, that all were returned to the water except those needed for the table. Doubtless this is the case in a large number of instances when this circumstance is not mentioned. It shows the true sportsman's spirit not to kill but to let live.

AMONG THE CHURCHES.

A Plea For Clean, Spiritual Lives Every Day.

Belief Is a Condition of Being Established.

Sunday morning at the Methodist church Rev. J. A. Ford spoke from the thought contained in I Cor. v, 6, 7: "Know ye not that a little leaven leaveneth the whole lump. Purge out therefore the old leaven that ye may be a new lump as ye are unleavened. For even Christ our passover is sacrificed for us."

The church at Corinth was in a dissipated condition and Paul brings up before it the figure of the passover as given to Moses in Egypt. Impurity enters a church or any society

AS A DISEASE

enters the physical body. Disease is brought on by the violation of the natural laws of health. So this impurity is nourished and kept alive by the disobedience to God's spiritual laws. Ignorance of the law changes not the penalty of the transgression. The soul becomes less susceptible to God's influence as it drifts down the current of sin. Our souls, then, as well as our bodies, need cleansing. As the disease of the body is eradicated by the aid of medicine, so our souls must be purged and cleansed by the sunshine of

THE LOVE OF GOD

and his holy spirit.

We need to take a retrospective glance at our past to act as a tonic to our souls. It doesn't make us feel well to remember our past sins but it is strengthening to our souls for it brings to our minds our conditions and what we would have been had God withheld his love and grace from us. The old time preaching was good to cleanse men's souls. Its teaching that wrong doing brings punishment and virtue brought reward was hard but effective for the transgressor.

THE MODERN PREACHING

polishes up the exterior and cultivates the worldly mind, but the old time preaching revealed to men what they were and the relation they sustained toward God.

Then let us with an understanding of our condition purge out the old sins from our hearts that God may bring us off more than conquerors in this battle of life.

At the Union church Rev. J. B. Ranger preached from words found in Isa. vii, 9, "If ye will not believe, surely ye shall not be established."

These words were spoken by the prophet Isaiah to Ahaz, king of Judah. The story is like this: The king of Israel and the king of Syria had formed an alliance and purposed to send their armies against Judah. The king and people of Judah felt great fear for they were but

A SMALL NATION

to contend with these two powerful allies. Had these tidings come to David or to Solomon in the days when he was asking of the Lord wisdom and purity, he would have turned unto the Lord for aid, and have asked him to overcome his enemies. Ahaz called upon Tiglath-pileser, king of Assyria, to come to his relief. Assyria was a nation of great wickedness, but at that time of great power. Isaiah was sent to say to Ahaz

"FEAR NOT"

and to remind him of the strength of the Lord before whom wickedness could not stand, yet if he believed not neither should he be established. Ahaz still sought the aid of Assyria and though at that time help was given, in after years Judah was overpowered and destroyed by this same Assyria.

This conduct of Ahaz is very like that often seen in our own time and land. There is an hour of need and we look for Assyrian aid. There is a readiness to make alliance with wrong and corruption. To further political ends, impurity is overlooked, companions or allies are made of the powers that work for intemperance. Just as surely as these things continue destruction will result. Though the purpose of the hour be realized, that is not the end. If we accept Assyrian aid, we shall become Assyrian captives.

God's decisions are always right and for the right. There are no mistakes. God's judgments do not fail. "If ye will not believe surely ye shall not be established."

WHAT IS IT TO BELIEVE?

Is it enough to assent to the statement that God loves righteousness and abhors evil? Is it enough for our salvation to accept the fact that Jesus Christ came to save mankind from sin, that he lived and died upon the earth nineteen hundred years ago? We must so believe that the belief becomes a part of our life. If we do not so believe in purity, in honesty and in righteousness that they become a part of our business, our politics and our social life the belief accomplishes for us nothing.

Let me beseech of you to believe in God in that manner that his standards of right become your standards, that you make no appeal for aid to any power of evil. So shall ye be established.

WORK OF I. S. S.

International Sunshine Society Brings Pleasure to Lives.

Reports of President of the Franklin County Branch.

As there are many inquiries asking what the International Sunshine society is, its objects and benefits, I thought, through the kindness and sunshine of the MAINE WOODS, a little information might be acceptable to many of its readers.

We joyfully welcome the following new members into our branch and hope we shall prove mutually helpful: Mrs. Silas Wing, Mrs. Rosie B. Harnden, Mrs. Bion Wing and daughter, Miss Florence, Mrs. Levi B. Field, Mrs. Charlie B. Foster, Mr. Norman Shepard, Mrs. Eliza Harnden, Mrs. Edith Hinkley, Mrs. Pearl Davenport, Miss Everdene Wing, Miss Pearl E. Dunham, Miss Nettie Agnes Sargent, Reeds Mill; Mrs. Augusta Hood, Phillips; Mrs. Viola Lufkin, A. Edith Hinkley, Mabel Hinkley, Pearl E. Douglass, Madrid. Mrs. Hood paid her initiation fee by sending 50 cents to the president, Mrs. Silas Wing. Mrs. Rosie Harnden, Mrs. Bion Wing and Miss Florence each gave 10 cents and a friend paid 10 cents for Mr. Norman Shepard. Miss Pearl Dunham gave a beautiful photo frame and the rest intend to make silk and worsted squares to pay their initiation fee.

Too much praise cannot be given our new sister, Mrs. Rose Harnden, though she has been a member only a few weeks she has always been a great sunshine scatterer. Through her kindness (the president is informed) a worsted quilt has been started and is well under way. The president has her to thank for many hours of sunshine, and she

It was started a few years ago by Mrs. Cynthia Westover Alden of New York City and duly incorporated under the laws of the state of New York, February 1900. From time to time many new branches have been formed until every state and nearly all the territories, as well as nearly all the foreign countries, have duly organized branches, making sunshine for millions of people. Its object is to incite its members to a performance of kind and helpful deeds. Its membership consists of people who are desirous of brightening life by some thought, word or deed. There is not the slightest suspicion of charity connected with this society, but its incentive is to bring the sunshine of happiness into the greatest possible number of hearts and homes.

To give a little insight as to its workings in Franklin county, I herewith append the monthly and annual reports of the Franklin County branch:

REPORT FOR FRANKLIN CO. BRANCH, NO. 1, I. S. S., FOR APRIL AND MAY.

feels justified in saying that she is a prize in this branch, an efficient worker and a woman full of the blessed sunshine spirit. Through her efforts many of our new members have caught the sunshine and cheerfully joined our ranks. We now have a membership of 58 loving and cheery members and we hope when fall returns and the president again takes up the work she so dearly loves all will be ready and willing to be enthusiastic coworkers with her.

The chain letter of ten links, which Miss Davenport started one year ago the 24th of April, was received April 24, 1902, just one year from the time it was sent out. As soon as she finds time she will replace her old letter with a new one and send it forth on its second mission of good cheer.

A wonder box has been started for one of our members, a dear shut in, who is very worthy of all the sunbeams we can make for her. It is hoped each member will send something to Miss Davenport to put into it. Anyone wishing to brighten this invalid's life can do so by sending some little token with a kindly greeting or verse and name. As it is gotten up for a surprise the member's name will not be mentioned until the presents have all been received and the wonder box sent to her.

Mrs. Delano of Abbott is sending the Journal magazines to Mrs. Lena Reed. She sent out during April and May 30 cheery letters, four postals, 32 magazines, picture, photo frame, subscriptions to magazines, flowers, cake, money.

From one dear little woman comes this in a report of sunshine work: Loaned three books, made three calls, gave slips of plants, wrote seven letters, three postals, sent birthday calendar, apples, and gave clothing where it was needed. Have tried to be thoughtful and unselfish and have received much sunshine myself by so doing. From another I. S. S. worker comes the following good report: Wrote and sent out 26 letters, eight envelopes of clippings, four envelopes of canceled stamps, 20 bundles of reading, one box of reading to convicts in jail, six postals.

Many substantial rays of sunshine have been made by members who do not care to have their names used. I tro Muros and the Prince of the House of David have been passed on. A monthly magazine will be sent to Mrs. Lena Reed, Mrs. Nellie D. Adams and Mrs. Augusta Hood for one year by Miss Carrie E. Davenport.

Received from friends and members, six letters, two postals, six stamps, 10 cents, box of cards and booklets and 25 cents to pay for subscription to magazine for one year to be sent to a worthy member; in His Steps, photo frame, honey, four silk squares from Rosie Harnden, one for her mother, Mrs. Silas Wing and one for her daughter, Miss Esma, two for herself; one silk square, Nettie Russell; one silk square, Mrs. Mae Bicknell; two silk squares, Mrs. Nellie Adams; one silk square, Pearl E. Dunham.

As the dear state president has granted Miss Davenport a much needed rest no reports will be made during the summer months, and those who do not hear from her will please accept this report in place of a letter, as she cannot do much letter writing during her vacation but must improve it in regaining health and strength.

CARRIE E. DAVENPORT,
President Franklin County Branch,
No. 1, I. S. S.

ANNUAL REPORT OF THE INTERNATIONAL SUNSHINE SO. OF FRANKLIN CO.

The president of the Franklin County Branch, Number 1, I. S. S., herewith submits the following report.

This young branch, although less than a year old, situated among the mountains, hill and valleys of one of the most picturesque sections of the Old Fine Tree state, has steadily gained in numbers from fourteen to a membership of fifty-five, many of this number being active workers. When we stop and consider that no meetings have been held as yet, and the president is a young girl with delicate health, we feel that the branch has quite a good showing for one of its age.

While we have accomplished very little compared with other branches of the I. S. S., our work has not been fruitless and many lives have been made brighter and happier by the sunshine we have scattered in their pathway. Our pathway has not been strewn wholly with roses, many a time sharp thorns have pierced our feet, yet we have labored on hoping for brighter days to come. While our branch is crippled financially, and only a very few members report sunshine regularly, we are still persistently laboring onward doing for others in His Name.

New members received during 1901, 41; cheery letters written and sent out, 360; postals, 30; papers and magazines, 600; large bundles of papers and magazines, 71; boxes of cut flowers, 25; sent to President General, Mrs. Alden, for branch dues, 50c.; sent to State President, Mrs. Heald, for ice box, 10c.; books, 12; booklets, 18; scrapbooks, 3; numerous birthday cards and booklets, Christmas booklets and New Year's cards, worsted yarn, fancy blotters and sachets, stationery, generous lot of Perry pictures, pair of beautiful bed slippers, scripture cards, ten squares for quilts, tracts, comfort powders, silk and satin scraps, 7 pkts.; dainty envelope libraries, 6 pkts.; crocheted articles, cards and pictures for scrapbooks, 5 pkts.; clothing, numerous sunshine cards made by members, 1. S. S. clippings and reports, innumerable magazines and books loaned, comforters, 2; chain letter among county members, chain letter among 10 I. S. S. sisters, chain letter copies, 5; envelopes, canceled stamps, 5; five magazines to be sent deserving members for the period of one year, box of envelopes, libraries, scrapbooks and other things, box of reading taken to convicts in jail, photograph frames, 5; furniture, envelopes of clippings, 8; memorial pictures of President McKinley, 2; fruit and pattern, my baskets, (beautiful designs), 10; money.

Many things have been sent out besides the above named and each opportunity improved to make sunshine for those in need of it. A silk quilt has been started and is well under way. The quilt will be sold when completed, proceeds going toward the Franklin County Branch fund.

Good cheer received from people interested in this good work is as follows: Cash, \$1.60; stamps, 75 cents, the rest being furnished by a dear friend of the president's; 33 beautiful silk squares for Sunshine quilt; 100 cheery letters; 25 postals; three boxes reading matter; 150 magazines and papers; 1 print square; five boxes flowers; many cards and pictures for scrapbooks, picture puzzles, cards, tracts and bird envelopes, booklets, crocheted mat, songs, beautiful scrapbooks, 30 cents for votes in oil painting contest, pictures and Japanese novelties, one year each Woman's Home Companion and Cosmopolitan, 1 pair beautiful bed slippers, 1 year's subscription to Ladies' Home Journal and Ladies' World, 3 year's subscription to The Winner, 2 large rolls silk pieces, honey, box of scrapbooks, picture and cards.

Anyone wishing to contribute any thing to this branch can do so by sending direct to the president.

AMONG THE FARMERS.

A Farmer That Always Raises Yellow Corn.

Hay Crop Is Assured For This Year.

PHILLIPS, June 17, 1902.

(Special Correspondence to the MAINE WOODS.)

West Phillips can boast of as good a farming section and of as successful, enterprising and prosperous farmers as any part of the town. Mr. William F. Calden, who owns and lives on what was formerly known as the Eveleth farm, has 250 acres, and a right good farm it is, too. Fifty tons of hay are cut each year. Eighteen head of cattle were kept at the barn last winter, thirty-five sheep and one horse. Mr. Calden was asked which there was the more profit in, Cows or sheep. His reply was this: "Neither cows or sheep are really my kind, although I keep, and always have, a few cows and a flock of sheep. My best hold is, and always has been, steers and oxen. Now it does not begin to cost so much to do the work with oxen as with horses. It does not cost but little to rig up for oxen, and one can turn them any time for a good price. Anyway you can fix it, in order to make farming a success, the farmer must attend to business, and must work. Tell the farmers to keep the bushes cut in the pastures that is one of the ways of attending to business."

Mr. Calden says the grass crop is the most important of any for the farmer. Oats are also a profitable crop to raise. This gentleman has lived on his farm forty years and never failed to raise a good crop of yellow corn. This farm has upon it a fine wood and timber lot and Mr. Calden and his son Fred cut and haul to market each winter, a good amount of white birch, which they deliver at Madrid village.

All the people know Mr. Calden and his good wife and also know that they have been industrious and have well earned the right to be classed among the thrifty and leading families of the town. Call on them when in West Phillips and to start with, I guarantee you a right royal welcome.

smoke rising from some burning cut down. Not much clearing is done nowadays, and for good reasons. In the first place, the best of the land has already been cleared, and if it were not so, the wood and lumber on a fairly well timbered lot, with the high price and quick market for the same, makes it much more valuable as it is than it would be in field or pasture. But what an immense amount of hard labor it has taken to fell the trees and clear up the nice fields and pastures in all the towns. The usual time for chopping a cut down was in June, after the leaves had got fully grown, for the leaves after becoming dry helped wonderfully about getting the fire over the piece to be burned, and a good burn was what everyone hoped and prayed for when clearing land. Large crops of wheat, oats and barley were raised on these new pieces and corn was frequently planted among the stumps which invariably yielded good returns.

These pieces were usually seeded with clover and herdsgrass the first year and the next year the clover would be cut for seed and brought a good price.

There is not so much stress placed upon raising a corn crop now as there used to be, but a corn barn full of nice large yellow ears would be as important a factor on the farm as it ever was.

The hay crop is assured for this year and it is well that it is so. We shall need it all, for Aunt Anna Beal says, "It is so cold and wet that nothing but grass will grow and we shall all have to eat hay this year." A farmer down in Temple used to have a pretty good idea of getting all the hay there was. He hired a large crew of men each year in the haying season. The mowing and raking was all done by hand and in a year when the crop was rather light he would say, "Get it clean, boys, get it clean and there will be enough." And in an abundant year he would say, "Get it clean, boys, get it clean, there won't be any too much." What a good idea this is to be able to adapt oneself to the circumstances as they come.

Second District Convention.

The Second Congressional District convention in City hall, Lewiston last Tuesday was very well attended. There were 332 delegates reported present out of a possible 375 and there was a big audience of spectators in the galleries.

The chairman was Ralph W. Crockett, Esq., of Lewiston.

For Franklin county the following offices of the convention were chosen: Secretary, Frank A. Emery, Jay; vice president, Phineas Richardson, Rangeley; chairman of committee to notify Mr. Littlefield of his nomination, J. W. Fairbanks, Farmington; committee on resolutions, Geo. M. Currier, Farmington.

J. W. Brackett of Phillips was chosen member of the district committee.

Mr. Littlefield was put in nomination by H. n. Harold Sewall of Bath, who was seconded by Henry W. Oakes, Esq., of Auburn and Hon. Kendall M. Dunbar of Damariscotta.

Mr. Littlefield's speech of acceptance was somewhat remarkable for the forceful manner in which he treated local as well as national issues. His complimentary reference to candidates for sheriff and county attorney in Androscoggin brought out prolonged applause from the floor and galleries.

The Franklin county delegates as per credentials were:

Avon—Joel Wilbur.
Wilton—C. Fenderson, D. G. Bean, F. J. Goodspeed, W. C. Chamberlin.
Farmington—J. W. Fairbanks, Geo. G. Witham, J. P. Barrett, J. M. S. Hunter, John H. Clayton, E. S. Dragg, Geo. M. Currier.
New Vineyard—O. C. Voter, E. J. Voter, E. E. Toothaker.
Lang Plantation—George Z. Vaughan.
Kingfield—O. W. Simmons, Frank Stanley, H. S. Wing.
Rangeley—W. L. Butler, Phineas Richardson.
Strong—W. L. Jones, C. W. Shaw.
Salem—Nelson F. Harris.
Temple—E. F. Conant.
Carthage—John M. Gutchell.
Weld—H. M. Barrett, A. J. Nelson.
Jay—F. A. Emery, A. D. Brown, Chas. A. French.
New Sharon—W. C. Hargrave.
Phillips—S. G. Haley, William True, Hartley G. Kenniston.

For a few days call on W. A. D. Cragin for free sample of Phenyo Caffein.

Kingfield.

The services in the Evangelical church Sunday morning will be preaching at 10.45, evening service at 7. The pastor will preach in the morning from the text, Acts xxvi, latter clause of the 28th verse, "Almost thou persuadest me to be a Christian." All are welcome.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and for adults. No family can afford to be without it. For sale by W. A. D. Cragin, Phillips; E. H. Whitney, Rangeley; C. E. Dyer, Strong and L. L. Mitchell, Kingfield.

Resolutions of Respect.

RACES AT KINGFIELD.

Marcia T and Viola V Win In Their Classes.

Driver Pottle Thrown and Badly Injured.

[Special correspondence to the Maine Woods.]

KINGFIELD, June 18, 1902.

Tuesday morning dawned fair and bright and gave promise of the right weather for an enjoyable horse trot. A large crowd gathered at the park to witness the races which were to be held under the auspices of the Kingfield Driving association.

Excursion trains were run from Bigelow, Farmington and Phillips, giving the people along the lines an opportunity to attend the races and return by special train. A large number of the Phillips people drove over in the forenoon.

The 235 class was the race of the afternoon, four horses starting. Marcia T, owned by T. M. Parker of Phillips, and Dilly, owned by Dr. Bell of Strong, were very well matched. Marcia T took the pole and won the first heat, while Dilly took the second. The third heat started with Dilly at the pole but Marcia T easily took it at the quarter mark.

SUMMARY.

Marcia T, Parker, Phillips,	1 2 1 1
Dilly, Vose, Kingfield,	2 1 2 2
Lazerine, Thompson, Kingfield,	3 3 3 3
Twinkle, Davis, Kingfield,	4 4 4 4
Time, 2:34½, 2:34, 2:33, 2:34½.	

Starter, A. D. Horn; judges, Joe Witham, Weld, L. A. Worthley, Phillips; timers, Doctor Rollin, Phillips, Frank Stanley, Kingfield.

In the 250 class there were four starters: Viola V, owned by W. Hutchinson, Livermore; Hiram H, by E. McMullen, Kingfield; Lotta Lynn, by M. Quinn, Livermore Falls and Iona, owned by Frank Haley, Phillips. Viola V took the pole each time, winning the race in three straight heats. Iona came in second each time, but followed very closely upon Viola V.

SUMMARY.

Viola V, Hutchinson, Livermore Falls,	1 1 1
Hiram H, McMullen, Kingfield,	3 3
Lotta Lynn, Pottle, Livermore Falls,	4 2 2
Iona, Haley, Phillips,	3 3 3
Time, 2:42½, 2:41, 2:46.	

A bad accident happened at the beginning of the races, which tended to dampen the enthusiasm of the horsemen and took from the afternoon's pleasure of the entire company. Just before the first half was completed in the first race of the 250 class, Lotta Lynn, driven by I. W. Pottle, fell, tangling herself in the harness and throwing Mr. Pottle several feet. Three of the small bones and some of the ligaments of the wrist were broken and his face was badly scratched, but the doctors think that no internal injuries were sustained. Mr. Pottle was taken directly to the home of Dr. Simmons where he was attended by Dr. Simmons assisted by Drs. Bell and Spear. At the last report he was as comfortable as could be expected. The horse was not hurt very severely, being cut somewhat about the mouth.

The many friends of Mr. Pottle expressed their sympathy in a purse of \$60 as well as by their many kindly attentions to him and to Mrs. Pottle.

While the races were going on a lively game of ball was being played between the Kingfield and Phillips teams. The Phillips boys had everything pretty much their own way up to the seventh inning, when the Kingfields began to score. The score stood, Phillips 21, Kingfield 7.

In and About Strong.

[Special correspondence to the Maine Woods]

STRONG, June 17, 1902

Mr. Frank Guild of Farmington spent Sunday with his brother, W. L. Guild.

The High school went up Mount Blue on an excursion last Saturday.

Mrs. Thomas Whiteside entertained the Ladies' Aid at their last meeting.

Mrs. James Morrell and Mrs. Gertrude Record of Malden are in Strong for the summer.

The game of ball between the Phillips and Strong Grammar School ball nines resulted in a victory for the home team with a score of 8 to 7.

LIQUOR FINES PAID.

Children's Day Observed With Appropriate Exercises.

[Special correspondence to the Maine Woods.]

FARMINGTON, June 17, 1902.

The temperance question is playing a considerable part in the politics of the county. It was on a platform of enforcement that the present sheriff was elected two years ago, and whose administration was endorsed at the recent convention of the Republicans held here.

During the past eighteen months there has been received from the liquor dealers in fines, \$3600, a considerable amount to be turned into the county treasury by lawbreakers.

There are rumors out that this question will be fought out again when it comes to the appointment of deputies next fall.

Repairs are going on at the jail. The end cells are being barred with rods six inches apart. Water is being put into some of the cells. Washbowls are being put in so that prisoners may be kept in closer confinement, if desired.

Sunday was observed as Children's Sunday at the Methodist church. During the morning service the infant child of Mr. and Mrs. French and the infant child of Mr. and Mrs. Turner were baptized by the pastor, Rev. W. P. Lord. The pastor then preached an illustrated sermon to the children of the Sunday school. In the evening the Sunday school presented a cantata, "Hearts of Gold." Thirty children took part in this exercise. The most of them were dressed to represent some flower. The kindergarten class sang a very pretty motion song. Mrs. Lord had charge of the cantata. The very pretty decorations were arranged by Mrs. Keith and Miss Carrie Dudley.

Phenyo Caffein has been used for fifteen years and has become a standard remedy for Neuralgia.

THE WIDOW TAX.

In Mindanao a Wife's Death Costs the Widower One Hundred Plates.

Becoming a widow or a widower is a much more serious business than getting married among some of the tribes in the Philippines. In Mindanao "marrying in haste" often leads to a prolonged "repenting at leisure," for they have an institution there known as the "widow tax"—"chabaloon" the natives call it. Upon the death of the wife the widower must pay a certain sum of money or its equivalent in goods to his father-in-law before he can go a-courting again. As money is a scarce article among these natives, the tax generally is paid in plates of common "stone china," which are much used by the natives as a medium of exchange. It is considered the proper thing for the bereaved one to pay 100 of these plates to his father-in-law for permission to look about him for a successor to the deceased helpmate.

If the husband dies, the widow at once becomes the property of her parents-in-law and so remains for life unless some relative comes forward and produces the necessary number of dinner plates. The natural result of this is that married people are all extremely solicitous for the health of each other. In sickness the invalid is sedulously attended by the partner of his or her joys and sorrows, the well person perhaps being moved more by the thought of those hundred plates than by real affection.

Divorce is unknown among these people, but a man may have as many wives as he pleases. It will be seen that in case of an epidemic which would sweep away his wives a married man would be in dire extremity. In the case of a death of a much married man his parents come into a small fortune, for they either have enough slaves to render future work on their part unnecessary or they receive enough plates from the families of the widows to set up a crockery store.

DWARFING AN OAK TREE.

The Japanese Trick by Which It Is Accomplished.

The Chabo Hiba, a dwarf Japanese pine tree, was recently sold for \$1,200. It is six feet high and alleged to be 850 years old. It has long been supposed that the process by which Japanese gardeners succeeded in dwarfing forest trees was a long and costly one. It is now said that it is a simple process and that any one can do the trick. The following directions are given for producing a miniature oak tree:

Take an orange and scoop out the pulp. Fill the interior with a rich mold and plant an acorn in the center of it, leaving the hole in the rim for it to sprout through. Put it in a sunny place and water it frequently. Soon after the first shoots have appeared the roots begin to break through the orange skin. Take a sharp knife and shave these off carefully and keep them shaved. The tree will grow about five or six inches high and then stop. In a year it will be a perfect miniature oak. When the roots cease to grow, the orange skin should be varnished over and imbedded in a flowerpot.

The Japanese dwarf all kinds of trees and make them live to a great age. Some of these dwarfs, like the Chabo Hiba, are well known, and their owners have documentary evidence attesting their great age. The older they are the more valuable, of course, they are. In Japan certain families follow the calling, trade, art, or what you will, of growing dwarf trees from generation to generation, and you can buy a miniature oak 500 years old from a descendant of the man who first planted the acorn. Not only forest trees, but fruit trees and flowering shrubs, are dwarfed by these clever gardeners.

For all sick or nervous Headaches use Phenyo-Caffein.

WHEELER & WILSON

SEWING MACHINE CONTEST.

For Weld, Dixfield and Carthage.

On Monday, Aug. 25, 1902, a Wheeler & Wilson Sewing Machine will be given to the lady in any of the towns named above who receives the largest number of votes. Any lady in these towns may enter [the] contest.

Rules of the Contest.

It is essential to the contest that the names of not less than two contestants appear and remain actively engaged until the close. In the event of the withdrawal of all active candidates but one, there can be no contest and the prize will be withdrawn.

A coupon will be printed in each and every issue of the MAINE WOODS until and including Friday, Aug. 22, 1902, which will contain the last coupon. The contest will close at the paper's business office at 6 o'clock p. m. the following Monday, Aug. 25, when the votes will be counted by a committee representing the leading contestants.

1. For every yearly new subscriber to this paper at \$1 two hundred votes will be given. A new subscriber may pay as many years in advance as he wishes and receive votes at the rate of 200 for each \$1 per year paid; but all these payments must be made in advance at one time.

2. For every \$1 paid by present subscribers, either arrearages of accounts or in advance on present subscription, one hundred votes will be given.

3. Changes in subscriptions from one member to another of the same family, etc., made for the obvious purpose of securing the increased number of votes given to new subscribers, cannot be permitted.

4. Each issue of the MAINE WOODS will contain one coupon, which, when filled out and delivered at the MAINE WOODS office, will count as one vote. There will be no single votes for sale; votes can only be obtained as above set forth, or by clipping from the paper the votes that appear below.

Votes will be counted each Wednesday during the contest and the figures of such counting printed in the following issue of the paper. All communications should be addressed to Voting Contest, this office.

Accident at Ball Game.

The Phillips High School Ball team played the town team at Toothaker park Wednesday afternoon. At least the game was begun, but was brought to a close in the fifth inning by an unfortunate accident. Willie Steward was at the bat. When he hit the ball it rolled up the bat and struck him in the nose, breaking that organ. Dr. Hilton was present and attended him.

The town team was proving too much for the boys as the score stood 10 to 1 at the time of the accident.

Summer School at Wilton.

June 15th Mr. and Mrs. Willis E. Bacheller of New York City opened a summer school at Wilton. They give instruction in French, German, Italian, sight reading and chorus singing. Mr. and Mrs. Bacheller's Franklin county friends will be pleased to know that they have purchased ninety acres of land on the shores of Wilton lake and have there built a number of camps where they offer a most delightful combination of vacation study and camping out.

Letter to Burton A. Dickey, Strong, Me.

Dear Sir: Here is a curious condition in the paint business, but it exists. N. Avery, Delhi, N. Y., owns two houses exactly alike; he painted one with a mixed paint—took 12 gallons. Painted the other with Devco; bought 12 gallons and had 6 gallons left. Same painter; George Gilbert. Same result, so far as looks go.

As you are not a paint maker, you probably don't understand why a gallon of Devco lead and zinc contains twice as much paint as a gallon of some of the mixed paints. We'll tell you: A gallon of milk that's half water, isn't a gallon of milk; neither is a gallon of paint that's half lime and china clay, a gallon of paint. The following is the analysis of one of the mixed paints sold in your section:

Lead, zinc and color 41 per cent
Lime and China clay 59 "

This 59 per cent of Lime and China clay is whitewash; it is to paint what water is to milk—adulteration; consequently this paint contains only 41 per cent of legitimate paint material (lead, zinc and color) while Devco lead and zinc contains 100 per cent.

That explains why a gallon of Devco lead and zinc contains twice as much paint as a gallon of some of the mixed paints.

Yours truly,
F. W. Devco & Co.

Mrs. Ed Lamb's sister, Mrs. Field of Phillips, visited her through Quarterly meeting.

Mrs. Lafe Kempton attended the Commencement concert, also the graduating exercises of Farmington State Normal, Wednesday and Thursday of last week. Her friend, Miss Mae Clark, was one of the graduates.

Mr. G. A. Proctor has several men at work on the foundation of the new post office building, near his store on Main street.

Mr. Harry Look of Farmington is boarding at G. A. Proctor's on Lake street. Miss Vena Tibbetts is at work there.

Ira Hutton will work for F. L. Marchetti at his store on Main street this summer.

Mrs. Joel Carleton of Phillips has been visiting at Mr. and Mrs. Marsh Carleton's.

Martin Nile of Rumford Falls was in town last week visiting Mr. and Mrs. Alvin Berry.

Mrs. Guy Everett is sewing for Mrs. Emery Haley in her dressmaking rooms on Pond street.

Mr. Will Haines has finished work in Alexis Blodgett's blacksmith shop and is now at work on the Phillips & Rangeley railroad section. Mrs. Haines is visiting in Phillips.

Mr. Clarence E. Morton was at Bemis over Sunday, coming from Boston with the Pullman car. Mr. Morton has been in the Pullman car service two years. Last winter he was on trains running from Montreal to Chicago and other western cities. This summer he will be on the Farmington and Rockland routes. Mr. Morton will be remembered as a former Rangeley boy and who commenced railroading as newsboy on the narrow gauge trains.

The Joshua Simpkins company will appear here at a later day. Read advertisement in another column.

Virulent Cancer Cured.

Starting proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, V. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters, 50c, Salve, 25c at W. A. D. Cragin's, Phillips; C. E. Dyer's, Strong; E. H. Whitney's, Rangeley; L. L. Mitchell's, Kingfield.

Serious Accident at West Phillips

Mr. John E. Holman, the man of all work in his mill, while going from the upper to the lower part of the mill slipped and his right foot came in contact with a small circular saw, splitting the foot lengthwise from the bottom to his instep, crushing his second and third toes to a mass of fragments.

Dr. Hilton of Phillips was called to dress the wound and found it necessary to remove quite a portion of the foot and over 20 stitches were taken. Great credit is due the doctor for his very fine surgical work.

This is a sad accident for Mr. Holman, as he has just completed his mill and was doing a thriving business. Mr. Holman is an honest, hard working man and has the heartfelt sympathy of a large circle of friends.

Grass is looking fine, all hood crops soaked, and business rushing on the border.

Grange Notes.

The all day meeting of North Franklin grange held Saturday, June 14, was well attended, notwithstanding that quite a number of the patrons attended the dance the previous evening.

The meeting was called to order at the appointed hour by Worthy Master C. O. Dill. The third and fourth degrees were conferred. A bountiful harvest dinner awaited all at the close of the degree.

At the close of the social noon hour the master's gavel again called the meeting to order and a literary program was well carried out. The question: "Does the Farmer Need a Special Education?" was opened by County Deputy B. C. Powers, followed by others. Remarks for the good of the order were made by James Morrison. Several readings were given by the sisters.

Quite a number of the patrons are looking forward to the Pomona meeting at Rangeley.

The dance held at the Grange hall, Friday evening, was largely attended. A special train was run from Rangeley which brought about fifty. Everything passed off pleasantly and all pronounce it a great success. The music was furnished by Fuller's orchestra and one expects an enjoyable evening when such good music is to be had.

CORRESPONDENT.

Notes From West Phillips.

The Berlin Mills company is turning out about 20,000 of lumber per day. Mr. Lockhart's teams are hauling it to Madrid station.

Omer Jones, sawyer for this company has recently bought a nice Alalayone colt of S. Warren Bates.

Walter Hodges closes his job on the road machine this week.

All hood crops are late this season.

Mrs. Willis Hardy of Livermore Falls is at present at her father's, W. F. Calden's. Mrs. Hardy has been seriously ill but is rapidly improving under the care of Doctor Toothaker.

Joseph Haley, who is cutting poplar for his uncle, S. G. Haley, and who recently was injured by a falling tree is around again. His scalp was sewn up by Doctor Hilton. There were two severe cuts.

It is safe to say that the help at Berlin Mills Co's plant make the trout fishing on the south branch a matter of doubt as far as success is concerned. No one blames them; the boys work hard and well deserve all the pleasure they get trout fishing.

A big hay crop seems certain, but the old fields will not be overburdened in spite of the abundant rain.

CHANGE OF LIFE.

Some Sensible Advice to Women by Mrs. E. Sailer.

"DEAR MRS. PINKHAM:—When I passed through what is known as 'change of life,' I had two years' suffering,—sudden heat, and as quick chills would pass over me; my appetite was variable and I never could tell for

MRS. E. SAILER, President German Relief Association, Los Angeles, Cal.

a day at a time how I would feel the next day. Five bottles of Lydia E. Pinkham's Vegetable Compound changed all that, my days became days of health, and I have enjoyed every day since—now six years.

"We have used considerable of your Vegetable Compound in our charitable work, as we find that to restore a poor mother to health so she can support herself and those dependent upon her, if such there be, is truer charity than to give other aid. You have my hearty endorsement, for you have proven yourself a true friend to suffering women."—Mrs. E. Sailer, 756 1/2 Hill St., Los Angeles, Cal.—\$6.000 forfeit if above testimonial is not genuine.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for no other has had such great experience—her address is Lynn, Mass., and her advice free—if you are sick write her—you are foolish if you don't.

UP IN KINGFIELD.

Franklin County Sunday School Association to Meet Here.

[Special correspondence to the MAINE WOODS.]

KINGFIELD, June 17, 1902.

The Webster library is not open to the patrons Saturday afternoons from 2 o'clock to 4 and from 6.30 to 8.

The call is out for a town meeting to be held Saturday afternoon of this week to see if the town will vote to sell the townhouse, and to see if they will vote to extend the electric light service on the street leading from the house of Geo. Simmons to that of I. N. Stanley.

Carr oll Butts is now able to be out his foot being in a plaster cast.

Mrs. Con Knapp is among the sick ones reported.

Mrs. Wallace is suffering from neuralgia in her face.

Mrs. M. D. P. Thompson is improving.

Mr. E. S. Larrabee was at home from Lewiston over Sunday.

Mr. Bert Stevens has gone to Stratton to work in the novelty mill.

O. W. Gilbert went to Portland the last of the week and returned Monday. Carl Lander tended his store in his absence.

Mrs. Fannie Howe has returned from her visit in Boston and New York. She led the social service in the Evangelical church Sunday.

Jack Glidden, the veteran crow hunter, who works on the Franklin & Megantic railway broke his record last Thursday by catching a big crow with his hands while walking his section over Savage hill. Jack can outwit the best of them.

The average attendance in the Kingfield Grammar school for the past week was 98 6-7 per cent; in the Intermediate school, 91 11-19 per cent.

Carl Curtis is to move into the Dr. Simons house this week.

Mr. and Mrs. A. W. Mayo of Freeman visited Mrs. J. B. Mayo Sunday.

The town schools close this week. Miss Talcott of the Intermediate school will not return, but will attend the Normal at Farmington next fall.

The young people of the Universalist parish will give "Dot, the Miner's Daughter," at French's hall Friday evening.

The subject of the evening service at the Universalist church Sunday evening will be "The Japanese at Home." The lecture will be illustrated by 60 slides. The Kingfield people will be interested in this subject since they support a missionary in that field. The first half hour will be a praise and song service, after which will be the lecture.

Kingfield fire brigade was out for practice last week directed by Doctor Simons. They made a favorable impression.

Mr. E. C. Williamson's little son Floyd has been very low with spinal meningitis. At one time his life was despaired of. He is now improving.

Mrs. Minnie Willie of Madison and child are visiting at her father's, H. H. Hutchins'. She expects to remain about two weeks.

A fine moose made his appearance near the residence of Mr. E. Tufts on two occasions last week. He seemed undisturbed by civilization and for some time quietly cropped the grass near by.

Mr. John Oliver, who has been confined to the house since last November, is improving. Friday of last week he got out to the barn, a place he has not been since his first attack. He also took a short drive through his fields and greatly enjoyed the bracing mountain air.

The public schools of the village had a half holiday Tuesday afternoon. Parents are asking why? Rumor says horse trot. My, my, who is responsible for lowering the educational standard? It is hoped other towns will not copy.

The Joshua Simpkins company will appear here at a later day. Read advertisement in another column.

Doctors E. L. Pennell of Kingfield and Brock of Portland were called upon to operate for tumor upon Mrs. Harvey of West New Portland one day last week. Mrs. Harvey stood the operation well though very weak from protracted illness. Long development made removal unsafe and unwise but we are pleased to know the patient is relieved. Mr. and Mrs. R. C. Butts have gone to West New Portland to stay with Mrs. Harvey for a time during her illness.

The Franklin County Sunday School association will hold its June session in the Free Baptist church at Kingfield, June 24. Special rates on Sandy River and Franklin & Megantic railroads. Fare from Farmington and return, \$1.00; from Strong, 60 cents; from Phillips, \$1.00. Professor Hathorn of Wilton will speak in the evening at 8 o'clock. Everybody is invited to attend.

The program for the meetings follows:

Swimming.

"No man can ever hope to be a strong swimmer unless he cultivates the power of endurance in the water," says a professional. "It costs me no more exertion to swim for an hour than it does to walk for the same period of time."

"In swimming a man should time his stroke with his breathing. He should take but one stroke to each breath. In this way the muscles of the body work in conjunction with the lungs, and no energy is wasted. In salt water, which, of course, is more buoyant than fresh water, a man who has trained himself in this way should have no difficulty in keeping afloat, say he were shipwrecked, until sheer weakness from hunger and thirst would force him to succumb."—Philadelphia Record.

Daly's Impeccuous Employee.

The late Augustin Daly had in his employment a man who always addressed him a note periodically asking for an advance of money. This note was invariably answered by a most abusive letter, in almost insulting terms and threatening instant discharge if the offense was ever repeated—and in closing a check for the money!

At regular intervals of about three months the man invariably made the same request, with the same results, always, however, getting a check inclosed. And thus it continued until Mr. Daly's death.—New York Times.

Accident In Camp.

Saturday afternoon the men who were peeling poplar at S. G. Haley's camp in No. 6, felled a tree and it struck Joseph Haley upon the head, stunning him and cutting two quite large gashes in his scalp, one going to the bone. Dr. Hilton was called and dressed the wound.

It seems that the men saw the tree was going to hit Haley and shouted to him, but he could not get out of the way in time. The tree was about four inches in diameter and was dead. Had it been sound worse results might have followed.

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. STRICKFADEN, editor World-Herald, Fair Haven, Wash. For sale by W. A. D. Cragin, Phillips; E. H. Whitney, Rangeley; C. E.
